Any potential private plaintiffs who might have been damaged by the alleged violation will retain the same right to sue for monetary damages and any other legal and equitable remedies that they would have had were the proposed consent judgment not entered. However, pursuant to Section 5(a) of the Clayton Act (15 U.S.C. Section 16(a)), as amended, this judgment may not be used as prima facie evidence in private litigation.

PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED CONSENT JUDGMENT

The proposed consent judgment is subject to a stipulation between the Government and UATC which provides that the Government may withdraw its consent to the proposed judgment any time before the Court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed judgment provides for the Court's retention of jurisdiction of this action in order, among other reasons, to permit any of the parties to apply to the Court for such orders as may be necessary or appropriate for the modification of the final judgment.

As provided by Section 2 of the Antitrust Procedures and Penalties Act (15 U.S.C. Section 16), any person wishing to comment upon the proposed judgment may, for a 60-day period prior to the effective date, submit written comments to the United States Department of Justice, Attention Bernard Wehrmann, Chief, New York Office, Antitrust Division, 26 Federal Plaza, New York, New York 10007. Such comments and the Government's response to them will be filed with the Court and published in the FEDERAL REGISTER. The Government will evaluate all such comments to determine whether there is any reason for withdrawal of its consent to the proposed judgment.

DETERMINATIVE DOCUMENTS

There are no materials or documents which the Government considered determinative in formulating the proposed consent judgment. Therefore, none is being filed with this competitive impact statement.

[2] The Whitman Theatre in Huntington, New York, which is owned jointly by UATC and another exhibitor, is excluded from this prohibition to allow the joint ownership arrangement to be dissolved.

ALTERNATIVES TO THE PROPOSED JUDGMENT ACTUALLY CONSIDERED BY THE GOVERNMENT

An alternative to the proposed consent judgment considered by the Government was a full trial on the merits in order to obtain full divestiture by UATC of all of the theatres acquired from Prudential. The Government determined that the additional relief which might be obtained at trial did not justify the commitment of manpower and resources. The divestitures required by the proposed judgment will substantially reduce UATC's additional bargaining power, thereby dissipating the primary anticompetitive consequence of the acquisition. Therefore, there is a real possibility that the Court would order relief no greater than that provided for in the proposed judgment.

The Government also considered various alternative provisions in negotiating the proposed judgment with counsel and officials of UATC. Thus, a number of different groupings of theatres was considered in determining which theatres would be divested. The theatres finally chosen represent a balanced cross-section of the former Prudential theatres in the New York Metropolitan Area, having been selected on the basis of film runs, performance, location and neighborhood competitive conditions. After some consideration, none of the former Prudential theatres in Wisconsin were included in the divestitures. These theatres do not relate to the Government's theories of illegality and form no real part of its case.

After considering various methods of divestiture, the Government determined that the proposed judgment should provide for divestiture by sale, lease, sublease or assignment in order to interest as many potential purchasers as possible and increase the likelihood of successful divestiture. Similarly, in recognition that 23 separate theatres must be divested, the proposed judgment allows UATC 60 months within which to complete the divestitures.

The Government considered extending the prohibition against future theatre acquisitions by UATC to include the entire New York Metropolitan Area. It determined, however, that a prohibition limited to Suffolk, Nassau and Queens counties would be sufficient since these are the counties most central to the theories of the case. In addition, the provision in the judgment requiring UATC to give 60 days notice of any theatre acquisition in the remainder of the New York Metropolitan Area will enable the Government to move, in a separate suit, to enjoin and restrain any such acquisition which it believes to be significantly anticompetitive.

Dated: July 26, 1976.

Office of the Attorney General

[Order No. 658-76]

PRIVACY ACT OF 1974

System of Records

On June 9, 1976 the Department of Justice published in the FEDERAL REGISTER (41 FR 23215), in accordance with 5 U.S.C. 552a(e)(4) and (11), a notice of a proposed new system of records to be maintained by the Criminal Division of the Department of Justice. Interested persons were invited to submit written comments on those portions of the notice which described the routine uses of the proposed system of records, not later than July 9, 1976. No comments were received and the proposed routine uses are hereby adopted.

Dated: July 23, 1976.

EDWARD H. LEVI,
Attorney General.

JUSTICE/CRM-024

System name: Freedom of Information/Privacy Act Records.

System location: U.S. Department of Justice, Criminal Division, 10th & Constitution Avenue, N.W., Washington, D.C. 20530.

Categories of individuals covered by the system: Persons who request disclosure of records pursuant to the Freedom of Information Act; persons who request access to or correction of records pertaining to themselves contained in Criminal Division systems of records pursuant to the Privacy Act; and, where applicable, persons about whom records have been requested or about whom information is contained in requested records.

Categories of records in the system: The system contains copies of all correspondence and internal memorandums related to Freedom of Information and Privacy Act requests, and related records necessary to the processing of such requests received on or after January 1, 1975.

Authority for maintenance of the system: This system is established and maintained pursuant to 44 U.S.C. 3101 and is maintained to implement the provisions of 5 U.S.C. 552 and 552a and the provisions of 28 CFR 16.1 et seq. and 28 CFR 16.40 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: A record maintained in this system may be disseminated as a routine use of such record as follows: (1) a record may be disseminated to a Federal agency which furnished the record for the purpose of permitting a decision as to access or correction to be made by that agency, or for the purpose of consulting with that agency as to the propriety of access or correction; (2) a record may be disseminated to any appropriate Federal, State, local, or foreign agency for the purpose of verifying the accuracy of information submitted by an individual who has requested amendment or correction of records contained in systems of records maintained by the Criminal Division.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: A record contained in this system is stored manually in alphabetical order in file cabinets.

Retrievability: A record is retrieved by the name of the individual or person making a request for access or correction of records.

Safeguards: Access to physical records is limited to personnel of the Freedom of Information/Privacy Act Unit of the Criminal Division and known Department of Justice personnel who have a need for the record in the performance of their duties. The records are safeguarded and protected in accordance with applicable Departmental rules.

Retention and Disposal: Currently there are no provisions for disposal of records contained in this system.

System manager and address: Assistant Attorney General, Criminal Division, U.S. Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530.

Notification procedures: A part of this system is exempted from this requirement under 5 U.S.C. 552a(j)(2), (k)(1), or (k)(2). Inquiry concerning this system should be directed to the system manager listed above.

Record access procedures: A part of this system is exempted from this requirement under 5 U.S.C. 552a(j)(2), (k)(1), or (k)(2), to the extent that this system of records is not subject to exemption, it is subject to access and contest. A determination as to exemption shall be made at the time a request for access is received. A request for access to a record contained in this system shall be made at the time a request for access is received. A request for access to a record contained in this system shall be made in writing, with the envelope and the letter clearly marked "Privacy Access Requests". Include in the request the name of the individual involved, his birth date and place, or any other identifying number or information which may be of assistance in locating the record, the name of the case or matter involved, if known, and the name of the judicial district involved, if known. The requester shall also provide a return address for transmitting the information. Access requests shall be directed to the system manager listed above.

Contesting record procedures: Individuals desiring to contest or amend information maintained in the system should direct their request to the system manager listed above, stating clearly and concisely what information is being contested, the reason for contesting it, and the proposed amendment to the information sought.

Record source categories: Sources of information contained in this system are the individuals and persons making requests, the systems of records searched in the process of responding to requests, and other agencies referring requests for access to or correction of records originating in the Criminal Division.

Systems exempted from certain provisions of the Act: Records secured from other systems of records have been exempted from the provisions of the Privacy Act to the same extent as the systems of records from which they were obtained. Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b)(c), and (e) and have been published in the FEDERAL REGISTER.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Utah—U-33700]

UTAH

Application

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Northwest Pipeline Corporation has applied for a 4½-inch natural gas pipeline right-of-way across the following lands:

SALT LAKE MERIDIAN, UTAH

T. 17 S., R. 24 E.,
Sec. 6, SW¼SE¼.

The right-of-way needed is for a portion of applicant's gas gathering system located in Grand County, Utah.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Moab District Manager, Bureau of Land Management, P.O. Box 970, Moab, Utah 84532.

PAUL L. HOWARD,
State Director.

Order Providing for Opening of Public Lands

U-087819 National Park Service Application for withdrawal of lands for Canyonlands National Park.

V 41 150 AUG 3 76 UMI

By letter dated March 20, 1973, to the Utah State Director, Bureau of Land Management, the National Park Service requested that this application be canceled as the majority of the lands described in the application have been included in the Canyonlands National Park or the Glen Canyon National Recreation area.

The purpose of this order is to restore to the operation of applicable public land laws the unreserved national resource land.

Under the authority delegated by Bureau of Land Management Order No. 701 dated July 23, 1964 (29 FR 10526), as amended, it is ordered as follows:

The following described national resource lands are hereby restored to disposition under applicable public land laws, subject to valid existing rights:

SALT LAKE MERIDIAN, UTAH

T. 26 S., R. 18 E.,
Sec. 31, all South of Lat. 38°30' excluding Canyonlands Nat'l. Park;
Sec. 32, SW¼SW¼ excluding Canyonlands Nat'l. Park;
Secs. 33, 34, and 35, all South of Lat. 38°30' excluding Canyonlands Nat'l. Park.
T. 27 S., R. 18 E.,
Sec. 1, N½ excluding Canyonlands Nat'l. Park;
Sec. 2, lots 3, 5, and 6, S½NE¼ excluding Canyonlands Nat'l. Park;
Sec. 3, lots 7 and 8, S½ excluding Canyonlands Nat'l. Park;
Sec. 4, all excluding Canyonlands Nat'l. Park;
Sec. 5, all excluding Canyonlands Nat'l. Park.
T. 31 S., R. 18 E.,
Secs. 25–31, and 33–35, all.
T. 26 S., R. 19 E.,
Secs. 31, 33, 34, and 35, South of Lat. 38°30' excluding Canyonlands Nat'l. Park;
Sec. 36, W½NW¼ excluding Canyonlands Nat'l. Park.
T. 27 S., R. 19 E.,
Sec. 5, NW¼NE¼, N½NW¼, SW¼NW¼ excluding Canyonlands Nat'l. Park;
Sec. 6, N½ excluding Canyonlands Nat'l. Park.
T. 31 S., R. 19 E.,
Secs. 27, 28, 29, 30, 31, 33, and 34, all.
T. 27 S., R. 20 E.,
Sec. 7, lots 3 and 4, E½SW¼, SE¼;
Sec. 8, S½;
Sec. 9, SW¼;
Sec. 16, lots 1, 2, 7, 8, 9, and 10, SE¼SW¼;
Sec. 17, all;
Sec. 18, all;
Sec. 19, lots 1 and 6, NE¼NE¼;
Sec. 20, lots 1–10, inclusive, 13 and 14, SE¼NE¼, N½SE¼;
Sec. 21, W½;
Sec. 28, lots 1, 3, 4, 5, and 7, E½NW¼, SE¼SW¼;
Sec. 29, lots 1 and 7.

Containing approximately 23,186 acres in San Juan County.

JULY 26, 1976.

PAUL L. HOWARD,
State Director.

National Park Service

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, and Corrections

By notice in the FEDERAL REGISTER of February 10, 1976, Part II, there was published a list of the properties included in the National Register of Historic Places. Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 16 U.S.C. 470 et seq. (1970 ed.), and the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800.

REX L. WILSON,
Acting Director, Office of Archeology and Historic Preservation.

The following properties have been added to the National Register since July 6, 1976. National Historic Landmarks are designated by NHL; properties recorded by the Historic American Buildings Survey are designated by HABS; and properties recorded by the Historic American Engineering Record are designated by HAER.

ALABAMA

Cleburne County

Heflin, *Cleburne County Courthouse*, Vickory St. (6–22–76).

Jefferson County

Birmingham, *Vulcan*, Vulcan Park. U.S 31 (7–6–76).

ARIZONA

Apache County

Adamana vicinity, *Flattop Site*, S of Adamana off U.S. 180 on Petrified Forest National Park (7–12–76).
Adamana vicinity, *Newspaper Rock Petroglyphs Archeological District*, SE of Adamana on Petrified Forest National Park (7–12–76).
Adamana vicinity, *Puerco Ruin and Petroglyphs*, E of Adamana on Petrified Forest National Park (7–12–76).
Adamana vicinity, *Twin Buttes Archeological District*, S of Adamana on Petrified Forest National Park (7–12–76).

Navajo County

Holbrook vicinity, *Painted Desert Petroglyphs and Ruins Archeological District*, NE of Holbrook off I40 (6–24–76).

Yuma County

Yuma, *Southern Pacific Railroad Depot*, Gila St. (6–22–76).

ARKANSAS

Cleburne County

Heber Springs, *Cleburne County Courthouse*, Courthouse Sq. (7–12–76).

Desha County

Arkansas City, *Desha County Courthouse*, Robert S. Moore Ave. (7–12–76).

Lincoln County

Star City vicinity, *Crow House*, 7 mi. SE of of Star City (6–29–76).

Lonoke County

Scott vicinity, *Ashley-Alexander House*, N of Scott (6–18–76).

Madison County

Alabam vicinity, *Alabam School*, S of Alabam at jct. of AR 68 and AR 127 (7–14–76).

Perry County

Perryville, *Perry County Courthouse*, Main and Pine Sts. (7–6–76).

Poinsett County

Harrisburg, *Modern News Building*, 216 N. Main St. (6–18–76).

Searcy County

Silver Hill vicinity, *Calf Creek Site, (3SE33)*, about 2 mi. NW of Silver Hill (6–29–76).

Van Buren County

Choctaw vicinity, *Stobaugh House*, 0.5 mi. SW of Choctaw on AR 9 (7–6–76).

CALIFORNIA

San Francisco County

San Francisco, *Alcatraz*, Alcatraz Island (6–23–76) HABS.

COLORADO

Denver County

Denver, *Ford, Barney L., Building*, 1514 Blake St. (6–24–76).

Montrose County

Cimarron vicinity, *D&RG Narrow Gauge Trestle*, NE of Cimarron (6–18–76).

Otero County

LaJunta, *U.S. Post Office*, 4th and Colorado Ave. (7–12–76).

Pueblo County

Pueblo, *Orman-Adams House*, 102 W. Orman Ave. (7–13–76).

CONNECTICUT

Hartford County

Collinsville, *Collinsville Historic District*, CT 179 (6–23–76).

New Haven County

Guilford, *Guilford Historic Town Center*, bounded by West River, I–95, East Creek and Long Island Sound (7–6–76) HABS.

New Haven County

North Stonington vicinity, *Miner, Samuel, House*, N of North Stonington off CT 2 on Hewitt Rd. (6–18–76).

DELAWARE

Kent County

Sandtown vicinity, *Cow Marsh Old School Baptist Church*, NE of Sandtown on DE 10 (6–24–76).

New Castle County

Wilmington, *Rockwood*, 610 Shipley Rd (7–12–76).

Sussex County

Clarksville vicinity, *Blackwater Presbyterian Church*, W of Clarksville on DE 54 (7–9–76).

FLORIDA

Duval County

Jacksonville, *La Villa Boarding Houses*, 830

Leon County

832, 836 Houston St. (6–21–76) HABS.
Tallahassee, *Walker, David S., Library*, 209 E. Park Ave. (6–22–76).

Manatee County

Bradenton, *Manatee County Courthouse (original)*, Manatee Ave. and 15th St. (6–29–76).

Monroe County

Key West, *West Martello Tower*, Monroe County Beach between Reynolds and White Sts. (6–24–76).

GEORGIA

Atkinson County

Willacoochee vicinity, *McCranie's Turpentine Still*, W of Willacoochee on U.S. 82 (6–28–76).

Fulton County

Atlanta, *Atlanta University Center District*, roughly bounded by transit right-of-way, Northside Dr., Walnut, Fair, Roach, W. End Dr., Euralee and Chestnut Sts. (7–12–76).
Atlanta, *Techwood Homes Historic District*, roughly bounded by North Ave., Parker, Williams, and Lovejoy Sts. (6–29–76).

Glynn County

Brunswick vicinity, *Hofwyl-Broadfield Plantation*, N of Brunswick on U.S. 17 (7–12–76).

Ware County

Waycross, *Waycross Historic District*, roughly bounded by Plant Ave., Williams, Lee, Chandler, and Stephens Sts. (6–29–76).

IDAHO

Ada County

Murphy vicinity, *Swan Falls Dam and Power Plant*, E of Murphy at Snake River (7–6–76) (also in Owyhee County).

Lewis County

Culdesac vicinity, *St. Joseph's Mission*, S of Culdesac off U.S. 95 (6–24–76).

Owyhee County

Swan Falls Dam and Power Plant. Reference—see Ada County.

ILLINOIS

Cook County

Chicago, *Lakeside Press Building*, 731 S. Plymouth Court (6–23–76) HABS.

LaSalle County

Streator, *Williams, Silas, House*, 702 E. Broadway (6–23–76).

Peoria County

Peoria, *Grand Army of the Republic Memorial Hall*, 416 Hamilton Blvd. (7–13–76).

INDIANA

Lawrence County

Bedford, *Norton, C. S., Mansion*, 1415 15th St. (6–22–76).

Porter County

Valparaiso, *Heritage Hall*, Campus Mall, S. College Ave. (7–12–76).
Valparaiso, *Porter County Jail and Sheriff's House*, 153 Franklin St. (6–23–76).

IOWA

Cedar County

Downey, *Downey Savings Bank, Front St.* (7–12–76).

Clayton County

Elkader, *Davis, Timothy, House*, 405 1st St., NW (6–22–76).

Davis County.

Troy, *Troy Academy*, off IA 2 (6–23–76).

Worth County

Grafton, *Chicago, Milwaukee, St. Paul and Pacific Railroad Depot*, IA 337 (6–23–76).

KANSAS

Greeley County

Tribune, *Greeley County Courthouse*, Harper and 3rd Sts. (7–12–76).

Lincoln County

Lincoln, *Lincoln County Courthouse*, 3rd and Lincoln Ave. (7–13–76).

Marshall County

Oketo, *Moore, Z. H., Store*, State and Center Sts. (6–24–76).

KENTUCKY

Breckinridge County

Addison vicinity, *Holt, Joseph, House and Chapel*, SE of Addison on KY 144 (7–12–76).

Fayette County

Lexington, *Episcopal Burying Ground and Chapel*, 251 E. 3rd St. (6–24–76).
Lexington, *Lexington Cemetery and Henry Clay Monument*, 833 W. Main St. (7–12–76).

Hancock County

Hawesville vicinity, *Beauchamp, Robert C., House*, NW of Hawesville on U.S. 60 (7–6–76).

Jefferson County

Louisville, *Cherokee Triangle Area Residential District*, roughly bounded by Bardstown Rd., Sherwood Rd., Broadway, E to jct of Grinstead Dr. and Cherokee Pkwy. (6–30–76).
Louisville, *Oxmoor*, 7500 Shelbyville Rd. (7–13–76).
Louisville, *University of Louisville Belknap Campus*, 2301 S. 3rd St. (6–25–76).

Logan County

Russellville, *Russellville Historic District*, roughly bounded by 2nd, 9th, Caldwell, and Nashville Sts. (7–14–76).

Mercer County

Salvisa vicinity, *Millwood (Lambert Brewer House)*, S of Salvisa off U.S. 127 (7–6–76).

Nelson County

Bardstown vicinity, *St. Thomas Roman Catholic Church and Howard-Flaget House*, 3 mi. S of Bardstown off U.S. 31E (7–12–76).

Powell County

Clay City, *Clay City National Bank Building*, 6th Ave. (7–13–76).

LOUISIANA

Caddo Parish

Shreveport, *Tally's Bank*, 525 Spring St. (7–14–76).

Natchitoches Parish

Natchitoches vicinity, *Narcisse Prudhomme Plantation*, SE of Natchitoches on Cane River Rd. (7–13–76).

Ouachita Parish

Monroe, *Garrett, Isaiah, Law Office*, 520 S. Grand St. (7–12–76).

Rapides Parish

Alexandria, *Bailey's Dam Site*, Red River S of U.S. 71/165/167 (6–29–76).

Sabine Parish

Many vicinity, *Stoker House*, NE of Many (6–23–76).

St. John the Baptist Parish

LaPlace vicinity, *Bayou Jasmine Archeological Site*, N of LaPlace (7–12–76).

DISTRICT OF COLUMBIA

Washington

Meridian Hill Park, bounded by 16th, Euclid, 15th, and W Sts., N.W. (10–25–74).

The following properties have been determined to be eligible for inclusion in the National Register. All determinations of eligibility are made at the request of the concerned Federal Agency under the authorities in section 2(b) and 1(3) of Executive Order 11593 as implemented by the Advisory Council on Historic Preservation, 36 CFR Part 800. This listing is not complete. Pursuant to the authorities discussed herein, an Agency Official shall refer any questionable actions to the Director, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, for an opinion respecting a property's eligibility for inclusion in the National Register.

Historical properties which are determined to be eligible for inclusion in the National Register of Historic Places are entitled to protection pursuant to the procedures of the Advisory Council on Historic Preservation, 36 CFR Part 800. Agencies are advised that in accord with the procedures of the Advisory Council on Historic Preservation, before an agency of the Federal Government may undertake any project which may have an effect on such a property, the Advisory Council on Historic Preservation shall be given an opportunity to comment on the proposal.

Office of the Secretary

LEGAL REVIEW OF PROCUREMENT ACTIONS

Procedures

Pursuant to the Department of the Interior Procurement Regulations, 41 CFR 14-1.352, the Office of Aircraft Services has issued procedures regarding the legal review of procurement actions.

It shall be the policy of the Office of Aircraft Services to obtain a legal review from the local Office of the Field Solicitor for the following procurement instruments:

1. All proposed procurement contracts, and amendments thereto, prior to execution thereof (including supporting documentation) anticipated to exceed $200,000.

2. All procurement contracts regardless of amount which involve the interpretation of contractling authority which has not previously been approved by the Solicitor's Office.

3. Any procurement contract or amendment thereto may be submitted for legal review, if in the judgment of the contracting officer such review is desirable.

4. All determinations and findings to be issued pursuant to the disputes clause of the contract.

5. All proposed cure notices, show cause letters, and notices of termination of procurement contracts, whether for default or convenience.

6. All proposed determinations or recommendations related to bid protests and mistakes in bids.

7. Legal review shall be accomplished within a reasonable time.

The procedures described herein may be modified by written agreement between the Director, OAS, and the Regional Solicitor.

Any communications regarding this notice should be addressed to the Chief, Division of Contracting and General Services, Office of Aircraft Services, Boise, Idaho 83705.

Dated: July 27, 1976.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

ADMINISTRATIVE ACTION TO DESIGNATE TYPES OF TRAVEL PERMITTED, RESTRICTED OR PROHIBITED ON TRAILS & AREAS OF THE OLYMPIC NATIONAL FOREST

Availability of Final Environmental Statement

Pursuant to section 102 (2)(C) of the National Environmental Policy Act of 1969, the Forest Service: Department of Agriculture, has prepared a final environmental statement for An Administrative Action to Designate Types of Travel Permitted, Restricted or Prohibited on Trails and Areas of the Olympic National Forest, USDA-FS-R6-FES (Adm) 76-4.

V 41 150 AUG 3 76 UMI

The environmental statement concerns a proposed action to prohibit motor vehicle use on approximately 60 miles of trail and prohibit livestock use on 28 miles of trail. Use of motorized vehicles for cross-country (off trail) travel to permit passing and overnight camping are defined.

This final environmental statement was transmitted to CEQ on July 27, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. and Independence Ave., S.W., Washington, D.C. 20250.

USDA, Forest Service, Multnomah Bldg., 319 SW Pine St., Portland, Oregon 97208.

Olympic National Forest, Federal Bldg., 801 South Capitol Way, Olympia, Washington 98507.

A limited number of single copies are available upon request to:

Richard D. Beaubien, Forest Supervisor, Olympic National Forest, P.O. Box 2288, Olympia, Washington 98507.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

JULY 27, 1976.

GEORGE E. JANSEN,
Acting Forest Supervisor.

[FR Doc.76-22416 Filed 8-2-76;8:45 am]

GALLINA LAND USE PLAN

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Gallina Land Use Plan, USDA–FS–R3–DES–Adm 76–06.

The environmental statement considers a proposed plan of management for 59,780 acres of National Forest in the vicinity of Gallina, New Mexico, Rio Arriba and Sandoval Counties.

The draft environmental statement was transmitted to CEQ on July 27, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, So. Agriculture Bldg., Rm. 3230, 14th and Independence Ave., SW., Washington, D.C. 20250.

USDA, Forest Service, Southwestern Region, 517 Gold Avenue, SW., Albuquerque, New Mexico 87102.

Santa Fe National Forest, P.O. Box 1689, Santa Fe, New Mexico 87501.

A limited number of single copies are available upon request to the Forest Supervisor, Santa Fe National Forest, P.O. Box 1689, Santa Fe, New Mexico 87501.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Santa Fe National Forest, P. O. Box 1689, Santa Fe, New Mexico, 87501. Comments must be received by September 27, 1976 in order to be considered in the preparation of the final environmental statement.

W. R. FALLIS,
Acting Regional Forester, Region 3.

Office of the Secretary

LIVESTOCK FEED

Feed Grain Donations for the Crow Creek and Lower Brule Indian Lands in South Dakota and the Lake Traverse Indian Lands in South Dakota and North Dakota

Pursuant to the authority set forth in section 407 of the Agricultural Act of 1949 as amended (7 U.S.C. 1427) and Executive Order 11336, I have determined that:

1. The chronic economic distress of the needy members of the Crow Creek and Lower Brule Indian Lands in South Dakota and the Lake Traverse Indian Lands in South Dakota and North Dakota has been materially increased and become acute because of severe and prolonged drought creating a serious shortage of livestock feeds. These reservations are designated for Indian use and are utilized by members of the Indian tribes for grazing purposes.

2. The use of feed grain or products thereof made available by the Commodity Credit Corporation for livestock feed for such needy members of the tribes will not displace or interfere with normal marketing of agricutural commodities.

3. Based on the above determinations, I hereby declare the reservations and grazing lands of these tribes to be acute distress areas and authorize the donation of feed grain owned by the Commodity Credit Corporation to livestockmen who are determined by the Bureau of Indian Affairs, Department of the Interior, to be needy members of the tribe utilizing such lands. These donations by the Commodity Credit Corporation may commence upon signature of this notice and shall be made available through the duration of the existing emergency or to such other time as may be stated in a notice issued by the Department of Agricuture.

Signed at Washington, D.C. on July 29, 1976.

EARL L. BUTZ,
Secretary.

DEPARTMENT OF COMMERCE

Maritime Administration

PERMANENT CAPITAL CONSTRUCTION FUND AGREEMENT APPLICATIONS

Possible Public Availability Under Freedom of Information Act

In the course of administering the Capital Construction Fund (CCF) program under section 607, Merchant Marine Act, 1936, as amended (46 U.S.C. 1177), the Maritime Administration has received applications and supporting information for permanent agreements. The application form for permanent CCF Agreements has been reviewed, and it is tentatively determined that, unless such submissions (or specific parts thereof) can be shown to come within one of the enumerated exemptions, all information received therein and in the course of administering the program, is subject to disclosure upon request under the Freedom of Information Act (FOIA) (5 U.S.C. 552).

The Maritime Administration recognizes that some applicants may take the position that, because of the nature of the maritime industry, release of such information could cause substantial competitive injury to the applicant submitting such information. If this position is accepted, information could be held to be exempt from public disclosure under the fourth exemption of the FOIA (5 U.S.C. 552(b)(4)). It is noted that a number of applicants have attempted to claim exemption in response to part XI of the application for establishment of a CCF (41 F.R. 4264, Appendix I at 4272). Some applicants requested that all information be exempt, others that some information be exempt and still others stated that part XI was "not applicable" or made no response at all. All of the requests made in the former two instances may be insufficient as to content. Therefore, all applicants who, in one form or another, have already requested exemption under subsection (b)(4) of the FOIA are instructed to submit justification of their claimed exemption, in the manner set forth below, on or before September 7, 1976. Applicants for permanent CCF Agreements, whether or not they had interim CCF agreements are hereby notified that these guidelines are to apply to their applications.

Any justification submitted in response to this notice must: (1) precisely specify item-by-item the information the applicant asserts is within particular parts of subsection (b)(4) of the FOIA (namely, whether trade secret or financial information or commercial information); (2) state whether each such item is treated as confidential by the applicant and the steps taken to assure its confidentiality; and (3) explain how release of each such item would cause substantial competitive injury to the applicant, and the exact nature of that competitive injury. Mere general and unexplained statements that an item is a trade secret or confidential information or financial information will be insufficient justification.

The Maritime Administration is responsible for the determination that an item of information is subject to exemption under the FOIA and that the exemption will be asserted with respect thereto. In the event that it is determined that no exemption is applicable to or will be asserted for an item of information, the applicant will be given a statement of the determination and the reason therefor. If it is determined that an exemption is applicable and will be asserted for an item of information, the applicant will be so notified and every effort will be made to honor that determination within the provisions of the FOIA.

If a claim of exemption is not accepted, the applicant shall have a period of 30 calendar days in which to decide whether to withdraw the item(s) of information from the Maritime Administration's records. If such withdrawal removes critical information from the progam staff, it is possible that the applicant's CCF application would not be granted. Should the applicant decide not to withdraw the item(s) of information, it must be understood that such item(s) of information will be disclosed upon receipt of a proper request under the FOIA. The right to make similar determinations with respect to additional information submitted in the course of administering the CCF program is reserved.

Responses to this notice should be addressed to the Secretary, Maritime Administration, Room 3099–B, U.S. Department of Commerce, Washington, D.C. 20230.

Dated: July 27, 1976.

Authority by order of the Assistant Secretary for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

RECONSTRUCTION OF FOUR ROLL-ON/ROLL-OFF CONTAINERSHIPS, MA DESIGN C5–S–78a

Computation of Foreign Costs; Intent

Notice is hereby given of the intent of the Maritime Subsidy Board, pursuant to the provisions of section 502(b) of the Merchant Marine Act, 1936, as amended, to compute the estimated foreign cost for the reconstruction of four roll-on/roll-off containerships, MA Design C5–S–78a, to increase capacity from 834 to 1,100 containers by the inserting of a 100 foot midbody, upgrading of deck container lashing/securing system and the addition of a bow thruster.

Any person, firm or corporation having any interest (within the meaning of section 502(b)) in such computations may file written statements by the close of business on August 27, 1976, with the Secretary, Maritime Subsidy Board, Maritime Administration, Room 3099B, Department of Commerce Building, 14th & E Streets NW., Washington, D.C. 20230.

Dated: July 29, 1976.

By order of the Maritime Subsidy Board Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

EXECUTED MEMORANDA OF AGREEMENT

Pursuant to § 800.6(a) of the Advisory Council's "Procedures for the Protection of Historic and Cultural Properties" (36 CFR Part 800), notice is hereby given that the following Memoranda of Agreement were executed during the months of June and July, 1976. The Memoranda of Agreement were executed in fulfillment of Federal agencies' responsibilities for protection of properties on or eligible for inclusion in the National Register of Historic Places in accordance with section 106 of the National Historic Preservation Act of 1966 and Executive Order 11593, May 13, 1971.

Carefree Archeological Sites, Tonto National Forest, Arizona, affected by a land exchange between the Forest Service and the Transamerican Corporation which would result in the loss of two archeological sites (6/3/76);

Obolds-Billman Hotel/Pleasant Valley Rolling Mill, Reading, Pennsylvania, affected by demolition as part of the Blue Marsh Lake Project of the Army Corps of Engineers (6/3/76);

Walter F. George Dam Mound, Clay County, Georgia, affected by excavation and data recovery undertaken by the Army Corps of Engineers (6/4/76);

Lovelock Cultural Resources, Lovelock, Nevada, affected by construction and operation of a segment of four-lane highway, a

V 41 150 AUG 3 76 UMI

project of the Nevada State Highway Department assisted by the Federal Highway Administration (8/6/76);

Canyon Lakes, Lubbock, Texas, affected by the Canyon Lakes Project through the Land and Water Conservation Project, an undertaking assisted by the Department of Interior, Bureau of Reclamation (6/8/76);

Santa Fe Depot, San Diego, California, affected by acquisition and renovation as an intermodal transportation center by the City of San Diego, assisted by the Urban Mass Transportation Administration (6/8/76);

East New Market Historic District, Dorchester County, Maryland, affected by the construction of the East New Market Post Office undertaken by the United States Postal Service (6/15/76);

Emigration Canyon, Salt Lake City, Utah, affected by the construction of a metallurical research facility for use by the Department of Interior, Department of Mines, undertaken by the General Services Administration (6/15/76);

Chambers Creek, Tacoma, Washington, affected by Stage 1 of the Pierce County ULID 70-3 sewerage project, an undertaking assisted by the Environmental Protection Agency (6/16/76);

Napa River Archeological Sites, Napa, California, affected by the construction of the Napa River Flood Control Project, assisted by the Army Corps of Engineers (6/16/76);

San Felipe Cultural Resources, Merced County, California, affected by the construction of a water diversion tunnel as part of the San Felipe Division, Central Valley Project, a project of the Department of the Interior, Bureau of Reclamation (6/16/76);

Hovenweep National Monument, States of Colorado and Utah, affected by an archeological research program undertaken by San Jose State University with the permission of the Department of the Interior, National Park Service (6/28/76);

Old Post Office Building, LaCrosse, Wisconsin, affected by construction of the new Post Office/Federal Building undertaken by the United States Postal Service (6/28/76);

Archeological Sites, Tishomingo County, Mississippi, affected by construction of the northern eight-mile portion of the Divide Section of the Tennessee-Tombigee Waterway from the crossing of Mississippi Highway 25 over the Yellow Creek Arm of Pickwick Reservior Southward, undertaken by the Army Corps of Engineers (7/1/76);

Hancock County Courthouse/Sparta Historic District, Hancock County, Georgia, affected by renovation undertaken by the county with a grant from the Department of Justice, Law Enforcement Assistance Administration (7/1/76);

Lake Wister Locality Archeological District, Latimer and Leflore Counties, Oklahoma, affected by changes in operational procedures at Wister Lake, Leflore County, an undertaking of the Army Corps of Engineers (7/1/76);

Central Heating Plant, District of Columbia, affected by the renovation undertaken by the General Services Administration (7/6/76);

Old Shovel Shop, Cheltenham Township, Pennsylvania, affected by restoration undertaken by Cheltenham Township with 1975-1976 Community Development Funds Grant monies funded by the Department of Housing and Urban Development (7/6/76);

Rood Mound Site, Stewart County, Georgia, affected by the continued operation of the Walter F. George Lake Project of the Army Corps of Engineers (7/6/76);

Archeological Sites, Johnson and Morgan Counties, Kentucky, affected by continued construction of the Paintsville Reservoir undertaken by the Army Corps of Engineers (7/12/76);

Archeological Sites, Imperial County, California, affected by leasing two parcels of land for commercial extraction of sand and gravel, an undertaking of the Department of the Interior, Bureau of Reclamation (7/17/76);

Grand Canyon Railroad Station, Grand Canyon National Park, Arizona, affected by installation of a temporary parking area and requiring an amendment to the Memorandum of Agreement ratified 4/9/74 because of delay in installation (Amended 7/21/76);

Union Street Historic District/Mill Street Historic District/Vassar Home for Aged Men, Poughkeepsie, New York, affected by the Community development Project termed "Elimination of Blight, Lower Main Street," an undertaking of the City of Poughkeepsie, funded by the Department of Housing and Urban Development (7/21/76);

The Memoranda are available for inspection at the Advisory Council offices, Suites 430 and 1030, 1522 K Street, NW., Washington, D.C. 20005. Further information is available from the Director, Office of Review and Compliance, Advisory Council on Historic Preservation, at the above address.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CONTROLLING COTTON TEXTILES AND COTTON TEXTILE PRODUCTS IMPORTED FROM INDIA

Limitation

JULY 29, 1976.

On August 6, 1974, the Government of the United States, in furtherance of the objectives of, and under the terms of, the Arrangement Regarding International Trade in Textiles, done at Geneva on December 20, 1973, concluded a comprehensive bilateral cotton textile agreement with the Government of India, concerning exports of cotton textiles and cotton textile products from India to the United States over a four-year period beginning on October 1, 1973. The agreement was amended by an exchange of notes between the two governments, dated January 22, 1976, to provide, inter alia, for an aggregate ceiling of 138,182,000 square yards equivalent for the agreement year which began on October 1, 1975. As provided under paragraph 7 of the bilateral agreement, the aggregate ceiling has been adjusted to a level of 152,000,200 square yards equivalent by the addition of 13,818,200 square yards equivalent, representing the carryover of shortfalls from the previous agreement year. The U.S. Government will control imports at 152,000,200 square yards equivalent for the remainder of the agreement year.

Accordingly, there is published below a letter of July 29, 1976, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that for the twelve-month period beginning on October 1, 1975 and extending through September 30, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64 be limited to a total of 152,000,200 square yards equivalent, adjusted to account for: (1) Imports amounting to 98,089,987 square yards equivalent charged during the period, October 1, 1975 through May 31, 1976, to the group ceiling which includes Categories 1-27; and (2) imports charged to the group limits established for Categories 28-38 and 64 and 39-63, amounting, respectively, to 12,000,000 square yards equivalent and 19,670,561 square yards equivalent for the period, October 1, 1975 through July 15, 1976, leaving a balance of 22,239,652 square yards equivalent for the remainder of the year. When the data are available, this level will be further adjusted to account for imports entered from June 1, 1976 or July 16, 1976, as applicable, through the effective date of this action.

Effective date: August 2, 1976.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance U.S. Department of Commerce.

JULY 29, 1976.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER:—Under the terms of the Arrangement Regarding International Trade in Textiles, done at Geneva on December 20, 1973, pursuant to the Bilateral Cotton Textile Agreement of August 6, 1974 as amended, between the Governments of the United States and India, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed, effective on August 2, 1976, and for the twelve-month period beginning on October 1, 1975 and extending through September 30, 1976, to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64 in excess of an adjusted twelve-month level of restraint of 22,239,652 square yards equivalent.[1] Apparel products of cotton textiles covered by the elephant-shaped certification shall not be subject to this directive. The directive of October 1, 1975 and the amended directive of March 16, 1976 shall remain in effect until further notice.

Cotton textiles and cotton textile products in Categories 1 through 27, produced or manufactured in India, and which have been exported prior to October 1, 1975, shall not be subject to this directive.

Cotton textiles and cotton textile products in Categories 1 through 27 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

A detailed description of the categories in terms of T.S.U.S.A. numbers and factors for converting category units into equivalent square yards was published in the FEDERAL REGISTER on February 1, 1975 (40 FR 5010), as amended on December 30, 1975 (40 FR 60220).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of India and with respect to imports of cotton textiles and cotton textile products from India have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

[FR Doc.76-22414 Filed 8-2-76;8:45 am]

[1] The level of restraint has been adjusted to include carryover of shortfalls from the previous agreement year and to reflect entries in Categories 1 through 27 for the period October 1, 1975 through May 31, 1976. Entries in Categories 28 through 64 have been included for the period October 1, 1975 through July 15, 1976.

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN EL SALVADOR

Termination of Agreement

JULY 30, 1976.

On April 22, 1976, there was published in the FEDERAL REGISTER (41 FR 16861) a letter dated April 19, 1976 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, establishing levels of restraint applicable to certain specified categories of cotton textiles and cotton textile products produced or manufactured in El Salvador and exported to the United States during the twelve-month period beginning on April 1, 1976, pursuant to the Bilateral Cotton Textile Agreement of April 19, 1972, as amended, and extended, between the Governments of the United States and El Salvador. The purpose of this notice is to announce that the two governments have agreed to terminate this agreement, effective on July 15, 1976.

Accordingly, there is published below a letter of July 30, 1976 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs cancelling the directive of April 19, 1976.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

JULY 30, 1976.

DEAR MR. COMMISSIONER: This directive cancels and supersedes, effective on July 15, 1976, the directive of April 19, 1976 from the Chairman of the Committee for the Implementation of Textile Agreements which directed you to prohibit, effective on April 1, 1976 and for the twelve-month period extending through March 31, 1977, entry into the United States for consumption and withdrawal from warehouse for consumption of certain cotton textiles and cotton textile products, produced or manufactured in El Salvador, in excess of certain specified levels of restraint.

The actions taken with respect to the Government of El Salvador and with respect to imports of cotton textiles and cotton textile products from El Salvador have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

[FR Doc.76-22677 Filed 8-2-76;8:45 am]

COMMODITY FUTURES TRADING COMMISSION

REGISTRATION AS ASSOCIATED PERSON

Adoption of Changes to Form 4-R

On July 27, 1976, the Commodity Futures Trading Commission amended an existing instruction to, added information to, and made certain minor changes in the language and format of, the registration form for associated persons under section 4k(2) of the Commodity Exchange Act, as amended.

The amended instruction, which prefaces page two of Form 4-R, provides the new address of the Commission's Chicago regional office, to which the completed application must be sent. The added language is in the form of a legend contained in item 1A. and states that the submission of the applicant's Social Security number is voluntary.

Certain alterations in the format of Form 4-R were made in order to allow for computer preprinting of information in registration renewals. Minor language changes include corrections to the title of the Commission, repagination, and other such modifications.

Copies of the amended Form 4-R, for use beginning August 2, 1976, are available from the Commodity Futures Trading Commission, 233 South Wacker Drive, Chicago, Illinois 60606.

Issued in Washington, D.C., on July 27, 1976.

For the Commission,

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

[FR Doc.76-22408 Filed 8-2-76;8:45 am]

COUNCIL ON WAGE AND PRICE STABILITY

INFLATION IMPACT STATEMENT PROGRAM

Intention To Appraise

This notice is intended to announce that the Council on Wage and Price Stability (CWPS) and the Office of Management and Budget (OMB) are jointly undertaking an appraisal of the Inflation Impact Statement (IIS) program initiated in November 1974 by Executive Order 11821. As explained in greater detail below, interested individuals and organizations are requested by August 30, 1976

V 41 150 AUG 3 76 UMI

to provide information called for in this notice and to submit additional comments on the IIS program to CWPS.

In an address to Congress on October 8, 1974, President Ford announced that Executive-branch agencies would be required to consider the possible inflationary implications of their major actions. To this end, the President issued Executive Order 11821 on November 27, 1974, directing Executive-branch agencies to prepare IIS's before proposing major legislation and before issuing proposals for major rules and regulations. The Executive Order also empowered the Director of OMB to develop criteria and procedures for implementing this directive. Accordingly, OMB issued Circular A-107 on January 28, 1975, specifying in more detail guidelines for the development of criteria and the procedures agencies were to follow. The Circular also delegated certain responsibilities for the IIS program with respect to rules and regulations to CWPS.

A major objective of the IIS program is to improve the quality of agency regulatory and legislative decisions. While the IIS requirement applies to major legislative and regulatory proposals, it does not apply to existing rules, regulations, and legislation, nor does it apply to proposals with minor consequences. Moreover, the independent regulatory agencies have interpreted the Executive Order as not applying to them.

Responsibility for developing and implementing the requirements of Executive Order 11821 was delegated to department and agency heads in order to allow each agency to adopt procedures that would match the nature of its mission and its organization. According to the OMB Circular, agency heads were made responsible for developing criteria to determine when a proposal is major. These criteria were to take into account: (1) Cost impact on consumers, businesses, markets, or Federal, State, or local government; (2) effect on productivity of wage-earners, businesses, or government; (3) effect on competition; (4) effect on supplies of important materials, products, or services; (5) effect on employment; (6) effect on energy supply or demand. Each agency's criteria were submitted to OMB for approval. Agencies that do not propose major rules, regulations, or legislation were exempted from the program.

According to the OMB Circular, if a proposal is identified as major under the approved criteria, the agency is responsible for preparing an IIS which includes: (1) An analysis of the principal cost and, where practical, secondary cost and price effects; (2) a comparison of the anticipated benefits and estimated costs; and (3) a review of alternatives to the proposed action. When major legislative proposals are submitted to OMB for review and clearance, agencies, upon OMB request, are required to furnish the appropriate IIS data and analysis. When major proposals for rules and regulations are announced in the FEDERAL REGISTER, agencies are required to submit to CWPS a brief summary of the possible inflationary impact.

Recently implemented modifications in the IIS program require agencies to: (1) State in the FEDERAL REGISTER announcement that proposals which are minor have been reviewed and do not require an IIS; (2) provide upon request from CWPS, a brief justification for determining a proposal to be minor; and (3) upon announcement of major proposals for rules or regulations, submit to CWPS a complete IIS analysis rather than a summary.

Because the IIS is an attempt to improve agency decision-making with a new, previously untried mechanism, an expiration date of December 31, 1976, was included in the Executive Order. Thus, opportunity was provided for appraisal of the effectivness of the IIS program, and provision was made for its termination unless a specific decision were made to extend or modify the Executive Order.

The Council and OMB are evaluating the IIS program and will submit recommendations based on this evaluation to the President. This joint CWPS-OMB evaluation, to be completed this fall, will include an examination of the following issues, among others:

1. Quality of IIS analyses. (For example, do analyses compare costs with anticipated benefits, and are alternatives appropriately analyzed? Has the quality of the analyses improved over time?)

2. Are all important legislative and regulatory proposals being analyzed? (For example, are the criteria thresholds established at levels which permit identification of all proposals with major economic impacts, are the criteria being used effectively, and are agencies preparing the analyses?)

3. Should IIS analyses be made available for public inspection, to what degree have they been, to what use have they been put by the general public, and what effect, if any, has their being made public (or not being made public) had on the quality of agency decisions?

4. What impact, if any, has the IIS program had on the process of drafting legislation and of developing and implementing new regulations? (For example, has it generated significant delays?)

5. What impact, if any, has the IIS program had on the quality of agency legislative proposals and regulatory decision-making?

6. What are the direct costs of the IIS program over and above those expenses government agencies would have incurred otherwise?

7. What alternatives to the IIS program exist for improving the quality of legislative proposals and regulatory decision-making, and how do they compare with the IIS program? (Alternatives might include, for example, a legislative mandate for agencies to review costs and benefits.)

8. Should the IIS program be: (1) Terminated, (2) extended in its present form, or (3) modified (and if so, how)?

Interested individuals and organizations are requested to provide information on the effectiveness of the IIS program by responding specifically to the above questions and by submitting any additional comments on the program they may care to make. Such communications should be addressed by August 30, 1976 to:

Thomas D. Hopkins, Deputy Assistant Director for Government Operations and Research, Council on Wage and Price Stability, Room 4005, 726 Jackson Place, NW., Washington, D.C. 20506. Telephone: 202-456-6510.

WILLIAM LILLEY III,
Acting Director.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 592-7; OPP-00025]

PESTICIDE PROGRAMS

Nominations to the Scientific Advisory Panel Under the Federal Insecticide, Fungicide, and Rodenticide Act

This notice provides the names, addresses, professional affiliations, and selected biographical data of persons nominated to serve on the Scientific Advisory Panel established under Section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, [86 Stat. 973 and 89 Stat. 751; 7 U.S.C. 136 et seq.]. Public comment on the nominations is invited.

BACKGROUND

FIFRA amendments enacted November 28, 1975, added, among other things, a requirement set forth in section 25(d) that notices of intent to cancel or reclassify pesticide registrations pursuant to section 6(b)(1) and notices of intent to hold hearings to determine whether to cancel or reclassify registrations pursuant to section 6(b)(2), as well as proposed and final forms of rulemaking pursuant to section 25(a), be submitted to a Scientific Advisory Panel prior to being made public or issued to a registrant. In accordance with section 25(d), the Scientific Advisory Panel is to have an opportunity to comment on the health and environmental impacts of such actions.

As to the membership of the Scientific Advisory Panel, Section 25(d) provides that it shall consist of seven members appointed by the Administrator from a list of 12 nominees, six nominated by the National Institutes of Health and six by the National Science Foundation. Publication of the name, addresses, and professional affiliation of each member is required. FIFRA does not require that an opportunity be provided for public comment on the nominations, but the Environmental Protection Agency (EPA) believes that public participation in the selection process is desirable. Accordingly, public comment is invited; see below for instructions on submitting comments.

CHARTER

A charter for the FIFRA Scientific Advisory Panel has been issued in accordance with the requirements of section 9 (c) of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770 (5 U.S.C. App. I). A copy of the Charter is provided as an appendix to this notice to aid interested parties in commenting.

With respect to the requirement of section 25(d) that the Administrator promulgate regulations regarding conflicts of interest, the charter provides that EPA's existing regulations applicable to special governmental employees (which include advisory committee members) will apply to the members of the Scientific Advisory Panel. These regulations appear at 40 CFR Part 3, Subpart F. In addition, the charter provides for open meetings with opportunities for public participation.

NOMINEES

The following are the names, addresses, professional affiliations, and selected biographical data on nominees to the FIFRA Scientific Advisory Panel:

NATIONAL INSTITUTES OF HEALTH

John E. Davies, M.D., M.P.H., Department of Epidemiology and Public Health, School of Medicine, University of Miami, P.O. Box 520875, Biscayne Annex, Miami, Florida 33152. *Born:* February 1921. *Educational Background* (Epidemiology and Microbiology): Radley College, United Kingdom, 1939 (premedical education); M.B.B.S. University of London, 1944; M.R.C.S., L.R.C.P., Royal College of Physicians and Surgeons, University of London, 1944; M.D. University of London, 1957; M.P.H. Harvard School of Public Health, 1961. *Employment History:* Private practice in South Wales, 1948-1957; Assistant Health Officer, Winnipeg, Canada, 1958-1962; Consultant Epidemiologist, Winnipeg Children's Hospital, 1959-1962; Director, Division of Research and Epidemiology, Dade County Department of Public Health, Miami, Florida, 1963-1965; Director, Community Studies on Pesticides of Dade County, Miami, Florida, 1965 to present; Associate Professor, Department of Medicine, University of Miami School of Medicine, 1967 to present; Chairman, Department of Epidemiology and Public Health, 1972 to present. *Societies:* Dade County Medical Association; Florida Medical Association; American Public Health Association, Florida Public Health Association; Research Committee—Society of Teachers of Family Medicine. *Research Interests:* Broad studies on all aspects of the effects of pesticides on man; environmental studies with special reference to human health; total health effects on migrant workers; heroin addiction.

John Doull, M.D., Ph.D. Department of Pharmacology, University of Kansas Medical Center, College of Health Sciences and Hospital, Rainbow Boulevard at 39th, Kansas City, Kansas 66103. *Born:* September 1923. *Educational Background* (Pharmacology and Medicine): B.S. Montana State College, 1944; Ph.D., University of Chicago, 1950; M.D., University of Chicago, 1953. *Employment History:* University of Chicago, 1946-1967: Research Assistant, Toxicity Laboratory, 1946-1951; Research Associate (instructor), Toxicity Laboratory, 1951-1953; Research Associate (Assistant Professor) Department of Pharmacology and U.S. Air Force (USAF) Radiation Laboratory, 1953-1956; Assistant Director, USAF Radiation Laboratory, 1954-1967; Assistant Professor, Department of Pharmacology, 1956-1957; Research Associate (Associate Professor), Department of Pharmacology, 1957-1967; University of Kansas Medical School, 1967 to present: Professor of Pharmacology and Toxicology; Co-Director, Pharmacology-Toxicology Center. *Societies:* American Association for the Advancement of Science (A.A.A.S.); Society of Experimental Biology and Medicine; American Society of Pharmacology and Experimental Therapeutics; American Chemical Society; Radiation Research Society; American Industrial Hygiene Association; Sigma Xi. *Research Interests:* Hibernation; biological aspects of ionizing radiation; toxicology.

Robert A. Neal, Ph.D., Department of Biochemistry, Center in Toxicology, Vanderbilt University School of Medicine, Nashville, Tennessee 37232. *Born:* April 1928. *Educational Background* (Toxicology and Biochemistry): B.S. University of Denver 1949; Ph.D. Vanderbilt University 1963. *Employment History:* National Institutes of Health Research Fellow, Toxicology, University of Chicago 1963-1964; Assistant Professor of Biochemistry, School of Medicine, Vanderbilt University 1964-1967; Associate Professor, Biochemistry, School of Medicine, Vanderbilt University 1967-1974; Director, Center in Environmental Toxicology, Vanderbilt University School of Medicine 1973 to present; Professor of Biochemistry, Vanderbilt University, School of Medicine 1975 to present. *Societies:* Sigma Xi; A.A.A.S.; Society of Toxicology; American Institute of Nutrition; American Society of Biological Chemists, American Society for Pharmacology and Experimental Therapeutics. *Research Interests:* Natural product chemistry; isolation and identification of natural products; detoxification mechanisms.

Robert W. Riseborough, Ph.D., Bodega Marine Laboratory, University of California, Bodega Bay 94923. *Born:* February 1935. *Educational Background* (Zoology and Molecular Biology: A.B., Cornell University, 1956; Ph.D., Harvard University, 1962. *Employment History:* International Geophysical Year Expedition to the Indian Ocean and Red Sea, *R. V.* Atlantis, Woods Hole Oceanographic Institution, 1958; International Indian Ocean Expedition, *R. V.* Atlantis II, Woods Hole Oceanographic Institution, 1963-1965; Associate Specialist, Institute of Marine Resources, University of California, Berkeley and Davis, 1965-1971; President, Bodega Bay Institute of Pollution Ecology, 1971 to present; Research Scientist, Department of the Environment, Canadian Wildlife Service, Ottawa, 1972-1975; Consultant, Department of the Environment, Canadian Wildlife Service, Ottawa, 1975 to present; Associate Research Ecologist, Bodega Marine Laboratory, University of California, 1971 to present. *Research Interests:* Pesticides as environmental pollutants, bioaccumulation of chlorinated hydrocarbons, pollution biology.

Carl M. Shy, M.D., M.P.H., D.P.H., Department of Epidemiology, Institute for Environmental Studies, School of Public Health, University of North Carolina, Chapel Hill, North Carolina 27514. *Born:* October 1931. *Educational Background* (Medicine and Epidemiology): A.B., St. Louis University, 1956; M.D. Marquette University, 1962; M.P.H. and D.P.H., University of Michigan School of Public Health, 1965 and 1967, respectively. *Employment History:* Chief Epidemiology Branch, Division of Health Effects Research, National Air Pollution Control Administration, Research Triangle Park, N.C., 1967-1971; Adjunct Assistant Clinical Professor of Epidemiology, Duke University, 1969 to present; Deputy Director, Division of Health Effects Research, U.S. Environmental Protection Agency, Research Triangle Park, N.C., 1971-1972; Director, Human Studies Laboratory, U.S. Environmental Protection Agency, Research Triangle Park, N.C., 1972-1973; Director, Institute for Environmental Studies and Research Professor, Department of Epidemiology, University of North Carolina, 1973 to present. *Societies:* A.A.A.S., Society of Epidemiological Research, International Epidemiological Association, Society of Occupational and Environmental Health, American Public Health Association, American Thoracic Society, Alpha Omega Alpha, Delta Omega. *Research Interests:* Epidemiologic studies of the consequences of environmental pollution on human health.

Edward A. Smuckler, M.D., Ph. D. Department of Pathology, School of Medicine, University of Washington, Seattle, Washington 98185. *Born:* February 1931. *Educational Background* (Experimental Pathology and Biochemistry): A.B. Dartmouth College, 1952; M.D., Tufts University, School of Medicine, 1956; Ph. D. University of Washington, 1963. *Employment History:* Assistant Pathologist, U.S. Naval Hospital, Bremerton, Washington, 1957; Senior Medical Officer, U.S. Naval Ship (U.S.N.S.) Frederick Funston and U.S.N.S. M.M. Patrick, 1958; Assistant to Senior Medical Officer, Naval Dispensary, Seattle, Washington, 1959; Postdoctoral Trainee, U.S. Public Health Service, Department of Pathology, University of Washington, 1959-1961; Attending Physician, University Hospital, University of Washington, 1961 to present; Associate Professor, Department of Pathology, University of Washington, School of Medicine, 1966-1969; Professor of Pathology, Department of Pathology, University of Washington School of Medicine, 1969 to present. *Societies:* American Chemical Society; A.A.A.S.; American Society for Cell Biology; American Society for Experimental Pathology; Histochemical Society; American Association of Pathologists and Bacteriologists; Biochemical Society (London); Sigma XI; Swedish Biochemical Society; American Society for Cancer Research; American Association for Study of Liver Disease; American Association of University Professors of Pathology; American Society of Biological Chemists; American Society for Microbiology; Society of Toxicology. *Research Interests:* Cellular alteration in disease; biology of cancer.

NATIONAL SCIENCE FOUNDATION

David E. Davis, Ph.D. Professor Emeritus, Former Head Department of Zoology, North Carolina State University, 366 El Cielito Road, Santa Barbara, California 93105. *Born:* July 1913. *Educational Background (Zoology):* B.A., Swarthmore, 1935; M.S. Harvard, 1936; Ph.D., Harvard, 1939. *Employment History:* Harvard Travelling Fellowship (Argentina), 1940; University of Chicago (postdoctoral), 1941; Rockefeller Foundation (Brazil), 1942-1943; U.S. Public Health Service, 1943-1945; Associate Professor, Johns Hopkins University, 1946-1949; Professor of Zoology, Pennsylvania State University, 1959-1967; Head Department of Zoology, North Carolina State University, 1967-1975; Consultant on Starling Control, University of California (Davis), 1976 to present. *Societies:* A.A.A.S.;

V 41 150 AUG 3 76 UMI

American Institute of Biological Sciences; American Society of Zoologists; American Society of Mammalogists; America Ornithologists Union; Ecological Society of America; Wildlife Society; Wildlife Disease Association (Distinguished Service Award 1975). *Research Interests:* Management of vertebrate populations; nesting habits of birds; endocrine basis of behavior; mammals and insects in relation to disease.

Robert Lee Metcalf, Ph.D. Department of Entomology, University of Illinois, Urbana, Illinois 61801. *Born:* November 1916. *Educational Background* (Entomology, Biochemistry): B.A. University of Illinois, 1939; M.A. University of Illinois, 1940; Ph.D., Cornell University, 1943. *Employment History:* Associate Entomologist, Division of Health and Safety, U.S. Tennessee Valley Authority, 1943–1946; Faculty, University of California, Riverside, 1946–1968: Professor of Entomology 1952–1968; Chairman, Department of Entomology, 1951–1963; Faculty, Research Lecturer, 1959; Vice Chancellor, 1963–1936; Professor of Entomology, Biology, Environmental Studies, Agricultural Entomology, and Veterinary Pharmacology, University of Illinois, 1968 to present. *Societies:* Member, U.S. National Academy of Sciences; American Chemical Society; Entomological Society of America; Fellow, American Academy of Arts and Sciences; A.A.A.S.; American Mosquito Control Association; Phi Beta Kappa; Sigma Xi. *Research Interests:* Investigations of organic compounds as insecticides; development of model ecosystem technology for early warning in environmental toxicology; use of radioisotopes for study of fate and toxicology of insecticides; insect nervous system and its susceptibilities to action of insecticides.

John M. Neuhold, Ph.D. Utah State University Ecology Center, Utah State University, Logan, Utah 84322. *Born:* May 1928. *Educational Background* (Wildlife Management, Ecology): University of Utah: B.S., 1952; M.S. 1954; Ph.D., 1959. Radioecology, Oakridge Institute of Nuclear Studies, 1963. *Employment History:* Faculty, University of Utah 1956 to present: Assistant Professor, 1958; Associate Professor, 1963; Professor, 1966; Chairman-elect, Interdepartmental Curriculum in Toxicology, 1967 to 1970; Acting Head, Department of Wildlife Resources, 1966 to 1968; Acting Director, Utah State Ecology Center, 1966 to 1968; Director, Utah State Ecology Center, 1968 to present; Director, the Institute of Ecology, 1974 to present. *Societies:* A.A.A.S.; American Fisheries Society; American Society of Limnology and Oceanography; Ecological Society of America; American Association of University Professors; Utah Academy of Arts and Sciences; Bonneville Chapter of American Fisheries Society; American Institute of Biological Sciences; Sigma Xi; Fellow, American Institute of Fishery Research Biologists; Xi Sigma Pi; Fellow A.A.A.S. *Research Interests:* Aquatic physiological ecology; effects of pollution on fish and wildlife; metabolism of ecosystems; pesticides and ecology.

Hugh D. Sisler, Ph. D. Department of Botany, University of Maryland, College Park, Maryland 20742. *Born:* November 1922. *Educational Background* (Plant Pathology): University of Maryland: B.S., 1949; M.S., 1951; Ph. D., 1953. National Institutes of Health Fellow, University of Utrecht (6 months), 1966. *Employment History:* University of Maryland 1953 to present: Research Associate 1953 to 1955; Assistant Professor, 1955–1960; Associate Professor, 1960–1964; Professor, 1964 to present; Chairman Department of Botany, 1973 to present. *Societies:* American Phytopathological Society; A.A.A.S.; Sigma Xi; Phi Kappa Phi; Alpha Zeta. *Research Interests:* Fungicidal mode of action; fungus physiology; viruses; pesticide monitoring.

Ray F. Smith, Ph.D. Department of Entomological Sciences, University of California, Berkeley, California 94720. *Born:* January 1919. *Educational Background* (Entomology): University of California, Berkeley: B.S., 1940; M.S., 1941; Ph.D., 1946. D. Agr. Sc. (h.c.), College van DeKanen, Wageningen, The Netherlands, 1976. *Employment History:* Field Entomologist, Balfour-Guthrie Investment Company, 1940; Department of Entomology and Parasitology, University of California, Berkeley, 1940 to present: Field and Lab. Assistant, 1940–1942; Senior and Principal Lab Technician, 1943–1946; Instructor in Entomology and Junior Entomologist, 1946–1948; Assistant Professor of Entomology and Assistant Entomologist in Experiment Station, 1948–1954; Associate Professor and Associate Entomologist in Experiment Station, 1954–1959; Professor of Entomology and Entomologist in Experiment Station, 1960 to present; Chairman, Department of Entomology and Parasitology, Berkeley—Davis, 1959–1963; Chairman, Department of Entomology and Parasitology (name changed in 1972 to Department of Entomological Sciences), Berkeley, 1959–1973; Project Director for University of California/AID Pest Management and Related Environmental Project, 1973 to present. *Societies:* Entomological Society of America; A.A.A.S.; California Academy of Science; Entomological Society of Canada; Ecology Society. *Research Interests:* Integrated pest management; insect ecology.

Dewayne C. Torgeson, Ph.D. Boyce Thompson Institute for Plant Research, Inc., 1086 North Broadway, Yonkers, N.Y. 10701. *Born:* October 1925. *Educational Background* (Plant Pathology, Chemistry): B.S., Iowa State University, 1949; Ph.D., Oregon State University, 1953. *Employment History:* U.S. Army 1945–1946; Graduate Research Fellow, Oregon State Agricultural Experiment Station, 1949–1952; Boyce Thompson Institute, 1952 to present: Plant Pathologist, 1952–1963; Program Director, Bioregulant Chemicals, 1963–1973; 1976 to present; Corporate Secretary 1973 to present. *Societies:* American Institute of Biological Sciences; A.A.A.S.; Torrey Botanical Club; American Phytopathological Society; Sigma Xi; Phi Kappa Phi; Phi Sigma. *Research Interests:* Biodegradation of pesticides in the soil; development of new agricultural pesticides; bark beetle pheromone research.

Public comment regarding the qualifications of the nominees relative to the charter of the Scientific Advisory Panel is invited. Comments will be used to assist the Agency in selecting seven of the twelve nominees to comprise the Panel and should be so oriented. To be assured of consideration, such comments should reach EPA on or before August 18, 1976. All comments should bear the identifying notation OPP–00025 and be addressed to the Federal Register Section, Office of Pesticide Programs, Environmental Protection Agency, room 401, East Tower, 401 M Street, S.W., Washington, D.C. 20460. All written comments will be available for public inspection in Room 401 from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: July 28, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

APPENDIX

[ENVIRONMENTAL PROTECTION AGENCY ORDER No. 1130.43]

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT SCIENTIFIC ADVISORY PANEL

1. *Purpose.* This Order dated March 23, 1976, provides a charter for the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Scientific Advisory Panel in accordance with the requirements of Section 9 (c) of the Federal Advisory Committee Act, Public Law 92–463, 86 Stat. 770 (5 U.S.C. App. I).

2. *Authority.* The Panel was created November 28, 1975, pursuant to Section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended by Public Law 94–140.

3. *Objectives and Scope of Activity.* In accordance with Section 25(d) of FIFRA, the Panel will comment as to the impact on health and the environment of the following regulatory actions:

a. Notices of intent to cancel or reclassify registrations under Section 6(b)(1) of FIFRA;

b. Notices of intent to hold a hearing to determine whether or not to cancel or reclassify registrations under Section 6(b)(2) of FIFRA; and

c. Regulations to be issued under Section 25(a) of FIFRA.

4. *Functions.* The fundamental purpose of FIFRA is to ensure that pesticides do not generally cause "unreasonable adverse effects on the environment." This phrase is defined in Section 2(bb) of FIFRA as "any unreasonable risk to man or the environment, taking into account the economic, social, and environmental costs and benefits of the use of any pesticide." Within the context of these provisions of FIFRA and the regulations promulgated thereunder (40 CFR Part 162), the Panel will be expected to comment as to the impact on health and the environment of matters arising under Sections 6(b) and 25(a) of FIFRA. Analyses prepared by staff of the Environmental Protection Agency will be provided for the Panel's consideration.

The Deputy Assistant Administrator for Pesticide Programs will initiate all requests for comment by the Panel. Section 25(d) of FIFRA requires that consultation with the Panel take place in accordance with the following timetable: Notices of intent under Section 6(b) of FIFRA and regulations in the form of proposed rulemaking under Section 25(a) of FIFRA will be forwarded to the Panel at least 60 days prior to their issuance to a registrant for publication in the FEDERAL REGISTER; regulations in the form of final rulemaking will be forwarded to the Panel at least 30 days in advance of publication. The Panel's comments, if any, will be submitted in writing to the Deputy Assistant Administrator for Pesticide Programs. If comments on notices of intent under Section 6(b) of FIFRA and proposed rulemaking under Section 25(a) of FIFRA are submitted within 30 days after the Panel's receipt of the request for comment, or if comments on final rulemaking are submitted within 15 days after the Panel's receipt of the request, such comments will be published in the FEDERAL REGISTER, together with the Environmental Protection Agency's response, at the time that such notices of intent or proposed or final rulemaking are published in the FEDERAL REGISTER. The foregoing timetable will be followed unless the Panel and the Deputy Assistant Administrator for Pesticide Programs agree on a different timetable. In any particular case, the Panel may waive comment.

5. *Composition.* In accordance with Section 25(d) of FIFRA, the Panel will be composed of seven members, including the Chairman, selected and appointed by the Administrator from twelve nominees—six nominated by the National Institutes of Health and six by the National Science Foundation. Members will be scientists who have had sufficient professional qualifications, including training and experience, to be capable of providing expert comments as to the impact on health and the environment of regulatory actions under Sections 6(b) and 25(a) of FIFRA. No person shall be ineligible to serve on the Panel by reason of his membership on any other advisory committee to a Federal department or agency or his employment by a Federal department or agency (except the Environmental Protection Agency).

Panel members will be subject to the provisions of Title 40, CFR, Part 3, Subpart F—*Standards of Conduct for Special Government Employees*, which include rules regarding conflicts-of-interest. An officer and/or employee of an organization producing, selling, or distributing pesticides and any other person having a substantial financial interest (as determined by the Administrator) in such an organization, as well as an officer or employee of an organization representing pesticide users shall be excluded from consideration as a nominee for membership on the Panel. Each nominee selected by the Administrator shall be required to submit a Confidential Statement of Employment and Financial Interests, EPA Form 3120–2, which shall fully disclose the nominee's sources of research support, if any, before being formally appointed.

In accordance with Section 25(d) of FIFRA, the Administrator shall require all nominees to the Panel to furnish information concerning their professional qualifications, including information on their educational background, employment history, and scientific publications. Section 25(d) of FIFRA requires the Administrator to publish in the FEDERAL REGISTER the name, address, and professional affiliations of each nominee.

Each member of the Panel will serve for one year and may be reappointed for additional one-year terms. In the event that a member resigns or is otherwise unable to serve, a successor will be selected and appointed by the Administrator with the advice of the National Institutes of Health, and the National Science Foundation. The Administrator has the right to remove a member of the Panel at any time for good cause, as set forth in writing to such Panel member.

The estimated annual operating cost of the Panel during its first two years of operation is $100,000 which includes an allowance for 1.0 man-year of staff support. The Office of Pesticide Programs will provide the necessary staff and support for the Panel.

6. *Meetings.* The Panel will meet either at the request of the Deputy Assistant Administrator for Pesticide Programs or at the request of the Chairman with the concurrence of the Deputy Assistant Administrator for Pesticide Programs. It is anticipated that the Panel will meet for a minimum of two days each month until October 1977, and less often thereafter. Panel meetings will be called, announced, and held in accordance with the Environmental Protection Agency's Manual on Committee Management, which, among other things, provides for open meetings of advisory committees; requires that interested persons be permitted to file written statements before or after meetings; and provides for oral statements by interested persons to the extent that time permits. Any such written or oral statements will be taken into consideration by the Panel in formulating its comments or in deciding whether to waive comment. Each meeting will be conducted in accordance with an agenda approved in advance of the meeting by the Executive Secretary. The Deputy Assistant Administrator for Pesticide Programs or his designee will serve as Executive Secretary and will attend all meetings.

7. *Subcommittees.* The Panel may form subcommittees composed entirely of Panel members for any purpose consistent with this charter. No subcommittee will be authorized to submit comments on behalf of the Panel unless all members of the Panel have had an opportunity to review such comments and append their own views. In all other respects, all activities of subcommittees shall be conducted in accordance with this charter.

8. *Duration.* Section 25(d) sets no termination date for the Panel; moreover, the actions which the Panel is required to review will continue indefinitely. Nevertheless, in accordance with Section 14 of the Federal Advisory Committee Act, the Panel will terminate on November 27, 1977, unless extension beyond that date is authorized; it is anticipated that such extension will be authorized.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 816]

COMMON CARRIER SERVICES INFORMATION

Applications Accepted for Filing

JULY 26, 1976.

By the Chief, Common Carrier Bureau.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's rules and regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (see section 309(c) of the Communications Act), applications filed under Part 68, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. [See section 1.227(b)(3) and 21.30(b) of the Commission's Rules.]

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

21748–CD–P–76, Metrotec, Inc. (KTS283), Resubmitted, C.P. for additional facilities to operate on 35.22 MHz at a new Loc. No. 4: 1 Levis Square Fiberglass Building, Toledo, Ohio.

22195–CD–P–(4)–76, Southwestern Bell Telephone Company (KAA819), C.P. for additional facilities to operate on 152.69, 454.475 and 454.650 MHz, Base located at 1425 Oak Street, Kansas City; and 459.475, 459.650 and 157.95 MHz Test facilities located at 6213 Holmes Street, Kansas City, Missouri.

22457–CD–P–76, Ray Andrew Fields d/b/a Autofone Co. (KOP257) C.P. to relocate facilities operating on 152.21 MHz at Loc. No. 4: 1109 North Baker Street, McMinnville, Oregon.

22458–CD–TC–(2)–76, Pattersonville Telephone Co. Consent to Transfer of Control from Pearl A. Dowling, Transferor, to Robert A. Dowling, Transferee. Stations: KED351 and KTS207, Rotterdam Junction, New York.

22459–CD–TC(2)–76, Kankakee Telephone Answering Service, Inc. Consent to Transfer of Control from Jack N. Syfert, Transferor, to Doris R. Syfert and First Trust & Savings of Kankakee, Co-Executors of Estate of Jack N. Syfert, Deceased, Transferee. Stations: KSJ750 and KWH301, Kankakee, Illinois.

22460–CD–TC–(4)–76, Radio & Electronic Service Company, Inc. d/b/a Mobilfone Consent to Transfer of Control from Flora D. Mead, Executrix of the Last Will and Testament of George E. Mead, Deceased, Transferor, to Flora D. Mead, Transferee. Stations: KIF649 and KLF640, Pensacola, Florida; KIY593 and KLF639, Fort Walton Beach, Florida.

22461–CD–TC–(2)–76, Business Service Center, Inc. Consent to Transfer of Control from Robert L. Stevens, Transferor, to June E. Stevens, Transferee. Stations: KTS230, Mosinee Hill; and KTS 231, Rothschild, Wisconsin.

22462–CD–P–76, Grants Pass Answering Service (New), C.P. a new station to operate on 454.225 MHz located at The Alberts Ranch, 1188 Ausland Drive, Grants Pass, Oregon.

22463–CD–P–76, ATS Mobile Telephone, Inc. (New), C.P. for a new 1-way station to operate on 35.58 MHz located at Woodmen Tower Building, 1700 Farnam Street, Omaha, Nebraska.

22464–CD–P–76, Answering, Inc. (New), C.P. for a new 1-way station to operate on 35.22 MHz located at 100 Broadway, Oklahoma City, Oklahoma.

22465–CD–P–76, RCC of Virginia, Inc. (KUO622) C.P. to relocate facilities and change antenna system operating on 72.04 MHz, Control at Loc. No. 3: Monticello Avenue, Williamsburg Virginia.

22466–CD–P–76, RCC of Virginia, Inc. (KLF629 (C.P. to relocate facilities operating on 158.70 MHz to new Loc. No. 2: SE side of Old Bon Air Road, 1.5 miles SW of Bon Air, Virginia.

22467–CD–P–(5)–76, ATS Mobile Telephone, Inc. (KBM512) C.P. for additional facilities to operate on 152.15, 454.075, 454.200, 454.225 and 454.125 MHz. at Loc. No. 2: Woodmen Tower Building, 1700 Farnam Street, Omaha, Nebraska.

V 41 150 AUG 3 76 UMI

22468–CD–MP–76, Rogers Radio Communication Service, Inc. (KTS204) C.P. to relocate facilities and change antenna system operating on 152.24 MHz. at Loc. No. 7: 3.1 miles NNE of Lake Zurich, Illinois.

22469–CD–P–76, Electronic Engineering Co. (KLF554) C.P. for additional facilities to operate on 454.275 MHz. located 1.25 miles west of Napier, Iowa.

22470–CD–P–(3)–76, Associated Telephone Answering Services (NeW), C.P. for a new station to operate on 152.12 MHz, Base and 459.125 MHz, Repeater at Loc. No. 1: Tesuque Peak, 11.5 mi NE of Santa Fe; and 454.125 MHz, Control at Loc. No. 2: 915 Cerrillos Road, Santa Fe, New Mexico.

22471–CD–P–76, RCC of Virginia, Inc. (NeW), C.P. for a new station to operate on 152.21 MHz located Rt. 47, approximately 600 feet East of the western city limits, South Hill, Virginia.

22472–CD–P/L–76, Adams Telephone Cooperative (KSJ820) C.P. to reinstate expired facilities operating on 152.72 MHz. located 0.5 Mile West of Golden, Illinois.

22473–CD–P–(4)–76, Mobilfone Service, Inc. (KKA341) C.P. to relocate facilities and change antenna system operating on 454.175, 454.225, 454.275 and 454.350 MHz. at Loc. No. 4: 4111 South Darlington, Tulsa, Oklahoma.

22474–CD–P–76, Telephone Answering Service of Fayetteville, Inc. (KUC909) C.P. to change antenna system operating on 152.24 MHz located at 727 McGilvary Street, Fayetteville, North Carolina.

22475–CD–P–76, The Mountain States Telephone and Telegraph Company (KOH275) C.P. to change antenna system operating on 152.69 MHz. located 4.6 miles East of Cheyenne, Wyoming.

22476–CD–P/L–(2)–76, Southwestern Bell Telephone Company (KKC267) C.P. for additional facilities to operate on 152.81 MHz. located 11 miles South of Abilene, Texas and additional Test facilities operating on 158.07 MHz located at 366 Cypress Street, Abilene, Texas.

22477–CD–P–(2)–76, Telephone Answering Service of Fayetteville, Inc. (KIY778) C.P. to change antenna system operating on 152.06 MHz; and to consolidate facilities operating on 152.03 MHz of KIE363 with KIY778, to be located at 727 McGilvary Street, Fayetteville, North Carolina.

Major Amendment

Gabriel Communications Corp. d/b/a Boca Mobilphone, File No. 1262–C2–P–73, C.P. for additional channel for Station KFQ941 on base frequency 454.025 MHz. Amended to change transmitter location to 351 S.W. First Avenue, Boca Raton, Florida. All other particulars remain unchanged.

Commercial Communications, Inc. (New), FN: 22116–CD–P–76. Amend to change the base station frequency to 158.75 MHz. All other particulars are to remain as reported on PN No. 808 dated June 1, 1976.

Corrections

File No. 22426–CD–TC–76, Evans Telephone Company Correct to show Transferor as John H. Evans, Sr., Deceased. All other particulars are to remain as reported on PN No. 815, dated July 19, 1976.

File No. 22419–CD–MP–76, Answerphone of Lake Worth, Inc. Correct Call Sign to read KWU206 instead of KWO206. All other particulars are to remain as reported on PN No. 815, dated July 19, 1976.

File No. 22417–CD–AL–76, Aircall New York Corporation (KWU253) New York, New York; Correct location to read Houston, Texas instead of New York and read as an Assignment of Construction Permit instead of License. All other particulars are to remain as reported on PN No. 815, Dated July 19, 1976.

Point to Point Microwave Radio Service

4519–CF–P–76, RCA Alaska Communications, Inc. (WBP70) Point Lena Loop Road, Lena Point, Alaska. Lat. 58°23'29" N. Long 134° 46'00" W. C.P. to change frequencies 4050V/4130V MHz to 2124.8V MHz toward Hoonah AFS, Alaska, on azimuth 233.3°; replace transmitters and antennas.

4520–CF–P–76, Same (WAH457 pending), Hoonah AFS, 1.9 Km NNE of Hoonah, Alaska. Lat. 58°07'40" N., Long. 135°25'49" W. C.P. to change frequencies 3810H 3730V MHz to 2174.8V MHz toward Lena Point, Alaska, on azimuth 52.7°, and replace transmitters and antennas; add 2168.4V MHz toward Adolphus, Alaska, on azimuth 303.6°, and 2162.0V MHz toward Sisters Island, Alaska, on azimuth 63.1°.

FEDERAL MARITIME COMMISSION

[No. 76-39]

CATERPILLAR OVERSEAS, S.A. V. SOUTH AFRICAN MARINE CORPORATION (N.Y.)

Filing of Complaint

JULY 29, 1976.

Notice is hereby given that a complaint filed by Caterpillar Overseas, S.A. against South African Marine Corporation was served July 29, 1976. The complaint alleges that complainant has been subjected to the payment of rates and charges for transportation in excess of those lawfully applicable in violation of section 18(b)(3) of the Shipping Act, 1916.

Hearing in this matter shall commence on or before January 29, 1977.

FRANCIS C. HURNEY,
Secretary.

PACIFIC COAST EUROPEAN CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y. New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before August 23, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

MODIFICATION OF AGREEMENT

Notice of agreement filed by:

David C. Nolan, Esq., Graham & James, One Maritime Plaza, San Francisco, California 94111.

Agreement No. 5200-31, among the member lines of the above-named conference, (1) extends the present scope to include port area points in Alaska, Washington, Oregon and California, (2) specifies that the application of the agreement is to cargo moving by both intermodal and direct all-water routes, and (3) provides that a member can maintain a regular service as required for membership by either providing a sailing every three months or by carrying a minimum of 1500 tons of cargo during a three month period.

Dated: July 29, 1976.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.76-22442 Filed 8-2-76;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. ER76-659]

ALABAMA POWER CO.

Order Denying Motion for Summary Disposition and Denying in Part and Granting in Part Motion To Reject

JULY 27, 1976.

On May 28, 1976, the Commission issued an order which accepted for filing and suspended until October 1, 1976, certain changes in rates charged by Alabama Power Company (Alabama) to 26 municipal and electric cooperative customers served under its FPC Electric Tariff, Original Volume No. 1, and to the Utilities Board of the City of Foley, and changes in its Interconnection Agreement with Alabama Electric Cooperative, Inc., FPC Rate Schedule No. 133. In the May 28 order the Commission deferred action on certain issues raised by Intervenors concerning, inter alia, the use of comprehensive interperiod tax allocation and the validity of the filing under the rule of "Mobile-Sierra."[1] For the reasons stated hereinafter the Commission will deny Intervenors' motion for summary disposition to eliminate comprehensive interperiod tax allocation and will grant in part and deny in part Intervenors' motion to reject Alabama's filing for violation of "Mobile-Sierra."

The petition to intervene filed May 19, 1976, by 12 municipalities and municipal utilities boards[2] and by Municipal Electric Utility Association of the State of Alabama (collectively, Municipalities) alleges, inter alia, that section 5 of the General Terms and Conditions proposed by Alabama, which permits the Company to terminate the service agreement if the bill for service supplied thereunder is not paid within a certain time, provides for unlawful abandonment of service in violation of § 35.15 of the Commission's regulations under the Act. Municipalities further allege that Alabama's proposed rates are predicated on comprehensive interperiod tax allocation, but that the Company has not made the requisite showing of a tax deferral as required by Order No. 530–A, nor even supplied evidentiary support for its "net of taxes" method for developing an AFUDC (Allowance for Funds Used During Construction) rate.

[1] United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956); FPC v. Sierra Pacific Power Co., 350 U.S. 348 (1956).

[2] City of Alexander City, City of Dothan, City of Fairhope, The Utilities Board of the City of Foley, City of LaFayette, City of Lanett, City of Luverne, City of Opelika, City of Piedmont, The Utilities Board of the City of Sylacauga, City of Troy, Utilities Board of the City of Tuskegee.

The petition to intervene filed May 20, 1976, by eight distribution cooperatives[3] and Alabama Electric Cooperative, Inc. (AEC) (collectively, Cooperatives) raises a number of objections, including the issue of interperiod tax allocation. In addition, Cooperatives allege that Alabama's tendered filing must be rejected, because Alabama has unilaterally changed the reserve requirement provisions of the Interconnection Agreement with AEC (FPC Rate Schedule No. 133), in violation of the "Mobile-Sierra" rule.

Alabama on May 24, 1976, responded to the allegations of Municipalities and Cooperatives. The Company notes that the language of section 5 of the general terms and conditions of the Company's tariff is unchanged from the language which was allowed to become effective by the Administrative Law Judge's Initial Decision, issued May 25, 1973, in Docket No. E–7674, "Alabama Power Company," 50 FPC 1882 (1973) "rehearing granted," 51 FPC 1315 (1974). Alabama further asserts that it has met the requirements established by Order No. 530–A and has presented evidence (in the testimony of Richard W. Walker) that the deferred tax accounting practiced by the Company constitutes a tax deferral and not a permanent tax saving. Alabama also states that its use of a "net of tax" AFUDC rate is self-evident, and that discussion of such use is more appropriate in a full-fledged evidentiary hearing.

In response to Cooperatives' allegation of violation of the "Mobile-Sierra' rule, Alabama asserts that the terms of the Interconnection Agreement with AEC give Alabama the right to change unilaterally the reserve levels required to be maintained by AEC, subject to the Commission's approval. The Company also responds to the remaining allegations by the intervenors, and concludes that a resolution of the issues thus raised should be pursued in the context of a full evidentiary hearing.

Review of the filing indicates that Alabama's proposed rate is based, in part, on the utilization of comprehensive interperiod tax allocation, in support of which the Company has provided testimony. On March 18, 1976, the Commission issued an order which accorded a "Petition • • • For Rehearing of Order No. 530–A" filed by sixteen (16) public utilities the status of a motion for reconsideration of Order No. 530–A, granted such motion solely for purposes of further consideration, and provided for the filing of responses to said motion. On July 6, 1976, the Commission issued Order No. 530–B, in which the original decision in Order No. 530 was readopted. Pursuant to Order No. 530–B, normalization will be permitted where the difference in the recognition of an item for tax and book purposes is only a timing difference and not a permanent difference. Accordingly, we shall deny the motions for summary disposition as to this issue.

Regarding Municipals' allegation that section 5 of the General Terms and Conditions of Alabama's tariff constitutes an unlawful abandonment of service, the Commission notes that, regardless of the language of section 5, the parties are required to act in accordance with § 35.15 of the Commission's Regulations, which states:

> Section 35.15 *Notices of cancellation or termination.* When a rate schedule or part thereof required to be on file with the Commission is proposed to be cancelled or is to terminate by its own terms and no new rate schedule or part thereof is to be filed in its place, each party required to file the schedule shall notify the Commission of the proposed cancellation or termination on the form indicated in § 131.53 of this chapter at least thirty days but not more than ninety days prior to the date such cancellation or termination is proposed to take effect. A copy of such notice to the Commission shall be duly posted. With such notice each filing party shall submit a statement giving the reasons for the proposed cancellation or termination, and a list of the affected purhasers to whom the notice has been mailed. For good cause shown, the Commission may by order provide that the notice of cancellation or termination shall be effective as of a date priore to the date of filing or prior to the date the filing would become effective in accordance with these rules.

Cooperatives contend that Alabama violates the "Mobile-Sierra" doctrine by filing unilaterally a proposed revision in the minimum reserve generation capacity AEC is obligated to provide under the Interconnection Agreement and by proposing to eliminate § 5.06 of the Agreement, which provides for sale to AEC of Protective Capacity. Section 1.01 (Term) of the Agreement states in pertinent part: "This Agreement shall continue in effect for the initial term ending May 31, 1982, subject to the provisions for adjustments in rates and charges provided for in § 2.01." Section 2.01 (Regulation of Rates and Charges) states in pertinent part:

> Notwithstanding the rates and charges specified herein for the various services to be provided pursuant to this Agreement, Company and Cooperative shall have the right (except for the limitations of such right contained in §§ 5.06 and 6.02) at any time to initiate proceedings through appropriate regulatory filings to change the rates and charges for such services.

Section 5.06 (Protective Capacity), which Alabama proposes to eliminate, provides that the "Company shall not make any effort to put into effect an increase in" the $4/kilowatt per year rate specified for protective capacity "except upon fifteen months prior written notice to Cooperative." Section 6.02 (Purchase Capacity) provides that the initial rate for purchase capacity "shall remain in effect for the term of this Agreement unless such rate is changed in accordance with the provisions of § 2.01 hereof, provided however, such rate may not be changed by either party until May 31, 1976."

Section 5.04 (Generating Capacity Reserve Requirements) provides in pertinent part:

> Cooperative shall provide as part of its reserve generating capacity for each Contract Year an amount equal to no less than fifteen percent (15 percent) of its maximum estimated integrated peak-hour demand for the Contract Year.
>
> • • • • •
>
> Such requirement of fifteen percent (15%) shall be adjusted from time to time as determined to be appropriate by the Operating Committee to reflect changes in practice in the industry.

The function of the Operating Committee, comprised of one representative each from the Company and the Cooperative, is set forth in Article IV of the Agreement.

Both the caption and content of § 2.01 make clear that this clause provides for unilateral changes in rates and charges only. Consonant therewith, the limitations of such right contained in §§ 5.06 and 6.02 also refer only to rates and charges. Nowhere in § 2.01 or in any other section of the Agreement is there a provision specifying the right to terminate unilaterally the service terms in question of the Agreement. Therefore, the sale of Protective Capacity provided for in § 5.06 shall continue in effect until May 31, 1982, and thereafter, subject to five years' prior notice of termination, as provided in § 1.01. However, upon fifteen months' prior written notice to AEC, Alabama can file an increase in the rate for this service.

Section 5.04 gives the Operating Committee established in Article IV the authority to adjust periodically the Cooperative's required reserve generating capacity. Section 4.02 provides that, "should the Operating Committee fail to reach agreement upon any matter for which it is responsible, such matter shall be referred to the respective managements of the parties for disposition." In their petition the Cooperatives and AEC state that AEC's management does not support the reserve generating capacity which Alabama proposes shall be required of AEC.

The Commission need not at this point explore the merits of various methods of calculating required reserve capacity in light of current industry practice. It is sufficient to note that the parties to the Interconnection Agreement do not agree on the proposed revised reserve generating capacity and that the Agreement does not provide for unilateral change of this item. The Commission rejects Ala-

[3] Baldwin County Electric Membership Corporation, Clarke-Washington Electric Membership Corporation, Coosa Valley Electric Cooperative, Inc., Dixie Electric Cooperative, Inc., Pea River Electric Cooperative, Inc., Pioneer Electric Cooperative, Inc., Tallapoosa River Electric Cooperative, Inc., and Wiregrass Electric Cooperative, Inc.

V 41 150 AUG 3 76 UMI

bama's reasoning (pp. 4–7) that, since the Company has the right to file unilateral changes for rates and charges incorporated in the Interconnection Agreement, it therefore follows that Alabama can file unilateral changes in the terms of the reserve provisions to which those rates and charges apply. This reasoning controverts the clear language of the Agreement.

Therefore, for the reasons stated above, the Commission finds that Alabama's proposed revised AEC reserve generating capacity requirement under § 5.04 and proposed elimination of § 5.06 providing for Protective Capacity sales are filed in violation of the "Mobile-Sierra" rule. Accordingly, the Commission shall require Alabama to file revised tariff sheets reflecting the elimination of these two proposed changes in the terms of the Interconnection Agreement.

As regards Intervenors' remaining objections to the instant filing, the Commission believes that these issues may be developed as necessary at the proceedings provided for by the Commission's Order issued May 28, 1976, in this docket.

In light of the Commission's disposition of the questions herein, the various pleadings of the parties which request relief inconsistent with the present disposition are hereby denied.

The Commission finds. (1) Motion of Municipal and Cooperative Intervenors for summary disposition excluding comprehensive interperiod tax allocation from the jurisdictional rate increase should be denied.

(2) Motion of Cooperative Intervenors to reject Alabama's entire filing should be denied. However, Alabama's proposed revised AEC reserve generating capacity under § 5.04 and proposed elimination of § 5.06 of the Interconnection Agreement providing for protective capacity sales should be rejected as violative of the "Mobile-Sierra" rule.

The Commission orders. (A) Motion of Municipal and Cooperative Intervenors for summary disposition to exclude comprehensive interperiod tax allocation is hereby denied.

(B) Cooperatives' motion to reject Alabama's entire filing is denied. However, that part of Alabama's filing which purports to revise AEC's reserve requirement under § 5.04 of the Interconnection Agreement and to eliminate § 5.06 of the Agreement is rejected. Alabama shall file within thirty days a revised rate schedule reflecting elimination of these portions of its filing.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71-122]

ARKANSAS LOUISIANA GAS CO.

Petition for Special Relief

JULY 27, 1976.

Take notice that on July 15, 1976, Arkansas Louisiana Gas Company (Arkla) filed in Docket No. RP71-122 a petition for special relief seeking to defer until June 2, 1977 (a nine month grace period) the implementation of that portion of the June 2, 1976 Commission order in the instant docket as requires elimination of the distinction that formerly existed between firm and interruptible service, all as more fully set forth in the application on file with the Commission and open to public inspection.

Arkla requests authorization to continue to firm and interruptible distinctions as they previously existed for one more winter. Arkla states this is necessary in order to give those direct industrial customers in the middle priorities enough time to complete conversion efforts to enable them to absorb the level of curtailment which is going to be necessitated by the elimination of the firm and interruptible distinction. Arkla further states the only customer who will get more gas under the Arkla curtailment plan as the result of the elimination of the firm-interruptible distinction is Cities Service Gas Company (Cities), a large sale for resale customer. Practically all of Arkla's other sales are sales for consumption, so the additional gas going to Cities will have to be diverted from many other Arkla direct sales customers. This will mean that curtailments to certain classes of customers on the Arkla system will be significantly deeper than had been projected for next winter. Arkla also states that the grant of its special relief petition will avoid a large number of petitions for extraordinary relief by the customers.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 13, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22434 Filed 8-2-76;8:45 am]

[Docket Nos. E-9521, E-9522]

GEORGIA POWER CO.

Further Extension of Time

JULY 27, 1976.

On May 13, 1976, Staff Counsel filed a motion to extend the procedural dates fixed by order issued October 29, 1975 as most recently modified by notice issued February 18, 1976, in the above-designated proceeding. The motion states that no party objects to the proposed schedule.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff Testimony, July 30, 1976.
Service of Intervenor Testimony, August 27, 1976.
Service of Company Rebuttal, September 30, 1976.
Hearing, October 19, 1976 (10:00 a.m., e.d.t.)

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22435 Filed 8-2-76;8:45 am]

[Docket No. RP72-140, (PGA76-3)]

GREAT LAKES GAS TRANSMISSION CO.

Proposed Changes in Gas Tariff Under Purchased Gas Adjustment Clause Provisions

JULY 27, 1976.

Take notice that Great Lakes Gas Transmission Company (Great Lakes), on July 14, 1976, tendered for filing the following tariff sheets to its FPC Gas Tariff, proposed to be effective September 10, 1976:

First Revised Volume No. 1

Second Revised Sheet No. 54
Eighteenth Revised Sheet No. 57

Original Volume No. 2

Third Revised Sheet No. 53-B
First Revised Sheet No. 53-C

Great Lakes states that its sole supplier of natural gas, TransCanada Pipeline Limited (TransCanada), will increase the rates for gas purchased by Great Lakes effective September 10, 1976. The increase is the result of the National Energy Board of Canada's orders issued June 24, 1976, amending TransCanada's licenses for the export of natural gas to Great Lakes by establishing that the price to be received for the gas to be exported shall be not greater than and not less than $1.80 in Canadian currency per Mcf of one thousand British Thermal Units per cubic foot equivalent gas at a temperature of 60 degrees Fahrenheit and a pressure of 14.73 pounds per square inch absolute adjusted on the ratio of the actual BTU content per cubic foot to 1000 BTU per cubic foot.

Great Lakes proposes in this filing to change the factors which allocate the purchased gas cost change between the resale and the T-4 rate schedule customers. The proposed change would replace specific factors, presently included in Great Lakes' FPC Gas Tariff, with a formula which would reflect actual operating conditions within the Determination Period. The proposed allocation formula complies with the provisions of Article V of a Stipulation and Agreement of Rate Proceedings in Docket Nos. RP75-94 and RP72-140 (PGA75-5) filed by Great Lakes with the Commission on June 17, 1976.

Great Lakes is also providing for adjustments in the current PGA rate reflecting the effect of currency conversion based on $1.0376 United States equivalent to $1.00 Canadian and a BTU adjustment reflecting an average content of 1004 BTU per Mcf of gas purchased during the Determination Period.

Great Lakes also states that copies of this filing have been served upon its customers, the Public Service Commissions of Minnesota, Wisconsin and Michigan and other parties who have intervened in Docket No. RP75-94.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 12, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22436 Filed 8-2-76;8:45 am]

[Docket No. RM74-8]

NATIONWIDE FUEL EMERGENCY

Order Prescribing Revision to Order No. 498

JULY 27, 1976.

On December 21, 1973 the Commission issued Order No. 498 imposing certain reporting requirements on all Class A and Class B natural gas pipeline companies. Provision A of Order No. 498 provides:

All Class A and B natural gas pipeline companies shall report to the Commission on January 1 and July 1 of each year beginning with 1974 what actions have been taken by them and their customers to conserve natural gas; the quantities of natural gas; estimated to be conserved by such actions during twelve months following the report date; and an estimate of the volume of gas actually conserved during the twelve months prior to the report date.

In addition, Provision B of Order No. 498 provided that all Class A and Class B natural gas pipeline companies were to report to the Commission by February 1 and March 1, 1974 what actions had been taken by them and their customers to conserve natural gas in order to reduce the impact of the Nation's energy emergency for the 1973–1974 winter.

The Commission has determined, after considering the data which have been collected under Order No. 498, that the requirement for periodic reports from all Class A and Class B natural gas pipeline companies should be terminated. The benefits from the reporting requirement are no longer commensurate with the burden on those required to file the reports.

The Commission finds: (1) Modifying the rulemaking in Docket No. RM74-8 is appropriate and necessary for carrying out the provisions of the Natural Gas Act.

(2) Compliance with the notice, public procedure and effective date provisions of Section 553 of Title 5, United States Code is unnecessary.

(3) Good cause exists that the revision adopted herein become effective upon issuance of this order.

The Commission, acting pursuant to authority granted by the Natural Gas Act, as amended, particularly by sections 8, 10, and 16 thereof, (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717i, 717o) orders:

(A) Effective upon the issuance of this order, Provision A of Order No. 498 is hereby repealed.

(B) Effective upon the issuance of this order, Provision B of Order No. 498 is hereby repealed.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22431 Filed 8-2-76;8:45 am]

[Docket No. RP76-52, etc.]

NORTHERN NATURAL GAS CO.

Order Permitting Withdrawal of Tariff Sheets, Accepting for Filing Revised Tariff Sheets, Suspending Revised Tariff Sheets, Denying Motion To Reject and Granting Intervention

JULY 28, 1976.

On December 31, 1975, Northern Natural Gas Company (Northern) filed with the Commission the following revised tariff sheets to its F.P.C. Gas Tariff, Third Revised Volume No. 1.

Fourth Revised Sheet Nos. 59, 59a and 59b
Second Revised Sheet Nos. 59c, 59d, 59e, and 59f
First Revised Sheet Nos. 59g, 59h, 59i and 59j
Substitute First Revised Sheet Nos. 59g, 59h, 59i and 59j
Original Sheet No. 59K

Northern requested that the tariff sheets, which proposed a revision of Northern's presently effective curtailment plan, be effective on September 26, 1976. By order issued March 10, 1976, in the above-referenced docket, the Commission accepted the proposed tariff sheets for filing and suspended them for one day until September 27, 1976. The Commission also consolidated the curtailment filing with an order to show cause issued to Northern on July 7, 1975 in Docket No. RP74-102 (volumetric limitations) with regard to the imposition of volumetric limitations. Hearings on the consolidated proceeding commenced on May 3, 1976.

On March 18, 1976, Northern filed with the Commission a motion to withdraw the tariff sheets submitted on December 31, 1975 and accepted on March 10, 1976 and to substitute, as part of its F.P.C. Gas Tariff, Third Revised Volume No. 1, the following tariff sheets:

Substitute Fourth Revised Sheet Nos. 59, 59a and 59b
Substitute Second Revised Sheet Nos. 59c, 59d, 59e and 59f

Northern requests that these tariff sheets be suspended for one day to become effective on September 27, 1976, in conformance with the Commission's order of March 10, 1976.

Northern's March 18 revisions concern two separate changes in its curtailment filing. First, proposed Paragraph 9.2 of the December 31, 1975 filing provided that all deliveries of gas to those gas utilities purchasing gas pursuant to Rate Schedule PL-1 (Pipe Line Service) would be placed in Priority Category 2 for purposes of curtailment. Northern states that the placement of deliveries to pipe line customers in Category 2 was predicated on the assumption that an annual volumetric limitation would have been put in effect prior to September 27, 1976. Northern states that since no volumetric limitation will be put into effect prior to September 27, 1976, the pipe line customers would not experience any curtailment during the 1976–1977 heating season or during the summer of 1977. Northern, therefore, proposes to curtail the pipeline customers on an annual basis in accordance with the provisions of a new Paragraph 9.4.

Second, in the December 31, 1975 filing Northern stated that it would propose for Commission approval the termination of all firm deliveries for electric generation use. Northern now states that this proposal can best be effectuated by inclusion of firm deliveries for electric generation in the curtailment plan. Northern proposes to place "EG Plant Sales" made on a firm basis in a new Priority (11A) of Paragraph 9.2.

On May 7, 1976, the Flambeau Paper Company (Flambeau) filed a petition for leave to intervene and a motion to reject the revised tariff sheets submitted by Northern on March 18, 1976.[1] Flambeau states that under § 145.66(a) and (b) of the Commission's regulations, Northern cannot file any substitution or change of suspended tariff sheets without "special permission of the Commission upon application therefor and for good cause shown." Flambeau states that Northern has not established good cause for "a major and radical substantive change of the December 31, 1975 tariff sheet filing" with respect to the treatment of firm "E.G. Plant Sales." Flambeau further states that the relegation of firm "E.G. Plant Sales" to a low curtailment priority would permit Northern to effectively terminate such sales without the necessity of a section 7(b) application which would have been required under the December 31, 1975 filing.

Flambeau next argues that although section 4(e) of the Natural Gas Act may be an appropriate procedural mechanism to enable a natural gas company to effect a change in a presently effective

[1] Flambeau Paper Company is the successor in interest to the Kansas City Star-Flambeau Paper Division, which had previously been granted intervention in this proceeding.

V 41 150 AUG 3 76 UMI

curtailment plan, the portion of section 4(e) which permits a natural gas company to effect the proposed change subject to refund, after the suspension period, was not intended to apply to changes in curtailment provisions. Flambeau alleges that the refund provisions of section 4(e) only apply in instances where the change in "rate, charge, classification or service" is measurable in dollars and cents and the "amounts received by reason of such increase" and the amounts "paid" may be determined with precision.

Flambeau, therefore, argues that the law precludes any superseding change in an effective curtailment plan which the Commission had found to be just and reasonable without specific findings and conclusions supported by and based on substantial evidence that (1) the presently effective curtailment plan is not just and reasonable, or is unreasonably or unduly preferential, unduly disadvantageous or prejudicial and (2) the curtailment plan to be made effective and to supersede the currently effective curtailment plan is just and reasonable, not unreasonably or unduly preferential and not unreasonably prejudicial or disadvantageous. Flambeau states that the requisite findings and conclusions cannot be made without an evidentary hearing. Flambeau concludes that until the Commission's final order prescribing a new curtailment plan, the presently effective just and reasonable interim plan must continue in effect.

On May 3, 1976, Lake Superior District Power Company (Lake Superior) filed comments on the revised tariff sheet.[2] Lake Superior states that it objects to the waiver of § 154.66 of the Commission's regulations for the following reasons:

(a) There is no compelling reason why a new curtailment plan must be made effective after a one day suspension when the presently effective interim plan was found to be just and reasonable and in the public interest,

(b) The provisions of section 4(e) of the Natural Gas Act can apply only to rate increases,

(c) The proposed tariff revisions which place firm electric generation use in the lowest use categories are arbitrary and involve unreasonable discrimination,

(d) The changes to Northern's proposed curtailment plan which were filed on March 18, 1976, were not minor but were major changes in the curtailment plan as originally filed on December 31, 1975.

(e) Northern has not established the standard of "good cause" required for a waiver of § 154.66 of the Commission's regulations.

On May 10, 1976, the Public Service Commission of Wisconsin (Wisconsin) filed comments on the revised tariff sheets. Wisconsin states that the effect of March 18, 1976 filing would be to place the Flambeau Steam and Electric Generating Station of the Lake Superior District Power Company in the general overall category of electric generation. Wisconsin states that the Federal Power Commission should not grant the request for waiver of Section 154.66 and should not permit the revised tariff sheets to become effective on an interim basis prior to completion of this proceeding.

On May 3, 1976, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) filed a protest to the tariff sheets filed by Northern on March 18, 1976. Michigan Wisconsin states that the revised tariff sheets constitute an unjustifiable and discriminatory method of curtailing Northern's pipeline customers. Michigan Wisconsin states that pipe line customers would have deliveries reduced in proportion to the percentage decline in total system sales since 1973, whereas Northern's distribution customers would be curtailed from the level of contract demand in accordance with proposed end-use priorities. Michigan Wisconsin states that all of Northern's customers should be curtailed on the basis of end-use requirements which reflect the volumes of gas received during a fixed, historical base period.

On May 26, 1976, Northern filed its response to the objections and the motion to reject. Northern states that it has established good cause to permit the substitution of the March 18 tariff sheets. Northern argues that the pipeline customers will receive no curtailment during the 1976–1977 heating season unless the March 18, 1976 filing is accepted. With regard to the classification of firm electric generation volumes, Northern states that that issue is more properly put in the content of a curtailment proceeding rather than an abandonment proceeding. Northern further argues that, technically, Section 154.66 of the Commission's Regulations would not have to be waived since the tariff sheets filed on December 31, 1975 are not presently under suspension. Finally, Northern states that the Supreme Court's decision in "FPC v. Louisiana Power and Light Company," 406 U.S. 621 (1972) wholly rejects the contention that the Commission should await full hearing and decision prior to implementing changes to Northern's currently-effective curtailment plan.

On May 26, 1976, the Northern Distributor Group[3] filed an answer to the motions to reject. The Northern Distributor Group states that the decision in "FPC v. Louisiana Power and Light Company," 406 U.S. 621 at 645 (1972) does not require that the curtailment plan filed by a pipeline be held in abeyance pending conclusion of the hearing process. The Northern Distributor Group further states that the decision of the D.C. Circuit in "Consolidated Edison Company v. FPC," 512 F. 2d 1332 at 1338 n16 prohibits the Commission from rejecting a proposed filing. The Northern Distributor Group also concludes that § 154.66 is inapplicable since the December 31, 1975 tariff sheets are not under suspension. Finally the Northern Distributor Group states that Flambeau will have full opportunity to present its case in the pending curtailment proceeding and/or in a petition for extraordinary relief under § 2.78(b).

We turn first to the arguments that the Commission should not permit any new curtailment plan to go into effect until a determination has been made that the existing interim plan is unjust and unreasonable.[4] We addressed the specific issue of the justness and reasonableness of Northern's interim curtailment plan in our June 17, 1975 order in Docket No. RP74–102. In that order we stated that:

> We confess that we are not particularly pleased with the hybrid nature of the Northern curtailment plan. Yet, while we do not condone it as a plan for the future, we believe that, with the changes described in the proposal as modified herein, the resulting interim plan provides a just and reasonable approach to the need for curtailment on the Northern System through September 1976.

We conditioned our approval of the settlement in Docket No. RP74–102 upon a termination date of September 26, 1976, noting that Northern had imposed upon itself a deadline of December 31, 1975 for the filing of proposed tariff revisions.

As Northern and the Northern Distributor Group state in their responses to the motions to reject, the Supreme Court in "FPC v. Louisiana Power & Light Company," 406 U.S. 621 (1972) held that the Commission could and should process curtailment plans under sections 4(c), (d) and (e). The Court in "Louisiana Power and Light" stated that:

> Under these provisions (§§ 4(c), (d) and (e)) a pipeline's tariff amendments filed with the FPC go into effect in 30 days unless suspended by the Commission. If a filing is challenged or the FPC of its own motion deems it appropriate, it may suspend the amended tariff for up to five months, at the end of which time the amended tariff becomes effective pending the completion of the hearings. In these hearings, the pipeline has the burden of proving that its plan is reasonable and fair.

The Supreme Court in "Louisiana Power and Light" further noted that a curtailment plan placed into effect by the pipeline could serve as a "working guideline while hearings continue". Furthermore, the Supreme Court recognized "each pipeline's unique knowledge of its customers' needs, ability to substitute other fuel sources, and other relevant considerations."

It is, therefore, obvious that it is not only permitted but mandatory that the Commission allow a pipeline company the option of implementing its proposed curtailment plan at any time, commencing upon either the date of the acceptance of the tariff filing or upon the conclusion of the designated suspension period, whichere is applicable. Given the fact that our June 17, 1975 order in Docket No. RP74–102 found that Northern's interim plan was just and reasonable through September, 1976, it was necessary and appropriate that we suspend the filing for only one day rather than the full five months. This one day suspension will thus give Northern the option of implementing its new curtailment plan during the 1976–1977 heating season.

We do note, however, that Flambeau and Lake Superior are correct in their conclusion that the suspended tariff sheets are not subject to refund under section 4(e). In our May 28, 1976 order in United Gas Pipe Line Company, Docket No. RP71–29 et al. (Phase II), we stated that:

> Finally, several of the Movants have requested that United be allowed to implement its filing only upon the condition that it be subject to a refund obligation sufficient to protect their customers from the unlawful preferences of that plan. While the imposition of a refund obligation is left to the Commission discretion by section 4(e) of the Natural Gas Act, such imposition here is problematic. First, section 4(e) envisions the imposition of a refund obligation in cases where increased rates or charges are thus made effective. This raises a question of the propriety of a refund in connection with the filing of a curtailment plan, wherein the main concern is a change in the rules governing allocation of gas among its customers during periods of shortage. Secondly, the quantification of the allegedly illegal preferences is a difficult matter due to the lack of a base from which to measure the extent of the preferences. In view of these difficulties, it is our conclusion that United's filing should be accepted without condition as to the payment of a money refund.

During the interim between possible implementation of the proposed curtailment plan by Northern and a final Commission determination on the appropriate plan for the system, Flambeau or any other consumer may, through an application filed by its distributor and/or state commission, seek extraordinary relief from curtailment. Such an application, filed in conformity with § 2.78(b) of the Commission's rules of practice and procedure, would determine whether a given consumer is entitled to an assured volume of natural gas. Furthermore, we note that by following the procedure we set down in the June 17, 1975 order in Docket No. RP74–102, Northern has cut the time lag significantly between possible implementation of the proposed plan and final Commission determination. Thus, Northern and its customers have the advantage of making significant progress in the proceeding prior to September 26, 1976, while at the same time being able to evaluate the effects of the proopsed plan before the close of the record, should Northern elect to implement the plan.

Thus, having established that Northern must be given the option of implementing its curtailment filing at the close of the appropriate suspension period, we are left with the question of whether Northetrn should be permitted to substitute the tariff sheets filed on March 18, 1976 for the tariff sheets filed on December 31, 1975, accepted on March 10, 1976 and suspended for one day, until September 27, 1976.

We would agree that Northern and the Northenr Distibutor Group are correct in their argument that a waiver of § 154.66 of the Commission's regulations is not technically required. Section 154.66 comtemplates a proposed change to a tariff under suspension. In the instant proceeding, the tariff sheets accepted for filing on March 10, 1976 are not presently under suspension. Despite the fact that § 154.66 of the regulations is not technically applicable, we do believe that Northern should be required to meet the standard of good cause prior to acceptance of the March 18, 1976 filing.

It was Northern's position in its March 18, 1976 filing and in its May 26, 1976 response to the motion to reject that the inclusion of pipeline deliveries in priority 2 was predicated upon the imposition of volumetric limitations prior to September 26, 1976. Northern now states that since no limitations will exist on September 26, 1976,[5] the pipeline customers must be subject to annual pro-rata curtailment. While we leave the issue of the ultimate propriety of pro-rata curtailment to the curtailment proceeding itself, we note that to permit the pipelines to remain in Priority 2 would be tantamount to exempting the pipelines from curtailment. We conclude, therefore, that Northern has established good cause to permit the substitution of tariff sheets relating to the annual curtailment of pipeline deliveries.

With regard to the classification of firm sales for electric generation, we note that Northern, in its December 31, 1975 filing, voiced an intention to seek abandonment of these sales. The March 18, 1976 filing would seek to classify such deliveries in Priority 11A, the second lowest priority, thus permitting service when gas is available. The only distinction between the December 31, 1975 filing and the March 18, 1976 filing is that the issue of firm sales for electric generation will be litigated in the course of a curtailment proceeding rather than an abandonment proceeding. We would agree with Northern that the issue is more properly litigated in a curtailment case. Therefore, good cause exists to permit Northern to file substitute tariff sheets relating to classification of sales for electric generation.

The Commission finds: (1) Good cause exists to permit Northern to withdraw the tariff sheets accepted for filing on March 10, 1976 in Docket No. RP76–52.

(2) Good cause exists to accept for filing the proposed tariff sheets tendered by Northern on March 18, 1976 in Docket No. RP76–52.

(3) Good cause exists to suspend the tariff sheets tendered by Northern on March 18, 1976 in Docket No. RP76–52, for one day, until September 27, 1976 as hereinafter ordered.

(4) The motion to reject filed by Flambeau should be denied.

(5) The petition to intervene filed by Flambeau, as successor in interest to The Kansas City Star, Flambeau Paper Division, may be in the public interest.

The Commission orders: (A) Northern is herein permitted to withdraw the tariff sheets tendered, on December 31, 1975 by Northern in Docket No. RP76–52 and accepted for filing on March 10, 1976.

(B) The tariff sheets tendered by Northern in Docket No. RP76–52 on March 18, 1976 are herein accepted for filing.

(C) The tariff sheets tendered by Northern in Docket No. RP76–52 on March 18, 1976 are herein suspended for one day until September 27, 1976. The presently effective interim plan approved in Docket No. RP74–102 shall be extended until the curtailment plan proposed by Northern in this proceeding is placed into effect by appropriate filing.

(D) The motion to reject is herein denied.

(E) Flambeau is permitted to intervene subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition to intervene: *And provided, further,* That the admission of such intervener shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76–428]

SEA ROBIN PIPELINE CO.

Application

JULY 27, 1976.

Take notice that on July 7, 1976, Sea Robin Pipeline Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP76–428 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public con-

---

[2] Lake Superior's filing also contains a supplemental petition for leave to intervene. Since the March 10, 1976 order stated that all parties to the interim curtailment plan were deemed parties to the consolidated proceeding, we deem the supplemental petition moot.

[3] The Northern Distributor Group consists of Interstate Power Company, Iowa Electric Light and Power Company, Iowa Illinois Gas and Electric Company, Iowa Power and Light Company, Iowa Public Service Company, Iowa Southern Utilities Company, Metropolitan Utilities District of Omaha, Minnesota Gas Company, North Central Public Service Co., and Northern States Power Company.

[4] Technically, this issue should have been initially raised by a petition for rehearing of the March 10, 1976 order, which gave Northern the option of filing a motion to effect the December 31, 1975 filing on or after September 27, 1976.

[5] The March 10, 1976 order consolidated the volumetric limitations issue in Docket No. RP74–102 (volumetric limitations) with the instant curtailment proceeding.

V 41 150 AUG 3 76 UMI

venience and necessity authorizing the construction and operation of facilities offshore Louisiana and the transportation of natural gas in interstate commerce, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to construct and operate the following facilities offshore Louisiana:

1. 14.4 miles of 24-inch pipeline from Platform "A", Block 128, South Marsh Island Area, to Platform "A", Block 330, Eugene Island Area.
2. 0.75 mile of 12-inch pipeline from Platform "A", Block 333, South Marsh Island Area, to the 24-inch pipeline described above.
3. A 6-inch dual turbine meter station on Platform "A", Block 333, Eugene Island Area, and a 10-inch dual line orifice meter station on Platform "A", Block 128, South Marsh Island Area.
4. 21.0 miles of 30-inch pipeline from Block 265, East Cameron Area, to Platform "B", Block 334, East Cameron Area.
5. 1.75 miles of 20-inch pipeline from Platform "B", Block 334, East Cameron Area, to Platform "A", Block 335 East Cameron Area.
6. A 10-inch dual orifice meter station on Platform "B", Block 884, East Cameron Area.
7. A 12-inch dual orifice meter station on Platform "A", Block 335, East Cameron Area.

The facilities are estimated to cost $37,045,200, which would be financed with cash on hand and generated through operations, and, as required, by interim bank borrowings.

Applicant states that the expansion of its system as proposed in the instant application is required in order to connect new gas supplies which are anticipated to be purchased by Applicant and to provide pipeline capacity for the transportation of gas for others. Applicant estimates that it would add 241,000,000 Mcf of gas to its system reserves by the implementation of the proposed expansion and states that in all likelihood an equal amount of reserves would be added to this proposed expansion on account of future Applicant purchases and/or existing and potential transportation arrangements.

The application states that Applicant has acquired the right to purchase all gas attributable to Pennzoil Offshore Gas Operator's (POGO) interest in Block 334, East Cameron Area, and gas attributable to 50 percent of POGO's 70 percent interest in Block 335, East Cameron Area. It is also stated that Applicant has acquired through an advance payment agreement the right to purchase gas attributable to Exxon Corporation's (Exxon) interest in Block 334, East Cameron Area. Further, it is stated, Applicant is negotiating with POGO and Pennzoil Louisiana and Texas Offshore (PLATO) for the contractual commitment of gas attributable to POGO's 6.67 percent interests and PLATO's 26.67 percent interests in each of Block 128, South Marsh Island Area, and Block 333, Eugene Island Area.

Applicant requests authorization to transport natural gas for United Gas Pipe Line Company (United). It is stated that United has acquired from POGO the right to purchase one-half of the gas attributable to POGO's 70 percent interest in Block 335, East Cameron Area and that Applicant has agreed to transport up to 56,200 Mcf of gas per day from said block for delivery to United onshore at a point near Erath, Vermilion Parish, Louisiana. Applicant would transport the gas for a monthly demand charge of $1.27 per Mcf of contract demand and a commodity charge of 20.51 cents per Mcf of gas actually transported.

Applicant requests authorization to transport natural gas for Mid Louisiana Gas Company (Mid Louisiana). It is stated that Mid Louisiana has acquired the right to purchase 20 percent of the gas attributable to Exxon's 30 percent interest in the gas produced in Block 335, East Cameron Area, and that Applicant has agreed to transport up to 10,000 Mcf of gas per day from said block for Mid Louisiana for delivery to United for the account of Mid Louisiana onshore at Erath. Applicant would transport the gas for a monthly demand charge of $1.27 per Mcf of contract demand and a commodity charge of 20.51 cents per Mcf of gas actually transported.

Applicant requests authorization to transport natural gas for Columbia Gas Transmission Corporation (Columbia). It is stated that Columbia has acquired the right to purchase 40 percent of the gas attributable to Exxon's 30 percent interest in Block 335, East Cameron Area, Texaco's interest in Block 313, Eugene Island Area, and Columbia Gas Development Company's, Forest Oil Company's, Felmont Oil Corporation's, and Case Pomeroy Oil Corporation's interests in Blocks 142 and 143, South Marsh Island Area, and that Applicant and Columbia have entered into a memorandum of understanding for Applicant to transport such gas onshore to Erath. Applicant states that Columbia has advised that it would require 34,300 Mcf of contract demand.

Applicant requests authorization to transport natural gas for Northern Natural Gas Company (Northern). It is stated that Northern has acquired the right to purchase 40 percent of the gas attributable to Exxon's 30 percent interest in the gas produced in Block 335, East Cameron Area, and has requested Applicant to transport such gas onshore to Erath. Applicant states that Northern has advised that it would require 19,300 Mcf of contract demand.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 18, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project No. 199]

SOUTH CAROLINA PUBLIC AUTHORITY

Application for Use of Project Lands and Waters

JULY 27, 1976.

Public notice is hereby given that an application was filed on March 4, 1976, under the Federal Power Act (16 U.S.C. 791a–825r) by South Carolina Public Service Authority (Correspondence to: Mr. J. B. Thomason, General Manager, South Carolina Public Service Authority, 223 North Live Oak Drive, Moncks Corner, South Carolina 29461; and Mr. Benjamin Harrison, Rt. 2, Box 514, West Columbia, South Carolina 29169), for Commission approval to excavate a slough at the Calhoun subdivision in Lake Marion, South Carolina.

The proposed excavation is intended to improve the appearance and usage of an existing slough at the Calhoun Subdivision. Approximately 1000 cubic yards of material would be excavated from a channel approximately 30 feet wide, 2 feet deep, and 450 feet long. This excavation would permit boat access to 5 subdivision plots now without boat access to the lake.

Any person desiring to be heard or to make any protest with reference to said application should, on or before September 20, 1976, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure, 18 CFR 1.8 or 1.10 (1975). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties

to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by sections 308 and 309 of the Federal Power Act, 16 U.S.C. 825g and 825h, and the Commission's rules of practice and procedure, specifically § 1.32(b), a hearing on this application may be held before the Commission without further notice if no issue of substance is raised by any request to be heard, protest, or petition filed subsequent to this notice within the time required herein. If an issue of substance is so raised, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will not be necessary for Applicant to appear or be represented at the hearing before the Commission.

The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

NATIONAL CREDIT UNION ADMINISTRATION

NATIONAL CREDIT UNION BOARD

Meeting and Agenda

Pursuant to the provisions of the Federal Advisory Committee Act, Pub. L. 92–463, 86 Stat. 770, notice is hereby given that the National Credit Union Board will hold a special meeting on August 12–13, 1976, at the offices of the National Credit Union Administration, 2025 M Street, NW., Washington, D.C. 20456. The meetings will commence at 9 a.m. daily in Room 4210.

The agenda for this meeting will consist of a discussion of reassignment of responsibilities among members of the Board and matters incidental thereto.

This meeting of the National Credit Union Board will be open to the public. Members of the public may file written statements with the Board either before or after the meeting. To the extent that time permits, interested persons may be permitted to present oral statements to the Board only on items listed in the aforementioned agenda. Requests to present such oral statements must be approved in advance by the Chairman of the Board. Such requests should be directed to the Chairman, National Credit Union Board, National Credit Union Administration, Washington, D.C. 20456.

C. AUSTIN MONTGOMERY,
Administrator.

JULY 22, 1976.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on July 26, 1976 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

NEW FORMS

U.S. CIVIL SERVICE COMMISSION

Survey of Compensation Practices for Unusual Work Conditions, single-time, different types of industries, Caywood, D.P., 395–3443.

REVISIONS

VETERANS ADMINISTRATION

Application and Enrollment Certification Individualized Tutorial Assistance, VA22–1990T, on occasion, veterans, Caywood, 395–3443.

DEPARTMENT OF COMMERCE

Bureau of Census, Survey of Residential Alterations and Repairs, initial and subsequent forms, QHS 730, QHS 731, quarterly, owners or managers of rental properties in QHS, Sunderhauf, M.B., 395–6140.

DEPARTMENT, OF HEALTH, EDUCATION, AND WELFARE

Office of Human Development, Annual Financial Report for Vocational Rehabilitation SRS–RSA–2, annually, state agencies, Caywood, D.P., 395–3443.

EXTENSIONS

UNITED STATES INFORMATION AGENCY

Participation Agreement (U.S. National Exhibits), IAP–12, on occasion, individuals, Warren Topelius, 395–5872.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Community Planning and Development, Community Development Funding Survey, HUD 4709, single-time, Community and Veterans Affairs Division, 395–3532.

POSTAL SERVICE

PRIVACY ACT OF 1974

Transfer of System of Records

The purpose of this document is to announce the transfer of a system of records previously maintained by the Postal Service to the General Services Administration.

Effective April 15, 1976, the responsibility of the Postal Service for monitoring the compliance of contractors with Equal Employment Opportunity requirements has been transferred to the General Services Administration, which will perform this function through its regional offices. All case files and records of contract compliance investigations have been transferred to the General Services Administration, which will be responsible for maintaining these records in accordance with its own regulations and procedures implementing the Privacy Act of 1974.

Accordingly, Postal Service maintenance of records concerning employee discrimination complaints and investigations involving contractors is no longer relevant and necessary to the accomplishment of a purpose of the Postal Service. The Postal Service has therefore determined under 5 U.S.C. 552a(e)(1), effective immediately, to delete from its original list of systems of records published on August 28, 1975 (40 FR 39810), as amended on January 15, 1976 (41 FR 2287), and on January 29, 1976 (41 FR 4504), system USPS 030.005, Equal Employment Opportunity—Contract Employee Discrimination Complaints/Investigation. This document constitutes final notice of this deletion.

ROGER P. CRAIG,
Deputy General Counsel.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-12656; File No. SR-Amex-76-17]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organizations

In the matter of proposed rule change by American Stock Exchange, Inc.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 20, 1976, American Stock Exchange, Inc. (the "Amex") filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Amex proposes to amend its Constitution by deleting the following provisions:

ARTICLE V, SECTION 4(g)

Dealings on another exchange:

(g) Whenever it is adjudged in a proceeding under this Article that a member or member organization is connected, either through a partner or otherwise, with another exchange or similar organization in the City of New York which permits dealings in any securities dealt in on this Exchange, or deals directly or indirectly upon such other exchange or organization in securities listed or admitted to unlisted trading on this Exchange, such member or member organization may be suspended or expelled from membership.

ARTICLE XI, SECTION 2

Securities admitted by New York Stock Exchange:

Sec. 2. Whenever any security listed or admitted to unlisted trading upon this Exchange is admitted to dealings upon the New York Stock Exchange, dealings therein upon the Floor or this Exchange shall cease.

In addition, the Amex proposes to adopt a policy pursuant to which (a) a security admitted to trading on the Amex and which becomes registered and listed on another national securities exchange in New York City would continue to be traded on the Amex where the issuer thereof elects to retain its Amex listing, (b) the Amex will not oppose an application to the Commission by an issuer to withdraw its securities from listing and registration on the Amex where such issuer has made application to be registered and listed on another national securities exchange in New York City and such delisting from the Amex is to become effective simultaneously with the registration and listing on such other exchange, and (c) the Amex will not for the present apply for unlisted trading privileges in any security.

AMEX'S STATEMENT OF BASIS AND PURPOSE

The purpose of the proposed rule changes is to permit the Amex to continue the trading of securities listed on the Amex when such securities also become registered and listed on another exchange in New York City.

Pursuant to the proposed policy, an Amex listed company which becomes registered and listed on another exchange in New York City will have a choice as to whether its securities continue to be traded on the Amex. If it elects to retain its Amex listing, such trading will be continued. However, if it applies to the Commission to have its securities withdrawn from registration and listing on the Amex simultaneously with its registration and listing on such other exchange, the Amex will not interpose any opposition. The determination by the Amex not to apply for unlisted trading privileges in any security for the present is aimed at protecting its source of revenues from listing fees and to assure appropriate regulatory controls over issuers whose securities are traded on the Amex.

The proposed rule changes are designed to conform the rules of the Amex with the provisions of the Securities Exchange Act of 1934, as amended by the Securities Act Amendments of 1975, specifically Section 6(b)(8) thereof, which provides that the rules of an exchange may not "impose any burden on competition not necessary or appropriate in furtherance of the purposes of this title."

No comments were solicited or received with respect to the proposed rules changes.

The Amex has determined that the proposed rule changes will not impose any burden on competition. To the contrary, the Amex believes that the proposed rule changes will enhance competition by permitting its members to continue making markets on the Amex in securities which become listed on another exchange in New York City.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to the file number referenced in the caption above and should be submitted within on or before September 2, 1976.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 26, 1976.

BOSTON STOCK EXCHANGE

Application for Unlisted Trading Privileges and of Opportunity for Hearing

JULY 27, 1976.

In the matter of Application of the Boston Stock Exchange for unlisted trading privileges in a certain security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the security of the company as set forth below, which security

is listed and registered on one or more other national securities exchanges:

Bankamerica Corporation, File No. 7-4847

Upon receipt of a request, on or before August 12, 1976 from any interested person, the Commission will determine whether the application with respect to the company named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 19625; 70-5879]

GULF POWER CO.

Proposed Agreement With County for Construction of Pollution Control Equipment Financed by Sale of Revenue Bonds; Sale to Counties of Existing Pollution Control Facilities

JULY 23, 1976.

Notice is hereby given that Gulf Power Company ("Gulf"), 75 North Pace Boulevard, P.O. Box 1151, Pensacola, Florida 32520, an electric utility subsidiary company of The Southern Company, a registered holding company, has filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), and 12(d) of the Act and Rules 44(b)(3) and 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to said application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Gulf owns an electric generating plant located in Bay County, Florida ("County"). In order to comply with environmental control standards with respect to air and water quality, Gulf has and will undertake to construct certain facilities ("Project") at this plant solely for this purpose. The total cost of the Project is presently estimated not to exceed $15 million.

To finance the Project, Gulf proposes to enter into an Installment Sales Agreement ("Agreement") with the County which will provide for the acquisition, construction and equipping of the Project by the County, and the issuance by the County, pursuant to an indenture ("Indenture") to be entered into between the County and an indenture trustee ("Trustee"), of its pollution control revenue bonds ("Pollution Bonds"), in an amount not to exceed $15 million. The proceeds of the sale of Pollution Bonds will be deposited by the County with the Trustee and will be applied to the payment of the cost of construction (as defined in the Agreement) of the Project.

It is further proposed, and the Agreement provides, that the Project will be sold to Gulf, the purchase price to be paid in semi-annual installments over a term of years. The purchase price shall be in an amount sufficient to pay the principal and interest on the Pollution Bonds as such amounts become due and payable. Gulf may prepay the purchase price (a) in whole or in part, at Gulf's option, at any time on or after ten years from the date of issuance of the Pollution Bonds, subject to payment of a premium equal initially to 3 percent of the principal amount and declining thereafter by ½ of 1 percent per year, and (b) in whole, at Gulf's option in certain other specified instances, without premium. It is proposed that the Pollution Bonds will mature 30 years from the first day of the month in which they are initially issued and that the Pollution Bonds will be entitled to the benefit of serial maturities and/or a mandatory redemption sinking fund calculated to retire not less than 25 percent of the aggregate principal amount of the issue prior to maturity.

In order to obtain the benefit of a rating for the Pollution Bonds equivalent to the rating enjoyed by the first mortgage bonds outstanding under Gulf's bond indenture ("Mortgage"), Gulf proposes to obtain the authentication of a series of such first mortgage bonds ("Collateral Bonds") under the Mortgage, pursuant to a supplemental indenture ("Supplemental Mortgage") dated as of October 1, 1976. The Collateral Bonds, to be delivered in a principal amount equal to the principal amount of the Pollution Bonds, will be deposited with the Trustee as security for Gulf's obligations under the Agreement. The Collateral Bonds will have a stated interest rate equal to the interest rate per annum to be borne by the Pollution Bonds, will mature on the maturity date of such Pollution Bonds, and will be nontransferable. The Supplemental Mortgage will provide, however, that until the Trustee shall have demanded mandatory redemption of the Collateral Bonds, no interest in respect of the Collateral Bonds shall be payable; and that upon acceleration of Pollution Bonds then outstanding by the Trustee, he may demand the mandatory redemption of the Collateral Bonds at a price equal to the principal amount thereof plus accrued interest, if any, to the date fixed for redemption.

The Supplemental Mortgage will also provide that upon the optional redemption of the Pollution Bonds, in whole or in part, at any time after they have been outstanding for ten years, an equal principal amount of the Collateral Bonds will be redeemed at an initial premium of 3 percent declining by ½ percent every year.

The Indenture will provide that, upon deposit of funds with or direction to the Trustee by Gulf to apply available funds, or upon delivery of outstanding Pollution Bonds sufficient to pay or redeem all or any part of the Pollution Bonds, the Trustee will be obligated to deliver to Gulf Collateral Bonds in an aggregate principal amount equal to that amount of Pollution Bonds for the payment or redemption of which such funds have been deposited or applied or which shall have been so delivered.

It is stated that the Pollution Bonds are expected to be marketed pursuant to an arrangement between the County and a group of underwriters represented by an underwriter whose name will be supplied by amendment. In accordance with the laws of the State of Florida, the interest rate thereon will be fixed by the County, and the terms and sale of the Pollution Bonds must be satisfactory to Gulf, although Gulf will not be a party to the underwriting arrangement. Gulf further states that it is expected that the interest payable on the Pollution Bonds will be exempt, by ruling of the Internal Revenue Service, from federal income taxation. It is not possible to ascertain in advance precisely the interest rate which may be obtained in connection with the issuance of the Pollution Bonds, but Gulf is advised that tax-exempt bonds of like quality and tenor have historically carried an annual interest rate approximately one and one-half to two and one-half percent lower than comparable taxable long-term corporate bonds.

In order to comply with provisions of Florida law authorizing the County to issue its revenue bonds for the purposes heretofore described, Gulf will be obligated to convey to the County such existing pollution control facilities as are now owned by Gulf, subject to the Mortgage. The Agreements provide that Gulf will receive, out of the proceeds of the Pollution Bonds, an amount equal to Gulf's original cost for such existing facilities, which, upon conveyance to the County, will become a part of the Project which Gulf proposes to purchase as provided in the Agreement.

For financial and accounting reporting purposes, the indebtedness of Gulf under the Collateral Bonds will be capitalized. A statement of the fees, commissions and expenses paid or incurred, or to be paid or incurred, in connection with the proposed transaction will be supplied by amendment. It is stated that the Florida Public Service Commission has jurisdiction over the issuance of Gulf's Collateral Bonds and the assumption by Gulf of its obligations under the Agreement. No other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Gulf submits that the issuance and delivery of its Collateral Bonds to the County should be exempted from the competitive bidding requirements of Rule

V41I150 AUG 3 76 UMI

50 by reason of clause (a)(5) thereof inasmuch as they are to be issued and delivered solely to secure Gulf's obligations to the County and no public offering by Gulf is to be made.

Notice is further given that any interested person may, not later than August 17 1976, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Rel No. 9365; 812-3971]

NATIONAL MUNICIPAL TRUST, FIRST COMBINED INTERMEDIATE/DISCOUNT SERIES AND SUBSEQUENT AND SIMILAR SERIES

Application for Order Granting Exemption

JULY 23, 1976.

In the matter of National Municipal Trust, Special Trusts, First Combined Intermediate/Discount Series and Subsequent and Similar Series. c/o Thomson & McKinnon Auchincloss, Kohlmeyer Inc., One New York Plaza, New York, New York 10004.

Notice is hereby given that National Municipal Trust, Special Trusts, First Combined Intermediate/Discount Series and Subsequent and Similar Series ("Applicant"), a unit investment trust registered under the Investment Company Act of 1940 ("Act"), filed an application on June 22, 1976, pursuant to section 6(c) of the Act for exemption from the provisions of sections 14(a) and 22(d) of the Act and Rules 19b–1 and 22c–1 under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant is a registered unit investment trust, to be organized under the laws of the State of New York. It is presently intended that the United States Trust Company of New York will act as Trustee of Applicant ("Trustee")-pursuant to a trust agreement ("Trust Agreement") between the Trustee and Thomson & McKinnon Auchincloss Kohlmeyer Inc. and Piper, Jaffray & Hopwood Incorporated as Sponsors, or with additional or succeeding Sponsors ("Sponsors"), and that Standard & Poor's Corporation will serve as Evaluator with respect to each Series of Applicant (all of which Series are hereinafter sometimes collectively referred to as the "Funds" or individually as a "Fund").

Pursuant to the Trust Agreement for each Series of Applicant, the Sponsors will deposit with the Trustee not less than $3,000,000 principal amount of tax-free municipal bonds ("Bonds"), which the Sponsors shal have accumulated for such purpose. The Bonds will be depsoited in one or more trusts (the "Trusts") created under the Trust Agreement, units of beneficial interests of which Trusts will be offered to the public pursuant to the prospectus. Simultaneously with such deposit the Sponsors will receive from the Trustee registered certificates representing not less than 3,000 Units allocated among the Trusts in propostion to the aggregate principal amount of Bonds in each, which will represent the entire ownership of the Trusts and the Series.

Each Trust in each Fund will consist of Bonds, such bonds as may continue to be held from time to time in exchange or substitution for any of the Bonds upon certain refundings, accrued and undistributed interest and undistributed cash. Certain of the Bonds may from time to time be sold under the special circumstances set forth in the Trust Agreement or may be redeemed or may mature in accordance with their terms. The proceeds from such dispositions will be distributed to Unit holders and not reinvested. There is no provision in the Trust Agreement for the Fund or any of the Trusts created thereunder, and there will be no provision in the Trust Agreement for any future Series, for the sale and reinvestment of the Bonds, and such activity will not take place. Reference is made to the Trust Agreement and to the Prospectus for the Fund for a full explanation of the operation of the Fund.

Each Unit for a particular Trust of any Fund will represent a fractional undivided interest in that Trust of that Fund. Units will be redeemable. In the event that any Units shall be redeemed, the denominator of the fraction will be reduced and the fractional undivided interest represented by each Unit increased. Units will remain outstanding until redeemed or until the termination of the Trust Agreement. The Trust Agreement may be terminated with respect to any Trust by agreement of a specified percentage of the holders of Units of the Trust, or, in the event that the value of the Bonds in a Trust shall fall below a specified amount, either upon direction of the Sponsors to the Trustee or by the Trustee without such direction, respectively. There is no provision in the Trust Agreement for the Fund, and there will be no provision in the Trust Agreements for future Funds, for the issuance of any Units of any Trust after the initial offering of Units (except to the extent that the secondary trading by the Sponsors in the Units is deemed the issuance of Units under the Act) and such activity will not take place.

Following the deposit of Bonds for each Fund by the Sponsors with the Trustee, and following the declaration of effectiveness of that Fund's registration statement under the Securities Act of 1933 and clearance by the securities authorities of various States, the Sponsors will offer the Units of the Trusts comprising that Fund to the public at the public offering prices set forth in the prospectus. The public offering prices are based upon the aggregate offering side evaluation of the underlying Bonds in the Trust porfolio, plus a sales charge. The amount of the sales charge will vary from Trust to Trust.

Combined Units (composed of equal portions of Units from each Trust) will be offered during the initial offering period at a Combined Units Public Offering Price which is computed by adding to the sum of the per unit offering side evaluation of the Bonds in the portfolios of each Trust a sales charge which is slightly less than the average of the sales charges applicable to the Units of the Trusts if purchased separately. Combined Units will not be offered beyond the initial offering period.

It is the purpose of each Fund to provide a diversified investment. The Applicant alleges that the multiple trust concept is utilized to permit investors to select different maturities and portfolios and/or diversify among maturities and portfolios. In the opinion of counsel, none of the Trusts of the Funds will be associations taxable as corporations under the Internaal Revenue Code and to the extent that income of any Fund consists of interest excludable from gross income under the Internal Revenue Code such income is excludable from the gross income of the Unit holders when distributed to them.

All of the Bonds will be tax-free municipal Bonds. For the First Combined Intermediate/Discount Series, Applicant will purchase Bonds for the Discount Trust portion at prices which will result in the portfolio for the Discount Trust as a whole being purchased at a deep "market" discount. Applicant intends in the future to offer Units of a Series for sale to the public separately or, at reduced sales charges, on an underwritten basis in conjunction with shares of American Mutual Fund, Inc., a registered open-end management company. For these purposes, an application for exemption from the provisions of Section 22(d) of the Investment Company Act of 1940 was previously filed and an order granting the exemption was

issued on December 30, 1975 (IC Rel. No. 9105).

While the Sponsors are not obligated to do so, it is their present intention to maintain a secondary market for Units of the Applicant and continuously to offer to purchase such Units at prices in excess of the redemption prices as set forth in the Trust Agreement. In the absence of such a market, investors may be able to dispose of their Units only by redemption.

Section 14(a). Section 14(a) of the Act, in substance, provides that no registered investment company and no principal underwriter for such a company shall make a public offering of securities of which such company is the issuer unless (1) the company has a net worth of at least $100,000; (2) at the time of a previous public offering it had a net worth of $100,000; or (3) provision is made that a net worth of $100,000 will be obtained from not more than twenty-five responsible persons within ninety days, or the entire proceeds received, including sales charge, will be refunded.

Applicant asserts that section 14(a) of the Act is intended to limit the formation of undercapitalized investment companies. Applicant states that it is intended that each Series, at the date of deposit and before any unit is offered to the public, will have a net worth far in excess of $100,000, that the Sponsors intend to sell all Units to the public at offering prices disclosed in the prospectus for such Series, that it is intended that a secondary market for the Units be maintained, and that interest rates and other applicable information concerning the underlying Bonds will be disclosed in the prospectus.

The Sponsors have agreed to the requested exemption being subject to the condition that they will refund, on demand and without deduction, all sales charges paid by purchasers of Units in the initial public offering of a Series if, within 90 days from the time that the Registration Statement relating to such Series becomes effective, either (i) the net worth of such Series shall be reduced to less than $100,000, or (ii) such Fund shall have been terminated. The Sponsors have further agreed to instruct the Trustee on the date of deposit of each Series that in the event that redemption by the Sponsors of Units constituting a part of the unsold Units of a Trust of any Series shall result in that Trust having a net worth of less than $500,000, the Trustee shall terminate such Trust in the manner provided in the Trust Agreement and distribute any municipal bonds or other assets deposited with the Trustee in connection with such Trust pursuant to the Trust Agreement as provided therein.

Section 22(d). Section 22(d), in pertinent part, prohibits registered investment companies, underwriters and dealers from selling redeemable securities other than at a current public offering price described in the prospectus. Applicant seeks an exemption from the provisions of section 22(d) to the extent that the offering price for Combined Units of Units of the Trust of a Fund during the initial offering period as described above and in the prospectus may be in conflict with such section.

Applicant asserts that the reduction in net sales charge applicable to the purchaser of Combined Units results in a savings to such purchaser over the cost of such Units purchased separately, is fully disclosed and available to all purchasers of Units during the initial offering period, and represents sound business practice on the part of the Sponsors. Applicant represents that the granting of the aforesaid exemption is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Rule 19b–1. Rule 19b–1(b) provides, in part, that no registered investment company which is not a "regulated investment company" as defined in section 851 of the Internal Revenue Code shall make more than one distribution of long-term capital gains in any one taxable year of such investment company.

Applicant proposes to make monthly distributions of principal and interest to Unit holders of a Series. Distributions of principal constituting capital gains to Unit holders may arise in two instances: (1) if an issuing authority calls or redeems an issue held in the portfolio, the sums received by Applicant will be distributed to Unit holders on the next distribution date; and (2) if bonds are sold in order to provide funds necessary to meet redemptions.

Applicant states that the dangers against which Rule 19b–1 is intended to guard will not exist in connection with any Series of Applicant, because neither Applicant nor the Sponsors has control over the events which could trigger capital gains. Applicant seeks to make a combined distribution of principal, including capital gains, and interest each month, and states that any capital gains in such distribution will be clearly indicated as such in accompanying reports to Unit holders. In addition, it is alleged that the amounts involved in a normal distribution of principal will be relatively small in comparison to the normal interest distribution.

Paragraph (b) of Rule 19b–1 provides that a unit investment trust may distribute capital gain dividends received from a "regulated investment company" within a reasonable time after receipt. Applicant states that the purpose behind such provision is to avoid forcing unit investment trusts to accumulate valid distributions received throughout the year and distribute them only at year end. Applicant further alleges that its situation places it squarely within the purpose of such provision. In order to comply with the literal requirements of the Rule, however, Applicant would be forced to hold any monies which would constitute capital gains upon distribution until the end of its taxable year. Applicant contends that such a practice would cleary be to the detriment of the Unit holders.

Rule 22c–1. Rule 22c–1 provides, in part, that redeemable securities of registered investment companies may be sold, redeemed, or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicant states that the Rule has two purposes: (1) To eliminate or to reduce any dilution of the value of outstanding redeemable securities of registered investment companies which would occur through the redemption or repurchase of such securities at a price above their net asset value or the sale of such securities at a price based on a previously established net asset value which would permit a potential investor to take advantage of an upswing in the market and the accompanying increase in the net asset value of the securities; and (2) to minimize speculative trading practices in the securities of registered investment companies.

Applicant represents that the Sponsors, while not obligated to do so, intend to maintain a market for the Units and continuously to offer to purchase Units at prices in excess of redemption prices. For purposes of the secondary market transactions, an evaluation will only be made once each week.

Applicant asserts that the sale and repurchase of Units of the Applicant in the secondary market cannot dilute the value of outstanding securities. Such sales and repurchases will be made only by the Sponsors and not the Trustee and in no way involve the assets of any Fund. Applicant also asserts that, because of the nature of the bonds in the portfolios, price changes are limited. Thus, the movement in the municipal bond market is not sufficient to make speculation in an interest in a group of bonds ordinarily profitable.

Applicant claims that public Unit holders benefit from the Sponsors' pricing procedure in the secondary market, because they receive a normally higher repurchase price for their units without the cost burden of daily evaluations of the Unit redemption value. Moreover, the application states that the Sponsors have undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide the Sponsors with estimated evaluations on trading days.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such ex-

V 41 150 AUG 3 76 UMI

emption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than August 17, 1976, at 5:30 p.m., submit to the Commission in writing a request for hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 34-12655; File No. SR-PSE-76-25]

PACIFIC STOCK EXCHANGE INC.

Self-Regulatory Organizations

In the matter of proposed rule change by Pacific Stock Exchange Incorporated.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on July 21, 1976, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

A. STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

Pacific Stock Exchange Incorporated ("PSE") hereby requests to amend Section 4 of Rule XIII of the Rules of its Board of Governors by adding the word "dually" to subparagraph (xii) as follows:

(xii) Any purchase or sale of a dually listed security by a member or member organization with a professional non-member customer (i.e., broker-dealer in securities or commodities, insurance company, investment company, investment advisor, investment manager, bank, trust company, foundation, professional trustee, or one engaged in any closely allied activity) provided the member or member organization is a market maker in the security involved;

B. STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of the proposed rule change is to clarify that the exemption to PSE's off-board trading rule contained in subpargaraph (xii) of section 4 of Rule XIII applies only to dually listed securities. This language is a carry-over from PSE's prior Rule XIII, but the word "dually" was inadvertently omitted at the time PSE revised the Rule to comply with Rule 19c-1 of the Commission.

The proposed rule change is consistent with Securities and Exchange Commission Rule 19c-1.

Comments have not been solicited from members on the proposed rule change.

Any burden which the proposed rule change will impose on competition would be minimal and is consistent with the provisions of Commission Rule 19c-1.

* * * * * *

Within thirty-five (35) days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to ninety (90) days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing.

Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before September 2, 1976 after the date of this publication. For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 26, 1976.

[FR Doc.76-22413 Filed 8-2-76;8:45 am]

DEPARTMENT OF LABOR

Office of Federal Contract Compliance Programs

NEW FORMAT FOR FEDERAL EQUAL EMPLOYMENT OPPORTUNITY BID CONDITIONS FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Contracts and Subcontracts in Selected Areas

On April 3, 1975, there was published in the FEDERAL REGISTER (40 FR 14953) a notice and opportunity for comment concerning the intention of the Department of Labor to adopt New Model Federal EEO Bid Conditions for inclusion in Federal and federally assisted construction contracts and subcontracts in selected areas.

The following Model Federal EEO Bid Conditions are issued to carry out the purposes of Executive Order 11246, as amended. The Model Federal EEO Bid Conditions reflect changes which were made as a result of comments received on the proposed Model Federal EEO Bid Conditions. The comments received were equally distributed between those favorable and unfavorable. In general those favorable felt that deletion of the Bidder's Certification will eliminate undue and costly delays resulting from contractors and subcontractors being declared nonresponsive because of their failure to fill in a form correctly. Those opposed to the elimination of the Bidders' Certification felt that a pre-award certification is essential in establishing the contractors' and subcontractors' commitment to affirmative action.

The Department has carefully considered all the comments and has determined that the format developed in the new Model Federal EEO Bid Conditions adequately apprises prospective contractors and subcontractors, prior to bid opening, of the importance of the Federal affirmative action requirements and is compatible with procurement principles. Under Comptroller General opinions and the decisions in Northeast Construction Company v. Romney, 485 F. 2d 752 (D.C. Cir. 1973) and Rossetti Contracting Co. v. Brennan, 508 F. 2d 1039 (7th Cir. 1975), the failure of a bidder to specify its goals for minority employment as required by imposed plans or the failure of a bidder to complete and submit a Bidders' Certification form as required by the Bid Conditions in hometown plan areas requires the contracting agency to declare the bid nonresponsive. This has caused the loss of hundreds of thousands of dollars because defective low bids were discarded in favor of the new low bid.

The original reason for requiring the submission of a properly executed Bidder's Certification was that it was thought to be helpful in informing contractors of their obligations and eliminated inattentive bidders. However it is now an opinion that contractors are reasonably aware of their EEO obligations so as to obviate the need for the certification. Therefore, the amendment of the Bid Conditions would eliminate the signature and fill-in-the-blank requirements. Instead, the Federal EEO Bid Conditions clearly notify prospective bidders that they will be committed to the goals contained therein by submitting a properly signed bid. This amendment does not diminish the government's enforcement ability or applicable EEO requirements yet permits contracting agencies to award contracts to the lowest responsive and responsible bidder.

It is for this reason that the new Model Federal EEO Bid Conditions make the affirmative action requirements binding on all bidders who submit signed bids.

Accordingly, effective September 1, 1976, all contracting and administering agencies are directed to adopt the new Model Federal EEO Bid Conditions for inclusion in all future invitations for bids on all non-exempt Federal and federally assisted construction contracts and subcontracts awarded in areas covered by hometown plans (Part I) and Part II EEO requirements. Further, all other forms of Federal EEO bid conditions containing hometown plans and Part II EEO bid condition requirements now in use for such areas are not to be included in Invitations for Bid after adoption of the new Model Federal EEO Bid Conditions.

This new format has been coordinated through the Office of Federal Procurement Policy of the Office of Management and Budget in accordance with Pub. L. 93-400, the Office of Federal Procurement Policy Act.

Set forth below are the new Model Federal EEO Bid Conditions:

BID CONDITIONS; AFFIRMATIVE ACTION REQUIREMENTS; EQUAL EMPLOYMENT OPPORTUNITY

For all Non-Exempt Federal and Federally-Assisted Construction Contracts to be Awarded in [ ].

NOTICE

EACH BIDDER, CONTRACTOR OR SUBCONTRACTOR (HEREINAFTER THE CONTRACTOR) MUST FULLY COMPLY WITH EITHER PART I OR PART II, AS APPLICABLE, OF THESE BID CONDITIONS AS TO EACH CONSTRUCTION TRADE IT INTENDS TO USE ON THIS CONSTRUCTION CONTRACT AND ALL OTHER CONSTRUCTION WORK (BOTH FEDERAL AND NON-FEDERAL IN THE [ ] AREA DURING THE PERFORMANCE OF THIS CONTRACT OR SUBCONTRACT. THE CONTRACTOR COMMITS ITSELF TO THE GOALS FOR MINORITY MANPOWER UTILIZATION IN EITHER PART I OR PART II, AS APPLICABLE, AND ALL OTHER REQUIREMENTS, TERMS AND CONDITIONS OF THESE BID CONDITIONS BY SUBMITTING A PROPERLY SIGNED BID.

THE CONTRACTOR SHALL APPOINT A COMPANY EXECUTIVE TO ASSUME THE RESPONSIBILITY FOR THE IMPLEMENTATION OF THE REQUIREMENTS, TERMS AND CONDITIONS OF THESE BID CONDITIONS.

Part I: The provisions of this Part I apply to contractors which are party to collective bargaining agreements with labor organizations which together have agreed to the [ ] Area Construction Program (hereinafter the [ ] Plan) for equal opportunity and have jointly made a commitment to specific goals of minority and, where applicable, female utilization. The [ ] Plan is a tripartite voluntary agreement between [ ]. The [ ] Plan, together with all implementing agreements that have been and may hereafter be developed pursuant thereto, are incorporated herein by reference.

Any contractor using one or more trades of construction employees must comply with either Part I or Part II of these Bid Conditions as to each such trade. A contractor may therefore be in compliance with Part I of these Bid Conditions by its participation with the labor organization which represent its employees in the [ ] Plan as to one trade provided there is set forth in the [ ] Plan a specific commitment by both the contractor and the labor organization to a goal of minority utilization for that trade. Contractors using trades which are not covered by Part I (See Part II, Section A) must comply with the commitments contained in Part II including goals for minorities and female utilization set forth in Part II.

If a contractor does not comply with the requirements of these Bid Conditions, it shall be subject to the provisions of Part II.

Part II: A. Coverage. The provisions of this Part II shall be applicable to those contractors who:

1. Are not or hereafter cease to be signatories to the [ ] Plan incorporated by reference in Part I hereof;

2. Are signatories to the [ ] Plan but are not parties to collective bargaining agreements;

3. Are signatories to the [ ] Plan but are parties to collective bargaining agreements with labor organizations which are not or hereafter cease to be signatories to the [ ] Plan;

4. Are signatories to the [ ] Plan and are parties to collective bargaining agreements with labor organizations but the two have not jointly executed a specific commitment to goals for minority utilization and incorporated the commitment in the [ ] Plan; or

5. Are participating in an affirmative action plan which is no longer acceptable to the Director, OFCCP, including the [ ] Plan.

6. Are signatories to the [ ] Plan but are parties to collective bargaining agreements with labor organizations which together have failed to make a good faith effort to comply with their obligations under the [ ] Plan and, as a result, have been placed under Part II of the Bid Conditions by the Office of Federal Contract Compliance Programs.

B. *Requirement—An Affirmative Action Plan.* Contractors described in paragraphs 1 through 6 above shall be subject to the provisions and requirements of Part II of these Bid Conditions including the goals and timetables for minority[1] utilization, and specific affirmative action steps set forth in Sections B.1 and 2 of this Part II. The contractor's commitment to the goals for minority utilization as required by this Part II constitutes a commitment that it will make every good faith effort to meet such goals.

1. *Goals and Timetables.* The goals of minority utilization required of the contrator are applicable to each trade used by the contractor in the [ ] Plan area and which is not otherwise bound by the provisions of Part I.

For all such trades the following goals and timetables shall be applicable.

Until [ ]	[ ]	[ ]
From [ ] to [ ]	[ ]	[ ]
From [ ] to [ ]	[ ]	[ ]
From [ ] to [ ]	[ ]	[ ]
From [ ] to [ ]	[ ]	[ ][2]

[2] In the event that any work which is subject to these Bid Conditions is performed in a year later than the latest year for which goals of minority utilization have been established, the goals for the last year of the Bid Conditions will be applicable to such work.

The goals of minority and female utilization above are expressed in terms of hours of training and employment as a proportion of the total number of hours to be worked by the contractor's aggregate work force, which includes all supervisory personnel, in each trade on all projects (both Federal and non-Federal) in the [ ] Plan area during the performance of its contract (i.e., the period beginning with the first day of work on the Federal or federally assisted construction contract and ending with the last day of work.)

The hours of minority employment and training must be substantially uniform throughout the length of the contract in each trade and minorities must be employed evenly on each of a contractor's projects. Therefore, the transfer of minority employees or trainees from contractor to contractor or from project-to-project for the purpose of meeting the contractor's goals shall be a violation of Part II of these Bid Conditions.

If the contractor counts the nonworking hours of trainees and apprentices in meeting the contractor's goals, such trainees and apprentices must be employed by the contractor during the training period; the contractor must have made a commitment to employ the trainees and apprentices at the comple-

[1] "Minority" is defined as including Blacks, Spanish Surnamed Americans, Orientals and American Indians, and includes both minority men and minority women.

V 41 150 AUG 3 76 UMI

tion of their training subject to the availability of employment opportunities; and the trainees must be trained pursuant to training programs approved by the Bureau of Apprenticeship and Training for "Federal Purposes" or approved as supplementing the ( ) Plan.

2. *Specific Affirmative Action Steps.* No contractor shall be found to be in noncompliance with Executive Order 11246, as amended, solely on account of its failure to meet its goals, but shall be given an opportunity to demonstrate that the contractor has instituted all the specific affirmaive action steps specified in this Part II and has made every good faith effort to make these steps work toward the attainment of its goals within the timetables, all to the purpose of expanding minority utilization in its aggregate work force in the ( ) Plan area. A contractor subject to Part I which fails to comply with its obligations under the Equal Opportunity clause of its contract (including failure to meet its fair share obligation if provided in the ( ) Plan) or subject to Part II which fails to achieve its commitments to the goals for minority utilization has the burden of proving that it has engaged in an affirmative action program directed at increasing minority utilization and that such efforts were at least as extensive and as specific as the following:

a. The contractor should have notified minority organizations when employment opportunities were available and should have maintained records of the organizations' response.

b. The contractor should have maintained a file of the names and addresses of each minority referred to it by any individual or organization and what action was taken with respect to each such referred individual, and if the individual was not employed by the contractor, the reasons therefor. If such individual was sent to the union hiring hall for referral and not referred back by the union or if referred, not employed by the contractor, the file should have documented this and the reasons therefor.

c. The contractor should have promptly notified the contracting or administering agency and the Office of Federal Contract Compliance Programs when the union or unions with which the contractor has collective bargaining agreements did not refer to the contractor a minority sent by the contractor, or when the contractor had other information that the union referral process has impeded efforts to meet its goals.

d. The contractor should have disseminated its EEO policy within its organization by including it in any employee handbook or policy manual; by publiciizng it in company newspapers and annual reports, and by advertising such policy at reasonable intervals in union publications. The EEO policy should be further disseminated by conducting staff meetings to explain and discuss the policy; by posting of the policy; and by review of the policy with minority employees.

e. The contractor should have disseminated its EEO policy externally by informing and discussing it with all recruitment sources; by advertising in news media, specifically including minority news media; and by notifying and discussing it with all subcontractors.

f. The contractor should have made both specific and reasonably recurrent written and oral recruitment efforts. Such efforts should have been directed at minority, organizations, schools with substantial minority enrollment, and minority recruitment and training organizations within the contractor's recruitment area.

g. The contractor should have evidence available for inspection that all tests and other selection techniques used to select from among candidates for hire, transfer, promotion, training or retention are being used in a manner that does not violate the OFCCP Testing Guidelines in 41 CFR Part 60–3.

h. The contractor where reasonable should have developed on-the-job training opportunities and participated and assisted in all Department of Labor funded and/or approved training programs relevant to the contractor's employee needs consistent with its obligations under this Part II.

i. The contractor should have made sure that seniority practices and job classifications do not have a discriminatory effect.

j. The contractor should have made certain that all facilities were not segregated by race.

k. The contractor should have continually monitored all personnel activities to ensure that its EEO policy was being carried out including the evaluation of minority employees for promotional opportunities on a quarterly basis and the encouragement of such employees to seek those opportunities.

l. The contractor should have solicited bids for subcontracts from available minority subcontracts engaged in the trades covered by these Bid Conditions, including circulation of minority contractor associations.

NOTE—The Assistant Regional Administrator of the Office of Federal Contract Compliance Programs and the compliance agency staff will provide technical assistance on questions pertaining to minority recruitment sources, minority community organizations and minority news media upon receipt of a request for assistance from a contractor.

3. *Subsequent Signatory to the [ ] Plan.* Contractors that are subject to the requirements of Part II at the time of the submission of their bids which, together with labor organizations with which they have collective bargaining agreements, subsequently become signatory to the [ ] Plan, either individually or through an association, will be deemed bound to their commitments to the [ ] Plan from that time until and unless they once again become subject to the requirements of Part II pursuant to Section A.1–6.

4. *Non-discrimination.* In no event may a contractor utilize the goals and affirmative action steps required by this Part II in such a manner as to cause or result in discrimination against any person on account of race, color, religion, sex or national origin.

Part III: *Compliance and Enforcement.* In all cases, the compliance of a contractor will be determined in accordance with its obligations under the terms of these Bid Conditions. Therefore, contractors who are governed by the provisions of either Part I or Part II shall be subject to the requirements of that Part regardless of the obligations of its prime contractor or lower tier subcontractors.

All contractors performing or to perform work on projects subject to these Bid Conditions hereby agree to inform their subcontractors in writing of their respective obligations under the terms and requirements of these Bid Conditions, including the provisions relating to goals of minority employment and training.

A. *Contractors Subject to Part I.* 1. A contractor covered by Part I of these Bid Conditions shall be in compliance with Executive Order 11246, as amended, the implementing regulations and its obligations under Part I, provided the contractor together with the labor organization or organizations with which it has a collective bargaining agreement meet the goals for minority utilization to which they committed themselves in the [ ] Plan, or can demonstrate that every good faith effort has been made to meet the goal. In that event, no formal sanctions or proceedings leading toward sanctions shall be instituted unless the Office of Federal Contract Compliance Programs determines that the contractor has violated a substantial requirement in the [ ] Plan or Executive Order 11246, as amended, and its implementing regulations, including the failure of such contractor to make a good faith effort to meet its fair share obligation if provided in the [ ] Plan or has engaged in unlawful discrimination. Such violations shall be deemed to be noncompliance with the Equal Opportunity clause of the contract, and shall be grounds for imposition of the sanctions and penalties provided for in Executive Order 11246, as amended.

2. The OFCCP shall review Part I contractors' employment practices during the performance of the contract. Further, OFCCP shall be solely responsible for any final determination that the [ ] Plan is no longer an acceptable affirmative action program and the consequences thereof. The OFCCP may, upon review and notice to the contractor and any affected labor organization, determine that the [ ] Plan no longer represents effective affirmative action. In the event it shall be solely responsible for any final determination of that question and the consequences thereof.

3. Where OFCCP finds that a contractor has failed to comply with the requirements of the [ ] Plan and its obligation under Part I of these Bid Conditions, it shall take such action and/or impose such sanctions as may be appropriate under the Executive Order and its regulations. When the OFCCP proceeds with such formal action it has the burden of proving that the contractor has not met the requirements of these Bid Conditions. The failure of the contractor to comply with its obligations under the Equal Opportunity clause shall shift to it the requirement to come forward with evidence to show that it has met the good faith requirements of these Bid Conditions by instituting at least the specific affirmative action steps listed in Part II, Section 2. The contractor must also provide evidence of its steps toward the attainment of its trade's goals within the timetables set forth in the [ ] Plan. The pendency of such formal proceedings shall be taken into consideration by Federal agencies in determining whether such contractor can comply with the requirements of Executive Order 11246, as amended, and is therefore a "responsible prospective contractor" within the meaning of basic principles of Federal procurement law.

B. *Contractors Subject to Part II.* In regard to Part II of these Bid Conditions, if the contractor meets the goals set forth therein or can demonstrate that it has made every good faith effort to meet these goals, the contractor shall be presumed to be in compliance with Executive Order 11246, as amended, the implementing regulations and its obligations under Part II of these Bid Conditions. In that event, no formal sanctions or proceedings leading toward sanctions shall be instituted unless the contracting or administering agency otherwise determines that the contractor is violating the Equal Opportunity clause.

Where the agency finds that the contractor failed to comply with the requirements of Executive Order 11246, as amended, the implementing regulations and the obligations under Part II of these Bid Conditions, the agency shall take such action and impose such sanctions, which include suspension, termination, cancellation, and debarment, as may be appropriate under the Executive Order and its regulations. When the agency proceeds with such formal action it has the burden of proving that the contractor has not met the goals contained in Part II of these Bid Conditions. The contractor's failure to meet its goals shall shift to it the requirement to come forward with evidence to show that it has met the good faith requirements of these Bid Conditions by instituting at least the specific affirmative action steps listed in Part II, Section 2. The pendency of such proceedings shall be taken into consideration by Federal agencies in determining whether such contractor can comply with the requirements of Executive Order 11246, as amended, and is therefore, a "responsible prospective contractor" within the meaning of the basic principles of Federal procurement law.

C. *Obligations Applicable to Contractors Subject to Either Part I or Part II.* It shall be no excuse that the union with which the contractor has a collective bargaining agreement providing for exclusive referral failed to refer minority employees. Discrimination in referral for employment, even if pursuant to provisions of a collective bargaining agreement, is prohibited by the National Labor Relations Act, as amended, and Title VII of the Civil Rights Act of 1964, as amended. It is the policy of the Office of Federal Contract Compliance Programs that contractors have a responsibility to provide equal employment opportunity if they wish to participate in federally involved contracts. To the extent they have delegated the responsibility for some of their employment practices to a labor organization and, as a result, are prevented from meeting their obligations pursuant to Executive Order 11246, as amended, such contractors cannot be considered to be in compliance with Executive Order 11246, as amended, its implementing rules and regulations.

Part IV: *General Requirements.* 1. Contractors are responsible for informing their subcontractors in writing regardless of tier, as to their respective obligations under Parts I and II hereof, as applicable. Whenever a contractor subcontracts a portion of the work in any trade covered by these Bid Conditions, it shall include these Bid Conditions in such subcontracts and each subcontractor shall be bound by these Bid Conditions to the full extent as if it were the prime contractor. The contractor shall not, however, be held accountable for the failure of its subcontractors to fulfill their obligations under these Bid Conditions. However, the prime contractor shall give notice to the Assistant Regional Administrator of the Office of Federal Contract Compliance Programs of the Department of Labor and to the contracting or administering agency of any refusal or failure of any subcontractor to fulfill its obligations under these Bid Conditions. A subcontractor's failure to comply will be treated in the same manner as such failure by a prime contractor.

2. Contractors hereby agree to refrain from entering into any contract or contract modification subject to Executive Order 11246, as amended, with a contractor debarred from, or who is determined not to be a "responsible" bidder for Government contracts and federally-assisted construction contracts pursuant to the Executive Order.

3. The Contractor shall carry out such sanctions and penalties for violation of these Bid Conditions and the Equal Opportunity clause including suspension, termination and cancellation of existing subcontracts and debarment from future contracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations by the contracting or administering agency and the Office of Federal Contract Compliance Programs. Any contractor who fails to carry out such sanctions and penalties shall also be deemed to be in noncompliance with these Bid Conditions and Executive Order 11246, as amended.

4. Nothing herein is intended to relieve any contractor during the term of its contract from compliance with Executive Order 11246, as amended, and the Equal Opportunity clause of its contract with respect to matters not covered in the [ ] Plan or in Part II of these Bid Conditions.

5. The procedures set forth in these Bid Conditions shall not apply to any contract which the head of the contracting or administering agency determines is essential to the national security and its award without following such procedures is necessary to the national security. Upon making such a determination, the agency head will notify, in writing, the Director of the Office of Federal Contract Compliance Programs within thirty days.

6. Requests for exemptions from these Bid Conditions must be made in writing, with justification, to the Director, Office of Federal Contract Compliance Programs, U.S. Department of Labor, Washington, D.C. 20210, and shall be forwarded through and with the endorsement of the head of the contracting or administering agency.

7. Contractors must keep such records and file such reports relating to the provisions of these Bid Conditions as shall be required by the contracting or administering agency or the Office of Federal Contract Compliance Programs.

For the information of bidders, a copy of the [ ] Plan may be obtained from the contracting officer.

A list of trades which are currently participating in the [ ] Plan may be obtained from OFCCP, or the contracting or administering agency. Signed this 28th day of July, 1976.

W. J. USERY, Jr.,
Secretary of Labor.

JOHN C. READ,
Assistant Secretary for Employment Standards.

LAWRENCE LORBER,
Director, Office of Federal Contract Compliance Programs.

APECO CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 16, 1976 the Department of Labor received a petition dated July 12, 1976 which was filed under section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of APECO Corporation, Evanston, Illinois (TA–W–988). Accordingly, the Director, Office of Trade Adjustment

V 41 150 AUG 3 76 UMI

Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with photocopying machines produced by APECO Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 13, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 13, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 16th day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-866]

BRAINARD RIVET CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents results of TA-W-866; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by the United Steelworkers of America on behalf of workers and former workers producing cold-headed solid fasteners at the Brainard Rivet Company, Girard, Ohio, a subsidiary of Textron, Inc., Providence, Rhode Island.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20969). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Brainard Rivet Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first two criteria have been met, the third and fourth criteria have not been met.

Significant total or partial separations. Employment of production workers of the Brainard Rivet Company declined 28 percent from 1974 to 1975 and decreased 6 percent in the first quarter of 1976 compared to the first quarter of 1975.

Sales or production, or both, have decreased absolutely. Production by the Brainard Rivet Company decreased in quantity by 33 percent in 1975 compared to 1974. Production increased 13 percent in the first quarter of 1976 compared to the first quarter of 1975. Sales by the company also decreased from 1974 to 1975 and increased in the first quarter of 1976 compared to the same period in 1975.

Production of standard and specialty rivets comprises approximately 83 percent of total production at the Brainard Company. The remainder of production consists of standard and specialty clevis pins, screws, and miscellaneous specialty fasteners.

Increased imports. Imports of rivets declined in value absolutely and relative to U.S. production from 1974 to 1975. Imports of rivets fell from $4.1 million in 1974 to $2.7 million in 1975. Throughout the entire 1971-1975 period the value of imported rivets at no time amounted to more than 3.3 percent of the value of domestic production of rivets.

Contributed importantly. Customers who reduced purchases from the Brainard Rivet Company in 1975 did not increase purchases of imported fasteners. The customers attributed the reduction in their purchases to unfavorable economic conditions.

Product areas such as the automotive industry were affected to a great extent by poor economic conditions. This resulted in reduced demand for Brainard's products as component parts for their finished goods.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of articles like or directly competitive with cold-headed solid fasteners produced at the Brainard Rivet Company did not contribute importantly to the total or partial separation of the workers of that firm.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76 22446 Filed 8-2-76;8:45 am]

[TA-W-791]

C. F. HATHAWAY COMPANY, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-791: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 9, 1976 in response to a worker petition received on April 9, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers engaged in the production of men's dress shirts at the C. F. Hathaway Company, Incorporated, Lowell, Massachusetts.

The notice of investigation was published in the FEDERAL REGISTER on April 23, 1976 (41 FR 17029). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the C. F. Hathaway Company, its customers, the Amalgamated Clothing Workers of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above critreia have been met.

Significant total or partial separations. Employment of production workers declined 67.7 percent in 1975 compared to 1974 and declined 40.3 percent in the first six months of 1975 compared to the like period in 1974. The plant closed in August 1975.

Sales or production, or both, have decreased absolutely. Company sales declined 10.8 percent in 1974 compared to 1973 and declined 54.7 percent in the first six months of 1975 compared to the like period of 1974.

Increased imports. Imports of men's knit and woven dress, business and sport shirts increased absolutely from 90,516,000 units in 1974 to 97,004,000 units in 1975.

Contributed importantly. The evidence developed during the Department's investigation reveals that imports of men's shirts have increased in recent years. Only a small portion of Hathaway's customers have increased purchases of imported dress shirts in recent years. However, a majority of Hathaway's customers have stated that due to a shift in consumer preferences, they have increased their purchases of imported sport shirts and have reduced their purchases of dress shirts from Hathaway. A sport shirt is competitive with a dress shirt in that their construction is basically identical and the materials used in the construction of the respective styles are identical.

Conclusion. After careful review of facts obtained in the investigation I conclude that imports like or directly competitive with men's dress shirts have contributed importantly to the total or partial separation of workers at the C. F. Hathaway Company, Inc., Lowell, Massachusetts. In accordance with the provisions of the Act, I make the following certification.

All employees at the C. F. Hathaway Company, Inc., Lowell, Massachusetts, who have become totally or partially separated from employment on or after April 1, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22447 Filed 8-2-76;8:45 am]

[TA-W-674]

CHICO SPORTSWEAR INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade of 1974 the Department of Labor herein presents the results of TA-W-674: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers Union on behalf of workers and former workers producing men's outerwear at Chico Sportswear Inc., Elizabeth, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14229). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Chico Sportswear Inc. its customers, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all the above criteria have been met.

Significant total or partial separations. The average number of production workers declined 6.2 percent in 1974 compared to 1973, and 27 percent in 1975 compared to 1974. From the fourth quarter of 1974 through the first quarter of 1976, employment fell compared to the same quarter of the previous year. Average weekly hours for production workers fell .9 percent from 1973 to 1974 and 16 percent from 1974 to 1975. Hours worked fell 32.7 percent in the first quarter of 1976 from the first quarter of 1975.

Sales or production, or both, have decreased absolutely. Sales of leisure jackets declined 7.0 percent in 1974 compared to 1973. In the first three quarters of 1975, sales fell 65.6 percent from the same period in 1974. Chico ceased production of leisure jackets in the third quarter of 1975. Chico commenced production of men's outercoats and jackets in the second quarter of 1975. Sales of men's outercoats and jackets declined 10.2 percent from the third quarter of 1975 to the fourth quarter of 1975, and 93.2 percent from the fourth quarter of 1975 to the first quarter of 1976.

Since production is based on orders received, production is equivalent to sales.

Increased imports. Imports of men's and boys' tailored dress coats and sportcoats increased both absolutely and relatively in each year from 1971 to 1973. Imports increased relatively from 1973 to 1974 and then increased absolutely and relatively from 1974 to 1975. The ratio of imports to domestic production and consumption increased from 21.2 percent and 17.5 percent, respectively, in 1974 to 28.2 percent and 22.0 percent, respectively, in 1975.

Imports of men's and boys' outercoats and jackets increased absolutely and relative to domestic production from 1971 to 1973. Imports decreased absolutely and relatively from 1973 to 1974 and then increased relatively from 1974 to 1975. The ratio of imports to domestic production and consumption increased from 29.8 percent and 22.9 percent, respectively, in 1974 to 30.6 percent and 23.4 percent, respectively, in 1975.

Contributed importantly. The Department's investigation indicated that retail customers of the manufacturers for whom Chico did contract work decreased purchases of domestically produced men's leisure jackets and outerwear and increased purchases of lower priced imports.

Additionally, an OTAA survey of the retail clothing industry showed that imports of leisure jackets, and men's and boys' overcoats increased 1011.7 percent and 183.7 percent, respectively, in the first six months of 1975 compared to the first six months of 1974. The ratio of imports to domestic production of leisure jackets increased from 4.0 percent in the first six months of 1974, to 21.1 percent in the first six months of 1975. The ratio of imports to domestic production of men's and boys' overcoats decreased from 17.0 percent in the first six months of 1974, to 16.5 percent in the first six months of 1975.

Conclusion. After careful review of the facts obtained in the investigation I conclude that increases of imports like or directly competitive with men's leisure jackets and outerwear produced at the Elizabeth, New Jersey plant of Chico Sportswear contributed importantly to the total or partial separations of the workers at that plant. In accordance with the provisions of the Trade Act of 1974, I make the following certification:

All workers engaged in employment related to the production of men's leisure jackets and outerwear at the Elizabeth, New Jersey plant of Chico Sportswear Incorporated who became totally or partially separated from employment on or after February 17, 1975 be certified as eligible to apply

V 41 150 AUG 3 76 UMI

for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22448 Filed 8-2-76;8:45 am]

[TA-W-899]

ENFLO CORP.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-899: investigation regarding certification of eligibility to apply for adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 27, 1976 in response to a worker petition received on that date which was filed by the Teamsters Union Local 115 on behalf of former workers producing TFE basic shapes at Enflo Corporation, Maple Shade, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24799). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Enflo Corporation, the Department of Commerce, the International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met.

Although TFE basic shapes are not separately identified in the Tariff Schedules of the United States Annotated, they are included in the data that have been compiled for the basket category of plastic and rubber basic (profile) shapes. The value of the imports of plastic and rubber basic (profile) shapes increased from 1971 through 1974 and declined 25 percent from 1974 to 1975. The ratio of imports to domestic production for plastic and rubber basic (profile) shapes declined from 4.6 percent in 1974 to 4.2 percent in 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with those produced by the Enflo Corporation plant located in Maple Shade, New Jersey are not being imported in increased quantities, either actual or relative to domestic production, and therefore workers at that plant are not eligible to apply for adjustment assistance under the Trade Act of 1974.

Signed at Washington, D.C. this 22nd day of July 1976.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for International Affairs.

[FR Doc.76-22449 Filed 8-2-76;8:45 am]

[TA-W-896]

ENGELHARD MINERAL AND CHEMICALS CORP.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-896; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 27, 1976 in response to a worker petition received on May 27, 1976 which was filed on behalf of workers formerly producing precious metal contacts at the H.A. Wilson Department of the Engelhard Industries Division of Engelhard Mineral and Chemicals Corporation, Union, New Jersey.

The notice of investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24799). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Engelhard Industries Division of Engelhard Mineral and Chemicals Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (3) has not been met. The evidence developed in the Department's investigation revealed that importation of electrical contacts is negligible. The H. A. Wilson Department of the Engelhard Industries Division of the Engelhard Mineral and Chemical Corporation in Union, New Jersey was closed in November 1975. H. A. Wilson's parent company, Engelhard Industries Division, produces metal contacts outside the United States. The Department's investigation found that none of the foreign produced metal contacts are imported into the United States.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that articles like or directly competitive with precious metal contacts produced at Engelhard Mineral and Chemical Corporation, Engelhard Industries Division, H. A. Wilson Department are not being imported in increased quantities, either actual or relative to domestic production, as required in section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22450 Filed 8-2-76;8:45 am]

[TA-W-703]

FOREST HILLS SPORTSWEAR

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-703: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's suit slacks and dress slacks at the Lawrenceburg, Tennessee plant of Forest Hills Sportswear, a subsidiary of the Chromalloy American Corporation, Clayton, Missouri.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14230). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Forest Hills Sportswear, the Chromalloy Clothing Group, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although criteria one, two and three have been met, criterion four has not been met.

Significant total or partial separations. The average number of workers increased 11.5 percent from 1973 to 1974 and then declined 15.2 percent from 1974 to 1975.

Average weekly hours increased 2.1 percent from 1973 to 1974 and then declined 11.6 percent from 1974 to 1975.

Sales or production, or both, have decreased absolutely. Forest Hills manufactures men's suit and dress slacks. The quantity of pants produced by Forest Hills increased 14.7 percent from 1973 to 1974 and then declined 27.2 percent from 1974 to 1975. In each quarter of 1975, production declined when compared to the same quarter of 1974.

Increased imports. Imports of men's and boys' tailored suits increased each year from 1971 through 1975. Imports increased 26.9 percent from 1974 to 1975. Domestic production of men's and boys' tailored suits declined 9.3 percent during the same period. The ratios of imports to domestic production and consumption increased from 12.2 percent and 10.9 percent, respectively, in 1974 to 17.2 percent and 14.6 percent, respectively, in 1975.

Imports of men's and boys' trousers increased from 39.8 million pairs in 1971 to 55.3 million pairs in 1972. Imports then declined in 1973 and 1974. Imports increased 39.4 percent from 1974 to 1975. Domestic production of men's and boys' trousers declined 18.9 percent during the same period. The ratios of imports to domestic production and consumption increased from 18.2 percent and 15.4 percent, respectively, in 1974 to 31.4 percent and 23.8 percent, respectively, in 1975.

Contributed importantly. The Department's investigation indicated that changing consumer tastes and declining consumer demand resulted in reduced purchases from the Chromalloy Clothing Group. Customers who reduced purchases of men's suits and slacks from Chromalloy did not switch to imports.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with suit slacks and dress slacks produced at the Lawrenceburg, Tennessee plant of Forest Hills Sportswear, did not contribute to the total or partial separation of workers of that plant.

Signed at Washington, D.C. this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22451 Filed 8-2-76;8:45 am]

[TA-W-695]

GROSS GALESBURG CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-695: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed on behalf of workers formerly producing work garments and grass catchers at the Galesburg, Illinois, plant of Gross Galesburg Company.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14230). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Gross Galesburg Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although criteria one and two have been met for all products, criterion three has not been met for grass catchers and criterion four has not been met for work clothing and grass catchers.

Significant total or partial separations. The average number of work clothing production workers increased 14.3 percent from 1973 to 1974 and then decreased 31.8 percent from 1974 to 1975. Employment declined in each quarter of 1975 from the same quarter of 1974. Average hours worked increased 2.0 percent in 1974 compared to 1973 and then declined 15.7 percent in 1975 compared to 1974.

Employment of grass catcher production workers declined 16.7 percent from 1973 to 1974 and 16.7 percent in the first two quarters of 1975 compared to the same two quarters of the previous year.

Average hours worked increased 2.6 percent from 1973 to 1974 and then declined 35.5 percent in the first two quarters of 1974 compared to the same two quarters of 1974. All employment related to grass catcher production was terminated in June 1975.

Sales or production, or both, have decreased absolutely. Sales of work jackets declined 20.8 percent from 1973 to 1974 and 51.2 percent from 1974 to 1975. Quarterly sales declined in each quarter of 1975 from the same quarter of the previous year.

Sales of overalls began in June 1973. Sales increased 193.6 percent in the period June 1974 through December 1974 compared to the same time period of the previous year and then declined 78.4 percent from 1974 to 1975. Quarterly sales declined in each quarter of 1975 from the same quarter of the previous year.

Gross Galesburg began selling vests in July 1974. Sales of vests increased 26.9 percent during the last two quarters of 1975 compared to the same two quarters of the previous year.

Sales of grass catchers declined by 13.1 percent from 1973 to 1974 and by 54.2 percent from 1974 to 1975. Quarterly sales declined in each quarter of 1975 compared to the same quarter of the previous year.

Production of work jackets increased 21.0 percent from 1973 to 1974 and then declined 25.5 percent from 1974 to 1975.

Production of overalls began in June 1973. Production increased 298.6 percent in the period June 1973 through Decem-

V 41 150 AUG 3 76 UMI

ber 1973 compared to the same time period of the previous year and then declined 89.4 percent in 1975 compared to 1974. Quarterly production declined in each quarter of 1975 compared to the same quarter of 1974.

Production of vests began in June 1974. Production declined 37.5 percent in the period June 1975 through December 1975 compared to the same time period of the previous year.

Production of grass catchers declined 13.1 percent from 1973 to 1974 and 45.6 percent in the first two quarters of 1975 compared to the same two quarters of the previous year. Production of grass catchers was discontinued in June 1975.

Increased imports. Imports of men's and boys' nontailored outer jackets including work jackets declined relatively from 1971 to 1972 and then increased both absolutely and relatively from 1972 to 1973. Imports decreased both absolutely and relatively from 1973 to 1974. Imports decreased absolutely by 14.1 percent from 1974 to 1975. The ratios of imports to domestic production and consumption increased from 48.4 percent and 32.6 percent, respectively, in 1974 to 58.9 percent and 37.1 percent, respectively, in 1975.

Imports of men's and boys' woven cotton and man-made fiber trousers and one-piece suits including overalls and work vests, increased absolutely from 1971 to 1972 and then decreased absolutely from 1972 to 1973. Imports increased absolutely and relatively from 1973 to 1974 and from 1974 to 1975. The ratio of imports to domestic production and consumption increased from 2.3 percent and 2.2 percent, respectively, in 1974 to 3.5 percent and 3.4 percent, respectively, in 1975.

A survey conducted by Department of Labor analysts found no imports of grass catchers.

Contributed importantly. Evidence developed during the Department's investigation indicated that customers accounting for 100 percent of sales in 1975 of Gross Galesburg work clothing do not carry imports. Customers who reduced purchases cited the shift in consumers' preferences from work clothes to jeans and jean jackets, which can be worn for both work and leisure. Such substitute products were not purchased from offshore manufacturers.

Gross Galesburg's only customer for grass catchers indicated that they did not buy imports.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with work clothing or grass catchers produced at Gross Galesburg Company, Galesburg, Illinois did not contribute importantly to the total or partial separation of the workers at such plant.

Signed at Washington, D.C. this 26th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22452 Filed 8-2-76;8:45 am]

[TA-W-636]

GTE SYLVANIA, INC.

Revised Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, the Department of Labor issued a notice of negative determination regarding eligibility to apply for adjustment assistance on May 13, 1976 applicable to former workers producing color picture tubes at GTE Sylvania, Inc., Seneca Falls, New York. The Notice of Negative Determination was published in the FEDERAL REGISTER on May 28, 1976 (41 FR 21886).

At the request of an official of the United Steelworkers of America, a further investigation was instituted by the Director of the Office of Trade Adjustment Assistance. The further investigation revealed that imports of color television sets were more indicative of the influence of imports on employment and production at the Seneca Falls plant than were imports of color picture tubes. A substantial portion of the GTE Sylvania, Inc., Seneca Falls plant's production of color television picture tubes was sent to the GTE Sylvania television assembly plants where they were incorporated into television sets which carry the Sylvania label. The GTE Sylvania, Inc., Seneca Falls plant is an integral part of the production of color television sets at GTE Sylvania's television assembly plants.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales of production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

Significant total or partial separations. The average annual employment of production workers declined 20.9 percent in 1975 compared to 1974 and declined 32.5 percent in the first quater of 1975 compared to the first quater of 1974.

Sales or production, or both, have decreased absolutely. Company production of color television picture tubes declined 39.2 percent in 1975 compared to 1974 and declined 60.2 percent in the first quarter of 1975 compared to the first quarter of 1974.

Company production of color television sets declined 43.6 percent in 1975 compared to 1974.

Increased imports. The ratio of imports of color television sets to domestic production and consumption increased in quantity in each year from 18.8 percent and 16.1 percent, respectively, in 1972 to 23.4 percent and 19.5 percent, respectively, in 1975.

Contributed importantly. The evidence developed during the Department's investigation indicates that imports of color television sets have increased in recent years and that the imports of color television sets are responsible for the production and employment declines of color television picture tubes at the Seneca Falls plant. GTE Sylvania was the major purchaser of color picture tubes from the Seneca Falls plant. The Seneca Falls plant is an integral part of the production of color television sets at GTE Sylvania's Inc., television assembly plants. The color picture tubes purchased by GTE Sylvania Inc., from the Seneca Falls plant are incorporated into finished sets which carry the Sylvania label.

Imported television picture tubes are not interchangeable with tubes produced by GTE Sylvania without modification. Picture tubes are imported as replacement parts for imported television sets. For the above reason and due to the fact that the Seneca Falls plant participates in an integrated production process where the end product is a color television set, imports of color television sets are considered to be more indicative of the influence of imports upon the production and employment at the Seneca Falls plant.

Customers of GTE Sylvania's color televisions have increased purchases of imported color television sets and have reduced purchases from GTE Sylvania.

The revised determination applicable to TA-W-636 is hereby issued as follows:

All workers at the Seneca Falls, New York plant of GTE Sylvania, Inc., who became totally or partially separated from employment on or after February 4, 1975 are eligible to apply for adjustment assistance benefits under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22453 Filed 8-2-76;8:45 am]

[TA-W-882]

HOOVER-SENG CO.

Notice of Negative Determination Regarding Eligibility To Apply for Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-882: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 19, 1976, in response to a worker petition received on May 19, 1976, which was filed on behalf of workers and former workers assembling metal frames for sofa beds at the Hoover Seng Company, Los Angeles, California, a subsidiary of Hoover Ball & Bearing Co., Saline, Michigan.

The notice of investigation was published in the FEDERAL REGISTER on July 6, 1976 (41 FR 27802). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Hoover-Seng Company, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion three (3) has not been met.

The evidence developed during the Department's investigation reveals that imports of convertible sofas have declined absolutely, in value in each year from 371,900 dollars in 1972 to 267,000 dollars in 1975. The import category referred to above, i.e. convertible sofas, is a basket category and includes convertible sofas, mattresses for convertible sofas and convertible sofa frames. The above described import category therefore overstates the actual level of imports of metal frames for convertible sofas. Furthermore, imports of convertible sofas are negligible in that the ratios of imports of convertible sofas to domestic production and consumption were 0.11 percent and 0.11 percent, respectively, in 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increased imports of metal frames for convertible sofas have not contributed importantly to the total or partial separation of workers at the Hoover-Seng Company, Los Angeles, California as required in section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22454 Filed 8-2-76;8:45 am]

[TA-W-902]

LEWIS WEINER INDUSTRIES, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-902: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on May 27, 1976 in response to a worker petition received on that date which was filed on behalf of workers and former workers producing metal and plastic zipper chain and complete zippers at Lewis Weiner Industries, Inc., Long Island City, New York.

The notice of investigation was published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24801). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lewis Weiner Industries, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separation, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first two criteria have been met, the third and fourth criteria have not been met.

Significant total or partial separations. The average number of production workers at Lewis Weiner Industries declined 13 percent in 1974 from 1973 and declined 25 percent in 1975 from 1974. All production related employment was terminated February 1976.

Sales or production, or both, have decreased absolutely. Sales declined 5 percent in 1974 compared to 1973 and declined 13 percent in 1975 compared to 1974. Inventories declined 8 percent in 1974 from 1973 and declined 36 percent in 1975 from 1974.

Increased imports. Imports of slide fasteners and parts increased from 98.2 million units in 1971 to 147.7 million units in 1972, and then remained nearly unchanged annually through 1974. Imports declined 29 percent in 1975 compared to 1974.

The single firm which had been responsible for over 75 percent of all imported slide fasteners prior to 1974 became a major domestic producer in early 1974.

Contributed importantly. The evidence developed in the Department's investigation indicates that the decline in sales by Lewis Weiner Industries was due to factors other than increased import competition. Customers of Lewis Weiner Industries do not purchase imported zipper chain or complete zippers; the customers indicated that reduced purchases from Lewis Weiner resulted primarily from increased competition from other domestic manufacturers.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with metal and plastic zipper chain and complete zippers produced at Lewis Weiner Industries, Inc., did not contribute importantly to the total or partial separations of the workers at that firm.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22455 Filed 8-2-76;8:45 am]

[TA-W-720]

MAYFLOWER COAT MANUFACTURING COMPANY, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-720; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on March 26, 1976 in response to a worker petition received on March 26, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's all-weather coats and liners at the Brock-

V41150 AUG 3 76 UMI

ton, Massachusetts plant of the Mayflower Coat Manufacturing Company, Inc.

The notice of investigation was published in the FEDERAL REGISTER on April 13, 1976 (41 FR 15491). No public hearing has been requested to date.

The information upon which the determination was made was obtained principally from officials of Mayflower Coat Manufacturing Company, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have beetn met, criterion (3) has not been met.

Imports of men's raincoats declined relatively from 1971 to 1972, then increased absolutely and relatively from 1972 to 1973. Imports decreased both absolutely and relatively in each year from 1973 to 1975. The ratio of imports to domestic production declined from 11.5 percent and 10.4 percent, respectively, in 1974 to 8.1 percent and 7.5 percent respectively in 1975.

The evidence developed during the Department's investigation indicated that the decline in sales and production at Mayflower is attributable to the general downturn in the economy.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's all-weather coats produced by the Brockton, Massachusetts plant of Mayflower Coat Manufacturing Company Inc. did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 26th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22456 Filed 8-2-76;8:45 am]

[TA-W-673]

MODERN SLACK CREATIONS, INC.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-673: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's trousers at the Northampton plant of Modern Slack Creations, Inc., Allentown, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14223). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Modern Slack Creations, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely; and

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation reveals that all of the above criteria have been met.

Significant total or partial separations. The average number of production workers declined 4 percent from 1973 to 1974 and declined 30 percent from 1974 to 1975. In each quarter of 1975, employment declined compared to the like quarter in 1974.

Sales or production, or both, have decreased absolutely. Production of men's trousers at the Northampton plant declined 11 percent from 1973 to 1974 and 19 percent from 1974 to 1975. In each quarter of 1975, production declined when compared to the same quarter of 1974.

Increased imports. Imports of men's and boys' trousers increased absolutely and relatively from 1971 to 1972 and then fell absolutely and relatively in each year from 1972 to 1974. Imports increased 39.4 percent from 1974 to 1975. U.S. production of men's and boys' trousers declined 18.9 percent during the same period. The ratios of imports to domestic production and consumption increased from 18.2 percent and 15.4 percent, respectively, in 1974 to 31.4 percent and 23.8 percent, respectively, in 1975.

Contributed importantly. The Department's investigation revealed that one of the manufacturers for whom the Northampton plant produced trousers switched to a foreign manufacturer. Additionally, customers of the manufacturers reduced purchases of men's trousers produced at the Northampton plant from 1974 to 1975 and increased purchases of lower-priced imports.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's trousers produced at Northampton, Pa. plant of Modern Slack Creations, Inc. contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of men's trousers at the Northampton plant of Modern Slack Creations, Inc., Allentown, Pennsylvania who became totally or partially separated from employment on or after March 9, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C. this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22457 Filed 8-2-76;8:45 am]

[TA-W-858]

NYANZA, INC.

Revised Notice of Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 221(a) of the Trade Act of 1974 the Department of Labor published a Notice of Investigation Regarding Certification of Eligibility to Apply for Worker Adjustment Assistance relating to Nyanza, Incorporated, Ashland, Massachusetts (TA-W-858). The Notice of Investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20956).

The Notice of Investigation is hereby corrected to read:

On February 16, 1976 the Department of Labor received a petition dated January 16, 1976 which was filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Nyanza, Incorporated, Ashland, Massachusetts (TA-W-858).

Signed at Washington, D.C. this 22 day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[FR Doc.76-22458 Filed 8-2-76;8:45 am]

[TA-W-859]

SCOVILL MANUFACTURING COMPANY, INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-859: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on that date which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of former workers producing slide fasteners and parts at the Newark, New Jersey plant of Scovill Manufacturing Co., Inc., Waterbury, Connecticut.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20964). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Scovill Manufacturing Co., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first two criteria have been met, the third and fourth criteria have not been met.

Significant total or partial separations. The average number of production workers at the Newark plant declined 19 percent in 1974 compared to 1973, and declined 58 percent in the first nine months of 1975 compared to the same period of 1974. All employment at the Newark plant was terminated by the end of October 1975.

Sales or production, or both, have decreased absolutely. Sales of slide fasteners and parts at the Newark, New Jersey plant declined 12 percent in 1974 compared to 1973 and declined 37 percent in the first nine months of 1975 compared to the same period of 1974.

Production of slide fasteners and parts at the Newark plant declined 12 percent in 1974 compared to 1973 and declined 39 percent in the first nine months of 1975, compared to the same period of 1974. All production at the Newark plant ceased in September 1975.

Increased imports. Imports of slide fasteners and parts increased from 98.2 million units in 1971 to 147.7 million units in 1972, and then declined annually to 104.0 million units in 1975. The ratio of imports to domestic production decreased from 8.5 percent in 1974 to 6.5 percent in 1975.

Contributed importantly. Customers of Scovill indicated that purchases of imported slide fasteners were not a factor in their decisions to reduce purchases from the Newark plant. Customers of Scovill indicated that they do not purchase imported slide fasteners. Those customers who decreased purchases did so primarily due to lower prices offered by another domestic manufacturer.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with slide fasteners and parts produced at the Newark, New Jersey plant of Scovill Manufacturing Company, Incorporated, Waterbury, Connecticut did not contribute importantly to the total or partial separation of workers at that plant.

Signed at Washington, D.C. this 26th day of July 1976.

JAMES F. TAYLOR,
Director Planning and Evaluation Staff.

[FR Doc.76-22459 Filed 8-2-76;8:45 am]

[TA-W-826]

SOUTHERN SCREW CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-826: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on April 30, 1976 which was filed by the United Steelworkers of America, AFL-CIO, on behalf of workers and former workers producing screws at the Statesville, North Carolina plant of the Southern Screw Company.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20964). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Southern Screw Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

Significant total or partial separations. Employment of production workers declined 34.6 percent in 1975 compared to 1974 and declined 5.3 percent in the second quarter of 1975 compared to the same quarter in 1974.

Sales or production or both, have decreased absolutely. Plant sales (in quantity) of screws declined 54.3 percent in 1975 compared to 1974. Plant sales (in quantity) declined 55.5 percent in the second quarter of 1975 compared to the same quarter in 1974.

Plant production (in quantity) declined 41.8 percent in 1975 compared to 1974 and declined 27.6 percent in the second quarter of 1975 compared to the same quarter in 1974.

Increased imports. U.S. imports increased in each year from 1971, when imports totaled 160,772 thousand pounds, through 1974, when U.S. imports were 382,795 thousand pounds. U.S. imports declined in 1975 when the total was 250,589 thousand pounds.

While imports decreased in absolute terms in 1975 compared to 1974, the ratio of imports to domestic production and consumption increased to its highest level of the five year period. The ratio of imports (in quantity) of screws (iron or steel) to domestic production increased in each year from 1971, when the ratio was 19.6 percent, through 1975 when the ratio was 38.2 percent. The ratio of imports (in quantity) to domestic consump-

V 41 150 AUG 3 76 UMI

tion increased in each year from 1971, when the ratio was 17.1 percent, through 1975 when the ratio was 29.9 percent.

Contributed importantly. The Department's investigation indicated that customers of screws manufactured by the Southern Screw Company, have increased their purchases of screws from foreign sources due to price competition.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with screws produced at the Southern Screw Company contributed importantly to the total or partial separation of the workers of the Statesville, North Carolina plant. In accordance with the provisions of the Act, I make the following certification:

All employees at the Southern Screw Company, Statesville North Carolina who became totally or partially separated from employment on or after April 15, 1975, are eligible to apply for adjustment assistance benefits under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 26th day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22460 Filed 8-2-76;8:45 am]

[TA-W-797]

SPERRY UNIVAC

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-797: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 16, 1976 in response to a worker petition received on that date which was filed by three workers on behalf of workers and former workers of the Utica, New York plant of Sperry Univac.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 20047) on May 14, 1976.

The information upon which the determination was made was obtained from officials of Sperry Univac, the U.S. Department of Commerce, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first criterion has been met, the second, third and fourth criteria have not been met.

Significant total or partial separations. Employment of production workers declined 19.1 percent in 1975 compared to 1974.

Sales or production, or both, have decreased absolutely. Production increased 1.2 percent in 1975 compared to 1974.

Increased imports. Sperry Univac is the sole source of equipment compatible with its electronic data processing systems. Imports by Sperry Univac, Utica of electronic data processing equipment and parts, excluding power supplies, decreased 44.1 percent in 1975 compared to 1974. The ratio of imports to plant production decreased from 4.8 percent in 1974 to 2.3 percent in 1975.

Contributed importantly. The investigation revealed that the decline in employment is attributable to reduced order input, product transfers to other domestic Univac manufacturing operations and technological changes that have increased the capital intensity of the industry.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that sales or production, or both, of Sperry Univac, Utica, New York have not decreased absolutely; that articles like or directly competitive with those produced by the firm are not being imported in increased quantities, either actual or relative to domestic production; and that such imports have not contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

Signed at Washington, D.C. this 14th day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22461 Filed 8-2-76;8:45 am]

[TA-W-853]

STANDARD LOCKNUT AND LOCKWASHER INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-853; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on April 30, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing locknuts, lockwashers and bearings at the Carmel, Indiana plant of Standard Locknut and Lockwasher, Incorporated.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 20965) on May 21, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Standard Locknut and Lockwasher, the Employment Security Division of the Indiana Department of Labor, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard as to whether or not the second, third and fourth criteria have been met, the first criterion has not been met.

Significant total or partial separations. Standard Locknut and Lockwasher did not layoff or reduce the number of working hours of any of its employees during the period January 1, 1974 to the present nor has it announced plans to do so.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with locknuts, lockwashers, and bearings produced at the Carmel, Indiana plant of Standard Locknut and Lockwasher Incorporated did not contribute importantly to the total or partial separations of the workers at that plant.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22462 Filed 8-2-76;8:45 am]

[TA-W-694]

STAR SPORTSWEAR MANUFACTURING CORP.

Certification Regarding Eligibiliey To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the result of TA-W-694; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on March 19, 1976 which was filed by the Amalgamated Clothing Workers Union on behalf of workers and former workers producing men's leather coats at the Star Sportswear Manufacturing Corporation. Lynn, Massachusetts.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14223). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Star Sportswear Manufacturing Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with articles produced by such workers' firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all of the above criteria have been met.

Significant total or partial separations. Employment at the Lynn, Massachusetts plant of Star Sportswear decreased 9.2 percent from 1973 to 1974, and then increased 9.5 percent from 1974 to 1975. Average quarterly employment fell in the third and fourth quarters of 1975, from the previous quarter. Labor turnover data indicated that approximately 27 percent of the work force was laid off in the fourth quarter of 1975. Average number of weekly hours worked rose 1.9 percent from 1973 to 1974, and then fell 2.7 percent from 1974 to 1975.

Sales or production or both have decreased absolutely. Sales of men's leather coats declined 11.4 percent in quantity from 1973 to 1974 and declined 3.8 percent from 1974 to 1975. Production of men's leather coats declined 1.7 percent in value from 1973 to 1974 and then increased 4.2 percent from 1974 to 1975.

Increased imports. Imports of men's and boys' leather coats and jackets increased absolutely in every year from 1971 to 1975. Imports declined relatively from 1971 to 1972, and then increased relatively every year from 1973 to 1975. The ratios of imports to domestic production and consumption increased 58.6 percent and 37.2 percent, respectively, in 1974 to 67.1 percent and 40.4 percent, respectively, in 1975.

Contributed importantly. Evidence developed during the Department's investigation indicated that customers surveyed reduced purchases from Star Sportswear from 1974 to 1975 and increased purchases of lower priced imports.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's leather coats produced at the Lynn, Massachusetts plant of the Star Sportswear Manufacturing Corporation contributed importantly to the total or partial separations of the workers at the plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of men's leather coats at the Lynn, Massachusetts plant of the Star Sportswear Manufacturing Corporation who became totally or partially separated from employment on or after September 30, 1975 be certified as eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[TA-W-916]

TOWN AND COUNTRY SHOES, INC.

Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on June 7, 1976 in response to a worker petition received on that date which was filed by the workers and former workers producing women's footwear at Town and Country Shoes, Incorporated, St. Louis, Missouri.

Notice of the investigation was published in the FEDERAL REGISTER on June 25, 1976 (41 FR 26299). No public hearing was requested and none was held.

During the course of the investigation, it was established that all workers at the St. Louis office of Town and Country Shoes, Inc. were previously certified eligible to apply for adjustment assistance on December 10, 1975 (See TA-W-224).

A new investigation would serve no purpose. Therefore, the investigation has been terminated.

Signed at Washington, D.C. this 13th day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[TA-W-814]

TRACEY FASHIONS

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-814: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 26, 1976 in response to a worker petition received on that date which was filed by the International Ladies Garment Workers Union on behalf of workers and former workers engaged in the production of pantsuits, dresses, skirts and jumpsuits at Tracey Fashions, Chamberburg, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on May 14, 1976 (41 FR 20047). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Jonathon Logan, Inc., the parent firm of Tracey Fashions, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

V 41 150 AUG 3 76 UMI

The investigation has revealed that although the first and third criteria have been met, the second and fourth criteria have not been met.

Significant total or partial separations. The average number of workers decreased 2 percent in the fiscal year 1976 (March 1, 1975 to February 29, 1976), compared to the previous year.

Sales or production, or both, have decreased absolutely. Production increased 1 percent in the fiscal year 1976, (March 1, 1975 to February 29, 1976) compared to the previous fiscal year.

Increased imports. Import data on women's misses' and juniors' pantsuits including jumpsuits are unavailable for the years 1971 thru 1973 because at that time the Department of Commerce did not specifically identify these products. Imports of women's, misses' and juniors' pantsuits including jumpsuits increased 3 percent in 1975 compared to 1974. The ratio of imports to domestic production increased from 16.1 percent in 1974 to 18.8 percent in 1975.

Imports of women's, misses', children's and infants' knit and woven dresses decreased every year from 1971 thru 1974, but increased 2 percent in 1975 compared to 1974. The ratio of imports to domestic production rose from 6.5 percent in 1974 to 7.4 percent in 1975.

Imports of women's, girls' and infants' knit and woven skirts decreased every year from 1971 thru 1974, but increased 112 percent in 1975 compared to 1974. The ratio of imports to domestic production increased from 5.0 percent in 1974 to 9.3 percent in 1975.

Contributed importantly. The parent corporation receives the entire production of Tracey Fashions and therefore may be regarded as Tracey Fashions' only customer. The parent corporation does not import any women's pantsuits, dresses, skirts and jumpsuits, the products produced at Tracey Fashions.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with pantsuits, dresses, skirts and jumpsuits produced at Tracey Fashions, Chambersburg, Pa. did not contribute importantly to the total or partial separation of the workers of that plant.

Signed at Washington, D.C. this 27th day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22465 Filed 8-2-76;8:45 am]

[TA-W-941]

UNIVERSAL CYCLOPS SPECIALTY STEEL CO.

Notice of Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on June 16, 1976 in response to a worker petition received on that date which was filed by the plant's Manager of Industrial Relations on behalf of workers and former workers producing stainless steel strip at Universal Cyclops Specialty Steel Company, Coshocton, Ohio.

Notice of the investigation was published in the FEDERAL REGISTER on July 6, 1976 (41 FR 27805). No public hearing was requested and none was held.

During the course of the investigation it was established that the most recent involuntary separations at the Coshocton plant occurred prior to June 1975. Section 223(b) of the Trade Act of 1974 provides, in substance, that a certification shall not apply for any worker whose last total or partial separation from the firm or an appropriate subdivision of the firm occurred more than one year before the date of the petition on which such certification is granted.

The date of the petition in this case is June 8, 1976 and, thus, workers laid off prior to June 8, 1975 could not be eligible for program benefits under Title II, Chapter 2, Subchapter B of the Trade Act of 1974. Therefore, this investigation has been terminated.

Signed at Washington, D.C. this 15th day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

[FR Doc.76-22466 Filed 8-2-76;8:45 am]

[TA-W-700]

WEAR WELL TROUSER CO.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-700: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on March 19, 1976 in response to a worker petition received on the same date which was filed by the Amalgamated Clothing Workers of America on behalf of workers and former workers producing men's and boys' dress slacks at the Wear Well Trouser Company, Worcester, Massachusetts.

The notice of investigation was published in the FEDERAL REGISTER on April 2, 1976 (41 FR 14224). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Wear Well Trouser Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although the first three criteria have been met, the fourth criterion has not been met.

Significant total or partial separations. The average number of production workers decreased 22 percent from 1973 to 1974 and 31 percent from 1974 to 1975. Average weekly hours worked by production workers fell 14 percent from 1973 to 1974 and 6 percent from 1974 to 1975.

Sales or production, or both, have decreased absolutely. Total sales at the Wear Well Trouser Company declined 12 percent in value from 1973 to 1974 and 31 percent from 1974 to 1975.

Production of dress slacks fell 26 percent from 1973 to 1974 and 39 percent from 1974 to 1975.

Increased Imports. Imports of men's and boys' trousers increased both absolutely and relatively from 1971 to 1972. Imports declined absolutely and relatively from 1972 to 1973 and from 1973 to 1974. From 1974 to 1975, imports increased from 39,816 thousand units to 55,508 thousand units. The ratio of imports to domestic production and consumption increased from 18.2 percent and 15.4 percent, respectively, in 1974 to 31.4 percent and 23.8 percent, respectively, in 1975.

Contributed importantly. The evidence developed during the Department's investigation indicated that customers of the Wear Well Trouser Company surveyed by OTAA do not carry imported dress slacks. The decrease in sales of dress slacks by Wear Well is attributable to the recessionary period and the trend from conservative style slacks to more casual styles.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's dress trousers produced at the Worcester, Massachusetts plant of the Wear Well Trouser Company did not contribute importantly to the total or partial separation of the workers of that plant.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[FR Doc.76-22467 Filed 8-2-76;8:45 am]

[TA-W-837]

WILLIAM H. HASKELL MANUFACTURING CO.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-837: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on April 30, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing stainless and heat resistant standard and special fasteners at the William H. Haskell Manufacturing Company, in Pawtucket, Rhole Island, a subsidiary of Easco Corporation, Baltimore, Maryland.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20971). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the William H. Haskell Manufacturing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met.

Significant total or partial separations. Average weekly employment of production workers at William H. Haskell increased 5.6 percent in 1974 compared to 1973. Employment declined 12.0 percent from 1974 to 1975.

Sales or production, or both, have decreased absolutely. Annual production of stainless steel fasteners by the William H. Haskell Manufacturing Company increased 34.3 percent in quantity from 1973 to 1974. Production declined 28.6 percent from 1974 to 1975.

Annual production of alloy fasteners increased 4.0 percent in quantity from 1973 to 1974. Production declined 21.4 percent from 1974 to 1975.

Increased imports. Imports of stainless steel fasteners declined 13.0 percent from 1971 to 1972. Imports increased 47.5 percent from 1972 to 1973 and further increased 11.9 percent from 1973 to 1974. Imports declined 28.8 percent from 1974 to 1975. The ratio of imports to domestic production and consumption increased from 36.3 percent and 28.3 percent, respectively, in 1974 to 41.6 percent and 32.6 percent, respectively, in 1975.

Contributed importantly. The Department's investigation revealed that customers of William H. Haskell have indicated that they have reduced purchases from Haskell and increased purchases of imported stainless steel fasteners. The price differential between domestic and imported fasteners was the factor cited most frequently as the reason that customers switched from domestic to foreign suppliers.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with stainless steel fasteners produced by the William H. Haskell Manufacturing Company contributed importantly to the total or partial separations of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers at the William H. Haskell Manufacturing Company in Pawtucket, Rhode Island who became totally or partially separated from employment on or after April 15, 1975 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES F. TAYLOR,
Director, Planning and Evaluation Staff.

[TA-W-869]

WROUGHT WASHER MFG., INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-869: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on April 30, 1976 which was filed by the United Steelworkers of America, AFL-CIO on behalf of workers and former workers producing steel washers at the Milwaukee, Wisconsin plants of Wrought Washer Mfg., Inc., Milwaukee, Wisconsin.

The notice of investigation was published at the FEDERAL REGISTER on May 21, 1976 (41 FR 20971). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Wrought Washer Mfg., Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although criteria one, two and three have been met, criterion four has not.

Significant total or partial separations. The average number of production workers declined 35.5 percent in 1975 compared to 1974. The average number of salaried workers declined 15.7 percent in 1975 compared to 1974.

Sales or production, or both, have decreased absolutely. Production (in quantity) declined 29.5 percent in 1975 compared to 1974. Sales (in quantity) declined 36.9 percent in 1975 compared to 1974.

Increased imports. Imports of steel washers declined from 22 million pounds in 1974 to 21 million pounds in 1975. The ratios of imports to domestic production and consumption increased from 5.9 and 5.7 percent, respectively, in 1974 to 7.3 and 6.9 percent, respectively, in 1975.

Contributed importantly. The Department's investigation revealed that customers of Wrought Washer Manufacturing surveyed who purchase imported steel washers either purchased only minor amounts of imported washers or else decreased purchases of imported washers in 1975.

Conclusion. After careful review of the facts, I conclude that increases of imports like or directly competitive with washers produced at the Milwaukee, Wisconsin plant of Wrought Washer Mfg., Inc. did not contribute importantly to the total or partial separation of the workers at the above mentioned location.

V 41 150 AUG 3 76 UMI

Signed at Washington, D.C. this 21st day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

[FR Doc.76-22470 Filed 8-2-76;8:45 am]

[TA-W-828]

WROUGHT WASHER MFG., INC.

Notice of Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-828: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on April 30, 1976 in response to a worker petition received on April 30, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel washers at the Wheatland, Pennsylvania plant of Wrought Washer Mfg., Inc. Milwaukee, Wisconsin.

The notice of investigation was published in the FEDERAL REGISTER on May 21, 1976 (41 FR 20971). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Wrought Washer Mfg., Inc. its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely,

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production.

The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although criteria one, two and three have been met, criterion four has not.

Significant total or partial separations. The average number of production workers declined 42.9 percent in 1975 compared to 1974. The average number of salaried workers declined 18.8 percent in 1975 compared to 1974.

Sales or production, or both, have decreased absolutely. Production, in quantity, declined 51.0 percent in 1975 compared to 1974. Sales (in quantity) declined 36.9 percent in 1975 compared to 1974.

Increased imports. Imports of steel washers rose from 14 million pounds in 1971 to 21 million pounds in 1972. Imports declined in 1973 to 16 million pounds. Imports increased to 22 million pounds in 1974 then declined to 21 million pounds in 1975.

The ratio of imports to domestic production increased from 4.8 percent in 1971 to 6.6 percent in 1972. In 1973, the ratio of imports to production declined to 4.4 percent. The ratio of imports to production increased to 5.9 percent and 7.3 percents, respectively, in 1974 and 1975.

Contributed importantly. The Department's investigation indicated that the customers surveyed who purchased steel washers manufactured at the Wheatland, Pennsylvania plant of Wrought Washer Mfg., Inc. have not shifted purchases of washers to foreign sources.

The investigation has also revealed that declines in purchases of the high carbon washers produced at the Pennsylvania plant were attributed to the sharp decline in housing starts.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with washers produced at the Wheatland, Pennsylvania plant of Wrought Washer Mfg., Inc. did not contribute importantly to the total or partial separation of the workers at the above mentioned location.

Signed at Washington, D.C. this 23rd day of July 1976.

JAMES D. HOOVER,
Acting Executive Assistant to the Deputy Under Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 106]

ASSIGNMENT OF HEARINGS

JULY 29, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

AB 109, Quanah, Acme and Pacific Railway Company Abandonment Between Acme and Floydada, in Hardeman, Cottle, Motley, and Floyd Counties, Texas, now being assigned November 8, 1976 (1 week), at Paducah, Texas, in a hearing room to be later designated.

MC 83835 (Sub 130), Wales Transportation, Inc., now being assigned November 4, 1976 (2 days), at Dallas, Texas, in a hearing room to be later designated.

MC 119988 (Sub 91), Great Western Trucking Co., Inc., now being assigned November 3, 1976 (1 day), at Dallas, Texas, in a hearing room to be later designated.

MC 105984 (Sub 16), John B. Barbour Trucking Company and MC 43867 (Sub 28), A. Leander McAlister Trucking Company now being assigned November 2, 1976 (1 day), at Dallas, Texas, in a hearing room to be later designated.

MC-F-10795, International Utilities of the U.S. Inc.—Control—Pacific Intermountain Express Co., now being assigned November 1, 1976, at Washington, D.C., will be held in the Office of the Interstate Commerce Commission.

MC-F-12780, Gross Common Carrier, Inc.—Purchase—Willard Graese Transport Service, Inc., now being assigned October 27, 1976 (3 days), at Milwaukee, Wis., in a hearing room to be later designated.

MC 105269 Sub 61, Graff Trucking Company, Inc., now being assigned November 1, 1976 (1 Wk), at Chicago, Ill., in a hearing room to be later designated.

MC 64832 (Sub-No. 6), Magnolia Truck Line, Inc., now assigned September 27, 1976, at Baton Rouge, La., is canceled and reassigned for September 27, 1976, at the Ramada Inn, 2211 MacArthur Drive, Alexandria, Louisiana.

MC 127303 (Sub 19), Henry Zellmer, dba Zellmer Truck Lines, now assigned September 23, 1976 (2 days), at Chicago, Illinois, and will be held in Room 417, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 51146 (Sub 441), Schneider Transport, Inc., now assigned September 8, 1976 (3 days), at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 123407 (Sub 277), Sawyer Transport, Inc., now assigned September 13, 1976 (1 day), at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 126030 (Sub 96), The Stout Trucking Co., Inc., now assigned September 14, 1976 (2 days), at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 141703, Byko Motor Service, Inc., now assigned September 16, 1976 (2 days), at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC-C-9027, Valdez Transfer, All-State Moving & Storage, Inc., and Colonial Moving & Storage, Inc.—Investigation of Operation and Practices—now assigned September 16, 1976 (2 days), at Phoenix, Arizona, and will be held in Room 235, Federal Building and Post Office, 522 North Central Avenue.

MC 126273 (Sub-No. 203), Midwestern Distribution, Inc., now assigned September 14, 1976, at Chicago, Ill., will be held in Room 417, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC-F-12650, General Transportation, Inc.—Control and Merger—FOPA Transport, Inc. and MC 116457 (Sub-No. 15), General Transportation, Inc., now assigned September 20, 1976, at Phoenix, Ariz., will be held in Room 235, Federal Building & Post Office, 522 N. Central Avenue.

MC 126276 (Sub-No. 139), Fast Motor Service, Inc., now assigned September 16, 1976, at Chicago, Ill., will be held in Room 417, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 126276 (Sub-No. 127), Fast Motor Service, Inc., now assigned September 16, 1976, at Chicago, Ill., will be held in Room 417, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 123407 (Sub-No. 271), Sawyer Transport, Inc., now assigned September 20, 1976, at Chicago, Ill., will be held in Room 417, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 114026 (Sub-No. 20), Rowley Interstate Transportation Company, Inc., and MC 114026 (Sub-No. 23), Rowley Interstate Transportation Company, Inc., now assigned Chicago, Ill., will be held in Room 417, Everett McKinley Dirksen Building, 219 South Dearborn Street.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-22483 Filed 8-2-76;8:45 am]

[AB 43 (Sub-No. 16)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Lines

JULY 26, 1976.

The Interstate Commerce Commission hereby gives notice that its Environmental Affairs Staff has concluded that the proposed abandonment of the Illinois Central Gulf Railroad Company of its line between Elco and Murphysboro, a distance of 36 miles, all in Alexander, Union, and Jackson Counties, Illinois, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. § 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, there will be negligible changes in the ambient environmental conditions of the affected corridor as a result of the diversion of the annual 3 to 8 cars of rail traffic to motor carrier. Additionally, there are no community economic, or industrial development plans for the general area of the proposed action. An adverse effect on community or rural development is thus not expected.

It has been noted that the right-of-way is suitable for public use and the Shawnee National Forest has expressed an interest in its acquisition. With this in mind, a condition has been suggested giving public agencies first right of purchase for 120 days following actual abandonment.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-275-7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423, on or before September 8, 1976.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-22484 Filed 8-2-76;8:45 am]

[Notice No. 96]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 28, 1976.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2226 (Sub-No. 110TA), filed July 20, 1976. Applicant: RED ARROW FREIGHT LINES, INC., P.O. Box 1897, San Antonio, Tex. 78297. Applicant's representative: Phillip Robinson, P.O. Box 2207, Austin, Tex. 78768. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), from Victoria, Tex., over U.S. Highway 59 to Fannin, Tex., and thence over F.M. Road 2987 to the site of the Coleta Creek Power Station of Central Power and Light Company and return, serving no intermediate points. Applicant intends to tack its existing authority with MC 2226 and subs. Applicant also intends to interline at Dallas, Fort Worth, Houston, and San Antonio, Tex., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: R. I. Ross, Jr., Traffic Manager, Central Power and Light Company, P.O. Box 2121, Corpus Christi, Tex. 78403. Send protests to: Richard H. Dawkins, District Supervisor, Interstate Commerce Commission, Room B-400 Federal Bldg., San Antonio, Tex. 78206.

No. MC 4943 (Sub-No. 34TA), filed July 19, 1976. Applicant: CENTRAL EXPRESS INC., 5601 West Waco Drive, P.O. Box 238, Waco, Tex. 76703. Applicant's representative: Phillip Robinson, 1806 Rio Grande, P.O. Box 2207, Austin, Tex. 78768. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), from Victoria, Tex., over U.S. Highway 59 to Fannin, Tex., and thence over F.M. Road 2987 to the site of the Coleta Creek Power Station of Central Power and Light Company and return, serving no intermediate points. Applicant intends to tack its existing authority with MC 4943. Applicant also intends to interline at Houston and San Antonio, Tex., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Central Power & Light Company, R. I. Ross, Jr., Traffic Manager, P.O. Box 2121, Corpus Christi, Tex. 78403. Send protests to: H.C. Morrison, Sr., District Supervisor, Interstate Commerce Commission, Room 9A27, Federal Bldg., 819 Taylor St., Fort Worth, Tex. 76102.

No. MC 8535 (Sub-No. 57TA), filed July 21, 1976. Applicant: GEORGE TRANSFER AND RIGGING COMPANY, INCORPORATED, P.O., Box 500, Parkton, Md. 21120. Applicant's representative: Charles J. McLaughlin (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper, paper articles, paperboard and paperboard articles* (except commodities in bulk), from Lynchburg, Va., to points in Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia, for 180 days. Supporting shippers: Joseph D. Sharpe, Asst. G.T.M., Weyerhaeuser Company, 201 Dexter St., West, Chesapeake, Va. 23324. R. R.

TRANSPORTATION OF "WASTE" PRODUCTS FOR REUSE OR RECYCLING

Special Certificate Letter Notice(s)

The following letter notices request participation in a Special Certificate of Public Convenience and Necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in "Waste" Products, Ex Parte No. MC–85, 124 MCC 583 (1976).

An original and one copy of protests against applicant's participation may be filed with the Interstate Commerce Commission within 20 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will not operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence within 30 days of the date of its notice in the FEDERAL REGISTER, subject to its tariff publication effective date.

P–3–76 (Special Certificate—Waste Products), filed July 23, 1976. Applicant: INDUSTRIAL HEAVY TRANSPORT, 12636 Los Nietros Road, Santa Fe Springs, Calif. 90603. Applicant's representative: John P. Fudgen, Esq., 700 South Third Street, Las Vegas, Nev. 89101. Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of *scrap automobiles, scrap metal, ferrous and non-ferrous waste,* between points in the United States (except Alaska and Hawaii), in furtherance of a recognized pollution control program sponsored by City Towing, Inc., and Nevada Recycling Corporation of Las Vegas, Nev., for the purpose of recovery of scrap automobiles, scrap metal, ferrous and non-ferrous waste.

By the Commission.

ROBERT L. OSWALD,
Secretary.

THE NATIONAL ARCHIVES OF THE UNITED STATES 1934

PART II:

DEPARTMENT OF LABOR

Office of Employee Benefits Security

EMPLOYEE RETIREMENT INCOME SECURITY

Annual Reporting Requirements

V 41 150 AUG 3 76 UMI

Title 29—Labor

CHAPTER XXV—OFFICE OF EMPLOYEE BENEFITS SECURITY, DEPARTMENT OF LABOR

SUBCHAPTER C—REPORTING AND DISCLOSURE UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

PART 2520—RULES AND REGULATIONS FOR REPORTING AND DISCLOSURE

Annual Reporting Requirements

The purpose of these amendments to Chapter XXV of the Department of Labor regulations is to provide guidance in the preparation of Annual Return/Report Forms and attachments thereto which must be filed with the Department of Labor and summary annual reports which must be furnished to plan participants and beneficiaries by employee benefit plans under the Employee Retirement Income Security Act of 1974 (hereinafter "the Act"), to defer the annual report requirements and to establish certain exemptions or alternative methods of compliance for annual reporting requirements provided under section 103 of the Act.

On September 30, 1975, notice was published in the FEDERAL REGISTER (40 FR 45134) of proposed Annual Return/Report Forms to be filed by an employer or plan administrator of a pension or welfare benefit plan as required by section 104 of the Act. On November 19, 1975, notice was published in the FEDERAL REGISTER (40 FR 53710) of proposed regulations concerning the preparation of the annual return/report forms and the summary annual report.

Because of the confusion and duplication of requirements prescribed under the statutory annual reporting provisions of section 103 of the Act, the Department has developed a limited exemption for welfare plans and alternative method of compliance for pension plans for annual reporting by all plans as well as group insurance arrangements. Many of the regulations contained herein are a part of the limited exemption and alternative method of compliance prescribed to ease the burden and expense to plans which would result from the application of the statutory annual reporting provisions. Specifically, §§ 2520.103–1(b) and 2520.103–2(b) detail the contents of an annual report for plans electing the limited exemption or alternative method of compliance and for certain trusts or other entities involved in group insurance arrangements, respectively. Other regulations, including §§ 2520.103–6 and 2520.103–7(c)(1), are applicable only to plans electing the exemption/alternative method of compliance.

The regulations contained in this document are both temporary regulations effective immediately and proposed regulations for final adoption. The primary reason for making these regulations effective immediately on a temporary basis is that plans are required to file their initial annual report within 11½ months after the close of the plan year which begins in 1975, or December 15, 1976, whichever is later. Consequently, many plans must complete the preparation of their annual reports as soon as possible in order to meet this filing requirement. These regulations establish the guidelines and exemptions or alternative methods of compliance which these plans may follow in complying with the annual reporting requirements. Plans which must start preparing their annual reports and summary annual reports immediately must be given the assistance and certainty of regulations on which they may rely in complying with the Act.

For the foregoing reasons, the undersigned finds that good cause exists for making these regulations temporarily effective without advance publication as specified in the Administrative Procedure Act (5 U.S.C. 553(d)(3)).

These regulations are temporary and shall be in effect for plan years beginning in 1975. Interested persons have been afforded an opportunity to participate in the making of many of these regulations by the notice of proposed rulemaking published on November 19, 1975 (40 FR 53710). Due consideration has been given to all comments received in response to the notice insofar as they relate to matters within the scope of the notice and this final rulemaking. As a consequence of these comments, many significant changes have been made in these regulations, and a number of new sections have been added, so that it is appropriate to offer another opportunity for public comment. Therefore, the regulations in this document are also proposed, and comments concerning these regulations will be received for consideration in the preparation of final annual report regulations. Interested persons are invited to submit written data, views, or arguments concerning any or all of the proposed regulations contained in this document on or before December 31, 1976. Such data, views, and arguments should be submitted to the "Annual Report Regs., Division of Regulatory Standards and Exceptions, Office of Employee Benefits Security, U.S. Department of Labor, Washington, D.C. 20216." All comments should be clearly referenced to the numbers of the sections to which the comments are directed.

Section 2520.103–1

Section 2520.103–1, a new regulation not published in the November 1975 proposed annual reporting regulations, prescribes the content of the annual report. A limited exemption for welfare plans and an alternative method of compliance for pension plans has been promulgated in response to numerous comments received by the Department which requested that the Department provide relief from the voluminous and duplicative annual reporting requirements of section 103 of the Act.

This regulation permits employee benefit plans with 100 or more participants to file an annual report in accordance with the provisions of section 103 of the Act, or in accordance with a limited exemption or alternative method of compliance authorized under sections 104(a)(3) and 110, respectively, of the Act. The content of the annual report for plans electing the limited exemption or alternative method of compliance is described in paragraph (b) of the regulation. Under the authority of section 104(a)(2)(A) of the Act, the regulation provides that plans with fewer than 100 participants must file only an annual report consisting of a Form 5500–C or 5500–K and any schedules required by the instructions to the forms, in accordance with § 2520.104–41.

The limited exemption or alternative method of compliance for plans with 100 or more participants permits such plans to fulfill their annual reporting obligation under section 103 of the Act by filing an annual report containing the following: A form 5500 and any schedules of insurance or actuarial information required by the instructions to Form 5500, financial statements and accompanying notes with all valuations at current value (except as provided in § 2520.103–7), separate financial schedules described in Item 24(b) of Form 5500 and § 2520.103–10, and an accountant's report.

Plans electing the exemption/alternative must engage an accountant to prepare a report on the financial statements and schedules required to be included in the annual report in accordance with §§ 2520.103–1(b) and 2520.103–10. The accountant's report must state whether the audit was made in accordance with generally accepted auditing standards, and must designate any auditing procedures deemed necessary by the accountant which have been omitted and the reasons for their omission. In addition, the accountant's report must contain the opinion of the accountant in respect to the financial statements and schedules covered by the report and the accounting principles and practices reflected therein, as well as the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements. Lastly, the accountant's report must identify any matters to which the accountant takes exception, and to the extent practicable, the effect of each such exception on the financial statements. The exception must further indicate whether the exceptions are the result of Department of Labor rules and regulations.

The following findings are made with respect to the promulgation of § 2520.103–1 as an alternative method of compliance under section 110 of the Act:

1. The alternative method of compliance is consistent with the purposes of Title I of the Act, and provides adequate disclosure to plan participants and beneficiaries and adequate reporting to the Secretary. The essential information required by section 103 of the Act is reported and disclosed under the alternative method of compliance, while duplicative requirements are merged to provide a clearer portrayal of the financial activity and status of employee benefit plans.

2. The alternative method of compliance relieves plans subject to the annual reporting requirements from increased

costs and unreasonable administrative burdens. The alternative frees plans which elect it from duplicative auditing requirements and simplifies the content of the annual report in general.

3. Finally, the alternative method of compliance is not adverse to the interests of participants and beneficiaries in the aggregate, because the alternative preserves all of the basic financial reporting features of section 103 of the Act, while at the same time restructuring the content to produce a more efficient and understandable report.

In accordance with the authority to promulgate a limited exemption for employee welfare benefit plans under section 104(a)(3) of the Act, the Secretary has found that the reporting and disclosure requirements of section 103 of the Act are inappropriate as applied to welfare benefits plans.

Section 2520.103–2

Under § 2520.104–43, plans participating in a group insurance arrangement may be exempted from filing an annual report provided that the trust, trade association or other entity which owns the insurance contracts and acts as a conduit for the insurance premiums files an annual report for the entire arrangement. Section 2520.103–2, a new regulation which was not published as a proposal in the November 1975 annual reporting regulations, prescribes the contents of the annual report to be filed by the trust, trade association or other entity in order for a plan to be eligible for the exemption described in § 2520.104–43.

The limited exemption requires such entities to fulfill the annual reporting conditions imposed under § 2520.104–43 by filing an annual report containing the following: A Form 5500 and any schedules required by the instructions to Form 5500, financial statements and accompanying notes with all valuations at current value (except as provided in § 2520.103–7), separate financial schedules described in item 24(b) of Form 5500, and an accountant's report. The § 2520.103–2 content requirements parallel the limited exemption or alternative method of compliance prescribed for plans with 100 or more participants in § 2520.103–1.

Reporting entities described in § 2520.104–43 preparing an annual report under this section must engage an accountant to prepare a report on the financial statements and schedules required to be included in the annual report in accordance with §§ 2520.103–2(b) and 2520.103–10. The accountant's report must state whether the audit was made in accordance with generally accepted auditing standards, and must designate any auditing procedures deemed necessary by the accountant which have been omitted and the reasons for their omission. In addition, the accountant's report must contain the opinion of the accountant in respect to the financial statements and schedules covered by the report and the accounting principles and practices reflected therein, as well as the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements. Lastly, the accountant's report must identify any matters to which the accountant takes exception, and to the extent practicable, the effect of each such exception on the financial statements. The exception must further indicate whether the exceptions are the result of Department of Labor rules and regulations.

Sections 2520.103–3 and 2520.103–4

Sections 2520.103–3 and 2520.103–4 (formerly, proposed §§ 2520.103–1 and 2) provide an exemption from certain annual reporting requirements relating to plan assets held in either a common or collective trust maintained by a bank or a pooled separate account maintained by an insurance carrier. Under these regulations, plans with assets in such trusts or accounts need only include the following financial information with respect to those assets in the annual report: the value of the plan's units of participation in the trust or account, transactions involving the acquisition and disposition by the plan of units of participation in the trust or account, if otherwise required to be reported, and the most recent annual statement of the assets and liabilities of the trust or account. A plan administrator is not required to report any information with respect to transactions engaged in by the bank or insurance carrier involving the assets of the trust or account.

Proposed § 2520.103–1 adopted certain portions of the regulations of the Comptroller of the Currency at 12 CFR 9.18 for purposes, inter alia, of defining "common or collective trust". However, comments pointed out that certain of these rules are inappropriate as applied to State banks and would require a restructuring of their operations in order for the exemption to apply. Therefore, the regulation has been modified to delete these provisions. A broad definition of the terms "common or collective trust" has been provided. Section 2520.103–3 also specifies that a controlled group of corporations, as defined in section 1563(a) of the Internal Revenue Code of 1954, shall be considered a single participant in a common or collective trust. As a result, a common or collective trust consisting solely of the assets of a plan or plans of a controlled group of corporations would not qualify for the exemption provided in § 2520.103–3.

Numerous comments stated that it would be burdensome and duplicative to require each plan participating in a pooled fund to file the statement of assets and liabilities of the pooled fund. Plans can be relieved of the requirement to file duplicative statements of assets and liabilities if one financial statement of a common or commingled trust or a pooled separate account is filed for all participating plans. Therefore, the regulation has been modified to exempt a plan from filing the statement of assets and liabilities required under section 103(b)(3)(G) of the Act and §§ 2520.103–3 and 103–4 if the bank or insurance carrier which maintains the common or collective trust or pooled separate account files the required statement of assets and liabilities. (See § 2520.103–9).

It should be noted that paragraph (c)(2) of both sections has been changed. In the proposed regulation, these paragraphs established specific rules for the content of the statement of assets and liabilities of the pooled funds. Because many banks and insurance companies may not be currently in compliance with these content requirements for the most recent annual statement of assets and liabilities, these specifications have been deleted.

The final regulations have also been changed from the proposed to include in the information required for the annual report the value of a plan's assets held in the common or collective trust fund or pooled separate account.

Section 2520.103–5

Section 2520.103–5 implements section 103(a)(2) of the Act. Section 103(a)(2) of the Act requires an insurance carrier or other organization which provides some or all of the benefits under a plan or holds plan assets, a bank or similar institution which holds plan assets, or a plan sponsor, to transmit and certify to the accuracy and completeness of such information as is needed by the plan administrator to comply with the requirements of Title I of the Act. This regulation modifies the November 1975 proposed regulations to make it clear that its requirements apply only to certification of information for purposes of preparing the annual report.

Under section 103(a)(2) of the Act, such information must be transmitted within 120 days of the close of the plan year or within such other period of time as may be prescribed by the Secretary. However, because the Department of Labor is extending the initial annual report filing period from 210 days to 11½ months (see § 2520.104a–5), the time permitted for the transmittal of annual report information by an insurance carrier, bank or similar institution or plan sponsor to a plan administrator is extended from 120 days to 9 months for the annual report filed for the 1975 plan year.

The proposed regulation has been modified to remove any limitation on the information which must be transmitted and certified to the plan administrator by banks and insurance carriers. Except in the case of loans and leases in default, the proposed regulation did not require banks and insurance carriers to identify any of the specific transactions required to be included in the separate financial schedules of the annual report. However, this section now requires that banks and insurance carriers provide any information they may have regarding the transactions required to be listed in the schedules including party-in-interest transactions with persons known by the bank or insurance company to be a party-in-interest to the plan.

One comment stated that the certification by the bank or insurance company required upon transmittal of the information may be too broad in scope to en-

V 41 150 AUG 3 76 UMI

able compliance. It suggests that more flexible language be permitted by the regulation. However, the language suggested in the regulation for the certification is only an example. Any other signed statement which assures the accuracy and completeness of the facts transmitted may be used. The certification need not be sworn to or notarized.

Section 2520.103–6

The substance of § 2520.103–6 was originally issued in proposed form as § 2520.103–4 and was applicable to all plans required to prepare a schedule of 3 percent reportable transactions. This section is now limited in application to the schedule of reportable transactions required by item 24(b) of Form 5500 as described in § 2520.103–10(b)(5). However, plans which use the alternative method of compliance or limited exemption prescribed in §§ 2520.103–1(b) or 2520.103–2(b) must use the definitions in this section for purposes of preparing the schedule required by §§ 2520.103–1(b)(4) or 2520.103–2(b)(4).

Reportable transactions as defined in this regulation consist of four separate categories of transactions: first, a single transaction in excess of 3 percent of the current value of plan assets; second, a series of transactions with or in conjunction with the same person, involving property other than securities, which amount in the aggregate to more than 3 percent of the current value of plan assets; third, a series of transactions with respect to securities of the same issue which amount in the aggregate to more than 3 percent of the current value of total plan assets; and fourth, any transaction with respect to securities with or in conjunction with a person if a prior or subsequent single transaction has occurred with respect to securities with or in conjunction with that same person in an amount in excess of 3 percent of the current value of plan assets.

The proposed regulation included a definition of current value for valuation of plan assets as of the beginning of the plan year. Comments directed at this definition of current value stated that the definition was ambiguous because the term "current value" was used in two different contexts: the current value of plan assets at the beginning of the plan year and the current value of an asset acquired or disposed of during the plan year. The regulation has been clarified by distinguishing between the current value at time of acquisition or disposition of an asset and the current value of all plan assets at the beginning of the year. Also, new § 2520.103–7 exempts plans using the alternative/exemption provided in §§ 2520.103–1(b) or 2520.103–2(b) for the 1975 plan year from the requirement to display at current value the statement of assets and liabilities of the plan, trust or other entity as of the end of the previous plan year. Therefore, a new paragraph (b)(ii) has been added to this section providing that for such plans the "current value" as of the beginning of the plan year shall be the amount shown on line 13 (h) or (i) of the Form 5500, as appropriate.

This section also previously defined "transaction with respect to securities" in terms of the execution of a buy or sell order. Comments received pointed out the practical difficulties of defining a transaction on this basis and suggested use of the trade date or settlement date for purposes of determining when a transaction involving securities has occurred. The plan administrator may use either the trade date or settlement date to report 3 percent transactions provided that either date is applied consistently throughout the plan year.

This section previously required aggregation of transactions in a series involving securities on the basis of the issuer of such securities. Comments received indicated that the aggregation for purposes of reporting assets held for investment and for determining 3 percent series transactions involving securities should be based on issue rather than issuer, because banks and other financial institutions maintain their records on the basis of issue rather than issuer. Furthermore, the comments pointed out that differing investment considerations among the various securities of the same issuer would make aggregation on the basis of issuer less informative and useful than aggregation on the basis of the issue. Because the aggregation of this securities transaction information on the basis of issue would be more useful to the Department of Labor for purposes of monitoring plan activity under the Act, as well as less burdensome to plans and investment institutions, the regulation has been amended to require aggregation on the basis of issue.

The regulation also contains other changes in the method of aggregation of securities transactions for purposes of a 3 percent series. The proposed regulation prescribed a method of aggregating securities transactions on the basis of a 3 percent difference in the holdings of the same security at any time during the plan year, as compared to any other point in time within the plan year. Comments on this proposed method of aggregation indicated that the requirement was too complex and difficult to apply. The regulation changes the method of aggregation of securities to require aggregation of all sales and purchases of securities of the same issue at any time throughout the plan year for purposes of determining when a series of transactions involving securities exceeds 3 percent of the current value of plan assets.

For example, Plan ABC acquires XYZ common stock in an amount equal to 2 percent of the value of the plan assets; later, the plan sells 1 percent worth of XYZ common, and still later buys another 3 percent worth of XYZ common. This section requires that all the percentage changes—acquisitions and dispositions—be aggregated, and if the total figure exceeds 3 percent, all transactions involving XYZ common are reportable as part of a series. Thus, 2 percent plus 1 percent plus 3 percent aggregates to 6 percent and the whole series, including both purchases and the sale, is reportable as a series of transactions with respect to securities in excess of 3 percent of plan assets.

The information required to be reported regarding a series of transactions involving securities has been modified. The proposed regulation required each transaction in the series to be listed and identified in the same manner as other types of reportable transactions in this section. However, the final regulation now requires only certain aggregate information relevant to the series of securities transactions to be included in the separate schedule to the annual report. The specific information to be provided includes the total number of purchases of a security made by the plan within the plan year, total number of sales, total dollar value of purchases, total value of sales, and the net gain or loss as a result of these transactions. This approach is simpler and less burdensome while providing information which is specifically relevant.

Finally, many comments received stated that short-term money market instruments (e.g., short-term certificates of deposit, Treasury Bills, "weekend" notes) should be exempted from 3 percent transactions, or lumped together and treated as a single category of securities rather than as individual transactions. Many plans engage in numerous short-term transactions throughout a plan year so that plan assets will be invested for the benefit of participants and beneficiaries at all times. The comments stated that the reporting of each of these transactions would be burdensome and would produce voluminous amounts of information that could obscure other plan transactions of greater importance. However, changing the definition of a transaction in securities to mean an individual purchase or sale, narrowing the aggregation rule from issuer to issue, and requiring the information on 3 percent series transactions to be reported on a summary basis will radically reduce, if not nearly eliminate, the problems raised by the comments. For these reasons, the regulation accords no special treatment to short-term money market instruments.

Section 2520.103–7

Section 2520.103–7, establishing special accounting rules for certain plans filing an annual report under the Act for the first time, substantially amends the proposed regulation. The special accounting rules prescribed by the regulation vary according to the type of plan. Plans with 100 or more participants and trusts filing an annual report for a group insurance arrangement in accordance with §§ 2520.104–43 and 2520.104a–6 which are filing an annual report for the plan year beginning in 1975, may only use the special accounting rules described in this regulation if the plan has adopted the limited exemption/alternative method of compliance of § 2520.103–1(b) or § 2520.103–2(b). Such plans are not required to: (1) Display at current value plan assets and liabilities in comparative form as of the end of the previous plan year or the beginning of the plan year subject to the initial annual report, (2) engage an accountant to examine the plan's financial statements for the preceding plan year, or (3) provide an accountant's opinion regarding the consistency of the initial plan year's financial statements with the preceding plan year's financial statements.

All plans with fewer than 100 participants which are filing an annual report for the plan year beginning in 1975, are not required to display at current value plan assets and liabilities in comparative form as of the end of the previous plan year or the beginning of the plan year subject to the initial annual report. (Plans with fewer than 100 participants are exempt under § 2520.104–46 from the requirement to engage an accountant to examine the plan's financial statements and prepare an accountant's report.)

The following findings are made with respect to the promulgation of § 2520.103–7 as an alternative method of compliance under section 110 of the Act for pension plans which cover fewer than 100 participants at the beginning of the plan year:

1. The special accounting rules are consistent with the purposes of Title I of the Act, and provide adequate disclosure to plan participants and beneficiaries and adequate reporting to the Secretary. Because plans filing an initial annual report for the plan year beginning in 1975 may not have previously maintained their financial books and records on the basis of current value, a requirement to include a statement of assets at current value as of the beginning of the plan year would be unduly burdensome.

2. Requiring small plans to obtain a current valuation of all plan assets for the beginning of the 1975 plan year would result in increased costs for appraisal. These increased costs and the administrative burden of preparing beginning of the year balances at current value would be adverse to the interests of participants and beneficiaries in the aggregate.

The final regulation, unlike the proposed, does not apply to plans now in existence, but not currently covered by ERISA, which may become covered in the future.

The special accounting rules exempt plans from the requirement of including beginning of the year balances at current value in the annual report. Beginning of the year balances may be stated on the basis of the valuation method used at the beginning of the year rather than at current value. However, because participants could be confused by attempting to compare end of year balances stated at current value to beginning of year balances stated on a different basis, §§ 2520.104b–10 and 2520.104b–11 do not require that plans include the beginning of year balances for the 1975 plan year in the initial summary annual report.

The second special accounting rule relieves plans from having an audit performed for the prior year in addition to the audit required for the initial reporting year. In most cases, an audit of the financial information for the previous plan year would be burdensome and expensive for plans, particularly in the case of plans which were not previously audited. Therefore, under the authority of section 104(a)(3) and 110 of the Act, § 2520.103–7 establishes a special rule relieving plans from this requirement.

The third special accounting rule, regarding the accountant's opinion, maintains consistency with the second rule. Because no audit of the plan's financial statement for the previous plan year is required for plans with 100 or more participants which elect the alternative/exemption, no opinion can be provided regarding the consistency with the accounting principles and practices used in the previous year.

Section 2520.103–8

Section 2520.103–8, which interprets section 103(a)(3)(C) of the Act, is a new regulation which was not included in the proposed regulations published on November 19, 1975.

Under this rule, the examination and report of the independent qualified public accountant need not address any statement or information regarding plan assets held by a bank or insurance carrier, which is regulated and supervised and subject to periodic examination by a State or Federal agency, provided that the statement or information is transmitted and certified to the plan administrator in accordance with § 2520.103–5 of these regulations. Plan assets held in any type of bank or insurance carrier trust or account, including separate trusts, common or collective trusts, custodial accounts and pooled or individual separate accounts, are included.

Section 2520.103–9

Section 2520.103–9 implements section 103(b)(4) of the Act, which authorizes the Secretary to relieve plans with assets held in whole or in part in a common or collective trust fund or a pooled separate account from filing a statement of assets and liabilities of such trust or account as required under section 103(b)(3)(G) of the Act if the bank or insurance carrier files a statement of assets and liabilities of the trust or pooled separate account directly with the Secretary.

Comments pointed out the needless burden on plans and the duplication of statements of assets and liabilities which would be filed if each plan participating in a common or collective trust fund or pooled separate account were required to file such a statement with the Secretary of Labor. For this reason, § 2520.103–9 establishes a procedure for banks, trust companies and similar institutions, and insurance carriers to file with the Secretary one statement of assets and liabilities on behalf of all plans participating in such pooled funds or accounts.

The direct filing procedure established by the regulation requires that the bank or insurance carrier filing the statement identify the trust or account with the employer identification number (EIN) of the trust or account. In addition, if the bank or insurance carrier has assigned the same EIN to more than one trust or account, the trusts or accounts shall also be sequentially numbered to specifically identify the common or collective trust or pooled separate account in which the plan is participating. The bank or insurance carrier must file with the Secretary the statement of assets and liabilities of the trust or account, and a list of the EIN's and names of plan sponsors of participating plans. The bank or insurance carrier must send to each participating plan a copy of the statement of assets and liabilities, the EIN and any additional identification number of the trust or account, and a certification that the statement of assets and liabilities has been filed with the Secretary on or before the date upon which the annual report of the plan is required to be filed in accordance with §§ 2520.104a–5 or 2520.104a–6.

Each plan choosing to take advantage of the direct filing procedure must include in its annual report the EIN and any additional identification number of the trust or account in which it is a participant and a certification that it has received a copy of the statement of assets and liabilities.

Section 2520.103–10

Section 2520.103–10 details the format and content of the schedules which are required by Item 24(b) of Form 5500, and required to be included with the annual report pursuant to the limited exemption and alternative method of compliance prescribed in §§ 2520.103–1(b) and 2520.103–2(b). The format and content of the schedules are prescribed in § 2520.103–10 pursuant to the authority of section 109(c) of the Act. The format has been standardized in tabular form to permit easier processing and filing by the Department.

Although not noted in the instructions to the form, the party-in-interest schedule of transactions is not required to include any transactions for which there is an applicable statutory or administrative exemption. Therefore plans are relieved of the potential burden of listing large numbers of transactions, such as securities transactions, for which an exemption has been granted.

Section 2520.104–41

Section 2520.104–41 provides for simplified annual reporting for plans with fewer than 100 participants. The proposed version of this regulation limited simplified annual reporting to only Keogh plans, but numerous comments indicated the desirability of extending simplified annual reporting to all small employee benefit plans with fewer than 100 participants.

EMPLOYEE BENEFIT PLANS WITH FEWER THAN 100 PARTICIPANTS

Simplified annual reporting is prescribed for employee benefit plans that have fewer than 100 participants at the

V 41 150 AUG 3 76 UMI

beginning of the plan year, none of whom is an owner-employee as defined in section 401(c)(3) of the Internal Revenue Code of 1954. Such a plan must file a Form 5500–C "Annual Return/Report of Employee Benefit Plan (with fewer than 100 participants, none of whom is an owner-employee)" in the manner prescribed in § 2520.104a–5. Although the instructions to the annual report forms prescribe simplified forms only for plans covering fewer than 100 participants at all times during the plan year, this requirement could be overly burdensome for plans unable to maintain records of the number of participants at all times during the year. Therefore, this regulation supersedes the instructions to the forms and prescribes simplified reporting for plans covering fewer than 100 participants as of a fixed date, the beginning of the plan year.

KEOGH PLANS

Simplified annual reporting is prescribed for certain Keogh pension plans required to file an annual report under section 104(a)(1)(A) of the Act. This method of simplified annual reporting is available only to Keogh plans with fewer than 100 participants at the beginning of the plan year, at least one of whom is an owner-employee as defined in section 401(c)(3) of the Internal Revenue Code of 1954. Such a pension plan must file a Form 5500–K "Annual Return/Report of Employee Pension Benefit Plans" in the manner prescribed in § 2520.104a–5.

Neither a Keogh plan which covers more than 100 participants nor a plan which covers only shareholder-employees (Subchapter S plan) is eligible for this simplified annual reporting method. Instructions to the annual report forms indicate that both shareholder-employee plans and Keogh plans with more than 100 participants must file the full Form 5500 "Annual Return/Report" which provides for more complete and detailed financial information.

Section 2520.104–42

Under the authority of section 104(a)(2)(A) of the Act, the Secretary of Labor may waive the requirement that actuarial information on the annual report include the present value of the plan's liabilities for nonforfeitable pension benefits allocated by termination priority category, as set forth in section 4044 of Title IV of the Act, and the actuarial assumptions used in these computations. In order to waive this requirement, however, the Secretary must make findings as required under section 104(a)(2)(A) as to first, whether the interests of plan participants are not harmed thereby, and second, whether the expense of compliance with the specific requirements of section 103(d)(6) is not justified by the needs of the participants, the Pension Benefit Guaranty Corporation (PBGC) and the Department of Labor.

Section 2520.104–42 provides that the plan administrator of an employee pension benefit plan, required under section 103(d) of the Act to include actuarial information as part of the annual report, is not required to include in the annual report for the 1975 plan year a statement of the present value of all the plan's liabilities for nonforfeitable pension benefits as set forth in § 4044 of Title IV of the Act is not required to provide the actuarial assumptions used in these computations. The waiver is based upon preliminary findings that the requirements of section 103(d)(6) are overly burdensome and would add considerable expense and time to the preparation of the actuarial statement of the annual report. In addition, the information required under section 103(d)(6) is primarily important to a plan which is terminating and would be of little relevance to participants or the Secretary in the case of an ongoing plan. PBGC has expressed no need for such information on an annual basis.

Comments received on the proposed regulation generally supported the waiver. The strongest argument in favor of the waiver is cost, especially in the case of small plans. However, comments opposed to the waiver point to the unsettled nature of reporting for plans. In addition, section 103(b)(2) of the Act provides that disclosure concerning "a general description of priorities upon termination of the plan" is to be considered by the accountant with respect to the notes to the financial statements. From the participant's point of view, the termination priority information would be of little use unless the participant knows how his own accrued benefits are allocated among the various section 4044 priority categories.

Therefore, the final regulation provides only a temporary waiver. The waiver of termination priorities information is effective only for those plan years beginning after December 31, 1974, and before January 1, 1976 (i.e., primarily 1975 plan years). If PBGC develops a need for such annual information, or if the Department determines that this information should be made available to participants and beneficiaries, the waiver will not be extended.

The waived information is solicited on an optional basis, however. Those plans that have developed the requisite data covering the termination priority categories are requested to submit this information to the Department of Labor, though there is no requirement that they do so. This data will assist the Department in making a final determination as to the usefulness of this information to the PBGC and participants and beneficiaries.

Section 2520.104–43

Under § 2520.104–43, a welfare plan participating in a trade association or other group insurance arrangement which meets all the requirements of § 2520.104–21 except the limitation to fewer than 100 participants is exempt from the requirements to file an annual report with the Secretary of Labor if the trust or trade association that acts as an intermediary between the plan and the insurance company files a report containing the information specified in § 2520.103–2. This section is designed to obtain annual financial information from the central trust or trade association, which may hold plan assets for a period of time before transmitting them to the insurance company. A participating plan, regardless of the number of participants, does not have the financial data relevant to the group insurance arrangement.

It is the trust or trade association rather than the plan which is able to provide the most relevant financial information regarding a group insurance arrangement, because it is only at the trust or trade association level that any plan assets are held in a form other than premium payments or insurance contracts. The trust or trade association may, for example, maintain a contingency or reserve fund which is a proper object of financial reporting in the case of group insurance arrangements.

Section 2520.104–43 provides an exemption which makes it possible to avoid multiple filings, one for each participating plan, if one annual report is filed on behalf of the entire group insurance arrangement or trade association.

This section is not substantively changed from its proposed form. Comments on the proposed regulation supported extension of the regulation to include certain multiple employer plans as well as plans of controlled groups, pointing out that the filing instructions D, 4 and D, 5 of the Form 5500 "Annual Return/Report" could be construed to include these types of plans. This regulation does not extend the exemption, but exempts only a category of group insurance arrangement plans, i.e., plan which meet the requirements of § 2520.104–21, other than the requirement that such plans have fewer than 100 participants—insured welfare, group insurance or trade association arrangements.

Section 2520.104–44

Section 2520.104–44, which is a consolidation of proposed §§ 2520.104–44 and 2520.104–45 published on November 19, 1975, exempts unfunded and insured plans from completing the financial information items of the annual report. Under the authority of section 104(a)(3) of the Act, the Secretary may exempt welfare plans from any or all of the reporting and disclosure requirements of Title I. Under section 110 of the Act, the Secretary may prescribe an alternative method of compliance for pension plans subject to Part I, Title I of the Act.

The financial statements and schedules required to be included in the annual report are in large measure irrelevant for an unfunded plan or an insured plan. Unfunded and insured plans exempt from completing certain financial portions of the annual report are not exempt from completing other annual report items such as the listing of plan fiduciaries and parties receiving compensation from the plan.

One comment requested an extension of the exemption to plans which invest funds solely in the savings accounts of certain financial institutions. However,

because such a plan has assets subject to the annual reporting requirements, the exemption does not apply to such a plan.

Another comment pointed out that the exemption should apply to employee benefit plans which are partly unfunded and partly insured with assets held in the general account so that part of the plan would meet the exemption proposed in § 2520.104–44 and part would meet the exemption proposed in § 2520.104–45. Welfare plans with fewer than 100 participants which combine these two financial arrangements are presently exempted from certain other reporting and disclosure regulations under § 2520.104–20. The exemption has been revised to include such a combined financial arrangement. In doing so, the two proposed regulations, §§ 2520.104–44 and 2520.104–45, are combined into one regulation.

Because of the limited exemptions of §§ 2520.104–20, 104–23, 104–24, and 104–25, many employee benefit plans are already exempt from the annual reporting requirements. Many more plans will be affected by § 2520.104–44. Unfunded or insured (or combination) welfare plans which cover fewer than 100 participants are exempt from the annual reporting requirements under § 2520.104–20. Unfunded or insured pension and welfare plans maintained by an employer for a select group of management or highly compensated employees ("top hat" plans) are also exempt under §§ 2520.104–23 and 104–24. Welfare plans which are established only to provide for day care centers are exempt from all reporting and disclosure requirements, including the annual reporting requirements under § 2520.104–25. In effect, the only plans which are affected by the exemption under § 2520.104–44 are unfunded or insured (or combination) welfare plans covering 100 or more participants and insured pension plans of any size.

The following findings are made with respect to the promulgation of § 2520.104–44 as an alternative method of compliance under section 110 of the Act:

1. The use of the alternative method of compliance set forth below is consistent with the purposes of Title I of the Act, and provides adequate reporting to the Secretary and adequate disclosure to plan participants and beneficiaries. The Act requires an employee benefit plan to include certain financial information which is inapplicable to insured and unfunded plans. Because a wholly insured or unfunded plan, or a partly insured-partly unfunded plan, has no assets or liabilities other than insurance contracts or past due insurance premiums in the case of an insured plan, the provisions of the Act requiring financial statements are irrelevant. Consequently, the alternative method of compliance does not exempt insured or unfunded plans from reporting and disclosing any information which they would otherwise be able to report and disclose.

2. If an insured or unfunded plan were not clearly exempt from including certain financial information in the annual report, such plan would incur the needless expense of hiring an independent qualified public accountant. The regulation makes it clear that an insured or unfunded plan is not required to hire an independent qualified public accountant.

3. The unnecessary expense of an audit and the preparation of irrelevant financial statements would be adverse to the interests of plan participants in the aggregate.

With respect to the promulgation of § 2520.104–44 as an exemption under section 104(a)(3) of the Act the annual reporting provisions requiring insured or unfunded plans to include certain financial information are found inappropriate for the reasons listed above.

Section 2520.104–45

Section 2520.104–45, a new section not included in the November 19, 1975 proposed regulations, exempts insured plans with fewer than 100 participants as of the beginning of the plan year from reporting, in the initial annual report filed for the 1975 plan year, the names and addresses of the brokers, agents, or other persons to whom commissions or fees were paid by the plan, the amount paid to each, and the purpose of the payment, otherwise required by sections 103 (c) and (e) of the Act.

Comments received by the Department of Labor on the proposed annual reporting regulations stated that insurance commission information is not presently maintained by insurance carriers on a plan-by-plan basis in some cases, but is instead retained on the basis of the agent handling the insurance contract. Under the Welfare and Pension Plans Disclosure Act (29 U.S.C. 301), plans with fewer than 100 participants were not subject to the reporting requirements, and for the relatively few individual policy plans with over 100 participants, insurance carriers produced the data manually.

Under ERISA, insurance carriers must establish systems for retrieving this information for under-100 plans on a plan-by-plan basis. Because this process is both expensive and time-consuming, insurance carriers will require another year's lead time, and have requested a one year exemption from the requirement that insurance fees and commissions be included in the annual report for these small plans.

Therefore, the following findings are made with respect to the promulgation of § 2520.104–45 as an alternative method of compliance under section 110 of the Act:

1. The alternative method of compliance is consistent with the purposes of Title I of the Act, and provides adequate disclosure to plan participants and beneficiaries and adequate reporting to the Secretary. The information regarding the insurance fees and commissions paid by insurance carriers of small insured pension plans will be reported to the Secretary and disclosed to the participants and beneficiaries for plan years beginning in 1976.

2. Requiring small insured plans to report and disclose insurance fees and commissions information in the initial annual report under ERISA would increase the costs to plans and would impose unreasonable administrative burdens with respect to the operation of the plan. Small insured plans cannot obtain commission information from insurance carriers, until data systems which compile this information on a plan-by-plan basis have been established. To require these plans to report and disclose this information for the initial annual report would impose an unreasonable and potentially impossible burden of retrieving and collecting this data manually.

3. Requiring small insured plans to report and disclose insurance fees and commissions information would be adverse to the interests of plan participants in the aggregate. Such requirement would have the consequence of greatly increasing the insurance carriers costs and thereby resulting in possibly increased premium or administration charges.

Therefore, the inclusion in the annual report of information regarding insurance fees and commissions for plans with fewer than 100 participants is deferred for one year by this regulation, pursuant to the authority of sections 104(a)(3) and 110 of the Act.

Section 2520.104–46

Section 2520.104–46 waives the requirement to engage an independent qualified public accountant for both pension and welfare plans with fewer than 100 participants as of the beginning of the plan year. The waiver for pension plans is based on the statutory authority of sections 103(a)(3)(A) and 104(a)(2) of the Act, while the waiver for welfare plans is based on the broad exemption authority of section 104(a)(3) of the Act. Both sections 103(a)(3)(A) and 104(a)(2) evidence a specific intent to provide small plans with relief from burdensome and expensive reporting requirements.

Although the proposed annual reporting regulations issued in November 1975, contained no proposed waiver, a great many comments have been submitted in support of a waiver of the audit requirement for small plans. The overwhelming majority of the comments pointed out the excessive burden to small plans of the requirement of hiring an independent qualified public accountant, asserting that in many cases such a cost would effectively double the administrative costs of a small plan or possibly result in termination of many such small plans.

Section 2520.104a–5

Proposed § 2520.104a–5 has been amended to provide a deferral for the filing of the first annual report, as authorized by section 104(a)(1)(A) of the Act. The deferral will allow the first annual report filing to be eleven and one-half months after the end of the plan year beginning in 1975.

By a press release dated March 2, 1976, the Department announced that the due date of the annual report for the 1975 plan year would be extended to nine and one half months after the end of the plan year. This regulation therefore adds two months to the previously announced extension.

V 41 150 AUG 3 76 UMI

Applying this rule, plans which changed their plan years during 1975 would have had to file an initial annual report prior to December 15, 1976. Because this would not allow such plans sufficient time to prepare their annual reports, the rule provides that no plan is required to file the initial annual report earlier than December 15, 1976.

Section 2520.104a–6

Section 2520.104a–6 prescribes the annual report filing date requirements to be met by trusts, trade associations or other entities filing under the provisions of §§ 2520.103–2 and 2520.104–43. The trust or trade association which files the annual report described in § 2520.103–2 within eleven and one half months after the end of the fiscal year of the trust, trade association, or other entity which begins in 1975 satisfies the requirements of the exemption. Because the trust or trade association, rather than the participating employers, is the primary source of financial information for the plan, it is appropriate to link the annual reporting date to the fiscal year of the trust or trade association, rather than a participating employer's taxable year or the plan year. No comments were received on this or any other feature of this section. To insure that all trusts or trade associations have sufficient time to prepare their annual reports for the initial annual filing, the rule provides that no annual report is required to be filed prior to December 15, 1976.

Section 2520.104b–10

Section 2520.104b–10 prescribes the content, style and format of the summary annual report which must be furnished to participants and beneficiaries of a plan under section 104(b)(3) of the Act.

Numerous comments indicated that the requirements for the summary annual report were burdensome, counterproductive, and not in the best interests of the participants. Therefore, this final regulation simplifies the summary annual reporting requirements while apprising plan participants of the most significant aspects of the plan's financial status.

Except for unfunded plans with over 100 participants (which are exempted), the requirements for the contents of the summary annual report for plans filing annual report Form 5500 are determined by either the statutory provisions of section 104(b)(3) or the limited exemption alternative method of compliance of § 2520.103–1(a)(2).

The contents of the summary annual report for plans filing Form 5500 and using the limited exemption or alternate method of compliance under § 2520.103–1(b) must include:

(1) A statement of assets and liabilities, presented at current value (with the exception stated in § 2520.103–7), (2) separate or combined statements of income and expenses, and changes in net assets, (3) notes to the financial statements, and (4) a notice that the complete annual report is available upon request for a reasonable charge and available for examination at the plan administrator's office and certain employer establishments and union offices or meeting halls, as prescribed in § 2520.104b–1. The notice is not required to include a complete listing of addresses where documents must be made available for examination in accordance with § 2520.104b–1; however, reasonable guidance should be provided, identifying locations where the full annual report may be examined and supplying other pertinent information such as hours during which documents will be available.

Plans filing Form 5500–C or Form 5500–K are required to include in the summary annual report a copy of the appropriate Form (5500 –C or –K) and a notice of availability of the complete annual report including the schedule of party-in-interest transactions. The statement of assets and liabilities which must be included in the summary annual report is the statement in items 13 of Form 5500–C and 12 of Form 5500–K, with the exception stated in § 2520.104 b–10.

Because unfunded plans with over 100 participants are exempt from filing any financial information on Form 5500, totally unfunded plans are exempt from the summary annual report requirement.

Several comments took the position that the accountant's opinion called for in the proposed regulations was unnecessary for the summary because the opinion was, in effect, only a verification of the accuracy and completeness of the financial information which did not specifically contribute to the summary annual report. The provisions of the proposed regulations which would have required a copy of the accountant's opinion on the full annual report to be included in the summary annual report have been deleted.

In addition, there is no requirement to provide certain actuarial information in the summary as was required under the proposed regulation. Such information, while relevant to defined benefit plans, is not essential to a summary of the financial status of the plan.

The final regulation also changes the requirements contained in the proposed regulation for insured plans, so that all the information required by Schedule A—"Insurance Information" need not be included in the summary. Only insurance information relevant to the particular type of plan and contract is required.

The foreign language provision of the regulation requires that oral assistance in understanding the summary be offered to participants who are literate only in a language other than English. The proposal would have required a plan which covers 500 or more participants all of whom are literate only in the same foreign language, or which covers any employer establishment in which 50 percent or more of the participants are literate only in the same foreign language, to include the offer of assistance. The provision in this regulation requires oral assistance in the case of a plan which covers fewer than 100 participants as of the beginning of the plan year, where 25 percent or more are literate only in the same non-English language, and, in the case of a plan which covers 100 or more participants, where 500 or more, or 10 percent or more of all plan participants (whichever is less), are literate only in the same non-English language.

Although plans are not required to include any information in the summary annual report which is not specified in the regulation, the plan administrator may choose to add further relevant information or explanatory material. However, the items required to be included in the summary annual report must not be presented in a manner which will have the effect of misleading or misinforming the participant and any supplementary information must be written in a manner calculated to be understood by the average participant. Thus a summary annual report should not highlight a narrative explanation of the plan's financial status, while presenting the financial statements and schedules in fine print at the end of the summary.

The regulation requires, as a general rule, that a summary annual report be furnished to plan participants and beneficiaries within 9 months after the close of the plan year, which is 2 months after the date upon which the annual report must be filed with the Secretary. Because the annual report for the 1975 plan year is not required to be filed until 11½ months after the close of the plan year, the initial summary annual report disclosure requirement has been similarly deferred until 13½ months after the close of the 1975 plan year.

Pursuant to section 110 of the Act, the following findings are made with respect to the application of the deferral to pension plans:

1. The deferral is consistent with the purposes of Title I of the Act, and provides adequate disclosure to plan participants and beneficiaries and adequate reporting to the Secretary. The deferral will allow sufficient time after filing the annual report so that plan administrators may select and prepare for distribution the documents required for distribution to plan participants and beneficiaries in a manner calculated to give a clear and understandable report for these purposes.

2. Application of the statutory requirement of 7 months to distribute the summary annual report (or the 11½ month deferred filing date for 1975 plan year reporting) would impose unreasonable administrative burdens with respect to the operation of pension plans. If the distribution period were not extended 2 months beyond the annual report filing date, administrators of pension plans would be faced with the difficult task of presenting appropriate data and distributing the summary annual report in an unreasonably short period of time. The deferral will facilitate preparation of the summary annual report.

3. The unreasonable burden which would be placed on administrators of pension plans by the application of the statutory 7 month period (or the 11½ month deferred filing date for 1975 plan year reporting) would be adverse to the interests of pension plan participants in the aggregate. Failure to defer the summary annual report requirement could result in hastily prepared disclosure documents which might be incomplete, difficult to understand or factually inaccurate or misleading.

Pursuant to section 110 of the Act, the following findings are made with respect to the alternative method of compliance for the contents of summary annual reports by pension plans:

1. Use of the alternative method of compliance set forth in § 2520.104b–10 is consistent with the purposes of Title I of the Act and provides adequate disclosure to plan participants and beneficiaries and adequate reporting to the Secretary. Section 104(b)(3) of the Act specifies two statements which must be included in the summary annual report: the statement of assets and liabilities and the statement of receipts and disbursements. The alternative method of compliance requires that a statement of assets and liabilities and income and expenses be included in the summary annual report. The alternative provides plan participants and beneficiaries with sufficient financial information upon which an initial appraisal of the plan's performance can be based, while the notice of the availability of other plan documents alerts participants to their right to obtain more detailed information about the plan's financial status if an individual desires clarification or a more detailed analysis of the plan's financial status.

2. If the statutory requirements for the contents of the summary annual report were maintained many pension plans would be subject to increased costs and to unreasonable administrative burdens with respect to their operation. In addition, requiring a plan which does not list assets and liabilities at the beginning of the year at current value would in many instances require an audit of the previous year's books and records as well as possibly costly appraisal procedures. Requiring such plans to include current value information in the summary annual report would subject the plan to substantial administrative burdens and costs.

3. Imposition of the summary annual report statutory requirements would be adverse to the interests of participants and beneficiaries in the aggregate. Requiring plans to include different information in the summary annual report than is included in the annual report would provide no assurance to participants and beneficiaries that the financial information contained in the summary is the same information filed with the Secretary in the full annual report. In addition, the inclusion of beginning of the year balances of assets and liabilities at a valuation other than current value, such as cost, could mislead and confuse participants as to any actual appreciation or depreciation in the value of plan assets and liabilities.

Section 2520.104b–11

Section 2520.104b–11 prescribes the contents of the summary annual report for group insurance arrangements. The prescribed disclosure date is 9 months after the close of the fiscal year of the trust, trade association, or other entity, except for fiscal years beginning in 1975, in which case the disclosure date is 13½ months after the close of the fiscal year or February 15, 1977, whichever is later.

The requirements for the content of the summary annual report for group insurance arrangements have been changed from the requirements of the proposed regulation.

A group insurance arrangement complying with the limited exemption of § 2520.104–43 for the filing of the annual report must also follow the requirements of this section relating to summary annual report. The summary annual report must include: (1) A statement of assets and liabilities at current value (except as provided in § 2520.103–7), and (2) separate or combined statements of income and expenses, and changes in net assets, (3) notes to the financial statements, and (4) a notice that the complete annual report and accompanying statements and schedules are available upon request for a reasonable charge and available for examination at the plan administrator's office and certain employer establishments and union offices or meeting halls, as prescribed in § 2520.104b–1.

The content and format of the statements and notes are prescribed in § 2520.103–2(b) (2) and (3). A trust that does not list assets and liabilities at current value at the beginning of the year as permitted by § 2520.103–7(c)(1) shall not include the value of assets and liabilities of the trust as of the beginning of the plan year.

Several comments objected to the inclusion of the accountant's opinion in the summary annual report. This requirement has been removed for all summary annual reports.

Other comments addressed the disclosure burden placed on small plans participating in group insurance arrangements. Although responsibility lies with the plan administrator to furnish the summary annual report to plan participants and beneficiaries in accordance with § 2520.104b–1, all the financial information required to be included in the summary is the same information that must be filed by the trust, trade association or other entity in the annual report.

Accordingly, 29 CFR Part 2520 is amended by adding §§ 2520.103–1 through 2520.103–10, 2520.104–41 through 2520.104–46, 2520.104a–5, 2520.104a–6, 2520.104b–10, and 2520.104b–11 to read as follows:

Subpart C

Sec.	
2520.103–1	Content of annual report.
2520.103–2	Content of annual report for a group insurance arrangement.
2520.103–3	Exemption from certain annual reporting requirements for assets held in a common or commingled trust fund.
2520.103–4	Exemption from certain annual reporting requirements for assets held in an insurance company pooled separate account.
2520.103–5	Transmittal and certification of information to plan administrator for annual reporting purposes.
2520.103–6	Definition of reportable transaction for purposes of annual return/report.
2520.103–7	Special accounting rules for plans filing the initial annual report.
2520.103–8	Limitation on scope of accountant's examination.
2520.103–9	Direct filing rules for bank common and commingled trusts and insurance carrier pooled separate accounts.
2520.103–10	Format and contents of annual report/return financial schedules.
	Subpart D
2520.104–41	Simplified annual reporting requirements for plans with fewer than 100 participants.
2520.104–42	Waiver of certain actuarial information in the annual report.
2520.104–43	Exemption from annual reporting requirement for certain group insurance arrangements.
2520.104–44	Limited exemption and alternative method of compliance for annual reporting by unfunded or insured welfare and pension plans.
2520.104–45	Temporary exemption from reporting insurance fees and commissions for insured plans with fewer than 100 participants.
2520.104–46	Waiver of examination and report of an independent qualified public accountant for employee benefit plans with fewer than 100 participants.
	Subpart E
2520.104a–5	Annual report filing requirements.
2520.104a–6	Annual reporting for plans which are part of a group insurance arrangement.
	Subpart F
2520.104b–10	Summary annual report.
2520.104b–11	Summary annual report for plans which are part of a group insurance arrangement.

AUTHORITY: Secs. 101, 102, 103, 104, 109, 110, 111(b)(2), 111(c), 505, Pub. L. 93–406, 88 Stat. 840–52, 894 (29 U.S.C. 1021–24, 1029–31, 1135); Secretary of Labor's Order No. 13–76.

Subpart C

§ 2520.103–1 Contents of the annual report.

(a) *General.* The administrator of a plan required to file an annual report in accordance with section 104(a)(1)(A) of the Act shall include with the annual report the information prescribed in paragraph (a)(1) of this section or in the limited exemption or alternative method of compliance described in paragraph (a)(2) of this section.

V 41 150 AUG 3 76 UMI

(1) The annual report shall contain the information prescribed in section 103 of the Act.

(2) Under the authority of sections 104(a)(3) and 110 of the Act, a limited exemption or alternative method of compliance is prescribed for employee welfare and pension benefit plans, respectively, which cover 100 or more participants at any time during the plan year. A plan electing the limited exemption or alternative method of compliance shall file an annual report containing the information prescribed in paragraph (b) and shall furnish a summary annual report as prescribed in § 2520.104b–10(c)(1)(v) or § 2520.104b–11.

(b) *Contents of the annual report for plans with 100 or more participants electing the limited exemption or alternative method of compliance.* Except as provided in §§ 2520.104–44 and 2520.103–2, the annual report of an employee benefit plan covering 100 or more participants at any time during the plan year which elects the limited exemption or alternative method of compliance described in paragraph (a)(2) shall include:

(1) A DOL/IRS Form 5500 "Annual Return/Report of Employee Benefit Plan" and any schedules (Schedule A "Insurance Information" or Schedule B "Actuarial Information") required to be attached according to the instructions to the form.

(2) The following financial statements:

(i) Except as provided in § 2520.103–7, a statement of assets and liabilities at current value presented in comparative form for beginning and end of year. The statement of plan assets and liabilities shall include the assets and liabilities listed in columns *a* and *d* of item 13 of Form 5500; however, the assets and liabilities may be aggregated into categories in a manner other than that used on the Form 5500.

(ii) Separate or combined statements of all plan income and expenses and of changes in net assets which include the categories of income, expense, and changes in assets shown in item 14 of Form 5500; however the income, expense, and changes in net assets may be aggregated into categories in a manner other than that used on the Form 5500.

(iii) The financial statements required by this paragraph may be presented in a format which may include the following:

(iv) Separate typewritten or printed statements as described in paragraphs (b)(2)(i) and (ii) of this section, typewritten or printed statements which are reproductions of items 13 and 14 of Form 5500 or a statement incorporating by reference items 13 and 14 of Form 5500.

(3) Notes to the financial statements described in paragraph (b)(2) of this section which contain a description of the accounting principles and practices reflected in the financial statements, and, if applicable, variances from generally accepted accounting principles; a description of the plan including any significant changes in the plan made during the period and the impact of such changes on benefits; the funding policy (including policy with respect to prior service cost), and any changes in such policies during the year; a description of material lease commitments, other commitments, and contingent liabilities; a description of agreements and transactions with persons known to be parties in interest; a general description of priorities upon termination of the plan; information concerning whether or not a tax ruling or determination letter has been obtained; and any other matters necessary to fully and fairly present the financial statements of the plan.

(4) The separate financial schedules listed in Item 24(b) of Form 5500 and described in § 2520.103–10.

(5) *Information regarding common or collective trusts or pooled separate accounts.* In the case of a plan some or all of the assets of which are held in a pooled separate account maintained by an insurance carrier, or a common or collective trust maintained by a bank or similar institution, the annual report shall include a copy of the most recent annual statement of assets and liabilities of such separate account or trust as required under § 2520.103–3 or § 2520.103–4. See § 2520.103–9 for direct filing with the Secretary of such statements by banks or insurance companies.

(6) *Report of an independent qualified public accountant.* (i) *Technical requirements.* The accountant's report—

(A) Shall be dated;

(B) Shall be signed manually;

(C) Shall indicate the city and state where issued; and

(D) Shall identify without detailed enumeration the financial statements and schedules covered by the report.

(ii) *Representations as to the audit.* The accountant's report—

(A) Shall state whether the audit was made in accordance with generally accepted auditing standards; and

(B) Shall designate any auditing procedures deemed necessary by the accountant under the circumstances of the particular case which have been omitted, and the reasons for their omission. Authority for the omission of procedures which independent accountants might ordinarily employ in the course of an audit made for the purpose of expressing the opinions required by paragraph (iii) is contained in § 2520.103–8.

(iii) *Opinion to be expressed.* The accountant's report shall state clearly:

(A) The opinion of the accountant in respect of the financial statements and schedules covered by the report and the accounting principles and practices reflected therein; and

(B) The opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements. Authority for changes in accounting principles is contained in § 2520.–103–7.

(iv) *Exceptions.* Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related financial statements given. The exception shall be further identified as a (A) those that are the result of DOL rules and regulations, and (B) all others.

(c) *Contents of the annual report for plans with fewer than 100 participants.* (1) Except as provided in §§ 2520.104–43 and 2520.104a–6, the annual report of an employee benefit plan which covers fewer than 100 participants at the beginning of the plan year shall be DOL/IRS Form 5500–C "Annual Return/Report of Employee Benefit Plan (with fewer than 100 participants none of whom is an owner-employee)" or 5500–K "Annual Return/Report of Employee Pension Benefit Plan for Sole Proprietorships and Partnerships (with fewer than 100 participants and at least one owner-employee)".

§ 2520.103–2 Contents of the annual report for a group insurance arrangement.

(a) *General.* (1) A trust or other entity described in § 2520.104–43(b) that files an annual report for purposes of § 2520.–104–43 shall include in such report the items set forth in paragraph (b) of this section.

(b) *Contents.* (1) A DOL/IRS Form 5500 "Annual Return/Report of Employee Benefit Plan" and any Schedule A "Insurance Information" required to be attached according to the instructions to the form.

(2) The following financial statements:

(i) Except as provided in § 2520.103–7, a statement of all trust assets and liabilities at current value presented in comparative form for the beginning and end of year. The statement of trust assets and liabilities shall include the assets and liabilities listed in Columns *a* and *d* of Item 13 of Form 5500; however, the assets and liabilities may be aggregated into categories in a manner other than that used on the Form 5500.

(ii) Separate or combined statements of all trust income and expenses and changes in net assets which includes the categories of income, expense, and changes in assets shown in item 14 of Form 5500; however, the income, expense, and changes in assets may be aggregated into categories in a manner other than that used on the Form 5500. The financial statements required by this paragraph may be presented in a format which may include the following—Separate typewritten or printed statements as described in paragraph (b)(2)(i) and (ii) of this section, typewritten or printed statements which are reproductions of items 13 and 14 of Form 5500 or a statement incorporating by reference items 13 and 14 of Form 5500.

(3) Notes to the financial statements described in paragraph (b)(2) of this section which contain a description of the accounting principles and practices reflected in the financial statements, and, if applicable, variances from generally accepted accounting principles; a description of the group insurance arrangement including any significant changes in the group insurance arrangement made during the period and the impact

of such changes on benefits; a description of material lease commitments, other commitments, and contingent liabilities; a description of agreements and transactions with persons known to be parties in interest; a general description of priorities upon termination of the plan; and any other matters necessary to fully and fairly present the financial statements of the plan.

(4) The separate financial schedules listed in Item 24(b) of Form 5500 and described in § 2520.103–10.

(5) Information regarding common or collective trusts or pooled separate accounts. In the case of a group insurance arrangement some or all of the assets of which are held in a pooled separate account maintained by an insurance carrier, or a common or collective trust maintained by a bank, the annual report shall include a copy of the most recent annual statement of assets and liabilities of such separate account or trust as required under § 2520.103–3 or § 2520.103–4. See also § 2520.103–9 for direct filing with the Secretary of Labor such statements by banks or insurance companies.

(6) Report of an independent qualified public accountant. (i) *Technical requirements.* The accountant's report—

(A) Shall be dated;

(B) Shall be signed manually;

(C) Shall indicate the city and state where issued; and

(D) Shall identify without detailed enumeration the financial statements and schedules covered by the report.

(ii) *Representations as to the audit.* The accountant's report—

(A) Shall state whether the audit was made in accordance with generally accepted auditing standards; and

(B) Shall designate any auditing procedures deemed necessary by the accountant under the circumstances of the particular case, which have been omitted, and the reasons for their omission. Authority for the omission of procedures which independent accountants might ordinarily employ in the course of an audit made for the purpose of expressing the opinions required by paragraph (b)(6)(iii) of this section is contained in § 2520.103–8.

(iii) *Opinion to be expressed.* The accountant's report shall state clearly:

(A) The opinion of the accountant in respect of the financial statements and schedules covered by the report and the accounting principles and practices reflected therein; and

(B) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements. Authority for changes in accounting principles is contained in § 2520.–103–7.

(iv) *Exceptions.* Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related financial statements given. The exception shall be further identified as to (A) those that are the result of DOL rules and regulations and (B) all others.

§ 2520.103–3 Exemption from certain annual reporting requirements for assets held in a common or collective trust fund.

(a) *General.* Under the authority of section 103(b)(3)(G) of the Act, a plan whose assets are held in whole or in part in a common or collective trust maintained by a bank, trust company, or similar institution which meets the requirements of paragraph (b) of this section shall include as part of the annual report required to be filed under § 2520.104a–5 or § 2520.104a–6 the most recent annual statement of assets and liabilities of the common or collective trust and other information as described in paragraph (c) of this section. Such plan is not required to include in the annual report any information concerning the individual transactions of the common or collective trust. This exemption has no application to assets not held in such trusts.

(b) *Application.* This provision applies only to a plan some or all of the assets of which are held in a common or collective trust maintained by a bank, trust company, or similar institution regulated and supervised and subject to periodic examination by a State or Federal agency. For purposes of this section, a common or collective trust is a trust which consists of the assets of two or more participating entities and is maintained for the collective investment and reinvestment of assets contributed thereto by the bank in its capacity as trustee, executor, administrator, or guardian. For purposes of this section, a controlled group of corporations, as defined in section 1563(a) of the Internal Revenue Code of 1954, shall be deemed to be a single participant in a common or collective trust.

(c) *Contents.* (1) A plan which meets the requirements of paragraph (b) of this section shall include in the Form 5500 Annual Return/Report and in the separate statements and schedules of the annual report prescribed in § 2520.103–1 or § 2520.103–2, information regarding the value of the units of participation in the common or collective trust held by the plan and transactions involving the acquisition and disposition by the plan of units of participation in the common or collective trust. However, the annual report is not required to include any information regarding the individual transactions of the common or collective trust.

(2) The annual report of such plan shall also include the most recent annual statement by the bank, trust company, or similar institution of the assets and liabilities of the common or collective trust.

(3) The statement of assets and liabilities of the common or collective trust is not required to be attached to the annual report filed by the administrator pursuant to § 2520.104a–5 or § 2520.104a–6 if the administrator meets the requirements of § 2520.103–9 regarding direct filing of the statement of assets and liabilities of the common or collective trust by the bank, trust company or similar institution.

§ 2520.103–4 Exemption from certain annual reporting requirements for assets held in an insurance company pooled separate account.

(a) *General.* Under the authority of section 103(b)(3)(G) of the Act, a plan whose assets are held in whole or in part in a pooled separate account of an insurance carrier which meets the requirements of paragraph (b) of this section shall include as part of the annual report required to be filed under § 2520.104a–5 or § 2520.104a–6 the most recent annual statement of assets and liabilities of the pooled separate account and other information as described in paragraph (c) of this section. Such plan is not required to include in the annual report any information concerning the individual transactions of the pooled separate account. This exemption has no application to assets not held in such pooled separate account.

(b) *Application.* This provision applies only to a plan some or all of the assets of which are held in a pooled separate account of an insurance carrier regulated and supervised and subject to periodic examination by a State agency.

(c) *Contents.* (1) A plan which meets the requirements of paragraph (b) of this section shall include in the Form 5500 Annual Return/Report and in the separate statements and schedules of the annual report, prescribed in § 2520.103–1 or § 2520.103–2, information regarding the value of the units of participation in the pooled separate account held by the plan and transactions involving the acquisition and disposition by the plan of units of participation in the pooled separate account. However, the annual report is not required to include any information regarding the individual transactions of the pooled separate account.

(2) The annual report of such plan shall also include the most recent annual statement by the insurance carrier of the assets and liabilities of the pooled separate account.

(3) The statement of assets and liabilities of the pooled separate account is not required to be attached to the annual report filed by the administrator pursuant to § 2520.104a–5 or § 2520.104a–6 if the administrator meets the requirements of § 2520.103–9, regarding direct filing of the statement of assets and liabilities of the pooled separate account by an insurance carrier.

§ 2520.103–5 Transmittal and certification of information to plan administrator for annual reporting purposes.

(a) *General.* In accordance with section 103(a)(2) of the Act, an insurance carrier or other organization which provides benefits under the plan or holds plan assets, a bank or similar institution which holds plan assets, or a plan sponsor, as described in paragraph (b)(3) of this section, shall transmit and certify such information as needed by the ad-

V 41 150 AUG 3 76 UMI

ministrator to file the annual report under section 104(a)(1)(A) of the Act and § 2520.104a-5:

(1) Within 9 months after the close of the plan year which begins in 1975 or September 30, 1976, whichever is later, and

(2) Within 120 days after the close of any plan year which begins after December 31, 1975.

(b) *Application.* This requirement applies with respect to—

(1) An insurance carrier or other organization which:

(i) Provides benefits under a plan, or

(ii) Holds assets of a plan in a separate account;

(2) A bank, trust company, or similar institution which holds assets of a plan in a common or collective trust, separate trust, or custodial account; and

(3) A plan sponsor as defined in section 3(16)(B) of the Act.

(c) *Contents.* The information required to be provided to the administrator shall include—

(1) In the case of an insurance carrier or other organization which—

(i) Provides benefits under a plan, upon request of the plan administrator, such information as is contained within the ordinary business records of the insurance carrier or other organization and is needed by the plan administrator to comply with the requirements of section 104(a)(1)(A) of the Act and § 2520.104a-5;

(ii) Holds assets of a plan in a pooled separate account which is exempted from certain reporting requirements under § 2520.103-4, a copy of the most recent annual statement of assets and liabilities of the separate account and a statement of the value of the plan's units of participation in the separate account; and

(iii) Holds assets of a plan in an individual separate account,

A listing of all transactions of the separate account, and, upon request of the plan administrator, such information as is contained within the ordinary business records of the insurance carrier and is needed by the plan administrator to comply with the requirements of section 104(a)(1)(A) of the Act and § 2520.104a-5.

(2) In the case of a bank, trust company, or similar institution holding assets of a plan—

(i) In a common or collective trust which is exempted from certain reporting requirements under § 2520.103-3, a copy of the most recent annual statement of assets and liabilities of the common or collective trust, and a statement of the value of the plan's units of participation in the common or collective trust.

(ii) In a separate trust, a listing of all transactions of the separate trust and, upon request of the plan administrator, such information as is contained within the ordinary business records of the bank, trust company, or similar institution and is needed by the plan administrator to comply with the requirements of section 104(a)(1)(A) of the Act and § 2520.104a-5.

(iii) In a custodial account, upon request of the plan administrator, such information as is contained within the ordinary business records of the bank, trust company, or similar institution and is needed by the plan administrator to comply with the requirements of section 104(a)(1)(A) of the Act and § 2520.104a-5.

(3) In the case of a plan sponsor, a listing of all transactions directly or indirectly involving plan assets engaged in by the plan sponsor and such information as is needed by the plan administrator to comply with the requirements of section 104(a)(1)(A) of the Act and § 2520.104a-5.

(d) *Certification.* (1) An insurance carrier or other organization, a bank, trust company, or similar institution, or plan sponsor, as described in paragraph (b) of this section, shall certify to the accuracy and completeness of the information described in paragraph (c) of this section by a written declaration which is signed by a person authorized to represent the insurance carrier, bank, or plan sponsor. Such certification will serve as a written assurance of the truth of the facts stated therein.

(2) Example. The XYZ Bank (Insurance Carrier) hereby certifies that the foregoing statement is complete and accurate.

(S) _____

§ 2520.103-6 Definition of reportable transaction for Annual Return/Report.

(a) *General.* For purposes of preparing the schedule of reportable transactions described in § 2520.103-10(b)(5), a reportable transaction includes any transaction or series of transactions described in paragraph (c) of this section.

(b) *Definitions.* (1) (i) Except as provided in paragraph (b)(1)(ii) and in paragraphs (c)(2) and (d)(1)(vi) of this section (relating to assets acquired or disposed of during the plan year), "current value" shall mean the current value, as defined in section 3(26) of the Act, of plan assets as of the beginning of the plan year, or the end of the previous plan year.

(ii) With respect to schedules of reportable transactions for plan years beginning in 1975, the current value of plan assets for the beginning of the plan year, or the end of the previous plan year, shall be the amount shown on line 13(h) of Form 5500 Annual Return/Report.

(2) A "transaction with respect to securities" is any purchase, sale, or exchange of securities. A transaction with respect to securities for purposes of this section occurs on either the trade date or settlement date of a purchase, sale, or exchange of securities, provided that either the trade date or settlement date is used consistently during the plan year for purposes of this section. For purposes of this section, "security" includes a unit of participation in a common or commingled trust or a pooled separate account.

(3) A transaction is "with or in conjunction with a person" for purposes of this section if that person benefits from, executes, facilitates, participates in, promotes, or solicits a transaction or part of a transaction involving plan assets.

(c) *Application.* (1) This provision applies to—

(i) A transaction within the plan year, with respect to any plan asset, involving an amount in excess of 3 percent of the current value of plan assets;

(ii) Any series of transactions (other than transactions with respect to securities) within the plan year with or in conjunction with the same person which, when aggregated, regardless of the category of asset and the gain or loss on any transaction, involves an amount in excess of 3 percent of the current value of plan assets;

(iii) Any transaction within the plan year involving securities of the same issue if within the plan year any series of transactions with respect to such securities, when aggregated, involves an amount in excess of 3 percent of the current value of plan assets; and

(iv) Any transaction within the plan year with respect to securities with or in conjunction with a person if any prior or subsequent single transaction within the plan year with such person with respect to securities exceeds 3 percent of the current value of plan assets.

(2) For purposes of determining whether any 3 percent transactions occur, the "current value" of an asset acquired or disposed of during the plan year is the current value, as defined in section 3(26) of the Act, at the time of acquisition or disposition of such asset.

(d) *Contents.* (1) The schedule of transactions shall include the following information as to each transaction or series of transactions:

(i) The name of each party, except that in the case of a transaction or series of transactions involving a purchase or sale of a security on the market, the schedule need not include the person from whom it was purchased or to whom it was sold. A purchase or sale on the market is a purchase or sale of a security through a registered broker-dealer acting as a broker under the Securities Exchange Act of 1934;

(ii) A brief description of each asset;

(iii) The purchase or selling price in the case of a purchase or sale, the rental in the case of a lease, and the amount of principal, interest rate, payment schedule (e.g., fully amortized, partly amortized with balloon) and maturity date in the case of a loan;

(iv) Expenses incurred, including, but not limited to, any fees or commissions;

(v) The cost of any asset;

(vi) The current value of any asset acquired or disposed of at the time of acquisition or disposition; and

(vii) The net gain or loss.

(2) The schedule of transactions with respect to a series of transactions described in subparagraph (c)(1)(iii) may include the following information for each issue in lieu of the information prescribed in paragraphs (d)(1)(i)–(vii):

(i) The total number of purchases of such securities made by the plan within the plan year;

(ii) The total number of sales of such securities made by the plan within the plan year;

(iii) The total dollar value of such purchases;

(iv) The total dollar value of such sales;

(v) The net gain or loss as a result of these transactions.

(e) *Examples.* (1) At the beginning of the plan year, XYZ plan has 10 percent of the current value of its plan assets invested in ABC common stock. Halfway through the plan year, XYZ purchases ABC common stock in a single transaction in an amount equal to 5 percent of the current value of plan assets. At about this time, XYZ plan also purchases a commercial development property in an amount equal to 4 percent of the current value of plan assets. Under paragraph (c)(1)(i) of this section, the 5 percent stock transaction is a reportable transaction for the plan year because it exceeds 3 percent of the current value of plan assets. The 4 percent land transaction is also reportable under paragraph (c)(1)(i) because it exceeds 3 percent of current value of plan assets.

(2) During the plan year, AAA plan purchases a commercial lot from ZZZ corporation at a cost equal to 2 percent of the current value of plan assets. Two months later, AAA plan loans ZZZ corporation an amount of money equal to 1.5 percent of the current value of plan assets. Under the provisions of paragraph (c)(1)(ii), the plan has engaged in a reportable series of transactions with or in conjunction with the same person, ZZZ corporation, which, when aggregated, involves 3.5 percent of plan assets.

(3) At the beginning of the plan year, ABC plan has 10 percent of the current value of plan assets invested equally in a combination of XYZ Corporation common stock and XYZ preferred stock. One month into the plan year, ABC sells some of its XYZ common in an amount equal to 2 percent of the current value of plan assets.

(i) Six weeks later the plan sells XYZ preferred stock in an amount equal to 2 percent of the current value of plan assets. A reportable series of transactions has not occurred because only transactions involving securities of the same issue are to be aggregated under paragraph (c)(1)(iii) of this section.

(ii) Two weeks later when the ABC plan purchases XYZ common stock in an amount equal to 2.5 percent of the current value of plan assets, a reportable series of transactions under paragraph (c)(1)(iii) of this section has occurred. The sale of XYZ common stock worth 2 percent of plan assets and the purchase of XYZ common stock worth 2.5 percent of plan assets aggregate to exceed 3 percent of the total value of plan assets. Purchases and sales should be aggregated; a net calculation should not be made. Both the purchase and sale of XYZ common stock are part of the reportable series under paragraph (c)(1)(iii) of this section.

(4) At the beginning of the plan year, Plan X purchases from broker-dealer Y common stock of Able Industries in an amount equal to 4 percent of the current value of plan assets. This purchase is a reportable transaction under paragraph (c)(1)(i) of this section. Six months later, Plan X sells broker-dealer Y, the same broker-dealer involved in the previous 4 percent transaction, preferred stock of the Baker Corporation in an amount equal to 0.5 percent of the current value of plan assets. This sale is a reportable transaction under the provisions of paragraph (c)(1)(iv) of this section. Three months later, Plan X purchases from the same broker-dealer Y certain short term debt obligations of Charley Company in the amount of 0.2 percent of the current value of plan assets. This purchase is also a reportable transaction under the provisions of paragraph (c)(1)(iv) of this section.

§ 2520.103-7 Special accounting rules for plans filing the initial annual report.

(a) *General.* (1) The administrator of an employee benefit plan which meets the requirements described in paragraph (b)(1) of this section and elects to file an annual report containing the items prescribed in § 2520.103-1(b) or § 2520.103-2(b) is not required to comply with the accounting requirements described in paragraph (c)(1) of this section.

(2) Under the authority of sections 110 and 104(a)(3) of the Act, the administrator of any employee benefit plan which meets the requirements described in paragraph (b)(2) is not required to comply with the accounting requirements described in paragraph (c)(2) of this section.

(b) *Application.* With respect to the annual report described in § 2520.103-1 or § 2520.103-2, filed in accordance with § 2520.104a-5 or § 2520.104a-6 for the plan year beginning in 1975,

(1) The administrator of a plan which covers 100 or more participants or the trust or other entity which files an annual report in accordance with § 2520.-104-43 is not required to comply with the accounting requirements described in paragraph (c)(1) of this section; and

(2) The administrator of a plan which covers fewer than 100 participants is not required to comply with the accounting requirements described in paragraph (c)(2) of this section.

(c) *Excepted requirements.* (1) In the case of a plan which covers 100 or more participants as of the beginning of the plan year,

(i) To display at current value the statement of the assets and liabilities of the plan, as of the end of the previous plan year;

(ii) To engage an independent qualified public accountant to conduct an examination of the plan's financial statements for the plan year immediately preceding the plan year or trust year covered by the initial annual report; and

(iii) To include within the initial annual report the opinion of an independent qualified public accountant as to whether the financial statements for the close of the initial plan year are presented on a basis consistent with that of the preceding year.

(2) In the case of a plan which covers fewer than 100 participants at the beginning of the plan year, to display at current value the statement of the assets and liabilities of the plan displayed in Item 13 of Form 5500-C or Item 12 of Form 5500-K as of the end of the previous plan year or as of the beginning of the plan year subject to the initial annual report.

§ 2520.103-8 Limitation on scope of accountant's examination.

(a) *General.* Under the authority of section 103(a)(3)(C) of the Act, the examination and report of an independent qualified public accountant need not extend to any statement or information prepared and certified by a bank or similar institution or insurance carrier. A plan, trust or other entity which meets the requirements of paragraph (b) of this section is not required to have covered by the accountant's examination or report any of the information described in paragraph (c) of this section.

(b) *Application.* This section applies to any plan, trust or other entity some or all of the assets of which are held by a bank or similar institution or insurance carrier which is regulated and supervised and subject to periodic examination by a State or Federal agency.

(c) *Excluded information.* Any statements or information certified to by a bank or similar institution or insurance carrier described in paragraph (b) of this section, provided that the statements or information regarding assets so held are prepared and certified to by the bank or insurance carrier in accordance with § 2520.103-5.

§ 2520.103-9 Direct filing for bank or insurance carrier trusts and accounts.

(a) *General.* Under the authority of section 103(b)(4) of the Act, the Secretary may relieve any employee benefit plan whose assets are held in whole or in part in a common or collective trust or a pooled separate account described in section 103(b)(3)(G) of the Act and §§ 2520.103-3 and 2520.103-4 from including in the annual report the statement of assets and liabilities of the common or collective trust or pooled separate account in accordance with section 103(b)(3)(G) of the Act and § 2520.103-1 or § 2520.103-2 if the bank or insurance carrier which maintains such trust or account files such statement of assets and liabilities directly with the Secretary. An employee benefit plan which meets the requirements of paragraph (b)(1) is relieved from including a statement of assets and liabilities of the common or collective trust or pooled separate account, provided that the bank or insurance carrier which holds the plan's assets meets the requirements of paragraph (b)(2) of this section.

V 41 150 AUG 3 76 UMI

(b) *Application.* A plan required to include a statement of assets and liabilities of a common or collective trust or pooled separate account in the annual report in accordance with section 103(b)(3)(G) of the Act and §§ 2520.103–3 and 2520.103–4 is relieved from including such statement in the annual report if the plan administrator files with the annual report the information described in paragraph (1) and the bank or insurance carrier files the information described in paragraph (b)(2) of this section in the manner described therein.

(1) The plan administrator shall include in the annual report:

(i) A certification that the plan has received from the bank or insurance carrier a copy of the most recent annual statement of assets and liabilities of any common or collective trust or pooled separate account in which any plan assets are held and

(ii) The Employer Identification Number (EIN) of such common or collective trust or pooled separate account and any additional identification number assigned to the trust or account for purposes of this section pursuant to paragraph (b)(2)(i)(C) of this section.

(2) The bank or insurance carrier which maintains the common or collective trust or pooled separate account in which assets of the plan are held—

(i) Shall file the following information with the Secretary:

(A) The most recent annual statement of the assets and liabilities of the common or collective trust fund or pooled separate account in which assets of the plan are held,

(B) A list of all plans, assets of which are held in the common or collective trust or pooled separate account identified by the Plan number as on the Annual Return/Report Form, name and EIN of the plan sponsor, and

(C) The EIN of the common or collective trust or pooled separate account; if the same EIN designates more than one trust or account, the bank or insurance carrier shall sequentially number the trusts or accounts for purposes of this section and report the sequential numbers together with the EIN; and

(ii) Shall furnish the following items to the plan administrator:

(A) The most recent annual statement of assets and liabilities of the common or collective trust or pooled separate account in which the plan is a participant (See § 2520.103–5);

(B) The EIN of the common or collective trust or separate account and any other identification number assigned to the trust for purposes of this section; and

(C) A certification that a copy of the most recent annual statement of assets and liabilities of the trust or account has been filed with the Secretary on or before the date upon which the annual report of the plan is required to be filed in accordance with § 2520.104a–5 or 2520.104a–6.

(c) *Filing address.* See § 2520.104a–5(b).

§ 2520.103–10 Format and contents of annual report financial schedules.

(a) *General.* Under the authority of section 103(c)(5) of the Act, the separate financial schedules required by item 24(b) of Form 5500 Annual Return/Report shall include the information presented in the formats prescribed in paragraph (b) of this section.

(b) *Format and Content of schedules.* (1) *Assets held for investment.* A schedule of all assets held for investment purposes aggregated and identified by issue, maturity date, rate of interest, collateral, par or maturity value, cost, and current value and in the case of a loan, the payment schedule (e.g. fully amortized, partly amortized with balloon) in the format set forth below:

a.	b. Identity of issue, borrower, lessor or similar party	c. Description of investment including maturity date, rate of interest, collateral, par or maturity value	d. Cost	e. Current value

(2) *Party-in-interest transactions.* Except in the case of a transaction to which a statutory exemption under Part 4 of Title I or an administrative exemption under section 408(a) of the Act is applicable, a schedule of each transaction involving a person known to be a party in interest, the identity of such party in interest and his relationship or that of any other party in interest to the plan or trust, a description of each asset to which the transaction relates, the purchase or selling price (in case of a sale or purchase) or the rental (in case of a lease) or the interest rate and maturity date (in the case of a loan), the expenses incurred by the plan or trust in connection with the transaction, the cost of the asset, the current value of the asset, and the net gain (or loss) on each transaction; in the format set forth below:

a. Identity of party involved	b. Relationship to plan, employer or other party-in-interest	c. Description of transactions including maturity date, rate of interest, collateral, par or maturity value	d. Purchase price	e. Selling price	f. Lease rental	g. Expenses incurred in connection with transaction	h. Cost of asset	i. Current value of asset	j. Net gain or (loss) on each transaction

(3) *Obligations in default.* A schedule of all loans or fixed income obligations which were in default as of the close of the plan or trust fiscal year or were classified during the year as uncollectable, and the following information with respect to each loan on such schedule (including a notation as to whether parties involved are known to be parties in interest): the original principal amount of the loan, the amount of principal and interest received during the reporting year, the unpaid balance, the identity and address of the obligor, a detailed description of the loan (including date of making and maturity, interest rate, the type and value of collateral, and other material terms), the amount of principal and interest overdue (if any) and an explanation thereof; in the format set forth below:

a.	b. Identity of party involved	c. Original amount of loan	Amount received during reporting year		f. Unpaid balance at end of year	g. Detailed description of loan including dates of making and maturity, interest rate, the type and value of collateral, any renegotiation of the loan and the terms of the renegotiation and other material terms	Amount overdue	
			d. Principal	e. Interest			h. Principal	i. Interest

(4) *Leases in default.* A schedule of all leases which were in default or were classified during the year as uncollectable and the following information with respect to each lease on such schedule (including a notation as to whether parties involved are known to be parties in interest): The type of property leased and, in the case of fixed assets such as land, buildings, leasehold, and so forth, the location of the property, the identity of the lessor or lessee from or to whom the plan is leasing, the relationship of such lessors and lessees (if any) to the trust, the employer, employee organization, or any other party in interest, the terms of the lease regarding rent, taxes, insurance, repair, expenses, and renewal options, the date the leased property was purchased and its cost, the date the property was leased and its approximate value at such date, the gross rental receipts during the reporting period, expenses paid for the leased property during the reporting period, the net receipts from the lease, the amount in arrears, and a statement as to what steps have been taken to collect amounts due or otherwise remedy the default; in the format set forth below:

a.	b. Identity of lessor/lessee	c. Relationship to plan, employer, employee organization or other party-in-interest	d. Terms and description (type of property, location and date it was purchased, terms regarding rent, taxes, insurance, repairs, expenses, renewal options, date property was leased)	e. Original cost	f. Current value at time of lease	g. Gross rental receipts during the plan year	h. Expenses paid during the plan year	i. Net receipts	j. Amount in arrears

(5) *Reportable transactions.* A schedule of any reportable transactions as defined in § 2520.103–6, in the format set forth below:

a. Identity of party involved	b. Description of asset (include interest rate and maturity in case of a loan)	c. Purchase price	d. Selling price	e. Lease rental	f. Expense incurred with transaction	g. Cost of asset	h. Current value of asset	i. Net gain or (loss)

Subpart D

§ 2520.104–41 Simplified annual reporting requirements for plans with fewer than 100 participants.

(a) *General.* (1) Under the authority of section 104(a)(2)(A), the Secretary of Labor may prescribe simplified annual reporting for employee pension benefit plans with fewer than 100 participants.

(2) Under the authority of section 104(a)(3), the Secretary of Labor may provide a limited exemption for any employee welfare benefit plan with respect to certain annual reporting requirements.

(b) *Application.* The administrator of an employee pension or welfare benefit plan which covers fewer than 100 participants at the beginning of the plan year and is required to file an annual report under section 104(a)(1)(A) of the Act and § 2520.104a–5 shall file the simplified annual report described in paragraph (c) of this section.

(c) *Contents.* (1) The administrator of an employee benefit plan which covers fewer than 100 participants none of whom is an owner-employee, as defined in section 401(c)(3) of the Internal Revenue Code of 1954, shall file a Form 5500–C "Annual Return/Report of Employee Benefit Plan (with fewer than 100 participants, none of whom is an owner employee)" in the manner prescribed in § 2520.104a–5.

(2) The administrator of an employee pension Keogh plan which covers fewer than 100 participants, at least one of whom is an owner-employee, as defined in section 401(c)(3) of the Internal Revenue Code of 1954, shall file a Form 5500–K "Annual Return/Report of Employee Pension Benefit Plan for Sole Proprietorships and Partnerships (with fewer than 100 participants one of whom is an owner-employee)" in the manner prescribed in § 2520.104a–5.

§ 2520.104–42 Waiver of certain actuarial information in the annual report.

(a) *Scope and application.* Under the authority of 104(a)(2)(A) of the Act, the Secretary of Labor may waive the requirement that the annual report include as part of the actuarial statement (Schedule B) the present value of all of the plan's liabilities for nonforfeitable pension benefits allocated by the termination priority categories, as set forth in section 4044 of Title IV of the Act, and the actuarial assumptions used in these computations. In accordance with this authoirity, the plan administrator of any employee pension benefit plan required under sections 103(c)(5) and 103(d) of the Act to include actuarial information as part of the annual report is not required to include a statement of the present value of all of the plan's liabilities for nonforfeitable pension benefits allocated by termination priority categories, as set forth in section 4044 of Title IV of the Act, and the actuarial assumptions used in these computations.

(b) *Limitation.* This section applies only to the annual report required to be filed for plan years beginning in 1975.

V 41 150 AUG 3 76 UMI

§ 2520.104–43 Exemption from annual reporting requirement for certain group insurance arrangements.

(a) *General.* Under the authority of section 104(a)(3) of the Act, the administrator of an employee welfare benefit plan which meets the requirements of paragraph (b) of this section is not required to file an annual report with the Secretary of Labor as required by section 104(a)(1)(A) of the Act.

(b) *Application.* (1) This exemption applies only to a welfare plan for a plan year in which (i) such plan meets the requirements of § 2520.104–21, except the requirement that the plan have fewer than 100 participants, and (ii) an annual report containing the items set forth in § 2520.103–2 has been filed with the Secretary of Labor in accordance with § 2520.104a–6 by the trust or other entity which is the legal owner of the insurance contracts by which plan benefits are provided and the conduit for payment of premiums for such policies.

(2) For purposes of this section, the term "trust or other entity" shall be used in place of the term "plan" or "plan administrator" as applicable, in §§ 2520.103–3, 2520.103–4, 2520.103–6, 2520.103–7(b)(1), 2520.103–8, 2520.103–9, 2520.103–10, and 2520.104–45.

(c) *Limitation.* This provision does not exempt the administrator of an employee benefit plan which meets the requirements of paragraph (b) from furnishing a copy of a summary annual report to participants and beneficiaries of the plan, as required by section 104(b)(3) of the Act.

§ 2520.104–44 Limited exemption and alternative method of compliance for annual reporting by unfunded and insured plans.

(a) *General.* (1) Under the authority of section 104(a)(3) of the Act, the Secretary of Labor may exempt an employee welfare benefit plan from any or all of the reporting and disclosure requirements of Title I. An employee welfare benefit plan which meets the requirements of paragraph (b)(1) of this section is not required to comply with the annual reporting requirements described in paragraph (c) of this section.

(2) Under the authority of section 110 of the Act, an alternative method of compliance is prescribed for certain employee pension benefit plans subject to Part 1, Title I of the Act. An employee pension benefit plan which meets the requirements of paragraph (b)(2) of this section is not required to comply with the annual reporting requirements described in paragraph (c) of this section.

(b) *Application.* This section applies only to:

(1) An employee welfare benefit plan under the terms of which benefits are to be paid—

(i) Solely from the general assets of the employer or employee organization maintaining the plan,

(ii) The benefits of which are provided exclusively through insurance contracts or policies issued by an insurance company or similar organization which is qualified to do business in any State, the premiums for which are paid directly by the employer or employee organization from its general assets or partly from its general assets and partly from contributions by its employees or members, provided that any plan assets held by the insurance company are held solely in the general account of such company, contributions by participants are forwarded by the employer or employee organization within three months of receipt and, in the case of a plan that provides for the return of refunds to contributing participants, such refunds are returned to them within three months of receipt by the employer or employee organization, or

(iii) Partly in the manner specified in (b)(1)(i) and partly in the manner specified in (b)(1)(ii) of this section; and

(2) A pension benefit plan the benefits of which are provided exclusively through insurance contracts or policies issued by an insurance company or similar organization which is qualified to do business in any State, the premiums for which are paid directly by the employer or employee organization from its general assets or partly from its general assets and partly from contributions by its employees or members, provided that any plan assets held by the insurance company are held solely in the general account of such company, contributions by participants are forwarded by the employer or employee organization within three months of receipt and, in the case of a plan that provides for the return or refunds to contributing participants, such refunds are returned to them within three months of receipt by the employer or employee organization.

(c) *Contents.* An employee benefit plan described in paragraph (b) of this section is exempt from complying with the following annual reporting requirements:

(1) Competing items 13, 14, and 24 of Form 5500 in the case of a plan required to file Form 5500 pursuant to § 2520.104a–5; items 13, 14, and 16 in the case of a plan required to file Form 5500–C in accordance with § 2520.104–41, or items 12 and 14 in the case of a plan required to file Form 5500–K in accordance with § 2520.104–41;

(2) Including in the annual report the financial statements and schedules described in section 103(b) of the Act and § 2520.103–1 or § 2520.103–2;

(3) Engaging an independent qualified public accountant pursuant to section 103(a)(3)(A) of the Act and § 2520.103–1(b) to conduct an examination of the financial statements and schedules of the plan; and

(4) Including in the annual report a report of an independent qualified public accountant concerning the financial statements and schedules required to be a part of the annual report pursuant to section 103(b) of the Act and § 2520.103–1(b).

(d) *Limitation.* This section does not exempt any plan from filing an annual report form with the Secretary in accordance with section 104(a)(1)(A) of the Act and § 2520.104a–5.

(e) *Example.* An insured welfare plan which meets all the requirements for coverage under § 2520.104–20 except that it covers 100 or more participants is not exempt from the annual reporting requirements under § 2520.104–20. Under this section, such a welfare plan should file Form 5500, including Schedule A "Insurance Information." However, the plan is not required to engage an independent qualified public accountant and items 13, 14, and 24 of Form 5500 need not be completed.

§ 2520.104–45 Temporary exemption from reporting insurance fees and commissions for insured plans with fewer than 100 participants.

(a) *General.* (1) Under the authority of section 104(a)(3) of the Act, the Secretary of Labor may exempt an employee welfare benefit plan from any or all of the reporting and disclosure requirements of Title I. The administrator of an employee welfare benefit plan which meets the requirements of paragraph (b) is exempt from complying with the annual reporting requirements described in paragraph (c) of this section.

(2) Under the authority of section 110 of the Act, the Secretary of Labor may prescribe an alternative method of compliance for employee pension benefit plans subject to Part 1, Title I, of the Act. The administrator of an employee pension benefit plan which meets the requirements of paragraph (b) of this section is not required to comply with the annual reporting requirements described in paragraph (c) of this section.

(b) *Application.* (1) The provisions of this section apply only to welfare and pension plans which cover fewer than 100 participants at the beginning of the plan year and which provide benefits in whole or in part through insurance contracts or policies issued by an insurance company or similar organization which is qualified to do business in any State.

(c) *Contents.* A plan which meets the requirements of paragraph (b) of this section is not required to include in the annual report filed in accordance with section 104(a)(1)(A) of the Act and § 2520.104a–5 or § 2520.104a–6 the following information described under sections 103 (c) and (e) of the Act:

(1) The name and address of any insurance agent, broker or other person to whom insurance commissions, salaries or fees are paid;

(2) The amount paid to each; and

(3) The purpose for which such payment is made.

(d) *Limitation.* The provisions of this section apply only to the annual report required to be filed for the plan year beginning in 1975.

§ 2520.104–46 Waiver of examination and report of an independent qualified public accountant for employee benefit plans with fewer than 100 participants.

(a) *General.* (1) Under the authority of section 103(a)(3)(A) of the Act, the Secretary may waive the requirements of section 103(a)(3)(A) in the case of a plan for which simplified annual reporting has been prescribed in accordance with section 104(a)(2) of the Act.

(2) Under the authority of section 104(a)(3) of the Act the Secretary may exempt any employee welfare benefit plan from certain annual reporting requirements.

(b) *Application.* (1) The administrator of an employee pension plan for which simplified annual reporting has been prescribed in accordance with section 104(a)(2)(A) of the Act and § 2520.104–41 is not required to comply with the annual reporting requirements described in paragraph (c).

(2) The administrator of an employee welfare benefit plan that covers fewer than 100 participants at the beginning of the plan year is not required to comply with annual reporting requirements described in paragraph (c).

(c) *Waiver.* The administrator of a plan described in paragraph (b) (1) or (2) of this section is not required to:

(1) Engage an independent qualified public accountant to conduct an examination of the financial statements of the plan;

(2) Include within the annual report the financial statements and schedules prescribed in section 103(b) of the Act and §§ 2520.103–1, 2520.103–2, and 2520.103–10 and

(3) Include within the annual report a report of an independent qualified public accountant as prescribed in section 103(a)(3)(A) of the Act and § 2520.103–1.

(d) *Limitation.* The waiver described in this section does not affect the obligation of a plan described in paragraph (b) (1) or (2) of this section to file a Form 5500 –C or –K and all schedules called for therein. See § 2520.104–41.

Subpart E

§ 2520.104a–5 Annual report filing requirements.

(a) *Filing obligation.* Except as provided in § 2520.104a–6, the administrator of an employee benefit plan required to file an annual report pursuant to section 104(a)(1)(A) of the Act shall file an annual report containing the items prescribed in § 2520.103–1 within:

(1) Eleven and one half months after the close of the fiscal year of the trust or other entity described in § 2520.104–43(b) that files an annual report in accordance with the terms of paragraphs (b) and (c) of this section shall be deemed to have filed such report in accordance with § 2520.104a–6 for purposes of § 2520.104–43.

(b) *Date of filing.* The annual report shall be filed within:

(1) Eleven and one half months after the close of the fiscal year of the trust or other entity described in § 2520.104–43 which begins in 1975 or December 15, 1976, whichever is later; and

(2) Seven months after the close of any trust year which begins after December 31, 1975.

(c) *Filing address.* The annual report prescribed in § 2520.103–2 shall be filed with the Secretary of Labor by mailing it to OEBS Annual Report, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, or by delivering it during normal working hours to Room N–4635, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C.

Subpart F

§ 2520.104b–10 Summary annual report.

(a) *Obligation to furnish.* Under the authority of sections 104(a)(3) and 110 of the Act, the administrator of an employee benefit plan subject to Part 1, Title I of the Act shall furnish a summary annual report containing the information prescribed in paragraph (c) of this section to plan participants and beneficiaries within 9 months after the close of the plan year or the date prescribed in paragraph (b), in accordance with § 2520.104b–1.

(b) *Deferral of initial disclosure requirements.* (1) Under the authority of section 104(a)(3) of the Act, the Administrator of an employee welfare benefit plan required to furnish a summary annual report for the plan year beginning in 1975 to plan participants and beneficiaries may defer compliance with the requirement to furnish a summary annual report in accordance with section 104(b)(3) of the Act within 13½ months after the close of the plan year which begins in 1975 or February 15, 1977, whichever is later.

(2) Under the authority of section 110 of the Act, an alternative method of compliance is prescribed for employee pension benefit plans required to furnish a summary annual report for the plan year beginning in 1975 to plan participants and beneficiaries. Such a pension plan may defer compliance with the requirement to furnish a summary annual report in accordance with section 104(b)(3) of the Act within 13½ months after the close of the plan year which begins in 1975 or February 15, 1977, whichever is later.

(c) *Contents.* Except as provided in paragraph (d) of this section and § 2520.104b–11, the summary annual report furnished to participants and beneficiaries shall contain the items listed below. Statements, schedules, and other items of information included in these items which are a part of the annual report form and attachments required to be filed with the Secretary of Labor in accordance with §§ 2520.104a–5 and 2520.103–1 shall be reproduced accurately and in full. The summary annual report shall include:

(1) *Requirements for plans filing Form 5500.* (i) The name of the plan and, if different, the name by which the plan is commonly known to its participants and beneficiaries;

(ii) (A) The name and address of any employer having employees covered by the plan, (B) the name and address of any labor organization maintaining the plan, or (C) in the case of a plan established or maintained by two or more employers or by one or more employers and one or more employee organizations, the name and address of the association, committee, joint board of trustees, parent, or most significant employer of a group of employers contributing to the same plan;

(iii) The name, business address, and business telephone number of the plan administrator; and

(iv) The items prescribed in section 104(b)(3) of the Act; or

(v) For a plan which elects the limited exemption or alternative method of compliance described in § 2520.103–1(b):

(A) The financial statements and accompanying notes prescribed under § 2520.103–1(b), except that a plan which does not list assets and liabilities at the beginning of the year at current value, as permitted by § 2520.103–7(c)(1), shall not include the beginning-of-the-year value of assets and liabilities of the plan as prescribed in § 2520.103–1(b)(2)(i), and

(B) A notice which reads as follows: "Plan participants and beneficiaries may obtain copies of the following more detailed annual report information for a reasonable charge, or inspect it without charge: The latest full annual report, or any of parts of the report including a list of any assets held for investment; a list of certain party-in-interest transactions, a list of any loans or obligations in default; a list of any leases in default; and a list of transactions involving more than 3 percent of plan assets. To obtain a copy of any documents listed, write to the administrator asking for what you want. The administrator will state the charge for specific documents on request, so that you can find out the cost before ordering. All the documents listed can be examined at [state locations where documents may be examined]."

(2) *Requirements for plans filing Form 5500–C.* Under the authority of sections 104(a)(3) and 110 of the Act, a plan filing Form 5500–C, as prescribed in § 2520.104–41, shall include the following items in the summary annual report:

V 41 I 150 AUG 3 76 UMI

(i) A copy of Form 5500–C, except that a plan which does not list assets and liabilities at the beginning of the year at current value, as permitted by § 2520.103–7(c)(2), shall not include the value of assets and liabilities of the plan as prescribed in item 13 of Form 5500–C; and

(ii) A notice which reads as follows: "Plan participants and beneficiaries may obtain copies of the following more detailed annual report information for a reasonable charge or inspect without charge: the latest, full annual report, including a list of certain party-in-interest transactions. To obtain a copy of any documents listed, write to the administrator asking for exactly what you want. The administrator will state the charge for specific documents on request, so that you can find out the cost before ordering. All documents listed can be examined at [state locations where documents may be examined]."

(3) *Requirements for plans filing Form 5500–K.* Under the authority of section 110 of the Act, a pension plan filing Form 5500–K, as prescribed in § 2520.104–41, shall include the following items in the summary annual report:

(i) A copy of Form 5500–K, except that a plan which does not state net assets at current value at the beginning of the plan year, as permitted by § 2520.103–7(c)(2), shall not include an amount for net assets at the beginning of the plan year in item 12 of Form 5500–K and

(ii) A notice which reads as follows: "Plan participants and beneficiaries may obtain copies of the following more detailed annual report information for a reasonable charge or inspect without charge: the latest full annual report, including a list of certain party-in-interest transactions. To obtain a copy of any documents listed, write to the administrator asking for what you want. The administrator will state the charge for specific documents on request, so that you can find out the cost before ordering. All the documents listed can be examined at [state locations where documents may be examined]."

(4) *Additional requirements for insured plans described in paragraphs (1), (2), or (3).* (i) In the case of a pension plan funded in part or in whole through insurance contracts, the summary annual report shall also include items 5, 6, and 7 of Schedule A (Insurance Information) of the Annual Return/Report Form.

(ii) In the case of a welfare plan funded in part or in whole through an insurance contract, the summary annual report shall also include items 9 and 10 of Schedule A (Insurance Information) of Annual Return/Report Form.

(5) *Unfunded plans.* Under the authority of sections 104(a)(3) and 110 of the Act, a totally unfunded plan described in § 2520.104–44 is exempt from the requirement to furnish a summary annual report under section 104(b)(3) of the Act.

(d) *Style and format.* (1) The plan administrator may add explanatory text and other relevant information to the list of items described in paragraph (c) of this section. However, the format of the summary annual report shall not have the effect of misleading, misinforming, or failing to inform participants and beneficiaries of the plan. For example, a summary annual report which prominently displays information other than that prescribed in paragraph (c) of this section and prints the information prescribed in paragraph (c) of this section in small, inconspicuous print will not satisfy the requirements of this section. Any additional or explanatory information shall be written in a manner calculated to be understood by the average plan participant, taking into account factors such as the level of comprehension and education of typical participants in the plan and the complexity of the items required under this section to be included in the summary annual report. Inaccurate or misleading explanatory material will fail to meet the requirements of this section.

(2) Foreign languages. In the case of either—

(i) A plan which covers fewer than 100 participants at the beginning of a plan year in which 25 percent or more of all plan participants are literate only in the same non-English language, or

(ii) A plan which covers 100 or more participants in which 500 or more participants or 10 percent or more of all plan participants, whichever is less, are literate only in the same non-English language, so that a summary annual report in English would fail to inform these participants of the financial status of the plan the plan administrator for such plan shall provide these participants with an English-language summary annual report which prominently displays a notice, in the non-English language common to these participants, offering them assistance. The assistance provided need not involve written materials, but shall be given in the non-English language common to these participants. The notice offering assistance shall clearly set forth the procedures participants must follow to obtain such assistance.

§ 2520.104b–11 Summary annual report for plans which are part of a group insurance arrangement.

(a) *Obligation to furnish.* In accordance with section 104(b)(3) of the Act, the administrator of an employee welfare benefit plan which is part of a group insurance arrangement described in § 2520.104–43 shall furnish a summary annual report containing the information prescribed in paragraph (b) of this section for fiscal years beginning after December 31, 1974 in accordance with the requirements of § 2520.104b–1 within nine months after the close of the fiscal year of the trust or other entity which is filing the annual report with the Secretary pursuant to § 2520.104a–6, except that for fiscal years beginning in 1975, the administrator shall furnish the summary annual report within thirteen and one half months after the close of the fiscal year or February 15, 1977, whichever is later.

(b) *Contents.* The summary annual report furnished to participants and beneficiaries in accordance with paragraph (a) of this section shall include:

(1) The name of the plan and, if different, the name by which the plan is commonly known to its participants and beneficiaries;

(2)(i) The name and address of any employer having employees covered by the plan, (ii) the name and address of any labor organization maintaining the plan, or (iii) in the case of a plan established or maintained by two or more employers or by one or more employers and one or more employee organizations, the name and address of the association, committee, joint board of trustees, parent, or most significant employer of a group of employers contributing to the same plan;

(3) The name, business address, and business telephone number of the plan administrator; and

(4) The financial statements and accompanying notes prescribed under § 2520.103–2(b). A trust which does not list assets and liabilities at current value at the beginning of the year, as permitted by § 2520.103–7(c)(1), shall not include the value of assets and liabilities of the trust as prescribed in the first column of item 13 of Form 5500.

(5) A notice which reads as follows: "Plan participants and beneficiaries may obtain copies of the following more detailed annual report information for a reasonable charge, or inspect it without charge: The latest full annual report, or any of parts of the report including a list of any assets held for investment; a list of certain party-in-interest transactions; a list of any loans or obligations in default; a list of any leases in default; and a list of transactions involving more than 3% of trust assets. To obtain a copy of any documents listed, write to the administrator asking for what you want. The administrator will state the charge for specific documents on request, so that you can find out the cost before ordering. All the documents listed can be examined at [state locations where documents may be examined]."

(c) *Style and format.* See § 2520.104b–10(h).

Signed at Washington, D.C., this 29th day of July, 1976.

JAMES D. HUTCHINSON,
Administrator of Pension and Welfare Benefit Plans.

PART III:

SECURITIES AND EXCHANGE COMMISSION

FORMS FOR REGISTRATION STATEMENTS

Proposed Amendments and Rescission

V 41 I 150 AUG 3 76 UMI

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 239]

[Release Nos. 33-5728 and 34-12654; File No. S7-646]

FORMS FOR REGISTRATION STATEMENTS

Proposed Amendments and Rescission

The Securities and Exchange Commission today published for comment proposed amendments to Form S-7 (17 CFR 239.26) and Form S-16 (17 CFR 239.27), which would make these forms available to a larger number of issuers, and a proposal to rescind Form S-9 (17 CFR 239.22), under the Securities Act of 1933 ("Securities Act") (15 U.S.C. 77a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)). The proposed amendments to Form S-7 also would expand the availability of that form to issuers presently registering securities on Form S-9, making the latter form unnecessary.

This release contains a general discussion of the background, purpose and effect of the proposed amendments and a brief description of certain significant aspects of the proposals. Attention is directed to the attached text of the proposals for a more complete understanding.

BACKGROUND AND PURPOSE

In Securities Act Release No. 5613 (September 11, 1975) (40 FR 44584), the Commission published for comment proposed amendments to Form S-7 which would substantially relax the conditions to use of that form, as well as Form S-16.[1] At that time, the Commission announced that Forms S-7 and S-16 would be available to issuers which met the then-proposed amended conditions to use of the forms while the proposals were pending. Comments received on those proposals, as well as experience with the use of Forms S-7 and S-16 pursuant to the proposed amendments, have been favorable. Accordingly, the Commission is republishing those proposals for comment, together with additional proposals which would further relax the conditions to use of Forms S-7 and S-16, thus making these short registration forms available to a larger number of issuers and making Form S-7 available for the registration of securities to be offered in exchange for other securities, as well as for cash. In developing the present proposals, the Commission has carefully considered the comments received on the earlier proposals.

Issuers eligible to use Forms S-7 and S-16 for the registration of securities are permitted to omit from the Form S-7 prospectus, or to incorporate by reference in the Form S-16 prospectus, substantial information already provided to security holders or available to investors in reports filed with the Commission pursuant to the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a et seq., as amended by Pub. L. No. 94-29 (June 4, 1975)). As a result, a Form S-7 or S-16 prospectus generally is much simpler and shorter than one prepared pursuant to other available forms and the burden and expense to registrants of preparing the registration statement is reduced.

The present proposals would make Forms S-7 and S-16 available to a larger number of those issuers which are subject to the reporting requirements of the Exchange Act, thus reflecting recent improvements in the nature and extent of the information required to be included in reports filed with the Commission and provided to security holders under the proxy requirements of that Act and the increased availability of such information to the investing public.

The Commission also proposes, if the amendments to Form S-7 are adopted substantially as proposed, to rescind Form S-9, a form presently available for registration under the Securities Act of non-convertible, fixed interest debt securities by issuers subject to the reporting requirements of section 13 or 15(d) of the Exchange Act and which meet certain other conditions. In recent years, Form S-9 has been used by a continually decreasing number of issuers, and a survey of registration statements on Form S-9 filed during the past three years indicates that almost all issuers who have used the form during this period would be eligible to use Form S-7, as proposed to be amended, for the registration of debt securities.

These proposals are a part of the Commission's continuing efforts to further integrate the corporate disclosure requirements under the federal securities laws by permitting information provided to investors pursuant to the continuous disclosure requirements of the Exchange Act, to be relied upon in lieu of disclosures which otherwise would be required in registration statements under the Securities Act.

PROPOSAL TO MODIFY REQUIREMENT THAT ISSUER HAVE A CLASS OF SECURITIES REGISTERED UNDER SECTIONS 12(b) OR 12(g) OF THE EXCHANGE ACT

The Rule as to Use of Form S-7 presently requires that an issuer have a class of equity securities registered pursuant to section 12(b) of the Exchange Act or be a domestic issuer with a class of equity securities registered pursuant to section 12(g) of that Act. The amendments proposed today would make the form available to any issuer with a class of securities (debt or equity) registered pursuant to section 12(b) of the Exchange Act, as well as to any domestic issuer with a class of equity securities registered under section 12(g) of that Act.[2] This proposed amendment is intended to reflect the fact that through reports filed with the Commission pursuant to section 13 of the Exchange Act the information available to the investing public concerning issuers with a class of debt securities listed on a national securities exchange is substantially similiar to the information available concerning issuers with a class of equity securities listed on an exchange.[3]

PROPOSAL TO MODIFY REQUIREMENT RELATING TO COMPLIANCE WITH SECTIONS 13 AND 14 OF THE EXCHANGE ACT

In order to meet the present conditions to use of Forms S-7 and S-16, an issuer must have complied in all respects, including timeliness, with the requirements of sections 13 and 14 of the Exchange Act for three fiscal years prior to the filing of the registration statement.

The amendments proposed today would modify this provision to require that the issuer have been subject to Sections 13 and 14 of that Act and have filed all reports required thereunder for at least three calendar years prior to the filing of the registration statement. This proposal would make Forms S-7 and S-16 available to a wider range of issuers and, at the same time, should assure that sufficient information about issuers using the forms is available to the investing public through the Exchange Act reporting system.

In addition, the period during which all such reports must have been timely filed would be reduced from three fiscal years to twelve calendar months.[4] This is intended to reduce the hardship (that is, the loss of the right to use Forms S-7 and S-16 for a period of time) which may result from an issuer's failure to meet the timeliness requirement and, at the same time, to provide sufficient incentive to issuers to timely file all required reports. Generally, the staff will strictly enforce this condition to use of Forms S-7 and S-16, since the timely filing of required reports under the Exchange Act is essential to maintain the availability to the public of current and adequate information concerning registrants.[5]

PROPOSAL TO ELIMINATE CONTINUITY OF MANAGEMENT REQUIREMENT

The Commission proposes to eliminate as a condition to the use of Form S-7 or S-16 the requirement that a majority of the existing board of directors of the issuer has held that office for the last three fiscal years.

In recent years, the staff has received and granted numerous requests for waivers of this condition in circumstances where issuers have been unable to meet this requirement because, for example, of recent increases in the size of the board of directors or because of turnover on the board due to the death or retirement of directors. In light of this experience, the Commission believes that the requirement is unnecessarily restrictive and that issuers should not be precluded from using Form S-7 or S-16 simply because there has been a change in the majority of the board of directors.

Nevertheless, where there has been a recent change in control of the issuer within the meaning of Securities Act Rule 405(f) (17 CFR 230.405(f)), the Commission believes that current information concerning the issuer's management and the principal holders of its securities, including their remuneration and interests in transactions with the issuer, may not be publicly available and should be included in the Form S-7 or S-16 prospectus. Accordingly, as described below, the Commission also is proposing to add a new Item 10 to Form S-7 and to amend Item 9 of Form S-16 to require disclosure of such information where there has been a change of control.

PROPOSAL TO MODIFY REQUIREMENT RELATING TO DEFAULTS

The proposals published for comment today would reduce from ten years to three years the period during which the issuer and its subsidiaries may not have defaulted in the payment of any dividend or sinking fund installment on preferred stock, or in the payment of any principal, interest or sinking fund installment on any indebtedness or borrowed money, or in the payment of rentals under long term leases, as a condition to use of these forms. In addition, the Rule as to Use of Form S-7 would be amended to make clear that this condition relates to defaults on any indebtedness, whether for borrowed money or for any other purpose.[6] It also should be noted that the term "default" as used herein has been, and will continue to be, interpreted to include the failure to pay a dividend on preferred stock. Such a "default" cannot be remedied for purposes of this requirement by a subsequent payment of the missed dividend.

PROPOSAL TO MODIFY MINIMUM EARNINGS REQUIREMENT

The present Rule as to Use of Form S-7 requires that the issuer and its subsidiaries have had a net income, after taxes but before extraordinary items, of at least $500,000 for each of the last five fiscal years. The amendments proposed today would reduce the minimum earnings required to $250,000 for three of the last four fiscal years, including the most recent fiscal year.[7] In response to public comments received concerning the September, 1975 proposal to amend Form S-7, the amendments provide that the cumulative effect of a change in accounting principle shall be excluded in determining net income.

PROPOSAL TO ELIMINATE REQUIREMENT RELATING TO EARNED DIVIDENDS

The Rule as to Use of Form S-7 presently requires that if the securities to be registered are common stock or are convertible into common stock, the registrant shall have earned, in each of the 1st five fiscal years, any dividends paid in such years. The Commission is proposing to eliminate this requirement as a condition to the use of Forms S-7 and S-16.[8]

The above-outlined proposals would increase the number of issuers eligible to use Forms S-7 and S-16. The Commission believes that it is appropriate in the public interest and for the protection of investors to expand the availability of these forms, which are shorter and less expensive to use than other forms for the registration of securities under the Securities Act, to more of those issuers which are providing current and adequate information to investors through the continuous disclosure system under the Exchange Act.

PROPOSAL TO PERMIT THE USE OF FORMS S-7 AND S-16 BY A SUCCESSOR TO AN INSURER

The amendments proposed today would provide that an issuer shall be deemed to have met the conditions to use of Forms S-7 and S-16 relating to Exchange Act reports, defaults and net income if its predecessor and it, taken together, do so and if (1) the succession was primarily for the purpose of changing the state of incorporation of the predecessor or forming a holding company and (2) the assets and liabilities of the successor at the time of succession were substantially the same as those of the predecessor. This proposal would codify existing staff interpretative positions.

PROPOSAL TO MAKE FORM S-7 AVAILABLE FOR USE IN CONNECTION WITH EXCHANGE OFFERS

Presently, Form S-7 may be used only to register securities to be offered for cash. The Commission is proposing, however, to make the form available for the registration of securities to be offered in exchange for other securities of the issuer or securities of any other person.[9] A new Instruction G is proposed to be added to Form S-7 which would require additional information to be included in the prospectus covering securities of the issuer to be offered in exchange for securities of any other person. This additional information would relate to the management of the issuer and its principal security holders, their transactions with the issuer, their interest in the other person, and the issuer's interest in such other person. Public comments are specifically requested with respect to the necessity and materiality of such additional disclosure.

Proposed new Instruction G also would require that the prospectus include information concerning the person whose securities are the subject of the exchange offer identical to that required by Items 6 to 10 and 12 to 15 of Form S-1 (17 CFR 239.11), except in cases where such other person also is eligible to use Form S-7. If such other person is eligible to use Form S-7, the prospectus would include the information concerning it called for by Items 5 to 10 and 12 of Form S-7.

In addition, proposed new Instruction G refers to Item 11(d) of Form S-7, which requires financial statements concerning the other person identical to those which would be required in a regis-

---

[1] The Rule as to Use of Form S-16 provides that the form is available for registration under the Securities Act of certain securities of issuers which meet the requirements for the use of Fom S-7 at the time the registration statement is filed. Thus, the present proposals to amend the Rule as to Use of Form S-7 automatically would amend the Rule as to Use of Form S-16. See General Instruction A to Form S-16 (17 CFR 239.27 (a)).

[2] It should be noted that issuers who wish to do so may voluntarily register any class of equity security pursuant to section 12(g)(1) of the Exchange Act by filing an appropriate registration statement pursuant to the provisions of that section.

[3] This is particularly so in light of the information concerning the management and principal shareholders of an issuer required to be included in Part II of reports on Form 10-K [17 CFR 249.310] which have not filed proxy or information statements pursuant to Regulation 14A [17 CFR 240.14a-1 to 240.-14a-103] or 14C. [17 CFR 240.14c-1 to 240.-14c-101].

[4] A report filed within the time granted pursuant to a request for an extension of time under Exchange Act Rule 12b-25 [17 CFR 240.12b-25] shall be considered timely filed.

[5] In this connection, the Commission wishes to remind issuers that Exchange Act Rule 0-3 [17 CFR 240.0-3] provides that the "date on which papers are actually received by the Commission shall be the date of filing • • •" The Commission recognizes, however, that, on rare occasions, a document sent to the Commission in a timely fashion may arrive shortly after the required filing date because of circumstances beyond the control of the issuer. In such cases, the staff may, in its discretion, grant an exception to this requirement where to do so is consistent with the public interest and the protection of investors. Cf., Securities Act Rule 401 [17 CFR 230.401].

[6] This proposal was previously published for comment in Securities Act Release No. 5613 (September 11, 1975) (40 FR 44584).

[7] In Securities Act Release No. 5613 (September 11, 1975) (40 FR 44584), the Commission proposed to reduce the net income requirement to $250,000 for each of the last three fiscal years.

[8] Elimination of this requirement was previously proposed in Securities Act Release No. 5613 (September 11, 1975) (40 FR 44584).

[9] This proposal would implement one of the recommendations of the Commission's Industrial Issuers Advisory Committee. See "Report of the Industrial Issuers Advisory Committee to the Securities and Exchange Commission" 19-20 (1972).

V 41 150 AUG 3 76 UMI

tration statement on Form S–1. However, if such other person also meets the conditions as to use of Form S–7, only those financial statements called for by Form S–7 would be required for such other person. Language presently contained in the Instructions as to Financial Statements of Form S–1 relating to future successions to other businesses is proposed to be added to Items 11(d) (2) and (3) of Form S–7 since the latter would be available for use in exchange offers under the present proposals.

PROPOSED AMENDMENTS TO DISCLOSURE REQUIREMENTS OF FORMS S–7 AND S–16

PROPOSED AMENDMENT TO ITEM 5 (BUSINESS) OF FORM S–7

Item 5(b) of Form S–7 presently calls for disclosure of information concerning lines of business of the registrant or classes of similar products or services of the registrant for each of the past five fiscal years. In light of the amendments to the Rule as to Use of Form S–7 proposed today, certain issuers eligible to use the form may not have been engaged in business for that period of time. Accordingly, the Commission proposes to amend Item 5(b) to require disclosure of such information for the last five fiscal years or for each fiscal year the registrant and its predecessors have been engaged in business, whichever is less.

PROPOSED AMENDMENT TO ITEM 6 (STATEMENTS OF INCOME) OF FORM S–7

Item 6 of Form S–7 presently calls for audited income statements of the registrant for each of the last five fiscal years. The Commission proposes to amend Item 6 and Instruction 1 to that item to require income statements for each of the last five fiscal years, or for each year the registrant and its predecessors have been in existence, whichever is less, and to require audited income statements only for the three most recent fiscal years and for any subsequent interim period for which an audited balance sheet is included in the prospectus. This proposal would conform the Form S–7 requirements for audited income statements to the requirements of Form S–1.

PROPOSED NEW ITEM 10 (MANAGEMENT AND OTHERS) OF FORM S–7 PROPOSAL TO AMEND ITEM 9 (ADDITIONAL INFORMATION) OF FORM S–16

As was discussed above, the Commission is proposing to eliminate the present continuity of management condition to use of Form S–7 and Form S–16 and to require instead that additional information concerning management of the registrant and its principal security holders be included in the prospectus in the event of a recent change in control of the registrant.

Accordingly, if there has been a change in control of the registrant within the past three years, proposed new Item 10 of Form S–7 would require that the information called for by Items 16 to 20 of Form S–1 be included in the S–7 prospectus. Items 16 to 20 of Form S–1 call for information concerning the registrant's directors and executive officers and their remuneration and options to purchase securities; principal holders of the registrant's securities; and the interest of management and others in certain transactions with the registrant.

Proposed Item 9(b) of Form S–16 would require similar disclosure if the change of control has not been "previously reported," as defined in Exchange Act Rule 12b–2 (17 CFR 240.12b–2).

To reflect these changes, present Items 10 and 11 of Form S–7 would be renumbered as Items 11 and 12, respectively, and present Item 9(b) of Form S–16 would be renumbered as Item 9(c). Also, it is proposed to indicate in renumbered Item 12(b) of Form S–7 and Item 9(c) of Form S–16 that reports, proxy statements and other information filed by the registrant can be inspected and copied at the Commission's Regional Offices in New York, Chicago and Los Angeles as well as at its office in Washington.

PROPOSAL TO RESCIND FORM S–9

Form S–9 is a form for the registration under the Securities Act of non-convertible, fixed interest debt securities by issuers required to file reports pursuant to Section 13 or 15(d) of the Exchange Act and which meet certain other conditions, including minimum fixed charges coverage standards. As indicated above, however, Form S–9 has been used only by a very small number of issuers in recent years, in part because recent increases in interest rates have made it difficult for many issuers to meet the minimum fixed charges coverage standards.[10]

In addition, on the basis of a survey of registration statements filed on Form S–9 during the past three years, it appears that almost all issuers eligible to use Form S–9 would be eligible to use Form S–7 as proposed to be revised. In light of the otherwise limited differences between Forms S–7 and S–9, as well as the present proposals to expand the availability of Form S–7, the Commission is proposing to rescind Form S–9 if amendments to Form S–7 substantially as proposed today are adopted.

STATUTORY AUTHORITY FOR PROPOSED AMENDMENTS

The amendments to Forms S–7 and S–16 and the rescission of Form S–9 are proposed pursuant to the Securities Act of 1933, particularly Sections 6, 7, 10 and 19(a) thereof. All interested persons are invited to submit their written views and comments on these proposals, in triplicate, to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549 on or before September 27, 1976. Such communications should refer to File No. S7–646. All such communications will be available for public inspection.

The text of the proposed amendments to Forms S–7, S–16, and S–9 follows.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 26, 1976.

PROPOSED AMENDMENTS

ATTENTION

TEXT OF PROPOSED AMENDMENTS TO FORM S–7

Form S–7 (17 CFR 239.26) is proposed to be amended to read as follows:

§ 239.26 Form S–7, for registration under the Securities Act of 1933 of securities of certain issuers [to be offered for cash].

* * * * *

GENERAL INSTRUCTIONS

A. *Rule as to Use of Form S–7.*

Any registrant which meets the following conditions may use this form for registration under the Securities Act of 1933 of any securities which are offered for cash by or on behalf of the registrant or any other person, in a rights offering or otherwise, ►or which are offered in exchange for any securities◄:

(a) The [registration meets either of the following conditions:] ►registrant◄ (1) has a class of [equity] securities registered pursuant to Section 12(b) of the Securities Exchange Act of 1934; or (2) is organized under the laws of the United States or any State or Territory or the District of Columbia, has its principal business operations in the United States or its Territories and has a class of equity securities registered pursuant to Section 12(g) of the above Act.

(b) The registrant has been subject to [and has complied in all respects, including timeliness, with] the requirements of Sections 13 and 14 of the Securities Exchange Act of 1934 ►and has filed all the reports required to be filed thereunder◄ for a period of at least three [fiscal] years immediately preceding the filing of the registration statement on this form ►and has filed in a timely manner all reports required to be filed during the twelve calendar months preceding the filing of the registration statement.◄

[(c) A majority of the existing board of directors of the registrant have been directors of the registrant or a predecessor of the registrant from the beginning of the registrant's last three fiscal years to the date of filing the registration statement on this form.]

[(d) ►(c)◄ The registrant and its subsidiaries have not during the past [ten] ►three◄ years defaulted in the payment of any dividend or sinking fund installment on preferred stock, or in the payment of any principal, interest or sinking fund installment on any indebtedness [for] ►or◄ borrowed money, or in the payment of rentals under long term leases.

[(e) ►(d)◄ The registrant and its consolidated subsidiaries had a net income, after taxes but before extraordinary items ►and cumulative effect of a change in accounting principle◄ net of tax effect, of at least [$500,000] ►$250,000◄ for [each of the last five fiscal years] ►three of the last four fiscal years, including the most recent fiscal year.◄

[(f) If the securities to be registered are common stock or securities convertible into common stock, the registrant earned in each of the last five fiscal years any dividends, including the fair market value of any stock dividends, paid in each such year on all classes of securities. If the registrant paid a stock dividend in any of such fiscal years, the aggregate amount transferred from additional capital to capital in respect of each such dividend was charged only to retained earnings account and was equal to the aggregate fair market value of the stock issued as such dividend.]

►(e) A registrant shall be deemed to have met conditions (b), (c) and (d) above if its predecessor and it, taken together, do so, provided that the succession was primarily for the purpose of changing the State of Incorporation of the predecessor or forming a holding company and that the assets and liabilities of the successor at the time of succession were substantially the same as those of the predecessor.◄

B.–F. (No change from the present General Instructions).

G. ►*Exchange Offers.*◄

►(a) If any of the securities being registered are offered in exchange for securities of any other person, the prospectus shall include the information concerning the registrant called for by Items 16 to 20, inclusive, of Form S–1 (17 CFR 239.11). Describe any substantial interest in the other person, direct or indirect, by security holdings or otherwise, held within the past three years by the registrant or by any officer, director or security holder of the registrant named in answer to Item 19(a) of Form S–1 (17 CFR 239.11).◄

►(b) Except as stated below, the prospectus shall also include the information concerning the other person which would be required by Items 6 to 10 and 12 to 15, inclusive, of Form S–1 (17 CFR 239.11) if such securities of such other person were being registered on that form. Reference is made to Item 11(d) of this form for information concerning the necessity of furnishing financial statements of such other person. In the event the other person also meets the conditions set forth in General Instruction A to this form, the prospectus may include, in lieu of the above information concerning such other person, the information which would be required by Items 5 to 10, inclusive, and Item 12 of this form if such securities of such other person were being registered on this form. In this event, Item 11(d) may be complied with by furnishing only those financial statements concerning such other person which would be required if it were registering securities on this form. In connection with this instruction, reference is made to Rules 409 (17 CFR 230.409) and 434B (17 CFR 230.434b).◄

[G.] ►H.◄ (No change from present General Instruction G).

PART I. INFORMATION REQUIRED IN PROSPECTUS

Item 1.–Item 4. (No change from present Items).

Item 5. Business.

(a) (No change from present Item 5(a)).

(b)(1) *Information as to lines of business.* If the registrant and its subsidiaries are engaged in more than one line of business, state, for each of the registrant's last five fiscal years, or for [each fiscal year ending after December 31, 1966] ►each fiscal year the registrant and its predecessors have been engaged in business◄, whichever period is less, the approximate amount or percentage of (i) total sales and revenues, and (ii) income (or loss) before income taxes and extraordinary items, attributable to each line of business which during either of the last two fiscal years accounted for—

(A) 10 percent or more of the total of sales and revenues,

(B) 10 percent or more of income before income taxes and extraordinary items computed without deduction of loss resulting from operations of any line of business, or

(C) a loss which equalled or exceeded 10 percent of the amount of income specified in (B) above: *provided*, That if total sales and revenues did not exceed $50,000,000 during either of the last two fiscal years, the percentages specified in (A), (B) and (C) above shall be 15 percent, instead of 10 percent.

If it is impracticable to state the contribution to income (or loss) before income taxes and extraordinary items for any line of business, state the contribution thereof to the results of operations most closely approaching such income, together with a brief explanation of the reasons why it is not practicable to state the contribution to such income or loss.

(No further change in present Item 5)

Item 6. Statements of Income. . .

Furnish in comparative columnar form statements of income for the registrant, or for the registrant and its subsidiaries consolidated, or both, as appropriate, for—

(a) each of the last five fiscal years of the registrant ►(or for the life of the registrant and its predecessors, if less)◄, and

(b) any interim period between the end of the most recent fiscal year and the date of the most recent balance sheet being filed pursuant to Item [10(a)] ►11(a)◄ and for the corresponding interim period of the preceding fiscal year, and

(c) any additional fiscal years necessary to keep the statements from being misleading.

Where necessary, include information or explanation of material significance to investors in appraising the results shown, or refer to such information or explanation set forth elsewhere in the prospectus. A statement of source and application of funds shall be furnished for each fiscal year or other period for which a statement of income is required to be furnished.

Instructions. 1. The statements required shall be prepared in compliance with the applicable requirements of Regulation S–X [17 CFR Part 210] and shall be audited [to the date of the respective] ►for each of the three fiscal years and the subsequent interim periods, if any, preceding the date of the most recent◄ audited balance sheet(s) included in the prospectus. Regulation S–X [17 CFR Part 210 [governs the examination and the form and content of such statements, including the basis of consolidation and prescribes the statements of retained earnings and other stockholders' equity and the schedules to be filed.

2.–9. (No change from present Instructions).

10. Statements of income and source and application of funds conforming with the foregoing and statements of retained earnings and other stockholders' equity shall be furnished, here or elsewhere in the prospectus, for each subsidiary or group of subsidiaries or 50 percent or less owned persons for which a balance sheet is furnished in response to Item [10(b)] ►11(b).◄

Item 7.–Item 9. (No change from present Items).

Item 10. ►*Management and Others.*◄

►If there has been a change in control of the registrant within the past three years, provide the information called for by Items 16 to 20, inclusive, of Form S–1 (17 CFR 239.11).◄

[*Item 10.*] ►*Item 11.*◄ *Other Financial Statements and Schedules.*

(a)–(c) (No change from present paragraphs (a) to (c))

(d) *Future Successions to Other Businesses.*

(1) (No change from present (d)(1))

(2) The acquisition of securities shall be deemed to be the acquisition of a business if such securities give control of the business or combined with securities already held give such control. ►In addition, the acquisition of securities which will extend the registrant's control of a business shall be deemed the acquisition of the business if any of the securities being registered hereunder are offered in exchange for the securities to be acquired.◄

(3) No financial statements need be filed, however, for any business acquired or to be acquired, or for any business in which an investment acquired or to be acquired is required to be accounted for by the equity method, from a totally held subsidiary. In addition, the statements of any one or more such businesses may be omitted if the business, considered in the aggregate, would not meet the test of a significant subsidiary ►; provided that the statements of any business may not be omitted where any of the securities being registered are offered in exchange for securities representing such business or for assets of such business.◄

(e) (No change from present paragraph (e))

[*Item 11.*] ►*Item 12.*◄ *Statement of Available Information.*

(a) (No change from present Item 11(a))

(b) The statement shall also indicate that such reports, proxy statements and other information can be inspected ►and copied◄ at the [principal office] ►offices◄ of the Commission at [500 North Capitol Street, NW., Washington, D.C.] ►Room 6101, 1100 L Street, NW., Washington, D.C.; Room 1228, Everett McKinley Dirksen Building, 219 South Dearborn Street, Chicago, Illinois; Room 1700, Federal Building, 26 Federal Plaza, New York, New York; and Suite 1710, Tishman Building, 10960 Wilshire Boulevard, Los Angeles, California◄ and that copies of such material can be obtained from the ►principal office of the◄ Commission ►at 500 North Capitol Street, Washington, D.C., 20549◄ at prescribed rates. In addition, any national securities exchange on which the registrant's securities are listed, and where reports, proxy [material] ►statements◄ and other information concerning the registrant can be inspected, shall be named.

TEXT OF PROPOSED AMENDMENTS TO FORM S–16

(NOTE.—The Rule as to Use of Form S–16 incorporates by reference the requirements for use of Form S–7. Accordingly, the proposed amendments to the Rules as to Use of Form S–7 set forth above, if adopted, would be incorporated in the Rule as to Use of Form S–16.)

Form S–16 (17 CFR 239.27) is proposed to be amended to read as follows:

§ 239.27 Form S–16, optional form for registration of certain offerings of outstanding securities and for offerings to holders of certain convertible securities or for offerings to holders of certain outstanding warrants.

* * * * *

GENERAL INSTRUCTIONS

A. *Rule as to Use of Form S–16.*

(a) (No change from present paragraph (a)).

(b)(1)–(b)(2) (No change from present (b)(1) and (b)(2)).

(b)(3) meets the requirements of paragraphs (c) through [(f)] ►(e)◄ of the Rule as to the use of the Form S–7 [17 CFR 239.26].

[10] In 1972, the Commission's Industrial Issuers Advisory Committee recommended that the Commission reconsider the minimum fixed charges coverage standard required as a condition to use of Form S–9, and determine whether a standard other than fixed charges coverage would be appropriate. "Report of the Industrial Issuers Advisory Committee to the Securities and Exchange Commission" 21 (1972).

TUESDAY, AUGUST 3, 1976

PART IV:

INTERSTATE COMMERCE COMMISSION

STANDARDS FOR DETERMINING COMMUTER RAIL SERVICE CONTINUATION SUBSIDIES AND EMERGENCY OPERATING PAYMENTS

Report and Order

V 41 I 150 AUG 3 76 UMI

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 293 (Sub No. 8)]

PART 1127—STANDARDS FOR DETERMINING COMMUTER RAIL SERVICE CONTINUATION SUBSIDIES AND EMERGENCY OPERATING PAYMENTS

Report and Order

The Rail Services Planning Office (the Office) presently has under consideration the above-captioned rulemaking proceeding to develop regulations for the continuation under subsidy of commuter rail service in the Northeast and Midwest Region and for the computation of emergency operating payments for certain commuter services which, under the Final System Plan (FSP) of the United States Railway Association (USRA) dated July 25, 1975, might have been discontinued in the absence of financial assistance.

Congress authorized $125,000,000 in emergency operating assistance to sustain the operations over a 2½ year period (Section 17(f) of the Urban Mass Transportation Act of 1964) and directed the Office to issue regulations containing:

(A) Standards for the computation of subsidies for rail passenger service (except passenger service compensation disputes subject to the jurisdiction of the Commission under section 402(a) of the Rail Passenger Service Act (45 U.S.C. 562(a)), which are consistent with the compensation principles described in the final system plan and which avoid cross subsidization among commuter, intercity, and freight rail services; and

(B) Standards for the determination of emergency commuter rail passenger service operating payments pursuant to section 17 of the Urban Mass Transportation Act of 1964 [Section 205(d)(5) of the Regional Rail Reorganization Act of 1973, Pub. L. 93-236 (the RRR Act) as amended by the Railroad Revitalization and Regulatory Reform Act of 1976, P.L. 94-210 (the Rail Act)].

The Office published an initial notice of proposed rulemaking on February 20, 1976 (41 FR 7793), a further notice on May 14, 1976 (41 FR 20104), and a second notice on June 30, 1976 (41 FR 26936). Interested parties were invited to express their views on the proposed regulations and in all some 40 comments were received from 21 parties including the Consolidated Rail Corporation (ConRail) and other commuter railroads, the National Railroad Passenger Corporation (AMTRAK), state transportation departments, commuter authorities, local and regional governmental bodies, the United States Department of Transportation (DOT), and the Office of Public Counsel. (The participants are listed at the end of this report.)

The Office has carefully considered the pertinent legislation and legislative history, the views of the parties, the consultants' reports and other filings of record (see 41 FR at 20104). The final standards appended to this report are effective August 3, 1976.

SUMMARY

Legislative mandate. Section 804 of the Rail Act amended section 304 of the RRR Act to assure the continuation of commuter rail service in the 17-State Midwest and Northeast Region upon the offer of a compensatory subsidy equal to the railroad's net avoidable loss and reasonable return on value. Specifically, section 304(c) of the RRR Act directs ConRail (or a profitable railroad) to continue all commuter rail service in the Region, irrespective of FSP designations until September 27, 1976 (180 days after the April 1, 1976, conveyance date) in consideration for the commuter authorities paying at the same level of financial assistance as they paid prior to conveyance. ConRail must further continue to provide commuter service under sections 304(c)(2) and 304(e)(4)(A) after September 27, 1976—

> If a financially responsible person (including a government entity) offers—(A) To provide a rail service continuation payment which is designed to cover the difference between the revenue attributable to [the] rail properties and the avoidable costs of providing rail service on such properties, together with a reasonable return on the value of such properties . . . under regulations issued by the Office pursuant to section 205(d)(5) of this Act. * * *

Congress further directed the Secretary of the Department of Transportation to reimburse ConRail (under regulations issued by the Office) for "any loss" and the commuter authorities for "additional costs" incurred by them in continuing commuter service over the 2½ year period from April 1, 1976, through September 27, 1978 (section 304(e)(5) of the RRR Act). The amount of reimbursement is equal to 100 percent of the "additional costs" the first 360 days (April 1, 1976–March 26, 1977), 90 percent for the next 12 months (March 27, 1977–March 31, 1978) and 50 percent for the last 180 days (April 1, 1978–September 27, 1978). The Secretary may not provide such emergency operating assistance for the last six months unless he receives adequate assurance from the subsidizer that the service will be continued after September 27, 1978. The assistance program will be administered for the Secretary by the Urban Mass Transportation Administration (UMTA).

Notice of intention. Under the regulations, a prospective subsidizer must notify ConRail (or a profitable railroad) no later than August 18, 1976, that it intends to offer financial assistance for the continuation of commuter rail service after September 27, 1976. The notice will contain proposed modifications in the fares to be charged; in the existing level of service, including changes in routes, schedules, train seating capacity, performance standards, equipment units, and such other dimensions of service as the subsidizer may specify; and in the length of the subsidy period.

Subsidy estimate. ConRail must provide the prospective subsidizer with a subsidy estimate within 30 days of receiving the notice but no later than September 17, 1976. The estimate will be based upon the revenues attributable to the commuter service, the avoidable costs of providing such service, and the reasonable value of the avoidable properties used in providing the service, computed in accordance with the standards, for the base period (June 1, 1975–June 30, 1976). The railroad may base its initial estimate on the best data available.

Offer of financial assistance. The prospecive subsidizer must serve a firm offer of subsidy on ConRail no later than September 27, 1976, to avoid discontinuation of service. The offer will contain a subsidy estimate in conformity with the standards; evidence of the offeror's authority to subsidize; an indication of its financial resources; and the first monthly interim subsidy payment.

Negotiation of subsidy agreement. The parties should proceed expeditiously to develop a facilities utilization plan and a manpower utilization plan and to negotiate a subsidy agreement. The facilities utilization plan will identify the road and equipment properties used in providing the commuter service and assign to such properties the percentage devoted to the commuter service. The plan should be "site-specific"; that is, it should be developed in the field in consultation with general and supervisory personnel responsible for utilizing and maintaining the properties. Similarly, the manpower utilization plan will identify the labor forces used in providing the commuter service and the percentage of time devoted to such duties. The parties may agree to provisions which vary from the standards subject to their review by the Office. The variances must be the product of arms-length negotiations and not be designed to disadvantage third parties, e.g., UMTA, AMTRAK, etc. The subsidy agreement must be in place by March 26, 1977. The Office will be available to mediate disputes regarding the facilities utilization plan, the manpower utilization plan, the subsidy agreement and the application of the standards.

Assignment of costs. The facilities and manpower utilization plans will be the primary tools for assigning costs. Other costs may be assigned as the parties agree. They may decide to rely on historical data, conduct special studies, develop apportionment formulae, or adopt a combination of the foregoing. The Office will be available to mediate disputes regarding cost methodology. If mediation proves inconclusive, costs still subject to dispute will be assigned in accordance with the apportionment methodology set forth in the standards, subject, however, to the condition that either the railroad or the subsidizer may request a special study. The party requesting the study will be responsible for its design. The Office will arbitrate disputes regarding the design and conduct of the study. The study results will be binding on the parties unless they agree to disregard them.

Flexible (but fail-safe) guidelines. The commuter subsidy standards are guidelines which permit the subsidized and the railroad to establish a relationship uniquely suitable to them. The parties are not obliged to adhere inflexibly to RSPO rules. To the contrary the emphasis in the commuter standards, as in the freight standards (49 CFR 1125), is on arm's-length, good faith negotiations. The parties are expected to work together to minimize sources of conflict by developing comprehensive facilities plans and manning tables. The Office believes that time and effort devoted to these cost development techniques will materially reduce the potential for conflict. In remaining cost areas, the parties will be free to apply their own expertise and experience. The Office will assist in resolving cost and other disputes through mediation. It is only when these efforts fail that the apportionment formulae come into play. Even then, the apportionment formulae are subject to a safety-valve—if one party feels the formulae are unjust, it may insist upon a special study, the results of which will be binding unless the parties mutually agree to disregard them.

The Office believes that these flexible (but fail-safe) procedures are more likely to produce reasonable and equitable agreements and practices than would mandatory regulations. Similarly, the Office believes its role as honest broker rather than binding arbitrator is more likely to result in reasonable compromise. (Should experience demonstrate the contrary, the rules may be amended to provide for compulsory arbitration.) Lastly, the Office is striving to minimize Federal intrusion in local transportation affairs by restricting its reviewing function to circumstances where variations from the standards appear unreasonable or patently adverse to the interests of third parties.

Emergency operating assistance. UMTA will reimburse ConRail 100 percent for the losses it incurred in providing commuter service during the 180-day mandatory operation period. UMTA will also reimburse subsidizers for a percentage (100 percent, 90 percent, 50 percent) of the additional costs incurred by them for the succeeding two-year subsidy period. The subsidizers may vary existing service (as distinguished from service on new routes) from pre-conveyance levels and receive full reimbursement so long as UMTA's total obligation is not increased. They may also be reimbursed for additional costs arising from wage and price increases or equipment purchases necessary to sustain service at preconveyance levels, if no party (or predecessor) had agreed to pay for them. The subsidizers may also reduce service below pre-conveyance levels, where UMTA's obligation is decreased proportionately. And they will receive the entire credit for fare increases after the April 1, 1976, conveyance date, provided only that UMTA shall be liable for no more than "additional costs".

DISCUSSION OF ISSUES

APPLICATION OF THE STANDARDS

New Jersey Department of Transportation (NJDOT), Metropolitan Transportation Authority (MTA), and New York Department of Transportation (NYDOT) take issue with the Office's tentative views (41 FR at 20105) as to the applicability of the standards to services now being provided under section 303(b)(2) of the RRR Act. They point out that some of the agreements for these services contain clauses which permit termination upon due notice by one or both of the parties. MTA apparently is considering the possibility of exercising its rights to terminate certain agreements and switching to offers of subsidy pursuant to section 304(c)(2)(A) of the RRR Act, should study of the final standards issued in this proceeding indicate that course to be financially advantageous to it. NJDOT is concerned that ConRail may terminate the former Erie Lackawanna agreement, using the threat of service discontinuance as a lever to extract "a level of compensation far in excess of the Office's standards".

DOT is concerned not only with the application of the standards to services covered by section 303(b)(2) agreements, but also with their application to services not conducted pursuant to pre-existing agreements. AMTRAK and Chicago Area Commuter Railroads (CACR) also have raised questions concerning the applicability of the standards.

Some of the issues thus posed may become material. The discussion of them involves three considerations: the jurisdiction of the Office to rule upon the issues; the application of the subsidy standards in the circumstances described; and the effects of certain changes on the eligibility of the services for emergency operating assistance.

Jurisdiction. NYDOT takes the position that "RSPO is not authorized herein to make any rule or regulation as to the applicability of the standards; it is merely charged with formulating the standards". Public Counsel urges that issues involving post-mandatory levels of service be left to arbitration under section 304(e)(5)(C) of the RRR Act.

The Office does not concur with the apparent belief of these parties that the proper discharge of its duties under the RRR Act involves the promulgation of regulations without consideration either of the nature, scope, location, and circumstances of the commuter rail services to be affected by them, or of the circumstances to which the standards are not applicable. DOT, as noted above, has requested the Office's views on certain issues affecting the disbursement by it of emergency operating assistance. NJDOT's response to the second notice requests the Office's guidance as to how certain issues should be handled under the standards. Although decision as to some issues may, as Public Counsel infers, be premature, it does not appear that the interests of the parties would be advanced by the Office's preserving silence as to all of them.

CACR, in contrast to the views of NYDOT and Public Counsel, renews its concern that the standards "will serve as a precedent for costing procedures in cases which do involve the railroads outside the Northeast and Midwest Region." CACR urges that the standards be revised to account for conditions in the Chicago area and that the Office "not allow the time constraints imposed upon it to result in regulations containing many improper and impossible rules which would plague the railroad industry for years to come." The suggestions of the six Chicago area railroads are welcome, and have been considered insofar as they contribute to improving the feasibility, fairness, or equity of the standards. The Office does not intend, however, to broaden the standards or the scope of the rulemaking to encompass possible disputes with respect to commuter services not subject to the RRR Act.

Similarly, AMTRAK expresses concern that the Commission may "follow the lead of RSPO" and order AMTRAK to make payments based on the standards to railroads for the operation of its intercity services outside the Northeast Corridor. It requests an acknowledgment that the standards do not measure "incremental costs, at least not in the sense that that phrase is used in section 402(a) of the AMTRAK Act." The commuter standards do not purport to apply to the intercity rail passenger service provided by AMTRAK.

Applicability of the subsidy standards to the extension of section 303(b)(2) services. NJDOT and MTA inquire whether, if a section 303(b)(2) agreement is terminated, either by mutual consent or by exercise by one party of termination rights recited in the agreement, the services must be continued upon the offer of subsidy payments in conformance with the standards. Or could ConRail, as NJDOT intimates, insist upon compensation exceeding the levels called for in the standards?

The legislative history does not indicate that, in enacting section 17 of the UMT Act, Congress contemplated the eventuality that section 303(b)(2) agreements might be terminated. The House Report No. 94-729 of December 15, 1975, accompanying H.R. 10731, at p. 4, lists the services which could be curtailed or discontinued if no contracts were entered into with ConRail or other railroads. This list does not include the Erie Lackawanna services in New York and New Jersey or the Penn Central services provided in New York for MTA. The report (p. 5) does state that "the Committee does not intend to furnish assistance for those services ConRail is obligated to provide under section 303(b)(2) of the RRR Act".

ConRail has not intimated an intention on its part to terminate any section 303(b)(2) agreements, which the FSP (Vol. I, p. 45) contemplated it would assume. Actual termination of any such agreement is, thus, conjectural, so that it is not necessary to make a specific ruling; but section 304(e)(4) of the RRR Act appears to require service continuance under terms conforming to the subsidy standards following such termination unless it occurs as a result of failure to make timely payments of

V 41 150 AUG 3 76 UMI

amounts due. That section provides that if a rail service continuation subsidy conforming to the standards is offered and if compensation for operations conducted during the 180-day mandatory period is made, ConRail shall continue to provide the service after the end of such period, "except as otherwise provided in this subsection". The exception is the discontinuance permitted under subsections 304(e)(2)(C) and (D) in the case of non-payment. Moreover, it would seem inconsistent with the purposes of the RRR Act if ConRail were permitted unilaterally to discontinue these services or if, to insure continuance, the commuter authorities were compelled to provide a higher level of financial assistance than is required under the subsidy standards for the continuance of services not subject to section 303(b)(2) agreements.

Eligibility for emergency operating assistance. As noted above, the legislative history of section 17 of the UMT Act suggests that Congress did not contemplate furnishing assistance for those services ConRail is obligated to provide under section 303(b)(2) of the RRR Act, and that the appropriation authorization of section 17(f) does not include any amounts for such services.

As a practical matter, under the notice requirements of the Erie Lakawanna agreement with NJDOT, apparently ConRail could not unilaterally terminate the agreement before June 30, 1978, when only three months of the 50 percent emergency operating assistance program would then remain. The MTA agreements could, it is understood, be unilaterally terminated early in 1978; and of course earlier termination could be mutually agreed upon. Nevertheless, the question of MTA's eligibility for emergency operating assistance would not arise unless it agreed to terms more costly than under the existing agreement.

Consequently, the Office does not presently perceive a material question involving the eligibility for emergency operating assistance of service presently conducted under section 303(b)(2) of the RRR Act. Should such a question arise in the future, the parties may, if they desire, request a ruling in the light of the applicable facts and circumstances.

Termination of service. In the Second Notice (41 FR at 26939), the Office alluded to the possibility of ConRail's incurring losses should it be obliged to continue service for 60 days beyond the 180-day mandatory period for which no continuing subsidy is offered and expressed the view that ConRail should be compensated for losses substained as a result of enforced service continuance. The commuter authorities could mitigate such losses by agreeing to waive the 60-day extension requirement as to services for which it is known that a continuation subsidy will not be offered, and if they do not do so, could be expected to continue their assistance payments for the duration of any extension required for an orderly service termination. The standards have been revised to provide that the railroad will be compensated by UMTA for losses reasonably and necessarily incurred through extension of the mandatory period beyond 180 days, less any payments the subsidizer would have been obligated to make had it tendered an offer of subsidy. In its comments on the Second Notice, DOT has acknowledged that the railroad should be compensated for the losses incurred in the operation of commuter service during the 60-day termination period; however, it "wish[ed] to make clear that DOT can bear only that portion of such losses which DOT would be obligated to pay if the service was not being discontinued."

In some instances, the commuter authorities and ConRail may agree to terminate or reduce service before the close of the 180-day mandatory period. In such circumstances, the standards contemplate that both the payments by the subsidizer and the emergency operating assistance would be correspondingly reduced.

Reduction in service. In the second notice (41 FR 26939), the Office also discussed the effect on subsidy payments of reductions in service on one or more routes not wholly offset by increased services on other routes subsidized by the same authority. Under the final standards, the financial assistance provided by the subsidizer and UMTA's reimbursement of additional costs would be reduced in proportion to their respective contributions to the total of the rail service continuation payment as computed prior to such reduction in service level.

The following illustrative example applies to a service which is reduced during a subsidy period ending March 31, 1978 (when 90 percent of additional costs are reimbursable). Had the service not been reduced, attributable revenues would have been $10 million and avoidable costs plus return on the value would have been $12 million, resulting in a rail service continuation payment of $2 million. The financial assistance the subsidizer was obligated to provide under section 304(e)(2) of the Act was $1.5 million, so that the additional cost to him would have been $500,000, of which UMTA would have reimbursed 90 percent, or $450,000. Thus the contribution of the subsidizer would have been $1.55 million, or 77.5 percent of the $2 million rail service continuation payment; and UMTA's contribution would have been 22.5 percent.

If the service reduction in this example causes attributable revenues to decline to $9 million and avoidable cost plus return on the value to $10 million, the required rail service continuation payment would be $1 million. In this instance, the subsidizer's financial assistance would be reduced to $775,000 (77.5 percent of the total) and the emergency operating assistance to $225,000 (22.5 percent of the total).

Negotiated Service Continuances. DOT agrees that the standards should not override an agreement between the parties on the total level of subsidy. However, it urges the Office to clarify what the level of UMTA payment will be in the event that the parties agree on a level of subsidy different than that which would be required by the standards. Its position is that if the parties agree to a lower subsidy level than required by the standards, UMTA's payments should also be reduced; but if the parties agree to a higher level, UMTA would not share in any payments over and above the amounts resulting from the standards.

The aim throughout the development of these regulations is to encourage maximum arm's-length bargaining between the parties, with the standards serving as a reference point and a fail-safe procedure in case of impasse. Therefore, the final standards provide that the emergency operating assistance shall be based on the difference between the payments actually required under the subsidy agreements as negotiated and the level of financial assistance required under section 304(e)(2) of the Act.

The Office believes this approach is likely to result in a lower overall burden on the emergency operating assistance funds than would result from encasing the negotiators in the rigidities of iron-clad adherence to the standards. UMTA is to share in the benefits of agreements resulting in lower costs than the standards and it will also share in those which are higher. Variations from the standards will be reviewed by the Office for reasonableness; thus, UMTA may be assured that it will not have to reimburse the parties for unreasonable costs.

AVOIDABLE COSTS-RATIONALE

The terms "incremental costs", "decremental costs", "additional costs", "fixed or constant cost base", "solely related costs", "directly attributable costs", "indirect costs", "overhead costs", "fully-distributed costs", "cross-subsidization", "fair and equitable share of the total costs", "allocated costs", "sunk costs", "out-of-pocket costs", "cash costs", "short-term avoidable costs", and "long-term avoidable costs" recur throughout the parties responses interspersed with discussions of relative use. NJDOT undertakes to provide definitions to clarify the concepts embodied in some of these terms, and suggests that the Office should avoid confusion by a careful selection of terminology. In contrast, MTA believes the legislative mandate is inherently contradictory; that the contradiction is mirrored in the proposed standards; and that the cure is not clarification but remedial legislation.

The Office does not preceive the need for amendatory legislation, although the parties are at liberty to seek such a remedy should that course appear to them desirable. The Office does believe that the final standards fulfill Congressional intent as to the costs to be borne by the commuter services in relation to those borne by other services. The Office has, however, striven to apply essential terminology accurately and will undertake to explain in detail its avoidable cost rationale.

At the outset, it should be recognized that in a joint-cost enterprise such as a railroad the separate costs of performing each element of the service cannot be determined with finite precision; that all

of the users benefit from lower costs than they would obtain if only one service used the facilities; and that, collectively, the payments by all users must cover all of the costs. In the absence of regulation, the charges for each service would tend to be heavily affected by considerations unrelated to cost, particularly demand, the bargaining power of the users, and their ability to pay. Congress has concluded that the charges to be paid for continuation of commuter services should not be left to the naked bargaining power of the parties and has designated the Office to develop standards for determing them.

In fulfilling its mandate, the Office places special reliance on the legislative intent expressed in Senate Report No. 94-499, accompanying S. 2718 (at 114):

> The standards promulgated by the Commission must be consistent with the compensation principles described in the Final System Plan relative to the concept of "dominant user" and "avoidable cost" and must avoid "cross-subsidization." While the Commission would have discretion as to whether long-term avoidable costs or short-term avoidable costs are the appropriate measure in any given situation, [the legislation] does require reference to compensation principles described in the Final System Plan. Therefore, the standards will reflect the relative use of any line by the type of service being provided thereon and will also provide that the costs will be shared equitably by the users of any individual line. For the most part, the services receiving assistance under this section will be continued after the assistance provided herein is ended. Since the compensation principles set forth in the Final System Plan were formulated from the long range cost perspective, they are most appropriately used for determining the level of assistance required to continue service.

(The Senate bill delegated to the Commission the responsibility for developing the standards; the Rail Act assigned this duty to the Office.)

Congress thus recognized the significant difference between the short-term and long-term avoidable costs associated with continuing commuter service. In the short term, avoidable costs approach what are sometimes called "out-of-pocket" costs;[1] in the longer term, they approach fully-distributed costs.[2] This is so because, over a sufficiently long period, all costs may become variable—including those which are considered fixed or constant costs in the near or intermediate term. Experience shows, for example, that current roadway maintenance expenditures, sometimes considered as constant costs in the near and intermediate term, do vary not only with usage, but also with the availability of funds. Capital costs tend, over a sufficiently long period, to be reduced by one means or another to a level supportable by available income.

[1] The AAR Guide referred to by NJDOT states "In its literal sense, the term out-of-pocket costs implies an immediate cash expenditure, a characteristic that is not germane to the incremental cost concept."

[2] NJDOT defines fully distributed costs as "the variable cost plus a statistical apportionment of the constant or fixed costs."

Paradoxically, it may be observed that no costs, once incurred, are truly avoidable in the long term; some parties may be able to evade them, but the costs themselves cannot be completely avoided. Thus, roadway maintenance, though it may be deferred, must eventually be performed if service is to continue. If debt is defaulted, as in the case of the Northeast bankrupts, the costs may appear to have been shifted to investors; but in time investors as a class will seek to recover their losses through higher charges for future railroad financing. If they are unsuccessful, the financing will not be forthcoming, and the costs will have to be assumed by the taxpayers.

Congress obviously intended that the standards apply to a service and costing horizon extending beyond the term of the Federal assistance provided by section 17 of the UMT Act. In developing the standards and the procedures for implementing them, the Office has endeavored to steer a reasonable course between the near-term extremity of out-of-pocket costs and the ultimate of long-range fully-distributed costs. It does not expect either the buyers or the suppliers of commuter rail services to be completely satisfied with the results.

Positions of the parties. AMTRAK would have the standards go further toward the long-term extreme and assign to the commuter services a "significant body of costs (the constant cost base) which do not vary with the level of use, but rather are constant so long as the entity operates at all" (whether with or without commuter service). On the other hand, AMTRAK is concerned that if the principles of the standards were applied to its services outside the Corridor, it might be required to assume a larger portion of the common costs of the railroads over which these services operate.

NJDOT relies upon various handbooks and publications dealing with railroad cost finding procedures, including an article from the University of Chicago "Journal of Business" for October 1962 entitled "The Role of Cost in the Minimum Pricing of Railroad Services". It desires the standards to exclude from consideration certain common costs, which it believes to be fixed, but which the Office believes are variable within the contemplated time period. Other commuter authorities are associated in varying degrees with this view.

Fixed and variable costs. As noted supra, NJDOT evidently considers some costs to be fixed which the standards treat as variable (and thus avoidable) costs, of which the commuter services should be expected to bear their appropriate portion. Apparently it believes that the costing methodology should be approached from the viewpoint of a near-term time horizon and limited increments of change. "Fixed costs", by its definition, are "those costs which, for a given size of plant, do not vary in total with changes in output". It would disallow depreciation charges (discussed in a later section of this report) because "it is not an avoidable *cash* item and does not represent an *out-of-pocket expense.* (Emphasis supplied). The Office's costing approach is based on the belief that substantial changes in the level of commuter services or complete discontinuance would result in changes in the size of the plant.

NJDOT rests its position largely upon reference to "A Guide to Railroad Cost Analysis" published by the Bureau of Economics, Association of American Railroads, in December 1964 (the AAR Guide). That guide ranks certain major categories of expense (maintenance of fixed facilities, including depreciation, retirements, and dismantling; maintenance superintendence; signal and interlocker operations; crossing protection; "associated"; traffic and general; property taxes; capital cost and "return") as largely fixed.

The AAR Guide was designed as a tool for cost analysis related to competitive minimum pricing of particular freight movements or commodities; it does not purport to relate to purposes such as the standards are to accomplish under the RRR Act: The determination of avoidable costs to be borne by a distinct and entire category of passenger services. The Act does not instruct the Office to base the standards on minimum pricing concepts, nor to address them to determining the prices to be paid by individual users of the commuter services. Moreover, NJDOT evidently does not allege that any category of expense is completely and interminably "fixed" (i.e., invariable even if all commuter services were discontinued). For example, it agrees with the adoption of the Speed Factored Gross Tons formula for measuring the avoidable (variable) portion of common track and roadway maintenance costs, including maintenance associated with such fixed facilities as tunnels, bridges, trestles and culverts.

Costs associated with the value of the properties. The standards treat certain inter-related costs associated with the values of properties as variable or avoidable, only to the extent that such facilities or properties are used by the commuter services and could be disposed of upon discontinuance of the services. These costs include the return on the value of the properties, depreciation, retirements, and dismantling costs. The reason for this treatment is that such costs, to the extent that they are associated with properties which could not be disposed of upon the discontinuance of commuter services, are not variable in the near and intermediate term, and could be reduced by the railroad only if it discontinued other services or, alternatively, defaulted on its obligations.

USAGE TERMINOLOGY

NJDOT remarks that although the compensation principles of the FSP identify the conceptual approach for assigning costs to each given type of user, they do not define the terms "dominant", "minority", and "equal". NJDOT itself does not suggest any definitions.

Actually, the first three of the four "principles" which the FSP states (Volume I, p. 41) guided the USRA in its

V 41 150 AUG 3 76 UMI

discussions with AMTRAK and the commuter authorities do not contain any of these terms. The fourth principle contains an additional term: "Exclusive user"; it states that "the exclusive or dominant user of a facility or in some special cases a state or public agency should be its owner." From the four "principles" flow the five "policies" recited and discussed in detail in the further notice (41 FR at 20106) and again in the second notice (41 FR at 26937). The Office concluded, and the standards so provide that the commuter authorities should bear some portion of common costs, where commuters make significant use of the rail properties. The RRR Act required the Office to issue standards which are consistent with the compensation principles described in the FSP and which avoid cross subsidization among commuter, intercity, and freight rail services. It is believed that this has been done. The Act does not require the Office to define terms employed in the FSP and not defined therein.

CONRAIL-AMTRAK NEGOTIATIONS

AMTRAK objects to the Office's finding in the second notice (41 FR at 26938) that "the assignment of fixed costs (those which AMTRAK would incur irrespective of whether commuter service is operated over its properties) as a direct pass through to the commuter authorities would result in cross subsidization of intercity service by commuter service." To force one of the three users of the Corridor, it states, to bear the "entire fixed cost base", irrespective of the "magnitude and impact" of its use, would violate both the plain Congressional intent and the language of the statute itself. AMTRAK suggests that unless the Office corrects its "dicta" the unfortunate effect could be prevention of an arm's-length negotiated solution to the Corridor compensation issues, since only a Commission order under section 402(a) of the Rail Passenger Service Act requiring ConRail to pay AMTRAK on a fully-allocated basis can assure ConRail's right to full reimbursement (presumably on a fully-allocated basis) from the commuter authorities.

The standards do not require any of the three users of the Corridor to bear the "entire fixed cost base". They require the commuter services to bear those fixed costs (return on the value, depreciation, retirements, and dismantling) identified with properties used by them and which could be disposed of if the commuter services were discontinued. The reasons for this are discussed elsewhere in this report. As stated in the second notice (41 FR at 26938), the Office believes that the primary measure of the reasonableness of the compensation by commuter authorities for use of the Corridor should be the standards issued herein; it places special reliance on ConRail's assurances that it will represent commuter interests in its negotiations with AMTRAK; and expects that if the parties cannot agree to follow the Office's costing methodology, they will submit the matter to the Commission. The standards admittedly do not embrace fully-allocated costing.

COMMUTER SERVICE COMMON REVENUES AND COSTS

The apportionment of costs of subsidy payments when a commuter service traverses State boundaries or when more than one State is involved in a service area was discussed in both the further notice (41 FR at 20107) and the second notice (41 FR at 26940). Rhode Island Department of Transportation believes it is imperative that there be a "fallback" methodology for dividing the costs (such as the car-miles basis suggested by the Office) "to cover the very likely situations where various commuter agencies could not agree on the allocation of common costs". ConRail also supports passenger car-miles as the basis of apportionment and believes that, except in extraordinary circumstances, the apportionment formula throughout the region should be uniform, so that an operator is not required to develop different information and prepare varied cost apportionments for the several inter-jurisdictional commuter services. SEPTA believes that the only standard necessary for determining the relative costs payable is the avoidable cost method. Pennsylvania Department of Transportation (PennDOT) notes that more SEPTA cars are kept overnight at Wilmington than are required to accommodate the passengers generated in Delaware, and that an apportionment on the basis of car-miles would be unfair to Delaware. It suggests the use of five factors, some of which are collinear.

The Office anticipates that in most instances, as in the case of Pennsylvania and Delaware, the commuter authorities will be able to negotiate equitable sharing of the subsidy burden. However, as a "fallback" requested by Rhode Island and ConRail, the final standards provide that attributable revenues and avoidable costs common to two or more commuter services shall be apportioned between them on the basis of car-miles. The Office reiterates its recommendation that representatives of each State involved in bi-State services begin discussions immediately with their counterparts in adjoining States, to the end that before August 18, a decision will be reached as to whether either or both of them will file a notice of intention and an offer of financial assistance.

VALUE OF THE PROPERTIES

This subject was discussed in the further notice (41 FR at 20108) and in the second notice (41 FR at 26939). However, in light of the responses to the Second Notice, some further consideration appears desirable.

Deficiency judgment adjustment. ConRail and NJDOT observe that the standards should provide for the contingency that in the valuation proceedings the special court may modify the values of the considerations payable by ConRail for the rail properties acquired by it. Section 303(c)(5) of the RRR act protects ConRail against deficiency judgments as to the properties which it transferred to AMTRAK, States, or commuter authorities. Under section 303(c)(2)(C), ConRail is exposed to a possible deficiency judgment as to properties acquired and retained by itself, provided such a judgment "would not endanger the viability or solvency of the Corporation". Considerable time may elapse before the special court's valuation findings become final; and since the deficiency judgment protection is not absolute, some adjustment of ConRail's property accounts may ultimately be required.

Therefore, the final standards provide that if the book values of road or equipment property are adjusted either upward or downward as a result of final orders of the special court, such adjustment shall be reflected in future subsidy payments without retroactive effect. Neither ConRail nor NJDOT expressly urged a retroactive adjustment of the values and the Office believes such an adjustment—downward or upward would be impractical. In either case, the value of the properties used in providing the commuter service would be one ingredient in determining the fares to be charged, and the commuter authorities would have no means of retroactively adjusting such fares, years after the service was provided.

Incremental annual increases of value. ConRail renews its plea that the value of the properties for the purposes of determining the return should be subject to annual escalation at the rates set forth in the FSP (pages 154–155). It asserts that unless this is done the obligation of the United States for redemption of the certificates of value, as well as the interests of ConRail security holders, will be adversely affected.

Were the annual escalation proposed by ConRail to be allowed, and the 7.5 percent return prescribed in the standards applied to the escalated values, the return in the 12th year (when redemption of the certificates is mandatory) would be 28.77 percent on the original base; and the average annual compound return over the 12-year period would be 14.42 percent. This compares with the 8 percent compound rate employed in computing the base value of the certificates at redemption under section 306(c)(4) of the Act. Computation of the certificates' base value also involves subtraction from net liquidation value of the value of other benefits provided by the Act plus the fair market value of the Series B preferred and the common shares and any cash dividends thereon, and addition of any compensable unconstitutional interim erosion. The result of those computations is conjectural until the final determinations of the special court are known, although if the projections of the FSP are realized it will be zero. Moreover, since the certificates are obligations of the United States, the results of the court's determinations in respect to them will have no effect on the property accounts of either ConRail or AMTRAK.

The Office thus does not perceive that the certificates of value have any relevance to the reasonable return on the

value of the properties for the purposes of determining the rail service continuation payments. The adoption of ConRail's position as to annual escalation of the values would impose an unreasonable and unconscionable burden on the commuter services and the concept is rejected.

Additions and betterments. NJDOT urges that the parties should agree as to who will be responsible for making "capital replacements" in each category and treat depreciation accordingly; that commuter authorities should not pay a return on that portion of the value of rail properties which have been built or rehabilitated with funds provided by the commuter authorities or government grants; and that the value of rail properties should be adjusted to exclude those properties where ConRail is bound by agreements entered into between the railroads in reorganization and the commuter authorities, under which a railroad in reorganization was precluded from charging a subsidizer a rate of return on investment financed but not owned by the subsidizer.

The Office believes that these details should be dealt with in the individual subsidy agreements, with the understanding that in the event of impasse between the parties a ruling, if requested, will be issued based on the facts and circumstances of the individual case. Certainly the standards do not purport to supersede or invalidate the terms by which ConRail may be contractually bound. The properties conveyed on April 1, 1976, to AMTRAK and ConRail may well include many which were obtained by predecessor companies through grants or contributions by cities, counties, States, or other governmental entities in the distant past, but for the values of which the transferors must be compensated under the RRR Act. The Act does not appear to authorize a blanket exclusion of the values of such properties from the base on which the return is computed.

REASONABLE RETURN

The return element of the subsidy payment was previously discussed in the further notice (41 FR at 20108) and in the second notice (41 FR 26938). SEPTA agrees that the proper rate of return on ConRail and AMTRAK properties is 7.5 percent. However, it believes that the regulations should permit a system whereby the subsidizer would make penalty deductions from this 7.5 percent for poor operational performance by ConRail. Since the avoidable cost standard provides for the treatment of penalty and incentive payments, there is no need to incorporate such provision in the return element of the compensation.

DOT urges that the Office should make clear in the regulations that the "double return" prohibited by section 304(c)(2) of the RRR Act will not be paid. This is accomplished by excluding from the valuation base in § 1127.6(b) the properties owned by the trustees of debtor estates. These properties were excluded since the estates are being compensated under the regional freight standards (49 CFR 1125).

OTHER COSTS RELATED TO PROPERTY VALUES

NJDOT urges that "depreciation relates to a sunk cost. It is not an avoidable cash item and does not represent an out-of-pocket expense." It considers that "in terms of present service and service in the future, depreciation is relevant only insofar as it provides a means of accumulating funds to replace facilities and equipment as they physically wear out or become technologically obsolete". PennDOT argues that road property depreciation is a sunk cost, and is not affected by the operation of commuter trains.

The Office disagrees; the depreciation allowed under Commission prescribed accounting rules does not purport to provide for the replacement of facilities or equipment, but merely for the recovery, through current charges, of a portion of past capital expenditures. In fact, present accounting practices make no provision for recovery through current charges of any decline in the values of major portions of the roadway investment resulting from obsolescence, leaving this cost to be borne by future users or by investors. Were the present investors in ConRail properties to be denied the opportunity to recover from the users even the sharply written-down acquisition costs of these properties, as NJDOT and PennDOT urge, the effects would be not only unjust to them, but would increase the costs of future capital.

AMTRAK's position is at the opposite extreme. It would assign to the commuter services depreciation (and return on the value) costs "which do not vary with the level of use, but rather are constant so long as the entity operates at all". DOT supports this view to the extent that it believes commuters should share in the return on (and presumably depreciation of) properties which would continue to be required in the absence of commuter service.

For reasons discussed above, the Office believes that assignment to the commuter services of costs which would not diminish with discontinuance of such services, but instead would continue so long as intercity passenger or freight services are operated would result in cross subsidization of those services by the commuters. The same considerations apply to the costs of retirements, dismantling, and property taxes. Sections 1127.5(e)(11)–(13), (f)(5), and (m) provide that there shall be no apportionments of common costs under these subsections, and that the charges to commuter services shall be those identified with properties used in such services which could be disposed of if the services were discontinued, as determined under § 1127.6.

NJDOT also raises a question respecting credits to avoidable costs related to the impact of passenger service eliminations on real estate tax exemptions, although it offers no specific suggestion. Section 402(a)(2) of the RRR Act directs the Secretary, within one year of enactment, to promulgate standards and procedures by which the State share of rail service continuation assistance under that section may be provided through in-kind benefits such as forgiveness of taxes, trackage rights, and facilities which would not otherwise be provided. Section 5(g) of the Department of Transportation Act contains a similar provision as to the local rail service assistance under that section, but there is no such provision in section 17 of the UMT Act. This would indicate that Congress did not intend the State share of commuter service continuation payments to be offset by in-kind benefits. The standards do, however, provide latitude for the parties to negotiate terms of the subsidy agreements, and there is no reason why the value of any tax reduction by the States in consideration of commuter service continuance could not enter into the negotiations.

EMERGENCY OPERATING ASSISTANCE

Level of service. If a valid subsidy offer is made, section 304(e) of the RRR Act obligates the railroad to continue to provide the same level of commuter service after September 27, 1976, as was "provided immediately prior to conveyance." The proposed standards construed the quoted phrase to embrace the first quarter of 1976. Several parties properly observed that such a construction fails to allow for seasonal fluctuations in service. Their point is well taken and the final standards define level of service provided immediately prior to conveyance as embracing the period April 1, 1975, through March 31, 1976. If the subsidy offer is for less than 12 months, e.g., October 1976–March 1977, the level of service should be predicated upon the corresponding months prior to conveyance, e.g., October 1975–March 1976.

Fare increases. The second notice (41 FR at 26939–40) invited the comments of interested parties with respect to four alternative methods of treating revenues from fare increases in the computation of emergency operating assistance. ConRail recommended alternative No. 1—inclusion of all fare increase revenue in attributable revenues for this purpose, believing that this approach creates the greatest likelihood that subsidizing entities will make rational decisions respecting the establishment of fares and the necessity for fare increases. SEPTA and NJDOT express a preference for the second alternative, which was to credit no revenues from fare increases to attributable revenues for this purpose, since this approach provides the commuter authorities with control over policy with respect to fare structure. DOT believes that emergency operating assistance should be unaffected by increases in revenue until those increases result in the Federal share of additional costs to the subsidizers being greater than the rail service continuation payment.

The Office concurs with the views expressed by DOT, which are not dissimilar from those of NJDOT and SEPTA. The

V 41 150 AUG 3 76 UMI

commuter authorities should have dis-whether resulting from application of the cretion to meet any additional costs, standards or from other factors, either by adjusting fares or by increased subcreases had the effect of reducing emersidy payments; if revenues from fare ingency operating assistance, the incentive to adjust fares would be diminished. On the other hand, emergency operating assistance should not serve to reduce the financial assistance the commuter authorities are obligated to provide under section 304(e)(2) of the Act. Section 1127.8(e) of the standards therefore provides that separate records shall be maintained segregating the amounts of revenues yielded by fare increases from other passenger revenues; that these segregated amounts shall be excluded from attributable revenues in computing emergency operating assistance; but that the emergency operating assistance shall not thereby be caused to exceed the rail service continuation payment.

Pass riders allowance. CACR objected to the provision in § 1127.4(c) of the proposed standards (41 FR at 20111) that an allowance for pass riders should be credited to the attributable revenues of the commuter service because, in the case of the Chicago commuter railroads, pass riders are required to stand if no seats are available. The Office disagrees, since in many instances fare-paying passengers also are required to stand when seats are not available.

SEPTA urged that the proposed section be revised to provide that the commuter service revenues would be credited with the difference between fares specified by applicable tariffs and fares collected from pass riders and other passengers who receive "employment-related discount fares". The Office does not believe that the allowance should encompass passes or reduced-fare privileges issued by the commuter authorities or by other public bodies. The final standards, therefore, provide for crediting attributable passenger revenues of the commuter service with an allowance for passengers using passes or reduced-fare tickets issued by the railroad or its predecessors, based on the currently applicable fares charged revenue commuter passengers. The parties may, if they wish, continue existing practices for crediting these allowances.

Notice deadline. Under the proposed standards, a commuter authority must serve its initial notice of intention to offer subsidy on the operator by August 18, 1976. The operator in turn must provide the authority with a subsidy estimate within 30 days or no later than September 17, 1976, and the authority must tender to the operator its offer of financial assistance by September 27, 1976, to avoid the discontinuance of service.

SEPTA takes exception to the limited amount of time (ten days) provided to "analyze, comment upon, and approve ConRail's estimate" and requests that ConRail be required to furnish its estimate by September 13, to afford SEPTA an additional four days to respond.

The deadlines recited above are minimum time periods necessitated by statute. SEPTA could alleviate the time pressures by serving its notice of intention in advance of the August 18 deadline. That is, if it were to serve its notice on August 14, ConRail would be obliged to provide its subsidy estimate by September 13.

The parties would also be afforded additional time to complete the notice/subsidy estimate/offer process, were ConRail persuaded to waive the September 27 deadline for making the subsidy offer. Section 304(e)(2)(B) authorizes but does not require ConRail to discontinue service if a subsidy offer is not received by the end of the 180-day mandatory operation period. ConRail might be amenable to extending the September 27 deadline were it to receive appropriate assurances of compensation for continuing service.

Subsidy estimate and financial status report. NJDOT would require the railroad to provide more detail when estimating and reporting on the avoidable costs for maintenance of way and structures, maintenance of equipment, and transportation. SEPTA and NJDOT believe financial status reports should be rendered monthly rather than quarterly. SEPTA says the reports should include information on passengers carried, rides sold and car miles operated, which it deems useful in persuading taxing authorities to provide subsidies.

The Subsidy Estimate (Appendix I) and Financial Status Report (Appendix II) are patterned after the regional freight standards (49 CFR 1125) and are intended to summarize the base period, actual, and projected figures for attributable revenues, avoidable costs and return on value. The appendices have been revised to include traffic and operating data and require the minimum information believed necessary to formulate the offer of financial assistance and to monitor actual performance. Further detail may be obtained by inspecting the railroad's books and records.

The final rules specify quarterly financial reports to minimize the railroads reporting obligations and since ConRail anticipates that it will take more than 30 days to assemble the data. The Office does encourage the railroad to accommodate reasonable requests by the subsidizer for more frequent and detailed status reports.

Best available data. The proposed standards require the railroad to formulate its subsidy estimate on "base period" data, i.e., "a minimum of three months and a maximum of twelve months for which the latest traffic, revenue and cost data are available." ConRail advises that the minimum base period (April, May, June, 1976) expense data cannot be "provided in usable form until the end of July [which] will preclude furnishing the initial subsidy estimate within 30 days" and recommends that it be permitted to use the "best data available". In all likelihood, ConRail will not have to complete its initial subsidy estimate for any commuter service until September 17, 1976, or some 48 days after the April–June data are available. In any event, ConRail's recommendation conforms with the intent of the standards. Its initial estimate should be based upon the best 3–12 months data available for the period July 1, 1975, through June 30, 1976. The estimate should also be adjusted to allow for any actual or projected variations in service, i.e., seasonal fluctuation in traffic or extraordinary events affecting service levels. The final rules so provide.

Management fees and incentive payments. ConRail and AMTRAK advocate while DOT opposes the inclusion of a management fee in the standards. AMTRAK believes such a fee is justified to cover the hidden cost of corporate overhead not ordinarily billed to commuter users. ConRail asserts that incentive payments for superior performance, which the standards do allow, are "inappropriate vehicles for compensating [it] for the elements designed to be reimbursed by the management fee.". It argues that the failure of Congress to expressly authorize a management fee does not limit the Office's discretion to provide for a fee or prohibit Federal reimbursement therefor. DOT supports incentives for superior performance but does not believe that Congress intended that a management fee be paid.

The Office continues to endorse the concept of a reasonable management fee to be paid the operator and it encourages commuter authorities to accede to such provisions. However, the Office adheres to its prior conclusion that it would be impermissable for it to require the payment of a management fee or to provide for the reimbursement of voluntary payments out of emergency assistance funds.

Congress expressly provided that railroads be paid a fee for managing freight services on light-density lines [section 304(d) of the RRR Act]. The House similarly called for a fee for managing commuter services, but this provision was deleted by the Committee of Conference (see Conference Report 94–781, on S. 2718, pp. 226–27). Therefore, Congress evidently did not deem it desirable to require commuter authorities to compensate operators for management services.

DOT is concerned that the parties may be reluctant to negotiate incentive and penalty clauses and recommends that "negotiations for [such] clauses consistent with general practices in the industry should, therefore, be made mandatory." Penalty and incentive clauses may not be necessary or appropriate for every commuter service subject to these standards, and particularly in light of the severe time constraints, it does not appear practical to mandate negotiation of such clauses. However, UMTA is establishing eligibility criteria (e.g., compliance with Federal policy regarding non-discrimination, etc.) in its guidelines for making application for emergency operating assistance. We would not deem it inappropriate for UMTA to also require a showing that the applicant made affirmative efforts to negotiate penalty and incentive clauses in its subsidy negotiations.

Speed factored gross ton formula. PennDOT is apparently opposed to the use of a speed factored gross ton formula (SFGT) to allocate maintenance of running track expenses. It advocates that commuter services be charged for track maintenance on the basis of gross-ton miles. NJDOT and SEPTA endorse the SFGT formula proposed by the Office. ConRail is not opposed to the SFGT concept, but prefers an alternative formula based upon DeLeuw Cather methodology. It points out that the formula proposed by the Office is "based on long-term average costs previously incurred, while for the next ten years most of the subsidized railroads will be undergoing an exceptional period of high program maintenance costs of roadway and track which obviates the use of historical cost averages."

The final standards retain the SFGT formula for the reasons stated in the further notice (41 FR at 20108). Appendix III has, however, been revised to indicate that the parties may conduct special studies to update the constants used in the formula without approval of the Office.

Insurance-reserve for liability. The further notice provided (41 FR at 20112–13) that the railroad should determine from its underwriters the difference in the premiums under account 414 if commuter service were discontinued and that a casualty reserve account should be established for costs incurred under Accounts 415–417, 419 and 420. NJDOT comments that the commuter authority should be named as an insured under the railroad's policies; that it should be entitled to obtain its own insurance if it so desires; and that determination of the insurance costs from others than the railroad's underwriters should be permitted.

ConRail responds that insurance and liability expenses are incurred by a railroad directly as a result of providing certain transportation services. These expenses are therefore directly related to commuter services and must be considered as costs which are properly the responsibility of the subsidizer. It is endeavoring to obtain from its underwriters segregations of the premiums resulting from operation of the commuter services, but such segregations may not be possible for all policies. ConRail self-insures against risks of less than $2,000,000, and believes it would be unduly costly to completely eliminate the self-insurance. It suggests that the railroad should determine from its underwriters not only the difference in the premium if all the commuter services were discontinued, but also the additional premium to hold both the railroad and the subsidizer harmless from any liability arising out of the commuter operations. The avoidable premium costs as so determined would then be apportioned among all the subsidizers on the basis of passenger miles operated for each subsidizer.

ConRail further suggests that, to cover liabilities coming within normal deductible amounts, a casualty reserve account be established, into which each subsidizer initially would pay amounts equal to 6 percent of the total costs billed by the railroad. After five years of experience had been accumulated, appropriate adjustments would be made in the percentage rate for payments into the reserve.

The Office agrees that the subsidizers should be responsible for any costs reasonably and necessarily sustained under Accounts 414, 415–417, 419 and 420 arising out of the operation of the commuter services. It believes that it will be possible to obtain from underwriters segregated premiums for the commuter services to the extent that there is any additional premium attributable to the continuance of these services. It agrees also with NJDOT that the subsidizers should be entitled to obtain premium quotations from other sources than the railroad's underwriters, and to furnish the insurance themselves, provided that the railroad is named as an insured and is adequately protected against risks arising from the commuter operations.

Because of the high costs of insuring against all risks with no deductible, the interests of the subsidizers will probably best be served by a common casualty reserve in which all subsidizers participate, along the lines ConRail suggests. The insurance costs also presumably will be lower if insurance is provided under common policies. However, ConRail should provide substantiation for the amounts to be paid by the subsidizers into the reserve. Also, to provide for the contingency that some commuter services may be terminated, it would appear that the payments into the reserve should be reviewed at the close of each subsidy period. The parties of course may agree upon any contractual arrangements which provide the necessary liability protection, but § 1127.5(h) (12) and (13) will apply in the event of disagreement.

Administrative costs. Both the railroad and the commuter authorities will necessarily incur costs in order to comply with the standards adopted herein and with the application procedures issued by UMTA. These costs include the legal, technical and other out-of-pocket expenses incurred in formulating the notice of intention, the subsidy estimate, and the offer of financial assistance; in developing the facilities and manpower utilization plans and negotiating the subsidy agreements; in maintaining, reporting and auditing the actual revenue and cost data; and in making application to UMTA for emergency operating assistance.

The regional standards (49 CFR 1125.5(e)) compensate the railroad .5 percent of total annual revenues attributable to the subsidized light-density line to cover all costs of administering freight subdsidy programs. A similar allowance is not provided in the commuter standards, since unlike the freight standards, the railroad may assign as avoidable costs the actual general expenses, including salaries and legal, that are directly attributable to the commuter service. These accounts may properly include the railroad's actual costs of administering the subsidy program. Similarly, the final standards authorize the subsidizer to seek reimbursement from UMTA for the additional costs incurred by them in participating in the subsidy program.

It should be emphasized that the railroad and subsidizers may not allocate these general expenses on estimates of time expended or arbitrary formulae. Rather these expenses must be predicated on detailed records of time spent by the persons administering the program and on invoices for services performed. Moreover, the cost of participating in this rulemaking should not be considered avoidable under the subsidy standards or for purposes of seeking Federal reimbursement.

Interest. The treatment of working capital and interest on overdue payments was discussed in both the further notice (41 FR at 20108) and the second notice (41 FR at 26939). SEPTA argues that it would unduly restrict local governmental flexibility to require that interest be paid on late payments and questions the Office's statutory authority to mandate payment of interest in such a situation. ConRail states that its experience during its first several months, as well as that of its predecessors, reflects the difficulties encountered by railroads in collecting contractually or statutorily required subsidy payments. It urges that interest on delayed subsidy payments continue to accrue, irrespective of a decision to initiate discontinuance procedures.

The standards contemplate that the railroad will not be compelled to commit its working capital to the commuter services; therefore, no working capital component is included in the investment base on which a reasonable return is allowed. Conversely, the railroad should not be permitted to amass interest-free working capital for its other services by overestimating the amounts of required advance payments from the subsidizers. In view of these considerations, the standards provide that interest shall accrue at 100 basis points over current prime with respect both to delayed subsidy payments and to refunds of interim subsidy payments to the subsidizer.

Accounting periods. Several of the comments addressed problems which may arise because the deadline dates in the standards do not coincide with the termination of normal accounting periods. For the most part, the dates set forth in the standards are dictated by the terms of the statute, which the Office lacks the authority to change. However, the potential for unnecessary expense resulting from rigid application of some dates is recognized, and it is intended that appropriate prorations of revenues, costs, and return be made where necessary to avoid duplicative recordkeeping or inconvenient accounting cut-off dates.

Advertising-notice. The National Newspaper Association (NNA) urges that commuter authorities which notify railroads of their intention to provide financial assistance be required to publish such notice in considerable detail once a week for three consecutive weeks in a

V 41 150 AUG 3 76 UMI

newspaper of general circulation in each county of each State within the Northeast Corridor, "or similarly, future areas affected by such changes". NNA urges also that opportunity be provided for the public to respond to proposed payment plans promulgated by transportation officials.

The statute provides for public notice of proposed abandonment of rail properties and discontinuance of rail service (Section 1a of the Interstate Commerce Act). It does not provide for public notice regarding the continuance under subsidy of commuter service. The Office would, however, expect the commuter authorities, ConRail, and AMTRAK to furnish the press and other communications media with timely releases to keep the interested public informed of all developments affecting the continuance of commuter rail services.

Accordingly, *it is ordered*, That Part 1127 of Chapter X of Title 49 of the Code of Federal Regulations appended to this report is hereby adopted effective August 3, 1976.

Issued July 29, 1976, by Alan M. Fitzwater, Director, Rail Services Planning Office.

By the Commission.

ROBERT L. OSWALD,
Secretary.

Part 1127 is added to 49 CFR Ch. X to read as follows:

Sec.
1127.1 Definitions.
1127.2 Purpose and scope.
1127.3 Subsidy agreement.
1127.4 Revenues attributable to commuter rail service.
1127.5 Avoidable costs of providing service.
1127.6 Valuation of rail properties.
1127.7 Reasonable return on the value of the properties.
1127.8 Emergency operating assistance.
1127.9 Access to records, audit and inspection.
Appendix I—Subsidy estimate.
Appendix II—Financial status report.
Appendix III—Speed factored gross tons formula.

AUTHORITY: Sec. 205(d) (5) and (6) of the Regional Rail Reorganization Act of 1973, Pub. L. 93-236, 87 Stat. 985, 994, as amended by Section 309 of the Railroad Revitalization and Regulatory Reform Act of 1976, Pub. L. 94-210, 90 Stat. 31, 57.

§ 1127.1 Definitions.

Unless otherwise required by the context, the following definitions apply in this Part:

"Account" means an account in the Commission's Uniform System of Accounts for Railroad Companies (49 CFR Part 1201).

"Act" means the Regional Rail Reorganization Act of 1973 (45 U.S.C. 701 et seq.) as amended by the Rail Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210 (90 Stat. 31 et seq.)).

"Base period" means a minimum of three months and a maximum of twelve months for which the latest traffic, revenue and cost data are available.

"Common costs" means charges in the railroad's accounts for facilities, properties and services in the designated area which are incurred by the subsidizer and other users and which are not solely for the benefit of a particular service.

"Commuter service" means the specific service for which the subsidizer has offered or agreed to make continuation payments.

"Corporation" means the Consolidated Rail Corporation.

"Designated area" means a portion of the railroad's facilities, such as track segments, buildings and yards, for which costs are collected and apportioned between commuter and other services.

"Facilities Utilization Plan" means a document identifying and itemizing the road and equipment properties used in providing commuter passenger service.

"Form R-1" means the railroad's annual report filed with the Commission in accordance with the requirements of section 20 of the Interstate Commerce Act.

"Manpower Utilization Plan" means a document identifying the railroad forces used in providing commuter passenger service.

"Office" means the Rail Services Planning Office established by section 205 of the Act.

"Rail Act" means the Railroad Revitalization and Regulatory Reform Act of 1976, Pub. L. 94-210 (90 Stat. 31).

"Railroad" means a common carrier by railroad, as defined in section 1(3) of the Interstate Commerce Act (49 U.S.C. 1(3)), including the Consolidated Rail Corporation and the National Railroad Passenger Corporation.

"Secretary" means the Secretary of Transportation or his designated representative.

"Subsidizer" means a State or a local or regional transportation authority which offers to make or makes a payment to continue commuter rail service pursuant to sections 304(c) and 304 (e) of the Act.

"Subsidy period" means the term for which a subsidy agreement has been negotiated and is in operation.

"UMT Act" means the Urban Mass Transportation Act of 1964, as amended (90 Stat. 143).

§ 1127.2 Purpose and scope.

(a) Section 304(e)(1) of the Act requires the Corporation (or a profitable railroad) to provide commuter rail service for a period of 180 days commencing April 1, 1976, on all rail properties over which a railroad in reorganization in the Northeast and Midwest Region, or a person leased, operated, or controlled by such a railroad, was providing service as of the date regardless of whether or not the properties were designated in the Final System Plan of the United States Railway Association as rail properties over which rail service is required to be operated.

(b) Section 304(c)(2)(A) and section 304(e)(4) of the Act provide that no commuter rail service may be discontinued, and no rail properties may be abandoned, if a subsidizer offers financial assistance in the form of a rail service continuation payment which is designed to cover the difference between the avoidable costs of providing commuter rail service on the rail properties and the revenues attributable to such properties, together with a reasonable return on the value of the properties. If such an offer is made on or before September 27, 1976, the Corporation (or profitable railroad) shall continue to provide such service thereafter.

(c) Section 205(d)(6) of the Act authorizes the Office to determine and publish standards for defining (1) the "revenue attributable to the rail properties", (2) the "avoidable cost of providing service", and (3) a "reasonable return on value", as those phrases are used in section 304 of the Act.

(d) Section 205(d)(5) of the Act directs the Office to determine and publish standards for the computation of subsidies for commuter rail service (except passenger service compensation disputes subject to the jurisdiction of the Commission) which are consistent with the compensation principles described in the Final System Plan and which avoid cross subsidization among commuter, intercity, and freight rail services.

(e) This part sets forth a method for establishing an estimated subsidy payment, which will enable a prospective subsidizer to formulate a subsidy offer within the context of section 304 of the Act and provide a basis for subsidy payment pending the negotiation of a subsidy agreement. When an agreement is concluded, subsequent payments shall be based on the negotiated subsidy. The final payment shall be adjusted to reflect the actual revenues derived, avoidable costs incurred and value of the properties used in the subsidy period.

(f) Section 304(e)(5)(A) of the Act and section 17(a)(1) of the UMT Act direct the Secretary to reimburse the Corporation, the National Railroad Passenger Corporation, other railroads, and, if applicable, the trustee or trustees of a railroad in reorganization in the Midwest and Northeast region for 100 percent of the losses incurred in the 180-day mandatory operation period not otherwise paid by subsidizers which would have been payable had these standards been in effect on April 1, 1976.

(g) Section 304(e)(5)(B) of the Act and section 17(a)(2) of the UMT Act direct the Secretary to reimburse subsidizers for the additional costs incurred by them for commuter operation during the 180-day mandatory operation period and for commuter rail service continuation payments made by them after September 27, 1976. The amount of reimbursement shall be 100 percent for the period April 1, 1976, through March 26, 1977; 90 percent for the period March 27, 1977, through March 31, 1978; and 50 percent for the period April 1, 1978, through September 27, 1978. The Secretary may not provide emergency operating assistance after March 31, 1978, unless the prospective subsidizer provides adequate assurances to the Secretary that the commuter service for which such assistance is sought will be continued after September 27, 1978.

(h) Section 205(d)(5)(B) of the Act directs the Office to determine the standards under which the Secretary will provide the emergency operating assistance authorized in section 17(a) of the UMT Act.

(i) This part also establishes the criteria which will govern the reimbursement by the Secreary of: (1) The losses incurred by the Corporation, other railroads or trustees for continuing commuter service during the mandatory operation period; and (2) the additional costs incurred by subsidizers for subsidizing commuter service from April 1, 1976, through September 27, 1978.

§ 1127.3 Subsidy agreement.

(a) *Notice of intention.* A prospective subsidizer shall notify the railroad of its intention to offer financial assistance for the continuation of commuter service no later than 40 days before the offer is to be tendered. The Notice shall specify:

(1) All modifications in the fares to be charged and in the existing level of service, including changes in routes, schedules, train seating capacity, performance standards, equipment units, and such other dimensions of service as the subsidizer may specify;

(2) The length of the subsidy period; and

(3) The name and address of the prospective subsidizer.

A copy of the Notice shall be served concurrently on the Office and the Secretary.

(b) *Subsidy estimate.* The railroad shall compute a subsidy estimate predicated on the information contained in the Notice and the revenues attributable, avoidable costs of providing service, and reasonable return on value for the base period in accordance with the methodology prescribed in §§ 1127.4-7 and in the form called for in Appendix I. The estimate shall be adjusted as necessary to allow for any actual or projected variations in service, e.g., seasonal fluctuations in traffic or extraordinary events affecting service levels. The bases of any adjustments shall be stated with particularity. The railroad's estimate and the general terms it proposes for an agreement shall be served on the prospective subsidizer (with copies to the Office and the Secretary) as soon as possible but no later than 30 days after the Notice is received. The railroad's initial estimate (which must be served 30 days after the notice is received but no later than September 17, 1976) may be based on the best data available.

(c) *Offer of financial assistance.* The prospective subsidizer must formulate an offer of subsidy predicated on the railroad's estimate, but may propose modifications which are consistent with these standards. The initial offer of subsidy must be served on the railroad (with copies to the Office and the Secretary) no later than September 27, 1976, to avoid the discontinuance of service. Subsequent offers of subsidy must be served not less than 60 days before the end of the subsidy period. The offer shall contain:

(1) A subsidy estimate in the form prescribed in Appendix I;

(2) A resolution, authorization or other evidence that the prospective subsidizer has, or within a reasonable time will have, the authority to execute and fulfill an agreement to subsidize the service;

(3) Information demonstrating that the prospective subsidizer has or will have the financial resources to subsidize the service and otherwise fulfill its contractual obligations; and

(4) A subsidy payment for the first month of service.

(d) *Negotiations.* (1) *General.* The railroad and the prospective subsidizer shall negotiate an initial subsidy agreement as soon as possible after September 27, 1976, but in no event later than March 26, 1977. The parties may agree in arm's-length negotiations to provisions which modify the standards, subject to review of such modifications by the Office. The Office would not expect to disapprove variations from the standards which are the product of arms-length negotiations and which are shown to be reasonable in the light of the pertinent facts and circumstances. When an agreement has been reached, a copy shall be promptly filed with the Office for its review.

(2) *Significant use.* Unless the parties agree otherwise, the subsidizer shall be deemed a significant user of the rail properties in the areas designated on the facilities utilization plan, and shall be assigned the directly identifiable and common costs of providing the commuter passenger service.

(3) *Insignificant use.* A subsidizer proposing incidental use of rail properties in the designated area may be assigned the directly identifiable costs incurred in providing the commuter passenger services, plus an allowance for overhead as negotiated by the parties. If the parties are unable to agree on an overhead allowance, the methodology for apportioning common costs specified in § 1127.5 shall apply.

(4) *Mediation.* Upon request of either party, the Office will mediate disagreements concerning the facilities utilization plan, the manpower utilization plan, the subsidy agreement, and the application of these standards.

(e) *Subsidy payments.* The subsidizer shall make subsidy payments monthly in advance, based either upon the negotiated estimate or, in the absence of a subsidy agreement, upon the subsidizer's offer of financial assistance. The payment shall be determined by dividing the total subsidy by the number of months in the subsidy period. Interest on overdue subsidy payments shall accrue, at a rate of 100 basis points (1 percentage point) above the prime rate currently quoted at a principal bank in the commuter service area, for such period as they remain unpaid and the railroad has not terminated the service. The final subsidy payment shall be adjusted retroactively within 60 days of the filing of the final Financial Status Report required by subsection (f) to reflect the actual revenues derived, avoidable costs incurred and value of the properties used in providing rail commuter service during the subsidy period. The railroad shall establish a system to collect the data necessary to make the adjustment. If the subsidizer is entitled to a refund, the railroad shall pay interest on the overpayment, at a rate of 100 basis points (1 percentage point) above the prime rate currently quoted at a principal bank in the commuter service area, accruing from the end of the subsidy period until the refund is made.

(f) *Financial status report.* The railroad shall submit to the subsidizer and the Office a Financial Status Report in the form prescribed in Appendix II to this Part within 60 days after the end of each three months of the subsidy period. Significant deviations from the subsidy estimate must be explained. Unless the parties otherwise agree, the second-to-last report will be the basis for negotiating the subsequent subsidy agreement. The final report will be the basis of the subsidy payment adjustment.

§ 1127.4 Revenues attributable to commuter rail service.

The revenues attributable to commuter rail service shall be the total of the revenues, rentals and allowances assigned in accordance with this section. Where a third party controls revenues or

V 41 150 AUG 3 76 UMI

rents attributable to the commuter service, the railroad shall credit the commuter service with the amounts of such revenues or rents credited to it by the third party, and shall use its best efforts to negotiate equitable apportionments. Revenues attributable to two or more commuter services shall be apportioned between them on the basis of car-miles operated under the respective offers of financial assistance or subsidy agreements. The revenues, rentals and allowances assigned shall be derived from the following accounts.

(a) *Revenue accounts.* (1) *Account 101—Freight (mail portion only); Account 102—Passenger; Account 103—Baggage; Account 105—Parlor and chair car; Account 108—Other passenger train; Account 131—Dining and buffet.* The revenues assigned to these accounts shall be the actual revenues attributable to commuter service that are directly identified with the operation of commuter trains, excluding rail service continuation payments [Account 108(d)].

(2) *Account 132—Hotel and restaurant; Account 133—Station, train, and boat privileges; Account 142—Rents of buildings and other property; Account 143—Miscellaneous.* The revenues assigned to these accounts earned on commuter trains shall be credited directly to the commuter service. The commuter service portion of revenues generated at fixed facilities used in common with other services shall be determined from the relative passenger on-off counts (including pass riders) at those facilities. Special studies of on-off counts may be substituted for continuous records of such counts where desired.

(3) *Account 151—Joint facility—Cr.; Account 152—Joint facility—Dr.* To the extent that the terms of joint facility agreements yield apportionments of revenues to commuter services, the amounts so yielded shall be credited or debited directly to the commuter service. If the terms of the agreements do not yield such apportionments, passenger on-off counts (including pass riders) shall be the basis of apportionment at joint facilities where passengers are boarded or discharged; and at other facilities counts of cars handled as developed from special studies or continuous records shall be the basis of apportionment.

(b) *Rentals.* (1) *Account 508—Joint facility rent income; Account 541—Joint facility rents.* Rentals in these accounts shall be credited or debited to commuter services on the same bases specified in § 1127.4(a)(3).

(2) *Account 504—Rent from locomotives—Cr.; Account 537—Rent for locomotives—Dr.; Account 505—Rent from passenger-train cars—Cr.; Account 533—Rent for passenger-train cars—Dr.; Account 150—Miscellaneous rent income.* The rentals credited or debited to these accounts to the commuter services shall be the actual amounts derived from the rental of commuter service equipment or other property.

(c) *Pass rider allowance.* Attributable revenues of the commuter service shall be credited with an allowance for passengers using passes or reduced fare tickets issued by the railroad (or predecessor companies). The parties may continue existing practices for crediting such allowances. In the absence of an agreement, the amount of such credit shall be determined on the basis of currently applicable fares charged revenue commuter passengers.

§ 1127.5 Avoidable costs of providing service.

(a) *Assignment of costs.* To the maximum extent practicable, the directly identifiable and common costs assigned to the commuter service shall be developed from a facilities utilization plan and a manpower utilization plan, with the assistance of available and appropriate cost and accounting records such as time sheets, material requisitions, charge cards, vouchers, and the like. [All accounts shall be separated between labor and material (non-labor) charges.] Otherwise, costs may be assigned to the commuter service in a manner agreed to by the parties. The parties may rely on historical data; conduct special studies; develop their own apportionment formulae based on use; or agree on a combination of the foregoing. Upon request of either party, the Office will mediate disputes concerning the proper methodology for assigning costs. Any costs which are not assigned under the foregoing procedures shall be assigned in accordance with the methodology prescribed in subsections (e)–(n) below, subject to the condition that either party may request a special study. The requesting party will be responsible for designing the study and obtaining the other party's approval of the design. The results of the study will be binding on both parties unless they mutually agree to disregard them. Avoidable costs common to two or more commuter services shall be apportioned between them on the basis of car-miles operated under the respective offers of financial assistance or subsidy agreements.

(b) *Facilities utilization plan.* The parties shall develop a facilities utilization plan which identifies and itemizes the road and equipment properties of the railroad used in providing the commuter service and assigns to each property or group of properties the agreed percentage of use devoted to the commuter service. The plan shall also identify those road properties which are avoidable upon discontinuance of the commuter service for the purposes of determining road depreciation, retirement and dismantling charges [§§ 1125.7(e)(11)–(13)] and value of road properties [§ 1127.6(b)]. The roadway properties and facilities should be divided into areas or segments consisting of stretches of property where operations or use remain fairly constant and pinpointing those places where the operations or use change (e.g., number of tracks change, branch lines enter or diverge, and other similar changes). Properties and equipment normally covered in a facilities utilization plan include: trackage; signal system; electrification system; interlocking plants; bridges and drawbridges; stations and platforms; rail-highway crossings; yards; power plants; shops, enginehouses, and servicing facilities; storehouses; land; rolling stock; and other facilities or equipment. Source data normally includes equipment rosters, track diagrams or maps of the properties in the above categories, and usage measures for each class of facility and equipment by specific facility or segment (e.g., track density charts, train sheets, timetables, blocking records, yarding programs, station workloads, etc.) to determine the percentage of use of facilities or equipment in providing the commuter service.

(c) *Manpower utilization plan.* The parties shall also develop a manpower utilization plan which identifies the railroad forces used in providing the commuter service by listing the persons employed according to job title, work location, account and percentage of time devoted to commuter service duties.

(d) *Special studies.* All special studies shall be conducted jointly by the railroad and the subsidizer. The length and frequency of the studies and the standardized measurement procedures utilized in the studies shall be negotiated by the parties. In the event of impasse, either party may submit the dispute to the Office for resolution and its decision will be final. The cost of studies which are prescribed by these standards or which the parties voluntarily agree to perform shall be attributed to the commuter service. The cost of studies performed at the request of only one party shall be borne exclusively by that party and shall not be attributed to the commuter service.

(e) *Maintenance of way and structures.* (1) Yard and way switching tracks—*Account 202—Roadway maintenance; Account 206—Tunnels and subways; Account 208—Bridges, trestles and culverts; Account 210—Elevated structures; Account 212—Ties; Account 214—Rails; Account 216—Other track material; Account 218—Ballast; Account 220—Track laying and surfacing.* The common costs assigned to these accounts shall be apportioned on the ratio of the commuter service cars dispatched in the designated area to the total cars dispatched in the designated area.

(2) Running tracks—*Account 202—Roadway maintenance; Account 206—Tunnels and subways; Account 208—Bridges, trestles and culverts; Account 210—Elevated structures; Account 212—Ties; Account 214—Rails; Account 216—Other track material; Account 218—Ballast; Account 220—Track laying and surfacing; Account 507—Rent from work equipment-CR.; Account 540—Rent from work equipment-Dr.* The common costs assigned to these accounts shall be apportioned on the ratio of the commuter service Speed Factored Gross Tons (SFGT) for the designated area to the total SFGT for all traffic in the designated area. The commuter service SFGT shall be derived by subtracing the SFGT for freight and/or intercity passenger from the total SFGT for all traffic. The SFGT shall be calculated in accordance

with the formula set forth in Appendix III.

(3) *Account 227—Station and office buildings.* The common costs assigned to these accounts shall be first apportioned on the ratio of total square feet devoted to passenger service to the total used square feet in the facility. The passenger portion shall then be apportioned on the ratio of the commuter service on-off passenger count (including pass riders) in the designated area to the total on-off passenger count (including pass riders) in the designated area.

(4) *Account 221—Fences, snowsheds and signs; Account 229—Roadway buildings; Account 265—Miscellaneous structures; Account 269—Roadway machines; Account 271—Small tools and supplies; Account 272—Removing snow, ice and sand; Account 273—Public improvements-maintenance; Account 281—Right-of-way expense.* The common costs assigned to these accounts shall be apportioned on the ratio of the amounts in Accounts 202–220 assigned to commuter service to the railroad's total in Accounts 202–220 for the designated area.

(5) *Account 231—Water stations.* The common costs assigned to this account shall be apportioned on the ratio of the locomotive unit miles (diesel and electric) generated from commuter service using these facilities in the designated area to the railroad's total locomotive unit miles in the designated area (diesel and electric) for all service.

(6) *Account 233—Fuel stations.* The common costs assigned to this account shall be apportioned on the ratio of the amount of fuel dispensed in commuter service to the total amount of fuel dispensed for all services using these facilities.

(7) *Account 235—Shops and engine houses.* The common costs assigned to this account shall be apportioned on the ratio of the labor charges expended servicing commuter service equipment in the designated area to the railroad's total labor charges expended servicing all equipment in the designated area.

(8) *Account 249—Signals and interlockers.* The common costs assigned to this account shall be apportioned on the ratio of the number of commuter service train movements through these facilities to the total of all train movements through these facilities.

(9) *Account 253—Power plants.* The common costs assigned to this account shall be apportioned on the ratio of the commuter service amounts in Accounts 227 and 235 in the designated area to the railroad's total of these accounts in the designated area.

(10) *Account 257—Power-transmission systems.* The common costs assigned to this account shall be apportioned on the ratio of the kilowatt hours consumed by the commuter service to the total kilowatt hours consumed by all services in the designated area.

(11) *Account 266—Road property-depreciation.* There shall be no apportionment of common costs under this account. Road property depreciation charges to commuter service shall be computed by applying the railroad's composite rates of depreciation reported in Schedule 211B of Form R–1 to the undepreciated book values of the road properties determined in accordance with § 1127.6(b).

(12) *Account 267—Retirements-Road.* There shall be no apportionment of common costs under this account. The charges to commuter service in the designated area shall be the actual amounts reported in Schedule 324 of Form R–1, which are identified with the retirement of road properties the value of which is assigned to commuter service under § 1127.6(b).

(13) *Account 270—Dismantling retired road property.* There shall be no apportionment of common costs under this account. The charges to commuter service in the designated area shall be actual costs of dismantling the road property identified in § 1127.5(e)(12).

(14) *Account 278—Maintaining joint tracks, yards and other facilities-Dr.; Account 279—Maintaining joint tracks, yards and other facilities-Cr.* The charges or credits to commuter service costs assigned to these accounts shall be determined on the same basis specified in § 1127.4(a)(3).

(15) *Account 201—Superintendence; Account 274—Injuries to persons; Account 275—Insurance; Account 276—Stationery and printing; Account 282—Other expenses.* The common costs assigned to these accounts shall be apportioned on the ratio of the commuter service amounts in Accounts 202–265, 269–273, 278, 279 and 281 in the designated area to the railroad's total for these accounts in the designated area.

(16) *Account 247—Communication Systems.* The common costs assigned to this account shall be apportioned on the ratio of the commuter service amounts in Accounts 201, 301, 351, 371, 372 and 377 in the designated area to the railroad's total for these accounts in the designated area.

(f) *Maintenance of equipment.* (1) *Account 311—Locomotive-Repairs.* This account shall be separated between yard and other (road) with a further separation between diesel and other (electric). The common costs assigned to this account for yard locomotives shall be based on the results of the special study described in § 1127.5(h)(4). The costs assigned to this account for other locomotives (road) shall be the actual costs that are directly attributable to the commuter service.

(2) *Account 317—Passenger train car-Repairs.* The costs assigned to this account shall be the actual costs of repairs to commuter service equipment.

(3) *Account 326—Work equipment-Repairs.* The common costs assigned to this account shall be apportioned on the ratio of the commuter service amounts in Accounts 202–220 to the railroad's total for these accounts in the designated area.

(4) *Account 328—Miscellaneous equipment-Repairs.* The common costs assigned to this account shall be apportioned on the ratio of the hours devoted to commuter service in the designated area to the total hours used in the designated area. A special study may be conducted to develop the hours of use of such equipment.

(5) *Account 329—Dismantling retired equipment; Account 330—Retirements-Equipment; Account 331—Equipment-Depreciation.* There shall be no apportionment of common costs under these accounts. The charges to commuter service shall be amounts directly identified with the equipment, the values of which are assigned to commuter services under § 1127.6(a).

(6) *Account 336—Joint maintenance of equipment expenses-Dr.; Account 337—Joint maintenance of equipment expenses-Cr.* The charges or credits to commuter service shall be the amounts which can be directly identified with commuter service equipment under the terms of the related joint facility agreements.

(7) *Account 301—Superintendence; Account 302—Shop machinery; Account 304—Power-plant machinery; Account 305—Shop and power-plant machinery-Depreciation; Account 306—Dismantling retired shop and power-plant machinery; Account 332—Injuries to persons; Account 333—Insurance; Account 334—Stationery and printing; Account 339—Other expenses.* The common costs assigned to these accounts shall be apportioned on the ratio of the commuter service amounts in Accounts 311–329, 336, 337 to the railroad's total for these accounts in the designated area.

(g) *Traffic. Account 351—Superintendence; Account 352—Outside agencies; Account 353—Advertising; Account 354—Traffic associations; Account 357—Insurance; Account 358—Stationery and printing; Account 360—Other expenses.* There shall be no apportionment of common costs under these accounts. The costs assigned to commuter service shall be those amounts directly identified with such services.

(h) *Transportation.* (1) *Account 372—Dispatching trains.* The common costs assigned to this account shall be apportioned on the ratio of the commuter train hours in the designated area to total train hours in the designated area.

(2) *Account 373—Station employees.* The common costs assigned to this account shall be subdivided into 4 categories: (i) Ticket sales and service; (ii) other station costs; (iii) station master; and (iv) mail and baggage. The common costs in these subaccounts shall be apportioned on the ratio of commuter service units in the designated area to the total units in the designated area for the respective units: (v) Weighted ticket sales; (vi) passenger on-off count (including pass riders); (vii) trains stopping at stations in the designated area; and (viii) units of mail and baggage handled.

(3) *Account 376—Station supplies and expenses.* The common costs assigned to this account shall be apportioned on the ratio of the commuter service amounts in Account 373 to the railroad's total for this account in the designated area.

V 41 150 AUG 3 76 UMI

(4) *Account 377—Yardmasters and yard clerks; Account 378—Yard conductors and brakemen; Account 379—Yard switch and signal tenders; Account 380—Yard enginemen; Account 382—Yard switching fuel; Account 383—Yard switching power produced; Account 384—Yard switching power purchased; Account 388—Servicing yard locomotives; Account 389—Yard supplies and expenses.* A special study shall be conducted to determine the ratio of the commuter service (diesel, electric) yard locomotive unit hours in the designated area to the railroad's total (diesel, electric) yard locomotive unit hours in the designated area. The common costs assigned to these accounts shall be amounts in the railroad's accounts for the designated area multiplied by the ratio determined from the study. For this purpose, the term "locomotive" shall include motor cars. In conducting such a study, the railroad should recognize the variances of: (i) weekend versus weekday demand, (ii) required yard crew manning to perform the switching services for various users, and (iii) the effect of peak service on yard manning.

(5) *Account 390—Operating joint yards and terminals-Dr.; Account 391—Operating joint yards and teminals-Cr.; Account 412—Operating joint tracks and facilities-Dr.; Account 413—Operating joint tracks and facilities-Cr.* The charges or credits to commuter service under these accounts shall be determined on the basis specified in § 1127.4(a)(3).

(6) *Account 392—Train enginemen; Account 394—Train fuel; Account 401—Trainmen.* There shall be no apportionment of common costs under these accounts. The costs assigned to these accounts shall be the actual costs that are directly attributable to commuter service.

(7) *Account 395—Train power produced; Account 396—Train power purchased.* There shall be no apportionment of common costs under these accounts. The costs assigned to these accounts shall be the actual costs of the kilowatt hours (KWH) consumed for commuter service in the designated area. These KWH shall be weighted to reflect the peak period power demands, i.e., time of day and volume of power demanded.

(8) *Account 400—Servicing train locomotives.* The common costs assigned to this account shall be apportioned on the ratio of the total locomotive units (road) serviced in commuter service in the designated area to the railroad's total locomotive units (road) serviced in the designated area.

(9) *Account 402—Train supplies and expenses.* The common costs assigned to this account shall be apportioned on the ratio of commuter cars dispatched in the designated area to the railroad's total cars dispatched in the designated area. Commuter cars shall include passenger cars and motor cars.

(10) *Account 404—Signal and interlocker operation; Account 405—Crossing protection.* The common costs assigned to these accounts shall be apportioned on the ratio of the number of commuter service train movements in the designated area to the total train movements in the designated area.

(11) *Account 411—Other expenses.* There shall be no apportionment of common costs under this account. The costs assigned to this account shall be the actual costs that are directly attributable to commuter service.

(12) *Account 414—Insurance.* The costs assigned to this account for commuter service shall be determined by ascertaining from the railroad's underwriters: (i) The difference in the current premium if commuter service were not operated and (ii) the additional premium required to hold the railroad and the subsidizers harmless from any liability. Such amounts shall be apportioned between the several commuter services operated by the railroad on the basis of the relative numbers of passenger miles (including pass riders).

(13) *Account 415—Clearing wrecks; Account 416—Damage to property; Account 417—Damage to livestock on right-of-way; Account 419—Loss and damage-baggage; Account 420—Injuries to persons.* The subsidizers shall be responsible for any costs incurred under these accounts resulting from the operation of the commuter service. The railroad shall, if the subsidizer agrees, establish a reserve for the purpose of holding the subsidizer harmless from any liabilities under these accounts arising out of the operation of commuter services on its properties, and each commuter service participating in the reserve shall bear a proportion of the costs of the reserve equal to its proportion of the total passenger miles (including non-revenue passenger miles) generated by participating services.

(14) *Account 371—Superintendence; Account 407—Communication system operation; Account 410—Stationery and printing.* The common costs assigned to these accounts shall be apportioned on the ratio of the commuter service amounts in all other transportation accounts except Account 409 to the railroad's total for these accounts in the designated area.

(l) *Miscellaneous operations.* (1) *Account 441—Dining and buffet service; Account 446—Other miscellaneous operations.* There shall be no apportionment of common costs under these accounts. The costs assigned to these accounts shall be the actual costs that are directly attributable to commuter service.

(2) *Account 447—Operating joint miscellaneous facilities-Dr.; Account 448—Operating joint miscellaneous facilities-Cr.* The charges or credits to commuter service under these accounts shall be determined on the same basis specified in § 1127.4(a)(3).

(j) *General.* (1) *Account 451—Salaries and expenses of general officers; Account 452—Salaries and expenses of clerks and attendants; Account 453—General office supplies and expenses; Account 454—Law expenses; Account 455—Insurance; Account 457—Pensions; Account 458—Stationery and printing; Account 460—Other expenses.* There shall be no apportionment of common costs under these accounts. The costs assigned to these accounts shall be the actual costs that are directly attributable to commuter service. These costs may include the actual expenses incurred in administering the subsidy program.

(2) *Account 461—General facilities-Dr.; Account 462—General joint facilities-Cr.* The charges or credits to commuter service under these accounts shall be determined on the same basis specified in § 1127.4(a)(3).

(k) *Fringe benefits.* Fringe benefits shall be assigned on a basis of a percentage of total wages. The percentage shall be developed by using data from the railroad's latest Form R–1. The total of all health and welfare accounts (Accounts 277, 335, 359, 409, 449, and 465) taken from Sch. 320, Col. (b) shall be added to the total of payroll taxes, old-age retirement and unemployment insurance, taken from Sch. 350, and divided by the total employee compensation taken from Sch. 320, Col. (b). The resulting percentage shall be applied to the labor costs in each account chargeable to commuter service.

(l) *Revenue taxes.* There shall be no apportionment of revenue taxes. The commuter service shall be assigned those revenue taxes directly attributable to commuter revenues.

(m) *Property taxes.* There shall be no apportionment of property taxes. The property taxes chargeable to a commuter service shall be those identified with properties used in such service, as determined under § 1127.6(b).

(n) *Performance standards-penalties and incentives.* The subsidy agreements may include reasonable provisions as agreed by the parties for penalties for service inferior to stipulated performance standards and incentive payments for superior performance. Penalties withheld from subsidy payments by the subsidizer under such agreements shall be treated as reductions of avoidable costs and incentive payments shall be treated as additions to avoidable costs.

§ 1127.6 Value of rail properties.

The value of rail properties on which a reasonable return is allowed shall consist of:

(a) The net book value of equipment furnished by the contracting carrier for commuter service, after deduction of accrued depreciation; and

(b) The net book value of those roadway and structures properties which are used in commuter services and which could be disposed of if commuter services were discontinued. Such net book value shall include the net liquidation values of properties acquired April 1, 1976, by the Corporation or National Railroad Passenger Corporation, plus the value of additions and betterments after that date for commuter service, less accrued depreciation. It shall not include the value of properties owned by public bodies or the trustees of debtor estates.

(c) If the book values of road or equipment property are adjusted upward or downward as a result of final orders of the special court, such adjusted values shall be reflected in future subsidy payments, but without retroactive effect.

§ 1127.7 Reasonable return on the value of the properties.

The reasonable return shall be 7.5 percent per annum on the sum of the two elements of the investment based computed in accordance with § 1127.6.

§ 1127.8 Emergency operating assistance.

(a) *Mandatory period-losses.* The railroad shall be entitled to reimbursement by the Secretary for 100 percent of the losses reasonably and necessarily incurred by it for continuing during the mandatory period (from April 1, 1976, through September 27, 1976, or any extension of such period resulting from the application of Federal law), the same level of commuter rail service as was provided during the 12-month period ended March 31, 1976. The reimbursement shall be an amount equal to the railroad's actual net avoidable loss and reasonable return on the value of properties, as determined in accordance with § 1127.3–7, minus such financial assistance as it received or was entitled to receive (whichever is greater) under section 304(e)(2) of the Act from a subsidizer during the mandatory operation period. Should the service be terminated by agreement of the railroad and the subsidizer prior to the close of the mandatory operation period, the reimbursement under this paragraph shall be proportionately reduced.

(b) *Mandatory period—additional costs.* A subsidizer shall be entitled to reimbursement by the Secretary for 100 percent of the additional costs reasonably and necessarily incurred by it, during the period April 1, 1976, through September 27, 1976, in preparing the offer of financial assistance or negotiating the subsidy agreement. Payments by the Secretary under this subsection shall not be duplicative of amounts disbursed under paragraphs (a) and (c) of this section.

(c) *Post mandatory period—additional costs.* A subsidizer which makes subsidy payments for the continuance of commuter rail service, during the period from September 28, 1976, through September 27, 1978, shall be entitled to be reimbursed by the Secretary for the additional costs reasonably and necessarily incurred by it to sustain the same level of service being provided during the 12-month period ended March 31, 1976. The amount of reimbursement shall be 100 percent of additional costs for the period September 28, 1976, through March 26, 1977; 90 percent of such costs for the period March 27, 1977, through March 31, 1978; and 50 percent of such costs for the period April 1, 1978, through September 27, 1978. The appropriate percentage for each subsidy period shall be applied to the difference between the actual net avoidable losses and reasonable return incurred in continuing the service, as determined in accordance with §§ 1127.3–7, and the financial assistance the subsidizer was obligated to pay under section 304(e)(2) of the Act during the mandatory period, plus the amounts of any additional administrative costs reasonably and necessarily incurred in complying with these standards.

(d) *Level of service.* The same level of service includes the routes, schedules, train seating capacity, performance standards, and equipment units provided during the 12-month period ended March 31, 1976, and any modifications thereof which do not increase the net avoidable loss and reasonable return on the value of the properties as determined in accordance with §§ 1127.3–7 in excess of the amount which would have resulted from the service level provided during the 12-month period ended March 31, 1976. The railroad or subsidizer may be reimbursed for additional costs necessary to sustain the same level of service arising from wage or price increases or equipment purchases to the extent that the railroad (or its predecessor) had not agreed to absorb, nor the subsidizer to pay, such cost increases. The railroad or subsidizer may not be reimbursed for losses incurred in providing service on new routes; but the level of service on existing routes may be adjusted to the extent that the total of the net avoidable losses and the reasonable return, as determined in accordance with §§ 1127.3–7, based on the level of service provided in the 12-month period ended March 31, 1976, is not thereby exceeded.

(e) *Reductions in service.* If a rail continuation payment is decreased because service is reduced below the level provided during the 12-month period ended March 31, 1976, the financial assistance provided by the subsidizer and the reimbursement of additional costs by the Secretary under § 1127.8(c) shall be reduced in proportion to their respective contributions to the total of the rail service continuation payment as computed prior to such reduction in the level of service.

(f) *Fare increases.* The railroad shall maintain records for each subsidy period segregating the amounts of passenger revenues included in Account 102 resulting from fare increases initiated on or after April 1, 1976. For the purpose of determining the reimbursement by the Secretary of additional costs under § 1127.8(c), such amounts shall be deducted from the attributable revenues computed under § 1127.4. Under no circumstances, however, shall the application of this subsection result in reimbursement by the Secretary of an amount exceeding the subsidy payment determinod pursuant to §§ 1127.3–7.

(g) *Interest on overdue payments.* The amounts of interest accrued on overdue payments under § 1127.3(e) shall be excluded from avoidable costs determined under § 1127.5 for the purposes of determining the reimbursement by the Secretary of additional costs under § 1127.8(c).

(h) *Advance payments.* To assist the subsidizer in making the monthly interim subsidy payments required under § 1127.3(e), the Secretary shall pay monthly in advance to the subsidizer the estimated amounts for reimbursement of additional costs under § 1127.8(c) as modified by §§ 1127.8(e), (f), and (g). The final payment of such reimbursement shall be adjusted retroactively within 60 days of the filing of the last Financial Status Report for each subsidy period to reflect the actual amounts of attributable revenues, avoidable costs, and return on the value of the properties, and the financial assistance the subsidizer was obligated to provide during that subsidy period. The receipt by the subsidizer of any estimated or final payment for reimbursement of additional costs shall be conditioned upon the furnishing by the recipient of such certification or documentation at such times as the Secretary may by regulation require.

(i) *Arbitration.* Under section 304(e)(5)(c) of the Act, the railroad, the subsidizer, and the Secretary may submit any disputes regarding the application of this section to arbitration by a disinterested third person. If the parties are unable to agree upon an arbitrator, the Chairman of the Interstate Commerce Commission or his designated representatice shall serve in that capacity.

§ 1127.9 Access to records, audit and inspection.

(a) The subsidizer, the Office, and the Secretary shall have reasonable access to the records, accounts, working papers, and other documents and to the properties and equipment of any railroad, which provides commuter passenger service or whose properties and equipment are used in providing commuter passenger service for the following purposes:

(1) To verify the accuracy and completeness of the subsidy estimate, the facilities utilization plan, the manpower utilization plan, and the Financial Status Reports;

(2) To audit the actual revenues derived, costs incurred and service units maintained during the subsidy period;

(3) To inspect the properties and equipment used in providing the commuter passenger service and to measure the performance of the railroad under the offer of financial assistance and the subsidy agreement; or

(4) To confirm facts and representations made or to be made in applications for emergency operating assistance.

(b) The properties and records described in paragraph (a) of this section shall be made available for inspection and examination by the subsidizer, the Office, and the Secretary during regular business hours at a time and place mutually agreeable to the parties. The railroad shall also reproduce such records, provided the requesting party pays the reasonable cost thereof.

APPENDIX I—SUBSIDY ESTIMATE

The following information is required to be furnished under § 1127.3(b) in accordance with the methodology set forth in §§ 1127.3–7. The base period data shall be shown for each item.

V 41 150 AUG 3 76 UMI

	Base period
Revenues attributable for:	
1. Passenger	
2. Dining and buffet	
3. Rentals	
4. All other	
5. Total revenues attributable (lines 1 through 4)	
Avoidable costs for:

22. Emergency operating assistance from the secretary (line 20 minus 21)		
TRAFFIC AND OPERATING DATA		
1. Number of passengers carried		
2. Total car miles		

APPENDIX III
SPEED FACTORED GROSS TONS FORMULA

The following formula is required to calculate the SFGT to be used under Section 1127.5(e)(2) of this part.

$$SFGT = Y(.4+.5N)\left[1.088+.490\sqrt{GT}+.032\,GTF+.016\,GTP+.029\,J\,GT\left(\frac{V}{83}+\frac{V^2}{6{,}250}\right)\right]$$

Where:

GT = Total gross tons of traffic (in millions) per track mile per year
GTF = Gross tons of freight traffic (in millions) per track mile per year
GTP = Gross tons of passenger traffic (in millions) per track mile per year
N = Number of tracks per route mile
V = Speed factor (the larger of freight speed or 0.8 times passenger speed)
J = 1 for welded rail
= 2 for bolted rail
Y = As shown below

FRA class of tracks and type of operation	Value of Y: Line main	Line branch	Yard and switch
Class 1, 2, 3; freight only up to 10 MGT per mile per year	1.00	0.51	0.14
Class 1, 2; passenger, or class 1, 2, 3; freight more than 10 MGT per mile per year	1.16	.63	
Class 3; passenger, or class 4, 5, 6; all traffic	1.20		

The speed factors used shall be governed by the highest authorized speed in the designated area for the respective types of service.

Special studies may be conducted from time to time to update the constants used in the formula.

COMBINATION AND MOBILE HOME LOT LOANS

Insurance of Financial Institutions

V 41 150 AUG 3 76
UMI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

[24 CFR Part 201]

[Docket No. R-76-405]

COMBINATION AND MOBILE HOME LOT LOANS

Insurance of Financial Institutions

The Department of Housing and Urban Development is considering amending subtitle B of Title 24 of the Code of Federal Regulations, Chapter II, subchapter B, Part 201, "Property Improvement and Mobile Home Loans," by adding a new subpart D, "Combination and Mobile Home Lot Loans." The proposed regulations implement sections 309(b) (2) and (d) of the Housing and Community Development Act of 1974, Pub. L. 93-383, which amended Title I of the National Housing Act, 12 U.S.C. 1703, to provide for insurance of financial institutions that make loans to finance the purchase of mobile home lots by present owners of mobile homes, and loans for the purchase of a mobile home lot and a mobile home in combination.

The maximum loan for the purchase of an undeveloped mobile home lot would be $5,000 and the maximum term for repayment would be 10 years and 32 days.

The maximum loan for the purchase of a single-wide mobile home and a developed lot would be $20,000 and the maximum term would be 12 years and 32 days.

The maximum dollar amount that could be allocated for the purchase of a developed mobile home lot is $7,500, and the maximum term for repayment would be 10 years and 32 days.

The maximum loan for the purchase of a mobile home consisting of two or more modules and a developed lot is $27,500. The maximum term would be 15 years and 32 days. Mobile homes acquired pursuant to this subpart will be required to be built in accordance with the standards required by the regulations and procedures implementing the National Mobile Home Construction and Safety Standards Act of 1974, Pub. L. 93-383, 42 U.S.C. 5401 et seq.

Mobile home lots acquired will be appraised by an agent of the Secretary and insured lending institutions will be required to determine that marketable title is vested in the borrower or borrowers.

Insured lenders will be required to obtain a first lien on the mobile home and the mobile home lot where both are secured with proceeds of the loan but only on the mobile home lot where only a mobile home lot is acquired by a present owner of a mobile home. The first lien on the mobile home and the mobile home lot where state law permits may be obtained in a single instrument. Where a chattel security and a real estate mortgage are necessary to obtain the requisite first lien or security interest both instruments will be required. For purposes of these regulations where more than one legal instrument is necessary in order to effect a first lien on a mobile home and a mobile home lot, the transactions will nevertheless be considered to be a single loan transaction. The maximum interest rate that will be permitted may not exceed 10½ percent per annum.

Insurance afforded to lending institutions under the proposed regulations is subject to co-insurance as required by Title I of the National Housing Act. The Secretary's insurance liability is limited to no more than 10% of the original net amount of loans properly reported for insurance and 90% of the insured lender's loss on an individual loan.

Interested persons are invited to participate in the making of the proposed rule by submitting written data, views, or statements. Communications should be addressed to the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. All relevant material received on or before September 6, 1976, will be considered by the Secretary before adoption of a final rule. Copies of comments submitted will be available during business hours, both before and after the specified closing date, at the above address, for examination by interested persons.

The Department has made a determination that the program will not have a substantial environmental impact. A Finding of Inapplicability has been filed with the Rules Docket Clerk, at the above address, and is available for inspection during regular business hours.

The proposed amendments are as follows:

Subpart A—Property Improvement Loans

1. In § 201.12 paragraph (b) is proposed to be amended to read as follows:

§ 201.12 Insurance reserve.

* * * * * *

(b) There shall be maintained for each insured a general insurance reserve which shall equal 10 percent of the aggregate amount advanced on all eligible loans originated by such insured pursuant to the provisions of the regulations in Subpart A * * *, D * * * of this part on or after March 1, 1950, and prior to the expiration of the Commissioner's authority to insure under the provisions of this Act, less the amount of all claims approved for payment by the Commissioner in connection with such loans and less the amount of any adjustment made pursuant to paragraph (c) of this section.

* * * * * *

2. In Part 201 a new subpart D is proposed to be added to read as follows:

Subpart D—Combination and Mobile Home Lot Loans

Sec.
201.1500 Incorporation by reference.
201.1501 Purpose.
201.1502 Definitions.

LOAN REQUIREMENTS

201.1504 Maximum loan amounts and terms.
201.1505 Combination loans for the purchase of a mobile home and a developed or undeveloped lot.
201.1506 Loans for the purchase or acquistion of a lot.
201.1507 Title and lien requirements.
201.1508 Waived title objections.
201.1509 Fees and charges.
201.1510 Borrower's minimum investment.
201.1511 Financing charges.
201.1512 Mobile home lot certification.

INSURANCE REQUIREMENTS

201.1513 Insurance reserve.
201.1514 Rate of insurance charge.

DEFAULT UNDER MOBILE HOME OBLIGATION

201.1515 Definition of default.
201.1516 Date of default.
201.1517 Notice of default.
201.1518 Acquisition of property.
201.1519 Notice of foreclosure.
201.1520 Deed in lieu of foreclosure.
201.1521 Notice of acquisition of title.
201.1522 Disposition of property.

CLAIMS

201.1525 Claim application.
201.1526 Amount of claim.
201.1527 Incontestability of claim payment.

EXTENSION OF TIME

201.1528 Actions to be taken by insured lender.

AMENDMENTS

201.1530 Effect of amendments.

AUTHORITY: Sec. 7(d), 79 Stat. 670 (42 U.S.C. 3535(d)); sec. 2, 48 Stat. 1246 (12 U.S.C. 1703), as amended by Pub. L. 93-383, and Pub. L. 94-173.

Subpart D—Combination and Mobile Home Lot Loans

§ 201.1500 Incorporation by reference.

All of the provisions of Subpart B of this part concerning insurance of institutions making mobile home loans shall be applicable to insurance of institutions making mobile home lot loans and combination loans pursuant to this subpart except the following provisions:

Sec.
201.501(b)(1)(j) and (1) Definitions.
201.505 Purpose of subpart.
201.525 Mobile home location standards.
201.530 Maximum loan amount.
201.535 Borrower's minimum investment.
201.540 Financing charges.
201.625 Rate of insurance.
201.560 Maturity provisions.
201.585 Refinancing.
201.595(e) Dealer investigation approval and control.
201.665 Claim application.
201.675 Insurance reserve.
201.900 Amendment and effect.

§ 201.1501 Purpose.

The provisions of this subpart contain the requirements under which an approved financial institution may obtain insurance of combination loans (mobile home and lot) and mobile home lot loans.

§ 201.1502 Definitions.

As used in the regulations in this subpart the term—

(a) "Combination loan" means a loan for the purchase of a mobile home and a mobile home lot, in a single transaction.

(b) "Mobile home lot" means a parcel or portion of land acceptable to the Commissioner as a mobile home site. The parcel or portion of land may be unplatted or may be in a mobile home park, a new subdivision or planned unit development but does not include a lot subject to a condominium agreement.

(c) "Repossession" means a lawful foreclosure, recovery or acquisition of title to property (pursuant to provisions of a security agreement or mortgage) such as to enable the insured lender to convey marketable title to a third party.

(d) "Borrower" means a natural person who applies for and receives a loan for the purchase of a mobile home and a developed or undeveloped lot, or only a developed or undeveloped mobile home lot.

(e) "Owner" means a borrower who presently owns a mobile home and a loan is made under this subpart for the purchase of a lot upon which to place that mobile home, or a borrower who is purchasing a mobile home and a lot under the provisions of this subpart.

(f) "Developed lot" means a lot with water and utility connections, sanitary facilities, appropriate driveways, concrete pad, provision for anchoring, and other improvements which are necessary to make the lot suitable as a mobile home site.

(g) "Undeveloped lot" means a lot with water and utility connections, sanitary facilities, ingress and egress to the property.

(h) "Actuarial method" means the method of allocating payments made on a debt between the amount financed and the finance charge pursuant to which a payment is applied first to the accumulated finance charge and any remainder is subtracted from, or any deficiency is added to, the unpaid balance of the amount financed.

(i) "Manufacturer's invoice" means a document which is officially issued by the manufacturer stating the true wholesale price of a mobile home and its equipment excluding furniture and furnishings. The document shall be on a form which is in general use in the industry.

(j) "Mobile home" means a transportable structure which is ten body feet or more in width and is forty body feet or more in length, and which is built on a permanent chassis, and designed to be used as a dwelling with or without permanent foundation, when connected to the required utilities, and includes the plumbing, heating, air conditioning and electrical systems contained therein. Where a mobile home is composed of two or more modules or sections, each module or section shall have a minimum floor space area of at least 400 square feet.

LOAN REQUIREMENTS

§ 201.1503 Eligibility requirements.

(a) Loans shall be made only for financing in combination, the purchase of a mobile home and a developed or undeveloped mobile home lot or a developed or undeveloped mobile home lot by the owner of a mobile home which mobile home is the principal residence of that owner. Furniture or furnishings may not be included in the loan, or financed with the proceeds of the loan.

§ 201.1504 Maximum loan amounts and terms.

(a) Maximum permissible loan amounts and terms shall not exceed:

(1) $17,500 for 12 years and 32 days in the case of the purchase of a mobile home and an undeveloped lot (but not to exceed $12,500 for the mobile home).

(2) $20,000 for 12 years and 32 days in the case of the purchase of a mobile home and a suitably developed lot (but not to exceed $12,500 for the mobile home).

(3) $25,000 for 15 years and 32 days in the case of a purchase of a mobile home composed of two or more modules and an undeveloped lot (but not to exceed $20,000 for the mobile home).

(4) $27,500 for 15 years and 32 days in the case of a purchase of a mobile home composed of two or more modules and a suitably developed lot (but not to exceed $20,000 for the mobile home).

(b) Maximum permissible loan amounts and terms for a lot purchased or acquired shall not exceed:

(1) $5,000 for 10 years and 32 days for the purchase of an undeveloped lot on which to place a mobile home owned by the borrower.

(2) $7,500 for 10 years and 32 days for the purchase of a suitably developed lot on which to place a mobile home owned by the borrower.

§ 201.1505 Combination loans for the purchase of a mobile home and a developed or undeveloped lot.

(a) A loan to purchase a mobile home and a developed or undeveloped lot on which such mobile home is placed shall be eligible for insurance: *Provided*, That—

(1) The borrower will acquire title to such lot, which shall meet the requirements of § 201.1507 of this subpart;

(2) The loan is secured by a first lien;

(3) The lot is determined by the Commissioner to be an acceptable mobile home site;

(b) Notwithstanding that the borrower's obligation for purchase or acquisition of the lot is evidenced and secured separately from his obligation for the purchase of the mobile home, the instruments evidencing both obligations shall constitute one loan for the purpose of this part.

(c) The cost of the home and lot and the cost of improvements to the home or lot which will not be paid from the proceeds of the loan must be paid by the borrower in cash from his or her own resources.

§ 201.1506 Loans for the purchase or acquisition of a lot.

(a) A loan to finance the purchase or acquistion by the borrower of a lot on which to place a mobile home owned by the borrower shall be eligible, provided, that:

(1) The borrower will acquire title to such lot, which shall meet the requirements of § 201.1507 of this part;

(2) The loan is secured by a first lien;

(3) The cost of the purchase or acquisition of the lot which will not be paid from the proceeds of the loan is paid by the borrower in cash from his or her own resources.

(4) The borrower certifies that he or she owns a mobile home which is the borrower's principal residence.

(5) The borrower certifies that he or she will place his or her mobile home on the lot within six months after the date the loan is made.

(b) For the purposes of this subpart, acquisition or purchase of a mobile home lot includes:

(1) The refinancing of the balance owed by the borrower as purchaser under an existing real estate installment contract; or

(2) The refinancing of existing mortgage loans or other items which are secured of record on a mobile home lot owned by the borrower.

§ 201.1507 Title and lien requirements.

(a) The interest in the realty constituting a mobile home lot purchased or acquired by the borrower wholly or in part with the proceeds of a loan, shall not be less than a fee simple estate;

(b) The title to the realty shall be a marketable title such as is generally acceptable to informed buyers, title companies, and attorneys in the community in which the property is situated.

(c) It shall be the responsibility of the lender to assure that the borrower obtains or has an estate in the land constituting the mobile home lot that meets the requirements of this section and § 201.1508.

§ 201.1508 Waived title objections.

Title shall not be objected to by reason of the following matters:

(a) Violations of a restriction based on race, color or creed, even where such restrictions provide for a penalty of reversion or forfeiture of title or a lien for liquidated damage.

(b)(1) Customary easements for public utilities, party walls, driveways, and other purposes.

(2) Easements for public utilities along one or more of the property lines and extending not more than 10 feet therefrom and for drainage or irrigation ditches along the rear 10 feet of the property, provided the exercise of the rights thereunder do not interfere with any of the buildings or improvements located on the subject property.

(c) Easements for underground conduits which are in place and do not extend under any buildings on the subject property;

(d) Mutual easements for joint driveways constructed partly on the subject property and partly on adjoining property, provided the agreements creating such easements are of record;

(e) Encroachments on the subject property by improvements on adjoining property where such encroachments do not exceed 1 foot, provided such encroachments do not touch any buildings or interfere with the use of any improvements on the subject property;

(f) Encroachments on adjoining property by eaves and overhanging projections attached to improvements on

V41150 AUG 3 76 UMI

subject property where such encroachments do not exceed 1 foot.

(g) Encroachments on adjoining property by hedges, wooden or wire fences belonging to the subject property;

(h) Encroachments on the adjoining property by driveways belonging to subject property where such encroachments do not exceed 1 foot, provided there exists a clearance of at least 8 feet between the buildings on the subject property and the property line affected by the encroachment;

(i) Variations between the length of the subject property lines as shown on the application for insurance and as shown by the record or possession lines, provided such variations do not interfere with the use of any of the improvements on the subject property and do not involve a deficiency of more than 2 percent with respect to the length of the front line or more than 5 percent with respect to the length of any other line;

(j) Encroachments by garages or improvements other than those which are attached to a portion of the main dwelling structure over easements for public utilities, provided such encroachment does not interfere with the use of the easement or the exercise of the rights of repair and maintenance in connection therewith;

(k) Violations of cost or set back restrictions which do not provide a penalty of reversion or forfeiture of title, or a lien for liquidated damages which may be superior to the lien of the insured mortgage. Violations of such restrictions which do provide for such penalties, provided such penalty rights have been duly released or subordinated to the lien of the insured mortgage, or provided that the borrower has been furnished with a policy of title insurance expressly insuring the borrower against loss by reason of such penalties.

(l) Customary building and use restrictions which:

(1) Are coupled with a reversionary clause, provided there has been no violation prior to the date of the deed to the borrower; or

(2) Are not coupled with a reversionary clause and have not been violated to a material extent.

(m) Outstanding oil, water or mineral rights (or damage caused by the exercise of such rights) which are customarily waived by prudent lending institutions and leading attorneys in the community.

§ 201.1509 Fees and charges.

(a) Fees and charges incident to the origination of a loan which may be paid by the borrower shall be limited to reasonable and customary amounts for the following:

(1) Appraisal fees.

(2) Recording fees and recording taxes.

(3) Credit report.

(4) That portion of taxes, assessments, and other similar items for the current year chargeable to the borrower and his initial deposit (lump-sum payment) for any tax and insurance account.

(5) Survey, if required, by the lender or borrower.

(6) Title examination and title insurance, if any.

(7) Such other items as may be authorized in advance by the Commissioner as appropriate for inclusion under this paragraph.

(b) Fees and charges specified in this section may not be included in the loan.

§ 201.1510 Borrower's minimum investment.

The borrower shall make a minimum cash downpayment of at least 5 percent of the first $10,000 of purchase price of the mobile home and lot plus 10 percent of any amount in excess of $10,000. Where only a mobile home lot is being financed, the borrower shall make a minimum cash downpayment of at least 10 percent of the purchase price of the mobile home lot.

§ 201.1511 Financing charges.

(a) *Maximum financing charges.* The maximum permissible financing charge which may be directly or indirectly paid to, or collected by, the insured in connection with a combination mobile home and lot loan or mobile home lot loan transaction shall not exceed:

(1) 10½ percent per annum.

(2) No points or discounts of any kind may be assessed or collected in connection with the loan transaction except that a one percent origination fee calculated on the net proceeds of the loan, may be collected from the borrower. If assessed, this fee must be included in the finance charge. Finance charges on individual loans shall be made in accordance with tables of calculation issued by the Commissioner.

(b) *Prepayment rebate.* If an obligation is paid in full prior to maturity, the insured shall rebate the full unearned charge according to the actuarial method, where such rebate is $1 or more.

§ 201.1512 Mobile home lot certification.

(a) Prior to disbursement of loan proceeds for purchase of a mobile home lot, the insured shall obtain a certificate on a form prescribed by the Commissioner, signed by the seller and borrower, establishing that:

(1) The lot meets the requirements established by the Commissioner, and has been appraised by him;

(2) The borrower has not been paid or offered, as an inducement for consummation of the transaction, any cash payment or rebate, nor has it been represented to the borrower that he or she will receive a cash bonus payment or commission on future sales;

(3) That if the loan is solely for the purchase of a mobile home lot by the present owner of a mobile home, which is the principal residence of the borrower, the borrower shall certify that he will place his mobile home on the lot acquired with such loan within six months after the date of such loan.

(b) If the insured has information to the contrary with regard to the statements in the mobile home lot certification he shall not disburse the loan proceeds. In absence of such contrary information he may disburse the loan proceeds in reliance upon the statements in the certification.

INSURANCE REQUIREMENTS

§ 201.1513 Insurance reserve.

All of the provisions of § 201.12 with respect to the maintenance for each insured lender of a general insurance reserve shall apply with respect to loans reported for insurance under this subpart. The aggregate amount of loans advanced by an insured lender, for the purposes of determining its general insurance reserve, shall include loans reported for insurance under all subparts of this part.

§ 201.1514 Rate of insurance charge.

The insured shall pay to the Commissioner an insurance charge equal to fifty-four one hundredths (0.54) of 1 per cent per annum of the net proceeds of any eligible loan reported and acknowledged for insurance. In computing the insurance charge, no charge shall be made for a period of 14 days or less, and a charge for a month shall be made for a period of more than 14 days.

DEFAULT UNDER MOBILE HOME OBLIGATION

§ 201.1515 Definition of default.

If the mortgagor fails to make any payment, or to perform any other duty under the mobile home security device or mobile home lot mortgage and such failure continues for a period of 30 days, the obligation shall be considered in default for the purposes of this subpart.

§ 201.1516 Date of default.

For the purposes of this subpart, the date of default shall be considered as 30 days after:

(a) The first uncorrected failure to perform any duty under the mobile home obligation or mobile home lot mortgage; or

(b) The first failure to make a monthly payment which is not covered by subsequent payments made by the borrower when such subsequent payments are applied to the overdue monthly payments in the order in which they became due.

(c) If after default and prior to completion of foreclosure or repossession proceedings the borrower shall cure the default, the lender shall reinstate the loan as if a default had not occurred: *Provided,* The borrower pays to the insured lender such expenses as the lender has incurred in connection with the foreclosure or repossession proceedings.

§ 201.1517 Notice of default.

The insured lender shall, within 60 days after the date of default as defined in this part, give written notice thereof to the Commissioner on a form prescribed by him, unless such default has been cured or unless the Commissioner has been notified of a previous default which remains uncured.

§ 201.1518 Acquisition of property.

At any time within one year from the date of default, or such additional period of time as may be approved by the Commissioner, the lender, at its election, shall either:

(a) Commence foreclosure or repossession; or

(b) Acquire possession of, and title to, the mortgaged property by means other than foreclosure.

§ 201.1519 Notice of foreclosure.

The insured lender shall give written notice to the Commissioner on a form prescribed by him within 30 days after the institution of foreclosure or repossession proceedings and shall exercise reasonable diligence in prosecuting such proceedings to completion.

§ 201.1520 Deed in lieu of foreclosure.

(a) In lieu of instituting or completing a foreclosure or repossession, the lender may acquire property by voluntary conveyance from the mortgagor. Conveyance of the property by deed in lieu of foreclosure is approved subject to the following requirements:

(1) The loan is in default at the time the deed is executed and delivered;

(2) The credit instrument is cancelled and surrendered to the mortgagor;

(3) The mortgage and security agreement is satisfied of record as a part of the consideration for such conveyance; and

(4) The deed from the borrower contains a covenant which warrants against the acts of the grantor and all claiming by, through, or under him and conveys good marketable title.

§ 201.1521 Notice of acquisition of title.

The lender shall give written notice to the Commissioner on a form prescribed by him within 15 days of acquisition of good marketable title to the property.

§ 201.1522 Disposition of property.

(a) The insured lender shall take possession of, preserve and repair the property, and within six months after the date of acquisition of marketable title, shall sell the property for the best price obtainable. Repairs shall not exceed those required by local law. No other repairs shall be made without the specific advance approval of the Commissioner.

(b) The insured lender shall not enter into a contract for the preservation, repair or sale of the property with any officer, employee, owner of ten percent or more interest in the insured lender or with any other person or organization having an identity of interest with the insured lender or with any relative of such officer, employee, owner or person.

CLAIM

§ 201.1525 Claim application.

(a) *How to file.* Claim for reimbursement for loss on any eligible loan shall be made on a form provided by the Commissioner and executed by a qualified officer of the insured lender. The claim shall be accompanied by the insured lender's complete file, including copies of appraisals made by appraisers acceptable to the Commissioner, pertaining to the transaction. Where the insured is required by law to keep an original document in its possession, a copy of the original document shall be deemed acceptable.

(b) *When to file.* Claim shall not be filed by the insured lender until after default, repossession, and resale of the mobile home and lot or mobile home lot. Where a mobile home and lot have been financed, the mobile home and lot shall be sold in a single transaction. The mobile home may not be removed from the lot without the prior approval of the Commissioner. Claim shall be filed no later than 12 months and 31 days after the due date of the earliest fully unpaid installment provided for in the obligation, unless an extension is requested and approved by the Commissioner.

§ 201.1526 Amount of claim.

An insured lender may be reimbursed for losses on loans made in accordance with the regulations under this part, up to the amount of its general insurance reserve. The amount of reimbursement is determined by following the computation steps prescribed in paragraphs (a), (b), and (c) of this section.

(a) Deduct from the unpaid amount of the obligation (net unpaid principal and the earned portion of the financing charge, calculated according to the actuarial method), at the time of default:

(1) The actual sales price obtained after lawful repossession and resale of the mobile home and lot, or mobile home lot, or the appraised value, whichever amount is the greater. The appraised value shall be determined by an appraiser acceptable to the Commissioner;

(2) All amounts received by the lender on account of the loan from any source relating to the property on account of rent or other income after deducting reasonable expenses incurred in handling the property;

(3) All cash retained by the lender including amounts held or deposited for the account of the borrower or to which it is entitled under the loan transaction that has not been applied in reduction of the borrower's indebtedness.

(b) Add to 90 percent of the amount determined under paragraph (a) of this section 90 percent of the interest at 7 percent per annum on the amount determined under paragraph (a) of this section computed from the date of default:

(1) To either the date of claim application or for a period of 12 months and 31 days following such default date, whichever period of time is the lesser or:

(2) To the date of certification of the claim for payment in a case where an otherwise eligible claim has been held in suspense by the Commissioner pending a determination of the eligibility for insurance of other claims or loans, or by an investigation of the insured's loan or claim activities.

(c) Add to the amount obtained under paragraph (b) of this section 90 percent of the following allowances for expenditures made by the insured:

(1) Taxes, ground rent and water rates, which are liens prior to the mortgage, prorated to the date of disposition of the property;

(2) Special assessments, which are noted on the application for insurance of which become liens after the insurance of the mortgage, prorated to the date of disposition of the property;

(3) Hazard insurance on the mortgaged property, prorated to the date of disposition of the property;

(4) Taxes imposed upon any deeds or other instruments by which said property was acquired by the mortgagee;

(5) Foreclosure costs or costs of acquiring the property otherwise actually paid by the insured lender and approved by the Commissioner, in an amount not in excess of two-thirds of such costs or $75, whichever is the greater.

(6) Reasonable payments made by the insured lender for:

(i) Preservation and maintenance of the property;

(ii) Repairs required by local law, and such additional repairs as may be specifically approved in advance by the Commissioner;

(iii) Expenses in connection with the sale of the property including a sales commission at the rate customarily paid in the community;

(iv) Appraisal fee not to exceed $45.00.

§ 201.1527 Incontestability of claim payment.

Any payment for loss made to an insured lender shall be final and incontestable after two years from the date the claim was certified for payment in the absence of fraud or misrepresentation on the part of the lender, unless a demand for repurchase of the obligation shall have been made on behalf of the United States prior to the expiration of such two-year period.

EXTENSION OF TIME

§ 201.1528 Actions to be taken by insured lender.

The Commissioner may extend any time period respecting any action required of an insured which is prescribed by this subpart.

AMENDMENTS

§ 201.1530 Effect of amendments.

The regulations in this subpart may be amended by the Commissioner at any time and from time to time, in whole or in part, but such amendment shall not adversely affect the insurance coverage of a lender under its contract of insurance on any loan previously made or in the process of being made.

(It is hereby certified that the economic and inflationary impacts of this proposed rule have been carefully evaluated in accordance with OMB Circular A-107)

Issued at Washington, D.C., July 23, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing, Federal Housing Commissioner.

OFFICE OF MANAGEMENT AND BUDGET

■

LEGAL SERVICES CORPORATION

Proposed Budget Rescission

V41 I150 AUG 3 76 UMI

OFFICE OF MANAGEMENT AND BUDGET

LEGAL SERVICES CORPORATION

Proposed Budget Rescission

To The Congress of The United States:

In accordance with the Impoundment Control Act of 1974, I herewith propose rescission of $45 million in budget authority appropriated for payment to the Legal Services Corporation.

Approval of this rescission proposal will reduce Federal spending by $45 million over 1977 and 1978. The proposed rescission would prevent unneeded expansion of Legal Services Corporation activities and delay greater geographic coverage until program evaluations are completed.

The details of the proposed rescission are contained in the attached report.

Gerald R. Ford

The White House, *July 29, 1976.*

CONTENTS OF SPECIAL MESSAGE

V 41 150 AUG 3 76 UMI

Rescission Proposal No: R77-1

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Section 1012 of P.L. 93-344

Agency: Legal Services Corporation	New budget authority (P.L. 94-362): $125,000,000
Bureau:	Other budgetary resources: ———
Appropriation title & symbol: Payment to the Legal Services Corporation - 8160501	Total budgetary resources: 125,000,000
	Amount proposed for rescission: $45,000,000
OMB identification code: 31-22-0501-0-1-751	Legal authority (in addition to sec. 1012): ☐ Antideficiency Act
Grant program: ☒ Yes ☐ No	☐ Other
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification

A rescission of appropriation authority under Section 1012 of the Impoundment Control Act of 1974 (P.L. 93-344) is proposed for $45 million for the Legal Services Corporation (LSC). The funds for LSC were appropriated in the Departments of State, Justice, Commerce, the Judiciary, and Related Agencies Appropriation Act, 1977 (P.L. 94-362).

For fiscal year 1977 LSC requested, independent of the Administration, a $60.3 million budget increase (above the $80 million Administration request) primarily to fund higher grantee attorney salaries and administrative expenses and expand the legal services programs' geographic coverage. The Administration's budget request for LSC was made in the context of other competing priorities within the 1977 Budget.

This rescission for the additional amount appropriated over the Budget reflects the following considerations:

(1) In its first year of existence (1976) the Corporation received a 29% increase in its appropriation level over the previous year's funding for the legal services program. The 1977 add-on represents another 35% increase over the 1976 appropriation. 1/

(2) Factors which should reduce the 1977 funding level below the 1976 appropriated level include:

1/ Prior to 1976, the legal services program was administered by the Community Services Administration.

(a) One-time costs in 1976 which will not need to be incurred in 1977, such as start-up organizational costs, special projects (e.g., back-up center study), and non-recurring supplemental funding for certain grantees.

(b) Savings which should be achieved in 1977 by directly conducting activities formerly handled by back-up centers.

(c) Reduced administrative costs for grantees due to the greater availability of well-qualified lawyers in the labor market.

(3) Administrative overhead costs are projected by LSC to rise by over 80% in only two years at a time when reductions in such costs for regular Federal agencies have been urged by the President and within the Congress.

(4) Consideration by the Congress should be given to other sources of legal services for those who cannot afford private counsel. For example, under authority of Section 308 of Title III of the Older Americans Act of 1965, as amended, $1,125,000 of fiscal year 1977 funds have been reserved for the development of State level legal services activities for the aging. In addition, legal services programs can be sponsored by State and local governments through the Social Services (Title XX) and General Revenue Sharing programs. Private sponsorship of legal services (e.g., State and local legal aid societies, foundations, donated legal assistance, reduced fees for low income clients, etc.) should also be reviewed before major funding increases are approved for LSC.

(5) The Administration has urged that prior to any significant expansion of the legal services program, LSC evaluate its existing legal services grantees. Such evaluations, subject to public comment and review, should use standardized criteria and appraise grantees' quality, determine their needs, and assess the resources available from alternate providers. Furthermore, LSC's mandated studies on the existing staff-attorney program and alternative methods of delivery of legal services should also be completed in fiscal year 1977 before additional programs are funded.

V 41 150 AUG 3 76 UMI

Estimated Effects

This rescission proposal for $45 million will prevent increased grantee staff salaries and an expansion of LSC's administrative staff. Greater geographic coverage for the program will be delayed until evaluations based on standardized criteria are completed by LSC for all of its existing legal services grantees.

Outlay Effect (estimated in millions of dollars)

Comparison with President's 1977 Budget:

1. Budget outlay estimate for 1977	82.8
2. Outlay savings, if any, included in the budget outlay estimate	-0-
Current Outlay Estimates for 1977:	
3. Without rescission	125.7
4. With rescission	85.7
5. Current outlay savings (line 3-line 4)	40.0
Outlay Savings for 1978	5.0
Outlay Savings for 1979	-0-

RELATED AGENCIES

Legal Services Corporation

PAYMENT TO THE LEGAL SERVICES CORPORATION

Of the funds appropriated under this head in the Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriation Act, 1977, to enable the Department of the Treasury to make payment to the Legal Services Corporation to carry out the purposes of the Legal Services Corporation Act of 1974 (P.L. 93-355), $45,000,000 are rescinded.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Twelve agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 99; Docket No. AO-183-A34]

PART 1099—MILK IN THE PADUCAH, KENTUCKY, MARKETING AREA

Order Amending Order

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.*—Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Paducah, Kentucky, marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.*—It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 608c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Paducah, Kentucky, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. In § 1099.61, paragraph (h) is revised to read as follows:

§ 1099.61 Computation of uniform price (including weighted average price).

* * * * *

(h) For each of the months of September, October, November, and December, add one-fourth of the total amount subtracted pursuant to paragraph (g) of this section;

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: September 1, 1976.

Signed at Washington, D.C., on: July 30, 1976.

JOHN DAMGARD,
Deputy Assistant Secretary.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

[FmHA Instruction 443.2]

PART 1821—FARM PURCHASE AND DEVELOPMENT LOANS TO INDIVIDUALS

Farm Ownership Loan Policies, Procedures and Authorizations

Section 1821.55 of Subpart A of Part 1821, Title 7, Code of Federal Regulations (31 FR 14165) is amended. The purpose of the amendment is to change a reference as a result of the rewriting, consolidating and relocating of material on voluntary conveyances and foreclosure into the new Part 1955, Subpart A, of this Chapter, which is published as an agency rule this date. Since this amendment involves only internal administrative changes and has no effect on the public, publication for notice and public procedure is unnecessary.

In § 1821.55, paragraph (g)(3) is amended to add a reference to 1955–A and reads as follows:

§ 1821.55 Special requirements.

* * * * *

(g) * * *

* * * * *

(3) To an applicant whose debts have been settled pursuant to Part 1864 of this Chapter or who has been released from personal liability under Part 1872 or Part 1955, Subpart A, of this Chapter, as reflected by the County Office records, or where settlement under such regulations is contemplated unless the applicant's failure to pay his loan indebtedness was the result of circumstances beyond his control; the conditions which necessitated the debt settlement or release, other than weather hazards, disasters, or price fluctuations, have been or will be removed by making of the loan; and the borrower's operations will be sound and afford him a reasonable prospect of repaying the loan and meeting his other obligations. Before requesting an appraisal or causing the applicant to incur any expense in connection with the loan, the County Supervisor, if he determines that the applicant should be considered for a loan, should complete Form FmHA 431–2, "Farm and Home Plan," and send it, together with the application, any available case folders, and his recommendation, to the State Office for a determination as to whether to proceed with development of the loan docket.

Effective date: These amendments are effective on August 4, 1976.

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; sec. 10 Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO, 29 FR 14764, 33 FR 9850)

[FmHA Instruction 441.1]

PART 1831—OPERATING LOANS

Operating Loan Policies and Authorizations

Section 1831.10 of Subpart A of Part 1831, Title 7, Code of Federal Regulations (38 FR 14154), is amended. The

V 41 I 151 AUG 4 76 UMI

amendment is for the purpose of changing a reference as a result of the rewriting, consolidating and relocating of material on voluntary conveyance and foreclosure in the new Part 1955, Subpart A, which is published as an agency rule this date. Since this amendment involves only internal administrative changes for the purpose of properly referencing another regulation, publication for notice and public procedure is unnecessary.

In § 1831.10, paragraph (e) is revised to add a reference to Part 1955, Subpart A and as amended reads as follows:

§ 1831.10 Special requirements and loan limitations.

* * * * *

(e) *Debt settlement cases.*—A loan will not be made to an applicant whose debts have been settled pursuant to Part 1864 of this Chapter, or who has been released from personal liability under Subpart A of Part 1872 or Subpart A of Part 1955 of this Chapter, as reflected by the County Office records, or where settlement or release under such requirements is contemplated, unless the applicant's failure to pay his loan indebtedness was the result of circumstances beyond his control, the conditions which necessitated the debt settlement or release, other than weather hazards, disasters, or price fluctuations, have been removed and the borrower's operations will afford him a reasonable prospect of repaying the loan and meeting his other obligations. Prior to approval of the loan, the loan docket and any available case folders, including the County Supervisor's justification for making the loan, will be submitted to the State Office for a determination as to whether the loan should be made.

* * * * *

Effective date. These amendments are effective on August 4, 1976.

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; sec. 10, Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO, 29 FR 14764, 33 FR 9850)

[FmHA Instructions 451.3 and 451.5]

PART 1861—ROUTINE

Servicing and Supervision of Association and Organization Loans and Security and Community Program Loans and Grants

Sections 1861.47, 1861.83 and 1861.91 of Subparts C and F of Part 1861, Title 7, Code of Federal Regulations (32 FR 8064, 37 FR 15562), are revised and §§ 1861.86 and 1861.87 are deleted and reserved. Section 1861.47 is revised to make reference to new Subpart A of Part 1955 of this Chapter, which deals with liquidation by voluntary conveyance of real estate and related security, conveyance of property to FmHA by trustee in bankruptcy, foreclosure of loans secured by real estate, and acquisition of chattels. The material formerly contained in §§ 1861.86 and 1861.87 has been revised and transferred to new §§ 1955.1 through 1955.6, §§ 1955.10 and 1955.11, and § 1955.15 of this Chapter. Sections 1861.83 and 1861.91 are revised to change references to new Subparts A, B and C of Part 1955 of this Chapter.

Since these changes serve to update property management regulations in accordance with new Part 1955, which is published as an agency rule this date, notice and public procedure thereon are unnecessary. Accordingly, §§ 1861.86 and 1861.87 are deleted and reserved; §§ 1861.47, 1861.83 and 1861.91 as revised, read as follows:

§ 1861.47 Default and liquidation.

Liquidation will be recommended to and approved by the National Office only after all efforts by FmHA officials have failed to effect a satisfactory solution whereby the borrower will comply with its obligations under the note and all related agreements and security and other instruments. Specific instructions as to handling of the case and delegation of authority will be issued by the National Office. For liquidation by voluntary conveyance or foreclosure, see 1955-A.

§ 1861.83 Liquidation of security.

When the County Supervisor believes that continued servicing will not accomplish the objectives of the loan, he will complete the form, "Report on Association Loan Problem Case (Association-Type Projects)", and submit it along with the County Office file to the State Office. If the State Director determines the account should be liquidated, he will encourage the borrower to voluntarily sell the property and remit the proceeds to FmHA. He will give the borrower a specified period of time not to exceed 180 days to accomplish such action. If the voluntary sale cannot be accomplished, the loan will be liquidated in accordance with § 1861.85 or Subpart A of Part 1955 of this Chapter.

§ 1861.86 [Reserved]

§ 1861.87 [Reserved]

§ 1861.91 Care, management and disposal of acquired property.

Property acquired by FmHA will be handled in accordance with Subparts B and C of Part 1955 of this chapter.

Effective date: These amendments are effective on August 4, 1976.

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; sec. 10 Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO 29 FR 14764, 33 FR 9850)

Dated: July 14, 1976.

FRANK W. NAYLOR, JR.,
Acting Administrator,
Farmers Home Administration.

[FR Doc.76-22566 Filed 8-3-76;8:45 am]

[FmHA Instruction 462.1]

PART 1871—CHATTEL SECURITY

Servicing Chattel Security

Section 1871.14 of Subpart A of Part 1871, Title 7, Code of Federal Regulations, is amended. The purpose of the amendment is to make a reference change as a result of the rewriting, consolidating and relocating of material on voluntary conveyances and foreclosure into the new Part 1955, Subpart A, which is published as an agency rule this date. Since this amendment involves only internal administrative changes, publication for notice and public procedure is unnecessary.

The introductory paragraph of § 1871.14 is revised to change a reference from § 1872.20 (a) to 1955.6 and is amended to read as follows:

§ 1871.14 Assignment of notes and security instruments including financing statements.

State Directors are authorized hereby to accept from third parties payment in full of a borrower's notes held by FmHA and to assign such notes to such third parties without recourse against FmHA and to assign related security instruments including financing statements without warranty by FmHA in the situations set forth below.

See § 1955.6 of this chapter for special provisions on assigning insured loans. The OGC will review each proposed assignment as to the legal matters involved and will approve the form of assignment.

Effective date. This amendment is effective on August 4, 1976.

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; sec. 10 Pub. L. 93-357, 88 Stat 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO 29 FR 14764, 33 FR 9850)

Dated: July 14, 1976.

FRANK W. NAYLOR, JR.,
Acting Administrator,
Farmers Home Administration.

[FR Doc.76-22568 Filed 8-3-76;8:45 am]

[FmHA Instruction 455.1]

PART 1871—CHATTEL SECURITY

Liquidation of Chattel Property and Related Actions

Various sections of Subpart B of Part 1871, Title 7, Code of Federal Regulations are revised. The text in § 1871.21 is revised to delete reference to the disposition of acquired property; §§ 1871.31(a) and 1871.32(d) are deleted and reserved. The material in these paragraphs has been revised and transferred to § 1955.20 of this Chapter. Section 1871.32(a) is revised to delete the sentence referring to the Farmers Home Administration as the successful bidder at a public sale. Sections 1871.36 and 1871.37 are deleted and reserved. The material formerly in these sections has been revised and transferred to new §§ 1955.67 and 1955.121 of this Chapter.

Since these changes serve to update procedure concerning acquired real estate and chattels, foreclosure and sale, and since these procedures have been revised and transferred to the new Part 1955 of this Chapter, which was published as a proposal on March 23, 1976, (41 FR 12041), notice and public procedure for these revisions is unnecessary. Accordingly, §§ 1871.31(a), 1871.32(d), 1871.36 and 1871.37 are deleted and reserved; and the introductory paragraph of § 1871.21, and § 1871.32(a) as revised, reads as follows:

§ 1871.21 General.

This subpart is supplemented by Subpart A of Part 1872 of this Chapter. This subpart establishes the policies, procedures and authorities for liquidating chattel security and Economic Opportunity (EO) property and handling civil actions, bankruptcy and similar proceedings, probate or administration proceedings, and alleged criminal violations.

§ 1871.31 Liquidation of security property by other parties.

(a) [Reserved]

* * * * *

§ 1871.32 Sale of repossessed property by FmHA.

(a) *Manner of sale.*—Repossessed property may be sold by FmHA at public or private sale under: Form FmHA 455-4; Form FmHA 441-19, "Loan Agreement"; the power of sale in security agreements under the UCC; the power of sale in crop and chattel mortgages and similar instruments if authorized by regulations issued by the State Office. Also, repossessed property may be sold at private sales when the borrower executes Form FmHA 455-11, "Bill of Sale 'B' (Sale by Private Party)." Private and public sales will be made for cash. The sale will be made as follows:

* * * * *

(d) [Reserved]

* * * * *

§§ 1871.36-1871.37 [Reserved]

Effective date: These amendments are effective on August 4, 1976.

[FmHA Instruction 465.1]

PART 1872—REAL ESTATE SECURITY

Servicing and Liquidation of Real Estate Security for Loans to Individuals and Certain Note-Only Cases

Sections 1872.1, 1987.2, 1872.15 and 1872.17 of Subpart A of Part 1872, Title 7, Code of Federal Regulations (40 FR 15066) are amended. Section 1872.19 and § 1872.20 are deleted and reserved. These amendments are made for the purpose of updating these regulations in line with the new Subpart A of Part 1955 of this Chapter which deals with liquidation by voluntary conveyance of real estate and related security, conveyance of property to FmHA by trustee in bankruptcy, foreclosure of loans secured by real estate, and acquisition of chattels. Since these changes merely serve to update regulations relating to property management, primarily to correct references, in accordance with newly issued Part 1955 which is published as an agency rule this date, public procedures are unnecessary.

1. Section 1872.1(e)(1) is revised to change the reference from §§ 1872.19 and 1872.20 to § 1955.6. The paragraph now reads:

§ 1872.1 General.

* * * * *

(e) *Servicing insured loans.*—(1) *Servicing actions.*—Servicing actions for insured loans will be the same as for direct loans except that in voluntary conveyance and foreclosure cases when the insured note is not held in the County Office, the Finance Office will be requested to obtain assignment of the insured loan to the insurance funds as provided in § 1955.6, and when an insured Farm Ownership (FO) mortgage running to the lender as mortgagee is not held by the FmHA under trust assignment, or declaration or trust, or in the insurance fund (called insured FO mortgage held by the lender in this subpart) and a written subordination or partial release of other servicing documents is requested, the document will be executed by the holder on a form prepared or approved by the OGC. In such cases, contacts with the holder will be made by the State Director and the holder's execution of the document will constitute his consent.

* * * * *

2. Section 1872.2 is revised to include the use of other forms in paragraph (b) and the last sentence of (b)(1) and to add a new reference paragraph (b)(5) and to change a reference in paragraphs (c)(1), (c)(1)(i), and (c)(1)(iv)(A). Paragraphs (b), (b)(1), (b)(5), (c)(1), (c)(1)(i), and (c)(1)(iv)(A) read as follows:

§ 1872.2 Preservation of security property and protection of liens.

* * * * *

(b) *Action by FmHA for account of borrower.*—When necessary to protect the interest of the Government, actions will be taken by FmHA for the account of the borrower as provided below. Any advances made for such purposes will be paid by Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal," or other approved voucher and charged to the borrower's account.

(1) *Operation of security by lessee or caretaker.* * * * Lease agreements will be entered into on Form FmHA 465-2, "Lease of Security Property," or other form approved by OGC and caretaker's agreements on Form FmHA 465-3, "Caretaker's Agreement (Real Property Only)."

* * * * *

(5) *Management of abandoned property or property after approval of foreclosure.* See § 1955.55 of this chapter.

* * * * *

(c) * * *

* * * * *

(1) *Sale under prior lien foreclosure.* When a prior lien foreclosure sale is to be held and the State Director determines that a substantial net recovery on the Government's interest can be made by acquiring and reselling the security, he will authorize a bid in accordance with § 1955.15(d) (8) and (9). * * *

(i) *Lienholder debt.*—The prior lienholder will be contacted to determine the amount of his indebtedness including the cost of foreclosure sale and whether payment by SF 1034 is acceptable to him if the Government is the successful bidder at the sale. If the prior lienholder requires a cash payment, SF 1034 will be processed in sufficient time for the County Supervisor to receive a U.S. Treasury check before the sale. Requesting the check, payment of the bid, and payment of any other costs by using SF 1034 will be in accordance with the applicable portions of § 1955.15 of this chapter. The costs will be charged to the borrower's account.

* * * * *

(iv) *Final reporting.* (A) When FmHA enters a bid or is the successful bidder at the foreclosure sale, reporting actions will be in accordance with § 1955.15(d)(1) of this chapter.

* * * * *

3. Section 1872.15(a) is revised to change the reference from "§ 1872.20(b)(4)(vi) and (vii)" to "§ 1955.15(d)(8) and (9)." As amended, the last sentence of § 1872.15(a) reads as follows:

§ 1872.15 Servicing note-only cases.

* * * * *

(a) * * * In case of a judgment sale, the State Director with the advice of the OGC and the U.S. Attorney will authorize an employee to attend the sale and, if appropriate, enter a bid on behalf of the Government in accordance with § 1955.15(d)(8) and (9) of this chapter.

* * * * *

4. The first sentence of §1872.17(a) is revised to change the reference from "§ 1872.19" to "Subpart 1955-A." Section 1872.17(b) is revised to delete the last sentence. The material formerly in §1872.17(c) has been relocated in § 1955.15(d)(2) of this chapter. The new paragraph (c) serves as a reference. Section 1872.17(d) is amended including a new title. Section 1872.17(f) has been revised to include a reference to Exhibit C of Subpart 1955-A and to include a reference to the new § 1872.17(d). The title of § 1872.17(g) is changed from "Acceleration Agreement" to "Accelerated Repayment Agreement." As amended, § 1872.17 (a), (b), (c), (d), (f) and (g) read as follows:

V 41 151 AUG 4 76 UMI

§ 1872.17 Liquidation action.

• • • • •

(a) *General.*—When the borrower is willing to voluntarily liquidate the account immediately by selling the property and paying the account in full, transferring the total security with an assumption of all or the appropriate portion of the debt under § 1872.18, selling the property for not less than its present market value under §1872.17(h), or conveying the security to the FmHA under Subpart 1955–A, the County Supervisor may give him 60 days to accomplish such action. • • •

(b) *Problem case report.*—If the borrower is unwilling to take any of the actions specified in § 1872.17(a) or fails to carry out any such actions within 60 days, the County Supervisor will complete Form FmHA 465–7 and send it to the State Office through the District Director so that the District Director's recommendations may be attached. In cases involving only a section 502 or 504 RH loans, the County Committee's recommendation on Form FmHA 465–7 will not be obtained. If the State Director agrees that forced liquidation is appropriate, he should approve such liquidation.

(c) *Acceleration of account.*—When the State Director approves forced liquidation, the account should be accelerated and the borrower notified in accordance with §1955.15(d)(2) of this chapter.

(d) *Voluntary liquidation after acceleration.*—If after the notice of acceleration has been sent to the borrower as outlined in § 1955.15, paragraph (d)(2) of this chapter, arrangements are made to have the account voluntarily liquidated, then the State Director may give the borrower time beyond the date listed in the notice of acceleration to accomplish voluntary liquidation. The State Director will inform the borrower of this decision in a separate letter. The State Director should place a time limit on the borrower which should not exceed three months from the date of the letter agreeing to allow the borrower to attempt to voluntarily liquidate. The original period fixed by the State Director plus any extensions determined necessary by the State Director should in no case exceed one year without prior concurrence of the National Office. Prior to granting any extension after the original period fixed by him, the State Director will require the County Supervisor to report the steps taken by the borrower to liquidate the account. If a sale is involved, the County Supervisor's report should indicate whether the borrower's asking price is reasonable and whether the asking price is delaying the sale unreasonably. Acceleration or granting time for voluntary liquidation as provided for above will not preclude exercise of the authority in § 1872.17(g). However, the above authority should never be used for the purpose of extending the correction period under § 1872.17(f). If the borrower has not taken steps to voluntarily liquidate within the time period (including any extensions thereof) granted him by the State Director, then the State Director should proceed with foreclosure in accordance with Section 1955.15(d) of this chapter.

• • • • •

(f) *Requirement.* • • • If the borrower is not available for personal contact or definite agreements cannot be reached or consent to a lease is not authorized, the County Supervisor will write to the borrower at his last known address, notifying him of the violation and advise him that, because of the violation, it will be necessary to liquidate the account. A notice such as that set forth as Exhibit C of FmHA Instruction 1955–A will not be used for this purpose. The County Supervisor may authorize the borrower a reasonable period of time (60 to 90 days) in which to correct the violation. If during such period the borrower fails to remove the violation or take appropriate action for liquidation of the account in full, the case will be handled in accordance with § 1872.17 (b), (c) and (d).

(g) *Accelerated repayment agreement.* • • •

• • • • •

5. The texts of §§ 1872.19 and 1872.20 are deleted. This material has been revised and relocated in Subpart 1955–A. Sections 1872.19 and 1872.20 are reserved.

PART 1890c—LOANS SECURED BY REAL ESTATE ON RECLAMATION PROJECTS

Amendment

The first sentence in § 1809c.1 of Part 1890c, Chapter XVIII, Title 7, Code of Federal Regulations (35 FR 13977) is amended to delete the supplementing reference to Subpart C of Part 1872 of this Chapter and insert in its stead Subparts A, B and C and Part 1955. Subpart C of Part 1872 is now obsolete and regulations for the management and sale of acquired real estate are now contained in the new Subparts A, B and C of Part 1955 of this Chapter which are published as an Agency rule this date. Since this amendment involves only a reference change, notice and public procedure thereon are unnecessary.

Accordingly, the first sentence in § 1890c.1 is amended as follows:

§ 1890c.1 General.

This part supplements Part 1807, Subparts A and B of Part 1821, Subparts A and C of Part 1822, Subpart A of Part 1831, Subpart A of Part 1832, Subpart A of Part 1871, Subpart A of Part 1872, and Subparts A, B, and C of Part 1955, all of this chapter. • • •

• • • • •

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; Sec. 10 Pub. L. 93–357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO 29 FR 14764, 33 FR 9850)

Effective date: This amendment is effective on August 4, 1976.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

PART 217—INTEREST ON DEPOSITS

CFR Correction

The 1976 edition of 12 CFR omitted several sentences from § 217.4(d) on page 562. In its entirety § 217.4(d) should read as follows:

§ 217.4 Payment of time deposits before maturity.

• • • • •

(d) *Penalty for early withdrawals.* Where a time deposit, or any portion thereof, is paid before maturity, a member bank may pay interest on the amount withdrawn at a rate not to exceed that currently prescribed in § 217.7 for a savings deposit: *Provided*, That the depositor shall forfeit three months of interest payable at such rate. If, however, the amount withdrawn has remained on deposit for three months or less, all interest shall be forfeited. Where necessary to comply with the requirements of this paragraph, any interest already paid to or for the account of the depositor shall be deducted from the amount requested to be withdrawn. However, upon the death of any person whose name appears on the time deposit passbook or certificate, a member bank may pay such time deposit before maturity without a reduction of forfeiture of interest as prescribed by this paragraph.[5a] Any amendment of a time deposit contract that results in an increase in the rate of interest paid or in a change in the maturity of the deposit constitutes a payment of the time deposit before maturity. *Provided further*, That Investment Certificates issued in negotiable form by a member bank pursuant to subparagraph (3) of § 217.7(b) may not be paid before maturity. This provision does not present a member bank from arranging the sale or purchase of such a certificate on behalf of the holder or prospective purchaser of a certificate issued under that subparagraph. A member bank may not, however, repurchase such certificates for its own account. Where a time deposit representing funds contributed to an Individual Retirement Account established pursuant to 26 U.S.C. (I.R.C. 1954) § 408 is paid before maturity when the individual for whose benefit the account is maintained attains age 59½ or is disabled (as defined in 26 U.S.C. (I.R.C. 1954) 72(m)(7)) or thereafter, a member bank may pay all or a portion of such time deposit without a reduction or forfeiture of interest as prescribed by this paragraph.

• • • • •

Board of Governors of the Federal Reserve System, July 28, 1976.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.76–22603 Filed 8–3–76;8:45 am]

[5a] The provisions of this paragraph apply to all time deposit contracts entered into after July 5, 1973 and to all existing time deposit contracts that are extended or renewed (whether by automatic renewal or otherwise) after such date, and to all time deposit contracts that are amended after such date so as to increase the rate of interest paid. All contracts not subject to the provisions of this paragraph shall be subject to the restrictions of § 217.4(d) in effect prior to July 5, 1973, which permitted payment of a time deposit before maturity only in an emergency where necessary to prevent great hardship to the depositor, and which required the forfeiture of accrued and unpaid interest for a period of not less than 3 months on the amount withdrawn if an amount equal to the amount withdrawn had been on deposit for 3 months or longer, and the forfeiture of all accrued and unpaid interest on the amount withdrawn if an amount equal to the amount withdrawn had been on deposit less than 3 months.

Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. PR–153, Amdt. 9]

PART 310—INSPECTION AND COPYING OF BOARD OPINIONS, ORDERS, AND RECORDS

Written Requirement for Freedom of Information Act Requests

Adopted by the Civil Acronautics Board at its office in Washington, D.C., July 29, 1976.

Part 310 of the Civil Aeronautics Board's Procedural Regulations (14 CFR Part 310) sets forth the procedures for inspection and copying of Board opinions, orders, and records pursuant to the Freedom of Information Act (FOIA), (5 U.S.C. 552). Section 310.6 sets forth the procedure for requesting records and provides for requests to be made in person, by telephone, or in writing. Requests for records listed in Appendix A of Part 310 are to be made to the office listed there as the location of the records and all other requests are to be directed to the Public Reference Room.

The Board has experienced an increase in the number of FOIA requests made orally. It has become apparent that a more efficient method of handling FOIA requests is necessary to assure a complete, accurate, and timely record of requests and responses, thereby obviating disputes as to dates or the contents of oral conversations. A requirement that all FOIA requests be written would serve these purposes as well as better allocate staff resources to respond to FOIA requests thoroughly and systematically.

We believe that the most appropriate approach would be one which allows oral inquiries at the Public Reference Room but requires all requests made pursuant to the FOIA to be made in writing. We have therefore determined to amend § 310.6 to eliminate the possibility of oral FOIA requests and to require specific information which will be helpful in answering written FOIA requests.

FOIA requests for records listed in Appendix A of Part 310 will continue to be made to the office there listed as the location of the records. All other requests will be directed to the Office of the Secretary rather than the Public Reference Room. The Secretary is the official custodian of all Board records and will be better able to direct the request to the appropriate staff unit. So that the staff may readily identify FOIA requests, we are requiring that FOIA requests be captioned "Freedom of Information Act Request" on the envelope and the request itself. Requests not so captioned will be deemed to be received on the date it is determined that the request is in fact an FOIA request and the requester will be advised of that date. We continue to require that known identifying information for each document requested be provided. We also require that the individual specify whether inspection, or copies, or both are being requested.

Finally, we are amending § 310.9, Refusal to make record available, by requiring that all refusals to FOIA requests be in writing.

Because the amendments being adopted herein are rules of agency practice and procedure intended to assure systematic responses to FOIA requests and to avoid undue disruption of other ongoing Board activities, the Board finds that notice and public procedure are not required and for good cause shown that the rule may be effective on August 4, 1976.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 310 of its Procedural Regulations (14 CFR Part 310) effective August 4, 1976, as follows:

1. Amend § 310.6 to read as follows:

§ 310.6 Procedure for requesting records.

(a) All requests for Board records made pursuant to the Freedom of Information Act (FOIA) shall be in writing and conform to the requirements of this section. Oral requests will not be accepted as FOIA requests unless they are reduced to writing and conform to the requirements of this section.

(b) FOIA requests for records listed in Appendix A hereto shall be made to the office listed in Appendix A as the location of the record, and all other FOIA requests shall be made to the Office of the Secretary. Requests shall be mailed to the appropriate office, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428 or delivered in person to that office during the Board's regular business hours.

(c) FOIA requests shall be captioned "Freedom of Information Act Request." This caption shall appear on the request and on the envelope if one is used. Such request shall be dated, shall list the address of the person making the request, and, for each document requested, shall set out all information known to the person making the request which would be helpful in identifying and locating the document, and any known relevant dates or form/report numbers. At the requester's option, a telephone number may be included. The requester shall specify whether personal inspection or copies of the record(s) or both are desired.

(d) Failure to address or mark the envelope and the request in accordance with paragraphs (b) and (c) of this section will result in the request being deemed to have been received on the date the request is determined to be in fact an FOIA

V 41 151 AUG 4 76 UMI

request. In such cases, the requester shall be advised of the actual date of receipt.

(e) Where a requested file or record does contain exempt information, a file or a copy of the record will be made available with appropriate deletions whenever this can be done without revealing the exempted information. Although the Board's staff need not honor blanket or generalized requests for records, it will endeavor to do so if compliance would not unduly burden or interfere with Board operations because of the staff time consumed or the resulting disruption of files.

2. Amend § 310.9 to require written refusals to make records available to read as follows:

§ 310.9 Refusal to make record available.

* * * * *

(b) Where the material requested is not a record, is an exempted record, or is otherwise unavailable, the person making the request will be so informed in writing by the office to which the request was made. The notification shall include a reference to the specific exemption under this regulation and the Freedom of Information Act authorizing the withholding of the record and a brief explanation of how the exemption applies to the record withheld and contain a description of the appeal procedure within the agency and of the ultimate availability of judicial review as set forth in paragraph (e) of this section. A copy of all denial letters and all written statements explaining why exempt records have been withheld will be collected and maintained for public inspection in the Public Reference Room.

* * * * *

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, (49 U.S.C. 1324), and the Freedom of Information Act, 81 Stat. 54, (5 U.S.C. 552).)

By the Civil Aeronautics Board.

Effective: August 4, 1976.

Adopted: July 29, 1976.

PHYLLIS T. KAYLOR,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[Docket No. 75F-0011]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SANITIZING SOLUTIONS

The Commissioner of Food and Drugs is amending § 121.2547 *Sanitazing solutions* (21 CFR 121.2547) to provide for safe use of aqueous solutions containing di-*n*-alkyl(C_8-C_{10}) dimethyl ammonium chlorides and isopropyl alcohol as sanitizing solutions; effective August 4, 1976; objections by September 3, 1976.

A notice was published in the FEDERAL REGISTER of June 4, 1975 (40 FR 24040) announcing that a food additive petition (FAP 4H3006) had been filed by Lonza, Inc., Fair Lawn, N.J. 07410, proposing that § 121.2547 be amended to provide for safe use of di-*n*-alkyl(C_8-C_{10}) dimethyl ammonium chlorides and isopropyl alcohol as sanitizing solutions for food processing equipment and utensils.

The Commissioner, having evaluated the data in the petition and other relevant material, concludes that § 121.2547 should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), § 121.2547 is amended by adding new paragraphs (b)(17) and (c)(12) to read as follows:

§ 121.2547 Sanitizing solutions.

* * * * * *

(b) * * *

(17) An aqueous solution containing di-*n*-alkyl(C_8-C_{10}) dimethyl ammonium chlorides and isopropyl alcohol, having average molecular weights of 332–361. In addition to use on food-processing equipment and utensils, this solution may be used on food-contact surfaces in public eating places.

* * * * * *

(c) * * *

(12) Solutions identified in paragraph (b)(17) of this section shall provide, when ready to use, a level of 150 parts per million of the active quaternary compound.

* * * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 3, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections, shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this order. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on August 4, 1976.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: July 30, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76-22706 Filed 8-3-76;8:45 am]

SUBCHAPTER D—DRUGS FOR HUMAN USE

[Docket No. 75N-0345]

PART 310—NEW DRUGS

PART 330—OVER-THE-COUNTER (OTC) HUMAN DRUGS GENERALLY RECOGNIZED AS SAFE AND EFFECTIVE AND NOT MISBRANDED

Marketing Status of Ingredients Recommended for Over-the-Counter Use

The Food and Drug Administration (FDA) is amending the regulations to clarify the marketing status of ingredients recommended for OTC (over-the-counter) use, effective September 3, 1976.

In the FEDERAL REGISTER of December 4, 1975 (40 FR 56875), the Commissioner of Food and Drugs proposed to amend Part 310 (21 CFR Part 310) to clarify that the OTC drug review process is another procedure for transferring an ingredient from prescription to OTC status and Part 330 (21 CFR Part 330) to set forth FDA policy regarding the marketing of OTC drug products containing an active ingredient (a) that is at a dosage level higher than that currently available in an OTC drug product, or (b) that is currently limited to prescription use, but that is regarded by an OTC drug advisory review panel as suitable for OTC use. Interested persons were invited to submit comments on the proposal by February 2, 1976.

The Commissioner is now issuing a final regulation setting forth the following policies:

1. Any OTC drug product containing an active ingredient previously limited to prescription use for the indication and route of administrative under consideration by an OTC drug advisory review panel, or containing any active ingredient at a dosage level higher than that available in an OTC drug product on December 4, 1975, which ingredient and/or dosage level is classified by a panel in category I (generally recognized as safe and effective and not misbranded, shall be considered a new drug if marketed before the date of publication in the FEDERAL REGISTER of a proposed monograph for the ingredient.

2. Any such drug product may be marketed after the date of publication of a proposed monograph in the FEDERAL REGISTER, but before the effective date of a final monograph, subject to the risk that the Commissioner may not accept a panel's recommendation but adopt a different position that could require relabeling, recall, or other regulatory action.

3. Any OTC drug product containing an active ingredient previously limited to prescription use for the indication and route of administration under consideration by an OTC drug advisory review panel, or containing any active ingredient at a higher dosage level than that available in any OTC drug product on December 4, 1975, which ingredient and/or dosage level is classified by a panel in category II (not generally recognized as safe and effective or is misbranded), shall be considered to be a new drug requiring an approved new drug application before marketing.

4. Any OTC drug product containing an active ingredient previously limited to prescription use for the indication and route of administration under consideration by an OTC advisory review panel, or containing any active ingredient at a higher dosage level than that available in any OTC drug product on December 4, 1975, which ingredient, and/or dosage level is classified by a panel in category III (insufficient data to permit final classification at this time), may be marketed only after the ingredient or dosage level is determined by the Commissioner to be generally recognized as safe and effective and not misbranded in an appropriate OTC drug monograph or a new drug application for the product for OTC use has been approved.

These policies reflect current FDA enforcement policies, and the regulations embodying them are therefore effective immediately.

In response to the proposal, comments were received from three manufacturers, one trade association, and one Federal agency. A summary of the comments and the Commissioner's conclusions thereon are as follows:

1. One comment was in response to that part of the preamble which stated that the Commissioner may indicate in the preamble to a proposed monograph his disagreement with a panel's recommendation regarding specific ingredients proposed for classification in category I, e.g., ingredients having manufacturing or formulation problems or unresolved questions concerning a potential for abuse or misuse. The comment argued that, in this final order, the agency should clearly state that, if the Commissioner dissents from a panel's category I product classification, he will (a) specifically state the basis for that disagreement, (b) cite the data or other information upon which he relies, and (c) specify his reasons for distinguishing between the drug in question and other drugs in the same general therapeutic class that are considered to be generally recognized as safe and effective for OTC use. The comment expressed the opinion of disagreement would be final agency action because of its immediate impact on drug manufacturers, and thus should be fully supported to facilitate judicial review if sought.

The Commissioner advises that a decision to disagree with a panel's recommendation regarding specific ingredients proposed for classification in category I will be based on material contained in the applicable administrative record as defined in § 330.10(a)(10)(iv) (21 CFR 330.10(a)(10)(iv)) and/or other data and information available to him. The preamble to the proposed monograph or, when appropriate, a separate notice in the FEDERAL REGISTER, will contain a comprehensive statement of the basis for the Commissioner's decision including, where appropriate, the specific reason for his decision to disagree with the panel's classification of a particular drug in a therapeutic category and not all drugs in that category. All data and information on which the Commissioner's decision is based will be put on public display in the office of the Hearing Clerk, Food and Drug Administration, except to the extent that the person submitting it to FDA demonstrates that it falls within the confidentiality provisions of 18 U.S.C. 1905, 5 U.S.C. 552(b), or section 301(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 331(j)).

The Commissioner will ordinarily announce his tentative decision not to accept a panel's recommendation regarding specific ingredients or dosage levels of ingredients proposed for classification in category I at the time the proposed monograph is published in the FEDERAL REGISTER. This announcement will be included in the preamble to the proposed monograph or in a separate notice in the FEDERAL REGISTER. In some instances, the Commissioner may not announce his decision not to accept a panel's recommendation until after the date of publication of the proposed monograph, as stated in § 330.13(b)(2) (21 CFR 330.13(b)(2)). The wording of paragraph (b)(2) has been revised to clarify this. In either case, his decision will be fully documented in the administrative record. The Commissioner emphasizes, however, that his tentative decision not to accept a panel's recommendation does not mean that he may not subsequently agree with the panel when a final monograph is published. In any event, persons marketing a drug product not in compliance with the Commissioner's tentative decision not to accept a panel's recommendation will be subject to regulatory action and the Commissioner's determination will therefore effectively be reviewable in the context of any proceeding brought by FDA pursuant to this policy.

2. One comment questioned whether an FDA warning that regulatory action will be taken against drug products that are reformulated in keeping with anticipated recommendations of an OTC drug advisory review panel and marketed pending completion of the OTC drug review is the most effective way to protect consumers. The comment urged that for such reformulated drugs, as well as those unreformulated drugs for which no monograph is yet final and for category III drugs, FDA require the product label to inform consumers that regulations assuring the safety and/or effectiveness of the ingredients of the drug in question are not yet final. It was suggested that this alternative would enable FDA to avoid taking regulatory action against reformulations intended to improve drug products that a panel has found unsafe, ineffective, or otherwise misbranded as currently marketed, but for which monographs are not yet final. The comment added that such a labeling requirement should be coordinated with the Federal Trade Commission (FTC) to assure that consumers are similarly notified in any advertising of reformulated OTC drug products.

The Commissioner is sympathetic with the intent of this comment, but notes that it misapprehends the purpose and extends far bevond the limited scope of the proposal. In this document the Commissioner is setting forth the policy he intends to enforce with respect to prescription drug products that are marketed for OTC use before the establishment of a final OTC drug monograph; he is not establishing a new policy for all OTC drug products reformulated during the pendency of the OTC drug review. The comment suggests requiring a labeling statement indicating that no final judgment has been made regarding safety and effectiveness of all drug products reformulated in anticipation of a final monograph, whether previously prescription or OTC, as well as in the labeling of all drug products containing category III ingredients or making category III claims. Early in the OTC drug review, the Commissioner considered the need for information in drug product labeling to indicate the status of ingredients and labeling claims that had not been finally resolved. He may reconsider this issue, and, if he does, he will coordinate his decision with the FTC. Any change from the current policy will be the subject of a separate FEDERAL REGISTER document.

3. One comment noted that in the procedures promulgated in the FEDERAL REGISTER of May 11, 1972 (37 FR 9464), the Commissioner recognized that it was the duty of OTC drug advisory review panels to recommend what drugs should be sold OTC and, further, that any interested person could submit data and views suggesting that a prescription drug be moved to OTC status. The comment therefore urged the Commissioner to instruct the panels to review, either on their own initiative or at the request of others, those prescription drugs within the therapeutic categories for which each is responsible and recommend whether any of these prescription drugs should be marketed as nonprescription drugs.

In the preamble to the December 4 proposal, the Commissioner described the two procedures by which a prescription drug ingredient may lawfully be marketed for OTC use. Ingredients limited to prescription use under section 503(b)(1)(C) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 353(b)(1)(C)) may acquire OTC status by a petition submitted pursuant to the procedures set forth in § 310.200 (21 CFR 310.200); the OTC drug review process provides another procedure.

The Commissioner notes that OTC drug advisory review panels were directed to review and make recommendations concerning OTC drug ingredients as well as certain prescription drug ingredients that could be used safely and

V 41 151 AUG 4 76 UMI

effectively by laymen. Several panels have made such recommendations regarding prescription drug ingredients. It is, however, impractical and it was never intended that these panels evaluate all prescription drug ingredients within the therapeutic category under their review. The Commissioner advises that any interested person may, as the comment indicated, submit data and views to a panel suggesting that a prescription drug be moved to OTC status. Any interested person may also file a petition with FDA requesting a change from prescription to OTC status for a specific drug product.

4. Two comments objected to making the enforcement policy effective immediately without considering comments from interested persons.

The Commissioner advises that in the interest of the public health it was necessary that the proposal constitute the FDA enforcement policy pending promulgation of the final regulation. The enforcement policy was announced to prevent precipitous marketing of OTC drug products that may not have been demonstrated safe and effective and to clarify for all interested persons the regulatory status of drug products containing ingredients currently limited to prescription use, or dosage levels of ingredients above those currently available OTC, even though a panel may regard such ingredients or dosage levels as appropriate for classification in category I. The Commissioner notes that some manufacturers were in fact commencing OTC marketing of drug products containing prescription ingredients and this in part necessitated the immediate action.

5. One comment stated that proposed § 330.13 consistently refers to OTC drug products available on December 4, 1975, or currently available, but that the proposal does not indicate whether mere presence in the marketplace or "legal" presence is necessary to satisfy that requirement. The comment requested clarification of the applicable standard.

The Commissioner intends the terms "currently available" and "available on December 4, 1975" to apply to any drug product that was in fact marketed for OTC use on December 4, 1975, except for drug products that were limited to prescription use on or after May 11, 1972 (the date on which the OTC drug review officially commenced), and were not thereafter exempted from such a limitation pursuant to § 310.200. The regulation has been revised to delete the terms "previously available" and "currently available" and substitute the more precise terms, as appropriate.

6. In addition to the changes noted in comments 1 and 5 above, the Commissioner has also added references to the appropriate paragraphs in § 330.10 to clarify the terms "category I," "category II," and "category III."

7. The Commissioner points out that the ingredients diphenhydramine, oxymetazoline, and chlorpheniramine, which were cited in the December 4 proposal, will be dealt with in the proposed monograph for OTC cold, cough, allergy, bronchodilator, and antiasthmatic products to be published in a future issue of the FEDERAL REGISTER.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 701(a), 52 Stat. 1050–1053, as amended, 1055 (21 U.S.C. 352, 355, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

1. In Part 310, § 310.200 is amended by revising paragraphs (a) and (c) and adding new paragraph (e) to read as follows:

§ 310.200 Prescription-exemption procedure.

(a) *Duration of prescription requirement.* Any drug limited to prescription use under section 503(b)(1)(C) of the act remains so limited until it is exempted as provided in paragraph (b) or (e) of this section.

* * * * * *

(c) *New drug status of drugs exempted from the prescription requirement.* A drug exempted from the prescription requirement under the provisions of paragraph (b) of this section is a "new drug" within the meaning of section 201(p) of the act until it has been used to a material extent and for a material time under such conditions except as provided in paragraph (e) of this section.

* * * * * *

(e) *Prescription-exemption procedure of OTC drug review.* A drug limited to prescription use under section 503(b)(1)(C) of the act may also be exempted from prescription-dispensing requirements by the procedure set forth in § 330.13 of this chapter.

---

2. In Part 330, a new § 330.13 is added to read as follows:

§ 330.13 Conditions for marketing ingredients recommended for over-the-counter (OTC) use under the OTC drug review.

(a) Before the publication in the FEDERAL REGISTER of an applicable proposed monograph, an OTC drug product that contains: (1) An active ingredient limited, on or after May 11, 1972, to prescription use for the indication and route of administration under consideration by an OTC advisory review panel, and not thereafter exempted from such limitation pursuant to § 310.200 of this chapter, or

(2) An active ingredient at a dosage level higher than that available in an OTC drug product on December 4, 1975, shall be regarded as a new drug within the meaning of section 201(p) of the act for which an approved new drug application is required.

(b) (1) An OTC drug product that contains: (i) An active ingredient limited, on or after May 11, 1972, to prescription use for the indication and route of administration under consideration by an OTC advisory review panel, and not thereafter exempted from such limitation pursuant to § 310.200 of this chapter, or

(ii) An active ingredient at a dosage level higher than that available in an OTC drug product on December 4, 1975, which ingredient and/or dosage level is classified by the panel in category I (conditions subject to § 330.10(a)(6)(i)) shall be regarded as a new drug within the meaning of section 201(p) of the act for which an approved new drug application is required if marketed for OTC use prior to the date of publication in the FEDERAL REGISTER of a proposed monograph.

(2) An OTC drug product covered by paragraph (b)(1) of this section which is marketed after the date of publication in the FEDERAL REGISTER of a proposed monograph but prior to the effective date of a final monograph shall be subject to the risk that the Commissioner may not accept the panel's recommendation and may instead adopt a different position that may require relabeling, recall, or other regulatory action: The Commissioner may state such position at any time by notice in the FEDERAL REGISTER, either separately or as part of another document; appropriate regulatory action will commence immediately and will not await publication of a final monograph. Marketing of such a product with a formulation or labeling not in accord with a proposed monograph or tentative final monograph also may result in regulatory action against the product, the marketer, or both.

(c) An OTC drug product that contains: (1) An active ingredient limited, on or after May 11, 1972, to prescription use for the indication and route of administration under consideration by an OTC advisory review panel, and not thereafter exempted from such limitation pursuant to § 310.200 of this chapter, or

(2) An active ingredient at a dosage level higher than that available in any OTC drug product on December 4, 1975, which ingredient and/or dosage level is classified by the panel in category II (conditions subject to § 330.10(a)(6)(ii)), shall be regarded as a new drug within the meaning of section 201(p) of the act for which an approved new drug application is required for marketing.

(d) An OTC drug product that contains: (1) An active ingredient limited, on or after May 11, 1972, to prescription use for the indication and route of administration under consideration by an OTC advisory review panel, and not thereafter exempted from such limitation pursuant to § 310.200 of this chapter, or

(2) An active ingredient at a dosage level higher than that available in any OTC drug product on December 4, 1975 which ingredient and/or dosage level is classified by the panel in category III (conditions subject to § 330.10(a)(6)(iii)), may be lawfully marketed only after either the ingredient is determined by the Commissioner to be generally recognized as safe and effective, or a new drug application for the product has been approved.

Effective date: This regulation shall become effective on September 3, 1976.

(Secs. 502, 505, 701(a), 52 Stat. 1050–1053, as amended, 1055 (21 U.S.C. 352, 355, 371(a)))

Dated: July 26, 1976.

SHERWIN GARDNER,
Deputy Commissioner of Food and Drugs.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Orgotein for Injection

The Food and Drug Administration approves supplemental new animal drug application 45–863V filed by Diagnostic Data, Inc., 518 Logue Ave., Mountain View, CA 94043, proposing safe and effective use of orgotein for injection for dogs for treating inflammatory conditions. The approval is effective September 3, 1976.

The Commissioner of Food and Drugs is amending Part 522 (21 CFR Part 522) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 522 is amended in § 522.1620 by revising paragraph (c) to read as follows:

§ 522.1620 Orgotein for injection.

* * * * * *

(c) *Conditions of use—(1) Horses.*—(i) It is used in the treatment of soft tissue inflammation associated with the musculoskeletal system.

(ii) It is administered by deep intramuscular injection at a dosage level of 5 milligrams every other day for 2 weeks and twice weekly for 2 to 3 more weeks. Severe cases, both acute and chronic, may benefit more from daily therapy initially. Dosage may be continued beyond 5 weeks if satisfactory improvement has not been achieved.

(iii) Not for use in horses intended for food.

(2) *Dogs.* (i) It is used for the relief of inflammation associated with ankylosing spondylitis, spondylosis, and disc disease. When severe nerve damage is present, response will occur much more slowly, if at all.

(ii) It is administered by subcutaneous injection at a dosage level of 5 milligrams every day for 6 days, and thereafter, every other day for 8 days. In less severe conditions, shorter courses of therapy may be indicated.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date: This amendment shall be effective on September 3, 1976.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: July 29, 1976.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.76-22532 Filed 8-3-76;8:45 am]

PART 555—CHLORAMPHENICOL DRUGS FOR ANIMAL USE

Chloramphenicol Tablets

The Food and Drug Administration approves new animal drug application 55–051V filed by Parke, Davis & Co., Joseph Campau Avenue at the River, Detroit, MI 48232, proposing safe and effective use of 100-, 250-, and 500-milligram chloramphenicol tablets for dogs for oral treatment of bacterial pulmonary infections, bacterial infections of the urinary tract, bacterial enteritis, and bacterial infections associated with canine distemper caused by susceptible organisms. The approval is effective on September 3, 1976.

The Commissioner of Food and Drugs is amending Part 555 (21 CFR Part 555) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (41 FR 24262)), Part 555 is amended in in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262), Part 555 is amended in § 555.110a by revising paragraph (c)(1)(i) and (ii) to read as follows:

§ 555.110a Chloramphenicol tablets.

* * * * * *

(c) *Conditions of marketing*—(1)(i) *Specifications.*—Chloramphenicol tablets contain 100, 250, or 500 milligrams of chloramphenicol and confrom to the certification requirements of paragraph (a) of this section.

(ii) *Sponsor.* See No. 000071 in § 510.600(c) of this chapter for 100-, 250-, and 500-milligram tablets; see No. 017030 in § 510.600(c) of this chapter for 100-milligram tablets.

* * * * * *

Effective date: This amendment shall be effective on September 3, 1976.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: July 29, 1976.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

SUBCHAPTER G—COSMETICS

[Docket No. 75N-0005]

PART 701—COSMETIC LABELING

Hypoallergenic Cosmetic Products; Revocation of Stay of Effective Date

The Food and Drug Administration is revoking the stay, published in the FEDERAL REGISTER of July 28, 1975 (40 FR 31606), of the effective date of § 701.100(a) through (j) (21 CFR 701.100(a) through (j)), which concerns the conditions under which a cosmetic may be labeled as "hypoallergenic." This revocation is effective on September 3, 1976, for all cosmetics initially introduced into interstate commerce on or after such date.

The Commissioner of Food and Drugs issued in the FEDERAL REGISTER of June 6, 1975 (40 FR 24442) a regulation establishing the conditions under which a cosmetic may be designated in its labeling by words that state or imply that the product or any ingredient thereof is hypoallergenic. The regulation requires dermatological testing to confirm the validity of such a claim. Paragraph (h) of § 701.100 requires that any cosmetic product that is designated in labeling as hypoallergenic or for which claims are made that one or more ingredients are hypoallergenic or for which hypoallergenicity is implied through the use of other terms shall comply with the requirements of the regulation before such claims are made if it was not in commercial distribution on June 6, 1975, and shall comply by June 6, 1977, if it was in commercial distribution on June 6, 1975.

McMurray and Pendergast, as attorneys for Clinique Laboratories, Inc., and Almay, Inc., petitioned the Commissioner to stay the regulation pending the outcome of litigation, which those companies had instituted in the United States District Court for the District of Columbia to challenge the validity of the regulation. (Almay, Inc. v. Weinberger, Civil Action No. 75–1135.)

The Commissioner stayed the regulation "until further notice" pending the lawsuit. In an order filed June 30, 1976, the United States District Court for the District of Columbia upheld the validity of the regulation in full. On July 9, 1976, the plaintiffs filed a notice of appeal to the United States Court of Appeals for the District of Columbia. The plaintiffs also requested the Commissioner to continue the stay during the appeal in a letter on file in the office of the Hearing Clerk.

V 41 151 AUG 4 76 UMI

The Commissioner believes that any further delay in the effectiveness of the regulations is not justified in light of the important public interest served by the regulation of eliminating consumer confusion about claims of hypoallergenicity and of requiring documentation of the claims. Moreover, the plaintiffs have had an opportunity for judicial review by the District Court and have not been successful. Accordingly, the Commissioner finds a continuation of the stay to be no longer justified under the criteria considered in evaluating requests for stay; the criteria are reflected in 21 CFR 2.9, as proposed in the FEDERAL REGISTER of September 3, 1975 (40 FR 40722–23).

The Commissioner, in order to permit an orderly transition, is revoking the stay effective on September 3, 1976, for all cosmetics initially introduced into interstate commerce on or after that date. Accordingly, cosmetics with a hypoallergenic claim not in commercial distribution, i.e., not on the market, on June 6, 1975, may not be shipped in interstate commerce by the cosmetic firm marketing the product to a wholesaler, retailer or other party on or after September 3, 1976, unless the claim is justified in accordance with the regulation. Cosmetics shipped in interestate commerce by the cosmetic firm marketing the product to a wholesaler, retailer or other party before September 3, 1976, need not be recalled. Cosmetics with a hypoallergenic claim which were in commercial distribution on June 6, 1975, still have until June 6, 1977, to justify their claims in accordance with the regulation.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 602(a), 701(a), 52 Stat. 1041 as amended, 1054, 1055 (21 U.S.C. 321(n), 362(a), 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), the stay of 21 CFR 701.100(a) through (j) published in the FEDERAL REGISTER of July 28, 1975 (40 FR 31606) is hereby revoked effective September 3, 1976, for all cosmetics initially introduced into interstate commerce on or after such date.

Dated: July 30, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner For Compliance.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-932]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Notice of Final Flood Elevation Determinations for the Town of Longboat Key, Florida

On March 11, 1976, at 41 FR 10431, the Federal Insurance Administrator published a notification of modification of the base (100-year) flood elevations in the Town of Longboat Key, Florida. Since that date, ninety days have elapsed; and the Federal Insurance Administrator has evaluated requests for changes in the base flood elevations, and after consultation with the Chief Executive Officer of the community, has determined no changes are necessary. Therefore, the modified flood elevations are effective as of February 20, 1976 and amend the Flood Insurance Rate Map which was in effect prior to that date.

The modifications are pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 125126A and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the final flood elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

The numerous changes made in the base flood elevations on the Longboat Key Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Longboat Key map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 2, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.76-22573 Filed 8-3-76;8:45 am]

[Docket No. FI-2134]

PART 1916—HOUSING AND URBAN DEVELOPMENT

Notice of Changes Made in Determinations of Jefferson Parish, Louisiana

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of Jefferson Parish, Louisiana.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in Jefferson Parish. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 225199B, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mr. Hugh Ford, Director of Planning, Jefferson Parish, 3300 Metairie Road, Metairie, Louisiana 70001.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Jefferson Parish Flood Insurance Rate Map make it administratively infeasible to pubish in this notice all of the base flood elevation changes contained on the Jefferson Parish map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 2, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.76-22572 Filed 8-3-76;8:45 am]

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Notice of Changes Made in Determinations of the Borough of Highlands, New Jersey, Base Flood Elevations

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the Borough of Highlands, New Jersey.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the Community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the Borough of Highlands. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 345297A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mayor Cornelius J. Guiney, Borough Hall, 171 Bay Avenue, Highlands, New Jersey 07732.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Borough of Highlands, New Jersey Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Borough of Highlands, New Jersey map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 14, 1976.

R. W. KRIMM,
Acting Federal Insurance Administrator.

[FR Doc.76-22577 Filed 8-3-76;8:45 am]

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Notice of Changes Made in Determinations of the City of Winston-Salem, North Carolina, Base Flood Elevations

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Winston-Salem, North Carolina.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Winston-Salem. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 37630D, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mr. Orville Powell, City Manager, City Hall, P.O. Box 2511, Winston-Salem, North Carolina 27102.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the City of Winston-Salem Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Winston-Salem, North Carolina map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 13, 1976.

[Docket No. FI-2145]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Notice of Changes Made in Determinations of the City of Tulsa, Oklahoma, Base Flood Elevations

On June 25, 1976, at 41 FR 26402 the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Tulsa, Oklahoma.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Tulsa, Oklahoma. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 405381C, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National

V 41 151 AUG 4 76 UMI

Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mayor Robert J. La Fortune, City Hall, Tulsa, Oklahoma 74103.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the City of Tulsa Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Tulsa, Oklahoma map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 22, 1976.

H. B. CLARK,
Acting Federal Insurance Administrator.

PART 1916—HOUSING AND URBAN DEVELOPMENT

Notice of Changes Made in Determinations of Portsmouth, Rhode Island

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of Portsmouth, Rhode Island.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in Portsmouth. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 445405B, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Town Administrator, Town of Portsmouth, 2200 East Main Road, Portsmouth, Rhode Island 02871.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Portsmouth Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Portsmouth map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 F.R. 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 F.R. 2680, February 27, 1969, as amended by 39 F.R. 2787, January 24, 1974.)

Issued: July 26, 1976.

H. B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-2134]

PART 1916—HOUSING AND URBAN DEVELOPMENT

Notice of Changes Made in Determinations of the City of Nassau Bay, Texas

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Nassau, Bay, Texas.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in Nassau Bay, Texas. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 485491 D, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mr. Howard L. Ward, City Manager, City of Nassau Bay, 18100 Upper Bay Road, Suite 102, Houston, Texas 77058.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Nassau Bay, Texas Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Nassau Bay, Texas map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: June 30, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Notice of Changes Made in Determinations of the City of Seguin, Texas

On June 25, 1976, at 41 FR 26415, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Seguin, Texas.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in Seguin. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448) 42 U.S.C. 4001–4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 485508 B, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

The Honorable Alfred H. Koeblg, Mayor, City of Seguin, P.O. Box 591, Seguin, Texas 78155.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Seguin Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Seguin map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 14, 1976.

R. W. KRIMM,
Acting Federal Insurance Administrator.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 589-6]

PART 416—PLASTICS AND SYNTHETICS MANUFACTURING POINT SOURCE CATEGORY

Revocation and Suspension of Regulations

On April 5, 1974 effluent limitations guidelines, new source performance standards and new source pretreatment standards were promulgated pursuant to sections 301, 304(b), 306 and 307(c) of the Federal Water Pollution Control Act (the Act), 33 U.S.C. 1311, 1314(b), 1316 and 1317(c), for thirteen subcategories of the Plastics and Synthetics point source category, (40 CFR 416, subparts A through M) (the "Phase I" regulation). On January 23, 1975, 40 CFR 416 was amended to add effluent limitations guidelines, new source performance standards and new source pretreatment standards for eight additional subcategories of the point source category, (40 CFR 416, subparts N through U) (the "Phase II" regulation). Pretreatment standards for existing sources pursuant to section 307(b) of the Act were proposed for subparts A through M on April 5, 1974 and for subparts N through U on January 23, 1975. On May 19, 1975 subpart M (the Acrylics subcategory) was suspended until further notice.

On March 10, 1976 the United States Court of Appeals for the Fourth Circuit rendered its decision concerning petitions for review of the Phase I regulations in *FMC Corporation, et al.* v. *Train*, No. 74–1386. The Court remanded the Phase I effluent limitations guidelines and new source performance standards to the Administrator for reconsideration. The principal defect in the regulations which the Court found to exist concerned the hydraulic flows used to calculate all parameters whose effluent limitations and standards were set in terms of mass. Therefore, the limitations and standards for all such parameters for all Phase I subcategories are being revoked. The pH limitations and standards were not challenged by the petitioners in *FMC Corporation* v. *Train* nor is anything in the Court's opinion inconsistent with their validity. However, because all other limitations and standards are being revoked it is appropriate to suspend the pH limitations and standards pending reconsideration of these other parameters.

Sufficient similarity exists between the hydraulic flows used to calculate all parameters whose effluent limitations and standards were set in terms of mass in the Phase I and Phase II regulations to cast doubt on the validity of the Phase II limitations and standards. Therefore, the Phase II limitations and standards are being revoked and suspended in the same manner as the Phase I regulation. Proposed pretreatment standards for existing sources for all Phase I and Phase II subcategories must similarly be rescinded. The Agency intends to repromulgate the portions of the regulations revoked today and to terminate the suspension of those portions suspended, as soon as the inadequacies noted by the Court of Appeals can be remedied. In the interim, effluent limitations and guidelines and new source performance standards for the Plastics and Synthetics Manufacturing Point Source Category shall be considered to be not implemented for purposes of section 402(a)(1) of the Act.

Specifically, the following changes are made in 40 CFR Part 416:

(Subparts A through M were promulgated April 5, 1974.)

Subpart A—Polyvinyl Chloride Subcategory

§ 416.12 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.13 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.15 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.16 [Amended]

The pretreatment standards for new sources are revoked.

Subpart B—Polyvinyl Acetate Subcategory

§ 416.22 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.23 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

V 41 151 AUG 4 76 UMI

§ 416.25 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.26 [Amended]

The pretreatment standards for new sources are revoked.

Subpart C—Polystyrene Subcategory

§ 416.32 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.33 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.35 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.36 [Amended]

The pretreatment standards for new sources are revoked.

Subpart D—Polypropylene Subcategory

§ 416.42 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.43 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.45 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.46 [Amended]

The pretreatment standards for new sources are revoked.

Subpart E—Polyethylene Subcategory

§ 416.52 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.53 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.55 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.56 [Amended]

The pretreatment standards for new sources are revoked.

Subpart F—Cellophane Subcategory

§ 416.62 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.63 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.65 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.66 [Amended]

The pretreatment standards for new sources are revoked.

Subpart G—Rayon Subcategory

§ 416.72 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.73 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.75 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.76 [Amended]

The pretreatment standards for new sources are revoked.

Subpart H—Acrylonitrile-Butadiene-Styrene (ABS) and Styrene-Acrylonitrile (SAN) Resin Copolymers Subcategory

§ 416.82 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.83 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.85 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.86 [Amended]

The pretreatment standards for new sources revoked.

Subpart I—Polyester Subcategory

§ 416.92 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.93 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.95 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.96 [Amended]

The pretreatment standards for new sources are revoked.

Subpart J—Nylon 66 Subcategory

§ 416.102 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.103 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.105 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.106 [Amended]

The pretreatment standards for new sources are revoked.

Subpart K—Nylon 6 Subcategory

§ 416.112 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.113 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.115 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.116 [Amended]

The pretreatment standards for new sources are revoked.

Subpart L—Cellulose Acetate Subcategory

§ 416.122 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.123 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.125 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.126 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

Subpart M—Acrylics Subcategory

§ 416.132 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.133 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.135 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.136 [Amended]

The pretreatment standards for new sources are revoked.

(Subparts N through U were promulgated January 23, 1975.)

Subpart N—Ethylene-Vinyl Acetate Copolymers Subcategory

§ 416.142 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.143 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.145 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.146 [Amended]

The pretreatment standards for new sources are revoked.

Subpart O—Polytetrafluoroethylene Subcategory

§ 416.152 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.153 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.155 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.156 [Amended]

The pretreatment standards for new sources are revoked.

Subpart P—Polypropylene Fiber Subcategory

§ 416.162 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.163 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.165 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.166 [Amended]

The pretreatment standards for new sources are revoked.

Subpart Q—Alkyds and Unsaturated Polyester Resins Subcategory

§ 416.172 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.173 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.175 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.176 [Amended]

The pretreatment standards for new sources are revoked.

Subpart R—Cellulose Nitrate Subcategory

§ 416.182 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.183 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.185 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.186 [Amended]

The pretreatment standards for new sources are revoked.

Subpart S—Polyamide (Nylon 6/12) Subcategory

§ 416.192 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.193 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.195 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.196 [Amended]

The pretreatment standards for new sources are revoked.

Subpart T—Polyester Resins (Thermoplastic) Subcategory

§ 416.202 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.203 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.205 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.206 [Amended]

The pretreatment standards for new sources are revoked.

Subpart U—Silicones Subcategory

§ 416.302 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.303 [Amended]

The limitations for all parameters except pH are revoked; the limitations for pH are suspended.

§ 416.305 [Amended]

The standards of performance for all parameters except pH are revoked; the standards of performance for pH are suspended.

§ 416.306 [Amended]

The pretreatment standards for new sources are revoked.

Because of the order issued by the United States Court of Appeals for the Fourth Circuit and the nature of the action taken, the Agency finds that public participation in this rulemaking is unnecessary and impractical. This amendment as set forth shall become effective immediately.

Dated: July 28, 1976.

RUSSELL E. TRAIN,
Administrator.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

(Public Land Order 5592; I-9100)

IDAHO

Withdrawal for Protection of Recreational and Other Natural Resource Values

Correction

In FR Doc. 76-20268 appearing on page 28954 in the issue for Wednesday, July 14, 1976 make the following correction:

In the middle column of page 29855, in the 4th line under the heading "Stock Driveway No. 112 (Partial)" the numbers now reading "Secs. 1, 11, 12, 14, 15, 12, 22, 28, 33." should have read "Secs. 1, 11, 12, 14, 15, 21, 22, 28, 33."

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 252—OPERATING-DIFFERENTIAL SUBSIDY FOR BULK CARGO VESSELS ENGAGED IN WORLDWIDE SERVICES

Foreign-Flag Competition

On September 22, 1975, Notice was published in the FEDERAL REGISTER (39

V 41 151 AUG 4 76 UMI

FR 20383) announcing adoption of a new Part 252 to Title 46 of the Code of Federal Regulations, setting forth regulations governing the payment of operating-differential subsidy (ODS) to bulk cargo vessels engaged in worldwide services pursuant to Title VI of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1171–1083).

Notice is hereby given that § 252.22 of Part 252 is amended.

Section 252.22 of Title 46 provides procedures for determining the substantiality and extent of foreign flag competition for bulk carriers engaged in world-wide services. Under this procedure foreign flag competition is determined as of January 1 of each year by surveying a data file known as "Merchant Fleets of the World" and calculating the percentage weight of each competing flag within the applicable vessel type and deadweight tonnage range. The principal competitive foreign flags are those that have the greatest deadweight tonnage of the vessels in a specified range, not to exceed five foreign flags.

The purpose of this amendment is to remove from consideration in the determination of the substantiality and extent of foreign-flag competition those foreign-flag vessels which are engaged in foreign trades from which U.S.-flag vessels are excluded. This is necessary in order that the true foreign-flag vessel competition may be accurately determined.

This amendment to 46 CFR Part 252 has been reviewed pursuant to E.O. 11821 and OMB Circular A107 and it has been determined that it will have no major inflationary impact.

Accordingly, paragraph (d) of § 252.22 of Part 252 of Title 46 of the Code of Federal Regulations is amended to read as follows:

§ 252.22 Substantiality and extent of foreign-flag competition.

* * * * *

(d) *Principal Competitive foreign-flags.* The principal competitive foreign-flags shall be those foreign-flags that have the greatest total tonnage of vessels deemed competitive with the subsidized vessel that, when combined, aggregate at least 60 percent of the total tonnage of the competitive vessels not to exceed the five foreign-flags with the greatest total tonnage. For the purposes of this paragraph, foreign-flag vessels engaged in foreign trades from which U.S.-flag vessels are excluded are deemed not competitive with the subsidized vessel.

* * * * *

Effective date: This amendment shall be effective as of January 1, 1974.

(Sec. 204(b), Merchant Marine Act, 1936, as amended (46 U.S.C. 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 840) as amended by Pub. L. 91–469 (84 Stat. 1036, Department of Commerce Organization Order 10–8 (38 FR 19707, July 23, 1973)).)

It is hereby certified that the economic and inflationary impacts of this amendment have been carefully evaluated in accordance with OMB Circular A–107.

By Order of the Maritime Subsidy Board.

Dated: JULY 28, 1976.

JAMES S. DAWSON, Jr.,
Secretary,
Maritime Subsidy Board.

PART 536—FILING OF TARIFFS BY COMMON CARRIERS BY WATER IN THE FOREIGN COMMERCE OF THE UNITED STATES AND BY CONFERENCES OF SUCH CARRIERS

Further Postponement of Effective Date

In order to permit additional time to evaluate petitions for reconsideration of final rules in this proceeding (40 FR 47770; October 10, 1975), it has been determined that further postponement of their effective date is warranted. *Accordingly, it is ordered,* That the "August 2, 1976" effective date incorporated in the first sentence of § 536.16 of Part 536, 46 CFR is amended to read "October 1, 1976".

By the Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.76–22641 Filed 8–3–76;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 76–708; Docket No. 20746]

PART 15—RADIO FREQUENCY DEVICES

Receiver Certification Program; Technical Specifications

In the matter of revision of Part 15 to extend the receiver certification program, to revise the technical specifications for receivers, and to make other changes.

1. A Notice of Proposed Rule Making in this proceeding was adopted on March 19, 1976 and released on March 29, 1976.[1] This Notice specified that comments be submitted on or before May 3, 1976 and reply comments on or before May 13, 1976. These dates were extended to May 26, 1976 and June 10, 1976 by orden of the Commission on April 16, 1976 in response to a petition from Electronic Industries Association, Citizens Radio Section, filed April 13, 1976 and from Jerrold Electronics Corp., filed April 16, 1976.

2. This First Report deals only with the problem of the Citizen Band Class D[2] receiver which will be referred to herein as the CB receiver. This term includes a CB receiver sold as a separate unit of equipment, the receiver portion of a CB Class D transceiver and the CB converter commonly marketed as an attachment to the AM receiver in a car which permits listening to CB Class D transmissions on the car radio.

3. The Utilities Telecommunications Council (UTC)[3] brought to the attention of the Commission, a serious interference problem to operations of Power Radio Stations on frequencies in the 37 MHz band which are allocated to the Power Radio Service. UTC had investigated this problem and found that the interference was due to emissions from CB receivers using a form of frequency synthesis which involves the use of a 37 MHz oscillator.[4] Pointing out that FCC regulations currently in effect[5] to control receiver radiation, apply only to receivers that operate above 30 MHz and do not apply to CB receivers which operate below 30 MHz, UTC urges the Commission to extend the scope of these regulations to include CB receivers. Subsequently, on March 15, 1976, UTC filed a petition to amend Part 15 to provide for reduced radiation interference limits for a CB receiver operating in the 27 MHz band.[6]

4. The interference reported by UTC arises from the particular type of frequency synthesis used by many of the CB receivers. With conventional techniques, 23 crystals—one for each channel—are required in a CB receiver designed to receive each of the 23 CB Class D channels. By combining the outputs of two oscillators—one using crystals at 37.6, 37.65, 37.7, 37.75, 37.8 and 37.85 MHz and one using 4 crystals at 10.180, 10.170, 10.160 and 10.140 MHz—all the 23 Class D channels can be obtained with a total of 10 crystals.[7] It should be noted that the frequencies 37.6, 37.7 and 37.8 MHz are precisely those used by the Power Radio Service and that the frequencies 37.65, 37.75 and 37.85 MHz are only 50 kHz removed from the Power Radio frequencies.

5. The UTC findings were verified by tests on 15 CB Class D transceivers by the FCC Laboratory[8] which showed that emissions from many of these CB receivers were in fact capable of causing

[1] 41 FR 13375; 58 FCC 2nd 5, Page 839.

[2] Citizens Radio Class D stations operate on frequencies between 26.96–27.23 and on 27.255 MHz. Effective January 1, 1977, Citizens Radio Class D stations operate on frequencies between 26.96 and 27.41 MHz.

[3] The Utilities Telecommunication Council is the national representative on telecommunications matters of electric, gas, water and steam utilities—the entities eligible under FCC Rules in the Power Radio Service.

[4] See Appendix A for a tabulation of the frequencies involved in this type of synthesizer.

[5] 47 CFR 15.63.

[6] This petition was received a few days before the Notice in Docket 20746 was adopted. Since the regulations proposed in this Notice would provide the relief sought by UTC, the petition was filed as a comment in Docket 20746.

[7] See Appendix A.

[8] "Strength of Emissions from Citizens Radio Service Transmitters," FCC Laboratory Division Report FCC/OCE Lab 76–01, April 1976. This report is available from the Office of the Chief Engineer, FCC Washington, D.C. 20554. A copy has been filed in this Docket.

harmful interference to land mobile communications in the 30 MHz band. It was concluded that to provide reasonable protection to the land mobile service, it was necessary to keep the spurious energy at the antenna terminals of the CB receiver below 0.2 nanowatts (nW).

RESPONSE TO THE NOTICE OF PROPOSED RULE MAKING

6. In response to this Notice, comments were received from many parties. Only those comments related to CB receivers are discussed herein. The other aspects of this proceeding will be considered in a subsequent report. None of the comments objected to the proposal that CB receivers be certificated, or that spurious emissions be measured at the antenna terminals. Objections were raised against the 0.2 nW level and against the chassis radiation specification of 15 μV/m at 1 meter which make up the two parts of the Commission proposal.

7. FAA supported the Commission's proposal, pointing out that the 3rd harmonic of the CB receiver oscillator falls in the aeronautical services band and should be reduced 10dB. In its comment, the Forestry Conservation Communications Association (FCCA) pointed out Forestry Conservation licensees are suffering interference on 151.205 and 151.400 MHz from radiation from CB receivers.[9] FCCA urges early implementation of the proposed rules.

8. The R.L. Drake Co. (Drake) supported the proposal to extend the certification requirement to CB receivers, but did not comment on the technical specifications proposed for these receivers. Although not addressing the CB receiver problem, GTE Sylvania calls attention to the lack of a measurement procedure to measure chassis radiation at 1 meter. Since a procedure exists for making such measurements at 3 meters, GTE Sylvania suggests a chassis radiation specification of 5 μV/m at 3 meters instead of 15 μV/m at 1 meter. GTE Sylvania also points out that 0.2 nW does not correlate to the radiation interference limits in §§ 15.63(a) or 15.64(c). The chassis radiation measurement at 1 meter is also questioned by the Land Mobile Communications Section of the Electronic Industries Association (EIA/Land Mobile) which points up the difficulties in making such a measurement. In addition, EIA/Land Mobile maintains that 15 μV/m at 1 meter is an unrealistically severe specification.

9. The transceiver export committee of Electronic Industries Association of Japan (EIA Japan) took no position with respect to the instant proposal, but it questioned the suitability of measuring at 1 meter due to practical difficulties. It also pointed out that the 0.2 nW limit is out of touch with current practice, and called attention that Canada and Japan both impose a limit of 20 nW.

10. Collins Division of Rockwell International Corp. (Collins) points out that the regulations proposed for CB receivers would also apply to a number of professional communication receivers. Collins states that the Commission has not demonstrated a need to apply the CB regulations across the board to all receivers that operate in the band 26–30 MHz and requests that the proposed regulations be limited to CB receivers. Mr. David Bentley, speaking as an individual amateur, makes a similar request that amateur receivers that operate in this band likewise be excluded from the proposed regulations.

11. The Consumer Electronics Group of Electronic Industries Assn. (EIA/CEG) questions the accuracy of chassis radiation measurements made at 1 meter and urges the Commission to adopt a more appropriate measurement distance, but makes no recommendations as to what such a distance should be. EIA/CEG also questions the sweeping nature of the Commission's proposal with respect to the 26–30 MHz, alleging that many multi-band home entertainment-type receivers will be eliminated from the market if the severe regulations proposed for this band are adopted and implies that these regulations be limited to CB receivers. Zenith Radio Corp. supports EIA/CEG on the latter point and urges that multi-band receivers be excluded from the new regulations.

12. General Electric Co., Audio Electronics Product Department (GE) supports the proposal to require certification of CB receivers and favors the measurement of spurious power at the antenna terminals as more accurate than open field radiation measurements. However, it believes the specifications proposed are overly stringent and impose unreasonable constraints on the manufacture of CB equipment, or dramatically increase the cost of such equipment. GE points out that the 0.2 nW limit translates into a field strength of 6.5 μV/m at 30 meters which is 5 times more severe than the limit imposed on other receiver emissions in the frequency range 25–30 MHz[10] and recommends that the limit be set at 5 nW.

13. GE also objects to the chassis radiation limit in proposed Section 15.59(c) as being excessively severe and points out that this specification is in conflict with the 100 μV/m at 3 meter requirement proposed in Docket 20780.[11] As a more reasonable requirement, GE proposes a limit of 35 μV/m at 3 meters which it says is approximately 10 percent of the power limit. GE also calls attention to the fact that many CB receivers and multi-band receivers which include a CB reception capability are housed in plastic cabinets and will not be able to meet the chassis radiation limit. GE urges that such receivers be permitted to employ open field measurements and to comply with § 15.63(a).

14. Tram/Diamond Corp. does not question the Commission's proposal to require certification but raises objections to the technical specifications proposed. Tram/Diamond argues that since the rule making is designed to minimize radiation in the 37 MHz band, the same objective can be achieved by prohibiting the use of local oscillator frequencies above 30 MHz. Alternatively, Tram/Diamond suggests that the proposed rules be applied only to CB receivers using a local oscillator above 30 MHz, thereby permitting the manufacturer to determine whether using such an oscillator has sufficient technical advantage to warrant the effort and expense of meeting the proposed requirement. Tram/Diamond also points out that the 6 month lead time set out in the proposal is not sufficient and suggests that the new regulations be applied only to CB receivers which are first placed in production more than 6 months following the adoption of new rules and that the manufacture of non-certificated CB receivers be terminated within two years.

15. Vector, Inc., acknowledges the Commission's concern concerning the CB receiver problem, but alleges that the Commission is proposing unnecessarily severe, difficult and costly performance criteria and proposes their implementation within an unreasonable short time (six months). Vector submitted computations based on theoretical considerations to show that 0.2 nW at the CB receiver antenna terminals will theoretically deliver a signal of 1 μV to a land mobile receiver at 105 meters as a worst case condition. In practice, Vector says, this will be reduced by a factor of ten and the protection distance will be reduced to 11 meters. Vector suggests that the CB limit be set at 2.0 nW to give a theoretical protection distance of 1000 meters and a real life distance of 100 meters. In agreement with the above, Vector suggests that the chassis radiation specification be increased to 150 μV/m at 1 meter.

16. The Academy of Model Aeronautics (Academy)[12] filed its comment late and petitioned the Commission to accept this late filing.[12] The Academy estimates that some 450,000 persons operate radio controlled model aircraft and that many of these use equipment that operates in the 27 MHz band. The Academy points out

[9] That a CB receiver is capable of causing such interference was verified by the measurements made by the FCC Laboratory discussed in paragraph 5 above. See also footnote 8 above.

[10] Section 15.63(a), 47 CFR 15.63(a) requires subject receivers to limit emissions in the frequency range 25–70 MHz to 32 μV/m at 30 meters.

[11] In the Matter of: Amendment of Part 15 to redefine and clarify the rules governing restricted radiation devices and low power communication devices. Notice of Proposed Rule Making, adopted April 14, 1976, released April 23, 1976 (41 FR 23723).

[12] The Academy of Model Aeronautics is the governing body for model aircraft activities in the USA. At the end of 1975 its membership was about 60,000, of which 75 percent are said to regularly fly model aircraft under Class C Citizens Radio station licenses issued by the Commission.

[12] The petition filed by Academy is hereby granted and its late filing is accepted.

V41151 AUG 4 76 UMI

that these equipments, both transmitters and receivers, have not been shown to be a cause of interference. Moreover, the 27 MHz receiver is so simple that it has no antenna terminals and the measurements required to demonstrate compliance with the Commission's proposed regulation cannot be made. The Academy requests that 27 MHz radio control CB receivers be exempt from the proposed regulations and not be made subject to a needless financial burden. The Radio Control Equipment Manufacturers Association supports the position of the Academy stating that the CB radio control receiver (Class C) cannot be a source of interference since it cannot emit radiation of the magnitude that is emitted by the higher powered Class D equipment although no data is submitted to show the actual level of energy emitted by CB radio control receivers.

17. The Citizens Radio Section of the Electronic Industries Association (EIA/Citizens Section) fully endorses the Commission's program to extend certification to CB receivers, but contends that the technical specifications proposed single out CB receivers for treatment that is different in kind than that applied to other devices capable of causing similar interference problems. It argues that an orderly approach—requiring certification to the present Part 15 limits with a second look at some future date at the need for a more stringent limit will best achieve the Commission's objective at the lowest cost to the public.

18. EIA/Citizens Section contends that the frequency synthesis scheme that is creating the interference problem in the 37 MHz is being replaced by designs using a phase lock loop (PLL) digital technique which will provide relief more effectively than the stringent regulations proposed, but submits no data to show what levels of emission is given off by a CB receiver using the PLL technique. Moreover EIA/Citizens Section alleges that the Commission in its report [14] does not reveal whether the 15 CB receivers that were measured are a statistically significant sample of CB receivers on the market and suggests that the Commission's conclusions may be severely skewed.

19. Although EIA/Citizens Section endorses the concept of antenna terminal measurements, it states that it cannot endorse such a specification combined with a chassis radiation measurement at 1 meter. The antenna terminal measurement, it agrees, gives accurate and repeatable results. But this is not true for chassis radiation measurements at 1 meter. It concludes by urging the Commission to require certification under the present Part 15 limits and review this requirement after the Commission and industry have had sufficient time to observe the operation of CB receivers using the PLL technique to see whether the strict requirements proposed at this time are in fact required. It maintains that the concept of protection should be applied uniformly without regard to the nature or use of the subject equipment, and that there is no need to impose a special set of more stringent limitations on CB receivers.

20. Larry Hirsch, an individual, who has been "in the CB business for approximately 20 years" alleges that the Commission's proposal for a 0.2 nW limit is not in the public interest. It would increase the cost of a CB radio by at least $100 and people would not be able to afford to buy CB radios. He suggests that a limit of 40 nW would be adequate, although no data is submitted to support this suggestion.

21. In addition to its petition discussed in paragraph 3, UTC submitted a comment in which it calls attention to its petition and the survey it had made of Power Service licensees operating on 37.6, 37.7 and 37.8 MHz. Of the 53 licensees surveyed 80% responded and 38 percent indicated they were receiving interference from CB operations which in many cases blocked out reception of their own signals. UTC notes that its petition had recommended a 6dB tightening up of the radiation limit for CB receivers from 32 μ/Vm at 30 meters to 16 μV/m at 30 meters. It strongly supports the Commission proposal and urges that it be finalized as soon as possible.

22. Fanon/Courier Corp. supports in principle the application of certification to CB receivers. It points out that only about one half of all crystal controlled heterodyne synthesizer designs use the offending frequencies (37 MHz). As industry converts to PLL circuitry, effective relief will be provided without the need for the stringent regulations proposed. Fanon/Courier endorses the concept of antenna terminal measurements but not when required in conjunction with a one meter radiation test. In essence it suggests that the radiation measurement be abandoned and only the terminal measurement be required.

23. EIA/CEG is the only entity that filed a reply comment. It points out the discrepancy between the limits proposed for CB receivers in this proceeding and those proposed in Docket No. 20780.[15] The limits in these two proceedings, EIA/CEG contends, should be consistent as far as practicable and a common measurement procedure should be made available for all near-field measurements.

The 0.2 Nanowatt Specification

24. All parties objected to the limit of 0.2 nW proposed by the Commission. The comments claimed that this limit is unnecessarily severe and singles out CB receivers for special treatment which places an unreasonable burden on the CB receiver manufacturer and user. Very little factual data was submitted to show that the 0.2 nW limit was not necessary or how much of a burden in the form of increased cost would be imposed, although several of the parties did present some theoretical calculations to support their contentions. Many of the parties urged that CB receivers be required to meet the limit now in § 15.63(a) which requires emissions in the frequency range 25 to 30 MHz to be kept below 32 μV/m at 30 m.

25. The Commission cannot accept this point of view. The CB receiver does have a special characteristic that requires special treatment. These receivers are found in millions of vehicles on the highways where they are intimately associated with vehicles carrying land mobile equipment. The probability that a vehicle carrying a CB receiver will be adjacent to a vehicle using a land mobile equipment is quite high. On the other hand an FM or TV receiver or other devices regulated by Part 15 (for which revised regulations have been proposed in Docket No. 20780) are not likely to be adjacent to a vehicle carrying a land mobile installation. In view of the large numbers of CB installations in vehicles and the high probability that the CB receiver will be close to the land mobile installation and in order to minimize the probability of interference due to this proximity effect, stringent specifications must be imposed on the CB receiver.

26. However, to ease the burden this proposal would place on manufacturers, the Commission has decided to implement its proposal in two steps. Accordingly the regulations adopted herein provide that all CB receivers whose manufacture is begun after January 1, 1977 must be certificated to meet a limit of 2.0 nW at the antenna. On and after January 1, 1978 this limit will be 0.2 nW.

The One Meter Measurement Problem

27. Nearly all the parties commenting objected to making measurements at 1 meter to check chassis (or cabinet) radiation. Sylvania proposed that measurements be made at 3 meters. EIA suggested that a more suitable distance be specified but did not indicate what this distance should be. The Commission is aware of the problems inherent in measurements at 1 meter but is satisfied that such measurements can be made with sufficient accuracy to show that chassis radiation will not be a problem.[16] In response to the request to ease the chassis radiation measurement problem, the Commission is revising its proposal and is adopting a limit of 5μV/m at 3 meters for chassis radiation.

The Effective Date for Certification

28. Considerable objection was raised against requiring certification to the 0.2 nW limit within 6 months after final rules are adopted. The Commission must insist on this requirement. We find that it is contrary to the public interest to permit continued production of CB receivers to designs that yield relatively high levels of spurious emissions. Accordingly the rules adopted herein provide that all receivers whose manufacture is first begun after January 1, 1977 must be certificated to meet the revised limit of 2 nW and a chassis radiation limit of 5 μV/m at 3 meters. CB receivers whose initial production was begun prior to January 1, 1977 must be terminated not later than August 1, 1977 unless such CB receivers are certificated to meet the limits adopted herein. In addition, the sale or other form of marketing of non-certificated CB receivers must be terminated not later than January 1, 1978. Applications for certification under the revised regulations adopted herein will not be accepted prior to September 10, 1976.

[14] Paragraph 5 of this report and footnote 8.

[15] See footnote 11 supra.

[16] Attention is invited to the Commission's rules or Class I TV devices (home video games). These rules, 47 CFR 15.401 et seq., impose a chassis radiation specification of 15 μV/m at 1 meter and such measurements are regularly made at the Commission's Laboratory during type approval testing of the Class I TV Devices.

Rules Limited to CB Receivers

29. The Commission had proposed that all receivers in the 26–30 MHz band be certificated to meet the same limits. None of the parties that commented objected to certification per se. Objections were raised however against certificating other (i.e. non-CB) receivers to the same limits as those proposed to resolve the interference problem posed by CB receivers. Since this report is limited to the CB receiver problem, the regulations adopted herein will apply only to CB receivers. The question of technical specifications for non-CB receivers is reserved for later consideration.

Commission Order

30. The Commission finds that it is in the public interest to adopt the rules set out in Appendix C. In view of the foregoing and pursuant to the authority contained in sections 4(i), 302 and 303(r) of the Communications Act of 1934, as amended, *It is ordered*, That effective September 10, 1976, Part 15 is amended in the manner set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082, sec. 302, 82 Stat. 290; 47 U.S.C. 154, 302, 303)

Federal Communications Commission,
Vincent J. Mullins,
Secretary.

Appendix B

I. Comments in this proceeding regarding the rules proposed for a CB receiver were received from:

Federal Aviation Administration (FAA)
Forestry Conservation Communications Assn. (FCCA)
Larry Hirsch—(an individual)
R. L. Drake Co.
Utilities Telecommunications Council (UTC)
GTE Sylvania Inc. (Sylvania)
Electronic Industries Association of Japan, Transceiver Export Committee
Electronic Industries Association, Citizens Radio Section (EIA/Citizens Radio)
Electronic Industries Association, Land Mobile Communications Section
General Electric Company
Electronic Industries Association, Consumer Electronics Group
Zenith Radio Corp.
Tram/Diamond Corp.
Fanon/Courier Corp.
Vector, Inc.
Academy of Model Aeronautics
Radio Control Equipment Mfrs Assn.

II. Comments directed to other aspects of this proceeding were also received from:

Oak Industries Inc., CATV Division
Jerrold Electronics Corp.
National Cable Television Association, Inc.
Electronic Industries Association of Japan, Engineering Committee of Mfrs of Radio and TV receivers
Rockwell International Corp., Collins Divisions
David Bentley—an individual

III. Reply comments were received from:

Electronic Industries Assn., Consumer Electronics Group

Appendix C

Part 15 is amended by adding a new § 15.59 immediately after the heading Subpart C—Radio Receivers.

§ 15.59 Interference requirement for a CB receiver.

(a) For the purpose of this regulation, a CB receiver is defined as any receiver that operates in the Citizens Radio Service on frequencies allocated for Class D stations. A CB receiver includes a receiver or converter which is sold as a separate unit of equipment or the receiver portion of a CB transceiver.

(b) A CB receiver model which is initially placed in production after January 1, 1977 shall be certificated pursuant to Subpart B of this part and Subpart J of Part 2 of this chapter, to meet all the requirements of this section.

(c) With the antenna terminals of the CB receiver connected to a resistor equal to the manufacturer's rated input impedance, the power at the antenna terminals at any frequency in the range 25–500 MHz shall comply with the following

(1) For a CB receiver model initially placed in production after January 1, 1977 ---------- 2.0 nanowatts.

(2) For a CB receiver model initially placed in production after January 1, 1978 ---------- 0.2 nanowatts.

(d) With the antenna terminals of the CB receiver connected to a shielded resistor equal to the manufacturer's rated input impedance, the emission on any frequency in the range 25 to 500 MHz shall not exceed 5 uV/m at a distance of 3 meters from the surface of the receiver initially placed in production after January 1, 1977. Measurements shall be made with microphone and all other options attached.

(e) If the CB receiver is intended to be connected to the power lines of a public utility, the conducted interference fed back into the power lines shall not exceed 100 uV at any frequency in the range 0.45–25 MHz. This requirement shall also apply to a battery operated CB receiver which has the capability of being connected to the power lines through a battery charger.

(f) The manufacture of a CB receiver model that has not been certificated to meet all the requirements of this section shall be terminated as soon as possible but in no event later than August 1, 1977.

(g) The marketing of non-certificated CB receivers shall be terminated not later than January 1, 1978.

[Docket No. 20189; FCC 76-624]

PART 74—EXPERIMENTAL, AUXILIARY, AND SPECIAL BROADCAST, AND OTHER PROGRAM DISTRIBUTIONAL SERVICES

Remote Pickup Broadcast Stations

Correction

In FR Doc. 76–20538, appearing at page 29681, in the issue for Monday, July 19, 1976, make the following changes:

1. Change the letter designation for the last paragraph of § 74.431 from "e" to "f".

2. In the second line of § 74.432(a) insert the word "system" in between the words "station" and "will".

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket 45]

PART 81—RECOMMENDATIONS TO THE PRESIDENT UNDER SECTION 801 OF THE FEDERAL AVIATION ACT OF 1958

Establishment of Part

Section 801 of the Federal Aviation Act of 1958 ("the Act") makes certain decisions of the Civil Aeronautics Board ("Board") concerning overseas or foreign air transportation subject to the approval of the President. By Executive Order 11920 (June 10, 1976, 41 FR 23605), the President established procedures to be followed in the Executive Branch for the purpose of facilitating Presidential review under Section 801 of the Act. Section 5 of that executive order requires "Departments and agencies outside of the executive office of the President which regularly make recommendations to the President in connection with the Presidential review pursuant to section 801 * * *" to establish procedures gov-

V 41 151 AUG 4 76 UMI

erning communications between government employees and persons not employed by the Federal government in connection with the preparation of recommendations to the President on pending section 801 cases. The procedures of the United States Department of Transportation ("DOT") are established herein.

DOT believes that all persons with an interest in a case subject to section 801 review should have an equal opportunity to present their views to DOT and that all comments made by such persons to DOT should be available to the public. For these reasons and to comply with the requirements of Executive Order 11920, § 81.7 of this part establishes a public docket for receipt of all communications between persons not employed by the Federal government and an official or employee of DOT concerning pending Presidential review under section 801 of a Board decision. All such communications are required, whenever possible, to be made in writing. If oral communication is necessary, the communication is required to be summarized and the summary placed in the public docket.

All comments submitted to the Department on matters arising under section 801 will be maintained in one docket which will be divided into subdockets as appropriate. Each subdocket will bear the same number as the Board's docket to which it relates. Normally, public announcement will not be made of the opening of a subdocket on a particular matter. A subdocket will be opened automatically upon receipt under this part of a comment. Comments submitted to the Department should reference OST Docket No. 45, subdocket No. ____ (same number as the Board's docket number).

Since this regulation relates to Departmental procedures, practices, and management, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, subtitle A of title 49 of the Code of Federal Regulations is amended by adding a new Part 81, to read as appears below.

Effective date: This regulation is effective July 29, 1976.

Issued in Washington, D.C., on July 29, 1976.

WILLIAM T. COLEMAN, Jr.,
Secretary of Transportation.

Sec.
81.1 Purpose.
81.3 Applicability.
81.5 Submission of comments.
81.7 Docket.

AUTHORITY: The provisions of this Part 9 issued under sec. 9, 80 Stat. 944, 49 U.S.C. 1657; EO 11920 (June 10, 1976, 41 FR 23665).

§ 81.1 Purpose.

The purpose of this part is to set forth procedures for the receipt by the Department of Transportation of comments from persons not employed by the Federal government on possible recommendations by the Department to the President on decisions of the Civil Aeronautics Board submitted for the President's approval under section 801 of the Federal Aviation Act of 1958, which relates to overseas and international air transportation.

§ 81.3 Applicability.

(a) This part applies to all communications between persons not employed by the Federal government and officials or employees of the Department of Transportation on matters set forth in § 81.1 of this part.

(b) This part applies, with respect to any particular proceeding before the Civil Aeronautics Board, from the time that the Board's decision has been submitted to the President for consideration until the President has issued a final decision with respect to that proceeding.

§ 81.5 Submission of comments.

(a) All communications with Departmental officials or employees concerning a Presidential decision under section 801 of the Federal Aviation Act shall, whenever possible, be made in writing. Any such communication which is not made in writing shall be summarized by the official or employee of the Department who receives the communication.

(b) All such summaries and written communications except those relating to matters that are specifically authorized under criteria established by Executive Order to be kept secret in the interest of national defense or foreign policy are placed in a public docket and available for public inspection and copying, and responsive comment.

§81.7 Docket.

(a) All comments submitted under this part shall reference OST Docket No. 45 and, as a subdocket number, the number of the Civil Aeronautics Board docket relating to the proceeding which is the subject of the comment.

(b) The original and four copies of such comments may be mailed to the Docket Clerk, Office of The General Counsel, TGC, Department of Transportation, Washington, D.C. 20590, or delivered to the Docket Clerk in the Office of the Assistant General Counsel for Operations and Legal Counsel, room 10100 Nassif building, 400 Seventh Street, SW, Washington, D.C., 9 am to 5:30 pm local time, Monday through Friday except Federal holidays. Written comments submitted to Department officials other than the Docket Clerk and summaries of oral communications prepared in accordance with § 81.5(a) of this part shall be placed in the appropriate subdocket of OST Docket No. 45.

(c) All comments submitted under this part are available for public inspection and copying, and responsive comment, at the address and times specified in paragraph (b) of this section.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. 284]

PART 1038—PERFORMANCE STANDARDS FOR THE TRANSPORTATION OF PERISHABLE COMMODITIES

Investigation Into Need for Defining Reasonable Dispatch (Perishable Commodities)

Present: George M. Stafford, Chairman, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of the petition of Association of American Railroads, filed July 6, 1976, for (A) extension to August 16, 1976, of the date on or before which statements showing cause, if any there may be, why the regulations (49 CFR Part 1033) conditionally adopted in the report and order of April 8, 1976 (351 I.C.C. 812) should not become effective; (B) postponement of the effective date of the regulations; and (C) an opportunity to submit replies to any show cause statement as may be filed herein; and good cause appearing therefor:

It is ordered, That the request in (A) above be, and it is hereby, granted, and the order entered April 8, 1976, be, and it is hereby, modified by extending the due date for such statements to August 16, 1976.

It is further ordered, That the request in (B) above be, and it is hereby, granted, and the date on which the regulations should, in the absence of good cause to the contrary, become effective be, and it is hereby, fixed as October 1, 1976.

It is further ordered, That the request in (C) above be, and it is hereby, denied.

It is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

Dated at Washington, D.C., this 23d day of July 1976.

By the Commission, Chairman Stafford.

ROBERT L. OSWALD,
Secretary.

SUBCHAPTER C—ACCOUNTS, RECORDS, AND REPORTS

[No. 36299]

UNIFORM SYSTEMS OF ACCOUNTS

Elimination of Self-Insurance Reserves

Certain revised accounting regulations governing all carriers subject to our accounting rules are adopted to be effective January 1, 1976.[1]

REPORT OF THE COMMISSION

In March 1975, the Financial Accounting Standards Board (FASB) issued Statement No. 5, "Accounting for Contingencies," establishing standards of financial accounting and reporting for loss contingencies.

The FASB stated that a loss must be both (1) probable, either an asset impaired or liability incurred, and (2) the amount of the loss reasonably estimable before the loss should be accrued by a charge to income. Appropriate disclosures of details of the loss contingency should be made when necessary to prevent misleading financial statements.

The FASB concluded that absence of insurance on fire, explosions, and other similar risks does constitute a contingency, but does not satisfy the conditions necessary for accrual. The loss should only be charged to income upon actual occurrence of the event causing either impairment of an asset or incurrence of a liability. Self-insurance cannot be considered as a basis to accrue a liability since the enterprise cannot assume a contractual obligation with itself for reimbursement in case of possible loss. However, self-carried insurance risks for losses sustained by others, including liability claims and cargo loss and damage claims, must be accrued in the accounts when a loss has occurred which the carrier is aware of or a previous experience enables it to estimate that a loss was incurred and reasonable estimate of the loss can be made.

Many carriers subject to our accounting rules choose not to insure their plant and equipment, either in whole or in part, against possible future losses from fire, theft, explosion, or other contingencies. These carriers are often referred to as "self-insured." In accord with FASB statement No. 5, a loss should only be charged to income when an event occurs causing an impairment to an asset or incurrence of a liability.

We believe the standards set forth in FASB Statement No. 5 will improve financial reporting to the Commission and we have amended the uniform systems of accounts for all modes subject to our regulations in accordance with those standards. These changes clarify the texts of certain accounts as they relate to FASB Statement No. 5, and align our accounting rules with generally accepted accounting principles (GAAP).

The amendments are minor technical changes in the regulations which require no additional recordkeeping and conform to generally accepted accounting principles announced in FASB Statement No. 5. Many companies which prepare financial statements to stockholders have therefore made the reclassification. Therefore, a rulemaking proceeding under sections 553 and 559 of the Administrative Procedure Act (5 U.S.C. 553 and 559) is not necessary.

FINDINGS

We find that Parts 1201 through 1210 of Chapter X of Title 49 of the Code of Federal Regulations should be amended as detailed in the appended statement of changes; and that such rules are reasonable and necessary to the effective enforcement of the provisions of Parts I, II, III, and IV of the Interstate Commerce Act, as amended; that such rules are otherwise lawful and, to the extent so found in this report, consistent with the public interest and the national transportation policy; that for good cause notice and public procedure are unnecessary under the Administrative Procedure Act, 5 U.S.C. 553 (b)(B); and that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

An appropriate order will be entered.

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 9th day of June 1976.

Consideration having been given to the matters and things involved in this proceeding, and the Commission, on the date hereof, having made and filed a report herein containing its findings and conclusions, which report is hereby made a part hereof:

It is ordered, That Parts 1201 through 1210 of Title 49 of the Code of Federal Regulations be, and they are hereby, revised to read as shown below.

It is further ordered, That the prescribed amendments shall be effective January 1, 1976.

And it is further ordered, That service of the order shall be made on all affected carriers; and to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register for publication in the FEDERAL REGISTER.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 and that for good cause notice and public procedure are unnecessary under the Administrative Procedure Act, 5 U.S.C. 553(b)(B).

(49 U.S.C. 12, 20, 304, 913, 1012.)

By the Commission.

ROBERT L. OSWALD,
Secretary.

PART 1201—RAILROAD COMPANIES

Amend Part 1201—Uniform System of Accounts for Railroad Companies as follows:

List of Instructions and Accounts

772 [Deleted]

Railway Operating Expense Accounts. Maintenance of Roadway and Structures

The text of account 275, "Insurance," is revised to read as follows:

275 Insurance.

(a) This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to maintenance of way and structures; also premiums on fidelity bonds of employees whose pay is chargeable to maintenance of way and structures.

(b) This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 333, "Insurance," is revised to read as follows:

333 Insurance.

(a) This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to maintenance of equipment; also premiums on fidelity bonds of employees whose pay is chargeable to maintenance of equipment.

(b) This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risks of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 357, "Insurance," is revised to read as follows:

357 Insurance.

(a) This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to Traffic; also premiums on fidelity bonds of employees whose pay is chargeable to Traffic.

(b) This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risks of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 414, "Insurance," is revised to read as follows:

414 Insurance.

(a) This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier

[1] Dissenting Statement of Commissioner Murphy filed as part of the original document.

V 41 151 AUG 4 76 UMI

would be chargeable to rail line transportation; also premiums on fidelity bonds of employees whose pay is chargeable to rail line transportation.

(b) This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 455, "Insurance," is revised to read as follows:

455 Insurance.

(a) This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to general account 450, "General"; also premiums on fidelity bonds of officers and employees whose pay is chargeable to general account 450, "General."

(b) This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

General Balance Sheet Accounts

772 [Deleted]

Account 772, "Insurance Reserves," number, title and text are deleted.

799 [Amended]

Within account 799, "Form of General Balance Sheet Statement," the subaccount 772, "Insurance Reserves," number and title are deleted.

PART 1202—ELECTRIC RAILWAYS

Amend Part 1202—Uniform System of Accounts for Electric Railways as follows:

List of Instructions and Accounts

441 [Deleted]

Line item 441, 'Insurance reserves," is deleted.

Operating Expense Accounts

The text of account 93, "Insurance," is revised to read as follows:

93 Insurance.

This account shall include premiums paid for fire, fidelity, boiler, casualty, burglary, workmen's compensation, and other insurance.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

NOTE A. • • •

In General Balance Sheet, 05 General instructions, within instruction 05–8, "Form of general balance sheet statements," line item 441, "Insurance reserves," is deleted.

General Balance Sheet Accounts

441 [Deleted]

The account 441, "Insurance reserves," number, title and text are deleted.

PART 1203—EXPRESS COMPANIES

Amend Part 1203—Uniform System of Accounts for Express Companies as follows:

Balance Sheet Account Classifications

Line item 241, "Accumulated provision for self-insurance," is revised to read:

241 Estimated liabilities.

General Instructions

Within General Instruction 1–2, "Accounting scope," line item 241, "Accumulated provision for self-insurance," is amended to read:

241 Estimated liabilities.

General Instruction 1–11, "Insurance," is amended to read as follows:

1–11 Insurance.

(a) Secondary operating expense account 12—Insurance, shall be used for recording monthly write-off of amounts of prepaid premiums paid to commercial insurance companies and charges for the purposes of estimating losses sustained by others not covered by commercial insurance and representing liabilities to the carrier. Amounts payable by the carrier in settlement of cargo loss and damage claims not recoverable from insurance companies or others, shall be charged to the appropriate account.

(b) Fire, theft and collision and other insurance costs are to be charged to secondary operating expense account 12—Insurance. Inasmuch as such risks represent losses that may be sustained by the carrier rather than claims against it by others, coverage by commercial insurance is not a mandatory requirement. Losses from fire, theft or collision not covered by commercial insurance shall be charged to the appropriate expense accounts if owned or leased property is repaired, or if retired from service, handled in accordance with carrier property instruction 3–3. However, the carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft or similar loss contingencies.

(c) Accumulated provisions for estimated cargo loss and damage and other loss and damage claims shall be included in account 241–04—Surface cargo loss, and account 241–05—Air cargo loss, as the case may be.

Monthly charges to expense accounts for the purpose of estimating losses shall be determined currently by the carrier from its best source of information and the rates used may be based on percentage of revenue, mileage of vehicles, or other equitable bases.

(d) Amounts payable by the carrier in settlement of cargo and other loss and damage claims, including those paid by the carrier for which it will be reimbursed wholly or in part by insurance companies, connecting carriers or others, shall be charged to either account 241–04—Surface cargo loss, or account 241–05—Air cargo loss, as the case may be. Parts of such claims that are payable by insurance companies or others, less any adjustment for salvage recovered, when their liability is determined, be credited to the accounts previously charged.

• • • • • •

Secondary Operating Expense Accounts

The text of account 12, "Insurance," is amended to read as follows:

12 Insurance.

(a) This expense account includes the cost of all insurance and charges for the estimated liability for losses sustained by others not covered by commercial insurance, i.e., cargo loss and damage, personal injury and property damage, etc. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

Balance Sheet Account Classifications

Account 241, "Accumulated provision for self-insurance," is revised to read as follows:

241 Estimated liabilities.

• • • • • •

(c) The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft or similar loss contingencies.

299 [Amended]

Within account 299, "Form of balance sheet" line item 241, "Accumulated Provision for Self-Insurance," is revised to read 241, "Estimated Liabilities."

Income Accounts

In the text of account 522, "Line haul transportation," secondary operating expense account 12, "Insurance," is revised to read:

522 Line haul transportation.

• • • • • •

12 Insurance

• • • • • •

The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

In the text of account 523, "Pickup and delivery transportation," secondary operating expense account 12, "Insurance," is revised to read:

523 Pickup and delivery transportation.

• • • • • •

12 Insurance

• • • • • •

The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

In the text of account 524, "Air transportation," secondary operating expense account 12, "Insurance," is revised to read:

524 Air transportation.

• • • • • •

12 Insurance

• • • • • •

The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

In the text of account 525, "Railroad transportation," secondary operating expense account 12, "Insurance," is revised to read:

525 Railroad transportation.

• • • • • •

12 Insurance

• • • • • •

The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

In the text of account 531, "Terminal management," secondary operating expense account 12, "Insurance," is revised to read:

531 Terminal management.

• • • • • •

12 Insurance

• • • • • •

The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

In the text of account 584, "Terminal management—exclusive air," secondary operating expense account 12, "Insurance," is revised to read:

584 Terminal management—exclusive air.

• • • • • •

12 Insurance

Net cost (that is, the amounts of premiums less the amounts of dividends or refunds), of commercial insurance to protect the carrier against loss from fire and other perils to structures and improvements. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

• • • • • •

PART 1204—PIPELINE COMPANIES

Amend part 1204—uniform system of accounts for pipeline companies as follows:

Operating Expenses—General

Account 560, "Insurance," is revised to read:

560 Insurance.

(a) This account shall include the cost of commercial insurance to protect the carrier against losses and damages in its pipeline operations such as injuries to or deaths of employees and other persons, damages to or destruction of carrier property or the property of others, and other business risks and hazards pertaining to transportation operations.

(b) The carrier shall not accrue amounts for the purpose of estimating risk of loss or damage to its property from fire, theft, or similar loss contingencies not covered by commercial insurance.

NOTE. • • •

PART 1205—REFRIGERATOR CAR LINES

Amend Part 1205—Uniform System of Accounts for refrigerator car lines as follows:

List of Instructions and Accounts

772 [Deleted]

Line item 772, "Insurance reserves," is deleted.

Operating Expense Accounts Texts

The text of account 222, "Insurance," is revised to read:

222 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to car service; also premiums on fidelity bonds of employees whose pay is chargeable to car service.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 257, "Insurance," is revised to read:

257 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to icing operations; also premiums on fidelity bonds of employees whose pay is chargeable to icing operations.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 286, "Insurance," is revised to read:

286 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to icing service operations; also premiums on fidelity bonds of employees whose pay is chargeable to such service.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss of damage to its property from fire, theft, or similar loss contingencies.

The text of account 308, "Insurance," is revised to read:

308 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to mechanical protective service maintenance and operations; also premiums on fidelity bonds of employees whose pay is chargeable to such service.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

The text of account 372, "Insurance," is revised to read:

372 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to heater service; also premiums on fidelity bonds of employees whose pay is chargeable to heater service.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss of damage of its property from fire, theft, or similar loss contingencies.

The text of account 460, "Insurance," is revised to read:

460 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause, when such loss to the carrier would be chargeable to general expenses; also premiums on fidelity bonds of em-

V 41 151 AUG 4 76 UMI

ployees whose pay is chargeable to general expenses.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

General Balance Sheet Accounts

772 [Deleted]

The number, title, and text of account 772, "Insurance reserves," are deleted.

799 [Amended]

Within account 799, "Form of general balance sheet statement," line item 772, "Insurance reserves," is deleted.

PART 1206—COMMON AND CONTRACT MOTOR CARRIERS OF PASSENGERS

Amend Part 1206—Uniform System of Accounts for Common and Contract Motor Carriers of Passengers as follows:

List of Instructions and Accounts

2660 [Deleted]

Line item 2660, "Insurance reserves," is deleted.

Line item 4546, "Workmen's compensation—Self insurer," is amended to read:

4546 Workmen's compensation—Provision for claims.

Instructions

Instruction 2–27, "Insurance," is revised to read as follows:

2–27 Insurance.

(a) • • •

(b) Carriers authorized by the Commission to accrue charges for the purpose of estimating losses sustained by others not covered by commercial insurance and representing liabilities to the carrier, such as bodily injury and property damage insurance and cargo loss and damage insurance, shall record periodic charges to the appropriate expense accounts in amounts sufficient to cover estimated losses based on the carrier's experience.

(c) The following accounts have been provided under Operation and Maintenance Expenses for the purpose of estimating amounts sufficient to settle claims by others for the classes of risks cited above which are not covered by commercial insurance:

4530 Injuries and Damages.
4546 Workmen's Compensation—Provision for Claims.
4560 Baggage and Express Loss and Damage.
4570 Fire and Theft Insurance.
4580 Other Insurance.

Accruals for estimated claims from injuries and damages, workmen's compensation and baggage and express loss and damage shall be included in account 2680, Injuries, Loss and Damage Reserves. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

Periodic charges to expense accounts for the purpose of creating accruals for the estimated liability for losses sustained by others not covered by outside insurance shall be determined currently by the carrier from its best source of information and the rates used may be based on percentage of revenue, mileage of busses, amount of payrolls or other equitable basis.

Balance Sheet Accounts

2660 [Deleted]

The number, title and text of account 2660, "Insurance reserves," are deleted.

Account 2680, "Injuries, loss and damage reserves," is amended to read:

2680 Injuries, loss and damage reserves.

(a) This account shall be credited with amounts charged to accounts 4530, Injuries and damages, 4546, Workmen's Compensation—Provision for Claims. Baggage and Express • • •

• • • • •

2999 [Amended]

Within account 2999, "Form for balance sheet statement," line item 2660, "Insurance Reserves," is deleted.

Operation and Maintenance Expenses

4520 [Amended]

Account 4520, "Public liability and property damage insurance," is amended by striking the words "self-insurance" in Note B and inserting the words "estimated accruals for claims" in their place.

Account 4530, "Injuries and damages," is revised to read as follows:

4530 Injuries and damages.

This account shall be charged each period with amounts estimated to settle claims by others for injuries to persons (other than employees—see account 4546, Workmen's Compensation—Provision for Claims) or damage to or destruction of loss of property, whether caused by fire, accident, or other cause, which are not covered by commercial insurance and which are not provided for elsewhere. (See Instruction 27.) The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

This account shall also be charged with amounts payable in settlement of claims for injuries to persons and damage to property of others which are not recoverable from insurance companies or for which estimates have not been provided.

NOTE. • • •

4541 [Amended]

Account 4541, "Workmen's Compensation—Insurance," is revised by changing the reference to account 4546, "Workmen's Compensation—Self Insurer," in the Note to read 4546, "Workmen's Compensation—Provision for Claims."

Account 4546, "Workmen's compensation—Self Insurer," is revised to read:

4546 Workmen's compensation—Provision for claims.

This account shall be charged each period with amounts estimated to settle claims by others for injuries to and death of employees arising under the workmen's compensation acts. (See Instruction 27.) This account shall also be charged with amounts payable in settlement of claims which are not recoverable from insurance companies or for which estimates have not been provided.

NOTE. • • •

Account 4550, "Baggage and express insurance," is revised to read:

4550 Baggage and express insurance.

This account shall include premiums payable to outside insurance companies to indemnify the carrier against costs and expenses incurred through loss of and damage to express matter and baggage entrusted to the carrier for transportation or storage. (See Instruction 27.)

NOTE.—Amounts payable in settlement of claims for loss of or damage to property entrusted to the carrier for transportation or storage which are not recoverable from insurance companies and for which the carrier has not provided estimates shall be included in account 4560, Baggage and Express Loss and Damage.

Account 4560, "Baggage and express loss and damage," is revised to read:

4560 Baggage and express loss and damage.

This account shall be charged each period with amounts estimated to settle claims by others for loss, damage, destruction or delay to express matter, baggage, parcels, etc., entrusted to the carrier for transportation or storage. (See Instruction 27.) The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies. This account shall also be charged with amounts payable in settlement of claims which are not recoverable from insurance companies or for which estimates have not been provided.

NOTE. • • •

Account 4570, "Fire and theft insurance," is revised to read as follows:

4570 Fire and theft insurance.

(a) • • •

(b) This account shall be charged with losses arising under the classes of risks enumerated in paragraph (a) which are not recoverable from insurance companies. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

Account 4580, "Other insurance," is revised to read as follows:

4580 Other insurance.

(a) • • •

(b) This account shall be charged with losses arising under the classes of risks enumerated in paragraph (a) of this section, which are not recoverable from insurance companies. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

NOTE. • • •

PART 1207—CLASS I AND CLASS II COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

Amend Part 1207—Uniform System of Accounts for Class I and II Common and Contract Motor Carriers of Property as follows:

Class I and Class II Motor Carriers Instructions

Instruction 21, "Retirement of property," is revised by amending paragraph (a) (1) (ii) to read:

21 Retirement of property.

(a) • • •

(1) • • •

(ii) The clearing account shall be credited with the value of salvage recovered in the case of property dismantled; the amount received from the sale or trade-in of the retired property; or with the amount of insurance recovered; and with the amount of depreciation accumulated to date of retirement with a concurrent charge to the appropriate accumulated depreciation and amortization account.

• • • • •

Instruction 22, "Insurance," is revised to read as follows:

22 Insurance.

(a) The following accounts shall include premiums payable by Instruction 27 and 28A carriers to commercial insurance companies for risks covering claims against others:

4430 Workmen's Compensation (classes I and II).
4810 Public Liability and Property Damage Insurance (classes I and II).
4820 Cargo Loss and Damage Insurance (classes I and II).

Instruction 28B carriers shall include such premiums in the following accounts:

5030 Workmen's Compensation.
8620 Public Liability and Property Damage—Premiums Paid.
8610 Cargo Loss and Damage Insurance—Premiums Paid.

The accounts indicated above for instruction 27 and 28A carriers shall also include any related estimates to settle claims by others against loss through injuries to persons or damage to or destruction or loss of property whether caused by fire, accident, or other cause and which are not covered by commercial insurance. Instruction 28B carriers shall use the following accounts for such estimates:

5030 Workmen's Compensation.
8720 Provision for Claims—Public Liability and Property Damage.
8710 Provision for Claims—Cargo Loss and Damage.

Amounts payable or paid by the carrier in settlement of claims for risks set out in the above accounts, not recoverable from insurance companies or others, shall be charged to the appropriate estimated liability account.

(b) The following accounts shall include premiums payable by instruction 27 and 28A carriers to commercial insurance companies for risks covering losses of owned property.

4830 Fire, Theft, and Collision Insurance (classes I and II).
4840 Insurance on Buildings and Structures (classes I and II).
4890 Other Insurance (classes I and II).

Instruction 28B carriers shall include such premiums in the following accounts:

8640 Fire, Theft, and Collision Insurance—Premiums Paid.
8660 Insurance on Buildings and Structures.
8690 Other Insurance Expense.

Inasmuch as such risks represent losses that may be sustained by the carrier rather than claims against it by others, coverage by commercial insurance is not a mandatory requirement. Losses from fire, theft or collision not covered by commercial insurance shall be charged to the appropriate expense accounts if owned or leased property is repaired. (see paragraph (f) of this section.) If the property is removed from service, retirement accounting shall be performed as provided in instruction 21. However, the carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or other similar loss contingencies.

Estimates to settle claims by others for injuries or damages, and workmen's compensation, shall be credited to Account 2172—Personal Injuries, Property Damage Claims, and Workmen's Compensation Claims (estimated liabilities; accrued) (class I).

Estimates to settle claims by others for cargo loss and damage shall be credited to Account 2173—Cargo Loss and Damage Claims (estimated liabilities; accrued) (class I). All other estimated liabilities not included in any of the preceding accounts, shall be recorded in Account 2175—Other Estimated Liabilities (estimated liabilities; accrued) (class I), with concurrent charges to the appropriate expense account. Class II carriers shall credit Account 2130—Other Current and Accrued Liabilities, for any liability created for claims by others.

Periodic charges to expense accounts for the purpose of estimating liability shall be determined currently by the carrier from its best source of information, and the rates used may be based on percentage of revenue, mileage of vehicles, amounts of payrolls, or other equitable bases. A schedule of the risks covered by each estimated liability shall be maintained, giving a description of the property involved, the character of the risks covered, and the rates used.

• • • • •

28 [Amended]

Instruction 28, "Distribution of expenses to activities: Other than Instruction 27 carriers," Section B, "Carriers of household goods," is amended by (1) revising line item "8720—Provision for Claims—Self-Insured Portion—Public Liability and Property Damage," to read "8720—Provision for Claims—Public Liability and Property Damage," and (2) deleting line item "8740—Provision for Claims — Self-Insured Portion — Fire, Theft, and Collision."

Class I and Class II Motor Carriers, Chart of Accounts

2171 [Deleted]

Under the column entitled "Class I Accounts," line item 2171, "Self-Insurance," is deleted.

Class I and Class II Motor Carriers Balance Sheet Account Explanations

The text of account 1451, "Special Funds (classes I and II)," paragraph (e), is revised to read:

1451 Special Funds (classes I and II).

• • • • • •

(e) This account shall also include amounts set aside to settle claims by others estimated in accounts 2172 through 2175 which are not covered by commercial insurance.

• • • • • •

Account 4890, "Other Insurance," is amended by revising the second paragraph to read:

4890 Other Insurance.

This account group includes • • •

This account group shall also be charged, and Account 2130—Other Current and Accrued Liabilities (class II) or Account 2175—Other Estimated Liabilities (estimated liabilities; accrued) (class I) shall be credited with the estimated liability for losses sustained by others, and related legal fees, which are not covered by commercial insurance for the classes of risks set out above.

The amounts in • • •

• • • • •

CLASSIFICATION OF REVENUES AND EXPENSES FOR CLASS I AND CLASS II CARRIERS OF HOUSEHOLD GOODS (INSTRUCTION 28B CARRIERS).—Class I and Class II carriers of household goods—Chart of Accounts—Matrix of operating revenues and expenses.

Line item 870, "Provision for claims—self-insured portion," is revised to read:

870 Provision for claims.

Control account 8740, "Provision for claims — Self-insured portion — Fire, Theft, and Collision," and line item numbers 8741, 8742, 8743, 8746, 8747, and 8749 are deleted.

Class I and Class II Carriers of Household Goods. Account Explanations—Operating Expenses

Account 8660, "Insurance on Buildings and Structures," is revised by deleting the entire second paragraph and adding a Note A to read:

8660 Insurance on Buildings and Structures.

• • • • • •

NOTE A: The carrier shall not accrue amounts to cover risk of loss or damage to

V 41 151 AUG 4 76 UMI

its property from fire, theft, or similar loss contingencies.

• • • • •

Account 8690, "Other Insurance Expense," is revised to read:

8690 Other Insurance Expense.

This account includes • • •

This account group shall also be charged and Account 2130—Other Current and Accrued Liabilities (class II) or Account 2175—Other Estimated Liabilities (Estimated Liabilities; Accrued) (class I) shall be credited with the estimated liability for losses sustained by others and related legal fees which are not covered by commercial insurance.

ITEMS (SEE INSTRUCTION 6)

• • • • •

Account 8700, "Provision for Claims—Self-Insured Portion," is revised to read:

8700 Provision for claims.

This account may be used as a control account for all accounts in the 8700 series. Class II carriers shall include in this account group the expenses includable in accounts 8710 and 8720.

Such expenses shall be distributed to the following accounts in accordance with instruction 28B:

Account 2171—"Self-Insurance (estimated liabilities; accrued) (class I)," number, title and text are deleted.

Account 2511—"Estimated Liabilities (classes I and II)" is revised to read:

2511 Estimated Liabilities (classes I and II).

This account shall include the noncurrent portion of the amounts included in accounts 2172, 2173, 2174, and 2175.

CLASS I AND II MOTOR CARRIERS—OPERATING EXPENSE ACCOUNT EXPLANATIONS—Instruction 27 and 28A Carriers.

In the text of account 4810, "Public Liability and Property Damage Insurance," the second paragraph is revised to read:

4810 Public Liability and Property Damage Insurance.

• • • • •

This account group shall also be charged, and Account 2130—Other Current and Accrued Liabilities (class II), or Account 2172—Personal Injuries Property Damage Claims and Workmen's Compensation Claims (estimated liabilities; accrued) (class I) shall be credited with the estimated liability for claims and related legal fees not covered by commercial insurance, for the classes of risks set out above.

The total of • • •

• • • • •

In the text of account 4820, "Cargo Loss and Damage Insurance," the second paragraph is revised to read:

4820 Cargo Loss and Damage Insurance.

• • • • •

This account group shall also be charged, and Account 2130—Other Current and Accrued Liabilities (class II), or Account 2173—Cargo Loss and Damage Claims (estimated liabilities; accrued) (class I) shall be credited with the estimated liability and related legal fees, which are not covered by commercial insurance for the classes of risks set out above.

The total of • • •

• • • • •

Account 4830, "Fire, Theft, and Collision Insurance," is amended by deleting the entire second paragraph in the account text and by adding Note D to read:

4830 Fire, Theft, and Collision Insurance.

• • • • •

NOTE D: The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

Account 4840, "Insurance on Buildings and Structures," is amended by deleting the entire second paragraph in the account text and by adding Note B to read:

4840 Insurance on Buildings and Structures.

• • • • •

NOTE B: The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

TABLE I–A—CLASS I MOTOR CARRIERS BALANCE SHEET ACCOUNT NUMBERS CONVERSION TABLE

Under the column entitled "System of accounts effective January 1, 1974":

Line item 2171, "Self Insurance (Estimated Liabilities; Accrued)," is deleted.

TABLE III—CLASS I HOUSEHOLD GOODS CARRIERS—REVENUE AND EXPENSE ACCOUNT NUMBERS CONVERSION TABLES

Under the column entitled "System of accounts effective January 1, 1974":

Line item 8721, "Provision for claims—self-insured portion—public liability and property damage—interstate moving," is revised to read:

8721 Provision for claims—public liability and property damage—interstate moving.

Line item 8722, "Provision for claims—self-insured portion—public liability and property damage—intrastate moving," is revised to read:

8722 Provision for claims—public liability and property damage—intrastate moving.

Line item 8723, "Provision for claims—self-insured portion—public liability and property damage—local moving," is revised to read:

8723 Provision for claims—public liability and property damage—local moving.

Line item 8724, "Provision for claims—self-insured portion—public liability and property damage—indirect operating—carrier only," is revised to read:

8724 Provision for claims—public liability and property damage—indirect operating—carrier only.

Line item 8711, "Provision for claims—self-insured portion—cargo loss and damage—interstate moving," is revised to read:

8711 Provision for claims—cargo loss and damage—interstate moving.

Line item 8712, "Provision for claims—self-insured portion—cargo loss and damage—intrastate moving," is revised to read:

8712 Provision for claims—cargo loss and damage—intrastate moving.

Line item 8713, "Provision for claims—self-insured portion—cargo loss and damage," is revised to read:

8713 Provision for claims—cargo loss and damage.

Line items 8741, "Provisions for claims—self-insured portion—fire, theft, and collision—interstate moving," 8742, "Provision for claims—self-insured portion—fire, theft, and collision—interstate moving," and 8743, "Provision for claims—self-insured portion—fire, theft, and collision—local moving," number, title and text are deleted.

TABLE III—CLASS I HOUSEHOLD GOODS CARRIERS—APPENDIX A—CONVERSION OF NONCARRIER EXPENSES

Line items 874–8746, 8747, 8749, "Claims for loss and damage—public liability and property damage," are deleted.

8701 Provision for claims—interstate moving.
8702 Provision for claims—Intrastate moving.
8703 Provision for claims—local moving.
8704 Provision for claims—Indirect operating—carrier only.
8706 Provision for claims—packing and crating.
8707 Provision for claims—warehousing.
8708 Provision for claims—overseas import and export.
8709 Provision for claims—indirect operating—noncarrier.

Account 8710, "Provision for Claims—Self-Insured Portion—Cargo Loss and Damage," is revised to read:

8710 Provision for Claims—Cargo Loss and Damage.

This account shall be charged, and account 2130—Other Current and Accrued Liabilities (class II) or Account 2173—Cargo Loss and Damage Claims (Estimated Liabilities; Accrued) (class I) shall be credited with the estimated liability and related legal fees, which are not covered by commercial insurance for the classes of risks set out in Account 8610. This includes for example, company protection against liability for claims resulting from loss or damage to, or delay of property entrusted to it for transportation or storage. The total of such amounts shall be distributed to the following activities in accordance with instruction 28B:

8711 Provision for claims—cargo loss and damage—interstate moving.
8712 Provisions for claims—cargo loss and damage—intrastate moving.
8713 Provision for claims—cargo loss and damage—local moving.
8716 Provision for claims—cargo loss and damage—packing and crating.
8717 Provision for claims—cargo loss and damage—warehousing.
8718 Provision for claims—cargo loss and damage—overseas import and export.
8719 Provision for claims—cargo loss and damage—indirect operating—noncarrier.

NOTE A.—Class II carriers shall use account 8700 to record provisions for cargo loss and damage claims.

NOTE B.— • • •

Accounts 8720, "Provision for Claims—Self-Insured Portion—Public Liability and Property Damage," is revised to read:

8720 Provision for Claims—Public Liability and Property Damage.

This account shall be charged, and account 2130—Other Current and Accrued Liabilities (class II) or Account 2172—Personal Injuries Property Damage Claims and Workmen's Compensation Claims (Estimated Liabilities; Accrued) (class I) shall be credited with the estimated liability and related legal fees, not covered by commercial insurance for the classes of risks set out in account 8620. This includes, for example, company protection against liability for deaths of or injuries to persons (other than company employees) and damages to the property) of others (except entrusted to the company for transportation or storage), resulting from the operation of owned or leased vehicles. The total of such amounts shall be distributed to the following activities in accordance with instruction 28B:

8721 Provision for claims—public liability and property damage—interstate moving.
8722 Provision of claims—public liability and property damage—intrastate moving.
8723 Provision for claims—public liability and property damage—local moving.
8724 Provision for claims—public liability and property damage—indirect operating—carrier only.
8726 Provision for claims—public liability and property damage—packing and crating.
8729 Provision for claims—public liability and property damage—indirect operating—noncarrier.

Account 8740, "Provision for Claims—Self-Insured Portion—Fire, Theft, and Collision," number, title and text are deleted.

TABLE IV—CLASS II HOUSEHOLD GOODS CARRIERS—REVENUE AND EXPENSE ACCOUNT NUMBER CONVERSION TABLE

Under the column entitled "System of accounts effective January 1, 1974":

Line items 8701, "Provision for claims—self-insured portion—interstate moving," are revised to read:

8701 Provision for claims—interstate moving.

Line items 8702, "Provisions for claims—self-insured portion—intrastate moving," are revised to read:

8702 Provision for claims—intrastate moving.

Line items 8703, "Provisions for claims—self-insured portion—local moving," are revised to read:

8703 Provision for claims—local moving.

TABLE IV—CLASS II HOUSEHOLD GOODS CARRIERS—APPENDIX A—CONVERSION OF NONCARRIER OPERATING EXPENSES

Line item 870, "Provision for claims—self-insured portion," is revised to read:

870 Provision for claims.

PART 1208—MARITIME CARRIERS

Amend Part 1208—Uniform System of Accounts for Maritime Carriers as follows:

Balance Sheet Accounts

Account 570, "Estimated allowances for insurance," is amended by revising paragraph (b) to read:

570 Estimated allowances for insurance.

(a) • • •

(b) This account shall also iinclude amounts estimated to settle claims by others, such as workmen's compensation and public liability insurance, which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies. At the end of each accounting year, any balance in this account applicable to voyages terminated during the preceding accounting year, in those instances where the records indicate that all claims have been settled, shall be transferred to the appropriate insurance expense account.

• • • • •

Operating Expenses

Account 730, "Insurance-hull and machinery," is revised to read:

730 Insurance-hull and machinery.

This account shall include premiums for hull and machinery insurance.

The carrier shall not accurue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

Account 732, "Insurance-protection and indemnity," is revised to read:

732 Insurance-protection and indemnity.

This account shall include premiums for protection and indemnity insurance, such as personal injury claims, illness claims, cargo claims and Second Seaman's insurance.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accure amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

PART 1209—INLAND AND COASTAL WATERWAYS CARRIERS

Amend Part 1209—Uniform System of Accounts for Inland and Coastal Waterways Carriers as follows:

General Instructions

General instruction 5, "Insurance," paragraph (b), is revised to read:

5 Insurance.

• • • • •

(b) The following provisions apply if the carrier does not have commercial insurance coverage:

(1) • • •

(2) Accruals for estimated losses shall not be made for insurance expense for fire and other casualty loss contingencies sustained by the enterprise. Only provisions for claims by others and representing liabilities to the carrier, such as bodily injury and property damage and cargo loss and damage may be estimated for herein.

(3) Schedules of risks covered by the reserve shall be maintained giving a description of the property or the character of risks covered.

• • • • •

Balance Sheet Accounts

Account 166, "Claims pending," is revised to read:

166 Claims pending.

This account shall include claims in litigation and insurance claims in process of compilation or adjustment. After adjustment of claims, this account shall be cleared and the amounts receivable included in account 108, "Claims receivable."

Account 221, "Insurance reserves," is revised to read:

221 Insurance reserves.

(a) This account shall include amounts estimated to settle claims by others which are not covered by commercial insurance and which are not provided for elsewhere. Amounts shall be charged for each voyage or period to the appropriate expense account and the corresponding credit included in this account. When the amount of deductible losses chargeable against each voyage or period is determined, it shall be cleared from account 166, "Claims pending," by a charge to this account.

The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

(b) This account shall also be used for equalization of other insurance risks, such as estimated workmen's compensation, public liability insurance, and loss and damage claims. This account shall also include amounts estimated to be sufficient to meet the probable liability of the carrier for unaudited expenses applicable thereto, except that it is not required to anticipate items which would not appreciably affect the account.

V 41 151 AUG 4 76 UMI

NOTE A.—The records supporting the entries in this account shall be kept to show separately the transactions with respect to cargo, and liability insurance estimates, and each class of other insurance risks for which reserves have been created.

NOTE B: • • •

Operating Expenses

Account 473, "Hull insurance and damage," is revised to read:

473 Hull insurance and damage.

This account shall include the cost of insurance to protect the carrier against loss or damage sustained in the operation of floating equipment in line service or terminal service due to marine accidents, perils of the sea, fire and other losses covered by usual hull insurance policies.

This account also shall include the cost of repairs to floating equipment arising from such causes borne by the carrier under the deductible provisions of insurance policies or otherwise not collectible from underwriters or others. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

Account 477, "Other insurance," is revised to read:

477 Other insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss or property, whether caused by fire, accident, or other cause, when not provided elsewhere, such as fire, theft, collision, public liability and property damage insurance on motor vehicles; fire insurance on structures, machinery, and equipment, and burglary, fidelity, and holdup insurance. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

PART 1210—FREIGHT FORWARDERS

General Balance Sheet Accounts

Amend Part 1210—Uniform System of Accounts for Freight Forwarders as follows:

Account 220, "Insurance reserves," is revised to read:

220 Insurance reserves.

(a) This account shall include amounts estimated to settle claims by others for fire, fidelity, casualty, burglary, and other insurance which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

(b) This account shall also be used for equalization of other insurance risks, such as estimated workmen's compensation, and public liability insurance.

NOTE.—• • •

Account 220, "Other reserves," is amended by adding the following Note:

222 Other reserves.

• • • • •

NOTE.—The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

Account 617, "Insurance," is revised to read:

617 Insurance.

This account shall include premiums for insuring the carrier against loss through injuries to persons or damage to or destruction or loss of property, whether caused by fire, accident, or other cause; also premiums on fidelity bonds of employee.

This account shall also include amounts estimated to settle claims by others for the classes of risks cited above which are not covered by commercial insurance and which are not provided for elsewhere. The carrier shall not accrue amounts to cover risk of loss or damage to its property from fire, theft, or similar loss contingencies.

NOTE.—Amounts charged to this account for estimated risk shall be credited to account 220, "Insurance reserves."

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE AND RECREATION

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 28.25 Special regulations.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Portable icehouses and other structures expressly used for ice fishing are permitted within the Charles M. Russell National Wildlife Range only from December 1 through March 31 of the following year. These structures must be removed from the Wildlife Range entirely by March 31 each year. In addition, each structure must be labeled with the owner's name and permanent address in a prominent location on an outside sidewall.

Violations of this regulation will be treated under the provisions of §§ 26.18 and 26.22 of Title 50 of the Code of Federal Regulations dealing with unauthorized private structures and abandoned property. Penalties described in Part 27 will be applicable.

The provisions of this special regulation supplement the regulations which govern public access, use and recreation on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through August 31, 1977.

Dated: July 26, 1976.

LARRY L. CALVERT,
Refuge Manager, Charles M. Russell National Wildlife Range, Lewistown, Montana.

[FR Doc.76-22524 Filed 8-3-76;8:45 am]

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 28.25 Special regulations.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Camping on the Charles M. Russell National Wildlife Range is permitted year-round. All forms of camping are limited to 14 days within any 30 day period, except in state parks where state regulations apply. These special regulation areas are delineated on maps available at refuge headquarters, Lewistown, MT, and from the area office headquarters, U.S. Fish and Wildlife Service, 711 Central Avenue, Billings, MT 59102.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through August 31, 1977.

Dated: JULY 26, 1976.

LARRY L. CALVERT,
Refuge Manager.

[FR Doc.76-22525 Filed 8-3-76;8:45 am]

PART 32—HUNTING

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 32.12 Special regulations; migratory game birds, for individual wildlife refuge areas.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Migratory game birds may be hunted on the Charles M. Russell National Wildlife Range in accordance with all applicable state regulations. These hunting areas comprising approximately 700,000 acres are delineated on maps available at refuge headquarters, Lewistown, Montana, and from the area office headquarters, U.S. Fish and Wildlife Service, 711 Central Avenue, Billings, MT 59102.

The provisions of this special regulation supplement the regulations which govern migratory game bird hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through August 31, 1977.

Dated: July 26, 1976.

LARRY L. CALVERT,
Refuge Manager, Charles M. Russell National Wildlife Range, Lewistown, Montana.

[FR Doc.76-22520 Filed 8-3-76;8:45 am]

PART 32—HUNTING

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 32.22 Special regulations; upland game birds, for individual wildlife refuge areas.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Sage grouse, sharp-tailed grouse, ring-necked pheasants, and gray partridge may be hunted on the Charles M. Russell National Wildlife Range in accordance with all applicable state regulations. These hunting areas comprising approximately 700,000 acres are delineated on maps available at refuge headquarters, Lewistown, MT, and from the area office headquarters, U.S. Fish and Wildlife Service, 711 Central Avenue, Billings, MT 59102.

The provisions of this special regulation supplement the regulations which govern upland game bird hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through August 31, 1977.

Dated: July 26, 1976.

LARRY L. CALVERT,
Refuge Manager, Charles M. Russell National Wildlife Range, Lewistown, Montana.

[FR Doc.76-22521 Filed 8-3-76;8:45 am]

PART 32—HUNTING

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 32.22 Special regulations; upland game birds, for individual wildlife refuge areas.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Hunting of Merriam's turkey is permitted in two areas of the Charles M. Russell National Wildlife Range in accordance with all applicable State regulations. The only areas open to turkey hunting are that portion of Garfield County, Montana, inside the Charles M. Russell National Wildlife Range, lying west of Hell Creek State Park and that portion of Fergus County, Montana, inside the Charles M. Russell National Wildlife Range. The spring turkey hunt is limited to males (gobblers).

These hunting areas comprising approximately 160,000 acres, are delineated on maps available at refuge headquarters, Lewistown, MT, and from the area office headquarters, U.S. Fish and Wildlife Service, 711 Central Avenue, Billings, MT 59102.

The provisions of this special regulation supplement the regulations which govern upland game bird hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through August 31, 1977.

Dated: July 26, 1976.

LARRY L. CALVERT,
Refuge Manager, Charles M. Russell National Wildlife Range, Lewistown, Montana.

[FR Doc.76-22522 Filed 8-3-76;8:45 am]

PART 32—HUNTING

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 32.32 Special regulations; big game, for individual wildlife refuge areas.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Antlered elk, antlered mule deer, and either sex white-tailed deer may be hunted with firearms on the Charles M. Russell National Wildlife Range in accordance with all applicable state regulations. In addition, either sex elk, mule deer, and white-tailed deer archery hunting is permitted from September 19, 1976 to October 10, 1976. These hunting areas comprising approximately 950,000 acres are delineated on maps available at refuge headquarters, Lewistown, MT, and from the area office headquarters, U.S. Fish and Wildlife Service, 711 Central Avenue, Billings, MT 59102.

The provisions of this special regulation supplement the regulations which govern big game hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through August 31, 1977.

Dated: July 26, 1976.

LARRY L. CALVERT,
Refuge Manager, Charles M. Russell National Wildlife Range, Lewistown, Montana.

[FR Doc.76-22523 Filed 8-3-76;8:45 am]

PART 33—SPORT FISHING

Charles M. Russell National Wildlife Range, Montana

The following special regulation is issued and is effective on August 4, 1976.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

MONTANA

CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE

Sport fishing by rod, reel, pole and set lines on the Charles M. Russell National Wildlife Range, Montana, is permitted year-round on all waters of the Missouri and Musselshell Rivers and the Fort Peck Reservoir. These fishing areas, comprising approximately 250,000 acres, are delineated on maps available at refuge headquarters in Lewistown, Montana, and from the area office headquarters, U.S. Fish and Wildlife Service, 711 Central Avenue, Billings, MT. 59102. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through August 31, 1977.

Dated: JULY 26, 1976.

LARRY L. CALVERT,
Refuge Manager, Charles M. Russell National Wildlife Range, Lewistown, Montana.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER H—TUNA FISHERIES

PART 285—ATLANTIC TUNA FISHERIES

Atlantic Bluefin Tuna Regulatory Area Extension

On July 8, 1976, the Director, National Marine Fisheries Service, announced in § 285.9 of Title 50 CFR (41 FR 27953) that certain States had waived their right to a hearing upon a determination by the Director that those States had not enacted laws or promulgated regulations for the conservation of Atlantic bluefin tuna, and that as a consequence, the regulatory area for the conservation and management of bluefin tuna was extended under the authority of Section 9 (d) of the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971) into the territorial sea of the United States adjacent to those States. 50 CFR 285.9 was amended on July 20, 1976 (41 FR 29820) following a similar determination with respect to, and waivers by, additional States.

The Director has determined that neither the Virgin Islands nor Puerto Rico has enacted laws or promulgated regulations for the conservation and management of bluefin tuna. Therefore, § 285.9 of Title 50 CFR is further amended to extend the regulatory area to include the territorial sea adjacent to the Virgin Islands and Puerto Rico.

The Director further finds and determines that while the State of Maine has enacted laws and/or promulgated regulations for the conservation and manage-

V 41 151 AUG 4 76 UMI

ment of Atlantic bluefin tuna, that those laws and/or regulations are less restrictive than Federal laws or regulations, and that certain portions of the Federal regulations as set out below will, therefore, become effective in the territorial sea adjacent to the State of Maine. Accordingly, § 285.9 is hereby amended to read as follows:

§ 285.9 Extensions of regulatory area into territorial seas.

Pursuant to section 9(d) of the Atlantic Tunas Convention Act (16 U.S.C. 971) and § 285.8 of this Title 50 CFR, the Director has determined that the territorial sea of the United States adjacent to the States of Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, New York, Massachusetts, New Hampshire and Puerto Rico and Virgin Islands are included in the regulatory area for Atlantic bluefin tuna. The Director further finds that the following provisions of Title 50 CFR as amended, shall be effective in the territorial waters of the United States adjacent to the State of Maine: Sections 285.1 through 285.11, inclusive, § 285.12, except paragraph (a) and paragraph (b) (2), § 285.13, except paragraph (a), and §§ 285.14 through 285.17, inclusive.

Effective: 0001 hours, August 4, 1976.

Issued at Washington, D.C. and dated July 30, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Fiscal Service

[31 CFR Part 210]

FEDERAL RECURRING PAYMENTS THROUGH FINANCIAL ORGANIZATIONS BY MEANS OTHER THAN BY CHECK

Proposed Collection Procedures

On October 9, 1975, there was published in the FEDERAL REGISTER (40 FR 47492) an amendment to Title 31 of the Code of Federal Regulations, adding a new Part 210 entitled "Federal Recurring Payments Through Financial Organizations By Means Other Than By Check." Notice is hereby given that the Department of the Treasury proposes to amend § 210.7 (e), add a new § 210.10 to that part, and renumber the present § 210.10 to § 210.11.

Section 210.7(e) now provides that a financial organization shall credit the account indicated by the depositor account number in the credit payment, whether or not it is the proper account, so long as the account indicated is an existing account. In most cases the crediting process in the financial organization will be automated, and an incorrect depositor account number would not come immediately to the financial organization's attention unless the depositor account number in the credit payment did not correspond to any existing account with the financial organization. If the depositor account number information included in the credit payment does not correspond to an existing account with the financial organization, the financial organization has two options. It can either return the credit payment, or, based on other payment information in the credit payment, credit the proper account. However, in the latter case, if the wrong account is credited, the financial organization will be liable for any loss sustained. Inquiries have indicated that some financial organizations, detecting an erroneous account number in a credit payment which corresponds to an existing account, are uncertain of appropriate action when these errors are discovered, pointing out that § 210.7(e) apparently requires that the incorrect account be credited. The proposed § 210.7(e) would clarify this point, by recognizing that some financial organizations will detect these errors (credit payments directed to an incorrect but existing account), and that when such an error is detected, the financial organization can either return the payment to the Federal Reserve Bank, or, at its own risk, attempt to credit the proper account from other information in the credit payment.

The proposed § 210.10 is new, and prescribes the procedure for collection of amounts for which a financial organization is accountable under § 210.9(a). That subsection provides that financial organizations are accountable for the total amount of credit payments received for an account after the death or legal incapacity of the recipient, or death of the beneficiary. The financial organization can, however, limit its liability to a lesser amount (equal to the amount in the account plus the amount recovered by the financial organization and the amount equal to credit payments received within 45 days subsequent to the date of death or legal incapacity) if the three conditions in § 210.9(a) (1), (2), and (3) are satisfied. The collection procedure of the new § 210.10 will begin with a first notice to the financial organization demanding the immediate return to the Department of the Treasury of monies in the account up to the amount received after the event of death or legal incapacity, and, if the amount returned is less than the amount of accountability, the name and address of any person who withdrew monies from the account after the event of death or legal incapacity. If the financial organization has not complied with the first notice within 30 days from the date of the notice, a follow-up notice will be sent to the financial organization. If it does not comply with the follow-up notice within 15 days from the date of the notice, the financial organization will be sent a second notice demanding return of the total amount of unreturned credit payments received after the event of death or legal incapacity. The financial organization can comply with the second notice by returning the full amount demanded, or a lesser amount, if the conditions in § 210.9(a) (1), (2) and (3) are satisfied and the financial organization furnishes evidence to this effect.

If the financial organization complies with the first notice within the prescribed period, the program agency will attempt to collect any additional money due, and this attempt will include setting off this amount against any money due the person(s) who withdrew money from the account. If the program agency is unable to collect the remaining amount due, a second notice will be sent to the financial organization demanding the outstanding amount. The financial organization can comply with this demand by returning the total outstanding amount, or a lesser amount equal to the amount of credit payments received within 45 days subsequent to the event of death or legal incapacity and the amount, if any, which the financial organization recovered pursuant to § 210.9(a) (3). If the amount returned is less than the remaining amount due, the financial organization shall provide a statement to the effect that it has met the conditions of § 210.9(a) (2) and (3).

If the amount required by the second notice is not returned within thirty days from the date of the second notice, the Treasury will instruct the Federal Reserve Bank to debit the account being maintained or utilized at the Federal Reserve Bank by the financial organization for receipt of credit payments, and to credit the amount to the account of the United States. The proposed subsection provides that the financial organization or its designated correspondent, by its action in handling credit payments or in authorizing its Federal Reserve account to be utilized for the handling of credit payments, is deemed to authorize the Federal Reserve Bank to effect such debits.

Interested persons are invited to submit comments on the proposed amendments in writing to the Fiscal Assistant Secretary of the Treasury, Department of the Treasury, Washington, D.C. 20220, for a period ending September 3, 1976. Copies of comments received will be available for public inspection and copying upon request in accordance with the Treasury's rules regarding Access to Records (31 CFR Part 1, Subpart A).

1. The proposed amended § 210.7(e) would read as follows:

§ 210.7 Financial organization.

* * * * *

(a) A financial organization receiving credit payment shall credit the amount a credit payment shall credit the amount of such credit payment to the account information specified in the credit payment. If the financial organization is unable to credit the amount of a credit payment to the account indicated by the depositor account number information in the credit payment because such an account does not exist on its books, or because in processing the cerdit payment it has reason to believe that the account indicated by the depositor account number information in the credit payment is not the account designated by the recipient, it shall either:

(1) Return the credit payment to the Federal Reserve Bank with a statement identifying the reason therefor, or

(2) Credit the amount of the credit payment to the account designated by the recipient.

* * * * *

2. The existing § 210.10 is renumbered as § 210.11 and the following is the proposed text of the new § 210.10.

V 41 151 AUG 4 76 UMI

§ 210.10 **Collection procedures.**

The amount for which a financial organization is accountable under § 210.9 shall be collected as follows:

(a) The Department of the Treasury shall send a written notice ("first notice") to the financial organization specifying the name of the recipient and beneficiary (if any), the depositor account number, type of account, the date of death or legal incapacity, and a list of credit payments which have payment dates after the event of death or legal incapacity and which have not been returned pursuant to § 210.7(f)(3). On receipt of this notice, the financial organization shall immediately return to the Treasury Department the amount remaining in the account up to the total amount of credit payments listed in the notice. If the amount returned is less than the total amount listed in the notice, the financial organization shall provide the name and address of any person who withdrew funds from the account, subsequent to the date of credit of the first payment listed in the notice.

(b) Based on the information received pursuant to paragraph (a) of this section, the program agency shall attempt to collect the difference between the amount returned and the aggregate amount of all credit payments listed in the first notice from the person(s) who withdrew any monies from the account subsequent to the date of credit of the first payment listed in the first notice. To the extent permitted by law, this attempt shall include setting off this amount against any funds to be paid to such person(s) by the program agency.

(c)(1) If a financial organization has not complied with paragraph (a) of this section within 30 days from the date of the first notice, the Treasury Department shall send a follow-up notice to the first notice to such financial organization demanding that the first notice be complied with.

(2) If the financial organization has not complied with paragraph (a) of this section within 15 days from the date of the follow-up notice the Department of the Treasury shall send a second notice to such financial organization demanding prompt payment of the total amount of credit payments listed in the first notice. To comply with this demand, the financial organization shall return to the Department of the Treasury either the full amount demanded, or a lesser amount equal to its liability pursuant to § 210.9(a)(3)(i) and (ii), with evidence that the conditions in § 210.9(a)(1), (2) and (3) have been complied with.

(d) If a financial organization has complied with paragraph (a), but the total amount of credit payments listed in the first notice has not been returned by the financial organization pursuant to paragraph (a) of this section, or collected by the program agency pursuant to paragraph (b) of this section, the Department of the Treasury shall send a second notice to such financial organization demanding the prompt payment of the amount listed in the first notice less the amount returned and collected. To comply with this demand the financial organization shall return to the Department of the Treasury either the amount demanded or a lesser amount equal to the total amount of credit payments received within 45 days after the event of death or legal incapacity plus the amount, if any, recovered pursuant to § 210.9(a)(3). If the lesser amount is returned the financial organization shall also provide a statement to the effect that it has met the conditions of § 210.9(a)(2) and (3).

(e) If the amount demanded pursuant to paragraph (c) or (d) of this section is not returned within 30 days from the date of the second notice issued thereunder, the Department of the Treasury will instruct the appropriate Federal Reserve Bank that such amount is to be debited to the account on the Federal Reserve Bank's books maintained or utilized by the financial organization for the purpose of receiving credit payments under this Part, and is to be credited to the general account of the United States Treasury. By its action in receiving credit payments under this part, a financial organization shall be deemed to authorize such debit to the account it maintains or utilizes on the books of the Federal Reserve Bank for the purpose of receiving credit payments, as provided in the foregoing sentence. A designated correspondent, in authorizing a financial organization to utilize such designated correspondent's account on the books of the Federal Reserve Bank for the purpose of receiving the amount of credit payments under this part, shall be deemed to authorize the aforesaid debit to its account as provided herein.

Dated: July 29, 1976.

DAVID MOSSO,
Fiscal Assistant Secretary.

[7 CFR Part 930]

HANDLING OF CHERRIES GROWN IN MICHIGAN, NEW YORK, WISCONSIN, PENNSYLVANIA, OHIO, VIRGINIA, WEST VIRGINIA, AND MARYLAND

Approval of Expenses and Fixing of Rate of Assessment for the 1976–77 Fiscal Period

This notice invites written comments relative to proposed expenses of $94,245 and a rate of assessment of $1.50 per ton of first handled cherries to cover expenses of the Cherry Administrative Board for administration of Marketing Order 930 for the 1976–77 fiscal period. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

Consideration is being given to the following proposals submitted by the Cherry Administrative Board, established under Marketing Order No. 930 (7 CFR Part 930) which regulates the handling of cherries grown in Michigan, New York, Wisconsin, Pennsylvania, Ohio, Virginia, West Virginia, and Maryland:

(1) Expenses that are reasonable and likely to be incurred by the Cherry Administrative Board, during the period May 1, 1976, through April 30, 1977, will amount to $94,245.

(2) The rate of assessment for such period, payable by each first handler in accordance with § 930.41 be fixed at $1.50 per ton of cherries.

Terms used in the order shall, when used herein, have the same meaning as is given to the respective term in said order and "ton of cherries" shall mean 2,000 pounds.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than August 20, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 29, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-22561 Filed 8-3-76;8:45 am]

[7 CFR Part 1207]

[Amdt. 1]

POTATO RESEARCH AND PROMOTION PLAN

Proposed Increase in Expenses

Consideration is being given to a $260,000 increase in expenses recommended by the National Potato Promotion Board.

The Potato Board was established pursuant to the Potato Research and Promotion Plan (7 CFR Part 1207) issued under the Potato Research and Promotion Act (7 U.S.C. 2611–2627).

All persons who desire to submit written data, views, or arguments in connection with this proposal may file the same in duplicate with the Hearing Clerk, Room 112–A, U. S. Department of Agriculture, Washington, D.C. 20250, not later than August 20, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of consideration. On May 25, 1976, the Secretary approved Potato Board expenses of $2,109,000 for the fiscal period ending June 30, 1977 (41 FR 22072).

On July 23, 1976, the Administrative Committee voted to budget an additional $260,000 for a potato value advertising campaign to market the expected plentiful supplies of fall crop potatoes, by informing consumers that potatoes are a bargain as an economical source of nutrients.

This proposed increase would result in a Potato Board budget of $2,369,000 for the fiscal period ending June 30, 1977.

The proposal is as follows:

Revise § 1207.405 (41 FR 22072) as follows:

§ 1207.405 **Expenses and rate of assessment.**

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1977, by the National Potato Promotion Board for its maintenance and functioning and for such purposes as the Secretary determines to be appropriate will amount to $2,369,000.

Dated: July 30, 1976.

DONALD E. WILKINSON,
Administrator.

[FR Doc.76-22653 Filed 8-3-76;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[41 CFR Part 3–3]

PROCUREMENT BY NEGOTIATION

Noncompetitive Procurement

Notice is hereby given that the Office of the Secretary is considering an amendment to 41 CFR, Chapter 3, by revising Subsection 50, Noncompetitive Procurement, to § 3–3.802, Preparation for Negotiation, of Subpart 3–3.8, Price Negotiation Policies and Techniques.

The purpose of the proposed amendment is to strengthen the Department's rules against unnecessary noncompetitive procurement. It (a) sets forth revised illustrative definitions of circumstances that constitute availability of services or supplies from only a single source, (b) requires that where a test of the market is an appropriate method of ascertaining whether such circumstances exist the market be tested at an early stage of the procurement process, (c) requires that where a number of procurements totaling $100,000 or more conceived as an entity for planning and budgetary purposes is planned as including any noncompetitive procurement the whole project be reviewed at the outset for appropriateness of the contemplated noncompetitive aspects and (d) requires that justifications for sole-source procurements of $100,000 or over be approved by a chief administrative official or by a sole-source review board consisting of a chief administrative official, a key procurement official and two program officials.

More precise definitions of circumstances that constitute availability of services or supplies from only a single source. The present HEW rule on justification for noncompetitive procurement (41 CFR 3–3.802–50(c)) requires that the justification document reflect the degree of consideration given to other sources than the proposed contractor and the reasons why they lack the capability evidenced by the proposed one. It identifies as illustrative of the factors to be considered, as appropriate, such factors as unique capability or highly specialized experience of the proposed contractor; existence of patent rights, copyrights, secret processes or other proprietary information; continuation of previous effort performed by the proposed contractor; predominant expertise of the proposed contractor's personnel; specialized and vital facilities or equipment of the proposed contractor; the proposed contractor's substantial investment which another would have to duplicate at government expense; and involvement of Government owned facilities. In the proposed regulation, circumstances constituting availability of services or supplies from only a single source are illustrated and treated as follows:

(1) Only one source exists which can perform the contract. This criterion may not be used prior to testing the marketplace by issuance of a sources sought synopsis.

(2) One source controls copyrights, patent rights, trade secrets, technical data, secret processes or other proprietary data essential to performance. This criterion is substantially limited and made more precise than in the present regulation. In case of doubt a sources sought synopsis should be issued. Legal advice is required.

(3) One source has a truly unique idea, approach or equipment. (This does not include unsolicitated research and development proposals covered by 41 CFR 3–4.52.) Except in cases convincingly supported by a panel opinion or a consensus of experts, a sources sought synopsis, formulated so as not to compromise the unique idea or data, should be issued.

(4) A specific item or equipment must be obtained because of the agency's responsibility to test and evaluate certain kinds and types of equipment. Legislation citations and technical rationale should be provided in this case.

(5) Only one source has complex or specialized physical facilities or equipment, on which the success of the contract objective is critically dependent. A sources sought synopsis should be issued.

(6) Essential Government owned facilities are available to only one source. In this case efforts should be made to determine from the Government agency whether the facilities can be made available to more than one source.

(7) Full and free competition is precluded because of geographic, socioeconomic or epidemiologic considerations. This criterion may be used only where it can be shown that only one source can perform.

(8) The required services must be procured from a certain State, interstate or local government unit, or from a nonprofit organization composed of representatives of such, which is uniquely able to meet the contract requirements.

(9) Time is of the essence and only one known source can meet the Government's need in time or time would not permit the testing of another source's product. This criterion may not be used without a showing that a limited competition (at least) is impossible and that the proposed contractor is the only one able to perform the work on time.

(10) There is existing equipment which for reasons of capability and interchangeability requires an item which is manufactured by only one source. This criterion may not be used where an "or equal" will meet the Government's requirement or where other manufacturers may be able to produce acceptable items even though their products might require adjustments and modifications.

(11) The segments of the projects are so intertwined that success is not possible unless one contractor performs the whole project. This criterion cannot be used where segments of the project can be competed separately.

Requirement that where a test of the market is appropriate the market be tested at an early stage of the procurement process. The Federal Procurement Regulations provide (41 CFR 1–1.1003–2) that, with certain exceptions, all proposed civilian agency procurement actions of $5,000 and above be synopsized. That is, for each nonexcepted procurement, whether competitive or sole-source, a synopsis of the scope of work or description of the supplies being procured must be published in the "Commerce Business Daily", published by the Department of Commerce, before or at the time when a request for proposals is issued. Where the procurement is intended to be noncompetitive the synopsis, by so notifying possible sources other than the one intended, gives them opportunity, if they consider themselves able to fill the Department's need, to inform the Department of that fact for the purpose of having the procurement opened to competition. This procedure tests the market for availability of more than one source at a relatively late stage in the procurement process, and, in intended sole-source cases, after a determination that sole-source procurement is necessary has been made. It seems that this procedure may be inherently unconducive to transforming noncompetitive procurements into competitive ones in doubtful cases; by the time the initial determination in favor of sole-source procurement has been made and agency plans have progressed for a time on that basis, there probably is a disinclination to make the technical and planning changes that might be necessary to exploit a dubious possibility of competition. In preparing the present amendment the Department has taken these considerations into account and, accordingly, is requiring in the amended regulation that, where testing of the market is appropriate, a synopsis be published for this purpose before any determination is made that sole-source procurement is necessary. The synopsis to be used is a sources sought synopsis or field of interest synopsis. Such synopses inform potential suppliers of the Department need and invite them to notify the Department of their interest and to provide information about their ability to furnish the needed services or supplies. With the aid of such information the Department will, it is expected,

V 41 151 AUG 4 76 UMI

be able to judge more accurately whether more than one source is in fact available. Sources sought synopsis or field of interest synopsis, when used for this purpose, is to be used only where the Department believes that only one source exists and therefore expects noncompetitive procurement to be appropriate but there is some doubt that this is the case. The proposed amendment makes no change in the standard procedures for using such synopses to increase expected competition in the Department's procurement programs.

Requirements that where a number of procurements totaling $100,000 or more conceived as an entity for planning and budgeting purposes are planned as including any noncompetitive procurement the whole project be reviewed at the outset for appropriateness of the contemplated noncompetitive aspects. A substantial proportion in dollar amount of HEW procurements consists of noncompetitively negotiated renewal, follow-on, continuation or extension contracts. Noncompetitive negotiations of such a contract may be necessary where the initial contract is for part of a large project and skills, techniques, understanding or approaches to solution of problems involved, or investments in facilities, equipment or learning, cannot be satisfactorily and economically transferred from the initial contractor to another. However, in some cases the necessity for noncompetitive, i.e., sole source, contracting for these reasons does not arise inevitably from the nature of the project or, at least, applies inevitably to only some part of the project that is susceptible of being separated from other parts for which competitive contracting is feasible. The Department believes that, in order to keep noncompetitive procurement at a minimum, projects that may appear originally to involve inevitable sole-source procurements at either their beginning or later stages should be examined in the procurement planning stage to see if the portions affected by transferability impediments can be isolated or if such impediments can be avoided by means of contract provisions. The proposed amendment uses the term "whole project buy" to denote a project consisting of any number of procurements which is conceived as a single entity for planning and budgetary purposes. Accordingly, in keeping with the thinking outlined above, the proposed amendment requires that any whole project buy which exceeds $100,000 in the aggregate and which contemplates any noncompetitive procurement during the project life shall be submitted to a noncompetitive review board, or to the agency official empowered to approve noncompetitive procurements over $100,000, for approval regardless of whether the initial procurement is to be competitive or noncompetitive. The board or official may approve those noncompetitive procurement actions explicitly contained in the submission, and procurement actions so approved need not be subsequently approved, except that whole project buys may not be approved in excess of three years before a subsequent review is required.

Requirement that justifications for sole-source procurements of $100,000 or over be approved by a chief administrative official or by a sole-source review board consisting of a chief administrative official, a key procurement official and two program officials. The HEW Procurement Regulations now require that justifications for sole-source procurements be approved at one or another organizational level depending on the dollar amount of the procurement. For procurements in excess of $100,000 the justification must be reviewed and approved at a level not lower than that of an assistant head of the procuring activity. The proposed amendment, however, reflects a view that, while such relatively high level review and approval is desirable, a more important consideration is that the proposed sole-source procurement over $100,000 be reviewed by the chief official of the agency who is responsible for administration (typically the deputy commissioner, director or administrator for administrative management) or, in the case of regional office procurements, the asssistant regional director for administration. That is because proposed decisions to procure on a sole source basis almost invariably originate with personnel responsible for the substantive aspects of the project in question rather than with procurement personnel and the question presented for review is, therefore, in essence, not whether approval of sole-source procurement would be consistent with substantive objectives but whether it would be consistent with good procurement management. Accordingly, the proposed amendment alters the review and approval requirement for justification of sole-source procurements in excess of $100,000 by substituting, for review and approval by an assistant head of the procuring activity, either of the following at the option of the HEW agency involved:

(a) Review and approval by the agency's chief official responsible for administration or, in the case of a regional office procurement, by the assistant regional director for administration and management or (b) review and approval, by majority vote, by a board appointed by the head of the principal operating component (an organizational component of the Department at a level at least as high as the agency level) and consisting of the chief official responsible for administration or the assistant regional director for administration and management, the chief of the contract office or procurement staff of the agency and two program officials. By "program officials" is meant officials at the agency level who have responsibility for program policy or operations, program planning and evaluation, scientific affairs, research and the like or from the program divisions of the agency that sponsor contract projects. They are to be selected on the basis of their knowledge of a program as a whole but should not ordinarily be involved in the initiation and management of particular or single projects.

The proposed revision results from work done by the Secretary's Task Force on Grant and Contract Management which was established to increase the efficiency, effectiveness, economy, and integrity of the Department's processes for management of grant and procurement programs.

Any person who wishes to submit written data, views, or objections pertaining to the proposed amendment may do so by filing them in duplicate with the Deputy Assistant Secretary for Grants and Procurement Management, OASAM, Room 513 D2, South Portal Building, 200 Independence Avenue, SW., Washington, D.C. 20201, on or before September 20, 1976. All comments submitted pursuant to this notice will be available for public inspection during business hours in the Office of Grants and Procurement Management.

Dated: July 23, 1976.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

As proposed, the revised section will read as follows:

§ 3–3.802–50 Noncompetitive procurements.

(a) *Purpose.*—This subsection states the policies and procedures applicable to all noncompetitive procurements. It describes the criteria for use in determining whether a procurement may be made noncompetitively, describes the justification documents required, and prescribes review and approval requirements.

(b) *Policy.*—(1) All negotiated procurements will be conducted competitively as required by FPR 1–1.301–1, 1–1.302–1(b), and 1–3.101(d) unless there are compelling and convincing reasons and/or circumstances which justify a noncompetitive procurement. Procurements should be conducted competitively to obtain the benefits of competitive prices and to stimulate bidders, offerors, and current contractors who desire contracts to exert their best efforts to deliver high quality physical and conceptual products. Although competition is the rule, it is recognized that there are certain instances where a noncompetitive procurement may be necessary. Where a noncompetitive procurement can be justified, affirmative action must be taken whenever possible to avoid the need for subsequent or continuing noncompetitive procurements.

(2) Submission of an unsolicited proposal can also lead to a noncompetitive procurement. In this circumstance, the initiating program office may recommend, for approval by the appropriate authority listed in paragraph (i) of this section, that a noncompetitive procurement be made to only one organization or individual to perform the required work or services. This recommendation shall be in writing and prepared as a document entitled "Justification for Acceptance of Unsolicited Proposal" that shall set forth information required by § 3–4.5203–3. A solicitation for a noncompetitive procurement shall not be issued,

and negotiations with a source that submitted an acceptable unsolicited proposal shall not be undertaken, in advance of approval in accordance with § 3–3.802–50(i).

(c) *Exceptions.*—The provisions of this subsection will apply to all negotiated procurements except:

(1) Procurements of $500, or less (see § 3–3.603–50(a));

(2) Procurements of professional services, e.g., for physician veterinarian, dentist, or legal services negotiated under the authority of 41 U.S.C. 252(c)(4), or where the foregoing kinds of services are for $10,000 or less and are negotiated under 41 U.S.C. 252(c)(3) (see § 3–3.603–50(b)(4));

(3) Procurement of architect-engineer services (see §§ 1–4.10 and 3–4.10);

(4) Procurements of utility services where the services are available from only one source;

(5) Acquisitions from or through other Federal Government agencies, e.g., interagency agreements, contracts with the Small Business Administration pursuant to section 8(a) of the Small Business Act.

(d) *Competitive Procurement.*—A procurement is competitive when the Government provides the opportunity to more than one source to submit bids, offers, or quotations. If a procurement is announced in a presolicitation synopsis which states where copies of solicitations may be obtained, provides the opportunity for interested sources to submit bids, offers, or quotations, provides adequate time for requests for solicitations and submission of responses, and describes the procurement requirement without restrictions which would unavoidably result in only one source being responsive, the procurement will be classified as competitive.

(e) *Classification of procurements.*—(1) The issuance of a sources sought synopsis does not require classification of a procurement as competitive or noncompetitive. The data resulting from the sources sought synopsis must be evaluated to determine whether there is more than one source which can adequately perform the contract requirement. If there is more than one source, the procurement should be classified as competitive and a presolicitation synopsis making solicitations available should be issued. If there is only one source resulting from the sources sought synopsis, this data may be used to support a justification for noncompetitive procurement. (The term "sources sought synopsis" includes advance notices in accordance with § 1–1.1003–3, and other similar types of notices which are used to determine the availability of interested potential sources. A sources sought synopsis does not permit potential sources to request solicitations and therefore is merely an opportunity for the marketplace to indicate its interest in submitting bids, offers, or quotations for a future procurement.)

(2) The decision to classify a specific procurement as competitive should be made at the point in the procurement process prior to issuance of a presolicitation synopsis where required, or solicitation(s) where a presolicitation synopsis is not required. This classification is fixed throughout the procurement's life and may not be subsequently altered even though only one offer is received.

(f) *Criteria.*—Criteria are provided below for use in deciding whether a proposed noncompetitive procurement is justified. The critical question to be answered in each justification is why the opportunity to meet a procurement requirement cannot be made available to more than one source. It is critical to justify a noncompetitive procurement that reasonable, informed opinions supported by available facts be provided. Each of the criteria is illustrative of possible reasons. Short of giving the marketplace an opportunity to speak for itself with respect to its capabilities and available sources, the value of the supporting statements and opinions in a justification must be judged by the extent to which the opinions reflect accurate and knowledgeable judgments about the marketplace. The more facts that are offered and the more knowledgeable the opinions about the marketplace are, the greater is the support to conclude that a noncompetitive procurement is justified. If the contracting officer or approving officials conclude that support offered to justify a noncompetitive procurement is not convincing, or where there is some unresolved doubt, the doubt should be settled by permitting the marketplace to speak for itself by issuing a sources sought synopsis. As each justification for noncompetitive procurement is reviewed against these criteria, the reviewer should ask why the procurement cannot be completed, are there sufficient grounds for excluding all other actual or potential offerors, what action can be taken to obtain competition in the instant procurement, and what action is needed to avoid the need for a subsequent or a continued noncompetitive procurement?

(1) There is only one source in existence which can perform the contract requirements. The existence of one source for the purposes of this regulation should be a matter of fact, and not a matter dependent upon the relative and limited knowledge of sources known by the project or contracting officers. This criterion may not be used to justify a noncompetitive procurement prior to testing the marketplace by issuing a sources sought synopsis. Such a sources sought synopsis should state that the Government knows of only one source who can do the work, state the name of the source, and the work required. If only one source submits a response to the sources sought synopsis, this data may be used to support a justification for noncompetitive procurement.

(2) One source controls copyrights, patent rights, trade secrets, technical data, secret processes, or other proprietary data which are essential to the performance of the contract requirements and the sources refuses to license or otherwise make the foregoing data available to other sources, and the requirement cannot be revised to allow other sources to compete who do not have access to the foregoing data. Factual information should be provided to support the use of this criterion such as the citation of copyrights, exactly what is covered by the copyright or other data which is necessary to the contract performance, and why the requirement cannot be revised to permit competition. The mere existence of such rights does not in and of itself justify noncompetitive procurement. It must be shown that the Government cannot meet its requirement(s) without the use of the proprietary data. Any doubts should be resolved by summarizing the procurement requirement and issuing a sources sought synopsis. When this criterion is to be utilized the approving official will obtain legal advice from the OGC (BAL).

(3) One source or individual has a truly unique idea, approach, or equipment which has no like or equal and is the only known item which can meet the Government's needs. Unsolicited proposals are excluded from the provisions of this paragraph and shall be processed in accordance with § 3–4.52. Except in very rare cases, the fact that a prosper submits a proposal containing a unique idea or approach does not, in itself, justify a noncompetitive procurement. Mere claims of uniqueness must not be pointed to in justifications for departures from regulatory requirements for cocmpetitive procurements. There may be other potential sources with equally suitable approaches or ideas which could accomplish the same end results. Except in cases which are convincingly supported by a panel opinion or a consensus of experts who are very familiar with the sources available in the marketplace, the opinion of uniqueness should be tested. The claim that the unique item is the only one which can meet the Government's needs should be based on the objective requirements of the Government not the personal preferences of the originator. Where a test of the claim of uniqueness becomes appropriate, the project officer should draft a description of the agency's requirement that does not compromise the unique idea or proprietary data of the proposer, and the procurement office shall issue a sources sought synopsis. If the only acceptable response to the sources sought synopsis is the organization or individual which the Government originally believed had a unique offering, this data may be used to support a justification for noncompetitive procurement.

(4) A specific item or equipment must be obtained as part of an agency's program responsibility to test and evaluate certain kinds and types of products. This criterion is limited to testing and evaluation purposes only and may not be used for initial outfitting or repetitive procurements. Project officers should support the use of this criterion with citations from their agency's legislation and

V 41 151 AUG 4 76 UMI

the technical rationale for the item or equipment required.

(5) Only one source has complex or specialized physical facilities or equipment which by reason of exclusive use, access or ownership, or by reason of clear superiority to facilities and equipment available to other sources is capable of adequately meeting the technical requirements of the contract. The success of the contract objective is critically dependent upon the use of the facilities and equipment of this one source. Specific details should be provided as to why the facilities or equipment are mandatory for the contract performance and why the facilities and equipment of other contractors cannot meet the contract requirements. This criterion should not be used to justify a noncompetitive procurement without first defining what equipment or facilities is needed and issuing a sources sought synopsis asking for sources with comparable equipment and facilities. If no other qualified sources respond, then this data may be used to support the justification of a noncompetitive procurement.

(6) Government - owned facilities which are essential to performance of the contract are available to only one source. Efforts should be made to determine from the cognizant Government agency whether the Government-owned facilities can be made available to more than one source. Then a noncompetitive procurement may be justified.

(7) Full and free competition is precluded because of geographic, socio-economic, or epidemiologic considerations necessarily associated with the procurement. This criterion is intended to recognize certain limits to achieving full and free competition which sometimes follow from certain program legislation and special program requirements. This criterion may not be used in the absence of such established limits and only where it can be shown that there is only one source which can perform the particular procurement.

(8) The required services must be procured from a certain State, interstate, or local government unit, or from a nonprofit organization comprised of representatives of such governmental units or of their officers, which organizations or units are unique bodies without like or equal in being able to meet the contract requirements. This criterion is intended to recognize that in certain cases where dealing with governmental entities or their representatives, there is in fact only one entity available to perform and/or the entity has a unique ability to accomplish the work. This criterion should not be used to obtain supplies or services which are or can be provided from the commercial marketplace. Where there is more than one such unit or organization which can meet the contract requirements, a noncompetitive procurement cannot be justified, unless a Federal or State statute dictates the source. The fact that the government units or other nonprofit organizations may offer a lower price or agree to cost share, is not adequate reason to justify a noncompetitive procurement to the exclusion of others.

(9) *Time is of the essence* and only one known source can meet the Government's needs within the required time frame or time would not permit the testing of a product offered by a source other than a sole source to meet the delivery schedule. However, the recognized extreme of public exigency in § 1–3.202 is not to be taken lightly. It contemplates a need which is compelling and of unusual urgency, as when the Government would be seriously injured financially or otherwise, if the property or services to be purchased or contracted for were not furnished by a certain time, and when they could not be procured by that time by means of formal advertising. This applies irrespective whether that urgency could or should have been foreseen. Examples are when property or services are needed at once because of a fire, flood, explosion, or other disaster. Public exigency or other reasons causing situations where time is of the essence, may not be used to justify noncompetitive procurement without first showing that a limited competition using abbreviated procedures is impossible. If a limited competition is impossible, it must be shown that the recommended contractor possesses the unique capability to perform the required work on time to the exclusion of all other firms. The considerable latitude of the contracting officer to determine the method best suited to satisfy the urgent need is limited by the need to try and achieve a limited competition if at all possible and, if not, to determine that one contractor is uniquely able to meet the Government's requirements in time.

(10) There is existing equipment which for reasons of compatibility and interchangeability, requires an item which is manufactured only by one source. This criterion is for use in procurements where a particular brand name item is required and an "or equal" will not meet the Government's requirements. This criterion may not be used where there are other manufacturers available who may be able to produce acceptable items even though their products might require some adjustments and modifications. Such other manufacturers must be given the opportunity to compete.

(11) The segments of the project are so intertwined that it is impossible to successfully accomplish the project objectives if all segments are not procured from the same contractor. This criterion is intended for use under research and development procurements as well as studies. It can only be used where there is a necessity to procure the project as a whole package in order to successfully complete the project. This criterion can not be used where segments of the project can be completed separately. The possibility, by itself, that additional work may be done more conveniently or even at less expense by the original contractor is not sufficient reason to justify a noncompetitive procurement using this criterion.

(g) *Procedure.*—(1) Program offices should discuss prospective noncompetitive procurement requests with the procurement offices as early as possible during the procurement planning stage (see § 3–3.50), preferably before submitting the requisition or request for contract. Such discussions may resolve uncertainties, provide program offices with names of other sources, allow proper scheduling of the procurement, and avoid delays which might otherwise occur should it be determined that noncompetitive procurement is unjustified.

(2) When a program office desires to obtain certain goods or services by contract without competition, it shall, at the time of forwarding the request for contract furnish the procurement office a "Justification for Noncompetitive Procurement" prepared in accordance with this subsection. All justifications shall be submitted initially to the contracting officer.

(3) A contracting officer who receives a justification for processing shall ascertain whether the document is complete; shall request advice from pricing, audit, legal, and other staff offices as appropriate; shall forward the justification including his recommendation and/or concurrence to the appropriate approving official. If noncompetitive procurement is disapproved, he shall promptly so notify the program office concerned.

(4) All required approvals shall be obtained prior to issuing a solicitation to, or commencement of contract negotiations with the proposed contractor. Preliminary arrangements or agreements with the proposed contractor not made by the contracting officer will have not effect or influence on the rationale to support a noncompetitive procurement.

(5) It is the responsibility of the approving official to determine whether a contract may properly be awarded without competition. Program offices and project officers are responsible for furnishing contracting officers and other approving officials with pertinent factual information and opinions necessary to make such determinations. Other staff offices shall advise the contracting officer and approving official as requested.

(h) *Format.*—(1) The justification for noncompetitive procurement in excess of $10,000 will be a separate, self-contained document. Justifications for noncompetitive procurements of $10,000 or less may be a statement in the requisition or request for contract.

(2) Justifications for noncompetitive procurement whether over or under $10,000 shall fully express what is to be procured and the reason why the requirement should not be competed. Justifications must offer reasons which go beyond inconvenience and must explain why it is impossible to obtain competition. The justification will be documented only with information that is based on facts rather than untested and unsubstantiated conclusions or opinions. Documentation in the justification should be sufficient to permit an individual with technical competence in the area to follow the rationale.

(3) Justifications have two parts.

(i) Part I contains background information about the program and a description of the procurement. The following information should be included:

(A) Date.

(B) Agency, program office, and project officer (name, address, and telephone number).

(C) Project identification (Program legislation including citations or other internal program identification data such as title, contract number, etc.)

(D) Descriptive title of the project. Attach a full description of the contract requirement. This may be a specification, purchase description, or statement of work. If the "whole project buy" (see § 3–3.820–50(j) for explanation of "whole project buy" concept) as contemplated at the outset is expected to exceed $100,000, a procurement plan as required by § 3–3.50 shall be prepared by the project officer and attached to the justification. The description of the whole project buy must include what is being bought, the estimated cost of the whole or component parts, phases, options, continuations, etc., and the periods of time involved. The description is critical to the approving official's understanding of what he is being asked to approve, and subsequent use of the approval by the procurement or project offices.

(E) Explain whether the instant procurement is an entity in itself, whether it is one in a series, or part of a related group of procurements.

(F) Proposed contractor (name and address).

(ii) Part II includes the facts and reasons to justify a noncompetitive procurement. Part II should begin with the statement:

I recommend that this procurement be noncompetitively negotiated with _____ in the amount _____ (Name of proposed contractor) _____ for the following reasons: (Amount)

Each of the applicable criteria listed in § 3–3.802–50(f) must be addressed and specific support for its use must be included.

At the end of Part II signatory lines should be provided as follows:

Recommended _____ Date _____
Project Officer

Concur _____ Date _____
Project Officer's Immediate Supervisor

Concur _____ Date _____
Contracting Officer

Approved _____ Date _____
Approving Officer

(i) *Review and Approvals.*—Justifications for noncompetitive procurement shall be reviewed as follows:

(1) For small purchases over $500, but not over $10,000, the "justification", which must address the criteria in § 3–3.802–50(f), may be in the form of a statement within the requisition or request for contract. The contracting officer may approve or disapprove the justification. If the contracting officer awards the contract or purchase order up to $10,000 as requested, such award shall constitute the contracting officer's approval of the justification.

(2) For procurements over $10,000, but not over $25,000, the justification shall be submitted to the contracting officer for approval.

(3) For procurements over $25,000, but not over $100,000 the justification shall be submitted through the contracting officer who will add a recommendation and forward to the chief of the procurement office for approval. Where the chief of the procurement office and the contracting officer are the same individual, the approval level will be at one administrative level above the chief of the procurement office.

(4) All procurements $100,000 or over shall be submitted through the contracting officer for approval by a Noncompetitive Procurement Review Board as described in § 3–3.802–50(k) unless the Head of the POC's, Agency Heads, or Regional Directors, as appropriate determine that the activity will not utilize a Noncompetitive Procurement Review Board. If a review board is not utilized, the justifications for $100,000 or over shall be submitted through the contracting officer for approval by the chief official of the agency responsible for administration or the Assistant Regional Director for Administration.

(5) Agencies may prescribe board reviews for procurements under $100,000, if reduced levels for review would be more consistent with the dollar ranges of contracts awarded.

(j) *Whole Project Buys.*—(1) A "whole project buy" is a project consisting of any number of procurements which is conceived as a single entity for planning and budgetary purposes. The whole project buy concept should not be limited to only that part of the whole project which is the subject of the current contract when contracts to be awarded in the future are part of the same project.

(2) Any whole project buy which exceeds $100,000 in the aggregate which contemplates any noncompetitive procurement actions of any dollar value at any time during the project life shall be submitted to the review board or approving official for approval.

(3) This requirement applies even if the first of a series of related procurements in a whole project buy is less than $100,000. This includes projects with several related procurement actions where the first part of the project is competitively or noncompetitively awarded, and there are to be subsequent noncompetitive procurements with the original contractor. This requirement applies to all procurements regardless of whether the noncompetitive procurement is called a renewal, follow-on, continuation, extension or the like, or is effected by means of a contract modification or is a new start.

(4) Justifications of whole project buys submitted to the review board or approving official shall fully describe what the whole requirement is, how the requirement will be divided into procurement actions, the total estimated cost of the project whole and each individual procurement action, the total period of time for the project whole and each procurement action, and whether all or only part of the project whole will be procured noncompetitively. For certain projects, as in the case of basic research, where an end point cannot be forecast with certainty, the whole project buy will be the circumscribed amount of time which the program office presently intends to continue a certain effort.

(5) If the review board or approving official clearly approves the noncompetitive procurement action(s) at the outset of a whole project buy, and the whole project buy results in an original contract followed by either a noncompetitive new contract, or noncompetitive modifications to the original contract for work, dollars, and time approved by the board or approving official at the outset, these subsequent noncompetitive procurement actions will not have to be resubmitted for approval. Once the noncompetitive procurement actions for the whole project buy are approved, no subsequent approvals of the individual procurement actions are required. Whole project buys may not be approved in excess of 3 years before a subsequent review is required. Approval is limited to that explicitly contained in the justification. If a part of the "whole project buy" is not included in the justification or there are changes in the project which change the whole project buy as approved, the excluded part and/or changes will require separate review and approval. Doubts as to what was approved shall be submitted to the review board or approving official for clarification. Noncompetitive increases for new work to contracts in effect at the time this regulation becomes effective which are part of a whole project buy exceeding $100,000 shall be submitted to the review board or approving official for approval prior to taking the noncompetitive action.

(k) *Noncompetitive Procurement Review Boards*—(1) *Purpose.* The purposes of the Noncompetitive Procurement Review Board, hereinafter referred to as "the Board," are to review the reasons given in certain justifications for noncompetitive procurement against the criteria in this section, and to make judgments as to the applicability of the policy requiring competition to specific procurements. If it is determined by the Head of the POC, Agency Head, or Regional Director, as appropriate, to utilize a board, such board shall comply with the requirement of this paragraph. The Board by virtue of its members being senior technical and administrative officials, with expertise at high levels within the agency, will ensure the making of balanced and responsible dicisions.

(2) *Establishment of Boards.* Boards shall be established at an organizational level not lower than agency head. The heads of the POC's: The Assistant Sec-

V 41 151 AUG 4 76 UMI

retaries for Health, Human Development, Education; the Administrator of the Social and Rehabilitation Service; and the Commissioner of the Social Security Administration are responsible for establishing Boards as needed in their POC's and their respective agencies. The Assistant Secretary for Administration and Management is responsible for establishing a Board in the Office of the Secretary. A Board shall be established in each Regional Office by the Regional Director. The number, geographical location, and organizational location in the POC and/or Agency level of Boards will be decided by the Heads of the POC's based upon the volume of noncompetitive procurements to be reviewed and the need for timely decisions.

(3) *Authority and responsibility.* The Board members shall be appointed by the Head of the POC's, Agency Heads, or Regional Directors as appropriate. The Board shall be established and delegated the authority by the appointing official to represent and make decisions on behalf of the appointing official with respect to approving or disapproving certain justifications for noncompetitive procurement.

(i) *Chairperson.* There will be a permanent chairperson of the Board who shall be the chief agency official responsible for administration. In the regional offices, the Assistant Regional Director for Administration will be the chairperson. The Board chairperson should represent the appointing official and be able to review actions submitted to the Board from an agency-wide point of view. The chairperson will designate which of the alternate members will attend individual board meetings and shall assure that the proceedings of each meeting are recorded.

(ii) *Procurement official.* There will be a key procurement official appointed to the Board. This official will be the chief of the contract office or procurement staff of the agency, whichever is organizationally higher. Where the agency has more than one contracting office, the chiefs of the respective contracting offices will be designated alternate members. In this case, a contracts chief will serve on the Board to review proposed noncompetitive procurements expected to be assigned to his office for procurement action. Whenever the chief of the contract office and the contracting officer are the same individuals, the official one administrative level above the chief of the contract office shall represent the procurement office in such Board actions.

(iii) *Program official(s).* Two representatives will be selected from officials at the agency level which have responsibility for program policy or operations, program planning and evaluation, scientific affairs, research and the like and/or from the program divisions of the agency that sponsor contract projects. The members should be selected on the basis of their knowledge of a program as a whole, but should not ordinarily be involved in the initiation and mangement of particular or single projects.

(iv) *Contracting Officer.* The contracting officer responsible for the procurement to which the justification for noncompetitive procurement relates shall serve as a nonvoting member. When Board meetings consider justifications for procurements involving more than one contracting officer, each contracting officer may attend and offer opinions on the justification pertinent to him.

(v) *Project Officer.* The project officer is that individual in the program office who originated the justification and will be responsible for project mangement of the contract project. The project officer is not a member of or alternate member of the Board. The project officer may be invited by the chairperson to the Board meeting during which the justification will be discussed. The project officer should be prepared to answer questions raised by the Board.

(4) *Meetings.* (i) If the estimated amount of the procurement is more than $500,000, a formal meeting of the Board is required. If the estimated amount of the procurement is $500,000 or less, a formal meeting of the Board need not be held if the chairperson, procurement official and the contracting officer concur that a noncompetitive procurement is justified. If any one of these three persons is of the opinion that a noncompetitive procurement is not justified, a formal meeting must be held. Formal meetings will include all appropriate members and will be convened by the chairperson. No action shall be considered by the Board unless the chairperson, procurement official, and two program officials are present. Decisions of the Board will be by majority rule. In case of a tie vote the action will be resolved in favor of seeking competition.

(ii) The chairperson may seek independent counsel from any source inside or outside of the agency if he feels that additional advice is necessary for the Board to reach a sound decision.

(iii) The Board shall maintain a written record of the justifications reviewed and the decision made on each. If a justification is approved, only Board approval need be indicated. If a justification is disapproved, the reasons should be stated in writing and forwarded to the originator of the justification. The written decision of the Board should be made a part of the contract file.

(l) *Implementation.*—Each POC, Agency Head, and Regional Director is responsible for implementing this regulation. Implementing instructions and subsequent changes shall be furnished to the Deputy Assistant Secretary, Office of Grants and Procurement Management, OS, for review and approval prior to implementation.

CIVIL AERONAUTICS BOARD

[14 CFR Part 223]

[EDR-302; Docket 29587; Dated July 29, 1976]

FREE AND REDUCED RATE TRANSPORTATION

Notice of Proposed Rulemaking

Notice is hereby given that the Civil Aeronautics Board has under consideration an amendment to Part 223 of its Economic Regulations (14 CFR Part 223) which would expand the categories of FAA personnel eligible for free air transportation.

The principal features of the proposed amendment are described in the attached Explanatory Statement and the proposed amendment is set forth in the Proposed Rule. The amendment is proposed under the authority of sections 204 (a), 301-314, 403, 404, 601-610, and 701 of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 744, 747, 749, 750, 751, 752, 754, 758, 760, 775, 776, 778, 779, 780, and 781; (49 U.S.C. 1324, 1341-1355, 1373, 1374, 1421-1430, and 1441)) and the Department of Transportation Act (80 Stat. 931, (49 U.S.C. 1651)).

Interested persons may participate in the proposed rulemaking through the submission of twenty (20) copies of written data, views, or arguments pertaining thereto, addressed to the Docket 29587, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before September 3, 1976, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 711 Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., upon receipt thereof.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding may do so through submission of comments in letter form to the Docket Section at the address indicated above, without the necessity of filing additional copies thereof.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

EXPLANATORY STATEMENT

Part 223 of the Board's Economic Regulations sets out our rules regarding free and reduced-rate air transportation. Under § 223.23, air carriers are permitted to provide free air transportation to traffic controllers and aircraft communicators of the Federal Aviation Administration (FAA) and to aviation weather forecasters of the National Weather Service. Such free transportation is authorized so that these persons may better acquaint themselves with inflight problems and procedures affecting their respective duties.

The FAA has requested that Part 223 be amended to make two additional categories of persons eligible for free transportation: engineering flight test pilots and aeronautical procedures specialists. Enginering flight test pilots are the FAA employees principally responsible for the development and conveyance to crewmembers of all operating limitations and operating information necessary for the safe operation of an aircraft. The FAA states that the most effective way for the enginering flight test pilot to obtain information necessary during the certification process is to periodically observe the aircraft while in flight.

Aeronautical procedures specialists are responsible for the design, development, and approval of flight procedures and aeronautical charts essential to the safe and efficient movement of aircraft. According to the FAA, the procedures specialist needs to periodically observe inflight operations during revenue flights in order to best acquaint himself with the problems associated with the use of aeronautical charts and instrument approach procedures. The agency adds that since the pfocedures specialist will be flying as an observer without enforcement responsibility, he will be in an environment conducive to the exchange of information with flight crews on the adequacy of the instrument procedures and on ways to improve the effectiveness of aeronautical charts.

We propose to grant the FAA request for aircraft access by these two classes of employees by amending § 223.23. We believe that the FAA has made an adequate showing that the requested free transportation will greatly facilitate the performance of these employees' official duties and thus serve to improve aviation safety. Moreover, we do not believe that significant burdens will be imposed on any carrier. There are only approximately 50 engineering flight test pilots and 100 aeronautical procedures specialists who would become eligible for the free transportation. And each individual would be restricted to one request for free transportation per calendar year on any given air carrier, unless the FAA, pursuant to § 223.24(c), certifies that additional free transportation is essential to the performance of its functions.

It is proposed to amend Part 223 of the Economic Regulations (14 CFR Part 223) as follows:

1. Amend the Table of Contents of Part 223, by revising the title of § 223.23 to read as follows:

Sec.
223.23 Traffic controllers, aircraft communicators, engineering flight test pilots, aeronautical procedures specialists, and aviation weather forecasters.

2. Amend § 223.23, to read as follows:

§ 223.23 Traffic controllers, aircraft communicators, engineering flight test pilots, aeronautical procedures specialists, and aviation weather forecasters.

Any air carrier may carry without charge on any aircraft which it operates any traffic controller, aircraft communicator, engineering flight test pilot or aeronautical procedures specialist of the Federal Aviation Administration or any aviation weather forecaster of the National Weather Service (including supervising officers of such persons) for the purpose of more fully and adequately acquainting such persons with inflight problems and procedures bearing on their official duties: *Provided, however,* That no request for free transportation under this section shall be made for the same individual upon any one air carrier more than once in each calendar year (round trips are regarded as one trip for the purposes of this section) unless the individual is an air traffic controller who is a member of the Washington or Regional Air Traffic Service Evaluation Staff of the Federal Aviation Administration or unless the request for such additional transportation is accompanied by the statement in writing prescribed in § 223.24 (c).

PRIVACY ACT OF 1974

Proposed Establishment of a New System of Records

In accordance with the requirements of the Privacy Act of 1974, subsection (o), 5 U.S.C. 552a(o), the Federal Law Enforcement Training Center (FLETC) proposes the establishment of a new system of records titled "Treasury/FLETC 00.004", containing information on employees and certain persons under contract to the Center.

The purpose of establishing this new system of records is to maintain records on employees and contract personnel beyond those required and provided by the Civil Service Commission. The reason for proposing the system is that the Center finds it necessary to maintain its own records on health services, personnel management and career development, equal employment opportunity, vehicle access and registration, equipment accountability, and personnel identification. Some records, such as vehicle registration, health, and personnel identification records, are needed because FLETC now conducts its operations on a large, campus-like, installation at Glynco, Georgia, instead of in an office building as it did before relocation in September, 1975. Other records, such as personnel, career development, equal employment, locator, and equipment control records, are standard for Federal agencies.

Notice of this proposal as required by subsection (o) of the Act, 5 U.S.C. 552a (o), was filed on March 12, 1976, with the Senate, the House of Representatives, the Office of Management and Budget, and the Privacy Protection Study Commission.

Any interested person may submit written data, views, objections, or arguments on this proposed amendment to the Acting Departmental Disclosure Officer, Office of Administrative Programs, United States Department of the Treasury, 1331 G Street NW, 3rd floor, Washington, D.C. 20220 on or before September 5. All written comments received from the public by then will be considered by the Department before taking action on a final notice of adoption. Comments received will also be available for public inspection at the above address between the hours of 9:00 a.m. and 5:30 p.m., Mondays through Fridays, except public holidays. Further information is available by telephone at (202) 964-2792.

Dated: July 29, 1976.

ARNOLD J. LAU,
Acting Director, Federal Law Enforcement Training Center.

PROPOSED NEW SYSTEM NOTICE

TREASURY/FLETC 00.004

System name: FLETC Employee Records—Treasury/FLETC

System location: FLETC, Office of Administration, Administration Building, Glynco, Georgia 31520

Categories of individuals covered by the System: Employees, Past Employees, Employee Prospects, Contract Personnel.

Categories of records in the System: Personnel, Health, Training, Vehicle Registration, Equal Employment Opportunity, Locator Cards, Identification Records, and Equipment Control Rosters, consisting of records other than those described and reported by the Civil Service Commission on behalf of all agencies.

Authority for maintenance of the System: 5 U.S.C. 301, 5 U.S.C. 4101 et seq., Executive Order No. 11348, April 20, 1967, Treasury Order 217 (Revision 1), dated July 1, 1970.

Routine uses of records maintained in the System and the purposes of such uses: Personnel recruitment and management, management of health unit, vehicle control, equipment control, equal employment opportunity program. Disclosure to the individual himself and the individual's parent agency. Health records to the U.S. Department of Labor and the U.S. Department of Health, Education, and Welfare as required by regulation. To the Civil Service Commission concerning pay, leave, benefits, retirement deductions, and other information necessary for the Commission to carry out its government-wide personnel management functions. For additional routine uses, see Appendix AA, 40 FEDERAL REGISTER 56419–56420, December 2, 1975.

Policies and practices for storing, retrieving, and disposing of records in the System:

Storage: Paper files.

Retrievability: Name.

Safeguards: Physical security, personnel screening and security check lists are all used to prevent unauthorized disclosure of records.

Retention and disposal: Disposition as prescribed by the schedules attached to Treasury Directives Manual chapter TD 80, Section 05.B, 5–12–76, except for health records covered by the General Service Administration's General Records Schedule 1 (GRS 1):

Personnel records	Schedule 1	Item 9	1 yr.
Health records	GRS 1	Item 21	6 yr.
Training records	Schedule 1	Item 25c	1 yr.
Vehicle records	Schedule 11	Item 4a	3 mo.
Equal employment opportunity records	Schedule 1	Item 20b	1 yr.
Locator records	Schedule 11	Item 4a	3 mo.
Identification records	Schedule 11	Item 4a	Do.
Equipment control records:			
Property pass files	Schedule 18	Item 10	3 mo.
Lost, stolen, and found files	Schedule 18	Item 13b	1 yr.
Key files	Schedule 18	Item 14b	3 mo.

System manager and address: Assistant Director for Administration, Office of Administration, Administration Building, FLETC, Glynco, Georgia 31520.

Notification Procedure: The individual must provide full name, date of birth, and dates of employment with the Center to the system manager.

Record access procedures: By written request to the system manager.

Contesting record procedures: By written request to the system manager.

Record source categories: The employee on whom the record is maintained, prior employers, and FLETC.

PRIVACY ACT OF 1974

Proposed Change to a System of Records

On December 2, 1975, in accordance with the requirements of the Privacy Act of 1974 at 5 U.S.C. 552a(e)(4), a system of records maintained by the Federal Law Enforcement Training Center titled "Treasury/FLETC 00.002", and describing trainee records, was adopted by notice published in the FEDERAL REGISTER (40 FR 56017, 56419). The Center now proposes to amend this system of records.

The purpose of amending this system of records is to achieve greater administrative efficiency by combining certain instructor records with trainee records in order to provide a single electronic data processing capability. Computerizing trainee and instructor records at the Center will facilitate the preparation of trainee rosters and the scheduling of dormitory space, classes, classroom space, and instructors. Further, the trainee and instructor history files will be used to identify the curriculum and grades of trainees for purposes of college credit, to provide information for use at court trials, and to prepare statistical reports for training evaluation.

Notice of this proposal as required by subsection (o) of the Act, 5 U.S.C. 552a (o), was filed on March 12, 1976, with the Senate, The House of Representatives, the Office of Management and Budget, and the Privacy Protection Study Commission.

Any interested person may submit written data, views, objections, or arguments on this proposed amendment to the Acting Departmental Disclosure Officer, Office of Administrative Programs, United States Department of the Treasury, 1331 G Street NW, 3rd floor, Washington, D.C. 20220 on or before August. All written comments received from the public by then will be considered by the Department before taking action on a final notice of adoption. Comments received will also be available for public inspection at the above address between the hours of 9:00 a.m. and 5:30 p.m., Mondays through Fridays, except public holidays. Further information is available by telephone at (202) 964-2792.

Dated: July 29, 1976.

ARNOLD J. LAU,
Acting Director, Federal Law Enforcement Training Center.

PROPOSED REVISED SYSTEM NOTICE

TREASURY/FLETC 00.002

System name: FLETC Trainee Records and FLETC Instructor Records-Treasury/FLETC.

System location: FLETC Office of Administration, Administration Building, Glynco, Georgia 31520.

Categories of individuals covered by the System: Any person who officially attends a formal FLETC training program and all instructors engaged in teaching the FLETC training programs.

Categories of records in the System: Trainee records: personal background information supplied by the trainee; grades and performance evaluation, student advisory form and relevant public health records. Instructor records: personal background information supplied by the instructor, and teaching qualifications. All records described in this system are other than records described and reported by the Civil Service Commission on behalf of all agencies.

Authority for maintenance of the System: 5 U.S.C. 301, 5 U.S.C. 4101–4118, Executive Order 11348, Treasury Order No. 217 (Revision 1) dated July 1, 1970, and Memorandum of Understanding for the Sponsorship and Operation of the Consolidated Federal Law Enforcement Training Center, dated September 30, 1970.

Routine uses of records maintained in the System, including categories of users and the purposes of such uses: Disclosure upon request to the individual himself, the individual's parent agency, and to any other agency or organization at the request of the individual.

To the Civil Service Commission concerning pay leave, benefits, retirement deductions, and other information necessary for the Commission to carry out its government-wide personnel management functions. For additional routine uses, see Appendix AA, 40 *Federal Register* 56419–56420, December 2, 1975.

Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:

Storage: Magnetic disc storage except for health records which are maintained on paper files.

Retrievability: Name and class number.

Safeguards: Access to these systems of records will be controlled by software and hardware procedures. Software will be used to ensure, in all technically feasibleways, that data cannot be made available to unauthorized persons. User—identifiers and passwords will be used where feasible to protect the data. Physical security will protect all terminals and magnetic disc files from access by unauthorized persons. Offices will be locked except when authorized persons are present.

Retention and disposal: Disposition not yet authorized by the National Archives and Records Service. A formal request is in progress, proposing destruction in annual increments five years from the end of the calendar year in which the record was created. Should the disposition ultimately approved be materially different from the one outlined here, further notice will be made in this publication.

System manager's address: Assistant Director for Administration, Office of Administration, Administration Building, FLETC, Glynco, Georgia 31520.

Notification procedure: The individual must provide full name, date of birth, parent agency, type of course and approximate dates of attendance to the system manager.

Record access procedures: By written request to the system manager.

Contesting record procedures: By written request to the system manager.

Record source categories: Trainees: The trainee himself and members of the staff responsible for grading, rating or evaluating the trainee. *Instructors:* The instructor himself and staff members responsible for upgrading the instructor's teaching qualifications.

DEPARTMENT OF DEFENSE

Department of the Army

ROCKY MOUNTAIN ARSENAL, DENVER, COLORADO

Filing of Final Environmental Impact Statement

In compliance with the National Environmental Policy Act of 1969, the Army on July 27, 1976, provided the Council on Environmental Quality, with a final environmental impact statement concerning the sale of Carbonyl Chloride at Rocky Mountain Arsenal, Denver, Colorado.

Copies of the statement have been forwarded to concerned Federal, State, and local agencies. Interested organizations or individuals may obtain copies from the Project Manager for Chemical Demilitarization and Installation. Restoration, Aberdeen, Proving Ground, Maryland 21010.

In the Washington area, inspection copies may be seen, during normal duty hours, in the Environmental Office, Office of the Assistant Chief of Engineers, Room 1E676, Pentagon, Washington, DC 20310 (phone (202) 694–1163).

Dated: July 27, 1976.

CHARLES R. FORD,
Deputy Assistant Secretary of the Army (Civil Works).

DEPARTMENT OF JUSTICE

Antitrust Division

UNITED STATES V. ADDISON-WESLEY PUBLISHING COMPANY, ET AL.

Proposed Consent Judgment and Competitive Impact Statement Thereon

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. § 16(b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Southern District of New York in Civil Action No. 74 Civ. 5176, *United States of America* v. *Addison-Wesley Publishing Company, et al.* The complaint charged that the defendants and co-conspirators engaged in a combination and conspiracy to divide illegally world markets among themselves for the sale of English-language books. The proposed judgment enjoins the defendants from all the activities alleged to have been carried out by the conspiracy. Public comment is invited on or before October 8, 1976. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: July 28, 1976.

CHARLES F. B. MCALEER,
Assistant Chief, Judgments and Judgment Enforcement Section, Antitrust Division.

UNITED STATES DISTRICT COURT

SOUTHERN DISTRICT OF NEW YORK

United States of America, plaintiff, v. Addison-Wesley Publishing Company; Bantam Books, Inc.; Columbia Broadcasting System, Inc.; Dell Publishing Co., Inc.; Doubleday & Company, Inc.; Grosset & Dunlap, Inc.; Harcourt Brace Jovanovich, Inc.; Harper & Row Publishers, Inc.; Houghton Mifflin Company; Intext, Inc.; Litton Educational Publishing, Inc.; Macmillan, Inc.; McGraw-Hill, Inc.; Oxford University Press, Inc.; Penguin Books, Inc.; Prentice-Hall, Inc.; Random House, Inc.; Simon & Schuster, Inc.; The Times Mirror Company; The Viking Press, Inc.;

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK

United States of America, Plaintiff, v. Addison-Wesley Publishing Company; Bantam Books, Inc.; Columbia Broadcasting System, Inc.; Dell Publishing Co., Inc.; Doubleday & Company, Inc.; Grosset & Dunlap, Inc.; Harcourt Brace Jovanovich, Inc.; Harper & Row, Publishers, Inc.; Houghton Mifflin Company; Intext, Inc.; Litton Educational Publishing, Inc.; MacMillan, Inc.; McGraw-Hill, Inc.; Oxford University Press, Inc.; Penguin Books, Inc.; Prentice-Hall, Inc.; Random House, Inc.; Simon & Schuster, Inc.; The Times Mirror Company; The Viking Press, Inc.; and John Wiley & Sons, Inc.; Defendants. (Civil Action No. 74 Civ. 5176 (CES). Filed: July 27, 1976.)

Final Judgment

Plaintiff, United States of America, having filed its Complaint herein on November 25, 1974; defendants, having appeared by their respective attorneys and filed answers; and the plaintiff and consenting defendants, by their respective attorneys, having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact or law herein, and without this Final Judgment constituting evidence or an admission by any party with respect to any such issue:

NOW, THEREFORE, before the taking of any testimony and without trial or adjudication of any issue of fact or law herein, and upon the consent of the plaintiff and consenting defendants, it is hereby ORDERED, ADJUDGED AND DECREED as follows:

I

This Court has jurisdiction of the subject matter of this action and of the parties hereto. The Complaint states claims upon which relief may be granted against the defendants under Section 1 of the Act of Congress of July 2, 1890, as amended, entitled "An Act to protect trade and commerce against unlawful restraints and monopolies" (15 U.S.C. § 1), commonly known as the Sherman Act.

II

As used in this Final Judgment:

(A) "Book" means a copyrighted, English language book;

(B) "Series of Books" means a set of Books with a similar or uniform format and interrelated on the basis of authorship or theme;

(C) "British Market Agreement" means the agreement executed by certain British members of the British Publishers Association, and any amendments or modifications thereof, which defines the British Traditional Market and which expresses the commitment generally to refrain from acquiring publication rights for Books, unless these include exclusive rights of publication for the British Traditional Market;

(D) "Publishers Association" means a membership association of publishing houses maintaining offices in the United Kingdom with its principal office located presently at 19 Bedford Square, London, England, and any successors thereof;

(E) "British Traditional Market" means that group of approximately seventy (70) countries, as defined in the British Market Agreement, comprising present and former members of the British Commonwealth;

(F) "Person" means any individuals, partnership, firm, association, corporation, or other business or legal entity;

(G) "United States" means the United States, any territory thereof, the District of Columbia and any insular possession or other place under the jurisdiction of the United States.

III

The provisions of this Final Judgment applicable to any consenting defendant shall apply to each of its officers, directors, agents and employees, its subsidiaries, successors and assigns, and also to all other Persons in active concert or participation with any of them who shall have received actual notice of this Final Judgment by personal service or otherwise. For the purpose of this Final Judgment, each consenting defendant, its subsidiaries and companies under common control with such consenting defendant, and the officers, directors, agents and employees thereof, when acting in such capacity, shall be deemed to be one Person. Except for sales of Books to the plaintiff or any agency or public instrumentality thereof, this Final Judgment shall not apply to activities outside the United States which do not affect the foreign or domestic commerce of the United States.

After the date of entry of this Final Judgment, with regard to the acquisition, grant or other transfer of copyright rights thereafter between a consenting defendant and a United Kingdom publisher, such consenting defendant is enjoined and restrained, directly or indirectly, from entering into, adhering to, cooperating with, maintaining, enforcing or claiming any rights under:

(A) Any agreement or understanding, including the British Market Agreement, with any association, or group comprising two or more publishers of Books, to allocate, divide or assign territories or customers for the publication, sale or distribution of Books, or to assign or conform to exclusive or allocated territories or customers among pubishers; provided that two or more publishers either under common control, or engaged in a bona fide joint arrangement for the publication of a specified Book or a specified Series of Books for a specified country or countries, shall be deemed one publisher under this Subsection (A) of this Section IV; provided further that acquisitions, grants or other bona fide transfers of copyright licenses between a consenting defendant and each of two or more publishers with respect to a specified Book or a specified Series of Books shall not constitute an agreement or understanding within the meaning of this Subsection (A) of this Section IV;

(B) Any agreement or understanding that the acquisition, grant or other transfer of territorially exclusive copyright rights for

a Book for an agreed, understood or specified group of countries be in return for a reciprocal agreement or understanding that the acquisition, grant or other transfer, of territorially exclusive copyright rights for any future Book not in the same Series be for an agreed, understood or specified group of countries.

V

Each defendant is enjoined and restrained, directly or indirectly, from preventing or restricting any purchaser of a lawfully published Book from importing or exporting such Book to or from the United States or such purchaser from selling, distributing or providing for the resale of such Book to customers in United States interstate or foreign commerce.

VI

Nothing in this Final Judgment shall prevent any defendant, in and of itself, from acquiring, granting, or otherwise transferring exclusive or non-exclusive copyright rights, or from exercising or authorizing the exercise of such rights under the copyright law of any country, including the United States, or from the assertion of such other statutory rights as such defendant may have, provided that no foreign copyright law or other foreign statutory right may be used by any defendant to exclude or restrict the importation or resale in the United States of a lawfully published Book.

VII

Defendant is ordered and directed, for a period of two years from the date of entry of this Final Judgment, to furnish a copy of this Final Judgment to each publisher or literary agent to whom it transfers or from whom it receives exclusive rights to the publication or distribution of any Book in any country within the British Traditional Market.

VIII

For the purposes of securing or determining compliance with this Final Judgment and for no other purpose, and subject to any legally recognized privilege:

(A) Any authorized representative of the Department of Justice shall, upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, or of an authorized representative of either, and on reasonable notice to any defendant made to its principal office, be permitted:

(1) Access, with defendant having a right to have counsel present, during office hours of such defendant to all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or control of the defendant relating to any matters contained in this Final Judgment; and

(2) Subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers, employees and agents of the defendant, who may have counsel present, regarding any such matters.

(B) Upon the written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, or of an authorized representative of either, made to such defendant's principal office, the defendant shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Final Judgment as may, from time to time, be requested.

No information obtained by the means provided in this Section VIII shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the plaintiff except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

IX

Jurisdiction is retained for the purpose of enabling the parties consenting to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction, carrying out or modification of any of the provisions of this Final Judgment and for the enforcement of compliance therewith and the punishment of the violation of any of the provisions contained herein.

X

Entry of this Final Judgment is in the public interest.

Dated:

United States District Judge.

UNITED STATES DISTRICT COURT, SOUTHERN DISTRICT OF NEW YORK

United States of America, plaintiff, v. Addison-Wesley Publishing Company; Bantam Books, Inc.; Columbia Broadcasting System, Inc.; Dell Publishing Co., Inc.; Doubleday & Company, Inc.; Grosset & Dunlap, Inc.; Harcourt Brace Jovanovich, Inc.; Harper & Row, Publishers, Inc.; Houghton Mifflin Company; Intext, Inc.; Litton Educational Publishing, Inc.; Macmillan, Inc.; McGraw-Hill, Inc.; Oxford University Press, Inc.; Penguin Books, Inc.; Prentice-Hall, Inc.; Random House, Inc.; Simon & Schuster, Inc.; The Times Mirror Company; The Viking Press, Inc.; and John Wiley & Sons, Inc.; defendants. (Civil Action No. 74–5176 (CES); filed: July 27, 1976.)

COMPETITIVE IMPACT STATEMENT

Pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16 (b)–(h) P.L. 93–528 (December 21, 1974)], the United States of America hereby files this competitive impact statement relating to a proposed consent judgment in the above entitled action to be entered against all the named defendants.

(1) *Nature and purpose of the proceeding.* This action was filed on November 25, 1975, against twenty-one major American publishing houses charging that the defendants and certain co-conspirators engaged in an unlawful combination and conspiracy to restrain foreign and interstate trade and commerce in the distribution and sale of books in violation of Section 1 of the Sherman Act (15 U.S.C. § 1). Named as co-conspirators were The Publishers Association, a British organization whose membership includes virtually all major United Kingdom publishing houses, and the members of the Association.

The defendants and many members of the Publishers Association publish copyrighted, English-language hardboard and paperback books, professional books, elementary, high school and college textbooks, religious books and mass market paperback books. Whenever the term "books" is used in this statement it refers to any of these categories of books. Sales in the United States of such books total more than two billion dollars a year, less than ten percent of which are imported from foreign sources. United States book exports are estimated to exceed $250 million dollars in sales. Most English-language books are published in the United States or in the United Kingdom, although other publishers are located throughout the world, especially in the larger English-language nations.

Most published books are copyrighted. A copyright protects the property interest of an author, or the one to whom he assigns his property interest, against the unauthorized publication of the work. Pursuant to international agreements, a copyright granted in one country is recognized in all other countries which are signatories to such agreements. Most countries of the world, including all or virtually all English-language countries, have signed such agreements. In current practice, many authors whose books are published secure a copyright in their home country and license or assign that copyright to a so-called prime publisher together with all rights to excerpt, translate, perform and sub-license.

The defendants are all publishers who often obtain copyright licenses from authors, usually Americans, for whom they act as prime publishers. Each such publisher either distributes or arranges for others to publish and distribute the books pursuant to licenses throughout the United States and in foreign countries. In some instances the defendants export books from the United States to foreign countries. In other instances, especially where there is a significant anticipated market for a particular book, foreign distribution is left to a foreign publishing house, which usually produces its own edition for the licensed book. Under current practice these license agreements usually provide that the licensee shall have the exclusive right to publish and distribute the licensed book in a defined market and, accordingly, that the licensor will neither itself distribute the licensed book in that market nor license any other publisher to do so. In return, the licensee agrees not to publish or sell the licensed book in the United States, and certain other markets the licensor wishes to retain for itself.

The publishing houses which belong to the Publisher's Association perform generally the same functions in the United Kingdom that the defendants perform in the United States. For many years American publishers have entered into license agreements with British publishers both as licensors and licensees of books. The books of many popular authors are published both in an American and a British edition.

When American and British editions of the same book are published pursuant to a license, American publishers are generally granted exclusive publication and selling rights for the United States and certain other markets, and British publishers are given exclusive publication and selling rights within a "British Traditional Market," a group of approximately 70 English-speaking countries comprising virtually all of the present and former members of the British Commonwealth. In its complaint, the Government alleged that this pattern or practice was the result of combinations and agreements—over and above the individual license agreements for particular books—entered into by certain American and British publishing houses with the purpose and effect of suppressing competition in the sale of books in United States interstate and foreign commerce.

One of the principal elements of the conspiracy charged in the complaint was an agreement of The Publishers Association, called the British Market Agreement (formerly the British Publishers' Traditional Market Agreement), whereby members agreed not to accept a copyright license for a book from a foreign author or publisher unless the license included the exclusive rights for publication and distribution of the book in the "British Traditional Market." This agreement was, in effect, an undertaking to boycott non-complying foreign publishers and authors, including those of the United States. Although the Publishers Association and its

V 41 151
AUG 4 76
UMI

members were named as co-conspirators in the complaint, most were not named as defendants because of issues of personal jurisdiction.

The defendants, responding to the Government's complaint, asserted that so long as the British Market Agreement remained in effect that they had little choice but to grant licenses to members of the Publishers Association pursuant to the terms of that agreement, because otherwise they would be unable effectively to penetrate the Commonwealth markets with which the British were much more familiar and because they would be foreclosed from competing as licensees publishing the works of British authors for the United States market. The Department of Justice concluded that, indeed, effective termination of the illegal market allocation arrangement which had been established between American and British publishers required either of two measures: termination of the British Market Agreement, or a prohibition against any defendant dealing in exclusive licenses with any member of the British Publishers Association so long as the British Market Agreement remained in effect. This latter measure would impose heavy enforcement burdens on the Department and would not necessarily terminate the British Market Agreement, since other United States publishers and literary agents not named as defendants would not be enjoined from dealing with the British publishers unless they were added as defendants or sued in another action. Additionally, this rather draconian measure appeared less desirable in light of consideration of comity between the United States and the United Kingdom.

With these considerations as background, the Department opened negotiations with the Publishers Association to determine the possibility of a voluntary revocation of the British Market Agreement. Beginning in February, 1975, and continuing through June, 1976, a series of approximately eight meetings and numerous telephone conversations were held between Government staff attorneys and representatives of the Association or their United States counsel. Officials of the British Embassy attended two of these meetings and held one independent meeting with the Assistant Attorney General to express the concern of the British Government that British subjects not be treated in a discriminatory manner and that this case not be prosecuted in such a way as to encroach upon British sovereignty. These British officials were assured that the Government had no such intentions.

The Department emphasized during negotiations with the Publishers Association that the complaint and relief sought in this case in no way interfered with the legitimate exercise of specific copyright rights, but were aimed solely at certain abuses which go beyond the proper scope of the copyright grant. Proposed drafts of a consent judgment outlining the parameters of relief the Government would seek from defendants if the British Market Agreement were withdrawn were submitted to the Association. On September 24, 1975, the members of the Association adopted a resolution granting the Executive Council of the Association the authority to rescind the British Market Agreement upon notification by the Department of Justice that a significant number of defendants had agreed to the filing of a consent judgment substantially similar to the Department's proposed draft given to the Association in July, 1975. During the winter and early spring, counsel for defendants held several meetings with Government attorneys to negotiate mutually satisfactory terms within the parameters of relief discussed with the Publishers Association.

On May 14, 1976, the Publishers Association was notified that the Department and the defendants had agreed to a proposed consent judgment substantially similar to the one submitted to the Association. On July 6, 1976, the Department was officially notified that the British Market Agreement had been withdrawn, effective July 11, 1976. This proposed final judgment, along with this competitive impact statement, has now been filed with the Court.

(2) *Practices and events giving rise to the alleged violation of the antitrust laws.* The complaint alleges that from 1947 to the time of the filing of the complaint a combination and conspiracy existed among the defendants and co-conspirators to divide world markets among themselves for the publication and sale of books. The Government would have contended at trial that the defendants and co-conspirators:

(a) Entered an agreement that whenever a copyrighted book published in the United States by a defendant or co-conspirator company was also to be licensed for publication or distribution in any of the countries included in the "British Traditional Market," a group of countries comprising virtually all present and former members of the British Commonwealth, the American company would grant a license to a publishing house in the United Kingdom granting the exclusive right to publish or distribute the book in all the countries included in the British Traditional Market. In return, the United Kingdom publisher would agree not to publish or distribute the book in the American Market, consisting of the United States and certain other countries, usually the Dominion of Canada and the Philippine Republic.

(b) Entered an agreement that whenever a copy-righted book published in the United Kingdom by one of the co-conspirator companies was also to be licensed for publication or distribution in the American Market, the United Kingdom company would grant a license to a defendant or co-conspirator company in the United States to publish or distribute the book exclusively in the American Market. In return, the defendant or co-conspirator would agree not to publish or distribute the book in the British Traditional Market.

(c) Cooperated and participated in the monitoring, reporting and attempts to stop actual and attempted breaches of the aforesaid agreements.

(3) *The proposed consent judgment and its anticipated effects on competition.* As was the Complaint in this case, the proposed judgment is primarily directed to arrangements, exemplified by the so-called British Marketing Agreement, which constitute an overall pre-determination for the allocation of countries and markets between American and British publishers in connection with contracts and copyright licenses for the publication of English-language books.

The proposed judgment prohibits adherence to such group pre-determinations by each defendant in dealing with British publishers. Otherwise, except for injunctions against restrictions on resales and against certain reciprocal licensing practices, the judgment does not attempt to regulate comprehensively future bilateral dealings between individual publishers for the licensing of particular books nor to reach purely United States activities. Activities not prohibited by the judgment including exempted activities, of course, remain subject to the antitrust laws.

The proposed consent judgment enjoins the defendants from all the activities alleged to have constituted the conspiracy. It is anticipated that the conduct prohibited by the judgment and the affirmative duties imposed on the defendants will enhance competition and promote export trade in the sale and distribution of books.

If the proposed consent judgment is approved by the Court, the defendants will be enjoined in the future from agreeing with two or more publishers to allocate territories or customers for the publication, sale or distribution of English-language books in connection with any copyright licensing arrangement with a United Kingdom publisher. There are two exceptions to this broad injunction which apply to licensing practices involving a specific book or a specific "Series of Books." "Series of Books" is defined in the judgment to mean "a set of books with a similar format and interrelated on the basis of authorship or theme." The first exception exempts from the injunction a "bona fide joint arrangement" of two or more publishers for the publication or distribution of a specific book or series of books. This provision allows the defendants to enter into a valid joint venture in the publishing industry for the publication of a particular book or series of books. The second exception allows an agreeemnt among two or more publishers to transfer copyright rights when the agreement pertains solely to a specific book or series of books. This exemption will permit insofar as the judgment is applicable, a defendant publisher to license both a British publisher and, for example, an Australian publisher for the same book or series of books. Since the alleged conspiracy involved the allocation of world markets for English-language books among British and United States publishers, the licensing of publishers in other countries is to be encouraged as a means to eliminate the effects of the conspiracy.

Defendants are also enjoined from entering into any bilateral agreement with a British publisher which conditions the present grant of an exclusive copyright license to the British publisher upon a reciprocal grant by the British publisher to the defendant of an exclusive copyright license for a future book, or vice versa. This provision prohibits a classic form of cross-licensing or reciprocity whereby a publisher could agree to license exclusive rights for a book only if his licensee agreed to license the former on an exclusive basis for another book in the future. It does not, however, prohibit a defendant from entering an agreement whereby he conditions the acceptance of a copyright license for one book at the present time on the grant of the right to be licensed for another book at some future time. If such an arrangement in a particular instance constituted an antitrust violation it would be subject to a separate suit. It was inappropriate to spell out in this judgment permissible and impermissible conduct in this area, since this type of conduct was not alleged in the complaint as part of the conspiracy.

Defendants are also prohibited from enforcing any restriction on the resale of lawfully published books. Once a book has been sold to a purchaser, that purchaser cannot be restrained under United States law from reselling the work wherever he chooses. It is the position of the Department that the book publication copyright right is exhausted after the first sale of the work, and the copyright holder has no right to restrict resale of the books thereafter. See *United States* v. *Arnold, Schwinn & Co.* 383 U.S. 365 (1967). However, there is a limited exception to this prohibition contained in the United States copyright law. The so-called "Manufacturing Clause" (17 U.S.C. § 16), with certain exceptions, requires all copies of a work by a United States author to be printed from type set or plates made within the limits of the United States.

Under Section 107 of the Copyright Act (17 U.S.C. § 107), importation into the United States of copies of any work which have not been produced in accordance with the Manufacturing Clause is prohibited. Defendants are still free to exercise this right and any other statutory right they may have to exclude lawfully published books from abroad. However, under the present copyright law, they may not sue for infringement nor may they enforce contractual rights which contain resale restraints with respect to lawfully published books from abroad. Their remedy is limited to an in rem proceeding under the Manufacturing Clause against the books themselves, or any other statutory right they may have.[1]

The decree also orders the defendants, for a period of two years, to furnish a copy of the final judgment to each publisher or literary agent to whom it transfers or from whom it receives exclusive copyright rights for a book in any country within the British Traditional Market. The judgment also affirms the right of the defendants to exercise their copyright rights granted to them by law.

The consent judgment affords the Government methods of determining compliance with the judgment by interviewing employees, by securing reports or by inspection of documents and records in control of defendants. Such documents, reports and records are required to be made available upon the Government's request.

The District Court retains jurisdiction of the case and may modify the provisions of the consent judgment. The District Court also retains jurisdiction for the purpose of enforcing compliance with the judgment or punishing violations of it.

(4) *Remedies available to potential private plaintiffs.* Any potential private plaintiffs who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal equitable relief which they would have had, were the proposed judgment not entered. However, this judgment may not be used as prima facie evidence in private litigation pursuant to Section 5(a) of the Clayton Act, as amended, 15 U.S.C. § 16(a).

(5) *Procedures available for modification of the proposed consent judgment.* The proposed consent judgment is subject to a stipulation between the United States and the consenting defendants which provides that the United States may withdraw its consent to the proposed consent judgment at any time before the Court has found that entry of the judgment is in the public interest. By its terms, the proposed judgment provides for retention of jurisdiction of this action in order, among other things, to permit any of the parties to apply to the Court for such orders as may be necessary or appropriate for its modification.

As provided by the Antitrust Procedures and Penalties Act, any person believing that the proposed judgment should be modified may, for the sixty-day period prior to the effective date of the proposed judgment, submit written comments to the United States Department of Justice, Joel Davidow, Chief, Foreign Commerce Section, Antitrust Division, Washington, D.C. 20530, which will file with the Court and publish in the FEDERAL REGISTER such comments and its response to them. The Department of Justice will thereafter evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed judgment.

(6) *Alternatives to the proposed judgment considered by the United States.* In view of the fact that the consent judgment provides for relief which does not differ from that sought in the complaint, full trial on the merits was not considered an appropriate alternative to settlement. In addition to considering provisions substantially similar to those contained in the proposed judgment, proposals considered by the Government and then rejected included the following:

(a) A provision prohibiting any defendant from granting or accepting from a member of the British Publishers Association any exclusive copyright license so long as the British Market Agreement remained in force. This provision was formulated prior to any negotiations with the Publishers Association when it was thought that the British would continue to adhere to the British Market Agreement. After negotiations with the British, the Government received assurances that the Publishers Association would terminate the agreement if an appropriate judgment not including this provision could be negotiated with the defendants, and thus this provision became unnecessary. The Government received formal notification that the British Market Agreement had been revoked prior to the filing of this proposed consent judgment.

(b) A provision prohibiting any defendant for a period of three years from agreeing with any other person to grant or acquire an exclusive license for a particular country, which was conditioned on the grant or acquisition of exclusive rights for another country, provided that an agreement could be made for more than one country if each country was independently bargained for and specified in the agreement. This was an attempt to force country-by-country negotiations of copyright rights to help break up established territorial marketing patterns. The proposal was dropped because with the termination of the British Market Agreement, it was judged inappropriate at the present time to impose the administrative burdens involved in enforcing and complying with such a provision.

(c) A provision which would have allowed the Government the right to petition the Court to "reopen" the judgment and grant further relief if the basic territorial market allocation patterns persisted even as a result of parallel, independent action by the defendants and co-conspirators. Defendants resisted this notion as exposing them to an open-ended liability with little recourse once the initial judgment was filed. They insisted that they had to know the full parameters of the relief to which they were agreeing in order to settle. After reconsideration, the Department decided to drop this concept because of the opposition of the defendants and the enforcement options open to the Government even without such a provision. If the marketing patterns of the alleged conspiracy persist, the Department has the options of a contempt action if it can show violative conduct, possible modification of the judgment, or an independent suit. The Department believes the availability of these options is sufficient to discourage continuation of the market allocation patterns; if not, its freedom of action is preserved.

(d) The Department's original proposal made the major injunctive provisions of Section IV applicable to all licenses entered into by defendants. Later proposals limited the application of this Section to licenses between any defendant and a United Kingdom publisher. Since the complaint did not allege the existence of any conspiracy involving licensing with non-British publishers, the scope of relief is considered sufficiently broad for this case. Of course, a broader conspiracy would itself be subject to independent attack under the antitrust laws, and any aspect of such a conspiracy enjoined by this judgment could be held a contempt of court.

(7) *Determinative documents.* There are two documents which may be considered determinative in this case. Attached as Appendix A to this competitive impact statement is a resolution of The Publishers Association, dated September 24, 1975, directing the Council of the Association to withdraw the British Publishers Traditional Market Agreement as soon as the Department of Justice notifies the Council that the Department has obtained written agreement of a significant number of the defendants in this case to entry of a consent judgment in a form substantially similar to the one shown to them at that meeting. This enabled the Department to go forward with negotiations with the defendants with the knowledge that the element of the conspiracy represented by the British Market Agreement would be terminated.

The second document, attached as Appendix B to this competitive impact statement is the official notice of The Publishers Association that the Agreement has in fact been withdrawn and that notice of withdrawal has been sent to its members. It was understood between the defendants and the Department that this proposed final judgment would not be filed until such notification was received.

JOEL DAVIDOW,
DOUGLAS E. ROSENTHAL,
STEPHEN P. KILGRIFF,
Attorneys, Department of Justice.

This is the resolution referred to in the Statutory Declaration of Ronald Ernest Barker made this 25th day of September 1975 before me

L. J. ROSE,
A Commissioner for Oaths.

This Special General Meeting of members of the Publishers Association, held in London on 24 September 1975,

Recalling that the British Publishers' Market Agreement, sometimes referred to as the British Publishers' Traditional Market Agreement, consists of undertakings by individual members of the Association to observe the recommendation of the Council of the Association, conveyed in the Association's Secretary's circular letter to the membership, ref: 77/66, dated 14 June 1966, and subsequently published as Appendix VIII of the Association's Guide To Royalty Agreements (5th edition, 1972) pp. 63–65;

Taking Account of the Complaint filed by the United States Department of Justice, Antitrust Division, against twenty-one American publishers, on 25 November 1974;

Accordingly resolve, That the Council of the Association be and is hereby directed to withdraw the aforementioned recommendation of the Council and to release Members from their undertaking to observe said recommendation, such action by the Council to take place as soon as the United States Department of Justice advises the Council that the Department has obtained the written agreement of a significant number of the defendants (approximately two-thirds

[1] The Department of Justice, in Congressional testimony, has opposed the continued existence of the Manufacturing Clause. See Statement of the Deputy Assistant Attorney General, Civil Division, before the Subcommittee on Courts, Civil Liberties and the Administration of Justice of the House Judiciary Committee concerning H.R. 2223 on May 8, 1975. The inclusion of this restriction in our copyright law, he stated, is unnecessary and inappropriate today in light of the competitive strength of the United States and our nation's commitment to eliminate nontariff barriers to international trade and to ensure vigorous competition.

V 41 151 AUG 4 76 UMI

thereof) in *United States* v. *Addison-Wesley Publishing Co., et al.* Civil Action No. 74 Ci 5176 (United States District Court for the Southern District of New York) to entry of a consent decree which the Council considers to be in a form substantially similar to that presented to the Members at a meeting of Members held on 10 September 1975, as altered by any clarifications deemed necessary. The Council and the Officers of the Association are also hereby directed to circulate notice of the withdrawal of the aforementioned recommendation to all Members of the Association and to publish notice of such withdrawal in the Bookseller.

I certify that this is the Resolution referred to in the covering declaration.

R. E. BARKER,
Secretary, Publishers Assn.

25 September 1975.

EXHIBIT A

RESOLUTION

U.S. of America v. *Addison-Wesley Publishing Co. and others* Civil Action No. 74 Civ. 5176 (CES).

Whereas a Special General Meeting of the members of the Publishers Association (hereafter called 'the Association') held in London on 24 September 1975 approved a resolution to the effect that the Council of the Association should be directed to withdraw the recommendation of the Council known as the British Publishers' Market Agreement as soon as the United States Department of Justice advises the Council that a significant number (approximately two-thirds) of the defendants in the case of *U.S.* v. *Addison-Wesley Publishing Co. et al* have given their written agreement to the entry to the United States District Court for the Southern District of New York of a consent decree for the settlement of the action in a form substantially similar to that presented to members at a meeting held on 10 September 1975 (a certified true copy of the minutes of which Special General Meeting with the full text of the resolution are attached hereto);

And whereas the Council of the Publishers Association has been advised that all the defendants in the aforementioned case have given their written stipulation to the entry of the consent decree;

And whereas the Council of the Association has received a copy of the revised consent decree dated 21 April 1976, being the decree to which the defendants have given their written stipulation, which in the opinion of the Council is substantially similar to the draft decree presented to the meeting of members held on 10 September 1975;

Now it is resolved by the Council of the Publishers Association, meeting in London on 6 July 1976, in pursuance of the resolution of the Special General Meeting held in London on 24 September 1975, that the recommendation of the Council known as the British Publishers' Market Agreement is revoked with effect from 11 July 1976 and that the members of the Association are released from their undertakings to observe this recommendation, so that the recommendation is of no further force or effect;

And the Council instructs the Secretary of the Association to attest in writing to the U.S. Department of Justice that this resolution has been made by the Council in valid form such attestation to be sworn before a solicitor of the Supreme Court of England and Wales;

And further instructs the Secretary of the Association to circulate notice of the revocation of the agreement and of the release of members from their undertakings with regard to that agreement to all members of the Association and to publish notice of the revocation and release in the first edition of the Bookseller in which such notice can practicably be published, and to notify the U.S. Department of Justice in writing that such notices have been issued;

And further instructs the President of the Association to attest in writing to the U.S. Department of Justice that Mr. Clive Bradley has been appointed by the Council as Secretary of the Association;

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

THREATENED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 4(d), 16 USC 1533(d), of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Joseph M. Kulina, South Lake, RD 3, Carmel, New York 10512.

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE

FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION

OMB NO. 42-R1670

1. APPLICATION FOR (Indicate only one)
☐ IMPORT OR EXPORT LICENSE ☑ PERMIT

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED.
To BE ABLE to buy + SELL + TRADE PALAWAN PEACOCK PHEASANTS AND to BE ABLE to buy other ENDANGERED Species. To propagate to INSURE their survival in captivity

3. APPLICANT, (Name, complete address and phone number of individual, business, agency, or institution for which permit is requested)
Joseph M. KULINA
South LAKE. R.D.3.
CARMEL, N.Y. 10512
PH. 914-225-3159

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
☑ MR. ☐ MRS. ☐ MISS ☐ MS.
HEIGHT 5'8" WEIGHT 170
DATE OF BIRTH March 2. 1916 COLOR HAIR Blonde COLOR EYES BLUE
PHONE NUMBER WHERE EMPLOYED SOCIAL SECURITY NUMBER 112-03-6095
OCCUPATION SELF EMPLOYED
ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT
Does not apply

5. IF "APPLICANT" IS A BUSINESS, CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION
Does not apply
NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC.
Does not apply
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED
Does not apply

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
a/Breeding PALAWANS, ALSO other species of PHEASANTS at MY AVIARY South LAKE, CARMEL, N.Y.
B/Buying AND selling ENDANGERED PHEASANTS INTERSTATE. Primarily New York to West Coast + TEXAS

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☑ YES ☐ NO
(If yes, list license or permit numbers)
A Valid FEDERAL permit issued By the State of NEW York

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☑ YES ☐ NO
(If yes, list jurisdictions and type of documents)
to possess

9. CERTIFIED CHECK OR MONEY ORDER (if applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF

10. DESIRED EFFECTIVE DATE June 15-1976

11. DURATION NEEDED as ALONG 2yrs as possible

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 CFR 13.12(a)) MUST BE ATTACHED, IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.
50 CFR part 17.22 Permits for propagation purposes, for the ENHANCEMENT + Survival

CERTIFICATION

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE (Do not sign) Joseph Kulina DATE 5/24-1976

3-200 (6/74)

Information Requested by Section 17.33
File No. PRT 2/23-07

1. Mainly Palawan Peacock pheasant, Polyplectron Emphanum or Polyplectron Napoleonis. Would like to be able to buy and sell to get new blood for propagation purposes.

2. Drawing of the building, where Palawan Peacock pheasants are housed is included.

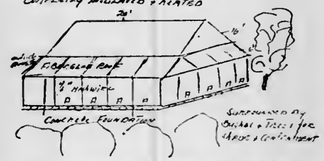
3. More than 10 years experience raising all kinds of pheasants, namely Palawan Peacock pheasants.

4. Applicant will fully cooperate in breeding and stud program, and to keep accurate records, it is the only way to save the species.

5. The containers in shipping are crates with 1" foam padding on the top, lined with burlap, and water and feed

containers are securely placed in each crate. Duration; the birds would stay in the crates, perhaps 24 hours.

6. I have lost very few birds, mostly of old age. My birds seem very hardy and happy. They get once a week medication in the drinking water. The whole building with pens are completely disinfected before and after the breeding season.



7. The only reason as I stated before is to get new blood to my breeding stock.

8. I plan on keeping, breeding, buying and selling Palawan Peacock Pheasants for propagation purposes only.

(ii), (iii) I'll supply good housing, loving care to insure this beautiful bird long life in captivity, to save this bird for the future generation.

(iv) If I should decide to quit raising birds, I would sell them only to the dedicated breeders, who are capable of raising them and to give them the same loving care, I have given them. However, since my love for the bird is great, I feel, that this is a very remote possibility.

BUILDING where PALAWAN PEACOCK PHEASANT resides. 20' x 10' x 8', x 6' outside is completely insulated + HEATED

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. This application has been assigned File Number PRT 2-231-25; please refer to this number when submitting comments. All relevant comments received on or before September 3, 1976, will be considered.

Dated: July 28, 1976.

LOREN K. PARCHER,
Deputy Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Bureau of Land Management

[Utah—U-33869]

UTAH

Application

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Northwest Pipeline Corporation has applied for a 4½-inch natural gas pipeline right-of-way across the following lands:

SALT LAKE MERIDIAN, UTAH

T. 17 S., R. 23 E.,
Sec. 34;
Sec. 35.
T. 18 S., R. 23 E.,
Sec. 3.
T. 17 S., R. 24 E.,
Sec. 19.

The right-of-way needed is for a portion of applicant's gas gathering system located in Grand County, Utah.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Moab District Manager, Bureau of Land Management, P.O. Box 970, Moab, Utah 84532.

PAUL L. HOWARD,
State Director.

JULY 26, 1976.

[FR Doc.76-22615 Filed 8-3-76;8:45 am]

[NM 28417]

NEW MEXICO

Application

JULY 28, 1976.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for one 4½-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 30 N., R. 8 W.,
Sec. 24, SE¼SE¼.

This pipeline will convey natural gas across 0.039 of a mile of national resource land in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 6770, Albuquerque, New Mexico 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

Office of Hearings and Appeals

[Docket No. M 76-513]

CHIPPEWA COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Chippewa Coal Company has filed a petition to modify the application of 30 CFR 75.1710 to its Mine No. 2, Feds Creek, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710-1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. In its mine described below, operations are proceeding in seams of coal of heights which, when mined, do not permit clearances between the top of operated equipment and the roof adequate to allow installation of canopies for protection of operators without the creation of additional hazards. In this mine, seam height varies significantly within all entries and from section to section, and within each section. Therefore, hazards from roof contact exist in all sections covered by this petition at areas where low seams, or rolls, dips, and other seam variations drop to the vicinity of equipment height. Petitioner has installed canopies on all equipment where repeated contact with the roof does not occur, and has re-equipped sections where possible.

2. Petitioner has consulted with MESA Technical Support Center, and continues to experiment with canopy installations. In this regard, Petitioner's greatest problem in extending use of canopies has been operator acceptance, and it has been able to gain no significant experience with

V 41 151 AUG 4 76 UMI

prototype canopies at the mine covered by this petition because of refusal of miners to operate the equipment. This subjective reaction is predictable in situations of seams 42 inches in height and under, but is extremely difficult to deal with because of the provisions of Article III, section (i) of the National Bituminous Coal Wage Agreement of 1974, which allows individual miners to withdraw from conditions which he believes to be abnormal and dangerous by following certain procedures.

3. Chippewa Mine No. 2 is located at Feds Creek, Kentucky. The mine operates with one working section, in seam heights of 38 to 41 inches, using conventional equipment with associated roof bolters.

4. Petitioner submits that the application of the aforementioned provisions of the regulations, if applied to Petitioner's mines, will result in a diminution of safety and is impossible to apply, as described herein below.

a. Petitioner is constantly encountering undulations in the height of its coal seam.

b. As a result of the undulations in seam height the likelihood of jamming the canopy against the roof is increased. Moreover, safe clearance from the roof is not assured in that roof bolts have been and will continue to be sheared or dislodged thereby creating a greater risk of roof fall and injury to operator, by dislodged material and uncontrolled equipment.

c. Technology in the industry is not available to design and install canopies on existing (most equipment has been in operation for over 20 years) equipment which will protect the operators in the conditions described above, insure visability and safe operability, and prevent the hazards described herein. Instead, results of attempts to do so have included the following:

1. Cramped and awkward operator positions cause operators to leave cabs more frequently, and in situations which expose him to hazards of mining equipment.

2. Obstructed vision causes operator to put his head outside of the equipment, thus exposing himself to habards of moving equipment and collision with other objects.

3. Changes in conditions after installations of canopies, caused by variations in seam height and undulations causes equipment clearance to be inadequate and causes collisions with the top, shearing roof bolts, damaging cross beams, destroying equipment and roof support.

d. In an effort to solve problems of equipment modification, Petitioner knows of consultations with MESA Technical Support Center, which it believes to be considering the type of problems described herein. Petitioner does not know of results from such consultations. In addition, Petitioner, as is common in the industry, is in repeated and frequent consultations with vendors on equipment problems, and knows that vendors with whom it has consulted are unable to solve the problems described herein.

e. Existance of the cab itself becomes a hazard in seams, or in portions of seams in which the Petitioner as described above, because present equipment known to the Petitioner limits the paths of escape to an operator faced with a roof or rib fall in a confined space.

f. The mine covered by petition is in an area which has been in operation for thirty (30) years and most of the equipment was not manufactured or designed for the installation of canopies, and Petitioner has been unable to construct or purchase suitable canopies without encountering all of the foregoing problems.

g. In petitioning for modification of the mandatory standard herein, Petitioner is forced to request relief from all time limits set forth in 30 CFR 75.1710–1, as applied to date because of the variations described above within each section. The standard prescribes time limits for use of canopies based upon maximum height within a mine. If the standard becomes immediately applicable throughout the mine, Petitioner is being forced to install canopies in the lower reaches of coal before other coal mine operators in like situations. If the different time limits are to apply to the separate mining sections or other areas in the mines, then Petitioner is faced with a vague situation as mining uncovers new conditions and it is forced with little time to comply, or where compliance is impossible as described herein, its mine may be rendered worthless.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before September 3, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

DAVID TORBETT,
Acting Director,
Office of Hearings and Appeals.

JULY 27, 1976.

GREENLEE COUNTY, ARIZONA TO EL PASO, TEXAS, 345 KV TRANSMISSION LINES

Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a final environmental statement for the proposed rights-of-way for construction of two (2) 345 KV transmission lines from Greenlee County, Arizona to El Paso, Texas.

The proposal involves approximately 158 miles of 300 ft. wide right-of-way which will contain both lines and two separate 150 ft. wide rights-of-way each being approximately 46 miles long. A total construction route of approximately 250 miles is proposed.

Copies are available for inspection at the following locations:

Office of Information, Bureau of Land Management, Interior Building, 18th and C Streets, NW., Washington, D.C. 20240, Telephone: (202) 343–5717.

New Mexcio State Office, Bureau of Land Management, U.S. Post Office Building, North Federal Place, Santa Fe, New Mexico 87501, Telephone: (505) 988–6214.

Las Cruces District Office, Bureau of Land Management, 1705 North Valley Drive, Las Cruces, New Mexico 88001, Telephone: (505) 523–5571.

A limited number of single copies may be obtained from the New Mexico State Director, P.O. Box 1449, Santa Fe, New Mexico 87501.

Dated: July 30, 1976.

STANLEY D. DOREMUS,
Deputy Assistant Secretary
of the Interior.

Bureau of the Census

Correction to Determinations Under Title III of the Voting Rights Act Amendments of 1975

The Director of the Bureau of the Census has determined that the list of political subdivisions covered under Section 203 of the Voting Rights Act of 1965 (42 U.S.C. 1973, et seq., as modified by the Voting Rights Act Amendments of 1975, Pub. L. 94–73) should be amended. Revisions to the list published in the FEDERAL REGISTER on September 9, 1975 (40 FR 41827) and September 18, 1975 (40 FR 43044) are shown in the attached table. For reference to other listings of States and/or political subdivisions that meet the coverage requirements for Section 203 (Title III), see the FEDERAL REGISTER of March 1, 1976 (41 FR 8817).

Dated: July 30, 1976.

VINCENT P. BARABBA,
Director,
Bureau of the Census.

Domestic and International Business Administration

SEMICONDUCTOR MANUFACTURING AND TEST EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee will be held on Friday, September 17, 1976, at 9:30 a.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Semiconductor Manufacturing and Test Equipment Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5 (c) (1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) (Supp. IV, 1974) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to semiconductor manufacturing and test equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has six parts:

General Session

(1) Opening remarks by the Chairman, Mr. Larry L. Hansen.

(2) Presentation of papers or comments by the public.

(3) Progress reports from the Subcommittee Chairmen:

(a) Pattern Generation and Image Transfer and Inspection Subcommittee—Aubrey C. Tobey, Chairman.

(b) Wafer Processing Subcommittee—George A. Stephan, Chairman.

(c) Assembly, Packaging and Test Subcommittee—William K. Russell, Chairman.

(d) Materials Preparation Subcommittee—Larry L. Hansen, Acting Chairman.

(4) Comments by other Committee members.

(5) Establishment of time schedules for completion of our program.

Executive Session

(6) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statement to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (6), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on November 25, 1975, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written report addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202–377–4196.

The complete Notice of Determination to close portions of the series of meetings of the Semiconductor Manufacturing and Test Equipment Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER on January 30, 1976 (41 Fed. Reg. 4623).

Date: July 30, 1976.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

[FR Doc.76-22592 Filed 8-3-76;8:45 am]

COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

The meeting of the Computer Systems Technical Advisory Committee scheduled for Thursday, August 12, 1976, has been rescheduled for Wednesday, August 25, 1976. The agenda and other information relating to the Committee meeting, as published in the FEDERAL REGISTER, (41 Fed. Reg. 29457), on Friday, July 16, 1976, remain unchanged.

Date: July 30, 1976.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

National Oceanic and Atmospheric Administration

NORTHWEST FISHERIES SERVICE

Issuance of Marine Mammal Permit

On April 12, 1976, notice was published in the FEDERAL REGISTER (41 FR 15356), that an application had been filed by the Northwest Fisheries Center, National Marine Fisheries Service, Seattle, Washington 98112, for a permit to take by killing, 100 ice breeding harbor seals (*Phoca vitulina largha*), 100 Pacific harbor seals (*Phoca vitulina richardii*), 100 ringed seals (*Pusa hispida*), 100 bearded seals (*Erignathus barbatus*), 250 northern sea lions (*Eumetopias jubatus*), and 100 ribbon seals (*Histriophoca fasciata*); and to capture, tag, and release 2,500 harbor seals (*Phoca vitulina richardii*) and 2,500 northern sea lions (*Eumetopias jubatus*), over a period of five years.

Notice is hereby given that, on July 28, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking and importing to the Northwest Fisheries Center subject to certain conditions set forth therein. The permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Northwest Region, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109.

Dated: July 28, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

MRS. DIANNA WILSON ALLEN

Issuance of Permit To Take Marine Mammals

On April 12, 1976, notice was published in the FEDERAL REGISTER (41 FR 16676) that an application had been filed with the National Marine Fisheries Service by Mrs. Dianna Wilson Allen, P.O. Box 971, Donna, Texas 78537, for a permit to take two California sea lions (*Zalophus californianus*) for the purpose of public display.

V 41 151 AUG 4 76 UMI

Notice is hereby given that, on July 28, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking to Mrs. Allen, subject to certain conditions set forth therein. The permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.;
Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702; and
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: July 28, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

[FR Doc.76–22538 Filed 8–3–76;8:45 am]

BALTIMORE ZOO

Issuance of Permit To Take Marine Mammals

On April 21, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 16676) that an application had been filed with the National Marine Fisheries Service by Baltimore Zoo, Druid Hill Park, Baltimore, Maryland 21217, for a permit to take five (5) Atlantic harbor seals (*Phoca vitulina concolor*) for the purpose of public display.

Notice is hereby given that, on July 28, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking to Baltimore Zoo, subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C. 20235; and
Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Dated: July 28, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

[FR Doc.76–22539 Filed 8–3–76;8:45 am]

POINT REYES BIRD OBSERVATORY

Issuance of Permit To Take Marine Mammals

On May 21, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 20903) that an application had been filed with the National Marine Fisheries Service by Point Reyes Bird Observatory, Mesa Road, Bolina, California 94924, for a permit to conduct scientific research on California sea lions (*Zalophus californianus*) on Southeast Farallon Island, California. The project will cause a minimum of disturbance to the animals while collecting naturally regurgitated material remains.

Notice is hereby given that on July 26, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above described research to Point Reyes Bird Observatory, subject to certain conditions set forth therein.

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: July 26, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

DR. BRUCE MATE

Permit To Take Marine Mammals

On April 21, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 16676), as amended on May 10, 1976 (41 F.R. 20605), that an application had been filed with the National Marine Fisheries Service by Dr. Bruce Mate, Oregon State University, Newport, Oregon 97365, to take eighty (80) California sea lions (*Zalophus Californianus*) and forty (40) Pacific harbor seals (*Phoca vitulina richardii*) over a 2½ year period, with no more than forty (40) sea lions and twenty (20) harbor seals to be taken annually, in order to study the feeding habits of these species.

Notice is hereby given that on July 22, 1976, and as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit to Dr. Bruce Mate to take 20 harbor seals and 80 sea lions over a period of two years, subject to certain conditions set forth therein.

The permit is available for review in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington; and
Regional Director, National Marine Fisheries Service, Northwest Region, 1700 Westlake Avenue North, Seattle, Washington 98109.

Dated: July 22, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

[FR Doc.76–22541 Filed 8–3–76;8:45 am]

LOS ANGELES COUNTY MUSEUM OF NATURAL HISTORY

Permit To Take and Import Marine Mammals

On June 3, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 22394) that an application had been filed with the National Marine Fisheries Service by the Los Angeles County Museum of Natural History, 900 Exposition Boulevard, Los Angeles, California 90007, for a permit to take and import marine mammal specimen materials for the purpose of scientific research.

Notice is hereby given that on July 26, 1976, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a permit for the above taking to the Los Angeles County Museum of Natural History subject to certain conditions set forth therein.

The permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and
Regional Director, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: July 26, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

AMERICAN TUNABOAT ASSOCIATION

Receipt of Application for a General Permit

Notice is hereby given that the following applicant has applied in due form for a General Permit to take marine mammals incidental to the course of commercial fishing operations during 1977 as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the regulations thereunder.

The American Tunaboat Association, 1 Tuna Lane, San Diego, California, has applied for a general permit, category 2, "Encircling Gear, Yellowfin Tuna Purse Seining."

Copies of the application are available for review as follows:

Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 (telephone 202/634–7283); Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Interested parties may submit written data or views on this application or request a hearing in connection therewith, within 30 days of the publication of this notice. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The views or hearing requests may be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, who within sixty days following the date of publication of this notice, may afford

such parties an opportunity for such a hearing.

Dated: July 27, 1976.

ROBERT J. AYERS,
Acting Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.76–22543 Filed 8–3–76;8:45 am]

DR. JAMES H. W. HAIN

Marine Mammals and Endangered Species Permit

On June 11, 1976, notice was published in the FEDERAL REGISTER (41 F.R. 23741) that Dr. James H. W. Hain, Sea Education Association, Box 6, Woods Hole, Massachusetts 02543, had applied for a Permit for Scientific Research under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), and for Scientific Purposes under the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) to take all species of cetaceans and pinnipeds (except walruses), including the following species listed under the Endangered Species Act of 1973: blue whale (*Balaenoptera musculus*), fin whale (*Balaenoptera physalus*), sei whale (*Balaenoptera borealis*), humpback whale (*Megaptera novaeangliae*), right whale (*Eubalaena* spp.), sperm whale (*Physeter catodon*), and gray whale (*Eschrichtius robustus*).

The research project will be conducted on the above mentioned species by means of aerial, surface vessel, and underwater surveys, which may involve harassment to individual animals of the population stocks. Also, the collection and importation of an unspecified number of dead marine mammals, or parts thereof, found stranded, will be taken from all parts of the world.

Notice is hereby given that, on July 28, 1976, the National Marine Fisheries Service issued a Permit for Scientific Research as authorized by the Marine Mammal Protection Act of 1972, and for Scientific Purposes as authorized by the Endangered Species Act of 1973, to Dr. James H. W. Hain for the above described taking and importing, subject to certain conditions set forth therein. Issuance of the Permit is based, as required by the Endangered Species Act of 1973, on a finding that such permit (1) was applied for in good faith; (2) if granted and exercised, will not operate to the disadvantage of the endangered species sited under the Permit application; and (3) will be consistent with the purposes and policies set forth in Section 2 of the Endangered Speries Act of 1973.

The Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.;
Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930; and
Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Dated: July 28, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for U.S. and possibly foreign licensing, in accordance with the policies of the agency sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications, either paper copy (PC) or microfiche (MF), can be purchased at the prices cited from the National Technical Information Service (NTIS), Springfield, Virginia 22161. Requests for copies of patent applications must include the PAT–APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator.

Patent application 660,882: Imparting Paramagnetic Susceptibility to Cotton Fibers; filed 4 February 1976; PC $3.50/MF $2.25.

Patent 3,877,818: Photo-Optical Method for Determining Fat Content in Meat; filed 28 January 1974; patented 15 April 1975; not available NTIS.

Patent 3,902,224: Fiber Distribution and Ribbon Forming System; filed 10 October 1973; patented 2 September 1975; not available NTIS.

Patent 3,914,106: Process for Treating Organic Textiles with Flame Retardant Polymers Made from Hydroxymethylphosphorus Compounds and Guanazoles; filed 31 January 1973; patented 21 October 1975; not available NTIS.

V 41 151 AUG 4 76 UMI

Patent 3,926,709: Glassy Materials from Plumbites and Cellulosics; filed 22 August 1974; patented 16 December 1975; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, MD 20014.

Patent application 663,127: Laminated Carbon-Containing Silicone Rubber Membrane for Use in Membrane Artificial Lung; filed 1 March 1976; PC $4.00/MF$2.25.

Patent 3,914,400: Stable Antigen-Erythrocytes for Measuring Antibodies against Toxoplasma Organism; filed 21 May 1973; patented 21 October 1975; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, BRANCH OF PATENTS, 18TH AND C STREETS, NW, WASHINGTON, DC 20240.

Patent application 652,347: Receiver System for Locating Transmitters; filed 26 January 1976; PC $3.50/MF $2.25.

Patent application 657,894: Eelctrodeposition of Copper; filed 13 February 1976; PC $3.50/MF $2.25.

Patent application 660,192: Undervoltage Release with Electrical Reset for Circuit Breaker; filed 23 February 1976; PC $3.50/MF $2.25.

Patent application 660,942: Desorption of Gold from Activated Carbon; filed 24 February 1976; PC $3.50/MF $2.25.

Patent 3,940,265: Recovery of Lead from Battery Scrap; filed 25 June 1975; patented 24 February 1976; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, ASSISTANT CHIEF FOR PATENTS, OFFICE OF NAVAL RESEARCH, CODE 302, ARLINGTON, VA 22217.

Patent 2,996,946: Optical Device Including Gating Circuits, Adjustable in Time and Duration; filed 20 January 1956; patented 22 August 1961; not available NTIS.

Patent 3,783,258: FFT Processor Utilizing Variable Length Shift Registers; filed 3 November 1971; patented 1 January 1974; not available NTIS.

Patent 3,866,234: Shaped Ceramic Dielectric Antenna Lens; filed 26 December 1973; patented 11 February 1975; not available NTIS.

Patent 3,909,297: Lithium-Chlorine Battery Design; filed 10 May 1968; patented 30 September 1975; not available NTIS.

Patent 3,910,190: Hand-Held Signaling Device Having Manual Firing Means; filed 22 April 1974; patented 7 October 1975; not available NTIS.

Patent 3,913,094: County Sequence Test Set for a Disc Type Digital Encoder; filed 20 March 1974; patented 14 October 1975; not available NTIS.

Patent 3,917,412: Advanced Helmet Tracker Using Lateral Photodetection and Light-Emitting Diodes; filed 11 April 1972; patented 4 November 1975; not available NTIS.

Patent 3,931,589: Perforated Wall Hollow-Cathode Ion Laser; filed 21 March 1974; patented 6 January 1976; not available NTIS.

TENNESSEE VALLEY AUTHORITY, Division of Law, Muscle Shoals, AL 35660.

Patent 3,928,015: Manufacture of Urea-Ammonium Sulfate from Sulfuric Acid, Ammonia, and Urea; filed 9 June 1975, patented 23 December 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, DC 20546.

Patent application 390,049: Hydrogen Rich Gas Generator; filed 20 August 1973; PC $3.50/MF $2.25.

Patent application 462,424: Improved Method of Making Reinforced Composite Structurers; filed 19 April 1974; PC $3.50/MF $2.25.

Patent application 553,687: Improved Hydrogen-Rich Gas Generator; filed 27 December 1975; PC $3.50/MF $2.25.

Patent application 643,895: Insulation for Piping; filed 23 December 1975; PC $3.50/MF $2.25.

Patent application 645,500: Method and Apparatus for Controlling the Contrast of a Photographic Transparency; filed 30 December 1975; PC $3.50/MF $2.25.

Patent application 645,503: Pyrolysis System and Process; filed 30 December 1975; PC $3.50/MF $2.25.

Patent application 645,510: Pseudo Noise Code and Data Transmission Method and Apparatus; filed 30 December 1975: PC $4.00/MF $2.25.

Patent application 645,571: Miniature Biaxial Strain Transducer; filed 30 December 1975; PC $3.50/MF $2.25.

Patent 3,924,068: Low Distortion Receiver for Bi-Level Baseband PCM Waveforms; patented 2 December 1975; not available NTIS.

Patent 3,924,176: Magnetometer Using Superconducting Rotating Body; patented 2 December 1975; not available NTIS.

Patent 3,924,183: Frequency Measurement by Coincidence Detection with Standard Frequency; patented 2 December 1975; not available NTIS.

Patent 3,924,267: Scan Converting Video Tape Recorder; patented 2 December 1975; not available NTIS.

Patent 3,928,708: Transparent Fire Resistant Polymeric Structures; patented 23 December 1975: not available NTIS.

Patent 3,929,364: Clock Setter; patented 30 December 1975· not available NTIS.

Patent 3,930,628: Deploy/Release System; patented 6 January 1976; not available NTIS.

Patent 3,931,132: Utilization of Oxygen Difluoride for Syntheses of Fluoropolymers; patented 6 January 1976; not available NTIS.

Patent 3,931,447: Fused Silicide Coatings Containing Discrete Particles for Protecting Niobium Alloys; patented 6 January 1976; not available NTIS.

Patent 3,931,456: High Voltage Distributor; patented 6 January 1976; not available NTIS.

Patent 3,931,516: Moving Particle Composition Analyzer; patented 6, January 1976; Thermoelectric Power System; patented 6, January 1976; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for U.S. and possibly foreign licensing, in accordance with the policies of the agency sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $0.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications, either paper copy (PC) or microfiche (MF), can be purchased at the prices cited from the National Technical Information Service (NTIS), Springfield, Virginia 22161. Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Request for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Mgmt. Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, MD 20782.

Patent application 665,588: Doctoring Apparatus and System; filed 10 March 1976; PC $3.50/MF $2.25.

U.S. DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, D.C. 20314.

Patent application 509,200: Impedance Standard Apparatus; filed 25 September 1974; PC $3.50/MF $2.25.

Patent application 525,337: Boron Coated with Ammonium Perchlorate; filed 20 November 1974; PC $3.50/MF $2.25.

Patent application 638,210: Debris Catcher for Thrust Temination Ports; filed 5 December 1975; PC $3.50/MF $2.25.

Patent application 642,048: Toroidal Tail Structure for Tethered Aeroform Balloon; filed 18 December 1975; PC $3.50/MF $2.25.

Patent application 642,525: Aircraft Seat Cushion; filed 19 December 1975; PC $3.50/MF $2.25.

Patent application 647,528: Holographic High Resolution Contact Printer; filed 8 January 1976; PC $3.50/MF $2.25.

Patent application 647,530: Flat Layup Venting; filed 8 January 1976; PC $3.50/MF $2.25.

Patent application 649,108: Variable Orifice Gas Metering Assembly for Aircraft Bomb Rack Gas System; filed 14 January 1976; PC $3.50/MF $2.25.

Patent application 649,761: Flexible Recording Head Mounting Assembly; filed 16 January 1976; PC $3.50/MF $2.25.

Patent application 649,765: Nozzle Ejection System; filed 16 January 1976; PC $4.00/MF $2.25.

Patent 3,933,572: Method for Growing Crystals; filed 11 December 1973; patented 20 January 1976; not available NTIS.

Patent 3,933,573: Aluminum Nitride Single Crystal Growth from a Molten Mixture with Calcium Nitride; filed 27 March 1975; patented 20 January 1976; not available NTIS.

Patent 3,935,479: Dynamic Damping Apparatus; filed 20 December 1974; patented 27 January 1976; not available NTIS.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Mgmt. Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, MD 20782.

Patent application 545,291: Process for Making Animal Feed Blocks from Whey; filed 30 January 1975; PC $3.50/MF $2.25.

Patent application 604,857: Composite Silver Forming Assembly; filed 14 August 1975; PC $3.50/MF $2.25.

Patent application 610,472: Vaccine Production Process; filed 4 September 1975; PC $3.50/MF $2.25.

Patent application 616,212: Insect Antenna Vibrating Frequency Modulator and Resonating Maserlike IR Emitter; filed 24 September 1975; PC $3.50/MF $2.25.

Patent application 629,479: New Holding Device for Tensile Testing Fabrics; filed 5 November 1975; PC $3.50/MF $2.25.

Patent application 633,066: Self-Cleaning Open-End Yarn Spinning Apparatus; filed 18 November 1975; PC $3.50/MF $2.25.

Patent application 647,244: Fiber Blending, Subdividing, and Distributing System; filed 7 January 1976; PC $3.50/MF $2.25.

Patent application 656,031: Retracting Tooth Processing Cylinder Apparatus; filed 6 February 1976; PC $3.50/MF $2.25.

Patent application 665,586: Apparatus and Method for Treating Waste Products; filed 10 March 1976; PC $3.50/MF $2.25.

Patent 3,403,172: Hard, High-Melting Waxes from Long-Chain N-Allylamides; filed 3 January 1964; patented 24 September 1968; not available NTIS.

Patent 3,405,149: Direct Cleavage of Epoxides to Produce Aldehydes; filed 24 March 1965; patented 8 October 1968; not available NTIS.

Patent 3,408,373: Alpha-Sulfo Branched Chain Fatty Acids and Method for Preparing Them; filed 11 August 1964; patented 29 October 1968; not available NTIS.

U.S. DEPARTMENT OF TRANSPORTATION, Patent Counsel, 400 7th Street SW., Washington, D.C. 20590.

Patent 3,760,415: Microwave Crash Sensor for Automobiles; filed 23 December 1971; patented 18 September 1973; not available NTIS.

Patent 3,786,458: Non-Contacting Angular Position Detector; filed 1 March 1972; patented 15 January 1974; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, MD 20014.

Patent application 660,349: Birefringent Crystal Thermometer; filed 23 February 1976; PC $3.50/MF $2.25.

Patent 3,915,017: Portable Ultrasonic Radiometer; filed 30 August 1973; patented 28 October 1975; not available NTIS.

Patent 3,915,651: Direct Digital Control Pipette; filed 22 September 1972; patented 28 October 1975; not available NTIS.

Patent 3,939,823: Esophageal Transducer; filed 28 January 1975; patented 24 February 1976; not available NTIS.

Patent 3,941,356: Method and Apparatus for Continuous Mixing of Blood Plasma and Additives; filed 13 November 1974; patented 2 March 1976; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, BRANCH OF PATENTS, 18th AND G STREETS, NW., WASHINGTON, D.C. 20240

Patent application 647,309: Steelmaking by the Electroslag Process Using Prereduced Iron Ore Pellets; filed 8 January 1976, PC $3.50/MF$2.25.

Patent application 647,522: Unitary Drill Bit and Roof Bolt. Filed 8 January 1976, PC $3.50/MF$2.25.

Patent application 650,640: Detection of Potential on High-Voltage Transmission Lines. Filed 20 January 1976, PC$3.50/MF $2.25.

Patent application 653,315: Flexible Shaft Drilling System. Filed 29 January 1976, PC$3.50/MF$2.25.

Patent application 661,580: A High-Pressure Injection Hydraulic Transport System with a Peristaltic Pump Conveyor; filed 26 February 1976, PC$3.50/MF$2.25.

Patent application 662,665: Cold Crucible. filed 1 March 1976, PC$3.50/MF$2.25.

Patent 3,932,170: Use of Scavenger in Recovery of Metal Values; filed 19 August 1974, patented 13 January 1976; not available NTIS.

Patent 3,934,219: Acoustic Method and Apparatus for Determining Effectiveness of Mine Passage Seal; filed 11 September 1974; patented 20 January 1976; not available NTIS.

Patent 3,935,006: Process for Eluting Adsorbed Gold and or Silver Values from Activated Carbon; filed 19 March 1975; patented 27 January 1976; not available NTIS.

Patent 3,938,006: Active Negative Sequence Cable Monitor; filed 5 February 1975; patented 10 February 1976; not available NTIS.

Patent 3,939,676: Adhesive Guard Hair Removal; filed 25 September 1970; patented 24 February 1976; not available NTIS.

Patent 3,942,329: Flexible Rock Bolt; filed 11 February 1975; patented 9 March 1976; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, ASSISTANT CHIEF FOR PATENTS, OFFICE OF NAVAL RESEARCH, CODE 302, ARLINGTON, VA 22217.

Patent application 615,264: Swimmer Protective Helmet; filed 22 September 1975, PC$3.50/MF$2.25.

Patent application 616,786: Decometer; filed 25 September 1975, PC$4.00/MF$2.25.

Patent application 627,637: Drift-Compensated Free-Rotor Gyro; filed 31 October 1975, PC$3.50/MF$2.25.

Patent application 642,880: Direct Fire Weapon Trainer Incorporating Hit and Data Delay Responses; filed 22 December 1975, PC$3.50/MF$2.25.

Patent application 645,161: Method of Isolating and Cryopreserving Human White Cells from Whole Blood; filed 30 December 1975, PC$4.00/MF$2.25.

Patent application 655,928: Ejectable Fuze; filed February 1976, PC$3.50/MF$2.25.

Patent application 658,146: Electrostatic Field Sensor; filed 13 February 1976; PC $3.50/MF $2.25.

Patent 3,574,606: Weldable, Nonmagnetic Austenitic Manganese Steel; filed 24 June 1968; patented 13 April 1971, not available NTIS.

Patent 3,871,228: Permeable Membrane Gas Saturometer; filed 14 May 1973; patented 18 March 1975; not available NTIS.

Patent 3,875,796: Apparatus for Continuously Recording Sea-Floor Sediment Corer Operations; filed 13 June 1974; patented 8 April 1975, not available NTIS.

Patent 3,893,115: Sweep and Memory Control Circuit; filed 25 January 1974; patented 1 July 1975; not available NTIS.

Patent 3,896,731: Explosive Initiator Device; filed 22 September 1970; patented 29 July 1975; not available NTIS.

Patent 3,897,592: Voiced-Operated Transmit System; filed 11 May 1973; patented 29 July 1975; not available NTIS.

Patent 3,898,570: High Speed Control Circuit; filed 23 October 1973; patented 5 August 1975; not available NTIS.

Patent 3,899,145: Laser Transmitting and Receiving Lens Optics; filed 20 July 1973; patented 12 August 1975; not available NTIS.

Patent 3,904,269: Fiber Optic Cable Connector; filed 28 January 1974; patented 9 September 1975; not available NTIS.

Patent 3,906,926: Heat Source for Curing Underwater Adhesives; filed 19 September 1974; patented 23 September 1975; not available NTIS.

Patent 3,907,028: Concentric Cylinder Heat Exchanger; filed 2 May 1974; patented 23 September 1975; not available NTIS.

Patent 3,908,457: High Energy Laser Power Meter; filed 7 June 1974; patented 30 September 1975; not available NTIS.

Patent 3,908,552: Fuze Signal Processing Circuit; filed 7 July 1964; patented 30 September 1975; not available NTIS.

Patent 3,909,322: Solid Gas Generating and Gun Propellant Compositions Containing a Nitroaminotetrazole Salt; filed 3 August 1970; patented 30 September 1975; not available NTIS.

Patent 3,911,345: Adaptive Control System Using Command Tailoring; filed 4 June 1973; patented 7 October 1975; not available NTIS.

Patent 3,911,746: Time and Condition Data Logger; filed 27 April 1973; patented 14 October 1975; not available NTIS.

Patent 3,913,319: Low Drag Flameholder; filed 2 February 1972; patented 21 October 1975; not available NTIS.

Patent 3,914,053: Ice Nuclei Counter; filed 9 December 1974; patented 21 October 1975; not available NTIS.

Patent 3,914,846: High Density INSB PV IR Detectors; filed 15 June 1972; patented 28 October 1975; not available NTIS.

Patent 3,915,379: Method of Controlling Weather; filed 22 March 1971; patented 28 October 1975; not available NTIS.

Patent 3,916,353: Electrically Controllable Microwave Bipolar Attenuator; filed 27 March 1972; patented 28 October 1975; not available NTIS.

Patent 3,916,759: Rocket Launcher; filed 29 October 1968; patented 4 November 1975; not available NTIS.

Patent 3,918,100: Sputtering of Bone on Prostheses; filed 13 May 1974; patented 11 November; not available NTIS.

Patent 3,920,199: Rate-Gyro Stabilized Platform; filed 3 May 1974; patented 18 November 1975; not available NTIS.

Patent 3,929,072: Mild Detonating Fuse End Termination; filed 26 November 1974; patented 30 December 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, D.C. 20546.

Patent application 646,704: A Length Controlled Stabilized Mode-Lock Nd: YAG Laser; filed 5 January 1976; PC $3.50/MF $2.25.

Patent application 648,700: A 2 Degree/90 Degree Laboratory Scattering Photometer; filed 13 January 1976; PC $3.50/MF $2.25.

Patent application 651,009: Tantalum Modified Ferritic Iron Base Alloys; filed 21 January 1976; PC $3.50/MF $2.25.

Patent application 653,316: Photon Excited Catalysis; filed 29 January 1976; PC $3.50/MF $2.25.

Patent application 653,681: A Machine for Use in Monitoring Fatigue Life for a Plurality of Elastomeric Specimens; filed 29 January 1976; PC $3.50/MF $2.25.

Patent 3,929,119: Self-Energized Plasma Compressor; patented 30 December 1975; not available NTIS.

Patent 3,929,306: Space Vehicle System; patented 30 December 1975; not available NTIS.

DOUGLAS J. CAMPION,
Patent Program Coordinator.

U.S. DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, D.C. 20314

Patent 3,944,537: Preparation of Alpha-Amylase Inhibitor; filed 26 November 1974; patented 16 March 1976; not available NTIS.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Mgmt. Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, MD 20782.

Patent application 527,335: Method of Compounds for Disrupting Normal Insect Maturation; filed 26 November 1974; PC $3.50/MF $2.25.

Patent application 554,052: Preparation and Uses of Stable, Bound Stationary Phases; filed 27 February 1975: PC $3.50/MF $2.25.

Patent application 561,585: Arthropod Maturation Inhibitors; filed 24 March 1975; PC $3.50/MF $2.25.

Patent application 561,586: Arthropod Maturation Inhibitors; filed 24 March 1975; PC $3.50/MF $2.25.

Patent application 565,890: Preparation of Enol Esters; filed 7 April 1975; PC $3.50/MF $2.25.

Patent application 565,989: Preparation of Enol Esters; filed 7 April 1975; PC $3.50/MF $2.25.

Patent application 589,802: An Improvement in the Short Milk Tube of a Milking Machine; filed 24 June 1975; PC $3.50/MF $2.25.

Patent application 592,682: Synthetic Hormones for Insect Control; filed 2 July 1975; PC $4.00/MF $2.25.

Patent application 592,698: Synthetic Hormones for Insect Control; filed 7 July 1975; PC $4.00/MF $2.25.

Patent application 594,167: Improved Cheesemaking Process; filed 8 July 1975; PC $3.50/MF $2.25.

Patent application 594,893: Apparatus and Method for Rapid Analyses of Plurality of Samples; filed 10 July 1975; PC $3.50/MF $2.25.

Patent application 599,731: Insect Maturation Inhibitors; filed 1 August 1975; PC $3.50/MF $2.25.

Patent application 605,353: Insect Maturation Inhibitors; filed 15 August 1975; PC $3.50/MF $2.25.

Patent application 605,354: Insect Maturation Inhibitors; filed 15 August 1975; PC $3.50/MF $2.25.

Patent application 631,259: Control of Nematodes and Other Helminths; filed 12 November 1975; PC $3.50/MF $2.25.

Patent application 642,837: Physiochemically Designed Fat Compositions from Tallow and Process for Making; filed 22 December 1975; PC $4.00/MF $2.25.

Patent application 668,102: Hormonal Control of Insects; filed 18 March 1976; PC $3.50/MF $2.25.

Patent 3,375,281: Process for the Preparation of Stearone; filed 13 May 1966; patented 26 March 1968; not available NTIS.

Patent 3,379,093: Radiation Sample Cells; filed 10 June 1964; patented 23 April 1968; not available NTIS.

Patent 3,391,447: Soldering Nonmetals to Metals; filed 10 June 1964; patented 9 July 1968; not available NTIS.

Paetnt 3,392,660: Food Processing Apparatus; filed 3 June 1963; patented 16 July 1968; not available NTIS.

Patent 3,408,209: Process for Manufacturing Rapidly Rehydratable Dehydrated Fruits and Vegetables of High Density; filed 8 March 1965; patented 29 October 1968; not available NTIS.

Patent 3,429,902: Process for Purifying Stearic Acid; filed 10 September 1965; patented 25 February 1969; not available NTIS.

Patent 3,437,642: Method of Producing Resins from Nonterminal Epoxy Phenolic Esters; filed 14 June 1966; patented 8 April 1969; not available NTIS.

Patent 3,450,541: Rapid Quantitative Removal of Natural Sterols from Lipids; filed 29 June 1966; patented 17 June 1969; not available NTIS.

Patent 3,456,576: Automatic Explosive Puffing Apparatus; filed 27 February 1967; patented 22 July 1969; not available NTIS.

Patent 3,463,851: Insect Chemosterilants Derived from Boron; filed 23 November 1966; patented 26 August 1969; not available NTIS.

Patent 3,485,868: Attractants for Yellow Jackets (Vespula spp.: Vespidae); filed 29 December 1966; patented 23 December 1969; not available NTIS.

Patent 3,492,403: Production of Lactation by Nonsedative Phenothiazine Derivatives; filed 9 December 1965; patented 27 January 1970; not available NTIS.

Patent 3,533,935: Liquid Zone Electrophoresis Apparatus; filed 20 March 1968; patented 13 October 1970; not available NTIS.

Patent 3,563,982: Insect Control Process with Synthetic Hormones; filed 2 January 1969; patented 16 February 1971; not available NTIS.

Patent 3,567,748: The Reaction Product of Isopropenyl Stearate with Diethylmalonate or Methylstearate and the Catalyzed Production Thereof; filed 2 November 1967; patented 2 March 1971; not available NTIS.

Patent 3,625,296: Mechanical Soil Sampler; filed 30 December 1969; patented 7 December 1971; not available NTIS.

Patent 3,666,105: Apparatus for Continuous Liquid-Solid Phase Chromatography; filed 4 August 1970; patented 30 May 1972; not available NTIS.

Patent 3,672,862: Rhizobitoxine as a Post-Emergent Herbicide; filed 12 December 1969; patented 27 June 1972; not available NTIS.

Patent 3,692,020: Rotary Punch for Excising Uniform Biopsy Specimens; filed 29 April 1971; patented 19 September 1972; not available NTIS.

Patent 3,926,057: Spiral Manometer; filed 26 September 1974; patented 16 December 1975; not available NTIS.

Patent 3,937,845: Semi-Solid Fermentation of Straw; filed 8 January 1975; patented 10 February 1976; not available NTIS.

Patent 3,937,849: Process for Improving the Digestibility of Hemicellulose-Free Straw; filed 23 January 1975; patented 10 February 1976; not available NTIS.

Patent 3,939,273: 3,4-Methylenedioxy-Cinnamyloxybenzene as a Mosquito Larvicide; filed 5 March 1975; patented 17 February 1976; not available NTIS.

Patent 3,944,415: Removing Heavy Metal Ions from Water; filed 5 March 1975; patented 16 March 1976; not available NTIS.

Patent 3,946,047: Alkylcinnamylphenols as Mosquito Larvicides; filed 27 February 1975; patented 23 March 1976; not available NTIS.

Patent 3,949,093: Process for Improving Quality of Protein-Fortified Baked Goods; filed 2 April 1973; patented 6 April 1976; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, MD 20014.

Patent application 666,647: Purification of Enkephalin, an Endogenous Composition in the Human Body and Synthesis of Same; filed 15 March 1976; PC $3.50/MF $2.25.

Patent 3,914,424; Method for Treating P-388 or L-1210 Leukemia Strains; filed 22 February 1974; patented 21 October 1975; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets, NW., Washington, D.C. 20240.

Patent application 661,465: Electric-Optic Measurement of Voltage on High-Voltage Power Lines; filed 26 February 1976; PC $4.00/ME $2.25.

Patent 3,929,947: Process for Manufacturing Wallboard and the Like; filed 8 August 1974; patented 30 December 1975; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent application 643,713: Smoke Marker; filed 23 December 1975; PC $3.50/MF $2.25.

Patent application 647,524: Baffled Combustion Chamber; filed 8 January 1976; PC $3.50/MF $2.25.

Patent application 648,239: Ducted Rockets; filed 12 January 1976; PC $3.50/MF $2.25.

Patent 3,898,448: Spiral Scan Generator; filed 26 September 1973; patented 5 August 1975; not available NTIS.

Patent 3,906,861: Fuze Sterilization System; filed 21 January 1974; patented 23 September 1975; not available NTIS.

Patent 3,923,830: 2,5-Dipicryl Thiophenes; filed 4 October 1972; patented 2 December 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, D.C. 20546.

Patent application 651,007: Optical Conversion Method; filed 21 January 1976; PC $3.50/MF $2.25.

Patent application: 652,948: Liquid-Cooled Brassiere; filed 27 January 1976; PC $3.50/MF $2.25.

Patent Application 657,995: A Device for Tensioning Test Specimen's within an Hermetically Sealed Chamber: filed 13 February 1976; PC $3.50/MF $2.25.

Patent application 657,996: Two-Dimensional Radiant Energy Array Computers and Computing Devices; filed 13 February 1976; PC $5.00/MF $2.25.

Patent application 657,997: Two-Dimensional Radiant Energy Array Computers and Computing Devices; filed 13 February 1976; PC $4.50/MF $2.25.

Patent application 658,133: Acoustic Energy Shaping; filed 13 February 1976; PC $3.50/MF $2.25.

Patent application 658,449: Multiple Rate Digital Command Detection System with Range Clean-Up Capability; filed 17 February 1976; PC $4.00/MF $2.25.

Patent application 659,882: Method of Forming Metal Hydride Films; filed 20 February 1976; PC $3.50/$2.25.

Patent application 662,175: Apparatus for Determining Thermophysical Properties of Test Specimens; filed 27 February 1976; PC $3.50/MF $2.25.

Patent application 662,176: Method of Locating Persons in Distress; filed 27 February 1976; PC $3.50/$2.25.

Patent 3,806,834: Stark-Effect Modulation of C02 Laser with NH2D; patented 23 April 1974; not available NTIS.

Patent 3,829,839: Priority Interrupt System; patented 13 August 1974; not available NTIS.

Patent 3,860,393: Automated System for Identifying Traces of Organic Chemical Compounds in Aqueous Solutions; patented 14 January 1975; not available NTIS.

Patent 3,894,887: Hydrogen-Bromine Secondary Battery; patented 15 July 1975; not available NTIS.

Patent 3,912,999: Zinc-Halide Battery with Molten Electrolyte; patented 14 October 1975; not available NTIS.

Patent 3,920,416: Hydrogen-Rich Gas Generator; patented 18 November 1975; not available NTIS.

Patent 3,929,305: Heat Exchanger System and Method; patented 30 December 1975; not available NTIS.

Patent 3,931,462: Stack Plume Visualization System; patented 6 January 1976; not available NTIS.

Patent 3,937,055: Method of Peening and Portable Peening Gun; patented 10 February 1976; not available NTIS.

Patent 3,937,387: Method of Fluxless Brazing and Diffusion Bonding of Aluminum Containing Components; patented 10 February 1976; not available NTIS.

Patent 3,937,555: Holographic Motion Picture Camera with Doppler Shift Compensation; Patented 10 February 1976; not available NTIS.

Patent 3,937,945: Apparatus for Simulating Optical Transmission Links; patented 10 February 1976; not available NTIS.

Patent 3,938,037: Device for Measuring the Ferrite Content in the Austenitic Stainless-Steel Weld; patented 10 February 1976; not available NTIS.

Patent 3,938,182: Automatic Character Skew and Spacing Checking Network; patented 10 February 1976; not available NTIS.

Patent 3,938,188: Analog to Digital Converter; patented 10 February 1976; not available NTIS.

Patent 3,938,367: Sampler of Gas Borne Particles; patented 17 February 1976; not available NTIS.

Patent 3,938,373: Method and Apparatus for Tensile Testing of Metal Foil; patented 17 February 1976; not available NTIS.

Patent 3,938,956: Modulated Hydrogen Ion Flame Detector; patented 17 February 1976; not available NTIS.

Patent 3,939,048: Process for Making Anhydrous Metal Halides; patented 17 February 1976; not available NTIS.

Patent 3,939,439: Diffused Waveguiding Capillary Tube with Distributed Feedback for a Gas Laser; patented 17 February 1976; not available NTIS.

Patent 3,940,621: Heat Transfer Device; patented 24 February 1976; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for U.S. and possibly foreign licensing, in accordance with the policies of the agency sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications, either paper copy (PC) or microfiche (MF), can be purchased at the prices cited from the National Technical Information Service (NTIS), Springfield, Virginia 22161. Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator.

U.S. DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, D.C. 20314

Patent appliction 442,295: Recirculation or Stirred Reactor Flow Laser; filed 13 February 1974; PC$3.50/MF$2.25.

Patent application 598,617: RF Power Amplifier Parallel Redundant System; filed 12 November 1975; PC$3.50/MF$2.25.

Patent application 638,211: Preparation of Films and Coatings of Para Ordered Aromatic Meterocyclic Polymers; filed 5 December 1975; PC$3.50/MF$2.25.

Patent application 642,521: Programmable Variable Length High Speed Digital Delay Line; filed 19 December 1975; PC$3.50/MF$2.25.

Patent application 642,524: Electrode Assembly for Bipolar Battery; filed 19 December 1975; PC$3.50/MF$2.25.

Patent applictaion 645,154: Low Flow, Vacuum Bag Curable Prepreg Material for High Performance Composite Systems; filed 30 December 1975; PC$3.50/MF$2.25.

Patent application 647,526: Rapcon-Control Tower Coordination System; filed 8 January 1976; PC$4.00/MF$2.25.

Patent application 647,527: Lighting System for Selective Back Lighting; filed 8 January 1976; PC$3.50/MF$2.25.

Patent application 647,529: Universal Self-Aligning Locator; filed 8 January 1976; PC $3.50/MF$2.25.

Patent application 649,104: High Temperature Thermally Stable Greases; filed 14 January 1976; PC$3.50/MF$2.25.

Patent application 649,105: Silicone Fluids as a Corrosion Inhibitor for Perfluorinated Polyether Fluids; filed 14 January 1976; PC$3.50/MF$2.25.

Patent application 649,106: Real Time Data Rate Quantizer and Analog-to-Digital Converter System; filed 14 January 1976; PC $4.00/MF$2.25.

Patent applictaion 649,107: Fast Acting Waveguide Coupler; filed 14 January 1976; PC$3.50/MF$2.25.

Patent application 649,760: Method for Providing Glass Substrates with a Solderable Coating; filed 16 January 1976; PC$3.50/MF$2.25.

Patent application 649,762: Method of Coating Titanium; filed 16 January 1976; PC $3.50/MF$2.25.

Patent applictaion 649,763: Method for Fabricating a Gridded Schottky Barrier Field Effect Transistor; filed 16 January 1976; PC$3.50/MF$2.25.

Patent application 649,764: Fluid Dual Filter; filed 16 January 1976; PC$3.50/MF $2.25.

Patent application 650,384: Binary Adder with Fast Ripple Carry; filed 19 January 1976; PC$3.50/MF$2.25.

Patent application 650,590: Optical Window Protective Shutter Mechanism; filed 20 January 1976; PC$4.00/MF$2.25.

Patent application 650,591: Supersonic Diffuser; filed 20 January 1976; PC$3.50/MF $2.25.

Patent application 650,840: Apparatus for Producing Efficient Second Harmonic Generation and Frequency Mixing; filed 21 January 1976; PC$3.50/MF$2.25.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Management Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, MD 20782.

Patent application 484,195: Process for Separation DOPA from Tyrosine; filed 28 June 1974; PC$3.50/MF$2.25.

Patent application 592,682: Synthetic Hormones for Insect Control; filed 2 July 1975; PC$4.00/MF$2.25.

Patent application 592,698: Synthetic Hormones for Insect Control; filed 7 July 1975; PC$4.00/MF$2.25.

Patent application 604,854: Repellants for the Confused Flour Beetle; filed 14 August 1975; PC$3.50/MF$2.25.

Patent application 604,859: Preparation of Icings; filed 14 August 1975; PC$3.50/MF $2.25.

Patent application 618,921: Friction Separator; filed 2 October 1975; PC$3.50/MF$2.25.

Patent application 625,721: System for Treating Particulate Material with Gaseous Media; filed 24 October 1975; PC$3.50/MF$2.25.

Patent application 631,259: Control of Nematodes and Other Helminths; filed 12 November 1975; PC$3.50/MF$2.25.

Patent application 657,911 Process for Rapid Dyeing of Textiles; filed 10 February 1976; PC$3.50/MF$2.25.

Patent application 667,056: Control of Marine Borer Attack on Wood; filed 15 March 1976; PC$3.50/MF$2.25.

Patent application 668,102: Hormonal Control of Insects; filed 18 March 1976; PC $3.50/MF$2.25.

Patent 3,562,539: Apparatus for Scanning Thin-Layer and Other Chromatograms; filed 28 August 1968, patented 9 February 1971; not available NTIS.

Patent 3,652,612: Process for the Preparation of Dianions and of Alpha-Substituted Carboxylic Acids and Their Decarboxylated Derivatives; filed 27 August 1969, patented 28 March 1972; not available NTIS.

Patent 3,701,609: Apparatus for Automatically Adding Preselected Patterns of Eluent Solutions to a Chromatographic Column and Monitoring and Collecting Eluted Fractions; filed 13 May 1971, patented 31 October 1972; not available NTIS.

V 41 151 AUG 4 76 UMI

Patent 3,702,358: Cis-1-Hexadecen-1-01 Acetate as an Attractant for Adult Male Pink Bollworm Moths; filed 2 December 1970, patented 7 November 1972; not available NTIS.

Patent 3,716,371: Separator for Negatively Phototactic Housefly Larvae from Chicken Hen Excreta, filed 8 February 1971, patented 13 February 1973; not available NTIS.

Patent 3,743,719: Mixtures of Cyclohexanealkanoic Acids, Their Esters and Eugenol as Attractants for the Japanese Beetle; filed 18 November 1970, patented 3 July 1973; not available NTIS.

Patent 3,746,767: Mothproofing Wool; filed 7 January 1971, patented 17 July 1973; not available NTIS.

Patent 3,765,424: Cured Tobacco Leaf Stripper; filed 23 June 1972, patented 16 October 1973; not available NTIS.

Patent 3,823,127: Nutritional Iron-Protein Complexes from Waste Effluents; filed 7 June 1972, patented 9 July 1974; not available NTIS.

Patent 3,835,051: Cyancethoxylated Fatty Acid Metal Soap Thickened Greases; filed 24 August 1973, patented 10 September 1974; not available NTIS.

Patent 3,836,468: Greases Thickened with Keto Fatty Acid Lithium Soaps or Keto Cyanoethylated Fatty Acid Lithum Soaps; filed 24 August 1973, patented 17 September 1974; not available NTIS.

Patent 3,880,830: Process for Acylating Functional Groups Bearing Active Hydrogen with Isopropenyl Esters of Long-Chain Fatty Acids; filed 21 September 1972, patented 29 April 1975; not available NTIS.

Patent 3,894,839: Process for Acylating Functional Groups Bearing Active Hydrogen with Isopropenyl Esters of Long Chain Fatty Acids; filed 24 January 1974, patented 15 July 1975; not available NTIS.

Patent 3, 904,763: Synthetic Terpenoid Compounds for Insect Control; filed 23 April 1974, patented 9 September 1975; not available NTIS.

Patent 3,908,016: Synthetic Hormones for Insect Control; filed 22 August 1974, patented 23 September 1975; not available NTIS.

Patent 3,912,772: Process for the Preparation of Alpha-Alkyl Hydracrylic Acids and Alpha-Alkyl Acrylic Acids; filed 18 October 1971; patented 14 October 1975; not available NTIS.

Patent 3,912,810: Attractants for Yellow Jackets (Vespula SPP.: Vespidae), filed 19 October 1973, patented 14 October 1975; not available NTIS.

Patent 3,914,260: Arthropod Maturation Inhibitors; filed 6 April 1973; patented 21 October 1975: not available NTIS.

Patent 3,914,429: Certain Epoxy Compounds for Insect Control; filed 22 August 1974; patented 21 October 1975; not available NTIS.

Patent 3,920,388: Composition for Preventing Deterioration of Hides from Freshly Slaughtered Animals: filed 23 April 1974, patented 18 November 1975; not available NTIS.

Patent 3,928,619: Certain Terpenoid Compounds for Insect Control; filed 26 November 1974, patented 23 December 1975; not available NTIS.

Patent 3,946,116: Preformed Potato Products, filed 13 September 1972, patented 23 March 1976; not available NTIS.

Patent 3,949,099: Method for Pasteurizing a Liquid; filed 11 June 1974, patented 6 April 1976; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, MD 20014.

Patent application 665,878: Method and Apparatus for Low Temperature Ashing Using Radio Frequency Excited Gas Plasma; filed 3 November 1976; PC $3.50/MF $2.25.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent application 583,086: Discrete Fourier Transform Via Cross Correlation Charge Transfer Device; filed 2 June 1975; PC $3.50/MF$2.25.

Patent application 604,699: Method and Apparatus for Reducing Smoke at Launch of High Performance Rockets; filed 14 August 1975; PC$3.50/MF$2.25.

Patent application 609,267: Air Dropped Sonobuoy; filed 2 September 1975; PC$3.50/MF$2.25.

Patent application 612,111: Modified Circuit Card Extender; file 10 September 1975; PC$3.50/MF$2.25.

Patent application 624,134: Method of Fabrication of Chromium-Silicon Oxide Thin Film Resistors; filed 20 October 1975; PC $3.50/MF$2.25.

Patent application 637,562: High Atomic Weight Isotope Separator; filed 4 December 1975; PC$3.50/MF$2.25.

Patent application 641,849: Aircraft Steering and Braking System; filed 17 February 1976; PC$3.50/MF$2.25.

Patent application 643,899: Multifilament Superconductors; filed 23 December 1975; PC$3.50/MF$2.25.

Patent application 644,471: Filtered Transition Distortion Channel Quality Monitor; filed 29 December 1975; PC$3.50/MF$2.25.

Patent application 647,038: Processes for the Preparation of Bis-Benzoins and Bis-Benzils; filed 7 January 1976; PC$3.50/MF $2.25.

Patent application 648,334: Separable Link Connector; filed 12 January 1975; PC$3.50/MF$2.25.

Patent application 649,441: Removal of Explosive Materials From Water by Chemical Interaction on Strongly Basic Ion Exchange Resins; filed 15 January 1976; PC$3.50/MF $2.25.

Patent application 652,037: Wide Aperture Optical Communications Detector; filed 26 January 1976; PC$3.50/MF$2.25.

Patent application 652,251: Radiation Focus Meter; filed 26 January 1976; PC$3.50/MF $2.25.

Patent application 652,253: Single Mode Laser Multiterminal Optical Data Communication System; filed 26 January 1976; PC $3.50/MF$2.25.

Patent application 653,880: Pulsed Plasma Probe; filed 30 January 1976; PC$4.00/MF $2.25.

Patent application 654,150: Digitizer; filed 2 February 1976; PC$3.50/MF$2.25.

Patent application 654,315: Inflatable Stabilizer/Retarder; filed 2 February 1976; PC$3.50/MF$2.25.

Patent application 654,824: A Simulated Raman Scattering Resonator; filed 3 February 1976; PC$3.50/MF$2.25.

Patent application 659,058: Method for Holographic Storage; filed 18 February 1976; PC$3.50/MF$2.25.

Patent application 660,585: Peak Detecting Demodulator; filed 23 February 1976; PC $3.50/MF$2.25.

Patent application 660,586: An Electronically Controlled Digital Laser; filed 23 February 1976; PC$3.50/MF$2.25.

Patent application 661,916: A Multiple Dumping Integrator: filed 27 February 1976; PC$3.50/MF$2.25.

Patent application 662,794: Digital Correlator; filed 1 March 1976; PC $3.50/MF $2.25.

Patent 3,919,841: Rocket Motor Apparatus; filed 5 July 1974; patented 18 November 1975; not available NTIS.

Patent 3,919,939: Method and Means for Flash Suppression; filed 1 November 1974; patented 16 November 1975; not available NTIS.

Patent 3,920,494: Propellant Pressure Burning Rate Slope Modification; filed 25 September 1972; patented 18 November 1975; not available NTIS.

Patent 3,921,175: Method of Monopulse Angle Gating for Computer; filed 20 February 1968; patented 18 November 1975; not available NTIS.

Patent 3,922,554: Sensitized Video Phosphor Motion Perception Display; filed 28 May 1974; patented 25 November 1975; not available NTIS.

Patent 3,923,804: Nitro-Pyrimidines; filed 4 October 1972; patented 2 December 1975; not available NTIS.

Patent 3,925,125: Moisture Replacement in Pelletized Nitrocellulose; filed 6 December 1973; patented 9 December 1975; not available NTIS.

Patent 3,926,056: Conductivity, Temperature and Pressure Measuring System; filed 26 September 1974; patented 16 December 1975; not available NTIS.

Patent 3,927,323: Video Phosphor Motion Perception Display; filed 20 September 1973; patented 16 December 1975; not available NTIS.

Patent 3,928,818: Method of Reducing Light Leakage in Lasers; filed 17 October 1974; patented 23 December 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, D.C. 20546.

Patent application 487,156: Hydrogen-Rich Gas Generator; filed 10 July 1974; PC $4.00/MF $2.25.

Patent application 657,903: Noise Suppressor for Turbo Fan Jet Engines; filed 13 February 1976; PC $3.50/MF $2.25.

Patent application 658,132: Solar Photolysis of Water; filed 13 February 1976; PC $3.50/MF $2.25.

Patent 3,906,913: System for Minimizing Internal Combustion Engine Pollution Emission; patented 23 September 1975; not available NTIS.

Patent 3,937,533: Axially and Radially Controllable Magnetic Bearing; patented 10 February 1976; not available NTIS.

Patent 3,937,661: Method and Apparatus for Fluffing, Separating, and Cleaning Fibers; patented 10 February 1976; not available NTIS.

Patent 3,938,162: Variable Beamwidth Antenna; patented 10 February 1976; not available NTIS.

Patent 3,938,742: Cascade Plug Nozzle; patented 17 February 1976; not available NTIS.

Patent 3,940,097: Exhaust Flow Deflector; patented 24 February 1976; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for U.S. and possibly foreign licensing, in accordance with the policies of the agency sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications, either paper copy (PC) or microfiche (MF), can be purchased at the prices cited from the National Technical Information Service (NTIS), Springfield, Virginia 22161. Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator.

U.S. DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, D.C. 20314.

Patent application 652,955: Air Mixing Ejector and Jet Pump System; filed 28 January 1976; PC$3.50/MF$2.25.

Patent application 652,957: Vector Voltmeter; filed 28 January 1976; PC$3.50/MF$2.25.

Patent application 653,056: Pressurized Chaff Canister; filed 28 January 1976; PS$3.50/MF$2.25.

Patent application 655,029: Antenna Window Assembly for Ablative Heat Shields; filed 3 February 1976; PC$3.50/MF$2.25.

Patent 3,936,732: Traveling Wave Tube Body Current Sensor; filed 31 December 1974; patented 3 February 1976; not available NTIS.

Patent 3,936,759: Offset Reduction Apparatus for Analog Circuits; filed 17 April 1974; patented 10 February 1976; not available NTIS.

Patent 3,937,079: Calorimeter for an Unstable Laser Resonator; filed 11 December 1974; patented 10 Febrary 1976; not available NTIS.

Patent 3,938,160: Phased Array Antenna with Array Elements Coupled to Form a Multiplicity of Overlapped Sub-Arrays; filed 7 August 1974; patented 10 February 1976; not available NTIS.

Patent 3,941,335: Automatic Boundary Layer Control in an Ejector Wing Aircraft; filed 19 June 1975; patented 2 March 1976; not available NTIS.

Patent 3,942,136: Short Depth Hardened Waveguide Launcher Assembly Element; filed 4 February 1974; patented 2 March 1976; not available NTIS.

Patent 3,942,140: Method and Means for Coupling a Multiplicity of Surface Acoustic Wave Transducers to a Single Electromagnetic Wave Transmission Line; filed 8 November 1974; patented 2 March 1976; not available NTIS.

Patent 3,942,258: Earth Reference Thin-Film Magnetometer Compass Exhibiting Total Tilt Immunity; filed 21 August 1974; patented 9 March 1976; not available NTIS.

Patent 3,942,320: Solid Boron Fuel Burner for Ramjet; filed 4 October 1974; patented 9 March 1976; not available NTIS.

Patent 3,942,879: Mirror Steering System; filed 19 March 1975; patented 9 March 1976; not available NTIS.

Patent 3,942,894: Self Referencing Retransmitting Alignment Sensor for a Collimated Light Beam; filed 20 November 1974; patented 9 March 1976; not available NTIS.

Patent 3,947,297: Treatment of Aluminum Alloys; filed 18 April 1973; patented 30 March 1976; not available NTIS.

Patent 3,947,687: Collimated X-Ray Source for X-Ray Lithographic System; filed 23 October 1974; patented 30 March 1976; not available NTIS.

Patent 3,947,700: Phase Stable Variable Phase Slope Limiter; filed 29 August 1974; patented 30 March 1976; not available NTIS.

U.S. DEPARTMENT OF AGRICULTURE, RESEARCH AGREEMENTS AND PATENT MANAGEMENT BRANCH, AGRICULTURAL RESEARCH SERVICE, HYATTSVILLE, MD 20782.

Patent application 408,037: Flame Resistant Wool; filed 19 October 1973; PC$3.50/MF $2.25.

Patent application 671,752. Micro Mixing Apparatus and Method; filed 30 March 1976; PC$3.50/MF$2.25.

Patent 3,666,781: Process for the Preparation of Isopropenyl Stearate; filed 7 May 1969; patented 30 May 1972; not available NTIS.

Patent 3,843,320: Graft Polymerization of Vinyl Monomers onto Chrome-Tanned Hides and Skins; filed 31 May 1972; patented 22 October 1974; not available NTIS.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, ASSISTANT GENERAL COUNSEL FOR PATENTS, WASHINGTON, D.C. 20545.

Patent 3,892,625: Radial Blanket Assembly Orificing Arrangement; filed 12 October 1973; patented 1 July 1975; not available NTIS.

Patent 3,894,086: Nitrodifluoraminoterphenyl Compounds and Processes; filed 26 April 1972; patented 8 July 1975; not available NTIS.

Patent 3,894,912: Determination of Parameters of a Nuclear Reactor Through Noise Measurements; filed 21 December 1973; patented 15 July 1975; not available NTIS.

Patent 3,895,243: Method and Means of Generating Power from Fossil Fuels with a Combined Plasma and Liquid Metal MHD Cycle; filed 12 March 1974; patented 15 July 1975; not available NTIS.

Patent 3,896,042: Low Temperature, Low Pressure Hydrogen Gettering; filed 15 February 1974; patented 22 July 1975; not available NTIS.

Patent 3,896,306: Fast-Neutron Solid-State Dosimeter; filed 20 June 1974; patented 22 July 1975; not available NTIS.

Patent 3,898,431: Tubular Electric Heater with a Thermocouple Assembly; filed 29 January 1974; patented 5 August 1975; not available NTIS.

Patent 3,899,296: Whole Blood Analysis Rotor for a Multistation Dynamic Photometer; filed 17 July 1974; patented 12 August 1975; not available NTIS.

Patent 3,900,034: Photochemical Stimulation of Nerves; filed 10 April 1974; patented 19 August 1975; not available NTIS.

Patent 3,904,500: Hydrogen Isotope Separation from Water; filed 17 December 1973; patented 9 September 1975; not available NTIS.

Patent 3,905,634: Quick Release Latch for Reactor Scram; filed 4 June 1974; patented 16 September 1975; not available NTIS.

Patent 3,907,513: Controlled Porosity Filter and Uniform Structure Composites; filed 30 May 74, patented 23 September 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2 ,Washington, D.C. 20546.

Patent application 653,422: A Mount for Continuously Orienting a Collector Dish in a System Adapted to Perform Both Diurnal and Seasonal Solar Tracking; filed 29 January 1976; PC$3.50/MF$2.25.

Patent application 662,182: Magnetic Suspension and Pointing System; filed 27 February 1976; PC$3.50/MF$2.25.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for U.S. and possibly foreign licensing, in accordance with the policies of the agency sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C 20231, for $.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications, either paper copy (PC) or microfiche (MF), can be purchased at the prices cited from the National Technical Information Service (NTIS), Springfield, Virginia 22161. Requests for copies of patent applications must include the PAT–APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator
U.S. DEPARTMENT OF THE AIR FORCE, AF JACP,
WASHINGTON, D.C. 20314

Patent application 652,029: Gaseous Infrared Waveguide Mixer; filed 26 January 1976, PC $3.50/MF $2.25.

Patent application 652,954: Electrochemical Cell Having Balanced Distribution of Oxygen and Electrolyte; filed 28 January 1976; PC $3.50/MF $2.25.

Patent application 652,956: Coaxial Optical System; filed 28 January 1976; PC $3.50/MF $2.25.

Patent application 652,958: Fluted Nose Cap Apparatus; filed 28 January 1976; PC $3.50/MF $2.25.

Patent application 653,055: Three Stage Thrusting Device; filed 28 January 1976; PC $3.50/MF $2.25.

Patent application 655,031: Precision Amplitude Control System for a High QU Torsion Pendulum; filed 3 February 1976; PC $3.50/MF $2.25.

Patent 3,936,230: Self-Supported, Self-Locating Seal for Turbine Engines; filed 9 May 1974; patented 3 February 1976 not available NTIS.

Patent 3,937,079: Calorimeter for an Unstable Laser Resonator; filed 11 December 1974; patented 10 February 1976; not available NTIS.

Patent 3,937,936: Equipment Self-Repair by Adaptive Multifunction Modules; filed 14 April 1975; patented 10 February 1976; not available NTIS.

Patent 3,938,889: Method and Apparatus for Measuring Linear Thermal Expansion of Polymeric Material; filed 4 June 1974; patented 17 February 1976; not available NTIS.

V 41 151 AUG 4 76 UMI

Patent 3,942,175: Multipurpose Keyboard System; filed 27 March 1975; patented 2 March 1976; not available NTIS.

Patent 3,942,320: Solid Boron Fuel Burner for Ramjet; filed 4 October 1974; patented 9 March 1976; not available NTIS.

Patent 3,942,894: Self Referencing Retransmitting Alignment Sensor for a Collimated Light Beam; filed 20 November 1974; patented 9 March 1976; not available NTIS.

Patent 3,944,575: Aryl Ether Compounds and Their Synthesis; filed 30 May 1974; patented 16 March 1976; not available NTIS.

Patent 3,944,614: 2,2'-Bis(Phenylethynl-5,5'-Diaminobenzidine; filed 22 November 1974; patented 16 March 1976; not available NTIS.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Management Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, Md. 20782.

Patent application 527,319: Method and Compounds for Disrupting Normal Insect Maturation; filed 26 November 1974; PC $3.50/MF $2.25.

Patent 3,430,643: Self-Cleaning Venting Orifice; filed 19 March 1968; patented 4 March 1969; not available NTIS.

Patent 3,931,701: Automatic Produce-Bagging Machine That Uses Factory-Roll Polyethylene Net Tubing; filed 28 March 1975; patented 13 January 1976; not available NTIS.

Patent 3,934,033: Method for Disrupting Normal Insect Maturation; filed 26 November 1974; patented 20 January 1976; not available NTIS.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent 3,892,529: Rapid Digestion Process for Determination of Trichinellae in Meat; filed 1 April 1974; patented 1 July 1975; not available NTIS.

Patent 3,898,496: Means for Obtaining a Metal Ion Beam from a Heavy-Ion Cyclotron Source; filed 12 August 1974; patented 5 August 1975; not available NTIS.

Patent 3,907,477: Apparatus for Producing Laser Targets; filed 26 February 1974; patented 23 September 1975; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, Md. 20014.

Patent 3,948,745: Enzyme Electrode; filed 11 June 1973; patented 6 April 1976; not available NTIS.

Patent 3,950,236: Production of Angular Alkylated Polycyclides by Electrochemical Annealation; filed 24 July 1974; patented 13 April 1976; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets NW., Washington, D.C. 20240.

Patent 3,950,969: Adhesive Guard Hair Removal; filed 4 December 1967; patented 20 April 1976; not available NTIS.

Patent 3,954,428: Precision Aerosol Divider; filed 28 July 1975; patented 4 May 1976; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, ASSISTANT CHIEF FOR PATENTS, OFFICE OF NAVAL RESEARCH, CODE 302, ARLINGTON, VA. 22217.

Patent 3,867,661: Quick Warm-Up Lamp; Filed 19 October 1973; patented 18 February 1975; not available NTIS.

Patent 3,872, 672: Ammonia Driven Underwater Motor; filed 18 October 1973; patented 25 March 1975; not available NTIS.

Patent 3,888,089: Vapor Pressure Regulator; filed 11 February 1974; patented 10 June 1975; not available NTIS.

Patent 3,896,767: Apparatus Selectively Responsive to Bilevel Bipolar Pulses; filed 5 May 1964; patented 29 July 1975; not available NTIS.

Patent 3,903,798: Method and Means of Generating Gravity Waves; filed 6 December 1967; patented 9 September 1975; not available NTIS.

Patent 3,903,988: Rocket Noise Generator; filed 11 October 1968; patented 9 September 1975; not available NTIS.

Patent 3,905,008: Sequential Sampling Telemetric Apparatus; filed 23 March 1960; patented 9 September 1975; not available NTIS.

Patent 3,922,673: IFF Interrogator Identification System; filed 31 May 1974; patented 25 November 1975; not available NTIS.

Patent 3,927,388: Divers Navigation Display; filed 30 September 1974; patented 16 December 1975; not available NTIS.

Patent 3,930,448: Rocket-Deployed Balloon for Position Marker; filed 7 August 1974; patented 6 January 1976; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for U.S. and possibly foreign licensing, in accordance with the policies of the agency sponsors.

Copies of the patents cited are available from the Commissioner of Patents and Trademarks, Washington, D.C. 20231, for $0.50 each. Requests for copies of patents must include the patent number.

Copies of the patent applications, either paper copy (PC) or microfiche (MF), can be purchased at the prices cited from the National Technical Information Service (NTIS), Springfield, Virginia 22161. Requests for copies of patent applications must include the PAT-APPL number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent and Trademark Office. Claims and other technical data will usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information on a particular invention should be directed to the address cited for the agency-sponsor.

DOUGLAS J. CAMPION,
Patent Program Coordinator.

U.S. DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, DC 20314.

Patent application 587,489: Variable Effectiveness Stabilizing/Controlling Surface; filed 16 June 1975; PC $3.50/MF $2.25.

Patent application 610,466: Sampling Valve for Gas Chromatography; filed 4 September 1975; PC $3.50/MF $2.25.

Patent application 614,273: An Interface System for a Computer Terminal and Random Access Slide Projector; filed 17 September 1975; PC $3.50/$2.25.

Patent 3,937,079: Calorimeter for an Unstable Laser Resonator; filed 11 December 1974; patented 10 February 1976; not available NTIS.

Patent 3,942,320: Solid Boron Fuel Burner for Ramjet; filed 4 October 1974; patented 9 March 1976; not available NTIS.

Patent 3,942,894: Self Referencing Retransmitting Alignment Sensor for a Collimated Light Beam; filed 20 November 1974; patented 9 March 1976; not available NTIS.

Patent 3,947,776: Inductive Load Driver with Fast Switching Capability; filed 22 October 1974; patented 30 March 1976; not available NTIS.

U.S. DEPARTMENT OF AGRICULTURE, Research Agreements and Patent Mgmt. Branch, General Services Division, Federal Bldg., Agricultural Research Service, Hyattsville, MD 20782.

Patent application 592,688: Synthetic Hormones for Insect Control; filed 2 July 1975; PC $4.00/MF $2.25.

Patent application 676,949: Improved Chromogenic Substrate for Determination of Amylase Activity; filed 14 April 1976; PC $3.50/MF $2.25.

Patent 3,920,542: Removal of Green Boils and Heavy Materials from Seed Cotton by Air Jets; filed 4 June 1974; patented 18 November 1975; not available NTIS.

Patent 3,925,849: Fluid Impact Gin; filed 19 November 1974; patented 16 December 1975; not available NTIS.

Patent 3,926,371: Apparatus and System for Mixing Pesticide with Water Concurrently with Spraying; filed 17 September 1974; patented 16 December 1975; not available NTIS.

Patent 3,950,129: Flame-Resistant Wool; filed 19 October 1973; patented 13 April 1976; not available NTIS.

Patent 3,950,556: Process for Peeling Fruits and Vegetables; filed 24 January 1974; patented 13 April 1976; not available NTIS.

Patent 3,951,820: Mixture of Cinnamylphenols and Normally Spoilable Substance; filed 21 February 1973; patented 20 April 1976; not available NTIS.

U.S. ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, DC 20545.

Patent 3,892,970: Relativistic Electron Beam Device; filed 11 June 1974; patented 1 July 1975; not available NTIS.

Patent 3,899,681: Electron Beam Device; filed 1 April 1974; patented 12 August 1975; not available NTIS.

Patent 3,901,409: Apparatus for Blending Small Particles; filed 23 July 1974; patented 26 August 1975; not available NTIS.

Patent 3,901,658: Whole Blood Analysis Rotor Assembly Having Removable Cellular Sedimentation Bowl; filed 30 July 1974; patented 26 August 1975; not available NTIS.

Patent 3,902,369: Measurement of the Differential Pressure of Liquid Metals; filed 2 May 1974; patented 2 September 1975; not available NTIS.

Patent 3,907,589: Cathode for a Secondary Electrochemical Cell; filed 18 January 1974; patented 23 September 1975; not available NTIS.

Patent 3,908,123: Extraction Electrode Geometry for a Calutron; filed 16 April 1974; patented 23 September 1975; not available NTIS.

Patent 3,908,124: Phase Contrast in High Resolution Electron Microscopy; filed 1 July 1974; patented 23 September 1975; not available NTIS.

Patent 3,909,617: Radioisotopic Heat Source; filed 30 May 1974; patented 30 September 1975; not available NTIS.

U.S. Department of the Interior, Branch of Patents, 18th and C Streets, NW., Washington, D.C. 20240.

Patent application 495,758: A Method for Casting and Handling Ultra-Thin Reverse Osmosis Membranes; filed 8 August 1974; PC $3.50/MF $2.25.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent 3,893,148: Layered Superlattic Switching and Negative Resistance Devices; filed 25 February 1974; patented 1 July 1975; not available NTIS.

Patent 3,893,201: Multi-Buoyancy Buoy; filed 25 January 1974; patented 8 July 1975; not available NTIS.

Patent 3,895,595: Paired Cable Drag Reduction with Non-Newtonian Fluids; filed 11 February 1974; patented 22 July 1975; not available NTIS.

Patent 3,896,792: Real-Time Cyclic Pulmonary Function Test System; filed 15 May 1974; patented 29 July 1975; not available NTIS.

Patent 3,905,007: Equipment for Locating and Plotting the Position of Underwater Towed Vehicles; filed 27 March 1962; patented 9 September 1975; not available NTIS.

Patent 3,906,884: Acoustic Minesweeping Generator; filed 4 March 1974; patented 23 September 1975; not available NTIS.

Patent 3,913,102: Bistable Frequency Fuze System for VT Fuze; filed 21 June 1963; patented 14 October 1975; not available NTIS.

Patent 3,913,103: Device for Range Cut-Off by Frequency Selection in Multiple Modulation Fuzes; filed 27 January 1959; patented 14 October 1975; not available NTIS.

Patent 3,914,731: Acoustic Wavefront Processor; filed 3 July 1974; patented 21 October 1975; not available NTIS.

Patent 3,916,697: Accelerometer Tilt Error Compensator; filed 15 October 1974; patented 4 November 1975; not available NTIS.

Patent 3,918,059: Chaff Discrimination System; filed 6 March 1959; patented 4 November 1975; not available NTIS.

Patent 3,918,113: Surface Tracker for an Underwater Vehicle; filed 24 January 1975; patented 11 November 1975; not available NTIS.

Patent 3,921,122: Track Generator; filed 9 July 1973; patented 18 November 1975; not available NTIS.

Patented 3,921,945: Train Resonant-Car-Body Rocking Detector System; filed 25 July 1974; patented 25 November 1975; not available NTIS.

Patent 3,922,691: Polarization Rotation Technique for Use with Two Dimensional Tem Mode Lenses; filed 18 October 1974; patented 25 November 1975; not available NTIS.

Patent 3,922,812: Porpoise Stranding Device; filed 3 February 1975; patented 2 December 1975; not available NTIS.

Patent 3,923,118: Acoustic Baffle for Deep Submergence; filed 19 June 1972; patented 2 December 1975; not available NTIS.

Patent 3,924,125: Activated Aluminum Tracer Tag; filed 20 June 1974; patented 2 December 1975; not available NTIS.

Patent 3,924,953: Helix Pitch Monitor; filed 18 December 1974; patented 9 December 1975; not available NTIS.

Patent 3,925,088: Thermally Sensitive Ink; filed 20 July 1973; patented 9 December 1975; not available NTIS.

Patent 3,926,137: Deep Ocean Parachute Release; filed 3 March 1975; patented 16 December 1975; not available NTIS.

Patent 3,926,367: Complex Filters, Convolvers, and Multipliers; filed 27 September 1974; patented 16 December 1975; not available NTIS.

Patent 3,930,255: Analog to Digital Conversion by Charge Transfer Device; filed 6 February 1974; patented 30 December 1975; not available NTIS.

Patent 3,930,718: Electro-Optic Modulator; filed 12 April 1974; patented 6 January 1976; not available NTIS.

Patent 3,931,395: Process for Generating Hydrogen Gas; filed 28 June 1974; patented 6 January 1976; not available NTIS.

Patent 3,932,823: Microstrip to Waveguide Adapter; filed 23 April 1975; patented 13 January 1976; not available NTIS.

Patent 3,932,835: Towable VLF Sonar Projector; filed 25 September 1974; patented 13 January 1976; not available NTIS.

Patent 3,932,872: Core Design for Flexible H-Sensor for ELF; filed 23 December 1974; patented 13 January 1976; not available NTIS.

Patent 3,932,928: Method of Insulating Stator Coils; filed 2 January 1974; patented 20 January 1976; not available NTIS.

Patent 3,933,542: Rocket Propellant with Acrylate Binder and Difluoroamino Plasticizer; filed 16 June 1972; patented 20 January 1976; not available NTIS.

Patent 3,934,082: Post Detection Device for Eliminating Backscatter; filed 12 August 1974; patented 20 January 1976; not available NTIS.

Patent 3,935,563: Computer Footprint File; filed 24 January 1975; patented 27 January 1976; not available NTIS.

Patent 3,936,895: Benthic Bobbing Buoy; filed 14 January 1975; patented 10 February 1976; not available NTIS.

PB 252 860 2: The Effects of Patent and Antitrust Laws: Regulations, and Practices on Innovation; volume I: A State-Of-The-Art Review; February 1976; PC $10.00/MF $2.25.

PB 252 861 0: The Effects of Patent and Antitrust Laws; Regulations, and Practices on Innovation; volume II: Executive Summary; February 1976; PC $3.50/MF $2.25.

PB 252 862 8: The Effects of Patent and Antitrust Laws; Regulations, and Practices on Innovation; volume III: Annotated Bibliography; February 1976; PC $9.25/MF $2.25.

BUREAU OF INTERNATIONAL ECONOMIC POLICY AND RESEARCH

Guide for Exporters and Investors

Official U.S. & International Financing Institutions: A Guide for Exporters & Investors has been issued by the Department of Commerce to provide information on sources of financing, insurance, and procurement for U.S. exports and investments. Included are the Export-Import Bank and affiliates, the Overseas Private Investment Corporation, the Agency for International Development, the Department of Agriculture, the World Bank Group, and regional development banks. The *Guide* contains information on program purpose and eligibility, supported export and investment values, interest rates and charges, procedures and contact points. Booklets are available at no charge and may be obtained from the U.S. Department of Commerce, International Finance Division, room 4424, Washington, D.C. 20230, (202) 377-4434, or from any Commerce District Office.

Dated: July 30, 1976.

S. STANLEY KATZ,
Deputy Assistant Secretary, Bureau of International Economic Policy and Research.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 76F-0260]

UNIROYAL CHEMICAL

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 6B3200) has been filed by Uniroyal Chemical, Division of Uniroyal, Inc., Elm St., Naugatuck, CT 06770, proposing that § 121.2566 *Antioxidants and/or stabilizers for polymers* (21 CFR 121.2566) be amended to provide for the safe use of 2,6-di(α-methyl benzyl)-4-methyl phenol as an antioxidant and/or stabilizer in olefin copolymers complying with § 121.2501(c), item 3.4 in the tubular listing.

The environmental impact analysis report and other relevant material have been reviewed, and its has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, during working hours Monday through Friday.

Dated: July 28, 1976.

HOWARD R. ROBERTS,
Acting Director, Bureau of Foods.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. D-76-452]

DEPUTY ASSISTANT SECRETARY FOR HOUSING—DEPUTY FEDERAL HOUSING COMMISSIONER

Delegation of Authority

By delegation of June 18, 1976, all of the authority and functions formerly exercised by the Assistant Secretary for Housing Production and Mortgage Credit-Federal Housing Commissioner and the Assistant Secretary for Housing Management, with respect to programs and other matters, were delegated and assigned to the Assistant Secretary for Housing-Federal Housing Commissioner, (41 FR 24755).

Section B of that delegation order continued in effect certain delegations and redelegations. The new Office of Housing, referred to in that delegation, is being reorganized and the positions of the Deputy Assistant Secretaries named in Section B of the June 18, 1976 delegation and their functions are being substantially modified. A new position of Deputy Assistant Secretary for Housing-Deputy Federal Housing Commissioner has been created. Thus, it is necessary to modify the authority reserved to the Deputy Assistant Secretaries referred to in Section B and effect a redelgation of certain authority to the Deputy Assistant Secretary for Housing-Deputy Federal Housing Commissioner.

Accordingly, the Secretary of Housing and Urban Development takes action as follows:

SECTION A. *Authority delegated.* The Deputy Assistant Secretary for Housing-Deputy Federal Housing Commissioner is authorized to exercise the power and authority of the Assistant Secretary for Housing-Federal Housing Commissioner, including the authority to issue rules and regulations.

SEC. B. *Supersedure.* The authority of the Deputy Assistant Secretary for Housing Production and Mortgage Credit-Deputy Federal Housing Commissioner and the Deputy Assistant Secretary for Housing Management to issue rules and regulations, which was continued in effect pursuant to Section B of the delegation order of June 18, 1976 (41 F.R. 24755), is terminated.

(Sec. 7(d), Department of HUD Act, (42 U.S.C. 3535(d)).)

Effective date: This delegation shall be effective July 30, 1976.

CARLA A. HILLS,
Secretary of Housing and Urban Development.

[FR Doc.76-22663 Filed 8-3-76;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 27573; Agreements CAB 25811, CAB 25903 R-1 through R-4, CAB 25904 R-2, R-3, R-8; Order 76-7-121]

INTERNATIONAL AIR TRANSPORT ASSOC.

Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of July, 1976.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreements were adopted at the April 1976 Geneva Composite Cargo Traffic Conference, by mail vote, at the 8th Meeting of the Cargo Traffic Procedures Committee, respectively, and have been assigned the above CAB agreement numbers.

Agreement CAB 25811 would amend IATA Resolution 507b (Use of Surface Transportation) now effective only within the TC3 (intra-Pacific) area, to make clear that the various circumstances permitting a member carrier to substitute surface transportation for air transportation at the through air rate relate to the inability of the carrier originally entitled to carry the shipment to move such shipment over its air services. Also, it stipulates that in addition to shipment size, the "weight or nature of the consignment" can be one of the considerations in any such determination.[1] In addition, the agreement would permit substitution to continue for a period of up to 12 months on sectors within the United States (Guam and American Samoa only) once a member carrier experiences the "frequent occurrence" of the circumstances defined in the resolution which prompted the initial substitution without further reference to the circumstances permitting that substitution.

Agreement C.A.B. 25903 would readopt for effect October 1, 1976 through September 30, 1977 that portion of the Nice North Atlantic cargo rates package establishing rates between U.S. points and points in the Middle East/Africa, thus closing rates which are now open in the affected markets.[2]

Finally, Agreement C.A.B. 25904 would make editorial and clarifying changes to existing resolutions governing airwaybill preparation charges and use of unit load devices as well as adopt a new resolution permitting a shipper to request changes in the method of shipment charges collection from prepaid to collect and vice versa.

We will approve Agreements C.A.B. 25903 and 25904 which in general either clarify existing resolutions or reflect agreements previously approved by the Board. We will likewise approve the changes in Resolution 507b set forth in Agreement C.A.B. 25811 since they would affect air transportation only insofar as traffic between American Samoa/Guam and other points in the Pacific is concerned and thus their impact would be minimal.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, does not find the following resolutions, incorporated in the agreements indicated, to be adverse to the public interest or in violation of the Act, subject, where applicable, to conditions previously imposed by the Board:

[1] The agreement was initially proposed to revalidate, as well as amend, Resolution 507b for use within the Western Hemisphere and over the North, Central, and South Pacific, but was tied to final carrier action in other remaining world areas. Due to several carrier negative votes and to the tie-in provision, the instant agreement will affect TC3 only.

[2] The Nice North Atlantic rates package was approved, with conditions, by the Board in Order 75-12-147, December 30, 1975, but has never been declared effective by IATA, with the result that North Atlantic rates remain open.

V 41 151 AUG 4 76 UMI

Secretary.

[FR Doc.76–22648 Filed 8–3–76;8:45 am]

[Docket 29478; Order 76–7–115]

AMERICAN AIRLINES INC. AND EASTERN AIR LINES, INC.

Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of July, 1976.

By Order 76–6–115, the Board suspended a proposal by American Airlines, Inc. (American) and Eastern Air Lines, Inc. (Eastern) to increase fares in the New York–San Juan market by three percent effective June 18, 1976, because such an increase produced a combined, adjusted return on investment (ROI) for the New York–San Juan subentity of 13.05 percent, and an ROI for the entire mainland U.S.–Puerto Rico/Virgin Islands ratemaking entity of 12.69 percent.

By tariff revisions [1] marked to become effective August 1, 1976, American and Eastern propose to increase fares in the New York–San Juan market by 1.6 percent. Using the same base period (year ended March 1976) and methodology employed by the Board in Order 76–6–115, updated to reflect May 1976 fuel costs and cost inflation to the tariff effective date, the carriers calculate the adjusted, combined ROI for the New York–San Juan subentity to be 11.68 percent with the requested increase, and 12.12 percent for the entire ratemaking entity.

The Commonwealth of Puerto Rico has complained against the proposal, asserting that there is no reason to permit a fare increase that results in an entity ROI exceeding 12.00 percent. It further alleges that fuel prices have been on the down trend through May 1976, and this trend should be recognized when computing the inflation factor to the tariff effective date.

Upon consideration of the filings, the complaint and answers thereto, and all other relevant matters, the Board has determined that the complaint does not set forth facts sufficient to warrant investigation and the request therefor, and consequently the request for suspension, will be denied and the complaint dismissed.

The Board's computations, which reflect May 1976 fuel prices (which were below April 1976 prices) and cost inflation from the base year to August 1, 1976, indicate an adjusted ROI of 11.68 percent for the New York-San Juan subentity, and an ROI of 12.11 percent for the entire ratemaking entity with the requested 1.6 percent fare increase. See Appendix A.[2] We are satisfied that the proposed increase will not produce an excessive rate of return. The carriers have indicated in their answers to the complaint that they have incurred increases in the cost of fuel beginning in June which are not reflected in the cost-inflation factor used in our computations.[3] The fuel increases would have the effect of increasing the expense level at the tariff effective date, and of lowering the ROI of both the ratemaking entity and the New York–San Juan subentity below 12 percent.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404 and 1002 thereof,

It is ordered that:

1. The complaint in Docket 29478 be and hereby is dismissed; and

2. A copy of this order be served upon American Airlines, Inc., Eastern Air Lines, Inc., and the Commonwealth of Puerto Rico.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc. 76–22649 Filed 8–3–76;8:45 am]

[Docket No. 29514; Order 76–7–122]

FLYING TIGER LINE, INC.

Order Dismissing Complaint [1]

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of July 1976.

By tariff revisions filed July 1, 1976 and variously marked for effectiveness August 15 and November 1, 1976,[2] The Flying Tiger Line Inc. (Tiger) proposes to establish new billing and collection periods for its domestic and international air freight customers, as detailed in Appendix A hereto. In its statement of justification accompanying its filings, Tiger states that its present 10-day billing plus 10-day-credit rule is unworkable and unrealistic; that the proposed 60-45-day rules are more in keeping with general business practices; and that it has not joined the recently developed industry Agreement [3] on these matters for the reasons that (a) international traffic is excluded; (b) only domestic shippers with annual billings of $250,000 or more are included; and (c) various administrative details and procedures are considered by Tiger to be highly questionable as a matter of law.

United Air Lines, Inc. (United) has filed a complaint against Tiger's domestic filing requesting suspension and investigation. In support of its request, United states that Tiger's proposed rules would not be subject to the self-enforcement embodied in Agreement CAB 24277; that Tiger is proposing an initial 60-day credit period (until November 1, 1976) and 45 days thereafter, as compared to a 25-day period in the cited Agreement; and that such a marked competitive advantage would probably spell the death knell of said Agreement. In response to United's complaint, Tiger has filed an answer alleging, inter alia, that United has not challenged the merits of its proposal but focused instead on the difference between that proposal and the industrywide credit agreement which is now before the Board.

Tiger characterizes this as nothing more than an attempt to persuade the Board to use its tariff suspension powers to coerce Tiger into adopting a position which it could not be persuaded to accept during prolonged industry negotiations. Tiger recognizes that the terms of its proposal are more liberal than existing tariff rules, but contends that they are substantially more restrictive than current carrier practices and that to suspend such proposal will only result in perpetuating a situation that the Board recognizes as unacceptable.[4]

Upon consideration of the proposed rules, the complaint and answer, and other relevant matters, the Board will dismiss United's complaint and permit Tiger's tariff rules to become effective.

The need for improved rules was clearly established in the Board's order on the initial industry Agreement, supra, e.g., a problem of sufficient magnitude exists with respect to all freight receivables as to have a potentially adverse economic impact upon carriers, and the carriers are not uniformly enforcing their present 10-day rules. Although Tiger's proposed rules may differ somewhat from the industry plan, they nevertheless constitute an acceptable response to the needs previously expressed by the Board.

We are not persuaded that even the difference between the 30- vs. 60/45-day credit extension periods in the Agreement versus the Tiger rule will affect to any appreciable degree the competitive balance in the limited number of markets served by Tiger compared to the markets served by the 23 carriers in the Agreement. Additionally, Tiger's rule appears reasonable in light of its credit experience which shows that Tiger has experienced an ageing of accounts receivable in the neighborhood of 65 to 78 days, or a 12-month ending March 1976 average of 70 days. In view of all of these considerations, the complaint will be dismissed.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that:

1. The complaint of United Air Lines, Inc. in Docket 29514 be and it hereby is dismissed; and

2. This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–22650 Filed 8–3–76;8:45 am]

[Dockets Nos. 26412 and 26413; Order 76–7–119]

FRONTIER AIRLINES, INC.

Certificate Amendment and Exemption

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of July, 1976.

Application of Frontier Airlines, Inc., for amendment of its certificate of public convenience and necessity for route 73—Docket 26412.

Application of Frontier Airlines, Inc., for exemption authority to provide service between Missoula and Kalispell, Mont.—Docket 26413.

ORDER TO SHOW CAUSE AND GRANTING TEMPORARY EXEMPTION

By order 74–7–11, dated July 24, 1974, the Board authorized Frontier Airlines to provide service between Missoula and Kalispell, Mont., subject to certain conditions.[1] The authority was to be effective for a period of 2 years.

On April 28, 1976, Frontier applied for an extension of the exemption granted in order 74–7–111 for a period of 2 years or until final action is taken on its certificate amendment application (docket 26412).[2] In support of its renewal request, Frontier states that: during the first stabilized year of operations, Frontier's Kalispell services benefited nearly 13,000 passengers; [3] Frontier's ability to improve its service at Bozeman and Missoula was enhanced by the short extension to Kalispell which has provided valuable traffic support and permitted more rapid service improvements for the western Montana cities; [4] during the 12 months ended April 30, 1976, Frontier's Kalispell service resulted in an operating profit of $153,000 and a gain of $76,000 after provision for return and taxes; and for the year ending June 1977, Frontier forecasts a $222,000 operating profit and a $146,000 gain after a full return and tax allowance.

The Flathead County Municipal Airport Authority filed an answer in support of Frontier's renewal application. No other answers have been received.

Upon consideration of the pleadings and all the relevant facts, we have decided to (a) extend the authority granted in order 74–7–111 until 60 days after Board action on the carrier's certificate amendment application in docket 26412, and (b) issue an order to show cause which proposes to grant the requested amendment to route 73. We note that no person has objected to the exemption renewal request. Moreover, the carrier's services to Kalispell pursuant to its exemption authority have provided significant public benefits with revenues sufficient to cover expenses and allow for return on investment and tax. Finally, the authority has permitted the carrier to improve service at other points on its system, with prospects for further improvement in the future. Accordingly, we find that enforcement of section 401 of the Act, to the extent that it would otherwise prevent the carrier from providing the services authorized herein, would be an undue burden on Frontier by reason of the limited extent of and unusual circumstances affecting its operations, and is not in the public interest. [5]

In addition, we tentatively find and conclude that the public convenience and necessity require the amendment of Frontier's certificate for route 73 so as to add Kalispell, Mont., as an intermediate point on said eoute. In support of our ultimate conclusion, we make the following tentative findings and conclusions. The Kalispell airport is located in the Flathead Valley, which provides a variety of tourist attractions and leisure activities. Glacier National Park is located only 25 miles from tne airport and is the largest such attraction.[6] Several lakes in the area offer water sports of all types.[7] In addition, there are national and state forest areas, and summer as well as winter activities are abundant.[8] Airwest is certificated to serve Kalispell on its route 76, and presently provides direct service from that point to the west and south. However, Frontier's experience in providing service to the point by exemption indicates that there exists a need for direct service between Kalispell and points to the south and east,[9] which need

[1] Revisions to American Airlines, Inc., Tariff C.A.B. No. 244; and Eastern Air Lines, Inc., Tariff CAB No. 417.

[2] Appendix A filed as part of original.

[3] On July 1, 1976, American's fuel price at New York increased 1.04 cents per gallon. Its fuel supplier at San Juan has notified the carrier of the following price increases: 1.5 cents June 26; 1.5 cents July 13; and 1.0 cents August 1. Eastern's system fuel prices were 1.03 percent higher in June than May, 1976.

[1] Appendices A and B filed as part of original.

[2] The tariffs are marked to expire with February 15, 1978.

[3] See Order 75–12–149, Agreement CAB No. 24277. Amendment A–1 thereto was filed with the Board on July 7, 1976. See also Appendix B hereto.

[4] The balance of Tiger's answer consists of a detailed outline of the reasons why it did not participate in the industrywide agreement and has not been summarized.

[1] The original application, filed in February 1974, was opposed by Hughes Airwest and was denied by the Board in order 74–4–136, April 26, 1974. However, in petitions for reconsideration Frontier and the Kalispell Parties stated that discussions with Airwest had resulted in agreement on conditions under which Airwest would not object to grant of exemption authority to Frontier, namely, that Frontier be prohibited from providing air transportation between Kalispell, on the one hand, and points in Arizona, California, and Nevada, on the other hand. In a consolidated answer to the petitions, Airwest stated that it would also want a condition requiring two intermediate stops between Kalispell and Salt Lake City. The Board therefore granted the petitions for reconsideration and authorized Frontier to serve Kalispell subject to the conditions requested by Airwest.

[2] Frontier has invoked the automatic extension provisions of 5 U.S.C. 558(c).

[3] Since Oct. 27, 1974, Frontier has operated a daily round-trip jet flight at Kalispell providing single-plane service to Missoula, Bozeman, Salt Lake City, Denver, and St. Louis with on-line connecting services to the major Frontier points of Dallas/Fort Worth, Albuquerque, Kansas City, and Omaha.

[4] Frontier states that it intends to continue providing improvements in its western Montana service as traffic develops. The carrier is considering a future flight whose itinerary might be over a Kalispell-Missoula-Bozeman-Denver routing.

[5] Flights between Kalispell and Salt Lake City will be required to make on intermediate stop. Airwest's realigned certificate gives that carrier unrestricted authority in the market; therefore, Frontier's authority will be improved from two-stop to one-stop.

[6] Frontier indicates that Glacier National Park is visited by over 1 million persons annually.

[7] Flathead Lake is the largest natural freshwater lake in the western section of the United States and offers swimming, boating, water skiing, and fishing, plus numerous resort accommodations. Several other large bodies of water are located within close proximity of the airport, including Whitefish Lake, Tally Lake, Ashley Lake, and Swan Lake.

[8] The ski area at Big Mountain has been the site of national ski championships on several occasions.

[9] The traffic Frontier carried to and from Kalispell during the first stabilized year of operations amounted to an average of 35 passengers per day.

V 41 151 AUG 4 76 UMI

cannot be met by the certificated services of Airwest. Furthermore, civic support for the proposed services indicates that such services result in significant public benefits. Finally, grant of the requested authority will provide increased revenues for Frontier, will give the carrier additional operating flexibility in providing service to other Montana points on its system,[10] and will require only a limited expenditure of additional resources.[11]

We also tentatively find and conclude that the proposed certificate amendment should be unrestricted. The conditions that were imposed on the exemption authority granted to Frontier in order 74-7-111 were designed to eliminate the possibility of diversion from Airwest. However, since we are proposed to add Kalispell to Frontier's route system, we believe that the same guidelines for determination of market restrictions that are applied in route alignments should be utilized here. Thus, there are several Kalispell markets in which both Airwest and Frontier will have single-carrier authority,[12] but in no case is the number of passengers involved significant. The Kalispell-Salt Lake City market, the largest of the competitive Kalispell markets, in which Frontier presently operates under its exemption authority with a two-stop restriction, generated less than 10 passengers per day during the 12 months ended September 30, 1975. Had Kalispell been a certificated point on Frontier's system at the time of its route realignment, no restrictions would have been placed on its authority to serve that point. Therefore, in keeping with our recent policy in route realignments of liberalizing route authority in monopoly markets or in small competitive markets by show-cause procedures, we tentatively find and conclude that Frontier's authority to serve Kalispell as an intermediate point on route 73 should be unrestricted.

Finally, Frontier has requested a waiver from the provisions of Part 312 of the Board's Procedural Regulations insofar as they would otherwise require it to file an environmental evaluation regarding the proposed services. In view of our tentative findings and conclusions herein, we will not grant the carrier's request for a waiver, and we will require Frontier to file the information set forth in Part 312 within 30 days of the date of adoption of this order.

[10] Frontier's "skip-stop" authority at Kalispell will permit the carrier to overfly the point after having provided one round trip 7 days per week.

[11] We further tentatively find that Frontier is a citizen of the United States within the meaning of the Act and is fit, willing, and able properly to perform the transportation pursuant to the amended certificate proposed and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder. We also tentatively find that the proposed new authority should be granted on a subsidy-ineligible basis.

[12] These markets are as follows: Kalispell—Great Falls, Las Vegas, Phoenix, Salt Lake City, Tucson.

Interested persons will be given 30 days following the date of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail what he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. Frontier Airlines, Inc., be and it hereby is temporarily exempted from the provisions of section 401 of the Act, insofar as they would otherwise prevent Frontier from providing service beyond Missoula, Mont., to Kalispell, Mont., on route 73: *Provided,* That Frontier may not engage in the air transportation of passengers traveling between Kalispell, on the one hand, and points in Arizona, California, and Nevada, on the other hand; *and Provided further,* That on flights between Kalispell and Salt Lake City, Utah, Frontier must schedule a minimum of one intermediate stop;

2. The portion of the flights between Kalispell and Missoula, Mont., shall be ineligible for subsidy;

3. The authority granted in 1 above shall be effective on the date of service of this order and shall continue in effect until 60 days after final Board decision in docket 26412;

4. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and amending Frontier Airlines' certificate of public convenience and necessity for route 73 so as to add Kalispell, Mont., as an intermediate point thereto;

5. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 30 days after the date of this order, file with the Board and serve upon all persons listed in paragraph 9 below a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [13]

6. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

7. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein;

8. Frontier Airlines, Inc., shall file an environmental evaluation pursuant to section 312.12 of the Board's Procedural Regulations within 30 days of this order;

9. A copy of this order shall be served on Frontier Airlines, Inc.; Hughes Airwest; Northwest Airlines, Inc.; Mayor, City of Kalispell; Mayor, City of Missoula; Governor, State on Montana; The Montana Aeronautics Commission; Airport Manager, Glacier Park International Airport (Kalispell); Airport Manager, Johnson-Bell Airport (Missoula); and the Flathead County Municipal Airport Authority; and

10. The exemption authorized herein may be amended or revoked at any time in the discretion of the Board without hearing.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-22646 Filed 8-3-76;8:45 am]

[13] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections, and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[Docket 29586; Order 76-7-120]

SURF-AIR, INC.

COD Minimum Charge: Order of Suspension and Investigation

Adopted by the Civil Aeronatutics Board at its office in Washington, D.C. on the 29th day of July, 1976.

By tariff revision [1] issued July 6 and marked to become effective August 6, 1976, Surf-Air, Inc. (Surf-Air), an air freight forwarder, proposes, inter alia, to increase its C.O.D. collection service minimum charge from $2.50 to $5.00 per shipment.

In support of its proposal, Surf Air asserts, inter alia, that since the last time C.O.D. charge was increased it has experienced an increase in labor cost of 51 percent and postage and handling cost increases of 62 percent while the number of such shipments has increased approximately 25 percent, and that in order to continue to offer such service it must recover some of these increased costs. However, the forwarder has not supported its cost increase estimates nor shown that the cost increases would justify the $5.00 charge proposed. The Board has consistently suspended increases in C.O.D. charges proposed by both direct and indirect carriers in the absence of adequate justification, e.g., Order 76-6-9, June 2, 1976. Furthermore, Surf-Air's proposal would result in C.O.D. minimum charges significantly above those currently in effect for other freight forwarders, as well as direct carriers.

Upon consideration of the foregoing and all other relevant factors, the Board finds that the increased C.O.D. minimum charge proposed by Surf-Air may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proopsal should be suspended pending investigation.

[1] Revision to Surf-Air, Inc., Tariff C.A.B. No. 9.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that: 1. An investigation be instituted to determine whether the charges and provisions in Rule No. 100 (C) on 4th Revised Page 7 of C.A.B. No. 9 issued by Surf-Air, Inc., and rules, regulations, or practices affecting such charges and provisions, are, or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful charges and provisions and rules, regulations, or practices affecting such charges and provisions;

2. Pending hearing and decision by the Board, Rule No. 100(C) on 4th Revised Page 7 of C.A.B. No. 9 issued by Surf-Air, Inc., is suspended and its use deferred to and including November 3, 1976, unless otherwise ordered by the Board; and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 29586, be assigned for hearing before an administrative law judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariff and served upon Surf Air, Inc., which is hereby made a party to Docket 29586.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-22647 Filed 8-3-76;8:45 am]

[Dockets 25989 and 26838; Order 76-7-124]

WIEN AIR ALASKA, INC.

Air Freight Rates; Order of Suspension and Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of July, 1976.

By tariff revisions [1] issued July 1 and marked to become effective August 1, 1976, Wien Air Alaska, Inc. (Wien), proposes to increase all general and specific commodity bulk and container rates and charges, except the bulk minimum charge per shipment, by approximately 6 percent. Corresponding priority reserved general commodity rates are to be increased by an equal percentage.[2]

In support of its proposal, Wien asserts, inter alia that continued cost pressures have eroded its ability to maintain a reasonable and healthy financial posture; that its return on investment for the year ended March 1976, was 10.5 percent; that the impact of contracted-labor cost increases, applied to the same period, would reduce the return to 7.9 percent; that if a cost-inflation factor of 4.7 percent is applied to costs other than fuel, labor, depreciation, and B-737 rent expense, the rate of return is reduced to 7.2 percent; that the amount payable under Workmen's Compensation have been increased to such high levels that its insurance carrier will be charging substantially higher premiums, estimated to be about $300,000 per year; and that the State of Alaska is currently negotiating with all carriers using airport facilities at Anchorage and Fairbanks, to increase fees paid for landing and fuel estimated to amount to between $50,000 and $370,000 additional expense. In addition, the carrier asserts that as a result of labor negotiations it faces labor increases in excess of $2,000,000 over the next twelve months; that, beginning in January 1975, it has been required to buy fuel at a rate per gallon 62 percent higher than during the previous year; and that the carrier has not had a freight rate increase since December 15, 1973. The proposed increase will amount to about $685,000 in added revenues annually.

Based upon Wien's actual financial results for the year ended March 1976, reconstructed to include a full year's effect of both the proposed freight and passenger rate increases, and the most recent experienced or contracted costs, the carrier's regulatory ROI (including subsidy) would be about 11.8 percent, below the 12.35 percent found by the Board to be reasonable for local service carriers.[3]

The proposed priority rates and charges come within the scope of the Priority Reserved Air Freight Rates Investigation (PRAFRI), Docket 26838, and their lawfulness will be determined in that proceeding. The remaining rates are not currently under investigation. Upon consideration of all relevant factors, the Board finds that the proposal to increase bulk general commodity rates and charges as they relate to exception-rated traffic, may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. Furthermore, the Board concludes that the aforementioned proposal as well as the proposed increase in priority reserved rates where they result in premiums in excess of 30 percent over the otherwise applicable rate should be suspended pending investigation.

Wien currently has effective exception ratings to the general commodity rates ranging between 200 and 250 percent on such commodities as aircraft, automotive vehicles, boats, snow machines, and human remains. In the lower 48 states, most carriers do not publish premium ratings on aircraft, automobiles, or boats (none have rates on snow machines), and the few carriers that do generally publish lower ratings than Wien. The other carriers' premiums on human remains are also lower. The high premiums charged by Wien have not been justified and consequently the increased rates will be suspended.[4]

Although the Board permitted Wien (as well as certain other carriers) to establish priority general commodity rates including minimum charges reflecting the 100-pound weightbreak priority rate, the Board subsequently decided that a 30 percent premium over the applicable rates (whether general or specific commodity rates) was the highest level that should be permitted pending decision in *PRAFRI.*[5] Wien's proposed priority rates and charges, however, exceed 130 percent of the regular general commodity minimum charges, or, as applicable, specific commodity rates and charges. Furthermore, we believe that Wien should publish an under-100 pound rate applicable to its priority freight service to help eliminate inequities in its current minimum charge structure.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered that: 1. An investigation is instituted to determine whether the rates, charges, and provisions described in Appendix A hereto, and rules, regulations, and practices affecting such provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, or practices affecting such provisions;

2. Pending hearing and decision by the Board, the rates, charges, and provisions described in Appendices A and B hereto are suspended and their use deferred to and including October 29, 1976, unless otherwise ordered by the Board; and that no changes be made therein during the period of suspension; except by order or special permission of the Board;

3. The proceeding herein designated Docket 25989, be assigned for hearing before an administrative law judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariffs and served upon Wien Air

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariffs C.A.B. Nos. 169 and 227.

[2] The carrier is also proposing a 6-percent increase in passenger fares to become effective on August 1.

[3] It should be noted that the Board, by Order 76-3-147, dated March 23, 1976, instituted an investigation to determine whether a revised subsidy mail rate should be established for Wien since the carrier's currently effective rate may have become excessive.

[4] If Wien can demonstrate that there are considerations peculiar to Alaskan operations which can justify such premiums, Wien is of course free to refile.

[5] Order 76-7-10, July 6, 1976; Order 76-2-108, February 27, 1976; Order 75-12-98, December 19, 1975; Order 75-12-28, December 5, 1975; and previous orders.

V 41 151 AUG 4 76 UMI

STAFF TASK FORCE REPORT

Service to Small Communities

JULY 30, 1976.

On May 18, 1976, the Civil Aeronautics Board announced that public comment on the Staff Task Force Report on Service to Small Communities should be received at the Board on or before June 18, 1976. By notice dated June 4, 1976, the Board extended the date for the submission of public comments on the report until July 19, 1976.

A number of public comments on the report have been received. Notice is hereby given that any member of the public who wishes to respond to any comments filed in this docket may do so. Reply comments should be received at the Board on or before August 18, 1976.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,

ENVIRONMENTAL PROTECTION AGENCY

[FRL 592-8; OPP-180072A]

CALIFORNIA DEPARTMENT OF HEALTH

Issuance of Specific Exemption To Use DDT To Suppress Flea Vectors of Plague

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency (EPA) has granted a specific exemption to the California Department of Health (hereafter referred to as the "Applicant") to use five (5) or ten (10) percent DDT dust in a program to suppress fleas vectoring plague on wild rodents. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information required by regulation to be included in the notice. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., SW., Room E-315, Washington, D.C. 20460.

According to the Applicant, there is a strong possibility that situations will arise in California during 1976 necessitating the use of DDT to control flea vectors of plague. This concern stems from the apparent failure of carbaryl to suppress flea populations vectoring plague in Plumas County, California, in 1975 and in April 1976. In view of the low level of control exercised by carbaryl, the Applicant promulgated a crisis exemption under section 18 of the amended FIFRA, and applied forty-seven (47) pounds of a ten percent DDT dust to rodent burrows on 80 acres of two affected campgrounds. Notice of this crisis exemption was published in the FEDERAL REGISTER on June 8, 1976 (41 FR 22979). A comparison of pre- and post-treatment flea indices (No. fleas/No. rodents) indicated that plague vectoring flea populations were reduced on chipmunks, white-footed deer mice, and golden-mantled ground squirrels to a level which was adequate to protect the public health.

The scope of the public health problem is the plague endemic area of California, which generally encompasses the mountains and foothills of the State. When plague epizootics occur among rodents, infected fleas may transmit the plague bacillus to people. Epizootics occur most frequently during the spring, summer, and fall. Flea control must be initiated promptly to protect human health. Current evidence indicates carbaryl dust to be reasonably efficacious in controlling fleas of the ground squirrel (*Spermophilus beecheyi*), but to be undependable in controlling fleas of chipmunks and other rodents of similar habits. The Applicant stated that DDT was available and is of demonstrated efficacy against fleas of wild rodents.

The maximum amount of actual DDT required will be less than fifty (50) pounds to be used throughout California until the end of November, according to the Applicant. The areas treated with DDT will be limited to those situations where, without flea control, the public health would be endangered. All applications will be made by public health biologists in the Applicant's Vector Control Section, all of whom possess a minimum of a baccalaureate in the biological sciences and several years of professional experience. In instances where other persons might be called upon to assist the Vector Control Section staff, they will work under the direct supervision of a public health biologist.

The Applicant stated that no significant adverse effects on the environment are anticipated from the DDT application, because the dosage rate will be about 0.1 pound of actual DDT per acre or less, and the pesticide will be carefully introduced into the burrows by hand-operated dusters, as was the procedure in Plumas County, California.

This application was endorsed by the Center for Disease Control (CDC) of the Department of Health, Education, and Welfare. The Chief of the Plague Branch, CDC, located in Fort Collins, Colorado, has advised EPA that widespread but localized plague epizootics are presently sweeping through wild rodent populations in Colorado and New Mexico. He stated that a potentially serious threat of a plaque epizootic exists also in Arizona and California.

After reviewing the application and other available information, EPA has determined that (a) a pest outbreak of fleas vectoring plague has or is about to occur; (b) there is no pesticide presently registered and available for use to control the flea populations in California; (c) there are no alternative means of control, taking into account the efficacy and hazard; (d) significant health problems may result if the fleas vectoring plague are not controlled; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until November 30, 1976, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. A pesticide product containing either five (5) or ten (10) percent DDT as the active ingredient may be used;

2. The total amount of DDT used may not exceed fifty (50) pounds actual insecticide;

3. The DDT will be applied directly to wild rodent burrows with hand-powered dusting equipment;

4. Areas of California to be treated are limited to those where, without flea control, the public health will be endangered;

5. Personnel of the Vector Control Section, California Department of Health, will supervise all pesticide applications;

6. Dr. Allan M. Barnes, Chief, Plague Branch, CDC, Fort Collins, Colorado, will be kept advised of all flea population suppression activities;

7. Areas treated with DDT should be surveyed to ensure that no endangered species that could be adversely affected are present;

8. Every precaution will be taken to avoid adverse effects on the American peregrine falcon; and

9. Liaison will be established with the California Fish and Game Department prior to applying DDT in any area.

Dated July 28, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

PESTICIDE PROGRAMS

Application To Register Pesticide Product Containing New Active Ingredient

On February 27, 1976, the Environmental Protection Agency announced (40 FR 8532) that Fisons Corp., Agricultural Division, 2 Preston Court, Bedford MA 01730, had submitted an application to register the pesticide product NORTRON HERBICIDE (EPA File Symbol 10065-L), containing 19% of the active ingredient 2-ethoxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl methanesulfonate, which has not been included in any previously registered pesticide product. The application proposed that the product be classified for general use in the selective control of weeds in sugar beets. Fisons Corp. has amended this application to include the product's use in the selective control of weeds in grass seed crops.

Application was made pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136 et seq.), and the regulations thereunder (40 CFR 162). Notice of receipt of this application and subsequent amendment does not indicate a decision by the Agency on the application. Specific questions concerning the application should be directed to Product Manager (PM) 24, Registration Division (WH-567), Office of Pesticide Programs, at the address below, or by telephone at 202/755-2196.

Any Federal agency or other interested persons are invited to submit written comments on the application, as amended, to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting them. The comments must be received on or before September 3, 1976 and should bear the EPA File Symbol 10065-L. Comments received within the specified time period will be considered before a final decision is made with respect to the pending application. Comments received after the specified time period will be considered only to the extent possible without delaying of processing of the application. Notice of approval or denial of the application to register NORTRON HERBICIDE will be announced in the Federal Register. The labels furnished by the applicant as well as all written comments filed pursuant to the February 27 notice and this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: July 28, 1976.

JOHN B. RITCH, Jr.,
Director, Registration Division.

[FR Doc.76-22496 Filed 8-3-76;8:45 am]

[FRL 593-5; OPP—50212]

S. B. PENICK AND CO.

Issuance of Experimental Use Permit and Solicitation of Public Views

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to S. B. Penick & Company, Orange, New Jersey 07050. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 432-EUP-32) allows the use of 240 pounds of an insecticide which is a mixture of (5-benzyl-3-furyl) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate, related compounds, and aromatic petroleum hydrocarbons applied at ultra-low-volume applications outdoors to control various species of adult mosquitoes in recreational and residential areas, swamps, marshes, roadsides, and overgrown waste areas. A total of 34,284 acres is involved, which provides for 5,000 acre blocks of land in Minnesota, Louisiana, Texas, and California, and smaller blocks of land in the States of Florida, New Jersey, Delaware, Massachusetts, Connecticut, and Maryland. The experimental use permit is effective from July 15, 1976, to July 15, 1977.

There has been considerable interest shown recently on the subject of mosquito abatement programs similar to this one. Accordingly, all parties interested in such programs are invited to submit written comments pertinent to the general subject to the Federal Register Section, Room E-401, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, 401 M St., SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting the submissions. The comments must be received on or before September 3, 1976 and should bear the identifying notation OPP-50212. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division

V 41 151 AUG 4 76 UMI

(WH-569), Office of Pesticide Programs, EPA, at the same address mentioned above. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated July 28, 1976.

JOHN B. RITCH, JR.,
Director,
Registration Division.

AMERICAN CYANAMID CO.

[FRL 593-3; PP6G1740/T74]

Establishment of a Temporary Tolerance N - (1 - Ethylpropyl) - 3,4 - Dimethyl - 2,6 - Dinitrobenzenamine

American Cyanamid Co., PO Box 400, Princeton NJ 08540, has submitted a pesticide petition (PP 6G1740) to the Environmental Protection Agency (EPA). This petition requests that a temporary tolerance be established for residues of the herbicide N-(1-ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine and its metabolite 4-[(1-ethylpropyl)amino]-2-methyl-3,5-dinitrobenzyl alcohol in or on the raw agricultural commodities peanuts, peanut forage, and peanut hay at 0.1 part per million (ppm).

Establishment of this temporary tolerance will permit the marketing of the above raw agricultural commodities when treated in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

An evaluation of the scientific data reported and other relevant material has shown that the requested tolerance is adequate to cover residues resulting from the proposed experimental use, and it has been determined that the temporary tolerance will protect the public health. The temporary tolerance is established for the pesticide, therefore, with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. American Cyanamid Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires July 28, 1977. Residues not in excess of 0.1 ppm remaining in or on peaunts and peanut forage and peanut hay after this expiration date will not be considered to be actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health.

Dated: July 28, 1976.

STATUTORY AUTHORITY: Section 408(j) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 346a(j)].

NOTICE OF RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

Data To Be Considered In Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ["Interim Policy Statement"]. On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administration in Support of an Application" [41 FR 3339]. This document described the changes in the Agency's procedures for implementing Section 3(c)(1)(D) of FIFRA, as set out in the Interim Policy Statement, which were effectuated by the enactment of the recent amendments to FIFRA on November 28, 1975 [P.L. 94-140], and the new regulations governing the registration and re-registration of pesticides which became effective on August 4, 1975 [40 CFR Part 162].

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room 209, East Tower, 401 M Street, SW., Washington DC 20460. In the case of applications subject to the new Section 3 regulations, and applications not subject to the new Section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, is being used to support an application described in this notice, (c) desires to assert a claim under Section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data or the status of such data under Section 10 must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Product Control Branch, Registration Division (WH-567), Office of the Pesticide Programs, Environmental Protection Agency, 401 M St. SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

Specific questions concerning applications made to the Agency should be addressed to the designated Product Manager (PM), Registration Division (WH-567), Office of Pesticide Programs, at the above address, or by telephone as follows:

PM 11, 12, & 13—202/755-9315
PM 21 & 22—202/426-2454
PM 24—202/755-2196
PM 31—202/426-2635
PM 33—202/755-9041
PM 15, 16, & 17—202/426-9425
PM 22—202/755-1397
PM 25—202/755-7012
PM 32—202/426-9486
PM 34—202/426-9490

The Interim Policy Statement requires that claims for compensation be filed on or before October 4, 1976. With the exception of 2(c) applications not subject to the new Section 3 regulations, and for which a sixty-day hold period for claims is provided, EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under Section 10 of FIFRA, as amended, should be made within 30 days subsequent to publication of this notice.

Dated: July 28, 1976.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20871, 20872; FCC 76–647]

MAHAFFEY MESSAGE RELAY INC. AND MEMPHIS MOBILE TELEPHONE, INC.

Designating Applications for Consolidated Hearing on Stated Issues; Memorandum Opinion and Order

In the matter of Mahaffey Message Relay, Inc., Memphis, Tennessee, Docket No. 20871, File No. 8331–C2–P–(8)–73, 8557–C2–P–(4)–73, 21635–CD–P–75; Memphis Mobile Telephone, Inc., Memphis, Tennessee, Docket No. 20872, File No. 20003–CD–P–76; for construction permits for facilities in the Domestic Public Land Mobile Radio Services to operate in Memphis, Tennessee.

1. The Commission has under consideration the above-captioned mutually exclusive applications of Mahaffey Message Relay, Inc., (Mahaffey) and Memphis Mobile Telephone, Inc. (MMT) for construction permits in the Domestic Public Land Mobile Radio Service (DPLMRS) in the Memphis, Tennessee metropolitan area. Also before the Commission are various pleadings filed by MMT directed against Mahaffey [1] and two of the other applicants [2] for frequencies in this area; a "Motion for Reconsideration" filed by MMT August 28, 1975; and an "Application for Review" filed by MMT November 3, 1975.

2. MMT alleges that during the spring of 1973—soon after it informed Mahaffey of its intention to seek state certification to provide radio common carrier service—Mahaffey and Otis Hale d/b/a Mobilfone filed applications for the available 450 MHz frequencies in the Memphis service area,[3] and that both applicants knew that before MMT could receive state certification the 60-day cut-off provisions of our rules [4] would prevent it from filing any subsequent competing 450 MHz applications. MMT alleges further that Mahaffey's motivation and lack of good faith in filing its applications is evidenced by a subsequent agreement among all of the other Memphis applicants for radio common carrier frequencies which eliminated frequency conflicts while still blocking MMT's possibility of applying for 450 MHz frequencies. In that agreement, Mahaffey abandoned six of the twelve 450 MHz frequencies applied for in its original applications but maintained its later-filed one-way applications for the only remaining spectrum space available for radio common carrier use in the Memphis area. Finally, MMT alleges that all of Mahaffey's filings did not satisfy the need provisions

[1] Petition for Leave to Intervene, Petition to Deny and Petition for Waiver of the Cut-Off Rules filed by MMT May 19, 1975; Complaint, Petition to Deny and Motion to Dismiss Applications filed by MMT October 21, 1975; Mahaffey's Oppositions and MMT's Replies. MMT's various pleadings do not fully satisfy our procedural rules and have been challenged on this ground; however, as indicated in our subsequent discussion, they treat matters of concern. Consequently, we accept them as informal objections pursuant to Section 1.41 of the Commission's Rules, and will deal with them on their merits.

[2] Against AAA Anserphone, Inc.—Jackson, a Complaint, Petition to Deny and Motion to Dismiss Applications filed November 8, 1975, and against Airsignal International, Inc., a Motion to Dismiss as amended March 18, 1976. Both respondents filed timely oppositions.

[3] Mahaffey currently operates both a one-way paging facility (KRS–656), and a two-way facility (KDT–223) in Memphis, Tennessee, as well as two-way facilities in Munford (KUO–621) and Collierville (KUC–870), Tennessee. It appears that all of Mahaffey's stations provide service primarily to Memphis metropolitan area subscribers.

[4] Sections 21.30(b) and 1.227(b)(3) of the rules provide essentially that in DPLMRS, no application will be considered mutually exclusive with another application unless such application is tendered for filing within 60 days after the public notice listing the first prior-filed application, with which subsequent applications are in conflict, as having been accepted for filing.

of § 21.516 of the rules,[5] and should therefore be rejected without a hearing.

3. For reasons set forth below, we are concerned that Mahaffey may have filed applications to protect and benefit its existing licenses. Therefore, the evidentiary hearing required by the mutually exclusive applications will be expanded to include an appropriate issue (issue 2) relating to Mahaffey. Questions have also been raised about the possible involvement of other applicants in this area. Accordingly, we will make the other Memphis-area applicants (Otis Hale d/b/a Mobilfone; AAA Anserfone, Inc.—Jackson; and Airsignal International, Inc.) [6] respondents to this proceeding (issue 1). We assume that these applicants will take advantage of this opportunity to participate in the present hearing. In the event that they do not participate, it would be difficult to avoid drawing adverse inferences about the bonafides of their applications.

The Conflicting Applications

4. Between May and July, 1973, Mahaffey, Otis Hale, AAA and Airsignal filed 450 MHz applications proposing new and additional facilities to serve areas contiguous to the Memphis metropolitan service area; additionally, AAA filed for a low-band paging frequency (33.58 MHz) in the same general area. In December, 1975, the applicants requested that various proposals for conflicting frequencies be deleted from their applications (see para. 6 below). Meanwhile, on May 4, 1975, MMT had received its Tennessee state certification, and on May 19, 1975, Mahaffey filed two applications for the only remaining frequencies in the service area (43.58 and 43.22 MHz). On July 1, 1975, MMT filed a competing application for 43.58 MHz. Airsignal also filed an application for this frequency, but dismissed it in December, 1975.

5. On May 19, 1975, MMT tendered an application for four of the 450 MHz frequencies Mahaffey had applied for in May, 1973. At the same time, MMT Petitioned for Leave to Intervene, to Deny Mahaffey's 450 MHz applications, and requested a waiver of the cut-off rules. MMT's application was returned as untimely filed after preliminary staff review (see footnote 4). On August 28, 1975 MMT resubmitted its 450 MHz application with a "Petition for Reconsideration". The application was again returned, and on November 3, 1975, MMT submitted an "Application for Review" apparently under the misconception that the second return of its application was the dismissal by delegated authority of its reconsideration request.[7] Because we grant part of the relief requested in MMT's May 19, 1975 "Petition to Intervene", it is included in our discussion of MMT's other informal pleadings directed at Mahaffey's filings. Other than this, there is no reason to grant MMT's requests and they will therefore be denied.

The Agreement

6. On December 8, 1975, AAA, Airsignal, and Mahaffey amended their pending applications by deleting various frequency conflicts in order to avoid a Commission hearing. On February 4, 1976, MMT filed an informal protest which questioned whether these amendments were "major" amendments requiring Public Notice pursuant to § 21.26(c) of the rules. The amended applications were not placed on Public Notice nor were they treated as "major" amendments by our staff. We affirm this ruling since these amendments did not materially alter the nature of the service proposed by the amending applicants, and are not otherwise "major" within the terms of § 21.23 of the rules.

7. We have been concerned that predesignation agreements between mutually exclusive applicants to withdraw one or more competing applications could be improperly motivated. As we stated in the notice of proposed rulemaking in Docket No. 19905.[8]

> Close review of such agreements is considered important in discouraging the filing of 'strike' applications or unreasonable 'buy outs' of competition. Consequently, we propose to dismiss an application withdrawn pursuant to an agreement and to continue processing the remaining application only if the withdrawal agreement is found to be consistent with the public interest.[9]

The applicants participating in the present agreement submitted a recitation of the circumstances leading to the agreement; nonetheless, the circumstances which require hearing to examine the anti-competitive questions raised by MMT necessarily concern any agreements between Mahaffey and the other radio common carrier applicants. And the consideration of avoiding a hearing voiced by the 450 MHz applicants must be considered in the context of MMT's allegations regarding their alleged cooperation in blocking MMT's possibility of entry into this market. Accordingly, we are adding an appropriate issue to explore the background of the agreement.

AAA

8. On November 5, 1975, MMT filed a "Petition to Deny" AAA's application stating that although AAA's application represents that it intends to locate and serve the residents of DeSoto County from Southaven, Mississippi, AAA in fact intends to extend its marketing efforts into the Memphis service area in violation of Tennessee law and its Mississippi Public Service certification. Further, MMT contends, AAA does not show a need for four new 450 MHz frequencies and its proposed one-way paging frequency on the basis of the small service area of DeSoto County, Mississippi. AAA opposed the MMT filing as untimely since it came nearly two years after acceptance of AAA's applications for filing. Further, AAA contends that it intends to serve only the Northern Mississippi service area (the population of which is approximately 42,000). If AAA decides to serve any other state, it contends, it will obtain the necessary certificates to ensure compliance. MMT's filing is procedurally defective; moreover, the contemplated hearing will investigate AAA's participation in alleged anti-competitive conduct. Accordingly, we will deny MMT's "Petition to Deny" in all other respects.

Airsignal

9. On March 18, 1976, MMT filed an amended "Petition to Deny" Airsignal's application. MMT contends that Airsignal misrepresented its intended service area when it filed for frequencies at West Memphis, Arkansas, since it fully intended to serve Western Tennessee and Memphis; that Airsignal has sought by filing competing applications to restrain trade in this service area; and that Airsignal did not have an Arkansas Public Service Commission (APSC) certificate when it filed its application in June, 1973, and that a subsequent application before the APSC has been dismissed for failure to prosecute. Airsignal relies upon its original representation that it would provide two-way service to the Memphis-West Memphis service area on a non-interconnect basis, which does not require Arkansas state certification, and states that the dismissal of its application by APSC was the result of its decision not to prosecute the application rather than an attempt to defraud this Commission. MMT's petition is insufficient to raise character issues against Airsignal; however, as with AAA, we desire a further investigation into Airsignal's participation in the alleged anti-competitive conduct. Therefore, we will deny MMT's "Petition to Deny" except to the extent indicated above.

Mahaffey

10. MMT filed protests against both Mahaffey's paging and 450 MHz applications. MMT states that Mahaffey, in collusion with other radio common carrier applicants, has persistently blocked the entry of any potential competition into the Memphis metropolitan market by

[5] Section 21.516 requires an applicant for additional facilities to show that there is an unsatisfied need for the additional service, and that the applicant's present facilities are inadequate to serve that need.

[6] The applications are: AAA—F.C.C. File No. 20032–C2–P–(4)–74; Airsignal—F.C.C. File No. 20076–C2–P–(4)–74; Otis Hale—F.C.C. File No. 8942–C2–P–(2)–73.

[7] Section 21.28(d) of the Rules provides for the return without prejudice of applications received after the dates prescribed in Section 21.30(b) of the Rules. This application will be eligible for refiling only after a final decision is rendered by the Commission with respect to the present applications or after the dismissal or removal of the present applications from this hearing.

[9] *Id* at 558.

V 41 151 AUG 4 76 UMI

using the cut-off provisions of the Commission's rules in conjunction with the Commission's requirement that an applicant obtain a valid state authorization before filing. MMT alleges that Mahaffey violated § 21.516 of the Commission's Rules which requires justification for the additional applications by providing a valid channel loading survey and evidence of need for the additional service. MMT contends Mahaffey has not done this, and that the only basis for the Mahaffey filings was to block MMT. MMT requests denial of Mahaffey's applications or, in the alternative, that it be allowed intervention pursuant to § 1.223 (d) of the rules[10] as a competing applicant with Mahaffey's 450 MHz applications by granting its request for a waiver of the cut-off provisions of the rules. MMT complains further that Mahaffey's applications also violate § 1.726 of the rules[11] and deliberately committed acts of discrimination and unreasonable preference. Moreover, MMT urges that Mahaffey disregarded § 21.516 of the rules when it filed for the two additional one-way frequencies for Collierville and Munford with so few subscribers using those channels.

11. Aside from the limited intervention we are allowing with regard to Mahaffey's 450 MHz applications (see footnote 9), MMT's pleadings have not shown good cause to justify either the denial of Mahaffey's applications or a waiver of the cut-off provisions of the rules. MMT's request essentially rely upon alleged violations of § 21.516 of the rules, and Mahaffey's participation in the alleged anticompetitive activity. As indicated, these matters will be explored in the hearing ordered herein, and MMT will be able to participate thereon. Finally, we will deny MMT's request for a waiver of the cut-off provisions of the rules since we are not as yet satisfied that MMT has been the victim of anti-competitive conduct. Moreover, if we granted MMT's request it in turn would be cut off from other possible applications, and thereby could obtain an unjustified preferred position. Compare "Fort Harrison Telecasting Corporation v. Federal Communications Commission", 297 F. 2d 779. (D.C. Cir. 1961)

CONCLUSIONS

12. We agree with MMT that Mahaffey's channel-loading surveys should be scrutinized in the hearing and if they are found insufficient, the applications should be denied. In light of the small number of subscribers on its existing two-way facilities and the events MMT alleges which preceded the Mahaffey filings, we will require Mahaffey under issue (3) to support further the need for additional two-way facilities.

Empire Communications Co., 40 F.C.C. 2d 329 (Rev. Bd. 1974).

13. Additionally, we are not persuaded that sufficient need exists for the additional low-band one-way facility proposed at Collierville, Tennessee by Mahaffey. And we note that Mahaffey, has been granted the additional use of one-way facilities in the same general service area.[12] Therefore, we will require that Mahaffey under issue (3) support the need for this additional one-way facility and demonstrate the incapability of the existing one-way and two-way facilities to provide the proposed service.

14. We question Mahaffey's good faith in originally filing for nearly all the 450 MHz frequencies available, and especially the filing of the two additional applications for the only remaining RCC spectrum space available immediately after MMT obtained its required state authorization. Consequently, we will include an issue to determine the facts and circumstances surrounding Mahaffey's filing of additional applications for nearly all of the available 450 MHz frequencies and the lowband one-way frequencies in the Memphis metropolitan market.

15. In view of the foregoing, the Commission finds that Mahaffey Message Relay, Inc., and Memphis Mobile Telephone, Inc., are legally, technically, financially, and otherwise qualified to receive a grant of their above-captioned applications except for the issues set forth below.

16. *Accordingly, it is ordered*, That pursuant to sections 309(d) and (e) of the Communications Act of 1934, as amended, the above-captioned applications of Mahaffey Message Relay, Inc., and Memphis Mobile Telephone, Inc., are designated for hearing in a consolidated proceeding upon the following issues:

(1) To determine whether Mahaffey Message Relay, Inc., AAA Anserphone-Jackson, Airsignal International, Inc., and Otis Hale d/b/a Mobilephone have jointly engaged in conduct intended to prevent the filing of competing applications for radio common carrier frequencies in the greater Memphis, Tennessee metropolitan area.

(2) To determine the facts and circumstances surrounding Mahaffey's filing of applications for 450 MHz and lowband one-way frequencies in the Memphis metropolitan market subsequent to January 1, 1973.

(3) To determine the nature and extent of the services now rendered by Mahaffey Message Relay, Inc., and the capacity of its existing facilities in light of § 21.516(b) of the Commission's rules and regulations.

(4) To determine the nature and extent of the services proposed by Mahaffey Message Relay, Inc., and Memphis Mobile Telephone, Inc.

(5) To determine the total area and population to be served by Mahaffey Message Relay, Inc., and Memphis Mobile Telephone, Inc., within the 43 dbu contour of each proposed station based upon the standards set forth in § 21.504 of the Commission's rules and regulations, and to determine the need for the proposed service in that area.

(6) To determine, in light of the evidence adduced pursuant to issues (1), (2) and (3) above, whether the public interest, convenience and necessity will be served by a grant of any or all of the applications of Mahaffey Message Relay, Inc., in whole or in part.

(7) To determine, in consideration of all the evidence adduced under the proceeding issues, whether the public interest, convenience or necessity will be served by a grant of either the application of Mahaffey Message Relay, Inc., or the application of Memphis Mobile Telephone, Inc., for authority to operate on 43.58 MHz.

17. *It is further ordered*, That the burden of proof on issues (1), (2) and (3) is placed on the respective parties named therein, and on issues (4) and (5) the burden of proof is placed jointly on the competing applicants named under those issues.

18. *It is further ordered*, That the hearing ordered herein shall be held at a place and time to be specified in a subsequent order of the Chief Administrative Law Judge.

19. *It is further ordered*, That the Chief, Common Carrier Bureau is made a party to the proceeding.

20. *It is further ordered*, That AAA-Answerphone Inc.—Jackson; Airsignal International, Inc.; and Otis Hale d/b/a Mobilephone ARE MADE respondents to this hearing for the purpose of participating with respect to issue (1) above.

21. *It is further ordered*, That the parties herein may avail themselves of an opportunity to be heard by filing with the Commission pursuant to § 1.221(e) of the rules within twenty (20) days of the release date of this Memorandum Opinion and Order, a written notice stating an intention to appear on the date set for hearing and present evidence on the issues specified.

Adopted: July 7, 1976.

Released: August 4, 1976.

FEDERAL COMMUNICATIONS COMMISSION,[13]
VINCENT J. MULLINS,
Secretary.

[FR Doc.76-22607 Filed 8-3-76;8:45 am]

[10] Section 1.223(d) applies to intervention by parties in interest after applications have been designated for hearing. Rather than require MMT to request formal intervention after this Order is released, we will waive the requirement and allow MMT to intervene and present evidence relating to Mahaffey's 450 MHz applications.

[11] Section 1.726 requires that formal complaints alleging such matters as discrimination or unreasonable preference must specify the carrier and a description of the particular acts relied upon which constitute a violation of the Communications Act.

[12] Mahaffey was granted potential shared use of frequency 158.72 MHz with Airsignal in Docket 19801 (FCC 75M-1605, released October 3, 1975, recon. denied FCC 75R-434, released Nov. 25), and its application for 43.22 MHz at Munford was granted July 8, 1975 (RNT-893).

[13] Commissioner Robinson absent.

FEDERAL ENERGY ADMINISTRATION

OFFICE OF EXCEPTIONS AND APPEALS

Cases Filed During the Week of June 14 Through June 18, 1976

Notice is hereby given that during the week of June 14 through June 18, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

APPEALS

Larkin, Hoffman, Daly & Lindgren, Ltd.; Minneapolis, Minn.; FEA–0852; Freedom of Information

The law firm of Larkin, Hoffman, Daly & Lindgren, Ltd. (Larkin) appealed from an Order issued to it by the Information Access Officer of the FEA which denied in part a Request for Information which the firm had filed under the Freedom of Information Act, 5 U.S.C. 552. In its Request for Information, Larkin sought certain documents pertaining to the manner in which the Union Oil Company of California had applied customary price differentials and the class of purchaser doctrine in its sales of motor gasoline. In previous decisions, the FEA has held that an appeal must identify with particularity the alleged errors in fact or in law which occurred in the determination being appealed, and that specific arguments must be advanced by the appellant in support of those contentions. Since Larkin's Appeal failed to satisfy these requirements, it was dismissed. The firm was however given an opportunity to file an amended Appeal which conformed to the FEA Procedural Regulations within 15 days.

Naph-Sol Refining Co.; Washington, D.C.; FEA–0811; Motor Gasoline; No. 2 Fuel Oil

The Naph-Sol Refining Company (Naph-Sol) appealed from a Decision and Order which the FEA issued denying the firm's Application for Exception. Naph-Sol Refining Co., 3 FEA Par. 83,134 (March 19, 1976). The Appeal, if granted, would result in the assignment of a new supplier to replace the Koch Refining Company and the Osceola Refining Company as Naph-Sol's base period suppliers of motor gasoline and fuel oil. In considering Naph-Sol's Appeal, the FEA noted that despite repeated explicit requests from the FEA, Naph-Sol had failed to provide the factual material which was essential to an assessment of the impact of the FEA Regulations on the firm. In the absence of this data the FEA had properly denied the firm's exception request. The FEA also determined that there was no merit to Naph-Sol's contention on Appeal that the data which it had previously submitted was sufficient to enable the FEA to conclude that exception relief was warranted. After analyzing the firm's further contention that specific factual errors occurred in the prior analysis, the FEA concluded that any such error resulted from Naph-Sol's failure to provide appropriate data. However even if the corrections which Naph-Sol contends should be made were in fact made there would still be no proper basis for concluding that a significant price disparity existed which warranted exception relief. Accordingly, Naph-Sol's Appeal was denied.

Northern Illinois Gas Co.; Aurora, Ill.; FEA–0778—General Motors Corp.; Detroit, Mich.; FEA–0779—Petrochemical Energy Group; Washington, D.C.; FEA–0777; Natural Gas Liquids

Northern Illinois Gas Company (NI-Gas), General Motors Corporation (GM) and the Petrochemical Energy Group (PEG) filed Appeals from a Decision and Amended Order which the FEA Assistant Administrator for Regulatory Programs issued to NI-Gas on February 5, 1976. In that determination the FEA assigned NI-Gas an allocation of natural gas liquids for use during the period February 5, 1976 through March 31, 1977 as a feedstock in its Aux Sable, Illinois synthetic natural gas (SNG) plant. As a prerequisite to receiving an SNG feedstock allocation for a period subsequent to March 31, 1977, NI-Gas was required to furnish data to the FEA as to (i) the customers which it serves that have alternate fuel capability on a continuing basis; (ii) its efforts to implement an incremental pricing program for the SNG it supplies; and (iii) the growth in service, if any, which it has experienced subsequent to February 1, 1976. Since the three Appeals involved similar issues, they were consolidated into the current proceeding. In considering the Appeals, the FEA made the following findings:

(i) contrary to NI-Gas' assertions that the Amended Order contains various factual errors, the Order has ample factual support in the record;

(ii) the FEA in accordance with Special Rule No. 1 and the accompanying Statement of Policy properly included provisions in the Amended Order which require NI-Gas to take steps to implement incremental pricing and to provide certain data to the FEA;

(ii) the amended Order did not violate Special Rule No. 1 or the Statement of Policy by failing to include provisions requiring the immediate implementation of incremental pricing or the immediate curtailment of NI-Gas' customers. The Regulations governing the allocation of SNG feedstocks do not require that SNG be incrementally priced on an immediate basis, nor do they categorically prohibit allocated feedstocks from being used to produce SNG which is then used by persons who do have alternate fuel capability;

(iv) neither the manner in which the FEA defined the term "alternate fuel capability on a continuing basis" for purposes of the Amended Order, nor the FEA's failure to provide for curtailment of service to NI-Gas' customers which use SNG as boiler fuel, was unreasonable;

(v) contrary to PEG's assertions, the approval of an allocation of SNG feedstock to NI-Gas is supported by the record;

(vi) all appellants were provided a meaningful opportunity to participate at all stages of the proceeding and existing procedural standards had therefore been adequately observed by the FEA; and

(vii) certain issues raised by the appellants, including the FEA's statutory authority to regulate natural gas liquids and compliance with the National Environmental Policy Act of 1969, have already been raised by the parties and addressed by the FEA in a similar case, Consumers Power Company, 3 FEA Par. 80,624 (April 30, 1976), and the determinations made in that case are controlling.

On the basis of these findings, the FEA affirmed the February 5 Order insofar as it concerned the decision to allocate sufficient feedstocks to NI-Gas to permit it to operate its SNG plant at capacity during 1976 while simultaneously requiring that NI-Gas gather data as to incremental pricing, alternate fuel capability and growth. However, in accordance with a recent decision issued by the United States District Court for the Eastern District of Michigan, the FEA deleted and modified certain provisions of the February 5 Order regarding the information which NI-Gas was required to obtain from customers which might be subject to eventual curtailment. In all other respects, the FEA denied the Appeals.

Port Arthur Towing Co.; Palmer Midstream Service, Inc.; Houston, Tex.; FEA–0823; Refined Petroleum Products

Port Arthur Towing Company and its subsidiary, Palmer Midstream Service, Inc., appealed from a denial by the FEA Region VI of a Motion to Quash or Modify a Subpoena issued to Port Arthur. In considering the Appeal, the FEA determined that neither the issuance of a subpoena nor the denial of a Motion to Quash or Modify a Subpoena is an FEA action from which a formal administrative appeal may be taken pursuant to the FEA procedural regulations. However, the FEA concluded that if Port Arthur had made a prima facie showing in its submission that FEA Region VI had abused its investigatory authority or had imposed an inordinate or unreasonable burden on the firm, the Office of Private Grievances and Redress would have reviewed the firm's submission and considered it on its merits as a Petition for Special Redress. The FEA found that Port Arthur had failed to make even a preliminary showing that the issuance to it if the subpoena constituted an abuse of the FEA's discretion. In the subpoena the FEA sought only information relevant to the prices which Port Arthur has charged for covered petroleum poducts. The information is of a type which it is reasonable and proper to require a firm which is subject to federal pricing regulations to provide in order to determine whether it has in fact complied with those regulatory requirements. The FEA also found that Port Arthur should experience no significant inconvenience in assembling the requested information and that there was no basis for the firm's contention that the subpoena violated its procedural rights to due process of law. On the basis of these findings, the FEA dismissed Port Arthur's Appeal.

PRC Computer Center, Inc.; McLean, Va.; FEA–0841; Freedom of Information

PRC Computer Center, Inc. (PRC) appealed from an Order issued to it by the Information Access Officer of the FEA which denied in part a Request for Information filed by the firm under the Freedom of Information Act, 5 U.S.C. 552 (the Act). The Information Access Officer stated that he was withholding two documents from public disclosure as exempt material under the Act. The two documents which were withheld, a March 12, 1976 memorandum and Attachment V to that memorandum, set forth various findings of an intra-agency board regarding the performance of a firm which had previously received a "cost plus award fee contract" and the firm's eligibility to receive a subsequent contract. In considering PRC's Appeal, the FEA determined that Attachment V to the March 12 memorandum and certain portions of the memorandum itself were pre-decisional, intra-agency materials which were intended to assist the FEA's contracting officer in making his final, independent award fee determination. The FEA therefore concluded that these materials were exempt from public disclosure under Section 552(b)(5) of the Act. However, the FEA also determined that the March 12 memorandum contained statements which embodied the agency's effective policy with respect to the evaluation of firms which had received cost plus award fee contracts and other statements of a factual nature which merely described certain attachments to the memorandum. These portions of the March 12 memorandum were held not to be within

V 41 151 AUG 4 76 UMI

the purview of Section 552(b)(5) or otherwise exempt from public disclosure under the Act, and PRC's Appeal with respect to these portions was granted. The Appeal was denied in all other respects.

West Penn Power Co.; Greensburg, Pa.; FEA–0755; No. 2 Fuel Oil

West Penn Power Company (West Penn) filed an Appeal from a Decision and Order issued to it by the Federal Energy Administration. West Penn Power Company, 2 FEA Par. 83,272 (August 29, 1975). In that determination the FEA denied West Penn's request for a permanent exception from the provisions of 10 CFR 215.3, but granted the firm temporary exception relief which permitted it to burn No. 2 fuel oil in the electrical generating units of its Milesburg plant for a period of one year. West Penn's Appeal, if granted, would reverse the August 29, 1975 Decision and grant West Penn permanent exception relief from the requirements of Section 215.3. In considering West Penn's Appeal, the FEA determined that the firm had demonstrated that it was unable to obtain a variance to use coal at its Milesburg plant, and that if it were required to shut that plant down, West Penn and its customers would experience severe adverse consequences. Accordingly, the FEA concluded that West Penn had made the threshold showing with respect to the inequity and unfair distribution of burdens criteria set forth in Iowa Southern Utilities Company; West Penn Power Company, 3 FEA Par. 80,510 (November 17, 1975). The FEA then considered the additional costs which West Penn would experience if its request for permanent exception relief were denied. The FEA determined that West Penn would incur costs in excess of $4.5 million for pollution control equipment if the Milesburg plant were converted to utilize coal as a fuel in compliance with State air pollution regulations. Based on the firm's projections that it would save 311,238 barrels of oil under these circumstances, the incremental cost to West Penn of each barrel of oil saved would be approximately $14.67 per barrel. The FEA concluded that when this cost was viewed in relation to the short remaining life of the Milesburg plant, West Penn's size and resources and the nature of the firm's operations, the costs involved were so disproportionate to the benefits obtained in furthering national energy policy objectives that a gross inequity resulted. On the basis of these findings, the FEA granted West Penn permanent exception relief from the provisions of 10 CFR 215.3 and permitted it to burn No. 2 fuel oil at its Milesburg plant through 1985.

REQUESTS FOR EXCEPTION

Anadarko Production Co.; Houston, Tex., FEE–2376; Crude Oil

Anadarko Production Company (Anadarko) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. Its request, if granted, would permit Anadarko to sell at upper tier ceiling prices the crude oil produced from the Herrin-Burson Harris Sand Unit located in Creek County, Oklahoma. In considering the exception application, the FEA determined that: (i) due to the rapidly declining production from the Unit, the operating cost per barrel of crude oil produced has increased significantly between 1973 and 1975 and now exceeds the lower tier ceiling price which Anadarko is permitted to charge; (ii) consequently, Anadarko lacks an economic incentive to continue secondary recovery operations at the Unit; (iii) if Anadarko abandons secondary operations at the Unit, approximately 56,900 barrels of crude oil otherwise recoverable from the reservoir would be lost. On the basis of previous precedents involving similar factual situations, the FEA concluded that the application of the lower tier ceiling price rule to Anadarko resulted in a gross inequity and that exception relief should be granted in this case. An analysis of the specific financial and operating data which Anadarko submitted led to the further conclusion that Anadarko should be permitted to sell at upper tier ceiling prices, 41.116 percent of the crude oil which it produces for the benefit of the working interest owners.

R. A. Campbell Co.; Vidalia, La.; FEE–2399; Crude Oil

The R. A. Campbell Company (Campbell) filed an Application for Exception from the provisions of 10 CFR 210.32 which, if granted, would retroactively permit the Nolan-Henderson No. 1 Unit which Cambell operates to be classified as a stripper well lease. In considering Campbell's exception request, the FEA noted that on the basis of a preliminary audit of Campbell's pricing activities FEA auditors have stated to the firm that it may be required to refund $4,997.96 to its customers to compensate for overcharges which resulted from Campbell's classification of its Nolan-Henderson Unit as a stripper well lease. The FEA pointed out, however, that the preliminary data which Campbell submitted to the FEA suggests that there is a substantial question as to whether the auditors applied the appropriate definition of stripper well lease in making calculations for the period prior to November 27, 1973, and the initial conclusions of the FEA compliance staff might therefore be revised. Nevertheless, the financial and operating data which Campbell submitted in support of its exception application indicates that even if the firm is required to remit the full $4,997.96 to its customers it will not significantly affect the firm's operations or cause it to experience an irreparable injury. The FEA therefore denied Campbell's application for retroactive exception relief.

Fletcher Oil & Refining Co.; Wilmington, Calif.; FEE–2432; Crude Oil

Fletcher Oil and Refining Company (Fletcher) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements during the months of June, July and August 1976 to account for its crude oil runs and receipts of old oil during the period April through June 1976. In support of its exception request, Fletcher submitted financial statements for its fiscal year ended April 30, 1976, and specified the volumes of crude oil runs to stills and receipts of old, new and imported crude oil which the firm experienced for the month of April 1976. On the basis of this information, Fletcher requested exception relief for a three month period while it gathered data for its current fiscal year in support of a new exception application which the firm intends to file. In considering Fletcher's exception request the FEA determined that the firm's entitlement purchase obligations in June produced a situation in which Fletcher will not be able to achieve its historic profit margin or return on invested capital for its fiscal year ending April 30, 1976. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975), and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore approved in order to relieve Fletcher of its entitlement purchase obligation in June 1976. The financial and operating material which Fletcher submitter and the firm's prior experience under the Entitlements Program led to the further conclusion that it was very likely that Fletcher would qualify for exception relief in the months of July and August 1976. In order to avoid any disruption in the firm's business activities, additional exception relief was approved relieving Fletcher of any obligation to purchase entitlements during July and August as well. However, the FEA noted that the relief granted to Fletcher for June 1976 will be reviewed in the very near future and the relief approved for July and August will be reevaluated if the firm requested an extension of the exception relief beyond August 1976. In addition, as is the case with all Entitlemen's Program exception decisions, the relief granted to Fletcher will be reevaluated as a matter of course at the conclusion of the firm's fiscal year and appropriate adjustments will be made to correct any discrepancy between the firm's financial projections and the actual financial results which it achieves.

Good Hope Industries, Inc.; Springfield, Mass.; FEE–2369; Crude Oil

Good Hope Industries, Inc. (Good Hope) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Good Hope submitted projected financial statements for its current fiscal year ending July 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Good Hope's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Good Hope's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. However, the FEA noted in the decision which it issued that the relief approved to Good Hope would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and Good Hope will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Husky Oil Co. of Delaware, Inc.; Denver, Colo.; FEE–2442; Crude Oil

Husky Oil Company of Delaware, Inc. (Husky) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would have relieved the firm of any obligation to purchase entitlements. After reviewing the financial and operating data which Husky provided, the FEA determined that Husky will be a net seller of entitlements during the final three quarters of its fiscal year ending December 31, 1976. In view of the fact that Husky will obtain significant benefits under the Entitlements Program the FEA concluded that the firm had failed to substantiate its contention that the Program will produce a serious hardship. The Husky exception request was therefore denied.

Kern County Refinery, Inc.; Bakersfield, Calif.; Fee–2454; Crude Oil

Kern County Refinery, Inc. (Kern) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April, 1976. In support of its exception request, Kern submitted projected financial statements for its fiscal year which ends on December 31, 1976, as well as projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. The FEA found that because of the unusual factors that were present in this case as a result of the fact that Kern purchased the refinery which it operates from the Charter Oil Company (Charter) effective January 1, 1976, the determination of whether exception relief is appropriate should be based solely on a profit margin analysis. On the basis of the refinery's contribution to the total financial and operating results of its former owner during the fiscal years 1972 through 1975, the FEA determined an historic profit margin for the firm and compared that historic profit margin with the profit margin which the firm projected it would achieve for the current fiscal year in the absence of exception relief. The comparison indicated that the firm's current profit margin would be significantly below its historic profit margin as a direct result of its substantial entitlement purchase obligations. Accordingly, Kern was granted an exception which relieved the firm of a portion of its entitlement purchase obligations. The exception relief was granted for the six month period June through November 1976 to account for the firm's crude oil runs to stills and old oil receipts during the period April through September 1976. The FEA noted, however, that the relief approved to Kern would be reevaluated if the firm requested an extension of the exception beyond November 1976 and at the conclusion of the firm's fiscal year. The Decision further noted that an adjustment will be made which will require the firm to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves. On the basis of that reevalaution, adjustments may also be made permitting Kern to sell additional entitlements.

Little America Refining Co.; Evansville, Wyo.; FEE–2455; Crude Oil

Little America Refining Company (Little America) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Little America submitted projected financial statements for its current fiscal year ending September 30, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Little America's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Little America's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. However, the FEA noted in the decision which it issued that the relief approved to Little America would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's current fiscal year. The decision further noted that an adjustment will be made and Little America will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Lunday-Thagard Oil Co.; South Gate, Calif.; FEE–2434; Crude Oil

Lunday-Thagard Oil Company (Lunday-Thagard) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Lunday-Thagard submitted projected financial statements for its current fiscal year ending June 30, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Lunday-Thagard's exception request the FEA determined that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during its current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted for the firm's fiscal year ending June 30, 1976. The FEA also determined that the financial material which Lunday-Thagard submitted indicated that it would be entitled to exception relief during the early part of its 1977 fiscal year. In accordance with the FEA's previous determination that exception relief from the provisions of the Old Oil Entitlements Program would be generally granted for a period of six months (41 Fed. Reg. 20394), the FEA granted Lunday-Thagard's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. The FEA noted, however, that the relief granted to Lunday-Thagard would be reevaluated if the firm requested an extension of the exception beyond November 1976 and at the conclusion of the firm's current fiscal year. The decision further noted that an adjustment will be made and Lunday-Thagard will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Midland Cooperatives, Inc.; Cushing, Okla.; FEE–2452; Crude Oil

Midland Cooperatives, Incorporated (Midland) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements. After reviewing the financial and operating data which Midland provided, the FEA determined that Midland will be a net seller of entitlements during the final two quarters of its current fiscal year ending December 31, 1976. In view of the fact that Midland will obtain significant benefits under the Entitlements Program the FEA concluded that the firm had failed to substantiate its contention that the Program will produce a serious hardship. Midland's exception request was therefore denied.

Mohawk Petroleum Corp., Inc.; Los Angeles, Calif.; FEE–2433; Crude Oil

Mohawk Petroleum Corporation, Inc. (Mohawk) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Mohawk submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Mohawk's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligation would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83.275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Mohawk's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. However, the FEA noted in the decision which it issued that the relief approved to Mohawk would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and Mohawk will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

OKC Corp.; Dallas, Tex.; FEE–2365; Crude Oil

OKC Corporation (OKC) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements. After reviewing the financial and operating data which OKC provided, the FEA determined that OKC will be a net seller of entitlements during the final two quarters of its current fiscal year ending September 30, 1976. In view of the fact that OKC will obtain significant benefits under the Entitlements Program the FEA concluded that the firm had failed to substantiate its contention that the Program will produce a serious hardship. OKC's exception request was therefore denied.

Pasco, Inc.; Denver, Colo.; FEE–2441; Crude Oil.

Pasco, Inc. (Pasco) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Pasco submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills

V 41 151 AUG 4 76 UMI

and receipts of old, new and imported crude oil for the fiscal year. In considering Pasco's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Pasco's Application for Exception relieving the firm of a portion of its obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. However, the FEA noted in the decision which it issued that the relief approved to Pasco would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and Pasco will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves. At that time a further determination will also be made as to whether sufficient exception relief was approved for the prior period. On the basis of that determination further adjustments may be made and Pasco may be permitted to sell additional entitlements.

Rock Island Refining Corp.; Indianapolis, Ind.; FEE–2431; crude oil.

Rock Island Refining Corporation (Rock Island) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Rock Island submitted projected financial statements for its current fiscal year ending November 30, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Rock Island's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Rock Island's Application for Exception relieving the firm of a portion of its obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. However, the FEA noted in the decision which it issued that the relief approved to Rock Island would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and Rock Island will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves. At that time a further determination will also be made as to whether sufficient exception relief was approved for the prior period. On the basis of that determination further adjustments may be made and Rock Island may be permitted to sell additional entitlements.

San Joaquin Refining Co.; Oildale, Calif.; FEE–2356; crude oil.

San Joaquin Refining Company (San Joaquin) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, San Joaquin submitted financial statements for its current fiscal year which ends April 30, 1976. The firm also submitted data showing its actual crude oil runs to stills and receipts of old, new and imported crude oil for April 1976, and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its 1977 fiscal year. In considering San Joaquin's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted San Joaquin exception relief from that portion of its entitlement purchase obligations for the months of May through September 1976 which would otherwise preclude it from achieving its historic profit margin during its 1977 fiscal year. The FEA noted, however, that the relief granted to San Joaquin would be reevaluated if the firm requested an extension of the exception beyond November 1976 and at the conclusion of the firm's fiscal year when actual financial data is available. The Decision further noted that an adjustment will be made and the firm will be required to buy entitlements if San Joaquin receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieved. On the basis of the reevaluation, adjustments may also be made permitting San Joaquin to sell additional entitlements.

Southland Oil Company; Jackson, Miss.; FEE–2438; crude oil.

Southland Oil Company (Southland) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception requests, Southland submitted projected financial statements for its current fiscal year which ends December 31, 1976. The firm also submitted projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its 1976 fiscal year. In considering Southland's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. —— (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Southland's Application for Exception relieving the firm of a portion of its entitlement purchase obligations during the months of June through November 1976. The FEA noted, however, that the relief approved to Southland would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The Decision further noted that an adjustment will be made and the firm will be required to buy entitlements if Southland receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves. At that time a determination will also be made as to whether Southland has received sufficient exception relief. On the basis of that determination further adjustments may be made and Southland may be permitted to sell additional entitlements.

Sunland Refining Co.; Los Angeles, Calif.; FEE–2456; crude oil.

Sunland Oil Company (Sunland) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Sunland's submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Sunland's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. —— (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Sunland's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. The FEA noted, however, that the relief granted to Sunland would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and the firm will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Warrior Asphalt Co. of Alabama, Inc.; Tuscaloosa, Ala.; FEE–2439; crude oil.

Warrior Asphalt Company of Alabama, Inc. (Warrior) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Warrior submitted projected financial statements for its current fiscal year ending March 31, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Warrior's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. —— (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Warrior's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. The FEA noted, however, that the relief granted to Warrior would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and Warrior will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projects it submitted and the actual financial results which it achieves.

West Coast Oil Co.; Oildale, Calif.; FEE–2235; crude oil.

West Coast Oil Company (West Coast) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements. After reviewing the financial and operating data which West Coast provided, the FEA determined that West Coast will be a net seller of entitlements during the final three quarters of its current fiscal year ending December 31, 1976. In view of the fact that West Coast will obtain significant benefits under the Entitlements Program the FEA concluded that the firm had failed to substantiate its contention that the Program will produce a serious hardship. West Coast's exception request was therefore denied.

Young Refining Co.; Douglasville, Ga.; FEE–2364; crude oil.

Young Refining Company (Young) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Young submitted projected financial statements for its current fiscal year ending March 31, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Young's exception request the FEA determined that a substantial showing has been made that the firm's entitlement purchase obligations would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal year. Pursuant to the criteria set forth in Delta Refining Company, 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Company, 3 FEA Par. ----- (June 8, 1976), exception relief was therefore warranted. Accordingly, the FEA granted Young's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. The FEA noted, however, that the relief granted to Young would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and at the conclusion of the firm's fiscal year. The decision further noted that an adjustment will be made and Young will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

REQUEST FOR STAY

Farmers Union Central Exchange, Inc.; St. Paul, Minn.; FES–2570; motor gasoline.

The Farmers Union Central Exchange, Inc. (CENEX) requested that the application to it of the provisions of 10 CFR 211.9 be stayed pending a determination on its Application for Exception from those same regulatory provisions. The stay if granted, would have relieved CENEX of its obligation to supply three of its base period purchasers with their allocation entitlements of motor gasoline, from July 1, 1976 until the effective date of the FEA's decision with respect to the CENEX Application for Exception. In considering the application, the FEA determined that CENEX had not provided sufficient evidence that it would experience a hardship or irreparable injury in the absence of a stay, nor did it claim that it otherwise met the criteria stated in 10 CFR 205.125(b) which govern the approval of stay relief. The FEA therefore denied CENEX's Application for Stay.

DISMISSALS

The following submissions were dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

K.L.M. Oil Co.; Long Beach, Calif.; FEE–2479—Phillips Petroleum Co.; Bartlesville, Okla.; FEE–2414—South Hampton Co.; Silsbee, Tex.; FEE–2362—Thriftway Co.; Farmington, N. Mex.; FEE–2333—V–I Oil Co.; Washington, D.C.; FEE–2353.

The following submissions were dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Chemplex Co.; Washington, D.C. FEE–2495—Small's LP Gas Co.; Wyatt, Mo.; FEE–2418.

TEMPORARY STAY

The following Application for Temporary Stay was approved on the grounds that the applicant made a compelling showing that temporary stay relief was necessary to prevent an irreparable injury:

Kern County Refinery, Inc.; Bakersfield, Calif.; FST–0007.

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B–120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

Dated: July 30, 1976.

DAVID G. WILSON,
Acting General Counsel.

[FR Doc.76–22585 Filed 7–30–76;1:38 pm]

OFFICE OF EXCEPTIONS AND APPEALS

Cases Filed During the Week of June 21 Through June 25, 1976

Notice is hereby given that during the week of June 21 through June 25, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

APPEALS

National Oil Jobbers Council; Washington, D.C.; FEA–0845; Freedom of Information

The National Oil Jobbers Council (NOJC) appealed from an Order in which the FEA denied in part a Request for Information which the NOJC had submitted under the Freedom of Information Act, 5 U.S.C. 552. In its Request, the NOJC had sought a copy of the entire FEA Compliance Manual (the Manual). The Manual is primarily designed to provide guidance to staff members of the FEA Office of Compliance. In response to the NOJC's request, the FEA Information Access Officer released a large portion of the Manual. However, the Information Access Officer deleted from the copy of the Manual which was released certain material which he found was sensitive law enforcement material which would enable potential violators to circumvent the law and escape detection. In its Appeal, the NOJC contended that the Information Access Officer erroneously concluded that certain of the deleted sections of the Manual are exempt from mandatory public disclosure. In considering the NOJC's Appeal, the FEA noted that in a recent decision, the United States District Court for the District of Columbia held that agency manuals which discuss sensitive investigatory strategy are properly within the scope of the second exemption to the Freedom of Information Act, i.e., 5 U.S.C. 552(b)(2). Ginsburg, Feldman & Bress v. Federal Energy Administration, ---- Supp. ----, Civil Action No. 76–27 (D.D.C. June 18, 1976). Since substantially all of the material which the NOJC sought consisted of investigatory techniques and procedures which could alert a law violator to the most effective means of evading detection or frustrating legitimate investigations, the FEA held that the material involved was therefore properly withheld from public disclosure. The FEA also found that Section 3.108.00 of the Manual did not contain investigatory techniques or procedures and was therefore subject to mandatory disclosure. Consequently, the NOJC Appeal was granted in part, and an order was entered directing that a copy of Section 3.108.00 of the Manual be released.

Superior Oil Co.; Houston, Tex.; FEA–0796 (Cymric); FEA–0797 (Elk City); FEA–0798 (Kettleman Hills); FEA–0799 (Levelland); FEA–0800 (Okeene); FEA–0801 (Portilla); natural gas liquids

Superior Oil Company (Superior) filed six Appeals from a Decision and Order which the FEA issued to it on February 27, 1976. Superior Oil Co., 3 FEA Par. 83,118 (February 27, 1976). In the previous decisions, the FEA denied exception relief with respect to two gas processing plants which have incurred non-product cost increases of a de minimus nature. Superior's Appeals, if granted, would result in a determination that the FEA's de minimum standards should be changed from a threshold level of $.005 to $.001 per gallon. In considering Superior's Appeals, the FEA determined that the firm had presented no data which indicates that the $.005 per gallon de minimus standard for exception relief lacks a rational basis, nor had the firm substantiated its contention that the FEA acted in an arbitrary or capricious manner in developing that standard. However,

V 41 151 AUG 4 76 UMI

the FEA also held that, in analyzing the previous application for the Kettleman Hills plant, the FEA improperly adjusted the relief provided to reflect a decrease in the unit cost for depreciation. The FEA concluded that this adjustment was not appropriate since depreciation expense is a non-cash item which should have been excluded from the computation of Superior's non-product costs. Accordingly, the FEA granted Superior's Appeal with respect to the Kettleman Hills plant, but denied the firm's other Appeals.

REQUESTS FOR EXCEPTION

Edgington Oil Co.; Long Beach, Calif.; FEE–2457; crude oil.

Edgington Oil Company filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Edgington submitted projected financial statements for its current fiscal year ending June 30, 1976, and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Edgington's exception request, the FEA determined that a substantial showing had been made that the firm's entitlement purchase obligation would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal yer. Pursuant to the criteria set forth in Delta Ref. Co., 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Co., 3 FEA Par. ---- (June 8, 1976), exception relief was therefore warranted for the current fiscal year. Based on the material which Edgington submitted, a further determination was made that exception relief was also appropriate for the initial months of the firm's 1977 fiscal year beginning on July 1, 1976. Accordingly, the FEA granted Edgington's exception application relieving the firm of sufficient entitlement purchases during the months of June through November 1976, to permit Edgington to achieve its historic profit margin during the current fiscal year and the initial three months of the firm's 1977 fiscal year. However, the FEA noted in the Decision which it issued that the relief approved would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and also at the conclusion of the firm's fiscal year. The Decision further noted that an adjustment will be made and Edgington will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

GARY OPERATING CO.; Englewood, Colo.; FEE–2499. Natural gas liquid products

Gary Operating Company (Gary) requested an extension of the exception relief which was granted to it by the FEA on September 29, 1975. Gary Operating Co., 2 FEA Par. 83,311 (September 29, 1975). In that Decision, the FEA determined that Gary's non-product cost increases were substantially in excess of the amount which it was permitted to pass through under the provisions of Section 212.165 and that Gary should therefore be granted exception relief which permits it to increase its selling prices to reflect increased non-product costs. In the present proceeding, Gary requested that the exception relief granted on September 29 be extended for an additional period on the basis of the current cost data which it provided. In reviewing Gary's submission, the FEA determined that Gary's non-product cost increases remained substantially in excess of the $.005 per gallon passthrough permitted under the provisions of Section 212.165. The FEA therefore granted Gary's request and permitted the firm to increase its selling prices of natural gas liquid products by an amount which reflects its actual unrecovered non-product cost increases.

Navajo Refining Co.; Artesia, N. Mex.; FEE–2440; crude oil

Navajo Refining Company filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of April 1976. In support of its exception request, Navajo submitted projected financial statements for its current fiscal year which ends on July 31, 1976, and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the fiscal year. In considering Navajo's exception request, the FEA determined that a substantial showing had been made that the firm's entitlement purchase obligation would prevent it from achieving either its historic profit margin or return on invested capital during the current fiscal yer. Pursuant to the criteria set forth in Delta Ref. Co., 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Co., 3 FEA Par. ---- (June 8, 1976), partial exception relief was therefore warranted for the current fiscal year. Based on the material which Navajo submitted a further determination was made that exception relief was also appropriate for the initial months of the firm's 1977 fiscal year. Accordingly, the FEA granted Navajo's exception application relieving the firm of sufficient entitlement purchases during the months of June through November 1976 to permit it to attain its historic profit margin in the current fiscal year, and the first two months of its 1977 fiscal year. However, the FEA noted in the Decision which it issued that the relief approved would be reevaluated if the firm requested an extension of exception relief beyond November 1976 and also at the conclusion of the firm's fiscal year. The Decision further noted that an adjustment will be made and Navajo will be required to purchase entitlements if it receives excess benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Racine Commercial Airport Corp.; Racine, Wis., FEE–2321, aviation gasoline

Racine Commercial Airport Corporation (Racine) filed an Application for Exception from the provisions of 10 CFR, Part 211, which, if granted, would increase its base period use of aviation gasoline from 80,600 gallons to 173,000 gallons per year. In considering the exception request, the FEA found that Racine was experiencing an increased demand for aviation gasoline as a result of a significant increase in air traffic at the Racine Airport subsequent to the 1972 base period. The FEA also found that Racine was unable to purchase surplus product and that its inability to obtain an increased supply of aviation gasoline would frustrate the goals specified in Section 4(b)(1) of the Emergency Petroleum Allocation Act of 1973, as amended, by frustrating economic expansion in the Racine area and encouraging economic distortions and inefficiencies. The FEA therefore concluded that Racine qualifies for exception relief under the criteria established in previous FEA decisions. *See*, e.g., Bowen Service Station; Winninghoff Motors, Inc., 2 FEA Par. 83,058 (March 13, 1975). However, the FEA determined that a portion of the additional quantity of aviation gasoline requested by the firm (approximately 44,400 gallons) was intended for civil air carriers. Since those firms may obtain additional fuel through existing administrative procedures which do not involve the exceptions process, the increased base period use requested by Racine was reduced by 44,400 gallons. On the basis of these findings exception relief was approved increasing Racine's base period use of aviation gasoline to 128,600 gallons per year.

Sound Refining, Inc.; Tacoma, Wash.; FEE–2344, unfinished distillates

Sound Refining, Inc. filed an Application for Exception which, if granted, would permit the firm to determine its maximum allowable selling prices for refined petroleum products without regard to the ten percent limitation set forth in Section 212.83(e)(6). That regulatory provision relates to the amount of unrecouped crude oil cost increases which a firm may reflect in the selling prices of the products it refines and applies to any month after the two month period immediately following the month in which the cost increases were incurred. Sound contended that its operations are seasonal in nature and, as a consequence, the application to it of the ten percent limitation prevents it from recouping a substantial portion of its crude oil cost increases. In evaluating the exception application, the FEA determined that Sound purchases crude oil in only four or five months of each year and sells almost all of the covered products it produces, principally unfinished distillates, in the months of May through October. Since Sound does not sell refined petroleum products within the two month period following the month in which it purchases crude oil, the application of the ten percent price limitation set forth in Section 212.83(c)(6) prevents the firm from increasing its prices during the period in which it markets most of its covered products. The data submitted by Sound showed that the ten percent limitation contained in Section 212.83(e)(6) has resulted in drastic fluctuations in the prices which Sound is permitted to charge for its covered products and will have a significant adverse impact on its financial position during 1976. The FEA held that it was not intended that these extreme price fluctuations would occur when the ten percent limitation was promulgated. The FEA concluded that under these circumstances a gross inequity exists which warrants exception relief. Sound was therefore granted an exception which permits it to treat its February 1976 crude oil cost increases as having been incurred in four equal portions during the months of February, March, April and May 1976.

State of Hawaii; Honolulu, Hawaii; FEE–2480; motor gasoline diesel fuel

The Director of the Department of Planning and Economic Development of the State of Hawaii filed an Application for Exception from the provisions of the Mandatory Petroleum Price Regulations on behalf of the State. The exception request, if granted, would permit refiners, resellers and retailers of motor gasoline and diesel fuel in the State to increase their selling prices to reflect an increase in the license tax imposed by the State on distributors of those fuels. In considering the exception request, the FEA determined that the tax, which is regarded as a non-product cost under FEA Regulations which distributors cannot automatically pass through to the ultimate consumer, was similar in nature to a tax imposed by the State of Oregon. In a previous proceeding involving the State of Oregon, the FEA granted exception relief, permitting distributors of motor fuel in Oregon to pass through a proposed license tax increase. State of Oregon, 2 FEA Par. 83,320 (October 3, 1975). In that Decision, the FEA determined that the burden to the State of either foregoing the proposed tax increase or revamping its tax structure so outweighted any benefits from the continued application of the FEA Regulations in the particular case as to result in a gross inequity. Since the circumstances presented in the State of Hawaii's request for exception were similar to those presented by the State of Oregon, the FEA granted exception relief on the basis of the previous precedent.

Thirty-One Service Plaza, Inc.; Greenwood, Ind.; FEE–2308; motor gasoline middie distillates

Thirty-One Service Plaza, Inc. (Service Plaza (filed an Application for exception from the provisions of 10 CFR 211.9 which, if granted, would have resulted in the issuance of Orders by the FEA (i) assigning a new supplier of motor gasoline and middie distillates to Service Plaza to replace its current base period supplier, the Campbell Oil Company, and (ii) directing the new supplier to furnish Service Plaza with its adjusted base period usea of motor gasoline and middie distillates. In its exception request, Service Plaza stated that it was presently purchasing surplus motor gasoline and diesel fuel from the Standard Oil Company of Indiana (Amoco) and has been permitted to use the Amoco brand name. Service Plaza contended, however, that it could not continue to rely indefinitely on its arrangement with Amoco. The firm claimed that, if it were unable to purchase surplus product from Amoco and instead purchased its petroleum product requirements from Campbell, a nonbranded independent marketer, it would lose a substantial volume of credit card sales and, as a result, would be unable to repay a large amount of debt incurred in the construction of its retail sales outlet. In considering Service Plaza's exception request, the FEA noted that since November 1975, Service Plaza had purchased its entire supply requirements from Amoco and neither Service Plaza nor Amoco provided any substantive evidence as to why that situation might be altered in the foreseeable future. In fact, Amoco indicated that it would probably be able to continue to supply Service Plaza with surplus product. The FEA therefore determined that Service Plaza had failed to demonstrate that it was currently experiencing any difficulties as a result of its base supplier/purchaser relationship with Campbell and accordingly denied the firm's exception request.

Warrior Asphalt Co. of Alabama; Tuscaloosa, Ala.; FEE–2366; Middle Distillates

Warrior Asphalt Company of Alabama filed an Application for Exception from the provisions of 10 CFR 212.83. Warrior's exception request, if granted, would permit the firm to retain certain revenues which it realized during the period April 1, 1974 through December 31, 1975 by charging prices for Middle distillates which were in excess of the maximum levels permitted by Section 212.83. In considering Warrior's request, the FEA determined that although Warrior may have relied on erroneous advice from a public accounting firm in computing its maximum lawful price levels for covered products, the firm nevertheless failed to meet its affirmative obligation to be cognizant of the correct application of FEA Regulations to its operation. The FEA also held that the fact that Warrior priced its products competitively does not in any way establish that the firm is entitled to retroactive exception relief. In addition, the FEA noted that the firm as a whole realized record levels of 1974 through December 31, 1975 when the pre-tax profit during the period April 1, alleged price increases had been implemented. Finally, the FEA held that a conclusion as to the financial impact on the firm of possible remedial action was inappropriate at the present time because a preliminary audit of the amount of possible overcharges had not even been completed and the firm itself was unsure as to the total amount involved. Cf. Raymond M. Jones, 3 FEA Par. 80,620 (April 19, 1976). Warrior's exception application was accordingly denied.

Win-Air Aviation Services; Falls City, Nebr.; FEE–2367; aviation gasoline

Win-Air Aviation Services filed an Application for Exception from the provisions of 10 CFR 211.12. The exception request, if granted, would result in the issuance of Orders by the FEA increasing Win-Air's base period use of aviation gasoline from 25,316 to 50,600 gallons, and directing the firm's base period supplier to furnish it with the increased volume. In considering the exception application, the FEA determined that Win-Air failed to provide any data to substantiate the nature and extent of the increased fuel requirements which it claimed to be experiencing or any material which supported its assertion that the policy objectives of the Emergency Petroleum Allocation Act of 1973, as amended, would be frustrated unless its base period use of aviation gasoline were increased. Moreover, the information which Win-Air did furnish appeared to indicate that some of its customers are priority users who are already entitled under the present FEA regulatory program to receive 100 percent of their current fuel requirements. The firm's exception request was therefore denied.

REQUEST FOR STAY

General Crude Oil Co.; Houston, Tex.; FES–0855; Crude Oil.

General Crude Oil Company (General Crude) requested that a Remedial Order issued to the firm on May 21, 1976 be stayed pending a final determination of the firm's Appeal from that Order. In the Remedial Order, the FEA determined that General Crude had improperly determined its selling price for certain crude oil by using the provisions of the FEA Price Regulations which apply to refiners rather than those applicable to producers of crude oil. The FEA Remedial Order directed General Crude to reduce its prices of crude oil and to make refunds for previous overcharges. In considering the contentions raised by General Crude, the FEA concluded that the firm could suffer an irreparable injury if it were required to immediately refund previous overcharges. It was noted that in previous cases the FEA had generally stayed the provisions of Remedial Orders requiring immediate refunds and had required certain appellants to place the contested funds into an escrow account pending a determination of their Appeals from the Remedial Orders. The FEA indicated that it would adhere to that procedure in similar cases in the future. Thus, as a general rule, where a showing is made that substantial issues concerning the propriety of a Remedial Order having been or will be raised in an Appeal and a further showing is made that it is likely that if a stay is not granted the firm may be irreparably injured, the refund requirements of the Remedial Order will be stayed pending a decision on the firm's Appeal. However, the stay will be contingent on the establishment of an irrevocable escrow account into which the disputed funds are placed unless the applicant makes a strong and convincing showing that the procedure is not appropriate in view of the particular facts presented in the case. In considering General Crude's application, the FEA concluded that the firm had made a preliminary showing that a stay should be issued with respect to refunds for previous overcharges. Consequently, the stay was approved on the condition that an escrow account be established into which the disputed funds are placed. With respect to the requirement that General Crude immediately reduce its prices to a lawful level, the FEA stated that it would generally deny a request for a stay of a requirement specified in a Remedial Order that the appellant immediately reduce its prices to lawful levels unless the appellant demonstrates that strong countervailing factors exist which warrant the approval of a stay. The FEA concluded that General Crude had not shown that any such factors were present in this proceeding and therefore declined to stay this requirement of the Remedial Order.

REQUESTS FOR MODIFICATION OR RESCISSION

Beacon Oil Co.; Hanford, Calif.; FMR–0051, refined products.

Beacon Oil Company (Beacon) filed a Request for Modification or Rescission of a Decision and Order which the FEA issued to it on March 16, 1976. Beacon Oil Co., 3 FEA Par. 80,599 (March 16, 1976). In that Decision and Order, the FEA denied Beacon's earlier request for exception relief from the provisions of 10 CFR 212.83(a). Beacon Oil Co., 3 FEA Par. 83,306 (December 8, 1976). If granted, the firm's present request would result in the issuance of an Order by the FEA modifying the December 8 Decision and permitting Beacon to pass through its crude oil cost increases which it had allegedly incurred on May 4, 1973 but which it had not reflected in its selling prices by May 15, 1973. Beacon also requested retroactive relief from any obligation to refund to its customers $2.5 million in previous overcharges. In considering Beacon's request, the FEA found that the firm's submission failed to demonstrate the existence of significantly changed circumstances since the March 16 Decision and Order was issued. Beacon's reliance upon newly submitted documents was found to be misplaced, since those documents were available to the firm during the prior proceedings. The FEA therefore denied the firm's request.

Texaco, Inc., New York, N.Y.; FMR–0050; motor gasoline.

Texaco, Inc. (Texaco) filed an Application for Modification of an Assignment Order issued to it by FEA Region V on March 3, 1975. In the Order which it issued, Region V found that during the 1972 base period Texaco supplied motor gasoline to the Arrow Petroleum Company, Inc. (Arrow), and that Texaco was therefore required under the provisions of 10 CFR 211.9(a)(1) to continue to do so. On the basis of these findings, Region V ordered Texaco to furnish Arrow with its adjusted annual base period use of 10,930,668 gallons of motor gasoline. The present Texaco application, if granted, would result in a determination that Arrow's base period use of motor gasoline should be adjusted downward to 3,742,341 gallons per year. In considering the Application for Modification, the FEA determined that, contrary to Texaco's assertions, Arrow's currently reduced level of gasoline purchases does not constitute a showing under Section 205.135(b)(1) of the FEA Regulations that there has been a substantial change in the factual situation upon which the March 3, 1975 Assignment Order was based. The FEA therefore denied Texaco's Application.

V 41 151 AUG 4 76 UMI

SUPPLEMENTAL ORDERS

Atlantic Richfield Co.; Los Angeles, Calif.; FEX–0055; motor gasoline

On April 28, 1976, the Federal Energy Administration issued a Decision and Order to the Atlantic Richfield Company (Arco) staying certain refund requirements specified in a Remedial Order which the Director of the Compliance Division of the FEA, Region IX had issued to the firm. Atlantic Richfield Co., 3 FEA Par. 85,030 (April 28, 1976). The approval of the stay was conditioned on Arco placing the disputed funds into an irrevocable escrow account. Subsequent to the issuance of that Decision, Arco indicated that it had refunded a substantial portion of the disputed funds and requested that the Stay Order be modified to relieve Arco of the requirement that it place the sum already refunded in the escrow account. The Director of the Compliance Division of Region IX confirmed that the refund satisfied in part the requirements of the Remedial Order. Under the factual situation presented the FEA concluded that there was no reason to require that the sum which Arco already refunded continue to be held in the escrow account. A Supplemental Order was therefore issued directing the escrow agent to remit to Arco a sum which was equivalent to the refunds which Arco made.

Husky Oil Co. of Delaware, Inc.: Denver, Colo.; FEX–0052; Crude Oil

On June 14, 1976, the Federal Energy Administration issued a Decision and Order to the Husky Oil Company of Delaware, Inc. (Husky) denying the firm's Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program). The exception request, if granted, would have relieved Husky of any obligation to purchase entitlements on the basis of its crude oil runs to stills in April 1976 and succeeding months. The determination reached in the June 14 Decision was based on the financial data which Husky had submitted indicating that the firm would be a net seller of entitlements and would thereby realize substantial benefits from the Entitlements Program. Subsequent to the issuance of the June 14 Decision and Order, Husky filed a further petition in which it provided new financial data and stated that, contrary to the determination previously reached, the firm would be a net buyer of entitlements. In view of the fact that the new financial material made a prima facie showing that Husky would be seriously and adversely affected by the Entitlements Programs, the FEA reevaluated the June 14 determination. In considering Husky's submission, the FEA found that as a result of the rescission of Special Rule No. 6 and Husky's crude oil runs and receipts during the current fiscal year, the firm would in fact be required to purchase entitlements at a substantial cost commencing with the June Entitlitment Notice. As a result of the projected entitlements costs which Husky would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historic levels. Pursuant to the criteria set forth in Delta Ref. Co., 2 FEA Par. 83,275 (September 11, 1975) and Beacon Oil Co., 3 FEA Par. ---- (June 8, 1975), exception relief was therefore warranted. Accordingly, the FEA relieved the firm of any obligation to purchase entitlements during the period June through November 1976 to account for its crude oil runs to stills and old oil receipts during the period April through September 1976. However, the FEA noted in the Decision which it issued that the relief approved would be reevaluated if the firm requested an extension of exception relief beyond November 1976, and that a further evaluation would be conducted at the conclusion of the firm's current fiscal year.

OKC Corp.; Dallas, Tex.: FEX–0051; Crude Oil.

On June 14, 1975, the FEA issued a Decision and Order to the OKC Corporation denying an Application for Exception which OKC had filed from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program). OKC Corp., 3 FEA Par. ---- (June 14, 1976). The determination reached in that Decision was based on the finding that OKC would be a net seller of entitlements during the final six months of the firm's fiscal year ending September 30, 1976. Subsequent to the issuance of the June 14 Decision, OKC filed a supplemental petition in which it stated that even though the firm would be a net seller of entitlements, it would nevertheless incur a serious financial hardship as a result of its entitlement purchase obligations during its current fiscal year. In considering the request, the FEA found that during the period April through June 1976, OKC will purchase a substantial quantity of old oil from the United States Geological Survey (USGS royalty oil). Effective July 1, 1976, OKC's allocation of USGS royalty oil will be sharply reduced and the firm's purchases of new domestic crude oil will be increased proportionately. Consequently, while OKC will in fact be a net seller of entitlements during the period April through September 1976, its purchase obligations will fall exclusively in the April–June quarter and its sales obligations will be concentrated exclusively in the July–September quarter. The FEA found that although OKC would otherwise realize a profit in the April–June quarter, as a result of its entitlement obligations it will instead sustain a loss. The FEA concluded that such a sudden change in OKC's entitlement position would have an unnecessary disruptive effect on the firm's cash flow and operating posture. In order to minimize those distortions, the FEA determined that the firm's entitlement purchase obligation during the period June through August should be stayed and one-third of the total dollar amount of the entitlement purchase obligation thus stayed should be applied against OKC's monthly entitlement sales obligations during the period September through November 1976.

The Eagle Oil Co.; Columbus, Ohio; FEX–0053; petroleum products

On April 14, 1976, the Federal Energy Administration granted an exception to the Eagle Oil Company on the grounds that the application of the provisions of 10 CFR, Part 211, requiring adherence to the base period supplier/purchaser relationship resulted in a serious hardship to the firm. The Eagle Oil Co., 3 FEA Par. 80,523 (April 14, 1976). In that Order the Regional Administrator for FEA Region V was directed to assign Eagle a supplier for 65 percent of the firm's base period use for the months of April, May, and June 1976 whose prices for motor gasoline, No. 2 fuel oil, diesel fuel and kerosene were within the range of prices paid for those products by non-independent marketers in the area in which Eagle operates. The Order further provided that the Regional Administrator shall (i) make a determination for any month subsequent to June 1976 as to whether Eagle is continuing or will continue to incur a serious hardship if it does not receive petroleum products refined from domestic sources, and (ii) then make a recommendation to the FEA Office of Exceptions and Appeals regarding the need for an additional assignment. Based upon the data which Eagle submitted to the Regional Administrator and the recommendation of the Regional Administrator, the FEA determined that adherence to the base period supplier/purchaser relationship required by the Regulations would continue to result in a serious hardship to the firm. The FEA therefore extended the exception relief previously granted for the months of July, August, and September.

Whitco, Inc., Dallas, Tex., FEX–0048; motor gasoline

On March 26, 1976, the Federal Energy Administration granted an exception to Whitco, Inc. on the grounds that the application to Whitco of the provisions of 10 CFR 211.25 (the supplier substitution rule) results in a gross inequity to the firm Whitco, Inc., 3 FEA Par 87,005 (March 26, 1976). As a result of the March 26 Order, the Sun Oil Company was prevented from supplying Whitco through a substitute supplier in the months of April through June 1976. In the Order which was issued in that proceeding, the Regional Administrator of FEA, Region VI, was directed to make a further determination as to whether Whitco was continuing or would continue to experience a gross inequity unless it received additional exception relief and to then make a recommendation to the FEA Office of Exceptions and Appeals as to whether exception relief should be extended. Based on the data submitted by the firm and the recommendation of the Regional Administrator, the FEA determined that unless Whitco received additional relief it would continue to experience a serious hardship and gross inequity. The exception relief previously granted was therefore extended through September 30, 1976.

Saveway Gas & Appliance, Inc.; Dexter, Mo.; FEX–0049; propane

On March 31, 1976, the Federal Energy Administration granted an exception to Saveway Gas & Appliance, Inc. (Saveway) on the grounds that the application of the provisions of 10 CFR, Part 211, requiring adherence to the base period supplier/purchaser relationship results in a serious hardship to the firm. Saveway Gas & Appliance, Inc., 3 FEA Par. 83,150 (March 31, 1976). In that Order the Regional Administrator for FEA Region VII was directed to assign to Saveway for the months of April, May and June 1976, a supplier or suppliers for its adjusted base period use of propane whose wholesale price for propane was within the range of prices paid for those products by major marketers in Saveway's marketing area. The Order further provided that the Regional Administrator shall (i) make a determination for any month subsequent to June 1976 as to whether Saveway will continue to experience a serious hardship in the absence of further exception relief, and (ii) then make a recommendation to the National Office of Exceptions and Appeals regarding the need for an additional assignment. Based upon the data which Saveway submitted to the Regional Administrator and the recommendation of the Regional Administrator, the FEA determined that adherence to the base period supplier/purchaser relationship required by the Regulations would continue to result in a serious hardship to the firm. The FEA therefore extended the exception relief previously granted for the months of July, August and September.

DISMISSALS

The following submissions were dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

Brea Canon Oil Co.; Los Angeles, Calif.; FEE–2426—Rock Island Refining Corp.; Indianapolis, Ind.; FES–0864

The following submissions were dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

BP Oil, Inc.; Cleveland, Ohio; FEE–2487—Peters Fuel Corp.; Oakland, Md.; FEE–2390

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B–120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except Federal holidays. They are also available in "Energy Management: Federal Energy Guidelines," a commercially published loose leaf reporter system.

Dated: July 30, 1976.

DAVID G. WILSON,
Acting General Counsel.

[FR Doc.76–22586 Filed 7–30–76;1:38 pm]

OFFICE OF EXCEPTIONS AND APPEALS

Cases Filed During the Week of June 28 Through July 2, 1976

Notice is hereby given that during the week of June 28 through July 2, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

APPEALS

Atlantic Richfield Co.; Dallas, Tex.: FEA–0807; Natural Gas Liquids

The Atlantic Richfield Company (Arco) appealed from a Decision and Order which the FEA issued to the Superior Oil Company (Superior) on February 27, 1976. Superior Oil Co., 3 FEA Par. 83,118 (February 27, 1976). In the February 27 Decision, the FEA denied a request for exception which Superior had submitted with respect to the non-product cost increases incurred at its Okeene natural gas processing plant. The FEA denied the Superior request for relief on the grounds that the cost increases which Superior had incurred at the plant were not materially in excess of the maximum levels permitted to be passed through under Section 212.165. The determination reached in that Decision was applicable only to Superior's interest in the Okeene plant. Arco's Appeal, if granted, would result in the issuance of an order reversing the previous Decision and would permit Superior to pass through all of its non-product cost increases incurred at the Okeene plant. In considering the Appeal, the FEA observed that the determination involved applied only to Superior's operations. While Arco is a part owner of the Okeene plant and sole purchaser of the natural gas liquids processed at the plant, Arco failed to demonstrate that it was in any way aggrieved by the February 27 Decision and Order issued to Superior. The Appeal was therefore denied.

Batzell, Nunn & Bode; Washington, D.C.; FEA–0851; Freedom of Information

The law firm of Batzell, Nunn & Bode (Batzell) appealed from an Order issued to it under the Freedom of Information Act, 5 U.S.C. 552, which denied it access to copies of working papers prepared by the FEA in connection with the issuance of FEA Ruling 1975–14. In that Order, the FEA Information Access Officer determined that the documents requested were "intra-agency memoranda" and exempt from mandatory disclosure pursuant to Section 552(b)(5) of the Act. In considering Batzell's Appeal, the FEA noted that the exemption which protected intra-agency memoranda from mandatory disclosure applied to those documents which represented the agency's group thinking and pre-decisional deliberations in working out its policy and law. The FEA determined that substantially all of the documents withheld from Batzell were correctly found to be exempt from mandatory disclosure pursuant to Section 552(b)(5) of the Act since they are pre-decisional intra-agency documents which set forth issues, discuss alternatives, and offer recommendations reflecting the "group thinking" process of the FEA, and do not reflect the agency's effective law and policy. The FEA also noted, however, that the preamble of one of the documents requested contained a summary of facts which was reasonably segregable from the deliberative portion of the document. Since the exemption in Section 552(b)(5) does not apply to factual material which is reasonably segregable, it was ordered that the preamble be released.

Exxon Co., U.S.A.: Houston, Tex.; FEA–0832; propane

Exxon Company, U.S.A. (Exxon) appealed from a Decision and Order which the FEA issued to Saveway Gas & Appliance, Inc. (Saveway). Saveway Gas & Appliance, Inc., 3 FEA Par. 83,150 (March 31, 1976). In that Decision, Saveway was granted an exception from the provisions of 10 CFR 211.9 and assigned a new, lower-priced supplier of propane for the period April 1, 1976 through June 30, 1976. The Appeal, if granted, would result in the issuance of an order rescinding the prior decision. The FEA determined, however, that Exxon is not adversely affected in any way by the March 31 Decision and Order, and is therefore not an aggrieved party for purposes of the FEA Procedural Regulations. The Exxon Appeal was therefore denied.

New England Petroleum Corp.; New York, N.Y.; FEA–0781—Mobil Oil Corp.; New York, N.Y.; FEA–0786—Exxon Co., U.S.A.; Houston, Tex.; FEA–0790 residual fuel oil

New England Petroleum Corporation (NEPCO), Mobil Oil Corporation and Exxon Company, U.S.A. filed Appeals from a Decision and Order which the FEA issued to NEPCO on February 12, 1976. That Order approved exception relief from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) and permitted NEPCO to sell entitlements in the months of February and March 1976 on the basis of its residual fuel oil imports during the months of December 1975 and January 1976 up to a maximum of 3 million barrels, as adjusted for supplemental import fees. New England Petroleum Corp., 3 FEA Par. 83,101 (February 12, 1976). In its Appeal, NEPCO contended that the February 12 Order was arbitrary and capricious because the FEA limited the applicability of the exception relief which it approved to 3 million barrels of residual fuel oil imports per month, and failed to issue entitlements for sale by NEPCO during the months of December and January. In considering NEPCO's Appeal, the FEA noted that when the February 12 Order was issued NEPCO was not eligible to receive benefits under the Entitlements Program, and the exception relief was not designed to permit NEPCO to attain a favorable competitive position. The FEA found that NEPCO had furnished no data in support of its Appeal which demonstrated that the relief granted in the February 12, 1976 Order was not sufficient for the limited purpose for which it was intended, viz., to temporarily alleviate the adverse impact of those aspects of the FEA regulatory program which threatened NEPCO's viability in the immediate future. In considering the Appeals filed by Mobil and Exxon, the FEA found that the firms had essentially restated the arguments which they had presented in their Appeals of previous NEPCO exception Orders and which were ultimately rejected. Exxon Co., U.S.A.; Mobil Oil Corp., 3 FEA Par. 80,590 (March 3, 1976). Accordingly, each of the three Appeals was denied.

Petrochemical Energy Group; Washington, D.C.; FEA–0788; naphtha

The Petrochemical Energy Group (PEG) appealed from an Assignment Order issued to the Algonquin Gas Transmission Company (Algonquin) on August 29, 1975. In that Order, the FEA approved Algonquin's request for an allocation of naphtha for use as feedstock in a synthetic natural gas (SNG) plant which the firm operates in Freetown, Massachusetts. In considering certain procedural issues raised by Algonquin, the FEA determined that: (i) PEG did have standing to file an Appeal from the Algonquin Order; (ii) PEG was entitled to be served with a copy of the Algonquin Order when it was issued; and (iii) although PEG's Appeal was filed almost six months after the Algonquin Order was issued, the Appeal was nevertheless filed within thirty days of service of the Assignment Order under PEG and was therefore filed in a timely manner. In considering the merits of the PEG Appeal, the FEA found that the August 29 Order did not contain adequate findings with respect to certain important criteria which the FEA is required by 10 CFR 211.29 and Special Rule No. 1 to take into account in connection with any SNG feedstock allocation. In particular, the FEA found that: (i) the Order failed to make any finding with regard to the amount of service which Algonquin currently provides and will in the future provide to firms which have alternate fuel capability on a continuing basis; (ii) the Order failed to consider the extent to which Algonquin and its customers have implemented a program for incremental pricing of the SNG produced at the Freetown plant and the effect any such efforts will have on the feedstocks allocated to Algonquin; and (iii) the Order failed to consider the nature of any expansion of natural gas service contemplated by Algonquin. The August 29 Order was therefore remanded to the Assistant Administrator for Regulatory Programs for further consideration of those issues.

Sumrall Oil Services, Inc.; Bay Springs, Miss.; FEA–0819; motor gasoline

Sumrall Oil Services, Inc. (Sumrall) appealed from a Decision and Order issued to the firm on March 31, 1976. Sumrall Oil Services, Inc., 3 FEA Par. 83,152 (March 31, 1976). In that Decision, the FEA denied Sumrall's request for an exception which, if granted, would have resulted in the issuance of an Order by the FEA assigning Sumrall a new base period supplier for that portion of the firm's base period use of motor gasoline which had been supplied by Good Hope Refineries, Inc. In the March 31 Decision, the FEA determined that Sumrall had failed to demonstrate that its operating or financial position had been impaired as a direct result of Good Hope's failure to make motor gasoline available. On Appeal, the firm again refused to provide data which would permit the FEA to evaluate Sumrall's claim that it had been adversely affected in any way by its inability to purchase motor gasoline from Good Hope.

V 41 151 AUG 4 76 UMI

In view of the firm's continued failure to substantiate its claim that it was incurring a serious hardship and gross inequity as a result of the FEA regulatory program, the FEA concluded that Sumrall had not demonstrated that the prior Decision was erroneous. The firm's Appeal was therefore denied.

T. W. Phillips Oil and Gas Co.; Butler, Pa.; FEA–0803; natural gas

T. W. Phillips Oil and Gas Company (Phillips) appealed from a Decision and Order in which the FEA denied its request for exception relief from the requirement that it file a form entitled "Underground Gas Storage Report" (FEA Form G318–M–O). T. W. Phillips Oil and Gas Co., 3 FEA Par. 83,130 (March 6, 1976). In its Appeal, Phillips contended that it does not presently have the capability of providing the data specified on the Form and that in order to do so the firm would be forced to make extensive and costly changes in its physical plant and operating procedures. Those changes, according to the Phillips submission, included the installation of an additional pipeline to permit the segregation of natural gas storage wells from producing wells and the installation of metering equipment. Phillips also contended that its operation would be materially impaired in certain respects, including its ability to deliver gas to its customers without interruption and its ability to continue to operate low pressure marginal wells, if it were to make the changes necessary to provide the information specified on the Form. In considering the Phillips Appeal, the FEA determined that Phillips is apparently the only firm subject to the reporting requirement which is unable to provide the information specified on the Form without extensively modifying its physical plant and operating procedures at considerable expense. The FEA also determined that these modifications could significantly impede that portion of Phillips' operations which allows it to extract gas from marginal wells that it might otherwise be forced to abandon and that Phillips would encounter a considerable burden in making the necessary modifications in its system, solely for the purpose of developing data which would be unlikely to have any appreciable effect upon the data already available to the FEA. On the basis of these findings, the FEA concluded that Phillips was adversely affected by the FEA regulatory requirements in such a disproportionate manner that a gross inequity existed. The FEA therefore granted exception relief which relieves Phillips of the obligation to submit the data specified on the Form. However, the FEA determined that a requirement that Phillips report its volume of sales from natural gas storage and production combined would not create any undue burden for the firm. Phillips was therefore directed to report that figure to the FEA on an annual basis.

Texaco, Inc.; Los Angeles, Calif.; FEA–0848; motor gasoline

Texaco, Inc. appealed from an Assignment Order issued to Fisher-Coe, Inc. on April 13, 1976. The Assignment Order designated Fisher-Coe, a branded Texaco jobber, to supply Tri-Par Combustion Corporation with sufficient motor gasoline to enable the firm to meet its supply obligations to the Defense Fuel Supply Center (DFSC). In considering the Appeal, the FEA determined that: (i) Texaco is Fisher-Coe's base period supplier of motor gasoline; (ii) consequently, under the provisions of 10 CFR 211.13(c), Fisher-Coe is entitled to receive an adjustment in its base period use of motor gasoline from Texaco which is equal to the quantity which it has been assigned to supply Tri-Par; and (iii) although Texaco was readily identifiable by the FEA as a party which would be adversely affected by the April 13 Order directing Fisher-Coe to supply Tri-Par, the FEA failed to notify Texaco of the assignment proceeding. The FEA therefore determined that the April 13 Order was invalid and granted Texaco's Appeal by vacating the Assignment Order. However, the FEA also found that Tri-Par and its DFSC customers could be affected in a serious and substantial manner if Tri-Par were unable to meet its supply obligations to the DFSC during the period of time necessary to reconsider the issuance of an Assignment Order. See Tri-Par Combustion Corp., 3 FEA Par. 83,056 (December 23, 1975). The FEA therefore directed that a Temporary Assignment Order be issued to Tri-Par in accordance with the provisions of 10 CFR 205.39.

Union Carbide Caribe, Inc.; Hato Rey, P.R.; FEA–0844; Naphtha

Union Carbide Caribe, Inc. (Caribe) appealed from a Decision and Order which the Federal Energy Administration issued to Commonwealth Oil Refining Company, Inc. (CORCO) on May 4, 1976. Commonwealth Oil Ref. Co., Inc., 3 FEA Par. 83,178 (May 4, 1976). In that Decision, the FEA found that as a result of the Entitlements Program, CORCO, a small and independent refiner which operates a petrochemical plant in Puerto Rico, was operating at a significant competitive disadvantage in relation to mainland competitors and was experiencing a serious hardship. The FEA therefore granted exception relief which permitted CORCO to earn entitlements for the naphtha which it imports for use as a feedstock in its petrochemical plant. In its Appeal, Caribe did not contend that the action taken by the FEA in the May 4 Order was arbitrary or capricious or erroneous in fact or law. Rather, Caribe indicated that it filed an Appeal in order to encourage the FEA to promptly initiate a rulemaking proceeding which would result in similar relief being granted to all petrochemical plant operators in Puerto Rico, and to preserve its appellate rights while awaiting the outcome of that proceeding. The FEA found that neither of these reasons constitutes valid grounds for an Appeal. The FEA observed that adequate procedures are already available under which a firm may petition the FEA to initiate rulemaking proceedings. The FEA further noted that, since it is desirable that administrative proceedings be concluded in an expeditious manner, it is not sound administrative practice to permit a firm to delay filing or processing a substantive appeal merely because it wishes to do so for its own tactical reasons. Since the Appeal filed by Caribe was defective on its face, it was summarily denied.

REQUESTS FOR EXCEPTION

Braden-Deem, Inc.; Wichita, Kans.; FEE–2424; crude oil.

Braden-Deem, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which, if granted, would extend the exception relief granted to the firm on January 19, 1976 and March 11, 1976 and permit Braden-Deem to sell crude oil produced from the Cooper Cove Muddy-Dakota Unit at prices which are in excess of the lower tier ceiling price. See Braden-Deem, Inc., 3 FEA Par. 83–072 (January 15, 1976); Braden-Deem, Inc., 3 FEA Par. 80,597 (March 11, 1976). In considering Braden-Deem's Application, the FEA determined that the cost of producing crude oil from the Cooper Unit exceeds the lower tier ceiling price which Braden-Deem is permitted to charge under the provisions of Subpart D, and as a consequence the firm has no economic incentive to continue operating the Unit. Since Braden-Deem demonstrated that the economic situation which was described in previous decisions issued to the firm continued to exist, the FEA determined that an extension of exception relief was warranted. An analysis of the specific financial and operating data which Braden-Deem submitted led to the conclusion that Braden-Deem should be permitted to sell at upper tier ceiling prices 76.73 percent of the crude oil produced and sold for the benefit of the working interest owners for a period of six months.

Chesapeake Pure Fuels, Inc.; Chesapeake, Va.; FEE–2337; motor gasoline.

Chesapeake Pure Fuels, Inc. (Chesapeake) filed an Application for Exception from the provisions of 10 CFR 211.9 which, if granted, would result in the issuance of orders by the FEA assigning Chesapeake a new supplier of motor gasoline which would provide the firm with a leaded regular grade of motor gasoline. Chesapeake's Application indicated that its base period supplier, the Union Oil Company (Union), had discontinued the sale of leaded regular gasoline to Chesapeake in May 1974. Chesapeake alleged that it incurred a serious hardship because it lost many of its customers who operated commercial truck fleets and could not use regular motor gasoline. In considering Chesapeake's request, the FEA determined that the firm's financial and operating data indicated that its overall sales volume of motor gasoline and gross profits had increased dramatically subsequent to the time Union discontinued its sale of leaded regular motor gasoline. Consequently, even if Chesapeake did lose some of its customers because it could not supply them with a leaded regular grade of motor gasoline, there was no evidence that Chesapeake incurred any financial hardship as a result of the FEA regulatory program. Chesapeake's exception application was therefore denied.

City of Long Beach, Calif.; Long Beach, Calif.; Fee–2701; crude oil.

The City of Long Beach (Long Beach) filed an Application for Exception from the provisions of 10 CFR 212.73 which, if granted, would permit it to sell the crude oil which it recovers as a result of a special pilot project in the Wilmington Field at a price which exceeds the lower tier ceiling price. According to the Long Beach submission, the City is contemplating entering into an agreement with the Energy Research and Development Administration (ERDA) pursuant to which the City will conduct a project applying an experimental, tertiary recovery technique to the production of crude oil from a reservoir whose substantial reserves can no longer be economically recovered by primary or secondary recovery methods. Because the technique involved could be of major significance in enhanced recovery of crude oil, ERDA has stated that it is willing to partially sponsor the Long Beach project as a pilot demonstration. However, on the basis of Long Beach's estimates, the FEA found that the investment by the City which the project will require will significantly exceed the revenues which will be generated if the anticipated production must be sold at lower tier ceiling prices. In view of the risks involved and the margin between the investment required and the expected revenues to be obtained, the FEA determined that it was reasonable to accept the City's statement that it could not feasibly enter into the project unless it could charge upper tier ceiling prices for the crude oil which it recovers. In view of the importance of the pilot project, the direct participation of the federal energy agency which is primarily responsible for energy research and development, and the economic difficulties which the FEA Price Regulations present to the project, the FEA concluded that exception relief should be granted which permits Long Beach to sell the crude oil produced from the tertiary recovery project at upper tier ceiling prices.

Coastal States Gas Corp.; Houston, Tex.; FEE–2315; petroleum products

Coastal States Gas Corporation (Coastal States) filed an Application for Exception from the provisions of the Mandatory Petroleum Price Regulations (10 CFR, Part 212). In its Application, Coastal States requested that it be permitted to charge prices for various petroleum products refined at its newly acquired Pacific refinery which are in excess of the levels established pursuant to the provisions of 10 CFR 212.111(c)(1). The firm contended that in the absence of exception relief the gross refinery margins which it would realize would be insufficient to ensure the economic viability of the Pacific facility. In making a determination on the Coastal States submission, the FEA concluded that the pro-forma financial statements which the firm submitted for the refinery's first operating year underestimated the return on invested capital (ROIC) which Coastal States is likely to realize. When certain assumptions in the Coastal States projections were altered, it was evident that when the refinery is fully operational Coastal States will achieve an ROIC in the absence of exception relief which is well within the range of the average ROIC which other small refiners have historically realized. Since the Coastal States' allegations were not substantiated, the firm's exception application was denied.

Dasher-Harris Gas Co.; Valdosta, Ga.; FEE–2383; propane

Dasher-Harris Gas Company (Dasher-Harris) filed an Application for Exception from the provisions of 10 CFR 211.9. The exception request, if granted would result in the assignment of a new, lower-priced supplier of propane to replace the firm's base period supplier, Wanda Petroleum Company (Wanda). In considering the Dasher-Harris exception request, the FEA determined that: (i) the average cost of the propane which Dasher-Harris is entitled to receive from its base period supplier is significantly higher than the average price paid by its competitors; (ii) Dasher-Harris is currently selling propane at prices which are higher than the average price in its marketing area, and its mark-up on sales of propane is substantially lower than the mark-up it is permitted to apply under the FEA Regulations; (iii) Dasher-Harris' May 15, 1973 mark-up was at a low level due to the firm's recent entry into the marketplace; and (iv) as a result of this situation, the firm has experienced substantial financial difficulties since its inception. On the basis of these findings, the FEA concluded that the application to Dasher-Harris of the provision of 10 CFR 211.9, which require the firm to maintain its base period relationship with Wanda, results in a serious hardship to Dasher-Harris. Accordingly, the firm was granted exception relief which permits it to receive 57.09 percent of its base period use of propane from a new, lower-priced supplier for the July through September 1976 allocation quarter.

Energy Reserves Group, Inc.; Wichita, Kans.; FEE–2375; crude oil

Energy Reserves Group, Inc., (ERG) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which if granted, would permit ERG to sell crude oil produced from the Kimball Unit at upper tier ceiling prices. In considering ERG's exception request, the FEA determined that: (i) The costs of producing crude oil from the Kimball Unit have increased significantly since 1972; (ii) as a result of these cost increases, ERG's production costs exceed the price which the firm is permitted to charge for the crude oil which it sells; and (iii) consequently, ERG does not have an economic incentive to continue to operate the Kimball Unit. The FEA also found that if ERG abandons production activities at the Kimball Unit, the nation's recoverable supply of domestic crude oil would be reduced by approximately 68,000 barrels. On the basis of previous precedents involving similar factual findings, the FEA concluded that the application of the lower tier ceiling price rule in this case resulted in a gross inequity. Accordingly, ERG was granted exception relief which permits the firm to sell at upper tier ceiling prices 43.63 percent of the crude oil produced and sold for the benefit of the working interest owners.

H. L. Mills Petroleum Products; Hagerstown, Md.; FEE–2574; motor gasoline

H. L. Mills Petroleum Products (Mills) filed an Application for Exception from the provisions of 10 CFR, Part 211, which, if granted, would result in the issuance of an order assigning Mills a new, lower-priced supplier of motor gasoline to replace its base period suppliers, the Ashland Oil Company and the Petroleum Marketing Corporation. Mills also requested that the assignment be of a permanent rather than a temporary duration. In considerating Mills' request, the FEA determined that Mills is selling motor gasoline at prices which are higher than the average price in its marketing area. In addition, the FEA found that the cost to Mills of the motor gasoline purchased from its base period supplier is so high that the markup which Mills is able to realize on its sales of motor gasoline is substantially below the firm's historical markup. As a result of this situation, the firm incurred substantial financial losses during the first 10 months of its 1976 fiscal year. The FEA therefore concluded that the application of Section 211.9 to Mills results in a serious hardship and granted the firm exception relief which permits it to receive its base period use of motor gasoline from a new, lower-priced supplier for the months of July, August, and September 1976. The FEA also found that Mills had not presented any convincing arguments as to why the FEA should deviate from its customary practice of granting relief on a temporary basis in order to permit a periodic review of the necessity of continuing exception relief to the firm. The FEA therefore denied Mills' request that the assignment be made on a permanent basis.

Lee-Gunn Drilling Partnership; Adams County, Miss.; FEE–2411; crude oil

The Lee-Gunn Drilling Partnership (Lee-Gunn) filed an Application for Exception from the provisions of 10 CFR, Part 212, which, if granted, would permit Lee-Gunn to sell the crude oil produced from the Breaux lease in Adams County, Mississippi at upper tier ceiling prices. In considering Lee-Gunn's Application, the FEA noted that Ruling 1975–12 specifies a procedure to be used in adjusting actual production from a property to account for significant curtailments in production such as those experienced by Lee-Gunn because of frequent flooding at the Breaux lease. The FEA determined that the formula used in Ruling 1975–12 indicates that under normal conditions the production from the Breaux property would have exceeded ten barrels per day per well and the property would not qualify as a stripper well lease. Consequently, Lee-Gunn had failed to show that application of the definition of "average daily production" as used in Section 212.74(c) to the Breaux lease results in a serious hardship or gross inequity to the working interest owners. However, the FEA also determined that: (i) The cost of producing crude oil from the Breaux lease had increased significantly since 1973 and now exceeds the lower tier ceiling price which Lee-Gunn is permitted to charge; (ii) consequently, Lee-Gunn does not currently have an economic incentive to continue to operate the Breaux lease; and (iii) if Lee-Gunn abandons the property, a considerable amount of otherwise recoverable crude oil would be lost. On the basis of previous precedents involving similar factual situations, the FEA concluded that the application of the lower tier ceiling price rule to the working interests of the Breaux property resulted in a gross inequity and that exception relief should therefore be approved. An analysis of the specific financial and operating data which Lee-Gunn submitted led to the further conclusion that Lee-Gunn should be permitted to sell at upper tier ceiling prices 59.84 percent of the crude oil produced and sold for the benefit of the working interest owners.

Marvin E. Boyer Oil Co., Inc.; Iola, Kans.; FEE–2560; crude oil.

Marvin E. Boyer Oil Company, Inc. (Boyer) filed an Application for Exception which, if granted, would result in an extension of the relief granted to Boyer in a January 30, 1976 Decision and Order and would permit Boyer to resell crude oil at prices in excess of the maximum permissible levels determined pursuant to 10 CFR 212.93. In considering the Application, the FEA found that Boyer's crude oil reselling division has incurred substantial non-product cost increases since May 15, 1973 which it is not currently permitted to reflect in its selling prices under FEA Regulations. As a result of this situation, the division was encountering significant financial difficulties. The FEA therefore concluded that an extension of the exception relief previously granted was warranted. Accordingly, Boyer was permitted to increase its current selling prices of crude oil during the period July 1 to December 31, 1976 to reflect the non-product cost increases which it has incurred since May 15, 1973.

McCulloch Gas Processing Corp.; Washington, D.C.; FEE–2422 (Tule Creek); FEE–2445 (Hilight); FEE–2446 (Gillette); FEE–2447 (Oedekoven); FEE–2448 (Jamison Prong); FEE–2449 (Belle Fourche); FEE–2450 (Fatview); FEE–2451 (Well Draw); natural gas liquids.

McCulloch Gas Processing Corporation (MGPC) filed eight Applications for Exception in which it requested that the exception relief granted to the firm by the FEA on February 27, 1976, be extended for an additional period of time. McCulloch Gas Processing Corp., 3 FEA Par. 83,113 (February 27, 1976). In the February 27 Decision, the FEA determined that MGPC would experience a gross inequity as a result of the pricing provisions of 10 CFR, Part 212, Subpart K, and that exception relief should therefore be granted which would permit the firm to increase its prices for natural gas liquid products produced at its eight natural gas processing plants above the maximum permissible levels determined pursuant to the provisions of Subpart K by an amount not to exceed $.0257 per gallon during the period March 1, 1976 through May 31, 1976. In con-

V 41 151 AUG 4 76 UMI

sidering MGPC's requests for an extension of exception relief, the FEA determined that the firm continued to incur non-product cost increases in the first quarter of 1976 at seven of the eight plants which substantially exceed the $.005 per gallon passthrough permitted under the provisions of Section 212.165 and that based upon the criteria set forth in Sun Oil Co., 3 FEA Par. 83,102 (February 13, 1976); Shell Oil Co., 3 FEA Par. 83,049 (December 15, 1975); and Superior Oil Co., 2 FEA Par. 83,271 (August 29, 1975); continued exception relief is warranted. The FEA therefore granted the exception requests with respect to those seven plants for the period June 1, 1976 through September 30, 1976. However, the FEA denied exception relief with respect to the Hilight plant because the adjusted non-product unit cost increase experienced at that plant amounted to less than $.005 per gallon and was therefore not material for purposes of the exceptions process. See Sun Oil Co., supra.

Petroleum Management, Inc.; Wichita, Kans.; FEE–2329; crude oil

Petroleum Management, Inc. (PMI) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit PMI to increase the price of certain crude oil produced from the Kuhn Lease during February and May of 1975. In its exception application, PMI alleged that because the KAW Pipe Line Company negligently failed to deliver 278 barrels of crude oil produced from the Kuhn lease during February and May 1975, that quantity of crude oil could not be sold by PMI at new oil prices. PMI claimed that this situation resulted in a gross inequity to the firm. In considering PMI's request, the FEA found that PMI failed to show that KAW's alleged negligence was solely responsible for the delay in the sale of the 278 barrels of crude oil. Moreover, the FEA determined that the material submitted by PMI in connection with its exception application failed to demonstrate that the firm's inability to sell the 278 barrels of crude oil in question at higher prices would significantly impair its operations in any manner. PMI's exception request was therefore denied.

Service Enterprises; Cape Girardeau, Mo.; FEE–2401; motor gasoline

Service Enterprises filed an Application for Exception from the provisions of 10 CFR 211.9 which, if granted, would result in the issuance of orders by the FEA (i) assigning Service Enterprises a new supplier of motor gasoline to replace its base period supplier, the Rhodes Companies, and (ii) directing the new supplier to furnish Service Enterprises with its base period use of motor gasoline. Service Enterprises requested that Mobil Oil Corporation be designated as its new supplier. In considering the Application, the FEA noted that in previous cases exception relief had generally been denied where the applicant was able to purchase adequate quantities of surplus product from a supplier other than its base period supplier and therefore was not adversely affected by the requirements of Section 211.9. With respect to the situation encountered by Service Enterprises, the FEA determined that the firm had been able to purchase its total current supply requirements from Mobil. The FEA also found that Service Enterprises and Mobil had signed a supply contract for a period of two years and there was no reason to believe that Service Enterprises' supply situation might be altered in the foreseeable future. The exception application was therefore denied.

Shell Oil Co.; Houston, Tex.; FEE–2522 (Bayou Goula); FEE–2523 (Camargo); FEE–2524 (Chalkley); FEE 5252 (Elk City); FEE 2526 (Goodwater); FEE–2527 (Iowa); WEE–2528 (KNCU); FEE–2529 (Mermantua); FEE–2530 (Norco); FEE–2531 (Person); FEE–2532 (Prentice); FEE–2533 (Red Fish Bay); FEE–2534 (Van); FEE–2535 (W. Seminole); FEE–2536 (Molino); FEE–2537 (Tallahala); FEE–2538 (Ventura); FEE–2544 (Selling); natural gas liquids.

Shell Oil Company (Shell) filed Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit the firm to increase the total non-product costs which it calculates pursuant to Section 212.165 based on increases in non-product costs which the firm contends it has experienced at eighteen of its natural gas processing plants. In considering the Applications, the FEA noted that, as a general rule, exception relief will be granted to any gas processing plant which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough permitted under Section 212.165. *See* Superior Oil Co., 2 FEA Par. 80,271 (August 29, 1975). The FEA found that Shell had made such a showing with respect to 16 of the 18 plants and granted Shell exception relief with respect to those plants for the period July 1, 1976 through September 30, 1976. However, the FEA denied exception relief for the Goodwater and Red Fish Bay plants on the grounds that the non-product cost increases experienced at those plants amounted to less than $.005 per gallon in excess of the $.005 passthrough already permitted under 10 CFR 212.165 and were therefore not considered material for the purposes of the exceptions process. *See* Sun Oil Co., 3 FEA Par. 83,129 (March 12, 1976).

Supervisor Oil Com.; Levelland, Tex.; FEE–2489 (Cymric); FEE–2490 (Elk City); FEE–2491 (Kettleman Hills); FEE–2492 (Levelland); FEE–2493 (Portilla); Natural gas liquids

Superior Oil Company (Superior) filed five Applications for Exception in which it requested an extension of the exception relief granted by the FEA on February 27, 1976, with respect to its Cymric, Elk City, Kettleman Hills, and Portilla natural gas processing plants. Superior Oil Co., 3 FEA Par. 83,118 (February 27, 1976). Superior also requested that exception relief be granted with respect to its Levelland plant. In the February 27 Decision, the FEA determined that Superior was experiencing a gross inequity as a result of the pricing provisions of 10 CFR, Part 212, Subpart K, and that exception relief should therefore be granted which would permit the firm to increase its prices for natural gas liquid products produced at its Cymric, Elk City, Kettleman Hills, and Portilla natural gas processing plants above the maximum permissible levels determined in accordance with the provisions of Subpart K for the period March 1, 1976 through May 31, 1976. However, the FEA denied exception relief with respect to the Levelland plant because the adjusted non-product unit cost increase experienced at that plant amounted to less than $.005 per gallon and was therefore not material for purposes of the exceptions process. In considering Superior's requests for an extension of exception relief for its Cymric, Elk City, Kettleman Hills, and Portilla plants, as well as the request for prospective exception relief for its Levelland plant, the FEA determined that the firm incurred non-product cost increases in the first quarter of 1976 at those plants which substantially exceed the $.005 per gallon passthrough permitted under the provisions of Section 212.165. Based upon the criteria set forth in Sun Oil Co., 3 FEA Par. 83,102 (February 13, 1976); Shell Oil Co., 3 FEA Par. 83,049 (December 15, 1975); and Superior Oil Co., 2 FEA Par. 83,271 (August 29, 1975), the FEA determined that exception relief should be granted for all five plants.

Tipperary Corp.; Midland, Tex.; FEE–2415; Crude Oil

The Tipperary Corporation (Tipperary) filed an Application for Exception from the provisions of 10 CFR 211.65(b). The exception request, if granted, would permit Tipperary to immediately apply for an allocation of crude oil under the Buy/Sell Program for a refinery which the firm proposes to build in Corpus Christi, Texas, and require that the allocation application be reviewed by the FEA as if the refinery were to be operational within 90 days of the date on which the application was filed. In considering Tipperary's Application, the FEA determined that the firm's ability to obtain the financing necessary to build its proposed refinery was dependent upon its ability to secure an adequate supply of crude oil. Under the provisions of Section 211.65(b)(1) Tipperary was precluded from even applying for an allocation of crude oil under the Buy/Sell Program until its refinery is within 90 days of completion. The FEA further found that the firm had taken significant preparatory steps in connection with its refinery construction project. In addition, the products to be produced at the refinery would be readily marketable and the proposed refinery therefore represented a long-term profitable investment for the firm. On the basis of these findings, the FEA determined that the application of the 90 days provisions of Section 211.65(b)(1) created a significant and unwarranted barrier to the construction of the Tipperary refinery and thus to the expansion of the nations refinery capacity. The FEA therefore concluded that exception relief was warranted based upon the precedent established in Gulf Energy and Development Corp., 2 FEA Par. 80,516 (January 29, 1975), and permitted the firm to immediately apply for an allocation of crude oil under the Buy/Sell Program.

William H. Player & Associates; Natchez, Miss.; FEE–2443; crude oil

William H. Player and Associates (Player) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which, if granted, would result in an extension of the exception relief granted to Player on April 9, 1976 and would permit Player to sell crude oil produced from the James-Bridwell VUA No. 1 well at prices in excess of the lower tier ceiling price. William H. Player and Associates, 3 FEA Par. 83,161 (April 9, 1976). In considering Player's Application for an extension of exception relief, the FEA determined that Player is no longer experiencing the operating losses upon which the previous exception relief was founded. As a consequence, the FEA determined that there was no basis for an extension of exception relief. Accordingly, the exception request was denied.

REQUEST FOR STAY

United Refining Co., Warren, Pa.; FES–2404; crude oil

United Refining Company (United) requested a stay of an FEA Order which

changed the designation of the firm's refinery at West Branch, Michigan, from a "first priority refinery" to a "second priority refinery" under the Mandatory Canadian Crude Oil Allocation Program (10 CFR, Part 214). The stay, if granted, would result in the issuance of an order by the FEA allocating an additional 1,142 barrels per day of crude oil to United from Canadian sources pending a final determination of an exception application which the firm intends to file. In its Application for Stay, United contended that if it were required to rely on non-Canadian sources of crude oil it would incur substantially higher purchase and transportation costs resulting in significant operating losses, and that it would consequently be forced to cease operations at its West Branch refinery. In considering United's Application, the FEA determined that the firm had failed to provide sufficient financial and operating data to demonstrate that the costs which it would incur in continuing to operate the refinery pending a determinaton on its exception request will significantly affect the firm's overall financial posture or seriously impair any aspect of the firm's operations. In addition, if exception relief were ultimately granted, the FEA could mitigate any possible injury which United might sustain during the pendency of its Application for Exception by fashioning appropriate exception relief. The FEA also noted that, if the stay were approved, all other firms subject to the provisions of the Mandatory Canadian Crude Oil Allocation Program would be immediately deprived of the quantity of crude oil which would be allocated to United. The FEA held that it would not be appropriate to grant a stay which would produce that result on the basis of United's speculation as to possible injury which it would incur. Accordingly, the Application for Stay was denied.

SUPPLEMENTAL ORDERS

Mid-Michigan Truck Service, Inc.; Grand Rapids, Mich.; FEX–0054; motor gasoline

On February 13, 1976, the Federal Energy Administration issued a Decision and Order to Mid-Michigan Truck Service, Inc. (Mid-Michigan) which approved the firm's Application for Exception from the provisions of 10 CFR 211.25. Mid-Michigan Truck Service, Inc., 3 FEA Par. 83,100 (February 13, 1976). As a result of the approval of that Application, during the period February 13 through June 30, 1976, the Gulf Oil Corportaion (Gulf) was ordered to supply Mid-Michigan with its base period use of petroleum products directly, rather than through a substitute supplier. In the Order which was issued in that proceeding, the Regional Administrator of the FEA, Region V, was directed to make a further dtermination as to whether Mid-Michigan was continuing or would continue to experience a serious hardship unless it received additional exception relief and to then make a recommendation to the FEA Office of Exceptions and Appeals as to whether exception relief should be extended beyond the month of June 1976. Based on the date submitted by the firm and the recommendation of the Regional Administrator, the FEA determined that unless Mid-Michigan received additional relief, it would continue to experience a serious hardship. Exception relief was therefore extended through September 30, 1976.

Readygas Propane Service, Inc.; Eldon, Mo.; FEX–0050; propane

On April 2, 1976, the Federal Energy Administration granted an exception to Readygas Propane Service, Inc. (Readygas) on the grounds that the application to it of the provisions of 10 CFR, Part 211, which require that the base period supplier/purchaser relationship be maintained results in a serious hardship to the firm. Readygas Propane Service, Inc., 3 FEA Par. 83,149 (April 2, 1976). The April 2 Order directed the Regional Administrator for the FEA, Region VII, to assign to Readygas for the months of April, May, and June 1976, a supplier or suppliers for 26.26 percent of its adjusted base period use of propane whose wholesale price for propane was within the range of prices paid for that product by Readygas' competitors. The Order further provided that the Regional Administrator, upon receiving a written request from Readygas, shall (i) make a determination for any month subsequent to June 1976 as to whether Readygas will continue to experience a serious hardship without the approval of further exception relief, and (ii) make a recommendation to the National Office of Exceptions and Appeals regarding the need for additional assignments to Readygas. Based upon the data which Readygas submitted to the Regional Administrator, the recommendation of the Regional Administrator, and the data which was submitted in support of its previous Applications for Exception filed with the FEA, the FEA determined that adherence to the base period supplier/purchaser relationship required by the Regulations would continue to result in a serious hardship to the firm during the months of July, August, and September 1976 and therefore granted Readygas an exception for those months under the terms and conditions specified in the April 2, 1976 Order.

DISMISSALS

The following submissions were dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

Sun Gas Co.; Dallas, Tex.; FEA–0827; FEA–0828

The following submissions were dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Bay City Airport; Bay City, Mich.; FEE–2476—Dikdan Auto Service; Paterson, N.J.; FEE–2565—Reeves Trading, Inc.; Houston, Tex.; FPI–0100

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B–120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., e.s.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

Dated: July 30, 1976.

DAVID G. WILSON,
Acting General Counsel.

ENERGY FINANCE ADVISORY COMMITTEE

Charter Amendment

Following consultation with the Office of Management and Budget, notice is hereby given to advise of a revision in the Charter of the Energy Finance Advisory Committee. The Charter was published in the April 5, 1976, issue of the Federal Register (41 FR 14430).

This amendment will revise Section B(9), to read as follows:

"9. Subcommittees—the Energy Finance Advisory Committee shall have subcommittees as follows:

a. Subcommittee on Electric Utility (Finance).

b. Subcommittee on Nuclear Fuels.

c. Subcommittee on Oil.

d. Subcommittee on Natural Gas and SYNGAS.

e. Subcommittee on Coal.

f. Subcommittee on Technology and Conservation.

The objective of these Subcommittees is to make recommendations to the parent Committee with respect to the following areas: the projected capital needs of the domestic energy industries; the characteristics, conditions, and projected changes in the money and capital markets; the financial disincentives to domestic energy development; and the effectiveness of Federal financial incentive programs to enhance domestic energy supply.

The Subcommittees shall be comprised of such members of the parent Committee as may be determined by the Chairman of the parent Committee.

All actions of the Subcommittees shall be consistent with the provisions of B–1 through B–8."

The above amendment is effective immediately.

Issued at Washington, D.C. on July 30, 1976.

FRANK G. ZARB,
Administrator.

[FR Doc.76–22683 Filed 7–30–76;3:38 pm]

FEDERAL MARITIME COMMISSION

MALAYSIA—PACIFIC RATE AGREEMENT

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, NY, New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 24, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of descrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a vio-

V 41 151 AUG 4 76 UMI

lation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

D. D. Day, Jr., Secretary, Malaysia-Pacific Rate Agreement, 635 Sacramento Street, San Francisco, California 94111.

Agreement No. 9836-6, entered into by the member lines of the Malaysia-Pacific Rate Agreement, modifies the approved basic agreement by amending (1) the first paragraph of the "Witnesseth" clause to permit the lines to engage in intermodal service; (2) Article 1 to permit the lines to "confer, discuss and agree jointly or severally with indivjdual carriers of other modes of transportation or associations, conferences or bureaus thereof" tariff matters necessary to provide intermodal service in the trade; (3) the first clause of Article 2 to conform to the changes made in Article 1; and (4) Article 3 to provide that the parties may join in and maintain more than one common tariff.

Dated: July 30, 1976.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary

FEDERAL POWER COMMISSION

[Docket No. RP75-80]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Revised Tariff Sheet

JULY 27, 1976.

Take notice that on July 16, 1976, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), P.O. Box 918, Florence, Alabama 35630, tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Substitute Sixteenth Revised Sheet No. 3-A, Alabama-Tennessee requests that this revised tariff sheet be effective for the period from May 1, 1976 through June 30, 1976.

Alabama-Tennessee states that the sole purpose of such revised tariff sheet is to adjust Alabama-Tennessee's rates to accord with the rate settlement in Docket No. RP75-80 approved by the Commission's Order of June 18, 1976.

Alabama-Tennessee states that the revised tariff sheet provides for the following rates:

Rate Schedule:	
G-1:	
Demand	$1.63
Commodity	79.83¢
SG-1:	
Commodity	91.74¢
I-1:	
Commodity	85.19¢

Alabama-Tennessee states that copies of the filings have been mailed to all of its jurisdictional customers and affected State regulatory Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc 76-22501 Filed 8-3-76;8:45 am]

[Docket No. RP72-110 (PGA76-11)]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

JULY 28, 1976.

Take notice that Algonquin Gas Transmission Company ("Algonquin Gas"), on July 12, 1976, tendered for filing Nineteenth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

This tariff sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate adjustment, amounting to a net decrease of $.0116 per being MMBtu in Algonquin Gas' sales rates under applicable rate schedules, is being filed to amortize the balance in Algonquin Gas' Unrecovered Purchased Gas Cost Account.

The proposed effective date of the revised tariff sheet is September 1, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, DC 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 5, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22503 Filed 8-3-76;8:45 am]

[Docket No. CP76-417]

CITIES SERVICE GAS CO.

Notice of Application

JULY 28, 1976.

Take notice that on June 29, 1976, Cities Service Gas Company (Applicant), P.O. Box 25128, Oklahoma City, Oklahoma 73125, filed in Docket No. CP76-417 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain pipeline, taps, measuring, regulating facilities and appurtenant facilites to enable Applicant to render natural gas service to The Gas Service Company (Gas Service) for resale to 31 rural domestic customers pursuant to right-of-way easements and agreements heretofore entered into between Applicant and said customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that right-of-way grantors have requested domestic rural service for which Applicant proposes to construct and operate the following facilities:

Item 1: A tap on Applicant's Falls City 8-inch transmission pipeline in Atchison County, Kansas, and measuring, regulating and appurtenant facilities at the James S. Barnett resale mainline domestic meter site.

Item 2: A tap on Applicant's Sedalia 20-inch loop transmission pipeline in Miami County, Kansas, and measuring, regulating and appurtenant facilities at the Oren Bishop resale mainline domestic meter site.

Item 3: A tap on Applicant's Carrollton 12-inch transmission pipeline in Johnson County, Missouri, and measuring, regulating and appurtenant facilities at the Richard Brant resale mainline domestic meter site.

Item 4: A tap on Applicant's Wineteer 2-inch transmission pipeline in Sedgwick County, Kansas, and measuring, regulating and appurtenant facilities at the Louis C. Brown resale mainline domestic meter site.

Item 5: A tap on Applicant's Shebester 4-inch gathering pipeline in Comanche County, Oklahoma, and measuring, regulating and appurtenant facilities at the Ronnie Curry resale mainline domestic meter site.

Item 6: A tap on Applicant's Lexington 10-inch transmission pipeline in Lafayette County, Missouri, and measuring, regulating and appurtenant facilities at the Kenneth Diestelkamp resale mainline domestic meter site.

Item 7: A tap on Applicant's Topeka 20-inch pipe line in Douglas County, Kansas, and measuring, regulating and appurtenant facilities at the William Elkins resale mainline domestic meter site.

Item: A tap on Applicant's Carlyle 2-inch pipeline in Allen County, Kansas, and measuring, regulating and appurtenant facilities at the John Galemore resale mainline domestic meter site.

Item 9: A tap on Applicant's Bonner Springs 8-inch transmission pipeline in Johnson County, Kansas, and measuring, regulating and appurtenant facilities at the Edward O. Garrett resale mainline domestic meter site.

Item 10: A tap on Applicant's Welda 20-inch transmission pipeline in Franklin County, Kansas, and measuring, regulating and appurtenant facilities at the Lex E. Gislar resale mainline domestic meter site.

Item 11: A tap on Applicant's Cherryvale 6-inch transmission pipeline in Montgomery County, Kansas and measuring, regulating and appurtenant facilities at the R. E. Goodwin resale mainline domestic meter site.

Item 12: A tap on Applicant's Cambridge-Caney 12-inch transmission pipeline in Chautauqua County, Kansas, and measuring, regulating and appurtenant facilities at the Mrs. George Green resale mainline domestic meter site.

Item 13: A tap on Applicant's Barber County 8-inch gathering pipeline in Barber County, Kansas, and measuring, regulating and appurtenant facilities at the Mrs. Lee Winter Gress resale mainline domestic meter site.

Item 14: A tap on Applicant's Smith Center 6-inch transmission pipeline in Jewell County, Kansas, and measuring, regulating and appurtenant facilities at the Evan Hanson resale mainline domestic meter site.

Item 15: A tap on Applicant's Ottawa-Hund Junction 16-inch transmission pipeline in Leavenworth County, Kansas, and measuring, regulating, and appurtenant facilities at the Roland L. Hatlock resale mainline domestic meter site.

Item 16: A tap on Applicant's Canadian-Blackwell 26-inch transmission pipeline in Kay County, Oklahoma, and measuring, regulating and appurtenant facilities at the Gene Hedrick resale mainline domestic meter site.

Item 17: A tap on Applicant's Overbrook 4-inch transmission pipeline in Osage County, Kansas, and measuring, regulating and appurtenant facilities at the James R. Hesseltine resale mainline domestic meter site.

Item 18: A tap on Applicant's Luray 2-inch transmission pipeline in Lincoln County, Kansas, and measuring, regulating and appurtenant facilities at the Dennis Koster resale mainline domestic meter site.

Item 19: A tap on Applicant's Weir 4-inch transmission pipeline in Cherokee County, Kansas, and measuring, regulating and appurtenant facilities at the Monzell Larson resale mainline domestic meter site.

Item 20: A tap on Applicant's Southern Trunk 20-inch transmission pipeline in Montgomery County, Kansas, and measuring regulating, and appurtenant facilities at the Charles M. Long resale mainline domestic meter site.

Item 21: A tap on Applicant's East Kansas City 20-inch transmission pipeline in Cass County, Missouri, and measuring, regulating and appurtenant facilities at the John W. McCush resale mainline domestic meter site.

Item 22: A tap on Applicant's Woods 12-inch transmission pipeline in Grady County, Oklahoma, and measuring, regulating and appurtenant facilities at the John M. Nelson resale mainline domestic meter site.

Item 23: A tap on Applicant's Sedalia 20-inch loop transmission pipeline in Cass County, Missouri, and measuring, regulating and appurtenant facilities at the John Pihl resale mainline domestic meter site.

Item 24: A tap on Applicant's Plattsburg 6-inch transmission pipeline in Buchanan County, Missouri, and measuring, regulating and appurtenant facilities at the Calvin Robinson, Jr., resale mainline domestic meter site.

Item 25: A tap on Applicant'a Neosho'a 6-inch transmission pipeline in Newton County, Missouri, and measuring, regulating and appurtenant facilities at the John Schumaker resale mainline domestic meter site.

Item 26: A tap on Applicant's Sedalia 20-inch loop transmission pipeline in Cass County, Missouri, and measuring, regulating and appurtenant facilities at the Kenneth C. Simons resale mainline domestic meter site.

Item 27: A tap on Applicant's Sedalia 20-inch loop transmission pipeline in Cass County, Missouri, and measuring, regulating and appurtenant facilities at the Harrel Speer resale mainline domestic meter site.

Item 28: A tap on Applicant's Oskaloosa 4-inch transmission pipeline in Jefferson County, Kansas, and measuring, regulating and appurtenant facilities at the James F. Turner resale mainline domestic meter site.

Item 29: A tap on Applicant's Southern Trunk 20-inch transmission pipeline in Cherokee County, Kansas, and measuring, regulating and appurtenant facilities at the Larry C. Westervelt resale mainline domestic meter site.

Item 30: A tap on Applicant's Arkla 20-inch transmission pipeline in Newton County, Missouri, and measuring, regulating and appurtenant facilities at the Donald R. Whiteman resale mainline domestic meter site.

Item 31: A tap on Applicant's Welda-Ottawa 30-inch loop transmission pipeline in Anderson County, Kansas, and measuring, regulating and appurtenant facilities at the Lloyd L. Zentner resale mainline domestic meter site.

Applicant estimates that the total cost of the facilities proposed to serve the right-of-way grantors would be approximately $14,730, which costs Applicant would finance from treasury cash. Applicant estimates that the gas required annually by each customer would be approximately 221 Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22504 Filed 8-3-76;8:45 am]

[Docket No. CP76-421]

COLORADO INTERSTATE GAS CO.

Notice of Application

JULY 28, 1976.

Take notice that on July 1, 1976, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP76-421 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation for and exchange of natural gas with Northern Natural Gas Company, operating as Peoples Natural Gas Division (Peoples), all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Applicant and Peoples have executed an agreement dated April 20, 1976, for the purchase and exchange of natural gas under control of Peoples in the Kendall Field area of Kearny and Hamilton Counties, Kansas. It is said that the agreement of April 20, 1976, supersedes an agreement between Applicant and Peoples dated June 1, 1972, pursuant to which service is said to be authorized in Docket Nos. CP72-275 and CP72-291, and provides for increased volumes of exchange gas, additional delivery points, an extended term, and the right of Applicant to purchase gas.

Applicant states that Peoples would deliver gas to Applicant at two points of interconnection on Applicant's gathering system in Kearny County, Kansas, at aggregate delivery rates of not less than 3,000 Mcf on an average day and not more than 7,500 on any day. Applicant would have a continuing option to purchase 25 percent of the gas delivered by Peoples which might be in excess of 37,500 Mcf per month. Applicant would pay to Peoples for purchased gas the average price Peoples pays for gas it purchases in the area from wells contracted for and connected on or after January 1, 1973. Applicant would also reimburse Peoples for its gathering costs, for which the initial rate is said to be 6.32 cents per Mcf.

Applicant proposes to redeliver to Peoples, from April 1 through April 15, thermally equivalent volumes, less the volumes purchased from Peoples. For all gas deliveries by Peoples to Applicant which would be in excess of 37,500 Mcf per month and not purchased by Applicant, Peoples would pay Applicant an initial rate of 4.5 cents per Mcf for compression and transportation. The exchange account would be balanced each December 31. Applicant states that redeliveries would be made by Applicant to Peoples on a best efforts basis at a sales point in Moore County, Texas, said to be installed under authorization in Docket No. CP65-40, at a sales point in Baca County, Colorado, said to be installed under authorization in Docket No. CP67-290, and at two exchange points in Baca County, Colorado, and one exchange point in Bent County, Colorado.

V 41 151 AUG 4 76 UMI

said to be installed under authority in Docket Nos. CP72-275 and CP72-291.

It is stated in the application that gas would be delivered to Applicant by Peoples on a generally uniform basis throughout the year at an expected rate of approximately 3,000 Mcf per day. Applicant would redeliver gas only from April 1 through October 15. Applicant expects to purchase approximately 161,250 Mcf of gas annually.

The application states that the instant proposal would permit Peoples to make gas controlled in an area remote from its system available to its customers with only minimal facilities and cost. Further, it is stated, the gas would be used almost exclusively for agricultural irrigation purposes which usage peaks during the warmer months. Applicant states that since its peak usage occurs during the winter months because of residential and small commercial heating loads on its customers' distribution systems, the fact that Applicant would receive but not deliver gas during the colder months is a benefit to Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22905 Filed 8-3-76;8:45 am]

[Docket No. CP76-177]

COLORADO INTERSTATE GAS CO.

Notice of Amendment to Application

JULY 28, 1976.

Take notice that on July 1, 1976, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP76-177 an amendment to its application filed in said docket for a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act, by which amendment Applicant requests authorization to construct and operate facilities in addition to those for which authorization was initally requested, all as more fully set forth in the amendment on file with the Commission and open to public inspection.

In its initial application Applicant requests authorization to construct and operate a 450 horsepower compressor station at the tailgate of the Spindle gasoline plant operated by Amoco Production Company in Weld County, Colorado, to maintain gas flow from the Spindle plant and other sources in the Spindle area into Applicant's Wyoming pipeline. Applicant states that it constructed the facilities pursuant to a temporary certificate.

By the instant amendment Applicant requests authorization (1) to construct and operate a 1,200 horsepower addition, consisting of two 600 horsepower units, at the Spindle compressor station to provide a total of 1,650 horsepower at the station, (2) to increase the size of the meter runs to increase the capacity of the existing Spindle purchase meter station, and (3) to install approximately 7 miles of 8-inch pipeline loop adjacent to Applicant's existing 6-inch Spindle lateral which runs from the compressor station site to Applicant's 22-inch Wyoming mainline. The estimated cost of the additional facilities for which authorization is sought in the instant amendment is $948,654.

Applicant states that the volumes of gas to be available to Applicant in the immediate future from the Spindle area have increased from the original estimate of 18,200 Mcf per day to an anticipated 53,150 Mcf per day by the end of 1976. Further, Applicant states, the facilities proposed in the instant amendment would provide a design capacity of 52,589 Mcf of gas per day and a maximum capacity of 65,250 Mcf of gas per day.

It is stated that most of the gas is casinghead production or gas produced in association with oil and that new oil wells are being continuously added. The gas volume increase is said to be attributable to the size of the production area which has proven to be larger than anticipated, to the execution of gas purchase contracts covering wells that were uncommitted when the initial application was prepared, and to a decrease by the Colorado Oil and Gas Conservation Commission of allowable well spacing from 80 acres to 40 acres.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before August 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22506 Filed 8-3-76;8:45 am]

[Docket No. CP73-237]

COLORADO INTERSTATE GAS CO.

Notice of Petition To Amend

JULY 28, 1976.

Take notice that on July 1, 1976, Colorado Interstate Gas Company (Petitioner), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP73-237 a petition to amend the Commission's order, issued August 29, 1973, in said docket (50 FPC 588) pursuant to Section 7(c) of the Natural Gas Act by authorizing an increase in the maximum reservoir stabilized shut-in pressure of the Boehm Field from 1,441 psia to 1,730 psia, all as more fully set forth in the subject petition which is on file with the Commission and open to public inspection.

Applicant states that the order of August 29, 1973, authorized it to acquire, construct, and operate certain facilities necessary to develop, maintain, and operate the Boehm Field in Morton County, Kansas, as an underground gas storage reservoir. Said order limited the reservoir stabilized shut-in pressure to 1,441 psia and the maximum reservoir volume to 29,500,000 Mcf, it is stated. Petitioner has determined that the maximum capacity of the reservoir is less than originally anticipated and that at a pressure of 1,441 psia, the reservoir has a capacity of only 20,750,000 Mcf which substantially reduces the withdrawal capability.

Petitioner asserts that in order to realize the much needed winter season withdrawal volumes projected to be available during the 1976-77 heating season, it would be necessary to increase the maximum storage inventory by increasing the maximum reservoir shut-in pressure. It is said that the proposed increase in pressure would result in approximately 4,150,000 Mcf more storage gas inventory to be withdrawn during the heating season than could be obtained at the currently authorized reservoir pressure and that without this requested increase in pressure, Petitioner would fall far short of meeting its 1976-77 designed heating season withdrawal amounts. Applicant states that no facilities, other than those currently certificated, would be required to reach the pressure proposed.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22507 Filed 8-3-76;8:45 am]

[Docket No. ER76-784]

CONSUMERS POWER CO.

Notice of Termination

JULY 28, 1976.

Take notice that on July 14, 1976, Consumers Power Company (Company) tendered for filing copies of its notice of intent to terminate its existing contract for electric service with:

City of Coldwater, Michigan, contract dated February 14, 1972, rate schedule FPC No. 29, proposed termination date: July 10, 1978.

The Company states that this termination notice was sent in accordance with contract provisions, the commitment of the Company to place its wholesale for resale customers on the Schedule of Rates Governing Wholesale for Resale Electric Service, and consistent with the order of the Federal Power Commission in Docket No. ER76-45 dated August 29, 1975. The Company states that it intends to submit the Standard Service Agreement for the supply of wholesale energy to the City of Coldwater at an early date for consideration.

The Company states that the contract termination is caused only by the Company's desire to have one standard Rate Schedule for wholesale service.

The company states that copies of the filing were served on the City of Coldwater, its counsel and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protest should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22508 Filed 8-3-76;8:45 am]

[Docket No. CP76-425]

EL PASO NATURAL GAS CO.

Notice of Application

JULY 28, 1976.

Take notice that on July 6, 1976, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP76-425 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the exchange of natural gas with Northern Natural Gas Company (Northern) and facilities used therefor, all as more fully set forth in the application on file with the Commission and open ot public inspection.

Applicant proposes to abandon its Gomez exchange tap on its 16-inch Gomez-Waha pipeline in Pecos County, Texas, used to receive natural gas from Northern for treatment by Applicant at its Waha treating plant in Reeves County, Texas. The quantities of gas delivered by Northern at said tap are said to have been in excess of the capacity of Northern's Gomez treating plant. In exchange, Applicant states, it caused the delivery of natural gas by Mobil Oil Corporation (Mobil) to Northern for the account of Applicant at Mobil's Coyanosa plant in Pecos County, Texas. The application states that Northern has advised Applicant that sufficient treating capacity now exists at Northern's Gomex plant to handle Northern's Gomez supply. Accordingly, Applicant proposes to abandon the exchange of gas and to abandon in place the Gomez exchange tap used therefor.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-733]

GULF POWER CO.

Notice of Tariff Filing

JULY 28, 1976.

Take notice that on June 4, 1976, Gulf Power Company (Gulf) filed herein a supplement to its FPC Electric Tariff providing for a new delivery point for service by Gulf to Gulf Coast Electric Cooperative, Inc., at Gaskin in Bay County Florida. The tariff supplement is proposed to be effective for service commencing on June 1, 1976.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Gulf's filing is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

V 41 151 AUG 4 76 UMI

[Docket Nos. ER76-469 and ER76-508]

IDAHO POWER CO.

Notice of Settlement Conference

JULY 28, 1976.

Take notice that on August 6, 1976, a conference of all parties to intervene in these proceedings, Idaho Power Company, and the Commission Staff will be held in a Commission Hearing Room at 825 North Capitol Street, NE., Washington, D.C., at 10:00 a.m.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance at the conference will not be deemed to authorize intervention as a party in the proceedings.

All parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of the proposed rate increase and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22511 Filed 8-3-76;8:45 am]

[Docket No. CP76-426]

KENTUCKY WEST VIRGINIA GAS CO.

Notice of Application

JULY 28, 1976.

Take notice that on July 6, 1976, Kentucky West Virginia Gas Company (Applicant), Second National Bank Building, Ashland, Kentucky 41101, filed in Docket No. CP76-426 an application pursuant to Section 7(c) of the Natural Gas Act, and in compliance with the Commission's order issued May 28, 1976, in Docket No. RP76-93, for a certificate of public convenience and necessity authorizing the continued sale of natural gas and identical service to distribution systems (collectively referred to as Distribution Systems) owned by (1) Ohio-Kentucky Utilities, Incorporated (Ohio-Kentucky), serving the towns of Allen and Dwale and vicinities in Floyd County, Kentucky; (2) Ohio-Kentucky, serving the gas system operated by the purchaser on the Right Fork of Middle Creek in Floyd County; (3) Mountain Utilities, Incorporated (Mountain Utilities), serving the town of Staffordsville and vicinity in Johnson County, Kentucky; and (4) Equitable Gas Company (Equitable), successor to Kentucky West Virginia Gas Company in Docket No. G-272, serving gas at retail to scattered customers along Applicant's pipeline right of way in eastern Kentucky, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is indicated that by order issued May 28, 1976, in Docket No. RP76-93, the Commission exerted jurisdiction over Applicant's city gate service to various distribution customers located in Kentucky including the Distribution Systems which are the subject of the instant application.

Applicant submits that in Docket No. RP76-93, it described the services covered by its "Grandfather certificate" issued in Docket No. G-272, but that three city gate customers for whom service agreements were filed in Docket No. RP76-93 cannot be specifically identified in Docket No. G-272 or any other docket. Applicant states that these customers are: (1) Ohio-Kentucky service for Allen, Kentucky; (2) Ohio-Kentucky service for Right Fork of Middle Creek, Floyd County, Kentucky; and (3) Mountain Utilities service for Staffordsville, Kentucky. It is indicated that these are small systems whose ownership has changed often over the years and that some or all of these systems may be or have been covered under the certificate issued in Docket No. G-272.

Applicant states that the order of May 28, 1976, in Docket No. RP76-93 provided, as to city gate sales not specifically covered by existing certificates, that Applicant file within 90 days of the date of said order applications for certificate authority to continue such sales. Applicant asserts that the subject application constitutes its compliance with the order of May 28, 1976.

It is asserted that all of the gas sold by Applicant from its integrated system to its Kentucky resale customers is and has been commingled with gas moving out of Kentucky for resale and supplemented by a substantial volume of gas from outside of Kentucky.

Applicant notes that its application in Docket No. G-272 states that gas was sold at wholesale to Langley Supply Company, Inland Steel Company, the City of Paintsville, and Prestonsburg Gas Company for resale to the public within the Cities of Maytown, Wheelwright, Paintsville, and Prestonsburg, Kentucky. Taking the purchasers in order, Applicant indicates that the service to Langley Supply Company for Maytown, Kentucky, is now operated by the Mike Little Gas Company, Incorporated; the service to Inland Steel Company for Wheelwright, Kentucky, is now operated by Mountain Investment, Inc.; the service to the City of Paintsville has remained the same; and the service to the Prestonsburg Gas Company for Prestonsburg is now operated by the City of Prestonsburg. It is indicated that while not mentioned in the narrative of the application in Docket No. G-272, Exhibit B to that application indicates service to Prestonsburg Gas Company at Middle Creek; however, Applicant states that whether this is the Right Fork of Middle Creek now operated by Ohio-Kentucky, it has no way of knowing.

Finally, Applicant asserts that the application in Docket No. G-272 stated that Applicant has also sold gas at retail to scattered customers along its pipeline right of way in eastern Kentucky. Applicant states that this is the domestic retail service now rendered by Equitable in Kentucky under the service agreement, dated August 15, 1958, and that this service was transferred to Equitable and that Applicant has supplied Equitable with all of its requirements for resale since that date.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-786]

MINNESOTA POWER & LIGHT CO.

Notice of Filing of Agreement

JULY 28, 1976.

Take notice that on July 15, 1976, Minnesota Power & Light Company (Minnesota) tendered for filing a Sectionalizing Switch Agreement between it and United Power Association. Minnesota states that the agreement provides for installation, operation and maintenance of certain sectionalizing switches and related equipment as part of a transmission service agreement between it and United Power Association.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and

Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 6, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22513 Filed 8-3-76;8:45 am]

[Docket No ER76-400]

MONONGAHELA POWER CO.

Order Granting Intervention and Granting Petition To Reject

JULY 28, 1976.

Before Commissioners: Richard L. Dunham, Chairman; Don S. Smith, John H. Holloman III, and James G. Watt.

On December 29, 1975, Allegheny Power Service Corporation filed on behalf of Monongahela Power Company (Monongahela) a petition for waiver of the Section 35.14 requirement of the Commission's Regulations under the Federal Power Act to file a conformed fuel adjustment provision as part of the rates for service to Preston County Coke Company (now Preston Electric Company), stating that its contract is a fixed rate contract. Preston Electric Company (Preston) filed petitions to intervene and to reject Monongahela's petition for waiver. For the reasons hereinafter discussed, we shall grant Preston's petitions.

Public notice of Monongahela's filing was issued January 13, 1976, with protests or petitions to intervene due on or before January 23, 1976. On January 16, 1976 Preston filed a timely petition to intervene and a petition to reject Monongahela's petition for waiver. As grounds for rejection, Preston argues that Section 35.14(8) of the Commission's Regulations promulgated by Order No. 517 does not apply to the subject Monongahela Rate Schedule No. 30 since it is a fixed rate contract between Preston and Monongahela and waiver is neither necessary nor appropriate for the continuing effectiveness of the fuel adjustment clause as presently on file with the Commission.

In Opinion No. 760 issued on April 29, 1976, the Commission found that the fuel adjustment formula in the "fixed rate" contracts between Kentucky Utilities and the subject Cities was

"entitled to the protection of the Mobile-Sierra rule and may not be changed by a unilateral filing by either party to the contract except upon a show(ing) that the total rate under the contract 'is so low as to adversely affect the public interest' or so high as to exceed a just and reasonable rate." (citations omitted)

We therefore find that because, as both parties agree, the service contract between Monongahela and Preston is a fixed rate contract, the fuel clause contained therein is subject to the protection of Mobile-Sierra and Monongahela need not file a fuel adjustment clause to conform to Section 35.14. Because conformance is not required, a waiver of conformance is unnecessary, and Preston's petition to reject Monongahela's request for waiver shall be granted.

The Commission finds:

(1) Good cause exists to grant Preston's petition to reject Monongahela's request for waiver of Section 35.14 of the Regulations under the Federal Power Act.

(2) Preston Electric Company should be permitted to intervene.

The Commission orders:

(A) Preston's petition to reject Monongahela's request for waiver of Section 35.14 of the Regulations under the Federal Power Act is hereby granted and Docket No. ER76-400 is hereby terminated.

(B) Preston Electric Company is hereby permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The Secretary shall cause prompt publication to this order to be made in the Federal Register.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-789]

MONONGAHELA POWER CO. ET AL.

Notice of Changes in Rates and Charges

JULY 28, 1976.

Take notice that Allegheny Power Service Corporation (APSC) on July 15, 1976 tendered for filing on behalf of Monongahela Power Company (Monongahela), The Potomac Edison Company (PE), and West Penn Power Company (West Penn), the electric utilities which make up the integrated Allegheny Power System, Amendment No. 5 dated June 28, 1976 to the Interconnection Operating Agreement dated February 1, 1973 between Monongahela, PE, and West Penn and Virginia Electric Power Company (Vepco) designated Monongahela Rate Schedule FPC No. 32, PE Rate Schedule FPC No. 33 and West Penn Rate Schedule FPC No. 31.

Amendment No. 5 provides for an increase in the demand charge for short-term power and energy from $0.45 to $0.50 per kilowatt week and an increase in demand charge for limited-term power and energy from $2.50 to $2.75 per kilowatt month to become effective September 1, 1976. Applicants state that since short-term power and energy transactions and limited-term power and energy transactions are scheduled from time to time as load capacity conditions on the systems of the parties dictate it is impossible to estimate the increase in revenues which would result from Amendment No. 5.

Any person desiring to be heard or protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 N. Capitol Street NE., Washington, D.C. 20426 in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protest should be filed on or before August 10, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-785]

MONONGAHELA POWER CO.

Notice of Tariff Change

JULY 28, 1976.

Take notice that Monongahela Power Company, on July 15, 1976 tendered for filing Second Revision Sheet Nos. 11, 14 and 15 to FPC Electric Tariff Original Volume No. 1. The changes proposed would produce an estimated overall increase in revenues from jurisdictional sales and service of approximately $258,307, based on the twelve-month period ending December 31, 1975. The proposed effective date for the increased rates is August 14, 1976.

The changes proposed are for the purpose of recovering increased costs incurred by the Company.

Copies of the filing were served upon the jurisdictional customers and the West Virginia Public Service Commission and the Virginia State Corporation Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 3, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to be-

[Docket No. ER76-739]

PUBLIC SERVICE COMPANY OF INDIANA, INC.

Notice of Termination of Kentucky-Indiana Pool Planning and Operating Agreement

JULY 28, 1976.

Take notice that on June 7, 1976, Public Service Company of Indiana, Inc. (PSCI) filed a notice terminating the Kentucky-Indiana Pool Planning and Operating Agreement (KIP) and all amendments and supplements thereto as of July 1, 1976. The KIP Agreement is presently on file as PSCI Rate Schedule FPC No. 225. The notice of termination terminates only the contractual planning functions of the Agreement. PSCI plans to submit notices of termination of rate schedules attached to the Agreement at appropriate times in accordance with Commission Regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before August 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP76-53 and RP76-60]

SOUTH TEXAS NATURAL GAS GATHERING CO.

Notice of Filing of Settlement Agreement

JULY 27, 1976.

Take notice that on July 16, 1976, South Texas Natural Gas Gathering Company (South Texas) filed a "Stipulation and Agreement in Settlement of Rate Proceedings" in this docket.

South Texas states that the proposed settlement agreement has been agreed to by all parties to the proceeding.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before August 9, 1976. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

[Docket No. RP72-121; PGA 76-5]

SOUTHWEST GAS CORP.

Notice of Filing of Tariff Sheet

JULY 28, 1976.

Take notice that on July 19, 1976, Southwest Gas Corporation (Southwest) tendered for filing Sixteenth Revised Sheet No. 3A, constituting Original PGA-1 in its FPC Gas Tariff, Original Volume No. 1. According to Southwest, the purpose of this filing is to increase the rates of Southwest under its Purchased Gas Adjustment Clause in Section 9 of its General Terms and Conditions contained in its FPC Volume No. 1.

Southwest states the instant notice of change in rates is occasioned solely by an increase in the cost of purchased gas which will become effective on September 10, 1976, applied to the volumes purchased for the twelve-month period ended May 31, 1976.

Southwest further states that copies of the filing have been mailed to the Nevada Public Service Commission, the California Public Utilities Commission, Sierra Pacific Power Company and the California-Pacific Utilities Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 9, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-22518 Filed 8-3-76;8:45 am]

[Docket No. CP75-295]

TEXAS GAS TRANSMISSION CORP.

Order Setting Matter for Hearing, Establishing Procedures and Granting Intervention

JULY 28, 1975.

Before Commissioners: Richard L. Dunham, Chairman; Don S. Smith, John H. Holloman III, and James G. Watt.

On March 21, 1975, Texas Gas Transmission Corporation (Texas Gas), P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP75-295 a petition for a declaratory order asserting that at all times during the period from August 30, 1968, to March 5, 1975, all of the gas produced from acreage in the "C" Sand Unit A of the Edwin L. Cox No. 1 Intercoastal Shipyard Well in the Ramos Field, St. Mary Parish, Louisiana, was delivered and sold for resale in interstate commerce to Texas Gas pursuant to Edwin L. Cox, et al. (Cox, et al.) FPC Gas Rate Schedule Nos. 77, 78, and 79, and, accordingly, that subsequent diversion of any portion of such gas for sale in interstate commerce commencing on or about March 5, 1975, under contract with Louisiana Intrastate Gas Corporation was tantamount to an abandonment, permission for which is first required to be obtained, after due hearing, under Section 7(b) of the Natural Gas Act. Texas Gas seeks relief in the form of a cease and desist order issued by the Commission prior to issuance of a final order and that Cox, et al. be further ordered to make redelivery of equivalent volumes of gas to Texas Gas previously delivered to an intrastate purchaser, Louisiana Intrastate.

On April 21, 1975, Edwin L. Cox et al. filed concurrently a petition for leave to intervene and an answer in response to Texas Gas' petition filed March 21, 1975. By answer Cox et al. assert that following creation of the unitized "C" Sand Unit of August 6, 1968, by the Louisiana Department of Conservation, deliveries of gas production from the committed or dedicated portion of the unitized Unit (approximately 80% of the properties) commenced on or about August 30, 1968, to Texas Gas under certificated authority in Docket No. CI69-630. No deliveries were made, according to Cox et al., from the uncommitted portion of such Unit (approximately 20% of the properties) and the unit was therefore produced out of balance. Subsequently a temporary certificate was issued by the Commission authorizing sale and delivery of gas production to Texas Gas from uncommitted acreage contained in said Unit under contract dated February 13, 1970; however, by letter order dated July 28, 1971, Cox et al. were permitted to withdraw the application due to their cancellation of the contract. On March 5, 1975, Cox et al. by contract dated October 9, 1974, commenced intrastate deliveries of gas production from the uncommitted portion of the Unit to Louisiana Intrastate Gas Corporation. Accordingly, Cox et al. assert that from August 30, 1968, or the commencement of gas production deliveries to Texas Gas, to March 5, 1975, or the commencement of gas production deliveries to Louisiana Intrastate, the said Unit was produced out of balance insofar as Texas Gas received all gas production from such Unit while holding contract or certificated authority covering only a portion of such acreage. In support of their position Cox et al. contend that prior delivery of the full wellstream to Texas Gas would not include uncommitted gas since no authority existed to deliver such gas. Respondent Cox et al. therefore request that the petition be dismissed for failure to state a claim for which relief may be granted, or alternatively, that such petition be denied.

Notice of Texas Gas' petition was issued April 15, 1975, and appeared in the FEDERAL REGISTER on April 21, 1975, at 40 FR 17643. Michigan Wisconsin Pipe Line Company filed a petition to intervene one day beyond the filing deadline and requested it be allowed to participate in any hearing which may be convened. Gulf Oil Corporation filed a timely petition to intervene and requests it be made a party to this proceeding including but not limited to right to notice of and appearance at all hearings. The State of Louisiana, by its Commissioner of Conservation, filed a timely notice of intervention.

In the light of the factual and legal issues raised by Texas Gas' petition, this proceeding should be set for hearing in order to provide Texas Gas and other interested parties an opportunity to present evidence on the issues raised and on any other matters considered to be relevant to the proceeding.

The Commission finds: (1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) Good cause exists to grant the petitions to intervene of Edwin L. Cox et al., Michigan Wisconsin Pipe Line Company, and Gulf Oil Corporation.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 7, 14, 15 and 16 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter 1), a public hearing shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to resolve the issues raised by Texas Gas' petition.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR § 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the sole exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

(C) Texas Gas and Edwin L. Cox, et al. shall file their direct testimony and evidence on or before August 18, 1976 including but not limited to copies of all division orders executed by Edwin L. Cox, et al. in connection with the sale of gas production from the unitized "C" San Unit A of the Edwin L. Cox No. 1 Intercoastal Shipyard Well together with such other documentation as is determinative of Edwin L. Cox et al. 20 percent uncommitted interest in the said unitized Unit to be submitted by Edwin L. Cox, et al.

(D) The Presiding Administrative Law Judge shall preside at a pre-hearing conference to be held on September 2, 1976, at 9:30 a.m., in hearing room at the address noted in Ordering Paragraph (A).

(E) Edwin L. Cox et al., Michigan Wisconsin Pipe Line and Gulf Oil Corporation are permitted to intervene in the above-entitled proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That their participation shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions for leave to intervene; and *Provided, further,* That the admission of Edwin L. Cox et al., Michigan Wisconsin Pipe Line and Gulf Oil Corporation in the manner provided shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders entered in this proceeding, and that they agree to accept the record as it now stands.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

CITICORP

Proposed De Novo Expansion of Gateway Life Insurance Company

Citicorp, New York City, New York, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to expand de novo the activity of Gateway Life Insurance Company ("Gateway"), Phoenix, Arizona. Notice of the application was published on July 19, 1976 in The Arizona Republic, a newspaper circulated in Phoenix, Arizona; and on July 20, 1976 in The New York Times, a newpaper circulated in New York City, New York.

Gateway is a subsidiary of Citicorp's consumer finance subsidiary, Nationwide Financial Services Corporation ("Nationwide"), and presently engages in the underwriting in a reinsurance capacity of credit life and credit accident and health insurance sold in connection with extensions of credit by Nationwide in 13 states, as approved by the Board in its Order of September 14, 1973. Applicant proposes that Gateway be permitted to expand the underwriting of credit life and credit accident and health insurance to those additional states which were not included in the Board's Order of 1973, but in which Nationwide now operates through subsidiaries, or where entry is anticipated in the coming year. Applicant states that Gateway will initially act as a reinsurer in each proposed state. Gateway will act as a direct underwriter in states previously approved and, subsequent to operational preparation and satisfaction of state regulatory provisions, will so act in certain proposed states.

Gateway would underwrite credit related life insurance purchased by customers of Citicorp's New York banking subsidiaries in New York State and credit life and accident and health coverage of customers of other Citicorp subsidiaries engaged in making consumer credit directly available (or the equivalent thereof) to the consumer sector in selected states. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 26, 1976.

Board of Governors of the Federal Reserve System, July 28, 1976.

FIRST CITY BANCORPORATION OF TEXAS, INC.

Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Texas has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)), to acquire 100 percent (less director's qualifying shares) of the voting shares of First City Bank-Northeast, N.A., Houston, Texas. The factors that are considered in acting on the application are set forth in 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 26, 1976.

INDIAN HEAD BANKS INC.

Order Approving Acquisition of Shares of Bank

Indian Head Banks Inc., Nashua, New Hampshire, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 67 per cent or more of the voting shares of Community National Bank of Rochester, Rochester, New Hampshire.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received, including those submitted by Strafford National Bank,

Dover, New Hampshire ("Protestant"), in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in New Hampshire, controls 8 banks with aggregate deposits of approximately $255 million, representing 15.4 per cent of total deposits in commercial banks in New Hampshire.[1] Acquisition of Bank (deposits of approximately $7 million) would increase Applicant's share of Statewide deposits by .4 of one per cent. Consummation of the proposed transaction would not result in a significant increase in the concentration of banking resources in New Hampshire.

Bank is the 6th largest of 10 commercial banking organizations in the Dover-Rochester banking market (the relevant banking market for purposes of this proposal)[2] and controls 9.4 percent of deposits in commercial banks in the market. A subsidiary of Applicant, Indian Head National Bank of Exeter ("Exeter Bank"), Exeter, New Hampshire, operates a branch in Newmarket, New Hampshire, located in the relevant banking market. That branch holds deposits of approximately $6.3 million[3] representing 8.4 percent of total deposits in commercial banks in the market, and thus Applicant is the eighth largest banking organization in the relevant banking market. As a result of consummation of the proposed transaction, Applicant would become the largest banking organization in the relevant market with 17.8 percent of deposits in commercial banks. Thus the proposed transaction would have the effect of increasing somewhat the concentration of banking resources in the relevant market. However, even after consummation of the proposed transaction, the market would not be highly concentrated as the four largest banking organizations would control 60.7 percent of deposits in the market. The effect of the proposal on concentration in the relevant market is mitigated by the facts that Bank and Exeter Bank are among the smaller organizations in the market and that, because Bank is in less than satisfactory condition, it is not currently a meaningful competitor in the market. Indeed, affiliation with Applicant should enable Bank to become a competitive factor in the market. Accordingly, it is the Board's judgment that the proposal would be consistent with the public interest despite its effects on concentration in the market.

To the extent that Bank and Exeter Bank's Newmarket branch operate in the Dover-Rochester banking market, some amount of existing competition would be eliminated as a result of consummation of this proposal. However, on the basis of the facts of record, including the facts that Bank and Exeter Bank's Newmarket branch are 18 miles apart and that a number of banks compete in the market, it does not appear that any meaningful competition between Bank and Exeter Bank would be eliminated as a result of the proposal, particularly in view of the current financial condition of Bank. Applicant's other subsidiaries also have five banking offices located outside the relevant market that derive some deposits from Bank's service area. The amount of such deposits, however, is not significant nor does Bank derive a significant amount of deposits from the service areas of these subsidiaries of Applicant. After consummation of the proposal, several independent banks would remain available for acquisition by holding companies not represented in the market. Accordingly, the Board concludes that consummation of the proposal would not eliminate any significant existing competition or foreclose the development of potential competition.

The financial condition and managerial resources of Applicant and its subsidiaries are considered satisfactory and their future prospects appear favorable. Bank's financial condition, managerial resources and future prospects, absent consummation of the instant proposals, are less than satisfactory. However, Applicant has agreed to inject needed capital of approximately $200,000 into Bank and intends to revamp the management of Bank. Thus, banking factors lend some weight toward approval of the application. Affiliation with Applicant should enable Bank to provide more effectively services it has been forced by its weakened financial condition to reduce. In addition, as a result of the proposal, Bank will offer accounts subject to negotiable orders of withdrawal (so-called "NOW accounts") paying interest on balances in excess of $500, free checking accounts for individuals over 62 years of age, expanded savings and retirement account services, dealer floor planning services and accounts receivable financing. Therefore, considerations relating to convenience and needs of the community to be served lend weight toward approval of the application and, in the Board's view, outweigh any slight adverse competitive effects that might result from consummation of the proposal.

In its consideration of the subject application, the Board has considered the comments submitted by Protestant. Protestant has asserted that consummation of the proposal would result in adverse competitive effects that are not outweighed in the public interest by the effects the proposal would have on the convenience and needs of the community. Specifically, Protestant contends, first, that Applicant should have chosen to establish a de novo office rather than to acquire an existing institution and, second, that there exist less anticompetitive alternatives for the affiliation of Bank with another viable banking organization. With regard to possible de novo entry by Applicant, Protestant disregards the fact that Applicant's subsidiaries are precluded by New Hampshire law from opening branches in the town of Rochester.[4] Furthermore, the ratio of deposits per banking office in the relevant market is already considerably below the Statewide average. Introduction of an additional banking office would further reduce that average. With regard to the possible affiliation of Bank with an organization, the effects of which affiliation would be less anticompetitive, it is noted that State law requires that the principal offices of merging banks be within 30 miles of each other.[5] Thus, the merger of Bank with any other institution would likely have at least some adverse effect on competition.[6] Besides Applicant, there are only three other bank holding companies in New Hampshire. Two do not appear to possess sufficient resources to acquire the shares of Bank sought by Applicant, and any such acquisition by the third would present essentially the same competitive consequences as the instant proposal. The Board is of the view that the mere existence of other institutions with which Bank could conceivably become affiliated, does not warrant denial of the subject application.

In the course of its consideration of the subject application, the Board has also noted the existence of a bank management consulting agreement between a subsidiary of Applicant, Indian Head Bank Services Corporation ("IHBS"),[7] and Bank. According to that agreement, IHBS provides Bank with a full-time on-site consultant who is authorized to initiate new loans of less than $5,000, "to do all things appropriate to the collection of loans charged off or past due" and "to do all things necessary to administer the day-to-day operation of (Bank) but not including the execution of contracts on behalf of (Bank) or the hiring or removal of personnel." It appears that IHBS may be providing Bank with services on a daily or continuing basis contrary to the proscription contained in Footnote 9 to § 225.4(a)(12) of Regulation Y which provides in pertinent part:

[1] Unless otherwise indicated, banking data are as of December 31, 1975.

[2] The Dover-Rochester banking market is approximated by all of Strafford County, New Hampshire, the towns of Nottingham and Newmarket in Rockingham County, New Hampshire, the towns of Brookfield and Wakefield in Carroll County, New Hampshire, and the towns of Lebanon, Berwick and South Berwick in York County, Maine.

[3] As of June 30, 1974.

[4] See New Hampshire RSA, 384–B:2(I).

[5] See New Hampshire RSA, 384–B:2(II).

[6] Protestant, currently the largest banking organization in the market, previously entered into merger negotiations with Bank, and secured regulatory approval to merge with Bank. That merger, which was never consummated, would have produced a banking organization holding 26.6 per cent of the market's deposits.

[7] On October 25, 1974, the Board approved Applicant's application to acquire IHBS (39 FR 39107), a company which engages in the permissible nonbanking activity of providing management consulting advice to nonaffiliated banks (§ 225.4(a)(12) of Regulation Y, 12 CFR 225.4(a)(12)).

V 41 151 AUG 4 76 UMI

"In performing this activity (bank management consulting) bank holding companies are not authorized to perform tasks or operations or provide services to client banks *either on a daily or continuing basis*, except as shall be necessary to instruct the client bank on how to perform such services for itself" (emphasis added). The Board has scrutinized the circumstances of Applicant's involvement with Bank including the financial and managerial resources of Bank, the fact that the Federal Reserve Bank of Boston was consulted by Applicant prior to its entering into the agreement with Bank and the fact that Applicant entered into the agreement at the insistence of Bank, and has concluded that the facts surrounding Applicant's involvement with Bank do not warrant denial of the subject application. Accordingly, the Board has proceeded to consider the subject application on its merits and, on that basis, concludes that approval of the proposal would be consistent with the public interest.

The Board, nevertheless, believes it appropriate to set forth for the record its view that transactions of the type described above may justify a finding that a company has violated the Bank Holding Company Act. Bank holding companies engaging directly or indirectly in the activity of providing management consulting advice to nonaffiliated banks, should avoid entering into relationships with client banks that exceed the scope of § 225.4(a)(12), even when such bank may be experiencing financial or managerial difficulties. Particular caution should be exercised where a bank holding company contemplates the subsequent acquisition of the client bank.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[1] effective July 28, 1976.

J. P. GARBARINI,
Assistant Secretary of the Board.

INTERNATIONAL TRADE COMMISSION

[TA-201-15]

PLANT HANGERS

Time and Place of Los Angeles Hearing

Notice is hereby given that the public hearing scheduled for August 24, 1976, in Los Angeles, California, in connection with investigation No. TA-201-15, Plant Hangers, will be held at 10 a.m., p.d.t., on the above date in the Los Angeles County Employee Relations Hearing Room, Hall of Administration, 500 West Temple Street, Los Angeles, California 90012.

Requests for appearances at the Los Angeles hearing or at the previously scheduled August 31, 1976, Washington, D.C., hearing should be filed, in writing with the Secretary of the Commission at his office in Washington, D.C., by no later than noon of the fifth calendar day preceding the hearing.

The notice of the institution of this investigation and of the scheduling of hearings was published in the FEDERAL REGISTER of July 2, 1976 (41 F.R. 27449).

By order of the Commission.

Issued: July 30, 1976.

KENNETH R. MASON,
Secretary.

[FR Doc.76-22594 Filed 8-3-76;8:45 am]

[Investigation No. 337-TA-19]

AMERICAN CYSTOSCOPE MAKERS, INC.

Memorandum and Order Terminating Investigation

In the Matter of: Glass Fiber Optic Devices and Instruments Equipped with Glass Fiber Optic Devices.

On March 8, 1976, the presiding officer in this matter, Administrative Law Judge Myron R. Renick, certified to the Commission the joint motion of complainant American Cystoscope Makers, Inc. (ACMI); and respondents Olympus Optical Co., Ltd., and Olympus Corp. of America (which respondents are together hereafter referred to as Olympus) to terminate this investigation, together with a recommended order granting the motion.[1] The basis for the motion was a "license agreement" between ACMI, which allegedly manufactures and sells in the United States certain articles made in accordance with the claims of, and under license from, the owners of U.S. patent No. 3,582,793 (the '793 patent), and Olympus Corp. of America, which had allegedly been importing such articles without ACMI's license.[2] The basis of ACMI's complaint to the Commission in this matter was Olympus' allegedly infringing importation of articles made under the '793 patent. Although ACMI and Olympus have filed copies of their license agreement, they have failed to provide the Commission with all the terms of the license agreement, and have supplied certain terms on the condition that they be accorded confidential treatment.[3]

The license agreement dispenses with the investigation instituted as No. 337-TA-19. That investigation was essentially directed to patent infringement. Given the existence of the license agreement, which covers all respondents, we find that at this time there is no patent infringement and, therefore, determine that there is no violation of section 337 in the terms alleged by complainant. The elimination of the alleged patent infringement by the license agreement does not, however, resolve any other possible violations or unfair acts not alleged in the complaint.

Accordingly, it is ordered:

1. Investigation No. 337-TA-19; Glass Fiber Optic Devices and Instruments Equipped With Glass Fiber Optic Devices, is hereby terminated without prejudice; and

2. The Secretary will publish this Order in the FEDERAL REGISTER and serve upon the parties copies of this Order. The Secretary will also serve copies of this Order upon the Department of Health, Education, and Welfare, the Department of Justice, and the Federal Trade Commission; and

3. The parties' motion to have their abridged license agreement accorded confidential status is granted.

By order of the Commission:

Issued: July 29, 1976.

KENNETH R. MASON,
Secretary.

[FR Doc.76-22595 Filed 8-3-76;8:45 am]

[AA1921-155]

HOLLOW OR CORED CERAMIC BRICK AND TILE

Determination of No Injury or Likelihood Thereof

On April 30, 1976, the United States International Trade Commission received advice from the Department of the Treasury that hollow or cored ceramic brick and title, not including refractory or heat insulating articles, from Canada are being, or are likely to be, sold in the United States at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). The term "hollow or cored ceramic brick and title" was defined to mean "unglazed hollow brick, including bond beam units. Such brick ranges from approximately 25 to 40 percent void." Accordingly, on May 7, 1976, the Commission instituted investigation No. AA1921-155 under section 201?(a) of said act to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. Subsequently, on June 21, 1976, the Department of the Treasury amended its determination so that the term "hollow or cored ceramic brick and title" means "unglazed hollow ceramic brick, including bond beam units. Such brick is of greater than 25 percent void." The Commission, therefore, on July 1, 1976, amended the scope of its investigation to make it correspond with the advice received.

Notice of the institution of the investigation and of the public hearing and amendments to the original notice were published in the FEDERAL REGISTER (41 F.R. 19383, May 12, 1976; 41 F.R. 20454, May 18, 1976; 41 F.R. 21224, May 24, 1976, and 41 F.R. 27877, July 7, 1976). The hearing was held on June 15 and 16, 1976.

In arriving at its determination, the Commission gave due consideration to written submissions from interested parties, evidence adduced at the hearing, and all factual information obtained by the Commission's staff from questionnaires, personal interviews, and other sources.

On the basis of its investigation, the Commission has unanimously determined that an industry in the United States is not being and is not likely to be injured, and is not prevented from being established, by reason of the importation of hollow or cored ceramic brick and title, not including refractory or heat insulating articles, as defined by the Department of the Treasury, from Canada that are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended.

Statement of Reasons of Commissioners George M. Moore, Joseph O. Parker, Catherine Bedell, and Italo H. Ablondi

This investigation was made to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation into the United States of hollow or cored brick and tile (hereinafter referred to as hollow brick), not including refractory or heat insulating articles, from Canada which the Department of the Treasury (hereinafter referred to as Treasury) has determined are being, or are likely to be, sold at less than fair value (hereinafter referred to as LTFV). The Commission, in order to find affirmatively, must find two conditions satisfied in this investigation. First, there must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be being prevented from being established.[1] Second, such injury or likelihood of injury must be "by reason of" the importation into the United States of the class or kind of foreign merchandise which Treasury has determined is being, or is likely to be, sold at LTFV.

On the basis of the information developed in the investigation, we have determined that there is no injury or likelihood of injury to an industry in the United States by reason of imports sold at less than fair value. Therefore, neither condition, injury or causation, has been satisfied, and we have made a negative determination.

The product

Hollow brick are ceramic brick that contain over 25 percent voids. They are used to construct reinforced masonry walls, as specified by the Uniform Building Code for seismic zones 1, 2, and 3. Hollow brick, produced by both extrusion and dry-press processes, are used as load-bearing walls, predominantly in the construction of buildings other than single family dwellings, such as hotels, motels, apartment buildings, churches, and schools.

The U.S. industry[2]

In making this determination we considered the industry to consist of the ceramic-brick-manufacturing facilities in the United States engaged in the production of hollow brick. No evidence was developed during the investigation which showed that any other industry in the United States was adversely affected by the LTFV hollow brick imports.

No injury by reason of LTFV imports

Imports of hollow brick from Canada, the only foreign source of hollow brick, increased in 1973 and 1974 and then decreased in 1975, which year covers the period in which Treasury found there were imports at LTFV.

The Pacific Northwest area (Washington, Oregon, Idaho, Utah, Montana, and Wyoming) is the principal hollow-brick-consuming area in the United States, accounting for 50 to 76 percent of total U.S. hollow brick consumption and 81 to 88 percent of Canadian imports of hollow brick during 1972-75.

Domestic shipments of all ceramic brick delivered in the Pacific Northwest increased during 1972-74 from 124 million standard brick equivalents to 159 million, and totaled 158 million in 1975. Shipment data of all ceramic brick producers in the United States for the first quarter of 1976 indicate increased shipments for the full year. During the period of Treasury's investigation, import penetration of articles found by Treasury to have been sold at LTFV did not increase.

U.S. and Canadian producers' prices for all ceramic brick and hollow brick in the Pacific Northwest area increased each successive year during the 1973-76 period. The price history during this period indicates that there was no connection between domestic prices and LTFV import prices. In fact, an examination of sales of hollow brick to the building trades in the Pacific Northwest region revealed that in almost all cases domestically produced hollow brick sold at prices below those of imported hollow brick. The Commission investigation found that quality, architectural specifications, and other factors, not price, were the dominant reasons why the imported hollow brick was purchased. Therefore, there is no basis to conclude that prices were suppressed by reason of LTFV imports. Furthermore, the record does not establish that sales were lost by domestic producers because of LTFV sales.

U.S. producers of hollow brick provided the Commission with financial data on their total ceramic brick operations. These producers reported increasing profits during 1971-73, with the ratio of annual aggregate net operating profit to net sales increasing from 5 to 14 percent. The ratio decreased to 10 percent in 1974, but then increased to 12 percent in 1975, the year in which Treasury found LTFV imports.

The number of workers engaged in the production of ceramic brick in plants producing hollow brick in the United States increased substantially in 1972 compared with the number in 1971, chiefly because of the opening of a large new brick plant in 1972 in Utah. A much smaller increase in the number of workers was reported for 1973. The decreases in employment reported for 1974 and 1975 resulted from increased mechanization designed to offset increasing costs of production. During the same period shipments increased. Thus, the decline in employment which occurred in 1974 and 1975 can be attributed to increased productivity.

No likelihood of injury by reason of LTFV imports

The reasons outlined above in support of our determination that an industry is not being injured by reason of LTFV sales of imported hollow brick from Canada are also applicable to the question of likelihood of injury. Both Canadian producers are presently operating their hollow-brick-producing facilities at capacity, and the evidence presented during the Commission's investigation indicates that the only expansion of hollow-brick-producing facilities these producers have under consideration is the possible construction of a plant in the United States. The evidence also indicates that the Canadian producers may switch some part of their present hollow-brick-producing facilities to the production of refractor since the latter yields higher returns.

Conclusion

We therefore conclude that an industry in the United States is not being and is not likely to be injured by reason of the importation of hollow brick from Canada found by Treasury to be sold, or likely to be sold, at LTFV.

Concurring Statement of Reasons of Chairman Will E. Leonard.

On the basis of the evidence developed during the course of investigation No. AA1921-155 by the U.S. International Trade Commission (Commission), I determine, as do my fellow Commissioners, that an industry in the United States is not being nor likely to be injured by reason of imports from Canada of hollow

[1] Voting for this action: Chairman Burns and Governors Gardner, Wallich, Partee, and Lilly. Absent and not voting: Governors Coldwell and Jackson.

[1] The motion was docketed as M-168.

[2] ACMI has the exclusive right to grant such incenses under the '793 patent.

[3] This was requested in a letter from counsel dated Dec. 22, 1975, and docketed as M-177.

[1] Prevention of the establishment of an industry is not an issue in the instant case and will not be discussed further.

[2] Commissioners Bedell and Parker determine, irrespective of whether "an industry" in this investigation is considered as including all ceramic brick producers or is limited to hollow brick producers in the Pacific Northwest, that the statutory requirements of injury or likelihood of injury by reason of LTFV imports are not satisfied.

V 41 151 AUG 4 76 UMI

or cored ceramic brick and tile (as described in the Commission's notice of investigation) sold or likely to be sold at less than fair value (LTFV) as determined by the Department of the Treasury (Treasury). I generally concur in the statement of reasons made by Commissioners Moore, Bedell, Parker, and Ablondi in the investigation and in this concurring statement wish primarily to discuss my views as to the relevant industry in the United States (domestic industry) for the purpose of the investigation.

I find the relevant domestic industry for the purpose of the investigation to consist of the facilities in the United States devoted to the production of ceramic brick. This is the industry most likely to be affected by the subject LTFV imports, since it produces an article like or competitive with such imports.[8] This is the only industry which will be considered herein. No evidence was presented to show that any other industry was possibly injured or threatened with injury by the subject LTFV imports. Further, absent unusual circumstances not present in this investigation, another industry would not be injured or threatened with injury if the industry most likely to be adversely affected is not so injured or threatened, as I find to be the situation in this investigation.

The above-described industry represents a unit in terms of both use of productive processes and resources and production of competitive products. Such description avoids an artificial delineation of "an industry" which does not take production and competitive realities into account. Various types of ceramic brick, including the hollow or cored type (hollow brick), may be produced in the same plant with basically the same equipment and by the same labor. In fact, in the Pacific Northwest marketing and production area, a number of plants producing hollow brick also produce other ceramic brick in such a fashion. Further, one type of ceramic brick is often competitive with another type; for example, builders do substitute "brick on block" (concrete block with a facing-brick veneer system) for a hollow brick system.

As indicated above, the domestic industry that I find relevant is a national industry. In investigations under the Antidumping Act, 1921, which involved questions of regional impact of LTFV imports, the Commission has defined "an industry" in terms of a national industry.[4]

The practice of the Commission of looking at national industries under the Antidumping Act was alluded to in the report of the Senate Committee on Finance, wherein, in commenting on certain concepts unaffected by the amendments which the bill would make in the Antidumping Act, it was stated (at pp. 179–180):

> (2) *Industry.*—The Antidumping Act refers to "an industry in the United States." There are no qualifications as to the kind of industry or the number of industries that might be adversely affected by the less-than-fair-value imports under consideration. Although the Commission's investigations have usually been concerned with an industry consisting of the domestic-producer facilities engaged in the production of comparable articles (i.e., articles like the imported articles), a number of investigations have been concerned with the domestic facilities engaged in the production of articles which, although unlike the imports, are nevertheless competitive therewith in domestic markets. In any case, the industry is a national industry involving all domestic facilities engaged in the production of the domestic articles involved.

While the relevant domestic industry for me is a national industry, as I have stated before, "injury to an establishment or regional segment of an industry may constitute injury to an industry as a whole."[5] This concept of looking at the impact of LTFV imports upon a particular marketing area of a national industry supplied by domestic producers located regionally and supplying predominantly such marketing area in order to see if a national industry has been injured has been followed by the Commission for over a decade.[6] The Senate Finance Committee report referred to above has also commented upon this practice of the Commission (at p. 180):

> A hybrid question relating to injury and industry arises when domestic producers of an article are located regionally and serve regional markets predominately or exclusively and the less-than-fair-value imports are concentrated in a regional market with resultant injury to the regional domestic producers. A number of cases have involved this consideration, and *where the evidence showed injury to the regional producers, the Commission has held the injury to a part of the domestic industry to be injury to the whole domestic industry*. The Committee agrees with the geographic segmentation principle in antidumping cases. However, the Committee believes that each case may be unique and does not wish to impose inflexible rules as to whether injury to regional producers always constitutes injury to an industry. [Emphasis supplied.]

As indicated previously, I have concurred with the statement of reasons presented by Commissioners Moore, Bedell, Parker, and Ablondi. Their statement considers the impact of the subject LTFV sales on various groups of producers of ceramic brick in the United States, including producers in the Pacific Northwest marketing area or segment of the national industry. Since neither injury to the producers in that area or segment by reason of the subject LTFV sales, nor the likelihood thereof, can be found, and because that area or segment is most heavily impacted by the LTFV imports, it is unnecessary to consider the matter further, as the impact of the LTFV sales on an even larger number of producers would be even less than upon producers in the Pacific Northwest.

Statement of Reasons of Vice Chairman Daniel Minchew

On May 7, 1976, the U.S. International Trade Commission (Commission) instituted an investigation under section 201 (a) of the Antidumping Act, 1921, as amended, to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation into the United States of hollow or cored ceramic brick and tile not including refractory or heat insulating articles (hereinafter referred to as hollow brick), from Canada that the Department of the Treasury (Treasury) has determined are being, or are likely to be, sold at less than fair value (LTFV) within the meaning of such act.

In order to find in the affirmative, the Commission must find that each of the following conditions is satisfied:

(1) There must be injury, or likelihood of injury, to an industry in the United States, or an industry in the United States must be being prevented from being established;[7] and

(2) Such injury or likelihood of injury must be "by reason of" the importation into the United States of the class or kind of foreign merchandise which the Secretary of Treasury has determined is being, or is likely to be, sold at less than fair value (LTFV) within the meaning of the Antidumping Act, 1921, as amended.

Determination

On the basis of the information developed in the present investigation, I have determined that an industry in the United States is not being or likely to be injured by reason of the importation into the United States of hollow brick from Canada that the Department of the Treasury has determined are being, or are likely to be, sold at LTFV.

The product

Hollow brick are ceramic brick containing over 25 percent voids. In the wall, hollow brick do not appear to differ from facing brick, except in the face area of the individual brick. Hollow brick were developed because of the need for an economical clay product suitable for use in reinforced masonry walls in areas prone to earthquakes. The brick is used for load-bearing walls, predominantly in the construction of buildings other than single family dwellings, such as hotels, motels, apartment buildings, churches, and schools.

The U.S. industry

In making this determination I have concluded that the proper definition of the U.S. industry is all the ceramic brick production facilities in the United States of those companies that produce hollow brick.

The Senate Finance Committee addresses the question of "industry" when it states:

> The Antidumping Act refers to "an industry in the United States." There are no qualifications as to the kind of industry or the number of industries that might be adversely affected by the less-than-fair-value imports under consideration.
>
> Although the Commission's investigations have usually been concerned with an industry consisting of the domestic-producer facilities engaged in the production of comparable articles (i.e., articles like the imported articles), a number of investigations have been concerned with the domestic facilities engaged in the production of articles which, although unlike the imports, are nevertheless competitive therewith in domestic markets. In any case, the industry is a national industry involving all domestic facilities engaged in the production of the domestic articles involved.[8]

While it is arguable that all ceramic brick produced in the United States are "comparable" or "competitive" with the hollow brick coming into the United States at LTFV, I have concluded that the use to which the articles are put tends to differentiate hollow brick from other ceramic brick. The hollow brick were developed for a specific purpose, i.e., for use in reinforced masonry walls and, in my opinion, are not truly competitive with other ceramic brick.

The Commission is required to consider the industry as a national industry but may consider a regional segment of an industry for purpose of evaluating injury. The rationale behind this approach is that an injury to a regional segment may constitute an injury to the entire industry. I generally accept this view but think that a showing of injury to a regional segment, in itself, is not sufficient to show an injury to the national industry. It will be necessary to show that any injury to a regional segment has the effect of injuring the national industry before I can find in the affirmative.

No injury by reason of LTFV imports

Taking the information most favorable to the domestic industry, i.e., looking for injury to the Pacific Northwest production facilities which produce hollow brick, I am still unable to find that there is injury by reason of the importation into the United States of hollow brick from Canada that the Department of the Treasury has determined are being, or are likely to be, sold at LTFV.

In addressing the purpose of the Antidumping Act, the Senate Finance Committee report stated:

> Conceptually, the Antidumping Act is not directed toward forcing foreign suppliers to sell in the U.S. market at the same prices that they sell at in their home markets. Rather, the Act is primarily concerned with the situation in which the margin of dumping contributes to *underselling* the U.S. product in the domestic market, resulting in injury or likelihood of injury to a domestic industry. (Emphasis added.)

The facts developed in the present case indicate that instead of underselling the U.S. product, the imported product was selling at prices higher than those of the domestic product. Furthermore, an examination of the allegations of lost sales made by certain representatives of the domestic industry showed that price was of little consequence; and that Clayburn (the company which had been importing at LTFV) would have made the sales if the brick had been sold at fair value.

The Pacific Northwest area (Washington, Oregon, Idaho, Utah, Montana, and Wyoming) is the principal hollow-brick-consuming area in the United States, accounting for 50 to 76 percent of total U.S. consumption and 81 to 88 percent of Canadian imports of hollow brick during 1972–75. Domestic shipments of all ceramic brick in the Pacific Northwest increased during 1972–74 from 124 million standard brick equivalents to 159 million, and totaled 158 million in 1975. The generally upward trend in domestic shipments indicates that the economic recession was not materially affecting the ceramic brick market in this area. Shipment figures for the first quarter of 1976 indicate increased shipments for the full year.

U.S. and Canadian producers' prices of all ceramic brick and hollow brick in the Pacific Northwest area increased each year during the 1973–76 period. No substantial evidence was submitted that prices were suppressed by reason of LTFV imports. The price history during this period indicates that there was no connection between prices and LTFV sales.

U.S. producers of hollow brick provided the Commission with financial data on their total ceramic brick operations. These producers reported increasing profits during 1971–73, with the ratio of annual aggregate net operating profit to net sales increasing from 5 to 14 percent. The ratio decreased to 10 percent in 1974, but then increased to 12 percent in 1975, the year that Treasury found LTFV imports. There was no decline in profitability that could be attributed to LTFV imports.

The number of workers engaged in the production of ceramic brick in plants producing hollow brick in the United States increased substantially in 1972 compared with the number in 1971, chiefly because of the opening of a large new brick plant in 1972 in Utah. A much smaller increase in the number of workers was reported for 1973; the decreases reported for 1974 and 1975 resulted from increased mechanization designed to help alleviate the increasing cost of production. Shipment data did not show corresponding decreases. Thus, the decline in employment which occurred in 1974 and 1975 can be attributed to increased productivity and not to imports of hollow brick from Canada.

No likelihood of injury by reason of LTFV imports

The finding above with respect to the role of the subject LTFV imports in any injury being experienced by the domestic industry under consideration leads to the conclusion that such imports are also not an identifiable cause of any likelihood of injury which may exist. The two Canadian producers are operating their facilities at capacity, and evidence was presented indicating future decreased Canadian exports of hollow brick and decreased import penetration. Several of the domestic producers are also operating at their rated capacities. There has been no indication of any plans by the Canadian producers to expand their Canadian capacities. The outlook is for continued growth in the ceramic brick industry in the Pacific Northwest, which should result in additions to the present facilities in that area.

Conclusion

I, therefore, conclude that an industry in the United States is not being and is not likely to be injured by reason of the importation of hollow or cored ceramic brick and tile, not including refractory or heat insulating articles from Canada.

By order of the Commission.

Issued: July 30, 1976.

NATIONAL SCIENCE FOUNDATION

INTERNATIONAL DECADE OF OCEAN EXPLORATION PROPOSAL REVIEW PANEL AD HOC SUBPANEL FOR INTERNATIONAL SOUTHERN OCEAN STUDIES PROJECT

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the National Science Foundation announces the following meeting:

Name: International Decade of Ocean Exploration Proposal Review Panel Ad Hoc Subpanel for International Southern Ocean Studies Project.

Date & time: August 26 and 27, 1976—9 a.m. to 5 p.m. each day.

Place: National Center for Atmospheric Research (NCAR)—Boulder, CO.

Type of meeting: Closed.

V 41 151 AUG 4 76 UMI

Contact person: Dr. Curtis Collins, Program Manager, Environmental Forecasting, Office for the International Decade of Ocean Exploration, Room 606, National Science Foundation, Washington, DC telephone (202) 632-7356.

Purpose of subpanel: To provide for IDOE Proposal Review Panel members with additional expertise in the review and evaluation of proposals relating to oceanographic research of the Southern Oceans.

Agenda: Review and evaluation of renewal proposals for support of the International Southern Oceans Project (ISOS).

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

JULY 30, 1976.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on July 29, 1976 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20530 (202-395-4529), or from the reviewer listed.

REVISIONS

DEPARTMENT OF DEFENSE

Departmental and other: Report of Government (DOD) Facilities (ASPR B-311, C-311), DD 1662, semiannually, DOD contractors, Warren Topelius, 395-5872.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Veteran's Administration: Request for Determination of Loan Guaranty Eligibility, Unmarried Surviving Spouses, VA 26-1817, on occasion, unmarried widows and widowers, Warren Topelius, 395-5872.

Office of Education: Application for Federal Assistance (Non-Construction Program) for the Follow-Through Program—Instructions and Supplementary Questionnaire, OE 4473, annually, educational agencies and insti. of higher education, Warren Topelius, 395-5872.

DEPARTMENT OF LABOR

Employment Standards Administration: Monthly Employment Utilization Report, SF 257, monthly, construction contractors, Strasser, A., 395-5867.

EXTENSIONS

DEPARTMENT OF COMMERCE

Economic Development Administration: Financial Report, Title III Technical Assistance Grants, ED 325, quarterly, all in areas of substantial economic distress, Warren Topelius, 395-5872.

Identification or Responsible Agent on Designated Project, ED-739, on occasion, title X PWEDA grantees (sample), Warren Topelius, 395-5872.

Request for Excess Property, ED-733, on occasion, Indian tribal govt. and dev. districts, Warren Topelius, 395-5872.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration: Primary Practice Profile (PE Reimbursement Study), SSA 9761, single time, physicians and phys. extenders in primary care practices, Lowry, R. L., 395-3772.

Request for Workman's Compensation Information, SSA-1709, on occasion, State workmen's compensation boards and WC carriers, Warren Topelius, 395-5872.

Office of Education: Application for Special Community Service and Continuing Education Project, OE 1280, on occasion, accredited institutions of higher education, Warren Topelius, 395-5872.

Application for Grant Under College Library Resources Program, Title II, Part A, HEA 1965—PL 89-329, OE-3118, annually, institutions of post-secondary education, Warren Topelius, 395-5872.

ENVIRONMENTAL PROTECTION AGENCY

Environmental Protection Agency, Health Implications of Sewage Treatment Facilities, on occasion, ind. and households W/N 5 KMS of new waste water treatm. plant, Lowry, R. L., 395-3772.

PHILLIP D. LARSEN,
Budget and Management Officer.

INTERSTATE COMMERCE COMMISSION

[Notice No. 107]

ASSIGNMENT OF HEARINGS

JULY 30, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 138607 Sub 6, P & N Truck Service, Inc., now being assigned November 2, 1976 (3 days), at Olympia, Wash., in a hearing room to be later designated.

MC 130370, Lillian Hofmeister, DBA Hofmeister Tours, now being assigned November 8, 1976 (1 week), at Baltimore, Md., in a hearing room to be later designated.

FD 28207, Southern Railway Company—Discontinuance of Trains Nos. 5 and 6 The "Piedmont" between Washington, D.C. and Charlotte, North Carolina, now being assigned September 13, 1976, at the Offices of the Interstate Commerce Commission, September 14, 1976, in Room B-67, Federal Building, 220 7th Street NE., Charlottesville, Virginia, September 15, 1976, at the U.S. Courtroom, 2nd floor, U.S. Post Office & Federal Building, Church Street in Lynchburg, Virginia, September 16, 1976, in the GSA Conference Room B-25, Federal Courthouse & Post Office Building, 324 West Market Street, Greensboro, North Carolina, and September 17, 1976, in the Public Library Auditorium, 310 North Tryon Street, Charlotte, North Carolina.

MC 4405 (Sub-No. 531), Dealers Transit, Inc., now assigned September 28, 1976, at Chicago, Ill., will be held in Room 835, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 114211 (Sub-No. 259), Warren Transport, Inc., now assigned September 29, 1976, at Chicago, Ill., will be held in Room 835, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 116273 (Sub-No. 201), D & L Transport, Inc., now assigned September 30, 1976, at Chicago, Ill., will be held in Room 835, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 124090 (Sub-No. 5), Transportes Azteca, now assigned October 4, 1976, at Chicago, Ill., will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 73165 (Sub-No. 387), Eagle Motor Line, Inc., now being assigned September 30, 1976 (2 days), at Dallas, Texas, in a hearing room to be later designated.

MC 123407 (Sub 283), Sawyer Transport, Inc., now assigned September 21, 1976, at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 114632 (Sub 84), Apple Lines, Inc., now assigned September 23, 1976 at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 10761 (Sub-Nos. 184, 240, 246, 247, 253, 254, 256, 257, 259, 260, 266, 268, and 274), now assigned September 27, 1976, at Chicago, Illinois, and will be held in Room 1319, Everett McKinley Dirksen Building, 219 South Dearborn Street.

MC 140615 (Sub-No. 6), Dairyland Transport, Inc., now assigned September 27, 1976, at St. Paul, Minn., is canceled and application dismissed.

MC 105501 Sub 16, Terminal Warehouse Company, now being assigned October 7, 1976 (2 days), at St. Paul, Minn., in a hearing room to be later designated.

MC 123407 Sub 289, Sawyer Transport, Inc., now being assigned October 18, 1976 (1 Week), at Portland, Oreg., in a hearing room to be later designated.

ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATION FOR RELIEF

JULY 30, 1976.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carreirs named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before August 19, 1976.

FSA No. 43203—*Joint Water-Rail Container Rates—Far Eastern Shipping Company.* Filed by Far Eastern Shipping Company (No. 3), for itself and interested rail carriers. Rates on general commodities, from rail carriers terminals on the U.S. Atlantic and Gulf Coast, to ports in Hong Kong, Japan, and Australia.

Grounds for relief—Water competition.

Tariffs—Far Eastern Shipping Company Eastbound tariff I.C.C. No. 3, F.M.C. No. 21, and Westbound tariff I.C.C. No. 4, F.M.C. 16. Rates are published to become effective on August 22, 1976.

By the Commission.

ROBERT L. OSWALD,
Secretary.

PART II:

FEDERAL COMMUNICATIONS COMMISSION

Class D Stations in the Citizens Radio Service

Operating Rules Revision

V41I151 AUG 4 76 UMI

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket 20120; RM-1508, 1592, 1733, 1751, 1841, 1905, 1991, 2053, 2084, 2132, 2300, 2317, 2318; FCC-76-707]

REVISION OF OPERATING RULES FOR CLASS D STATIONS IN THE CITIZENS RADIO SERVICES

By the Commission: 1. A Notice of Proposed Rule Making in the above-captioned matter was released on July 31, 1974, and published in the FEDERAL REGISTER on August 5, 1974, (39 FR 28167). A First Report and Order was released on August 7, 1975, and published in the FEDERAL REGISTER on August 11, 1975, (40 FR 33667). A Notice of Inquiry and Further Notice of Proposed Rule Making was released on March 29, 1976, and published in the FEDERAL REGISTER on April 6, 1976, (41 FR 14527).

2. In the combined Notice of Inquiry and Further Notice of Proposed Rule Making, the Commission requested comment on several matters integrally related to the issue of Class D Citizens Radio Service channel expansion. Specifically, comments and recommendations relative to the following issues were solicited: (1) Possible intermodulation (IM) interference between CB transceivers operating at certain frequency spacings; (2) Possible difficulty in coupling Class D transmitters and antennas over a wide frequency range; and (3) Severity of, and possible remedies for, harmonic radiation from Class D transmitters causing interference to TV channels 2 and 5. These issues were not addressed in the earlier Notice. However, because of their potential impact on the feasibility of Class D channel expansion, they merit due consideration in this proceeding.

3. Several thousand comments and reply comments were filed in response to the Notice of Inquiry and Further Notice of Proposed Rule Making. Citizens Radio Service licensees, licensee organizations, manufacturers, and distributors of CB equipment and accessories, as well as many others, filed formal comments generally supporting expansion of the number of channels available to the Class D Service. One notable exception was the broadcast industry, which strongly objected to any channel expansion. Existing Class C licensees strongly objected to the reallocation of the 27 MHz Class C frequencies to the Class D service. Several comments contained detailed analyses of tests conducted to determine the extent of the intermodulation problem. In addition, in a report released in June 1976, FCC/OCE LAB 76-02, the FCC, Office of the Chief Engineer, detailed the results of experiments concerning possible interference problems associated with the expansion of the Class D Service.

4. All comments have been carefully considered. We believe the weight of the evidence supports the conclusion that additional frequencies are needed to relieve the often times severe Class D frequency congestion found in various parts of the country. As of May 31, 1976, there were over 5 million Class D licensees, and that number is increasing at the rate of approximately ½ million per month. With respect to the exact number and choice of frequencies to be involved in the expansion, there has been much comment, and disagreement, as to what the best alternatives would be. Clearly, with the enormous number of Class D licensees active in the present 23 channel allocation, no plan is workable which would involve the dislocation of these licensees. Other factors which must be considered in choosing an expansion plan include: (1) Provisions for relocation of licensees in other radio services displaced by frequency reallocation; (2) Provisions for the Class C Citizens Radio Service; and (3) Exclusive channels for single sideband (SSB) use.

5. We have closely examined the severity and extent of the intermodulation (IM) phenomenon, and are convinced that they are such that no expansion is desirable which would involve a separation of more than 440 kHz between the lowest and highest channels. All parties seriously investigating this matter have come to the same general conclusion, namely, that the generation of intermodulation products is a certainty if the width of the Class D band exceeds 440 kHz. While it is clear that not all receivers would be affected by IM products, the nature of the IM products generated is such that reception of signals on all channels in susceptible receivers could be impaired. No reliable measure of the probability of this phenomenon is at hand, but given the millions of CB transmitters now in use, we believe it likely that IM interference in major metropolitan areas could significantly impede communications.

6. We have, therefore, determined to proceed with the expansion in the following manner: the frequencies presently available to the Class D Service will remain intact. To these, we will add the frequencies between 27.230 and 27.410 MHz, which are now allocated to the land mobile services. The new channels will begin at 27.235 MHz and proceed through 27.405 MHz, with a uniform spacing of 10 kHz between available channels. A total of 17 additional channels will be made available by this reallocation, giving the Class D Service 40 channels overall.[1] All channels will be available for shared AM/SSB use.

7. The channel reserved for emergency use will remain 27.065 MHz. As proposed, we are deleting our designation of 27.085 MHz as a calling channel. It will henceforth be available for general use. While there was some opposition to our proposal to redesignate 27.085 MHz, it was generally supported by the comments. We believe that because only 40 channels are to be made available for Class D use, as many frequencies as possible should be available for general communications. We are also adopting as proposed the deletion from the rules of all references to channel numbers. We will hereinafter identify each channel only by its authorized frequency center.

8. No channels have been set aside exclusively for single sideband (SSB) use. There was opposition in the comments to "splitting" the present channels, which would have placed SSB and AM signals approximately 5 kHz apart. Some comments supported the type of SSB channel expansion proposed in our earlier Notice, in which exclusive SSB channels on 5 kHz centers were allocated above the channels on 10 kHz centers available for shared AM/SSB use. This configuration avoids the interference problems of the "split" channels; however, because the total expansion is limited by IM interference to frequencies below 27.410 MHz, any allocation of channels for exclusive SSB use would reduce the number of channels available for AM use to an unacceptably low number. All channels made available in this expansion, as well as all present channels, will be available for shared AM/SSB use. Either upper or lower sideband may be used.

9. With respect to our proposal to reallocate present 27 MHz Class C channels to the Class D Service, we believe such an action is unwarranted at this time. Comments filed by the Academy of Model Aeronautics, as well as hundreds of individual radio control operators, indicate that significant use is presently being made of the 27 MHz Class C channels. We believe that, eventually, alternate frequencies must be found to supplant the present 27 MHz Class C allocation because of the increasing problem of interference by Class D users to Class C radio control operations. However, in as much as no such alternate frequencies are presently available, and because of the significant investment in 27 MHz radio control equipment by modelers, a reallocation as proposed in our Further Notice is premature.

10. As proposed in our Further Notice, we are not allocating an exclusive frequency for equipment amortization by land mobile users displaced by Class D licensees. All non-Citizens Radio Service licensees operating on the re-allocated frequencies will be permitted to continue such operations until December 31, 1979. During this period of shared CB/land mobile use, land mobile licensees will be accorded no interference protection from Class D users. We believe this date will allow adequate time for all affected licensees to shift their operations to other frequencies. We are keenly aware that some 4,000 land mobile licensees will be displaced by this reallocation, but this must be contrasted with the much greater number of Class D licensees who could be accommodated on each reallocated channel.

11. The degree to which CB transmitter harmonic frequency radiation is suppressed is integrally related to the problem of interference to television reception. In the Further Notice, we proposed to require attenuation of the second and higher order harmonic radiation by a minimum of 70 dB below first harmonic output. Comments filed by the Association of Maximum Service Telecasters (AMST) and other broadcast groups stated that such radiation should be suppressed on the order of 100 dB. The Citizens Radio Section, Communications Division, of the Electronic Industries Association (the "Section") recommended that the harmonic suppression limit be set at 60 dB. The Section states that a higher figure would make the cost of Class D transceivers prohibitively high, and that the use of an external low-pass filter on the CB transmitter would cause a substantial reduction in television interference. We are acutely aware of the magnitude of the present television interference problem. The FCC Field Operations Bureau receives thousands of complaints each month from television viewers alleging interference from Class D transmitters. We are convinced that some increase in the harmonic suppression standard is imperative; however, we do not believe that the 70 dB figure is realistic at this time considering the present state-of-the-art of Class D transmitters. We will, therefore, require that second and higher order harmonic radiation be suppressed by at least 60 dB for all transmitters type accepted for use at Class D Citizens Radio Service stations. Compliance with this requirement must be demonstrated both with and without the connection of all attachments permissible for use with such transmitters. This includes such things as external speakers, microphones, power cords and antennas. We believe that further tightening of the harmonic suppression limit in the future will be necessary. In the meantime, if an individual licensee causes interference to a neighbor's television reception on television channels 2, 5, or 6 because of insufficient harmonic attention, he will have to obtain additional suppression by the insertion of a low-pass filter between the transmitter RF output connector and the antenna feedline.

12. We are not adopting the proposal to require a frequency tolerance of 25 Hertz for all SSB transmitters. In the present environment, where all channels are shared by the AM and SSB emissions, no valid need exists for the more stringent tolerance. We are also not adopting our proposal to require informational labels on Class D units. The comments generally noted that the proposed labels would have little value as a deterrent to persons desiring to violate the rules. We are, however, adopting our proposal to require the engraving of a serial number each new Class D transmitter sold. We believe this requirement will help alleviate the present difficulties in identifying stolen CB equipment. We also encourage, but are not requiring, the engraving of additional designators, such as drivers license number or station call sign, as aids in recovering stolen units. We are also adopting our proposal to require that a copy of Part 95 of the Rules and Regulations, plus FCC forms 505 and 555-B, be furnished with each Class D unit sold.

13. The proposal in the Further Notice that prohibited the manufacture, sale, or attachment of any device, whether internal or external to the transmitter, the function of which is to extend the frequency coverage of a Class D transmitter beyond its original frequency range, is being adopted. Absent this prohibition, we believe that the proliferation of such devices, whether provided in kit form and installed by a technician or installed at the factory, would inevitably result in widespread use of transmitters not meeting type acceptance standards. This would not prohibit the sale, however, of 23 channel units modified before sale to cover the additional frequencies. Such modified sets would, of course, have to be type accepted for this modification. We are removing the restriction in § 95.56(c)(2) of the Rules which limits the frequency selector in a Class D transmitter to a single control. Given the greater number of channels which will become available for Class D use, as well as the variety of frequency selection mechanisms which may be developed for new Class D equipment, we see no useful purpose to be served by retention of this provision.

14. Since the release of the original Docket 20120 Notice of Proposed Rule Making, there has been much speculation on the issue of exactly what form the Class D expansion would take and what the implementation timetable would be. We are aware that some manufacturers have Class D equipment in various stages of development and/or production which is capable of operation on frequencies falling roughly in the range included in the expansion, and that if the expansion frequencies were made available immediately, there would shortly be some units available for such use. We do not believe, however, that it would be in the overall best interest of the public or our licensees if we were to proceed in this fashion. On the contrary, in order to insure an orderly and efficient expansion into the additional frequencies, we are convinced that a sufficient delay should be introduced before the effective date of the expansion to allow all interested parties to make adequate preparation for development of the new spectrum. We have therefore determined to set the effective date for use of the expansion channels at January 1, 1977 and equipment which is capable of operation on the expansion frequencies may not be sold before that date. We will not accept applications for type acceptance of such equipment before September 10, 1976. All applications for type acceptance submitted before November 1, 1976, will be assigned an effective date of January 1, 1977. Applications submitted after November 1, 1976, will be given an effective date in order of grant.

15. A subject addressed in our earlier Notice was antenna type acceptance. We proposed to require the filing of radiation patterns, and we set forth various technical parameters for directional antennas used at Class D stations. The comments were almost unanimously opposed to this proposal, and, after careful consideration of the arguments advanced, we have decided to discontinue any further rulemaking action in this area at this time. We may again confront the issue of antenna type acceptance/approval at a later date, but with present manpower limitations, we believe other, more pressing matters should receive our attention. With respect to the potential antenna bandwidth problem raised in our Notice, those few comments discussing it agreed that no real impedance matching problem exists. We therefore are not taking any action in this area.

16. Another matter proposed in the earlier Notice was the lowering of the age requirement for the Class D Service from 18 to 16 years of age. Although a number of comments supported this proposal, the recent tremendous influx of Class D applications has rendered the Commission unable to spare the manpower necessary to process additional applications. Further, the utility of such a change is doubtful, since under the present rules all persons under age 18 residing in the same household may operate under a single license held by a parent.

17. In the Further Notice we also addressed the present rule which requires that an individual must hold two separate licenses in order to obtain both Class C and Class D operating privileges. We proposed to combine the privileges of the Class C and Class D licenses and issue no new Class C licenses. The age requirement for the new combined license would have been 18. In its comments, the Academy of Model Aeronautics (AMA) strongly opposed this proposed change. They contended that the operations of Class C licensees are distinct from Class D licensees, and that a "separate identity" is essential. All Citizens Radio Service application processing procedures are currently under review, however, and we are, for this reason, not prepared to reach a final decision in this matter at the present time.

18. The final proposal in the Further Notice involved changing the names of the Citizens Radio Service and its subdesignations. Such changes received support in the comments, and we believe the proposed names to be more descriptive of the character of the service. However, because such changes would result in the obsolescence of millions of application forms, license documents, and other printed material, we are not adopting the proposed changes at this time. We hope, at a more opportune future date, to implement these name changes with a minimum of dislocation.

19. As we emphasized in the Further Notice, the channel expansion adopted herein is only an interim measure. The problem of long distance "skip" propagation at 27 MHz due to the influence of the sunspot cycle is minimal at this time; however, in the next several years, the solar cycle will peak, and it is predicted that much long distance interference will occur. A study into the subject of personal communications is underway by the FCC Office of Plans and Policy. Additionally, the Personal Use Radio Ad-

[1] The channel centered on 27.255 MHz is currently available to the Class D Service.

V 41 151 AUG 4 76 UMI

visory Committee (PURAC) has begun studying the area of personal radio. Both of these groups will consider alternative spectrum for the Citizens Service, such as the 220 MHz or 900 MHz ranges, which propagates radio waves only over short "line-of-sight" distances and is unaffected by the solar cycle.

20. We have received a request for oral argument in this proceeding from Representative Herbert E. Harris II. We do not believe, however, that such a prolongation would serve any useful purpose. All pertinent aspects of Docket 20120 have been fully explored in the several thousand comments and reply comments filed, and we do not believe that further delay in the allocation of additional frequencies for the Class D service would be in the public interest.

21. In view of the foregoing, we are of the opinion that the amended rules as discussed above are in the public interest, convenience, and necessity. Accordingly, pursuant to authority contained in Sections 4(i), 302, and 303 of the Communications Act of 1934, as amended, *It is ordered*, That Parts 2, 89, 91, 93, and 95 of the Commission's Rules are amended as set forth below. *It is further ordered*, That the request of Herbert E. Harris II for oral argument is denied and that this proceeding is continued. These amendments become effective September 10, 1976.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082, Sec. 302, 82 Stat. 290; 47 U.S.C. 154, 302, 303)

Adopted: July 27, 1976.

Released: July 29, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Parts 2, 89, 91, 93, and 95 of Chapter 1 of Title 47 of the Code of Federal Regulations are amended as follows:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. Section 2.106 is amended to read as follows:

§ 2.106 Table of frequency allocations.

United States		Federal Communications Commission				
Band (megahertz)	Allocation	Band (megahertz)	Service	Class of station	Frequency (megahertz)	Nature of services and of stations
5	6	7	8	9	10	11
•	•	•	•	•	•	•
26.95–27.54	NG	26.95–26.96	Fixed	Fixed	26.955	International fixed public.
		26.96–27.28 (225) (n.s.1)	Citizens	Mobile	27.12	Industrial, scientific, and medical equipment.
		27.28–27.41	do	do		Citizens.
		27.41–27.54	Land mobile	Base mobile		Industrial.
•	•	•	•	•	•	•

PART 89—PUBLIC SAFETY RADIO SERVICES

2. In § 89.101, a new paragraph, (d) (3), is added, as follows:

§ 89.101 Frequencies.

• • • • •

(d) • • •

(3) Effective September 10, 1976, station authorizations for the use of 27.235, 27.245, 27.255, 27.265, and 27.275 MHz will be issued only to applicants in the Citizens Radio Service. Licenses in the Public Safety Radio Services authorizing the use of these frequencies shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 and 27.41 MHz should be modified prior to December 31, 1979 to permit operation on other authorized frequencies.

• • • • • •

PART 91—INDUSTRIAL RADIO SERVICES

3. In § 91.254, the frequency table in paragraph (a) is amended, and new limitation (5) to par. (b) added to read as follows:

§ 91.254 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
Megahertz		
27.235	Base, mobile, or fixed	2, 5, 8
27.245	do	2, 5, 8
27.255	do	2, 5, 8
27.265	do	2, 5, 8
27.275	do	2, 5, 8
•	•	•

(b) • • •

(5) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

4. In § 291.304, the frequency table in paragraph (a) is amended, and new limitation (7) to par. (b) added to read as follows:

§ 91.304 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
27.235	Base, mobile, or fixed	6, 7, 13
27.245	do	6, 7, 13
27.255	do	6, 7, 13
27.265	do	6, 7, 13
27.275	do	6, 7, 13
•	•	•

(b) • • •

(7) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

5. In Section 91.354, the frequency table in paragraph (a) is amended, and limitation (3) to par. (b) added to read as follows:

§ 91.354 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
Megahertz		
27.235	Base, mobile, or fixed	3, 6, 14
27.245	do	3, 6, 14
27.255	do	3, 6, 14
27.265	do	3, 6, 14
27.275	do	3, 6, 14
•	•	•

(b) • • •

(3) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other frequencies.

• • • • • •

6. In § 91.404, the frequency table in paragraph (a) is amended, and new limitation (8) added to par. (b) to read as follows:

§ 91.404 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
Megahertz		
27.235	Base, mobile, or fixed	5, 6, 8
27.245	do	5, 6, 8
27.255	do	5, 6, 8
27.265	do	5, 6, 8
27.275	do	5, 6, 8
•	•	•

(b) • • •

(8) Effective September 10, 1976 station authorizations for the use of frequencies between 69.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

7. In § 91.454, the frequency table in paragraph (a) is amended, and limitation (6) to par (b) added to read as follows:

§ 91.454 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
Megahertz		
27.235	Base, mobile, or fixed	2, 4, 6
27.245	do	2, 4, 6
27.255	do	2, 4, 6
27.265	do	2, 4, 6
27.275	do	2, 4, 6
•	•	•

(b) • • •

(6) Effective September 10, 1976, station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

8. In § 91.504, the frequency table in paragraph (a) is amended, and limitation (5) to par (b) added to read as follows:

§ 91.504 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	General reference	Limitations
•	•	•	•
Megahertz			
27.235	Base, mobile, or fixed	ISM general use	2, 5, 8
27.245	do	do	2, 5, 8
27.255	do	do	2, 5, 8
27.265	do	do	2, 5, 8
27.275	do	do	2, 5, 8
27.29	Base or mobile	General use	5
27.31	do	do	5
27.33	do	do	5
27.35	do	do	5
27.37	do	do	5
•	•	•	•

(b) • • •

(5) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

9. In § 91.554, the frequency table in paragraph (a) is amended, and limitation (5) to paragraph (b) added to read as follows:

§ 91.554 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	General reference	Limitations
•	•	•	•
Megahertz			
27.235	Base, mobile, or fixed	ISM general use	2, 5, 8
27.245	do	do	2, 5, 8
27.255	do	do	2, 5, 8
27.265	do	do	2, 5, 8
27.275	do	do	2, 5, 8
27.30	Base or mobile	General use	5
27.41	do	do	5
27.43	do	Permanent use	5, 10, 11
27.45	do	do	5, 10, 11
27.47	do	do	5, 10, 11
27.49	do	Itinerant use	5, 10, 12
27.51	Mobile	Low power general use	5, 13
27.53	do	do	5, 13
•	•	•	•

(b) • • •

(5) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

10. In § 91.730, the frequency table in paragraph (a) is amended, and limitation (9) to par (b) added to read as follows:

§ 91.730 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
Megahertz		
27.235	Base, mobile, or fixed	2, 3, 9
27.245	do	2, 3, 9
27.255	do	2, 3, 9
27.265	do	2, 3, 9
27.275	do	2, 3, 9
•	•	•

(b) • • •

(9) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • • •

11. In § 91.754, the frequency table in paragraph (a) is amended, and limitation (1) to par (b) is added to read as follows:

§ 91.754 Frequencies available.

• • • • • •

Frequency or band	Class of station(s)	Limitations
•	•	•
Megahertz		
27.235	Base, mobile, or fixed	1, 2, 3
27.245	do	1, 2, 3
27.255	do	1, 2, 3
27.265	do	1, 2, 3
27.275	do	1, 2, 3
•	•	•

V 41 151 AUG 4 76 UMI

(b) • • •

(1) Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 29.96 MHz and 27.41 MHz should be modified prior to December 31, 1979, to permit operation on other authorized frequencies.

• • • • •

PART 93—LAND TRANSPORTATION RADIO SERVICES

§§ 93.254, 93.356 and 93.404 [Amended]

12. In Part 93, new §§ 93.254(d), 93.356(d), 93.404(d), and 93.504(d) are added, as follows:

• • • • •

(d) Effective September 10, 1976, station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Licenses issued under this subpart shall remain valid until December 31, 1979, or, if such licenses expire prior to December 31, 1979, they may be renewed and will be given expiration dates of December 31, 1979. Licenses issued under this subpart for frequencies between 26.96 MHz and 27.41 MHz should be modified prior to December 31, 1979 to permit operation on authorized frequencies.

PART 95—CITIZENS RADIO SERVICE

13. In § 95.3(b) the definition of a Class D station is revised to read as follows:

§ 95.3 Definitions.

• • • • •

(b) Definitions of stations.

• • • • •

Class D station. A station in the Citizens Radio Service licensed to be operated for radiotelephony, only, on authorized frequencies in the 26.96 MHz to 27.41 MHz band.

• • • • •

14. Section 95.41, paragraph (d), is amended to read as follows:

§ 95.41 Frequencies available.

• • • • •

(d) The frequencies listed in the following paragraphs are available for use by Class D stations and are subject to no protection from interference resulting from the operation of industrial, scientific, or medical devices in the 26.96 MHz to 27.28 MHz band.

(1) The following frequencies may be used for communications between Class D stations:

MHz	MHz
26.965	27.115
26.975	27.125
26.985	27.135
27.005	27.155
27.015	27.165
27.025	27.175
27.035	27.185
27.055	27.205
27.075	27.215
27.085	27.225
27.105	27.255

(2) Effective January 1, 1977, the following frequencies may be used for communications between Class D stations:

MHz	MHz
26.965	27.225
26.965	27.235
26.985	27.245
27.005	27.255
27.015	27.265
27.025	27.275
27.035	27.285
27.055	27.295
27.075	27.305
27.085	27.315
27.105	27.325
27.115	27.335
27.125	27.345
27.135	27.355
27.155	27.365
27.165	27.375
27.175	27.385
27.185	27.395
27.205	27.405
27.215	

(3) The frequency 27.065 MHz shall be used solely for:

(i) Emergency communications involving the immediate safety of life of individuals or the immediate protection of property, or

(ii) Communications necessary to render assistance to a motorist.

NOTE.—A licensee, before using 27.065 MHz must make a determination that his communication is either or both (a) an emergency communication or (b) is necessary to render assistance to a motorist. To be an emergency communication, the message must have some direct relation to the immediate safety of life or immediate protection of property. If no immediate action is required, it is not an emergency. What may not be an emergency under one set of circumstances may be an emergency under different circumstances. There are many worthwhile public service communications that do not qualify as emergency communications. In the case of motorist assistance, the message must be necessary to assist a particular motorist and not, except in a valid emergency, motorists in general. If the communications are to be lengthy, the exchange should be shifted to another frequency, if feasible, after contact is established. No nonemergency or nonmotorist assistance communications are permitted on 27.065 MHz even for the limited purpose of calling a licensee monitoring a frequency to ask him to switch to another frequency. Although 27.065 MHz may be used for marine emergencies, it should not be considered a substitute for the authorized marine distress system. The Coast Guard has stated it will not "participate directly in the Citizens Radio Service by fitting with and/or providing a watch on any Citizens Band Channel. (Coast Guard Commandant Instructions 2302.6)"

The following are examples of permitted and prohibited types of communications. They are guidelines and are not intended to be all inclusive.

Permitted	Example message
Yes	A tornado is sighted six miles north of town.
No	This is observation post number 10. No tornados sighted.
Yes	I am out of gas on Interstate 95.
No	I am out of gas in my driveway.
Yes	There is a four-car collision at Exit 10 on the Beltway. Send police and ambulance.
No	Traffic is moving smoothly on the Beltway.
Yes	Base to Unit 1, the Weather Bureau has just issued a thunderstorm warning. Bring the sailboat into port.
No	Attention all motorists. The Weather Bureau advises that the snow tomorrow will accumulate 4 to 6 inches.
Yes	There is a fire in the building on the corner of 6th and Main Streets.
No	This is Halloween patrol unit number 3. Everything is quiet here.

The following priorities should be observed in the use of 27.065 MHz:

1. Communications relating to an existing situation dangerous to life or property, i.e., fire, automobile accident.
2. Communications relating to a potentially hazardous situation, i.e., car stalled in a dangerous place, lost child, boat out of gas.
3. Road assistance to a disabled vehicle on the highway or street.
4. Road and street directions.

• • • • •

15. A new section 95.42 is added, as follows:

§ 95.42 Special provisions.

Effective September 10, 1976 station authorizations for the use of frequencies between 26.96 MHz and 27.41 MHz will be issued only to applicants in the Citizens Radio Service. Any license in a radio service other than the Citizens Radio Service authorizing the use of frequencies between 26.96 MHz and 27.41 MHz shall remain valid until December 31, 1979.

16. In § 95.49, paragraphs (c) and (d)(3) are revised, and new paragraphs (d)(4) and (d)(5) and a Note are added, as follows:

§ 95.49 Emission limitations.

• • • • •

(c) The authorized bandwidth of the emission of any transmitter employing amplitude modulation shall be 8 kHz for double sideband and 4 kHz for single sideband. The authorized bandwidth of the emission of any transmitter employing frequency or phase modulation (Class F2 or F3) shall be 20 kHz. The use of F2 and F3 emissions in the frequency band 26.96 MHz–27.41 MHz is not authorized.

(d) • • •

(3) On any frequency removed from the center of the authorized bandwidth by more than 250 percent of the authorized bandwidth: at least $43+10\log_{10}$ (mean power in watts) decibels, for Class D transmitters type accepted before September 10, 1976 and all Class A transmitters.

(4) On any frequency removed from the center of the authorized bandwidth by more than 250 percent of the authorized bandwidth up to a frequency of twice the fundamental frequency; at least $53+10\log_{10}$ (mean power in watts) decibels, for Class D transmitters type accepted after September 10, 1976.

(5) On any frequency twice or greater than twice the fundamental frequency: at least 60 decibels (mean power in watts) for Class D transmitters type accepted after September 10, 1976.

NOTE.—The requirements of paragraph (d) must be met both with and without connection of all attachments acceptable for use with such transmitters. External speakers, microphones, power cords, and antennas are among the devices included in this requirement. Additionally, if it is shown that a licensee causes interference to television reception because of insufficient harmonic attenuation, he may be required to insert a low pass filter between the transmitter RF output terminal and the antenna feedline.

• • • • •

17. In § 95.55, paragraph (c)(4) is revised and new paragraph (c)(5) and a Note are added, as follows:

§ 95.55 Acceptability of transmitters for licensing.

• • • • •

(c) • • •

(4) Prior to January 1, 1977 transmitters which are equipped to operate on any frequency not included in § 95.41(d) (1) may not be installed at, or used by, any Class D station unless there is a station license posted at the transmitter location, or a transmitter identification card (FCC Form 452–C) attached to the transmitter, which indicates that operation of the transmitter on such frequency has been authorized by the Commission.

(5) Effective January 1, 1977 transmitters which are equipped to operate on any frequency not included in § 95.41 may not be installed at or used by any Class D station unless there is a station license posted at the transmitter location, or a transmitter identification card (FCC Form 452–C) attached to the transmitter, which indicates that operation of the transmitter on such frequency has been authorized by the Commission.

NOTE.—A "transmitter" is defined to include any radio frequency (RF) power amplifier.

• • • • •

18. In § 95.58, paragraphs (c)(2) and (c)(3) are amended, and new paragraphs (f) and (g) are added, as follows:

§ 95.58 Additional requirements for type acceptance.

• • • • •

(c) • • •

(2) Multi-frequency transmitters shall be capable of operation only on those frequencies authorized by § 95.41.

(3) All transmitter frequency determining circuitry (including crystals), other than the frequency selection mechanism, employed in Class D station equipment shall be internal to the equipment and shall not be accessible from the exterior of the equipment cabinet or operating panel. Add-on devices, whether internal or external to the equipment, the function of which is to extend the frequency coverage capability of a Class D unit beyond its original frequency coverage capability, shall not be sold, manufactured, or attached to any transmitter capable of operation on Class D Citizens Radio Service frequencies.

• • • • •

(f) A Class D Citizens Radio Service application form (FCC Form 505), a Temporary Permit, Class D Citizens Radio Station (FCC Form 555–B), and a copy of Part 95 of the Commission's Rules and Regulations, each to be current at the time of packing of the transmitter, shall be furnished with each transmitter sold after January 1, 1977.

(g) The serial number of each new Class D unit sold after January 1, 1977 shall be engraved on the unit's chassis.

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME PUBLIC HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R76-378]

PART 886—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—SPECIAL ALLOCATIONS

Additional Assistance

The Department of Housing and Urban Development (HUD) gave notice on March 31, 1976, at 41 FR 13603, that it was amending Title 24 of the Code of Federal Regulations by adding a new Part 886, Subpart B to Chapter VIII, effective immediately on an interim basis, with opportunity for public comment. The comment period closed April 16, 1976.

The name of Part 886 is being changed from "Section 8 Housing Assistance Payments Program—Additional Assistance Program for Projects Insured or Formerly Insured by HUD" to "Section 8 Housing Assistance Payments Program—Special Allocations."

The name of Subpart B is being changed from "Additional Assistance Program for HUD-Owned Projects to be Disposed of and Rehabilitated with Section 8 Assistance" to "Additional Assistance Program for the Disposition of HUD-Owned Projects."

HUD has received six responses to the March 31, 1976, publication. These comments were carefully considered, and changes have been made to the regulations, based on these comments and comments from within HUD. A discussion of the principal comments and changes is set forth below:

1. It was suggested that the site and neighborhood standards found in § 881.112 (c), (e), (f), and (g) are inappropriate for this program because the projects are presently occupied by families requiring housing assistance payments and, without section 8 assistance, a sale of these properties could result in extreme hardship to or displacement of these lower income families. Since the provision of section 8 assistance under these circumstances would merely be a continuation or increase of HUD subsidy, these projects are made subject only to those standards in § 881.112 which are consistent with their qualifying as decent, safe, and sanitary housing, i.e., § 881.112 (a), (b), (d), (h), and (i).

2. One comment suggested that the Department should not permit use of high-rise elevator structures for families with children under this program. The restriction regarding use of high-rise structures for such families is found in § 881.111 of the Substantial Rehabilitation regulations and is applicable to this program because no provision to the contrary is contained in this Subpart (see § 886.201(c)). Nevertheless, in the interest of clarity, a new § 886.203(g) has been added to include, as one of the selection factors, the likelihood that a property selected will result in a Proposal which meets the requirements set forth in Part 881, except as modified by this Subpart.

3. A new § 886.203(h) has been added to include as one of the selection factors, whether another available disposition alternative, including sale of the project for use as condominium or cooperative housing without section 8 assistance, would result in the best use of the property.

4. It was determined that more definite criteria should be given in § 886.204, which states that a HUD purchase money mortgage may be utilized as a last resort. Since HUD's policy is to limit the use of purchase money mortgages, § 886.204 has been modified to specify that the amount of the purchase money mortgage may not exceed the "as-is" sales price nor may it exceed 90 percent of the HUD-estimated value of the rehabilitated project used in the computation of the "as-is" sales price. The use of purchase money mortgages must still be authorized by the Regional Administrator.

5. One comment suggested that § 886.211 be revised to indicate that the field office director is empowered to execute the Housing Assistance Payments Contract, regulatory agreement, note and mortgage as well as the Contract of Sale and Purchase. Authorization for the execution of such documents, as well as the Agreement to Enter Into Housing Assistance Payments Contract, is contained in the appropriate regulations and issuances for the Section 8 Substantial Rehabilitation Program and for the particular HUD mortgage insurance or other program involved.

6. Comments suggested that more specific previsions were needed for purposes of sales of properties which are to be converted to cooperatives with section 8 assistance. Accordingly, a new § 886.212 has been added to provide that where HUD has determined that such a cooperative would result in the best use of the property, the Notification of Fund Availability shall be limited to Proposals for such cooperative ownership.

7. Comments indicated that the maximum 5-year Contract term for properties for which the estimated cost of rehabilitation is less than 15 percent is inadequate. In the Substantial Rehabilitation program under Part 881, the Contract term for such projects is limited to 5 years because the primary objective of that program is to induce rehabilitation, rather than sales as such. Such a limitation, however, is not appropriate for the program under this Subpart because here the primary purpose is to induce sales of HUD-owned properties. Accordingly, § 886.213 has been added to eliminate the 5-year limitation and to replace it with a 15-year maximum total Contract term when the relative amount of rehabilitation is less than 15 percent.

8. One comment suggested that specific mention be made of requirements for historic preservation. § 881.114(e), which is made applicable to this Subpart by § 886.201(c), makes specific reference to historic preservation requirements, so that no specific mention in this Subpart is necessary.

9. It was suggested that invitations for proposals should be made on a nationwide basis because HUD's Office of Property Disposition in Washington maintains a nationwide mailing list for the sale of multifamily properties. HUD believes that the interests of the program can best be served by utilizing the section 8 procedures in use in the HUD field offices pursuant to 24 CFR Part 881 concerning advertising. Prospective purchasers should contact the HUD office in the locality in which they are interested to determine the availability of projects for sale pursuant to this subpart.

10. One comment expressed concern as to the possibility of a Purchaser failing to complete required work in accordance with the Agreement, which would thus have possible serious adverse effect on the status of the occupants. In this connection, it should first be noted that every Preliminary Proposal involving rehabilitation must comply with the provisions of § 881.205(o) concerning relocation of site occupants. In addition, provisions have been added in § 886.206 (c) and (d) indicating that the Purchaser shall be obligated to complete the rehabilitation; that if he fails to do so he shall be obligated to provide site occupants with continued occupancy on a basis no less favorable than as of the date of his acquisition of the property; and that his Preliminary Proposal shall include a feasible plan for meeting these obligations.

11. It was suggested that this Program could deprive a community of section 8 assistance that might otherwise be available and that HUD should seek additional funds to compensate for such deprivation. The section 8 assistance being utilized for this program is being allocated by the Department in conformance with section 213(d) of the Housing and Community Development Act of 1974 (HCD Act). This section is the controlling statutory provision for allocation of section 8 as well as other housing assistance. To the extent that it is determined that a given community is entitled to additional housing assistance, whether by way of section 8 or other assistance that would meet the low income needs of the community, such assistance will be allocated.

12. It was also suggested that the local government should be asked for its comment as to consistency with the housing assistance plan prior to the solicitation of proposals. This would not be in accordance with the requirements of section 213(a) of the HCD Act, which provides that it is the application for housing assistance which shall be sent to the local government for comment. There is no application for housing assistance until after a Notification of Fund Availability has been published inviting the submission of Proposals which constitute applications for housing assistance.

13. This subpart has also been updated to comply with the revised 24 CFR Part 881 published in the FEDERAL REGISTER on April 26, 1976.

A Finding of Inapplicability with respect to the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A Finding of Inapplicability with respect to an Inflation Impact Statement has also been made in accordance with HUD procedures. Copies of these findings are available for public inspection during regular business hours in the office of the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C.

The Secretary of Housing and Urban Development has determined that the public interest would be best served by making these regulations effective immediately to avoid unnecessary delay in its implementation. Therefore, the Secretary finds that good cause exists for making these regulations effective on August 4, 1976.

Accordingly, 24 CFR Part 886, Subpart B is hereby amended and made final to read as follows:

Subpart B—Additional Assistance Program for the Disposition of HUD-Owned Projects

Sec.
886.201 Applicability and scope.
886.202 Allocations of contract authority to field offices.
886.203 Selection of properties.
886.204 Special financing.
886.205 Notification of fund availability.
886.206 Contents of purchaser's program packet.
886.207 Contents of Preliminary proposals.
886.208 Proposals involving HUD-FHA mortgage insurance.
886.209 Final proposals.
886.210 Notification of approval of final proposal.
886.211 Execution of contract of sale and purchase and closing.
886.212 Cooperative conversions.
886.213 Term of housing assistance payments contracts.

AUTHORITY: Sec. 7(d) Department of HUD Act, (42 U.S.C. 3535(d)); Sec. 5(b) of U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)); Sec. 8 of U.S. Housing Act of 1937 (42 U.S.C. 1437f).

Subpart B—Additional Assistance Program for the Disposition of HUD-Owned Projects

§ 886.201 Applicability and scope.

(a) The purpose of this subpart is to permit the use or section 8 housing assistance to facilitate the sale of multifamily properties owned by HUD (HUD-owned properties). This program will help to meet the shelter needs of lower-income families, preserve and improve the housing stock available to such families, and contribute to the long term stability of HUD-assisted projects for lower income families.

(b) Projects assisted with the contract authority allocated pursuant to § 886.202 shall be subject to the provisions of this subpart. However, this Subpart shall not apply to the use of HUD-owned properties in projects assisted under other allocations of contract authority under the United States Housing Act of 1937.

(c) Except as specifically modified by this subpart, the provisions of Subparts A and B of the section 8 Substantial Rehabilitation Regulations (24 CFR Part 881) apply.

(d) 24 CFR § 881.101, Applicability and scope, shall not apply to projects under this subpart.

§ 886.202 Allocations of contract authority to field offices.

HUD may allocate to field offices contract authority reserved for use with HUD-owned properties to be sold pursuant to this subpart.

§ 886.203 Selection of properties.

The field office director shall select the properties for sale pursuant to this Subpart on the basis of the following factors:

(a) The number of properties in the inventory of HUD-owned properties in the field office jurisdiction which are suitable for use under this Subpart, including properties with HUD-insured or HUD-held mortgages where a mortgage assignment or mortgage foreclosure is anticipated. However, a property must be acquired by HUD before it is included in a Notification of Fund Availability pursuant to § 886.205.

(b) Compliance with site and neighborhood standards stated in 24 CFR 881.112 (a), (b), (d), (h), and (i);

(c) Results of appropriate environmental review conducted in compliance with HUD requirements implementing the National Environmental Policy Act of 1969, as amended; and, if applicable, the likelihood of compliance with A-95 requirements;

(d) The extent to which the use of the property under this subpart will help to meet the needs of lower income families.

(e) The likelihood that the use of the property under this subpart will not be objected to by the unit of local government under section 213(a) of the Housing and Community Development Act of 1974 (HCD Act); and

(f) The contents of any local public or private plans for upgrading or preserving the neighborhood in which a property is located.

(g) The likelihood that selection of a property for use under this subpart will result in a proposal which meets the requirements set forth in Part 881 except as modified by this Subpart B.

(h) Whether another available disposition alternative, including sale of the project for use as condominium or cooperative housing without section 8 assistance, would result in the best use of the property.

§ 886.204 Special financing.

In addition to the types of financing mentioned in 24 CFR 881.115, HUD purchase money mortgages may be utilized as a last resort with written approval of the Regional Administrator, but the amount of the purchase money mortgage may not exceed the "as-is" sales price nor may it exceed 90 percent of the HUD-estimated value of the rehabilitated project used in the computation of the "as-is" sales price.

§ 886.205 Notification of fund availability.

The director of a field office to which contract authority has been allocated pursuant to § 886.202 shall implement a program under this Subpart by publishing a Notification of Fund Availability for the sale of HUD-Owned Properties in accordance with 24 CFR 881.203(a). In addition to the contents required by 24 CFR 881.203(c), the Notification shall include a statement that certain HUD-owned property(ies) is available for sale for use with assistance under the section 8 program. If the field office director deems it necessary in marketing the property, the following information shall also be included in the Invitation; the specific address(es) of the property(ies), the HUD determined "as-is" sales price, the number of units in each property, and any other relevant information. Where this information is included in the Notification the statement of the geographic area of the housing and the approximate number of units the available contract authority is expected to assist shall be omitted.

§ 886.206 Contents of purchaser's program packet.

The contents of the Purchaser's Program Packet shall be as provided in 24 CFR 881.204 for the Rehabilitation Program Packet, except that the Purchaser's Program Packet shall include:

(a) A statement of limitations on type of occupancy, if any (e.g. predominantly for elderly, conversion to cooperative).

(b) A statement of the HUD-determined "as-is" sales price for each property, its address, and the number of units contained therein.

(c) The Contract of Sale and Purchase for each property. This Contract shall include a provision that the Purchaser shall be obligated to complete any required rehabilitation in accordance with the agreement so that a Housing Assistance Payments Contract can be executed, and that in the event of failure to achieve such completion the Purchaser shall be obligated to provide occupants of the project with continued occupancy on a basis no less favorable than as of the date of his acquisition of the property.

(d) A statement that the Preliminary Proposal shall include a feasible plan for meeting the Purchaser's obligations mentioned in paragraph (c) of this section.

(e) A statement that, in addition to meeting other applicable requirements, the execution of a section 8 agreement or contract is contingent upon approval of the final proposal and on the purchaser meeting the closing date specified in the contract of sale and purchase.

§ 886.207 Contents of preliminary proposals.

(a) Except for the following modifications, the information required by 25 CFR 881.205 shall be included in the preliminary proposal.

V 41 151 AUG 4 76 UMI

(b) The provisions of 24 CFR 881.205 (b) and (c) shall not apply.

§ 886.208 Proposals involving HUD–FHA mortgage insurance.

Submission of proposals involving HUD–FHA mortgage insurance shall be in accordance with 24 CFR 88.07, except that paragraph (a) shall not apply.

§ 886.209 Final proposals.

(a) Except for the following modifications, the information required by 24 CFR 881.209 shall be included in the final proposal.

(b) The provisions of 24 CFR 881.209 (a) (1) shall not apply.

§ 886.210 Notification of approval of final proposal.

The notification of approval of final proposal pursuant to 24 CFR 881.210(c) shall instruct the purchaser to return to the field office the executed contract of sale and purchase together with his acceptance of the notification.

§ 886.211 Execution of contract of sale and purchase and closing.

On receipt of the executed Contract of Sale and Purchase from the purchaser, the field office director shall execute that Contract and arrange for sales closing.

§ 886.212 Cooperative conversions.

When the field office Director determines, in the selection of a property pursuant to this Subpart and after consideration of all available disposition alternatives, that the best use of the property would result from cooperative housing ownership, the Notification of Fund Availability shall be limited to proposals for such cooperative ownership. The Purchaser's Program Packet shall include a statement that the total of the carrying charges to be paid by a member-occupant of a dwelling unit under the occupancy agreement between him and the cooperative shall be treated as the rent for the unit, and that the occupancy agreement shall be treated as the lease, for all purposes of the provisions of this Subpart B and 24 CFR Part 881.

§ 886.213 Term of housing assistance payments contracts.

Except as modified by this section, the term of the Contract shall be as specified in 24 CFR 881.109. The provisions of 24 CFR 881.109(a) shall not apply; in lieu thereof, where the HUD-estimated relative cost of the rehabilitation is less than 15 percent of the HUD-estimated value of the project after completion of the rehabilitation, the Contract shall be for an initial term of not more than 5 years, with provision for automatic renewal (unless agreed otherwise) for additional terms of not more than 5 years each, for a total Contract term not to exceed 15 years.

(NOTE: It is hereby certified that the economic and inflationary impact of this regulation has been carefully evaluated in accordance with OMB Circular A–107.)

Effective date. These regulations are effective on August 4, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing-Federal Housing Commissioner.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

Twelve agencies have agreed to a six-month trial period based on the assignment of two days a week beginning February 9 and ending August 6 (See 41 FR 5453). The participating agencies and the days assigned are as follows:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this trial program are invited. Comments should be submitted to the Director of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Executive Order 11931 • August 3, 1976

Extending Diplomatic Privileges and Immunities to Permanent Observers to the Organization of American States and to Members of Their Diplomatic Staffs

By virtue of the authority vested in me by the Act of November 7, 1973 (87 Stat. 560; 22 U.S.C. 288g), and as President of the United States of America, I extend to Permanent Observers to the Organization of American States, and to the members of the diplomatic staffs of such Permanent Observers, the same privileges and immunities, subject to corresponding conditions and obligations, as are enjoyed by diplomatic envoys accredited to the United States.

This Executive order shall be effective as of November 7, 1973. The enjoyment of privileges and immunities extended hereunder shall be subject to any Agreements entered into between the Government of the United States and the Organization of American States after that date.

Gerald R. Ford

THE WHITE HOUSE,
August 3, 1976.

Executive Order 11932 August 4, 1976

Classification of Certain Information and Material Obtained From Advisory Bodies Created To Implement the International Energy Program

The United States has entered into the Agreement on an International Energy Program of November 18, 1974, which created the International Energy Agency. This program is a substantial factor in the conduct of our foreign relations and an important element of our national security. The effectiveness of the Agreement depends significantly upon the provision and exchange of information and material by participants in advisory bodies created by the International Energy Agency. Confidentiality is essential to assure the free and open discussion necessary to accomplish the tasks assigned to those bodies. I have consulted with the Secretary of State, the Attorney General and the Administrator of the Federal Energy Administration concerning the handling and safeguarding of information and material in the possession of the United States which has been obtained pursuant to the program, and I find that some of such information and material requires protection as provided in Executive Order No. 11652 of March 8, 1972, as amended.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, and as President of the United States, it is hereby ordered as follows:

SECTION 1. Information and material obtained pursuant to the International Energy Program and which requires protection against unauthorized disclosure in the interest of the national defense or foreign relations of the United States shall be classified pursuant to Executive Order No. 11652 of March 8, 1972, as amended. The Secretary of State shall have the responsibility for the classification, declassification and safeguarding of information and material in the possession of the United States Government which has been obtained pursuant to:

(a) Section 252(c)(3), (d)(2) or (e)(3) of the Energy Policy and Conservation Act (89 Stat. 871; 42 U.S.C. 6272(c)(3), (d)(2), (e)(3)), or

(b) The Voluntary Agreement and Program relating to the International Energy Program (40 F.R. 16041, April 8, 1975), or

(c) Any similar Voluntary Agreement and Program entered into under the Energy Policy and Conservation Act after the date of this Order.

SEC. 2. Information or material classified pursuant to Section 1 of this Order may be exempted from the General Declassification Schedule established by Section 5 of Executive Order No. 11652 if it was obtained by the United States on the understanding that it be kept in confidence, or if it might otherwise be exempted under Section 5(B) of such Order.

V 41 152 AUG 5 76 UMI

SEC. 3. (a) Within 60 days of the date of this Order, the Secretary of State shall promulgate regulations which implement his responsibilities under this Order.

(b) The directives issued under Section 6 of Executive Order No. 11652 shall not apply to information and material classified under this Order. However, the regulations promulgated by the Secretary of State shall:

(1) conform, to the extent practicable, to the policies set forth in Section 6 of Executive Order No. 11652; and

(2) provide that he may take such measures as he deems necessary and appropriate to ensure the confidentiality of any information and material classified under this Order that may remain in the custody or control of any person outside the United States Government.

Gerald R. Ford

THE WHITE HOUSE,
August 4, 1976.

[FR Doc.76-23043 Filed 8-4-76;10:57 am]

Directive of July 30, 1976

Amending the National Security Council Directive of May 17, 1972, Governing the Classification, Downgrading, Declassification and Safeguarding of National Security Information

The President has directed that the National Security Council Directive Governing the Classification, Downgrading, Declassification and Safeguarding of National Security Information dated May 17, 1972 (37 FR 10053), be amended as follows:

Delete the last sentence of Paragraph B, Departmental Committee, in Section X, DEPARTMENTAL IMPLEMENTATION AND ENFORCEMENT.

This Directive shall be published in the FEDERAL REGISTER and become effective August 1, 1976.

BRENT SCOWCROFT,
Assistant to the President
for National Security Affairs

July 30, 1976

[FR Doc.76-23053 Filed 8-4-76;11:27 am]

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 539]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period August 6–12, 1976. It is issued pursuant to the Agricultural Marketing Agreement of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.839 Valencia Orange Regulation 539.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is easing. Prices f.o.b. for the week ending July 29 were $3.57 a carton on 638 cars as compared with $3.46 per carton on 676 cars during the prior week. Track and rolling supplies at 360 cars were up 15 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 3, 1976.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period August 6, 1976, through August 12, 1976, are hereby fixed as follows:

(i) District 1: 259,000 cartons;

(ii) District 2: 316,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 4, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-22306 Filed 8-4-76;12:30 pm]

PART 947—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

Handling Regulation

This regulation, designed to promote orderly marketing of Oregon-California potatoes, requires inspection of fresh market shipments to keep undesirable low quality potatoes from being shipped to consumers.

Notice of rule making with respect to a proposed handling regulation, to be effective under Marketing Agreement No. 114 and Marketing Order No. 947, both as amended (7 CFR Part 947), regulating the handling of Irish potatoes grown in the designated production area, was published in the July 12, 1976, FEDERAL REGISTER (41 FR 28529). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons through July 23, 1976, to file written data, views or arguments pertaining to that proposal. None was filed.

The recommendations of the Oregon-California Potato Committee reflect its appraisal of the composition of the 1976 crop and prospective market conditions and are consistent with the marketing policy it unanimously adopted. Shipments are expected to begin July 15 so the proposed regulation should become effective as near that date as possible.

Total supplies in 1976–77 may be slightly more than in 1975–76. Intended planted fall acreage is forecast at 1,117,200 acres, about 4 percent more than in 1975. Prospective plantings in Oregon excluding Malheur County are 50,500 acres, 16 percent more than the acreage planted in 1975. Estimated prospective plantings in Modoc and Siskiyou Counties in California are 18,600 acres or 1 percent more than in 1975.

V 41 152 AUG 5 76 UMI

The grade, size, quality, maturity, pack and inspection requirements herein are necessary to prevent potatoes of low quality, or undesirable sizes from being distributed into fresh market channels. They will benefit producers and consumers by standardizing and improving the quality of the potatoes shipped from the production area, thereby promoting orderly marketing and effectuating the declared policy of the act.

The committee recommends that potatoes grown in District No. 5 be a minimum of 2 inches or 4 ounces. All handlers in District 5 desired this requirement because it makes size requirements in their district conform to those in effect under Marketing Order 946 regulations for their direct competitors in Washington, just across the State line over which potatoes move both ways.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements may be inappropriate or unreasonable.

A specified quantity of potatoes are exempt from maturity requirements in order to permit growers to make test diggings without loss of the potatoes so harvested.

Shipments are permitted to certain special purpose outlets without regard to minimum grade, size, cleanliness, maturity, pack and inspection requirements, provided that safeguards are met to prevent such potatoes from reaching unauthorized outlets. Certified seed is so exempt, subject to the safeguard provisions only when shipped outside the district where grown.

Shipments for use as livestock feed within the production area or to specified adjacent areas are exempt; a limit to the destinations of such shipments is provided so that their use for the purpose specified may be reasonably assured. Shipments of potatoes between Districts 2 and 4 for planting, grading, and storing are exempt from requirements because these two areas are homogenous and have no natural division. Other districts are more clearly separated and do not have this problem. For the same reason, potatoes grown in District 5 may be shipped without regard to the aforesaid requirements to the Counties of Adams, Benton, Franklin, and Walla Walla in the State of Washington, and Malheur County, Oregon, for grading and storing. Since no purpose would be served by regulating potatoes used for charity purposes, such potatoes are exempt. Also potatoes for most processing uses are exempt under the legislative authority for this part.

Requirements for export shipments differ from those for domestic markets. While the standard quality requirements are desired in foreign markets smaller sizes are more acceptable. Therefore, different size requirements for export shipments are provided.

Findings. After consideration of all relevant matter presented, including the proposal set forth in the aforesaid notice which was recommended by the Oregon-California Potato Committee, established pursuant to the marketing order, it is hereby found that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of potatoes grown in the production area will begin on or before the effective date specified herein, (2) to maximize benefits to producers, this regulation should apply to as many shipments as possible during the marketing season, (3) compliance with this regulation will not require any special preparation on the part of handlers which cannot be completed before the effective date of this regulation, and (4) information regarding the committee's recommendation has been made available to producers and handlers of potatoes in the production area.

The regulation is as follows:

§ 947.334 [Revoked]

1. *Termination of regulations:* Handling regulation § 947.334 effective August 5, 1975, through October 15, 1976 (40 F.R. 29727 and 32730) shall be terminated upon the effective date of this section.

2. Section 947.335 is added to read as set forth below.

§ 947.335 Handling regulation.

During the effective period herein through October 15, 1977, no person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a), (b), (c), (d), (e), and (f) of this section or unless such potatoes are handled in accordance with paragraphs (g), (h), or (i) of this section.

(a) *Grade requirements.* All varieties—U.S. No. 2, or better grade.

(b) *Size requirements.* All varieties—1⅞ inches minimum diameter except potatoes from District No. 5 shall be 2 inches minimum diameter or 4 ounces minimum weight. However, potatoes for export may be 1½ inches minimum diameter.

(c) *Cleanliness requirements.* All varieties and grades—As required in the United States Standards for Grades of Potatoes, except that U.S. Commercial may be no more than "slightly dirty."

(d) *Maturity (skinning) requirements.* (1) All varieties—no more than "moderately skinned."

(2) Not to exceed a total of 100 hundredweight of potatoes may be handled during any seven day period without meeting these maturity requirements. Prior to shipment of potatoes exempt from the above maturity requirements, the handler shall obtain from the committee a Certificate of Privilege.

(e) *Pack.* Potatoes packed in 50-pound cartons shall be U.S. No. 1 grade or better, except that potatoes that fail to meet the U.S. No. 1 grade only because of hollow heart and/or internal discoloration may be shipped provided the lot contains not more than 10 percent damage by hollow heart and/or internal discoloration, as identified by U.S.D.A. Color Photograph E (Internal Discoloration—U.S. No. 2—Upper Limit), POT-CP-9, May 1972, or not more than 5 percent serious damage by internal defects.

(f) *Inspection.* (1) Except when relieved by paragraphs (g), (h), or (i) of this section, no person shall handle potatoes without first obtaining inspection from an authorized representative of the Federal-State Inspection Service.

(2) For the purpose of operation under this part, unless exempted from inspection by the provisions of this section, each required inspection certificate is hereby determined, pursuant to § 947.60 (c) to be valid for a period of not to exceed 14 days following completion of inspection as shown on the certificate. The validity period of an inspection certificate covering inspected and certified potatoes that are stored in mechanically refrigerated storage within 14 days of the inspection shall be 14 days exclusive of the number of days that the potatoes were held in refrigerated storage.

(3) Any lot of potatoes previously inspected pursuant to § 947.60(a) is not required to have additional inspection under § 947.60(b) after regrading, resorting, or repacking such potatoes, if the inspection certificate is valid at the time of regrading, resorting, or repacking of the potatoes.

(g) *Special purpose shipments.* The minimum grade, size, cleanliness, pack, maturity and inspection requirements set forth in paragraphs (a), (b), (c), (d), (e), and (f) of this section shall not be applicable to shipments of potatoes for any of the following purposes:

(1) Certified seed, subject to applicable safeguard requirements of paragraph (h) of this section.

(2) Livestock feed: However, potatoes may not be handled for such purposes if destined to points outside of the production area, except that shipments to the Counties of Benton, Franklin, and Walla Walla in the State of Washington and to Malheur County, Oregon, may be made, subject to the safeguard provisions of paragraph (h) of this section.

(3) Planting in the district where grown, except that potatoes for this purpose grown in District No. 2 or District No. 4 may be shipped between those two districts.

(4) Grading or storing, under the following provisions:

(i) Between districts within the production area for grading or storing if such shipments meet the safeguard requirements of paragraph (h) of this section.

(ii) Potatoes grown in District No. 2 or District No. 4 may be shipped for grading or storing between those two Districts without regard to the safeguard requirements of paragraph (h) of this section.

(iii) Potatoes grown in District No. 5 may be shipped for grading and storing to points in the Counties of Adams, Benton, Franklin, and Walla Walla in the State of Washington, or to Malheur County, Oregon, without regard to the safeguard provisions of paragraph (h) of this section.

(5) Charity. *Provided,* That shipments for charity may not be resold if they do not meet the requirements of the marketing order, and *Further Provided,* That shipments in excess of 5 hundredweight per charitable organization shall be subject to the safeguard provisions of paragraph (h) of this section.

(6) Starch manufacture.

(7) Canning, freezing, prepeeling, and "other processing," as hereinafter defined (including storage for such purposes).

(h) *Safeguards.* (1) Each handler making shipments of certified seed outside the district where grown pursuant to paragraph (g) shall obtain from the committee a Certificate of Privilege, and shall furnish a report of shipments to the committee on forms provided by it.

(2) Each handler making shipments of potatoes pursuant to subparagraphs (2), (4) (i), and (5) of paragraph (g) of this section shall obtain a Certificate of Privilege from the committee, and shall report shipments at such intervals as the committee may prescribe in its administrative rules.

(3) Each handler making shipments pursuant to subparagraph (7) of paragraph (g) of this section may ship such potatoes only to persons or firms designated as manufacturers of potato products by the committee, in accordance with its administrative rules.

(i) *Minimum quantity exemption.* Any person may handle not more than 19 hundredweight of potatoes on any day without regard to the inspection requirements of § 947.60 and to the assessment requirements of § 947.41 of this part except no potatoes may be handled pursuant to this exemption which do not meet the requirements of paragraphs (a), (b), (c), (d), and (e) of this section. This exemption shall not apply to any part of a shipment which exceeds 19 hundredweight.

(j) *Definitions.* (1) The terms "U.S. No. 1," "U.S. Commercial," "U.S. No. 2," and "moderately skinned" shall have the same meaning as when used in the U.S. Standards for Grades of Potatoes (§§ 51.1540–51.1566 of this title) including the tolerances set forth therein.

(2) The term "slightly dirty" means potatoes that are not damaged by dirt.

(3) The term "prepeeling" means the commercial preparation in a prepeeling plant of clean, sound, fresh potatoes by washing, peeling or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422 United States Standards for Grades of Peeled Potatoes (§§ 52.2421–52.2433 of this title).

(4) The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, or starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, or dicing, or applying material to prevent oxidation does not constitute "other processing."

(5) Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114, as amended, and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: July 30, 1976 to become effective August 5, 1976.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—LOANS PRIMARILY FOR PRODUCTION PURPOSES

[FmHA Instruction 441.3]

PART 1831—OPERATING LOANS

Subpart B—Operating Loan Processing

Section 1831.32(v) (10) (i) of Subpart B of Part 1831, Title 7, Code of Federal Regulations (37 FR 14858; 38 FR 14155) is amended. The amendment establishes the requirements for taking a new security agreement on loans to paid-in-full borrowers. This revision insures the existence of a security interest for FmHA in making these loans. The amendment is being published without notice of proposed rulemaking. Since the change concerns agency procedure and does not affect the public's interest, such notice is not necessary.

Accordingly, § 1831.32(v) (10) (i) as amended, reads as follows:

§ 1831.32 Loan forms and routines.

* * * * * * *

(v) * * *

(10) * * *

(i) *Future advance provisions.* A properly prepared, executed, and filed or recorded FmHA financing statement and a properly prepared and executed FmHA security agreement give FmHA a security interest in the property described thereon to secure any Operating or Emergency loan indebtedness owed by the debtor, including any such loans, advances, or expenditures, and any other FmHA debts evidenced by notes and any advances or expenditures made in connection with the debts evidenced by such notes. However, when a borrower's Operating loan and Emergency loan indebtedness is paid-in-full, a new security agreement must be taken in all cases to secure an initial Operating loan or Emergency loan made following the payment-in-full.

SUBCHAPTER F—SECURITY SERVICING AND LIQUIDATIONS

[FmHA Instruction 462.1]

PART 1871—CHATTEL SECURITY

Subpart A—Servicing Chattel Security

Section 1871.4, paragraphs (f) (1) (ii), and (f) (2) and §1871.9 (a) and (c) of Subpart A, Part 1871, Title 7, Code of Federal Regulations (36 FR 1110) are amended. These amendments set forth the requirements for taking a new Security Agreement on loans to paid-in-full borrowers; remove references to Forms FmHA 462–6, "Affidavit of Extension and Renewal" and FmHA 462–2, "Statement of Conditions on Which Lien Will Be Released"; and adds language specifying the form to be used by the County Supervisor or his delegate when granting written consent to sell security property. Since the changes are procedural in nature, and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary.

The following procedural changes are being made:

1. In § 1871.4, a new sentence is added at the beginning of paragraph (f) (1) (ii) for taking a new Security Agreement on loans to paid-in-full borrowers; paragraph (f) (2) is amended to remove reference to Form FmHA 462–6. The amendments read as follows:

§ 1871.4 Keeping security instruments current and taking additional security.

* * * * * * *

(f) * * *

(1) * * *

(ii) *Security agreements.* When an initial Operating loan or Emergency loan is made to an applicant, including a paid-in-full Operating loan or Emergency loan borrower, a new Security Agreement will be taken in all cases. * * *

(2) *Chattel mortgages.* Extension or renewal of chattel mortgages may be accomplished either by: Obtaining new chattel mortgages as provided in paragraph (c) of this section; or, the use of a form approved for this purpose by the OGC. However, it is preferable to renew or extend chattel mortgages by obtaining new ones unless such action is inadvisable because of intervening liens or other legal reasons.

* * * * * * *

2. In § 1871.9, paragraph (a) is amended by adding the following sentence to the end of this paragraph to read as follows:

§ 1871.9 Accounting for security property.

* * * * * * *

V 41 152 AUG 5 76 UMI

(a) *Accounting by the borrower.* * * * Form FmHA 462–2, "Written Consent to Sell and Statement of Conditions on Which Lien Will Be Released," may be used by the County Supervisor or his delegate to give written consent to sell when borrowers or purchasers request such statement prior to the date of sale.

* * * * *

3. In § 1871.9, paragraph (c) is amended by deleting the last sentence reading, "Form FmHA 462–2, "Statement of Conditions on Which Lien Will Be Released," may be used when borrowers or purchasers request such statement prior to the date of sale."

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; Sec. 10 Pub. L. 93–357, 88 Stat. 392; delegation of authority by the Sec. of Agri., 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir., OEO, 29 FR 14764, 33 FR 9850.)

Effective date: These amendments are effective August 5, 1976.

Dated: July 27, 1976.

SUBCHAPTER K—PROPERTY MANAGEMENT

PART 1955—REAL ESTATE AND CHATTEL PROPERTIES

Redesignation, Consolidation, and Revision

There is hereby established under Chapter XVIII, Title 7, a new Subchapter K, "Property Management," Part 1955, "Real Estate and Chattel Properties," Subparts A through D, in the Code of Federal Regulations.

On March 23, 1976, there was published a notice of proposed rulemaking in the FEDERAL REGISTER (41 FR 12041). The proposed changes were to clarify, consolidate and revise the regulations concerning Property Management. Most of the new sections were taken from various units and sections of Subpart F of Part 1861; Subpart B of Part 1871; and Subparts A and C of Part 1872 of this Chapter XVIII. Interested persons were given the opportunity to submit, not later than April 22, 1976, written comments, suggestions, data or arguments regarding the proposed regulations. Numerous responses have been received and were given due consideration. They have resulted in editorial changes for clarification and in the substantive changes hereinafter mentioned.

The changes are as follows:

1. In § 1955.10, paragraphs (d) and (f) are revised to provide for a financial statement from the borrower and information about present income when the debt exceeds the value during voluntary conveyance. If this information is not obtained, the District Director must approve the transaction prior to acceptance.

2. In § 1955.10(i), determination of suitability of property has been clarified.

3. In § 1955.11(b), the Administrator's approval in a bankruptcy case must be obtained before paying a fee for a trustee's deed.

4. In § 1955.15, paragraph (d)(2) is expanded to provide additional instructions for acceleration of the entire account, including the mailing of an acceleration notice which offers the borrower an opportunity for a meeting to present his side prior to foreclosure.

5. In § 1955.15, a new paragraph (d)(3) is added to describe how such a meeting will be conducted. Subsequent paragraphs have been renumbered accordingly.

6. In § 1955.15, paragraph (d)(6)(iv) is revised to provide that the State Director may, in nonjudicial foreclosure cases, forward an additional copy of the notice of sale to the borrower at an address other than officially shown in FmHA records.

7. In § 1955.15, paragraph (d)(10) is clarified and provides that when FmHA is not the senior lienholder, the State Director may authorize the Agency representative to make incremental bids at foreclosure sales in competition with other bidders.

8. As provided in the revision of §§ 1955.55(c) and 1955.63(a)(1)(i), other approved forms may be used in place of Form FmHA 465–2, "Lease of Security Property," or Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal." An additional revision in § 1955.63(a)(1)(i) includes clarification that the lessee be informed of any redemption rights when leasing property.

9. Section 1955.102 is revised and clarified to show that all offers to purchase acquired property will be documented on Form FmHA 465–10.

10. In § 1955.103, paragraph (b) is revised to include the provision that above-moderate income rural housing applicants can be considered for an eligible credit sale.

11. Section 1955.105 is revised to show that the instrument of conveyance for property subject to Title VI of the Civil Rights Act of 1964 will contain a statement to that effect.

12. Section 1955.107 is revised to clarify that real estate property taxes will be prorated between FmHA and the purchaser as of the date of sale closing.

13. In § 1955.108, paragraph (c) is deleted, which thereby removes any reference to restrictions in the deed for property located in a flood or mudslide hazard area.

14. In § 1955.116, paragraph (b)(1) is revised pertaining to interest rate on sales of surplus property.

15. In § 1955.117, paragraph (a)(1) is revised to include statements on nondiscrimination and, if applicable, presence of a flood plain in advertising for the sale of rural housing property.

16. Section 1955.151 is revised to include appraisals and inspections.

Although these amendments become effective immediately, due to the possible effect of additional changes made in § 1955.15(d)(2) and (3) of this Chapter, interested persons are invited to submit written comments or suggestions on these particular paragraphs to the Office of the Chief, Directives Management Branch, Farmers Home Administration, United States Department of Agriculture, Room 6316, South Building, Washington, DC 20250, on or before September 7, 1976. All written submissions pursuant to this notice will be considered when this document is next revised and such written submissions will be made available for public inspection at the Office of the Chief, Directives Management Branch, during regular business hours (8:15 a.m.–4:45 p.m.).

Accordingly, Subparts A, B, C, and D are set forth below.

Effective date: This regulation shall become effective on August 5, 1976.

Dated: July 14, 1976.

FRANK W. NAYLOR, JR.,
Acting Administrator,
Farmers Home Administration.

Subpart A—Liquidation of Loans and Acquisition of Property

§ 1955.1 Purpose.

This subpart delegates authority and prescribes procedures for the liquidation of Farmers Home Administration (FmHA) loans and acquisition of property by voluntary conveyance to the Government, or by foreclosure of security instruments.

§ 1955.2 Policy.

Loans will be liquidated when continued servicing will not accomplish the objectives of the loan or when further servicing cannot be justified in accordance with servicing instructions for the loan. Cash sales or transfer of real estate and chattel property and assumption of loans will be considered as servicing actions.

§ 1955.3 Definitions.

The following definitions apply to this Part 1955.

(a) *Acquired real estate.* Real estate and any growing crops, improvements, appurtenances, and rights that pass with the land; inventory acquired as part of a business; and other property that is necessary to the efficient operation of the real estate or business and that is usually sold with the real estate.

(b) *Loans to individuals.* For purposes of Part 1955, the following loans will be considered loans to individuals: Farm Ownership (FO), Soil and Water (SW), Recreation (RL), Land Conservation and Development (LCD), Economic Opportunity (EO), Operating (OL) whether to groups or individuals, Emergency (EM) whether to groups or individuals, sections 502 and 504 Rural Housing (RH), Rural Rental Housing (RRH) loans without a loan agreement, and Labor Housing (LH) loans without a loan agreement.

(c) *Loans to organizations.* For purposes of this Part 1955 the following loans will be considered loans to organizations: Community Facility (CF); Water and Waste Disposal; Association Recreation; Watershed (WS); Resource Conservation and Development (RC&D); loans to associations for Shift-in-land-use; loans to associations for Irrigation and Drainage and other Soil and Water Conservation measures; loans to Indian Tribes and Tribal Corporations; Timber Development (TD); RRH except to individuals without a loan agreement; Rural Housing Site (RHS); LH except to individuals without a loan agreement; and Rural Cooperative Housing Property Management Real Estate and Chattel Properties.

§ 1955.4 [Reserved]

§ 1955.5 Authorities and responsibilities.

(a) *Line authority.* This authority is from the Administrator to State Director, District Director, and County Supervisor. Assistance, guidance, and counsel are available from the Property Management Specialist and Program Staff in the State Office and from appropriate program divisions and Property Management staff in the National Office. Full use will be made of these resources.

(b) *Redelegation of authority.* FmHA will redelegate authorities to the maximum extent possible consistent with program requirements and available resources.

(1) The State Director is authorized to redelegate, in writing, any authority delegated to the State Director in this subpart, except where specifically excluded, to the Chief, Property Management; Chief, Rural Housing; Chief, Farmer Programs; Chief, Community Programs; Chief, Business and Industry; Rural Housing Specialist; Farmer Programs Specialist; Property Management Specialist; Community Programs Specialist; and Business and Industry Specialist.

(2) The County Supervisor is authorized to redelegate, in writing, any authority delegated to the County Supervisor in this subpart to any employee in the County Office determined by him or her to be qualified.

§ 1955.6 General actions.

(a) *Assignment of notes of FmHA.* If voluntary conveyance or foreclosure is approved and the insured note is not held in the insurance fund or the County Office, the approval official will request the Director, Finance Office, to have the note assigned to the insurance fund. Voluntary conveyance may be closed and the deed recorded before assignment of the note to the insurance fund.

(b) *Execution of documents.* After liquidation has been approved by the appropriate official, the County Supervisor is authorized to execute all necessary forms, satisfactions, releases, and other documents required to complete any transaction in this subpart.

(c) *Payment by voucher.* Any cost related to a loan account paid, under this part, by SF 1034 or other approved voucher while the property is owned by the borrower will be charged to the borrower's account when authorized in the security instrument or agreed to by the borrower, except where otherwise indicated.

§§ 1955.7–1955.9 [Reserved]

§ 1955.10 Voluntary conveyance of real estate and related security.

Voluntary conveyance is a method of liquidation by which title to security property is transferred to the Government. Voluntary conveyance should be considered only after all efforts to sell or transfer the security in accordance with the servicing instructions for the loan have been exhausted.

(a) *Authority*—(1) *Loans to individuals.* The County Supervisor, District Director, and State Director are authorized to approve voluntary conveyance, provided the total debts against the security do not exceed the following amounts (these monetary limits may not be redelegated by the State Director to the District Director or County Supervisor or by the District Director to the County Supervisor.):

(i) $100,000—County Supervisor.

(ii) $160,000—District Director.

(iii) Above $160,000 and for any amount if the County Supervisor or District Director requests assistance—State Director.

(2) *Loans to organizations.* (i) The State Director is authorized to approve voluntary conveyance of property securing RRH, RCH, LH, RHS, Shift-in-land-use, Irrigation and Drainage, and Indian Tribes and Tribal Corporation loans, if the total principal and interest owed (including the indebtedness owed to prior and junior lienholders) to FmHA do not exceed his approval authority for the type of loan involved.

(ii) The State Director is authorized to approve voluntary conveyance of property securing EOC loans, regardless of the amount.

(iii) Offers to convey property securing loans other than those mentioned in paragraphs (a)(2)(i) and (ii) of this section will be submitted to the Administrator for approval, Attention: (insert appropriate title) Program Loan Division. The State Director will forward Form FmHA 465–4, "Offer to Convey Security," the County Office docket, the "Report on Association Problem Case," a statement of essential facts, and his recommendations.

(b) *Problem case report and documentation.* (1) In situations in which the County Supervisor does not have the authority to approve voluntary conveyance, he will complete a problem case report using Form FmHA 465–7, "Report on Real Estate Problem Case," for loans to individuals, or "Report on Association Problem Case (Association-Type Projects)," for loans to organizations (see Exhibit A) and, for Association Recreation loans, "Report on Association Loan Problem Case (Additional Information for Recreation Loans)," (see Exhibit B) as appropriate. The report will be submitted to the appropriate approval official as a part of the voluntary conveyance docket.

(2) A problem case report will not be prepared for loans to individuals that are within the County Supervisor's approval authority. However, the County Supervisor will record in the case file the circumstances of the conveyance.

(c) *Prior and junior liens.* (1) The Government will pay prior liens in full if:

(i) A substantial recovery on the Government's secured indebtedness plus the amount of any prior liens can be obtained; and

(ii) The holder of the prior lien will not agree to the Government accepting voluntary conveyance, unless it is paid in full, and the concurrence of the holder of the prior lien is required.

(2) Prior liens will be paid by Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal." If the property is acquired subject to prior liens, payment of installments on these liens may be made while title to the property is held by the Government.

(3) The borrower, to the extent of his ability, must satisfy all junior liens on the property, (except FmHA liens) and taxes and assessments which are or will become liens on the property. However, the State Director may determine that payment by FmHA of the junior liens will better protect the Government's financial interests, considering all factors including the results of any delay from foreclosure. Consideration will be given to factors such as costs accruing during foreclosure, delay in ability to sell, and vandalism.

(4) If a mortgage has been taken on the property to further secure other FmHA loans, the borrower must sell all security not to be conveyed to FmHA and apply sales proceeds to the secured debts in order of their priority before the conveyance is closed. The word "property" as used in this paragraph (c) includes:

V 41 1152 AUG 5 76 UMI

(i) Items which are considered real estate,

(ii) Items which customarily pass with the real estate in the change of ownership, and

(iii) Any irrigation or other equipment such as bulk milk tanks, feed storage facilities, association equipment, or household furnishings which are normally considered chattel security if they are necessary for the successful operation of the farm or facility, will enhance the sale of the property, and are a part of the security for the loan involved in the conveyance.

(d) *Offer of voluntary conveyance.*—(1) *Documents required from borrowers.* Borrowers who offer to voluntarily convey property to FmHA should execute Form FmHA 465–4. In addition, a warranty deed on an FmHA-approved form or a deed meeting the requirements of § 1807.2(e) of this chapter (FmHA Instruction 427.1, paragraph II E) should be completed and signed at the same time as Form FmHA 465–4. However, it will not be recorded until voluntary conveyance is accepted. When the debt exceeds the value, a financial statement and information about present income is also required.

(i) If water rights are not fully conveyed in the deed, any assignments or transfers to the Government of water stock, membership certificates, or other water rights documents will be obtained when Form FmHA 465–4 is executed if possible, but not later than the recordation of the deed. These documents will be recorded, if required, in connection with closing the transaction.

(ii) A bill of sale in favor of the Government listing personal property items to be conveyed will be obtained.

(2) *Taxes.* If the offer on Form FmHA 465–4 does not obligate the borrower to pay taxes and assessments which are a lien or will become a lien on the property, or water assessments or charges to protect the right to receive water, the County Supervisor will complete Standard Form 1034 to pay such costs and submit it with the voluntary conveyance docket to the approval official. If voluntary conveyance is approved, the approval official will forward Standard Form 1034 to the Finance Office.

(3) *Acceptance of offer and release from liability.* If a borrower indebted for any loan offers to convey the property securing the loan to FmHA, the approval official will make or request an appraisal of the property to be conveyed to establish its present market value. This value is the amount for which the property in its existing condition would sell if put on the open market and sold in the way property is ordinarily sold in the community in which it is located. The present market value of the security property will be determined by an appraisal made by a qualified FmHA employee. If a qualified FmHA employee is not available to appraise property securing a loan other than farm and housing, the State Director may obtain an appraisal from a qualified appraiser outside FmHA; for property securing farm or housing loans, the Administrator must authorize an appraisal from a source outside FmHA. Offers made on Form FmHA 465–4 may be accepted as follows:

(i) *Section 502 or 504 RH loans to individuals under the Housing Act of 1949.* (A) The approval official will immediately accept the offer in full satisfaction of the FmHA debt, and will not consider the present market value as established by the appraisal of the property, after determining that the borrower has cooperated in good faith; used due diligence to maintain the property against loss; farmed in a workmanlike manner if engaged in a farming operation; and otherwise fulfilled the covenants of the loan to the best of his or her ability.

(B) The borrower's account will be satisfied in accordance with paragraph (j)(4) of this section after the transaction has been closed.

(C) If the approval official accepts the conveyance but determines that the borrower and any cosigner should not be released from personal liability for the balance owed on debts secured by the property being conveyed, the account will graph (j)(5) of this section after the transaction is closed. Borrowers will not be released from liability unless the cosigners and guarantors can also be released.

(ii) *Loans to individuals under the Consolidated Farm and Rural Development Act.* If the amount of the FmHA debt secured by a lien on the property, plus any prior liens, exceeds the present market value of the property, the County Committee must determine whether the borrower should be released from liability for any balance owed on the debt. In such cases, the recommendation of the County Supervisor and the Committee certification set forth in paragraph (d)(3)(ii)(C) of this section will be submtted with the borrower's loan docket and Form FmHA 465–4 to the approval official for consideration.

(A) If the present market value of the property is equal to or exceeds the FmHA debts and any prior liens against the security property, the borrower will be released from liability and the account satisfied in accordance with paragraph (j)(4) of this section.

(B) If the present market value of the property being conveyed is less than the FmHA debts plus any prior liens and the County Committee does not recommend a release from liability, the account will be handled as an unsatisfied account in accordance with paragraph (j)(5) of this section.

(C) If the present market value of the property being conveyed is less than the FmHA debts plus any prior liens, the County Committee must make the following certification if it is to recommend that the borrower and any cosigner be released from liability. The certification will be made on Form FmHA 440–2, "County Committee Certification or Recommendation," in the blank space following item No. 10:

> In our opinion (Name of Borrower(s)) and any cosigner) does not have reasonable ability to pay all or a substantial part of the balance of the debt owed after the voluntary conveyance, taking into consideration his or her assets and income at the time of the conveyance. The borrower has cooperated in good faith, used due diligence to maintain property against loss, and has otherwise fulfilled the covenants incident to the loan to the best of his or her ability. Therefore, we recommend that the borrower and any cosigner be released from personal liability for any balance due on the secured indebtedness upon conveyance of the property to the Government.

(iii) *Loans to organizations.* Release from liability for these loans will be in accordance with the following:

(A) If the present market value of the property being conveyed less the amount of the prior lien(s) is equal to or exceeds the total FmHA debt, the borrower will be released from liability and the account satisfied in accordance with paragraph (j)(4) of this section.

(B) If the present market value of the property less the amount of prior liens is less than the total FmHA debt, the State Director will determine whether the borrower is to be released from liability. This determination will be based upon the reasonable debt-paying ability of the borrower and recommendation of the County Committee. In determining the reasonable debt-paying ability of the borrower, the State Director will consider its assets and income at the time of the proposed conveyance. To recommend a release from liability, the County Committee must make a certification similar to the following which will be recorded on Form FmHA 440–2 in the blank space following item No. 10.

> In our opinion (Name of Borrower(s)) has no reasonable debt-paying ability taking into consideration its (his, her) assets and income at the time of the conveyance. The borrower has cooperated in good faith, used due diligence to maintain the security property against loss, and otherwise fulfilled the covenants incident to the loan to the best of its (his, her) ability. Therefore, we recommend that the borrower be released from personal liability due on the secured indebtedness upon conveyance of the property to the Government.

(e) *Unused loan funds and statement of account.* Any funds remaining in the supervised bank account will be applied as a refund on the loan before accepting the offer to convey. Form FmHA 451–10, "Request for Statement of Account" will be used to obtain a statement of account when a current transaction record or monthly payment account status report is not available.

(f) *Voluntary conveyance docket.* (1) The following tabulation will be used as a guide in distributing forms that apply to voluntary conveyance. These forms will be used as applicable for the type of loan involved.

FmHA No. and name of form	No. of copies	Signed by borrower	Voluntary conveyance docket
422–1, appraisal report (farm tract)	1		1—Original.
422–3, map of property	1		Do.
422–7, appraisal report for multiunit housing	1		Do.
422–8, property information and appraisal report—rural housing nonfarm tract.	1		Do.
431–2, farm and home plan	1	1—original	Do.
431–3, family budget	1	do	Do.
440–2, County committee certification or recommendation.	1		Do.
442–3, Balance sheet	2	2—original and copy	2—original and copy.
442–f0, appraisal report—water and waste disposal systems.	1		1
451–10, Request for statement of account	2		1—copy (original to finance office).
451–11, Statement of account	2		2—original and 1 copy.
465–2, Lease of security property	3		3—original and 2 copies
465–4, Offer to convey security	2	2—original and copy	2—original and copy.
465–8, Release from personal liability	2		Do.
Exhibit A, report on association problem case (association-type projects).	2		Do.
Exhibit B, report on association loan problem case (additional information for recreation loans).	2		Do.
Borrower's deed or other instruments of conveyance	2	2—original and copy	Do.
Water rights evidence	2	2—original and copy	Do.
Copy of resolution of the governing body authorizing the conveyance to the Government.			

(2) If the present market value of security property does not equal or exceed the total FmHA debt, and if the voluntary conveyance involves a release from liability, the County Supervisor will obtain a current financial statement and information about the present income of the borrower and any cosigner. If financial information cannot be obtained, the voluntary conveyance offer must be reviewed and approved by the District Director prior to acceptance. The County Supervisor will execute Form FmHA 465–8 after voluntary conveyance has been approved and the determination made to release the borrower from personal liability.

(3) For multiple housing facilities, the County Supervisor will, whenever possible, obtain a statement from the borrower as to any income or expenses related to the property which are due but unpaid for such as rent or lease proceeds, security deposits, and utility bills.

(g) *Title examination and closing instructions.*—(1) *Loans secured by real estate to individuals.* On accepting the borrower's offer, the County Supervisor will determine whether title clearance and closing of conveyance will be completed with the assistance of a designated attorney, title insurance company, or by another method, as outlined in a State Supplement. The County Supervisor will notify either the designated attorney or title insurance company to furnish title services in accordance with Part 1807 of this chapter, (FmHA Instruction 427.1). If the borrower is unable to pay the closing costs they may be paid by voucher (SF 1034) and charged to the borrower's account.

(i) Any title defects or encumbrances must be removed by the borrower except those stated in the FmHA mortgage or subsequently approved or waived by FmHA. If the borrower agrees to remove title defects or encumbrances as required, the title evidence will be submitted to the designated attorney or title insurance company by memorandum. The memorandum will contain a request for the preparation of necessary legal instruments, including any separate instruments of assignment (which will become effective when the deed is recorded) according to Form FmHA 465–4, and a request for a closing date. Form FmHA 465–4, the deed of conveyance, any water rights documents, the original or a conformed copy of the FmHA mortgage, any assignment instruments, and conformed copies of any remaining encumbrances such as mineral leases, agricultural leases, easements, rights-of-way, and partial releases will be attached.

(ii) The designated attorney or title insurance company will determine how any necessary notices of assignment of leases will be given to the lessees. When needed, the assistance of the Office of the General Counsel (OGC) will be obtained.

(2) *Loans to organizations.* (i) If the borrower's offer is accepted, title examination will be completed in accordance with the advice of OGC. The borrower will remove title defects and encumbrances except those stated in the FmHA mortgage or subsequently approved by FmHA.

(ii) When title defects and encumbrances have been removed or waived, the State Director will send the voluntary conveyance docket including the title examination information to OGC for review and issuance of closing instructions. The State Director's transmittal memorandum will include information as to expenses incident to conveyance of title which have been paid by FmHA but are not shown on the statement of accounts. It also will show expenses to be paid by FmHA, a statement as to whether the account is to be fully satisfied, and a request for preparation of necessary legal instruments that have not been prepared by the borrower.

(h) *Closing of conveyance.*—(1) *Individual loans secured by real estate.* (i) The State Director will issue a State Supplement with general guidelines when it will expedite closing voluntary conveyances. The voluntary conveyance will be closed in accordance with Part 1807 of this chapter (FmHA Instruction 427.1).

(ii) After the designated attorney, title insurance company, or OGC determines that the transaction has been properly closed, all documents will be returned to the County Supervisor with the notation of date when title to the property was vested in the Government. The County Supervisor will forward copies of Form FmHA 465–6 to the State Director and to the Finance Office. The County Supervisor will notify the District Director of completion of any conveyance which the District Director approved.

(2) *Loans to organizations.* The conveyance transaction will be closed in accordance with closing instructions issued by OGC. Expenses authorized to be paid by FmHA will be handled in accordance with FmHA Instruction 322.1, available in FmHA Offices. After the transaction is closed, all appropriate items will be returned to OGC for review. After OGC determines that the transaction has been properly closed, it will return all documents to the State Director indicating the date when title to the property was vested in the Government. The State Director will send this information to the Finance Office.

(3) *Property insurance.* Property insurance will be handled in accordance with § 1806.5(d) of this Chapter (FmHA Instruction 426.1, paragraph V D). Ordinarily fidelity bond coverage will be dropped. However, in individual cases such as when a manager will continue to operate the facility under a management agreement contract in accordance with § 1955.63(a)(2) and will be handling a substantial amount of revenue, the State Director may require a performance bond as a contract provision.

(i) *Determination of suitability of property.* Based on the recommendation of the County Supervisor, the approval official will make a written determination at the time of acquisition if such property is not suitable for sale to eligible applicants under he terms and conditions of Subpart C of this part.

(j) *Indebtedness and inventory records.*—(1) *Crediting borrower's account.* The credit to be entered on the borrower's loan records will be either:

(i) The total amount of the debt owed after all expenses have been charged to the account when the property is accepted in full satisfaction of the debt, or

(ii) The present market value of the security conveyed when the debt is not satisfied and the borrower is not released from personal liability for the remaining balance owed on the debt.

(2) *Completing Form FmHA 465–6, "Advice of Mortgaged Real Estate Acquired."* Immediately after the transaction is closed in accordance with the closing instructions and the amount of credit to be allowed on the account is determined, the County Supervisor will complete and send Form FmHA 465–6, top portion completed, to the Finance Office with a copy to the State Director. The value of acquired real property entered into the inventory account in all cases will be the present market value. The County Supervisor will inventory and appraise acquired personal property and submit a list of this property to the Finance Office with Form FmHA 456–6.

(3) *Leases.* (i) The County Supervisor will send a copy of any assigned agricul-

V 41 152 AUG 5 76 UMI

ture, mineral, or other lease on the property to the Finance Office with Form FmHA 465–6. If an oral lease on the property or on a portion of it existed, a new lease will be executed in writing on Form FmHA 465–2, "Lease of Security Property" or other form approved by OGC. The lessee and the County Supervisor (form FmHA lessor) will execute the form. The County Supervisor will assign a number to the lease. This number for an individual will consist of the FmHA State and County Codes, the last digit of the fiscal year, and a sequential number beginning with 001, e.g., 48–71–6001. Each fiscal year the sequential number will begin again with 001. For an organization or business it will be the FmHA State and County Code and Internal Revenue Service employer number. The County Supervisor will send a copy of the lease to the Finance Office. After assigning an advice number to Form FmHA 465–6, the Finance Office will advise the County Supervisor by memorandum, with a copy to the State Director, of such identification of the inventory property and lease.

(ii) The County Supervisor will collect payments due and payable after the Government inventory conveyance is closed and forward them to the Finance Office as miscellaneous collections in accordance with the FMI for Form FmHA 451–2. Receipts for collections made in accordance with this subpart will be issued to: "Lease proceeds from property formerly owned by (borrower's name and case number) and lease to (name of lessee)."

(4) *Satisfied account.* The Finance Office or the County Supervisor, as appropriate, will stamp the borower's note "Satisfied by surrender of security and release from liability," when the account is fully satisfied. The County Supervisor will release the lien of record and deliver the satisfied note to the borrower.

(5) *Unsatisfied account.* When the account is not satisfied and the debt cannot be settled according to Part 1864 of this Chapter, the borrower will be classified as "collection-only" by processing Form FmHA 404–1, "Case Reclassification," and Form FmHA 450–10, "Advice of Borrower's change of Address or Name," and submitting them to the Finance Office with Form FmHA 465–6. The remaining amount will be accelerated by written notice. The Finance Office will send the county Supervisor a current transaction record. The loan record card will be reconciled with the transaction record or Form FmHA 451–11 and the account serviced for collection in accordance with § 1861.1(b) of this chapter (FmHA Instruction 451.1, paragraph I B). In such cases, the FmHA mortgage will be released of public record, but not satisfied. The type of release will be prescribed by a State Supplement approved by OGC.

§ 1955.11 Conveyance of property to FmHA by trustee in bankruptcy.

(a) *Authority.* With the advice of OGC, the State Director is authorized to accept a conveyance of property to the Government by the borrower's trustee in bankruptcy: *Provided,*

(1) The conveyance will permit a substantial recovery on the FmHA debt.

(2) FmHA will acquire title free of all liens and encumbrances except FmHA liens.

(b) *Fees and deeds.* (1) FmHA may pay any necessary and proper fees, except a fee to the trustee for a deed, in connection with the conveyance. Before paying a fee for a trustee's deed, prior approval of the Administrator must be obtained. The State Director will use Standard Form 1034 to pay such fees.

(2) Conveyance may be by a trustee's deed instead of a warranty deed. If required by OGC, a deed from the borrower also will be obtained.

§§ 1955.12–1955.14 [Reserved]

§ 1955.15 Foreclosure of loans secured by real estate.

Foreclosure will be recommended when liquidation has been decided upon; all reasonable attempts to liquidate the loan through sale, transfer, or voluntary conveyance have been exhausted; and either a net recovery can be obtained on the FmHA account or failure to foreclosure would adversely affect the FmHA program in the area, (e.g.) by providing example of nonenforcement of obligations to FmHA.

(a) *Authority*—(1) *Individual loans.* The State Director is authorized to approve foreclosures and to execute any necessary documents except when the amount of the secured debt exceeds the loan approval authority of the State Director.

(2) *Organization loans.* (i) The State Director is authorized to approve all foreclosures of EOC loans. He may also approve foreclosure of RRH, RCH, RHS, LH, Shift-in-land-use, Irrigation and Drainage, and Indian Tribes and Tribal Corporations loans when the amount of the secured debt does not exceed his loan approval authority.

(ii) For all other organization loans, foreclosure will not be started without prior authorization of the Administrator. The State Director will forward the docket, a Report on Association Problem Case (Association-Type Projects) and a Report on Association Loan Problem Case (Additional Information for Recreation Loans), a copy of the OGC opinion outlining steps necessary to foreclose the loan if appropriate, a statement of essential facts, and his recommendation to the Administrator, Attention: (insert appropriate title) Program Loan Division, requesting authority to begin foreclosure.

(b) *Problem case report.* If foreclosure is recommended Form FmHA 465–7, "Report on Real Estate Problem Case," or Exhibit A of this subpart, as appropriate, will be completed. The problem case report or attachment to the report will contain the County Supervisor's recommendations as to the suitability of the property for retention in FmHA programs. It will also contain the County Committee recommendations for foreclosing FO, SW, RL, LCD, OL, EM, and Economic Opportunity (EO) loans. If chattel security is involved, Form FmHA 455–1, "Request for Legal Action," and Form FmHA 455–2, "Evidence of Conversion," when appropriate, providing necessary supplementary information, will be attached to the problem case report.

(1) *Appraisal report.* The County Supervisor will submit a current appraisal report with the problem case report if the existing report cannot be relied on for determining the present market value of the security property. For organization loans, the County Supervisor will request assistance from the State Office in completing the report.

(2) *Recommendation for deficiency judgment.* If it appears that proceeds from the foreclosure sale will not fully satisfy the debts secured by the property, the County Supervisor will review the borrower's situation to determine if there is a possibility of making a further recovery on the account. The facts revealed by this review should be included in or attached to the problem case report. When judicial or nonjudicial foreclosure does not automatically result in a deficiency judgment and there are other assets from which a substantial recovery can be made, the State Director will request OGC to obtain such judgment if legally permissible. No deficiency judgment may be sought if the borrower has received a moratorium on payments as provided for in § 1861.10 of this chapter (FmHA Instruction 451.1, paragraph X) when that moratorium was obtained on the Section 502 or 504 RH loan being foreclosed and the borrower has faithfully tried to meet loan obligations.

(3) *Submission of file to State Director.* The County Supervisor will submit the problem case report, the County Office case file, and recommendations, to the State Director through the District Director. The District Director will attach his recommendation and forward the file to the State Director.

(c) *Foreclosure not approved.* The State Director or other employee authorized to act for the State Director in his absence may disapprove a foreclosure request. This authority may not be redelegated. If foreclosure is not approved, the State Director will instruct the County Supervisor on future servicing of the account. The original of the problem case report will be forwarded to the County Supervisor, a copy retained in the State Office, and a copy sent to the District Director.

(d) *Approval of foreclosure.* The State Director or other employee authorized to act for the State Director in his absence may approve a foreclosure request. This authority may not be redelegated. When foreclosure is approved, the State Director will forward to the County Supervisor any title information or evidence of ownership of water rights held in the State Office. The foreclosure will be completed as follows:

(1) *Prior lienholders.* If there is a prior lien(s) and foreclosure is determined necessary, the State Director will contact the prior lienholder, either directly or through the County Supervisor, and give the prior lienholder an opportunity to foreclose.

(i) If the prior lienholder is unable or unwilling to foreclose, FmHA will foreclose, either subject to the prior lien or paying the prior lien in full. Factors such as the rights of the prior lienholder under State law and the action or inaction of the prior lienholder will determine whether the FmHA mortgage may be foreclosed subject to the prior lien. The condition of the prior lien account and the amount of the prior lien debt in relation to the total debt are factors to consider in determining whether FmHA foreclosure should be subject to the prior lien or whether the prior lien should be paid in full.

(ii) If the prior lienholder agrees to foreclose, the State Director will contact the prior lienholder to determine whether a cash payment is required on the date of the sale, or whether a Standard Form 1034 may be processed on the date of the sale for payment at a later date if the Government is successful bidder. If the prior lienholder requires a cash payment, the State Director will process Standard Form 1034 for the amount of the prior lien debt including the cost of foreclosure, in sufficient time for the County Supervisor to receive a U.S. Treasury check before the sale.

(2) *Acceleration of account.* When the State Director approves forced liquidation, the account should be accelerated immediately and the borrower notified through use of a notice of acceleration substantially similar to the one shown as Exhibit C to this subpart. This notice not only accelerates the account but also gives the borrower an opportunity to meet with the District Director before any foreclosure procedures are commenced. It should be used regardless of whether the foreclosure contemplated will be judicial or nonjudicial. State Supplements may be issued to specifically set forth the exact contents of the notice to be used in a particular State if State laws require different or additional language.

(i) Accelerations involving monetary defaults will be handled as follows:

(A) The borrower will be given at least 20 calendar days but not more than 40 calendar days from the date the notice of acceleration is prepared and mailed by the State Director to make full payment of his account.

(B) The notice of acceleration should be sent by certified mail with a return receipt requested and should be addressed to the borrower at his latest address as shown in the official records of the Finance Office as well as to his last known address, if different than the one in his official records.

(C) The State Director will also forward a conformed copy of the notice to the County Supervisor along with any necessary instructions. One conformed copy should also be sent to the District Director because he is designated to hold the meeting with the borrower if the borrower requests one.

(D) A copy of Form FmHA 465–7 will be retained in the State Office and a copy will be forwarded to the District Director. Thereafter, regardless of any State law to the contrary, the County Supervisor will not accept payment of less than the full amount of the indebtedness after acceleration but will notify the State Director of any such offer and ask for instructions. The State Director may then request OGC for advice on how to proceed. If any payments insufficient to pay the entire indebtedness, or insufficient to comply with any arrangements agreed to between the FmHA and the borrower, are mistakenly accepted and credited to the borrower's account, no waiver or prejudice to any rights which the United States may have for breach of any promissory note or covenant in the real estate instruments will result and the Farmers Home Administration may proceed as though no such payment had been made.

(ii) For all types of defaults other than monetary defaults, the account will not be accelerated until reviewed by OGC. In such cases a State Supplement will prescribe the information to be assembled and sent to OGC. If OGC advises that there is an adequate ground for the acceleration, then the State Director should proceed as outlined above.

(iii) When the borrower is presently in the Armed Forces of the United States and FmHA has not received a waiver from the borrower waiving his rights under the Soldiers and Sailors Relief Act, but was not when the loan was closed, the acceleration notice will not be prepared until clearance is obtained from OGC.

(3) *Opportunity for a meeting after the notice of acceleration is received.* Any borrower who has received the notice of acceleration provided for in paragraph (d)(2) of this section may dispute the acceleration of his account and the decision to foreclose by writing to the District Dirtctor as outlined in the notice of acceleration. The borrower may also request a meeting with the District Director to discuss the matter, providing the borrower requests a meeting before the date stated in the acceleration notice when payment was due. The procedure for such a meeting will be as follows:

(i) The District Director, upon receipt of the borrower's request for a meeting, will promptly arrange a mutually convenient time for such a meeting. He will request the case folder from the State Director. He will also inform the borrower of the location of the meeting. It will either be in the County Office or the District Office.

(ii) The meeting will be an informal proceeding. The borrower will be given an opportunity to demonstrate why he believes the United States is in error in accelerating his account and deciding to foreclose. The borrower may be represented by counsel at the meeting.

(iii) The meeting will not include the presentation of evidence by FmHA. Technical rules of evidence shall not apply.

(iv) The record of the meeting shall include the acceleration notice as well as accelerated repayment agreement, if any, the borrower's written request for the meeting, any written evidence in the possession of the Government or adduced by the borrower and bearing on the acceleration issue, and a summary of any oral evidence presented at the meeting. The summary will be prepared by FmHA.

(v) After considering the borrower's position as presented, the District Director will submit the record of the meeting and the case folder along with his findings and recommendations as to whether or not FmHA should proceed with the foreclosure to the State Director. This submission should be made as soon after the meeting as possible but no later than 15 calendar days after that date.

(A) If the State Director decides that the decision to accelerate was incorrect, he will inform the borrower in writing no later than 30 calendar days after the date the meeting was held and as set forth in paragraph (d)(17) of this section. The State Director will then have the borrower's loan account reinstated and so inform the Finance Office.

(B) If the State Director decides that the acceleration is justified, he will inform the borrower in writing no later than 30 calendar days after the date the meeting was held. The foreclosure process will then continue and the borrower will be advised that foreclosure will be immediately commenced.

(C) The State Director's decision in either regard is final.

(vi) If the borrower fails to appear at the meeting after being duly notified of the time and place for it and if he does not have reasonable cause for this failure, he shall be deemed to have waived the right to a meeting.

(4) *Unused loan funds.* The State Director will forward an order through the County Supervisor to the bank for withdrawal of any funds remaining in the supervised bank account in accordance with § 1803.11 of this chapter (FmHA Instruction 402.1, paragraph XI). The County Supervisor will apply these funds in accordance with § 1861.5 of this chapter (FmHA Instruction 451.1, paragraph V).

(5) *Statement of account.* When a current transaction record is not available or a statement of account is required for foreclosure, Form FmHA 451–10 will be forwarded to the Finance Office to obtain a statement of account for each account to be included in the foreclosure. The Finance Office will not apply any payments to the account until further notice. If any payments are mistakenly applied to the account, the effect of the application will be as outlined in paragraph (d)(2)(i)(D) of this section.

(6) *Forwarding docket to OGC.* If a borrower fails to satisfy the account during the period provided in the acceleration notice, the State Director will:

(i) Request the Director, Finance Office, if the note is not held in the County Office, to send the original note, a photocopy, or statement that the note is held in the insurance fund, as appropriate, to the State Director.

(ii) Forward the borrower's case folder, including a photocopy of each FmHA note, any assumption or cosigner agreements, and such additional information and copies as appropriate, to OGC for instructions to complete foreclosure or, with prior approval of the Administrator, handle the matter as provided in a State Supplement approved by

V 41 152 AUG 5 76 UMI

OGC. The expiration date of the property insurance will be indicated so that OGC will know that an additional cost will be incurred if the sale is not completed before the expiration date. Also, any title evidence required by OGC will be submitted at that time so that they can give an opinion as to whether FmHA will obtain a title merchantable in fact if it is the successful bidder. On receiving advice from OGC, the County Supervisor will prepare and submit Standard Form 1034 to the Finance Office for payment of all real estate taxes and assessments, including water assessments, which are due and payable. When required by OGC, request a current statement of account or transaction record which reflects the amount of vouchers processed in connection with the foreclosure. A copy of the account or transaction record will be sent to the State Director.

(iii) Ordinarily, take no curative action with respect to title defects before foreclosure sale. However, the State Director may authorize necessary curative action if he determines, with the advice of OGC, that it would be in the best interest of FmHA to cure certain defects before the sale.

(iv) In nonjudicial foreclosure cases, the State Director will send the notice of sale to the borrower in the same manner and to the same address(es) as the notice of acceleration. If the State Director has learned of a new address at which the borrower may be residing, he will also send a copy of the notice of sale to that address.

(v) Request, through OGC, in judicial foreclosure cases, that the U.S. Attorney petition the court to enforce the provision in the mortgage in which the borrower waives redemption rights.

(7) *Nondiscrimination.* Title VI of the Civil Rights Act of 1964 applies to any real property that was subject to this title when Federal financial assistance was extended and that continues to be used for the same or similar purposes. The advertisement of foreclosure sale for such property should include a statement that the property is subject to Title VI of the Civil Rights Act of 1964 and that the purchaser will be required to sign Form FmHA 400–4, "Nondiscrimination Agreement," if he intends to use the property for its original or similar purposes.

(8) *Expenses.* Expenses which OGC recommended for payment by FmHA will be paid in accordance with FmHA Instruction 121.3, FmHA Instruction 121.6, and FmHA Instruction 322.1 (available in FmHA Offices), as appropriate.

(9) *Maximum bid.* The State Director will establish the maximum amount of the FmHA bid. Such bid will be either the present market value of the security or FmHA gross investment, whichever is less.

(i) The present market value of the security property will be determined by an appraisal made by a qualified FmHA employee. If a qualified FmHA employee is not available to appraise property securing a loan other than farm and housing, the State Director may obtain an appraisal from a qualified appraiser outside FmHA; for property securing farm and housing loans, the Administrator must authorize an appraisal from a source outside FmHA.

(ii) In establishing the present market value, the State Director will consider:

(A) The effect that any outstanding mineral rights, easements, other interests, or title defects will have on the resale of the property;

(B) Any prior liens that will remain outstanding after the foreclosure sale; and

(C) The appraisal report, the County Supervisor's recommendation concerning suitability of the property for FmHA programs, and any other pertinent information affecting or indicating the value.

(iii) Gross investment means the amount of the FmHA secured debt including all advances made or to be made by FmHA and charged to the account. It also includes the amount of any prior liens or other costs which OGC advises must be paid from proceeds of the foreclosure sale before paying the FmHA secured debts.

(10) *Bidding.* The State Director or a person designated by him is authorized to bid on behalf of FmHA. In appropriate cases the State Director may request through OGC that the U.S. Marshall be designated. The State Director will inform the County Supervisor by memorandum as to the maximum amount to be bid and the name of the person authorized to bid. The State Director will also indicate whether the property is suitable for retention in the FmHA program. A copy of this memorandum will be sent to OGC. An employee of FmHA may not bid for himself nor have someone bid for him.

(i) Ordinarily, the State Director will designate the County Supervisor to bid on behalf of FmHA unless circumstances make it necessary or desirable to designate another person. In judicial foreclosure, OGC will be requested to inform the U.S. Attorney of the maximum amount recommended by FmHA to be bid and in appropriate cases that an FmHA employee will be available at the sale to make the bid.

(ii) Where FmHA is the senior lienholder, the person authorized by FmHA will make only one bid and that will be for the authorized maximum bid. This bid will be made when no other party makes a bid or when the last bid made will result in the property being sold for less than the authorized maximum bid.

(iii) When FmHA is not the senior lienholder, the State Director may authorize the person bidding on behalf of FmHA to make incremental bids in competition with other bidders. The State Director will inform the person bidding of the openning entry bid, bidding increments, and maximum bid.

(11) *Reports on sale.* Immediately after a foreclosure sale at which FmHA bids, the person authorized to bid will furnish the State Director a report about the sale. The State Director will send a copy of the report to OGC. When OGC receives this report or a report from the U.S. Attorney in judicial foreclosure, this report will serve as request to OGC to send to the County Supervisor through the State Director instructions for completing the transactions or a final title opinion, as appropriate.

(12) *Completion of Form FmHA 465–6.* If FmHA is the successful bidder at the foreclosure sale, the County Supervisor will complete and forward the top portion of Form FmHA 465–6 to the Finance Office. The form will be completed without waiting for the final report on acquired property from OGC and will be dated as of the day of the sale.

(13) *Appraising personal property.* The County Supervisor will inventory and appraise personal property acquired at the foreclosure sale with the real estate and submit a list of such items to the Finance Office with Form FmHA 465–6. A copy of the list will be sent to the State Director.

(14) *Leases.* If the sale is made subject to an agricultural, mineral, or other lease in which the lessor's interest is acquired by FmHA through the sale, the County Supervisor will submit a copy of the lease to the Finance Office with Form FmHA 465–6. If a lease terminated on act of sale, a new lease may be considered as provided by § 1955.63(a)(1). For lease numbering see § 1955.10(j)(3).

(i) Any oral lease in effect at the time the Government acquires the property will be reduced to writing on Form FmHA 465–2 or other form approved by OGC. If a written lease cannot be obtained, request assistance from OGC. The lessee and County Supervisor (for FmHA lessor) will execute the form. The County Supervisor will notify any lessee in writing that the Government has acquired the former lessor's rights under any lease and will direct the lessee to remit all payments to the County Supervisor.

(ii) Payments to FmHA under a lease which were due and payable before the date of the foreclosure sale will be applied first on any balance remaining on the debt after foreclosure and then on any other FmHA claim against the borrower. Any surplus remaining will be remitted to the borrower.

(iii) The County supervisor will collect payments due and payable after the date of foreclosure and forward them to the Finance Office as miscellaneous collections in accordance with the FMI for Form FmHA 451–2.

(iv) Receipts for collections made in accordance with this subpart will be issued to: "Lease proceeds from property formerly owned by (borrower's name and case number) and leased to (name of lessee)."

(15) *Deficiency judgment.* (i) If a deficiency judgment is obtained in accordance with paragraph (b)(2) of this section, the account will be classified as a judgment case and the County Supervisor will send Form FmHA 455–20, "Notice of Judgment," to the Finance Office. The account will be serviced in accordance with § 1871.35(d) of this chapter (FmHA Instruction 455.1, paragraph XV D). When action to obtain a deficiency judgment is pending at the time Form FmHA 465–6 is sent to the Finance Office, the action will be indicated on the form.

(ii) If a deficiency judgment is not obtained and the debt cannot be settled under Part 1864 of this chapter (FmHA Instruction 456.1), the County Supervisor will submit Forms FmHA 404–1 and FmHA 450–10 to the Finance Office to reclassify the account to collection only in accordance with FmHA Instruction 450.5, available in FmHA Offices.

(16) *Property insurance.* Property insurance will be handled in accordance with Subpart A of Part 1806 of this chapter, (FmHA Instruction 426.1).

(17) *Cancellation of foreclosure action.* If the State Director determines that circumstances have changed and foreclosure is no longer necessary, he may stop foreclosure and reinstate the loan account if the case has not been sent to OGC. If the case has been sent to OGC, he may request OGC to stop foreclosure. The State Director will reinstate the loan account after he is notified that foreclosure has been stopped. In either case, the borrower, County Supervisor, Finance Office, and OGC, if previously consulted, will be informed of any actions taken.

§§ 1955.16–1955.19 [Reserved]

§ 1955.20 Acquisition of chattel security and Economic Opportunity (EO) loan property.

(a) *Acquiring chattel property.* Acquired chattel property is former FmHA chattel security or EO loan property that FmHA has acquired title to through bidding at any of the following types of sales or by simple conveyance from the borrower.

(1) Execution sales conducted by marshals, sheriffs, or other parties acting under court orders to satisfy judgment liens.

(2) FmHA foreclosure sales conducted by U.S. Marshals (or local sheriffs in those States in which State Supplements provide for sales to be conducted by them).

(3) Sales by trustees in bankruptcy and other officials under court orders.

(4) Public sales conducted by prior lienholders.

(5) Public sales conducted under the terms of Form FmHA 455–4, "Agreement for Voluntary Liquidation of Chattel Security," Form FmHA 441–19, "Loan Agreement," the power of sale in security agreements, or the power of sale in crop and chattel mortgages, and similar instruments if authorized by State Supplement.

(b) *Attending sales.* The County Supervisor will:

(1) Attend all sales set forth in paragraph (a)(5) of this section.

(2) Attend public sales described in paragraph (a)(4) of this section when he determines the present market value of the chattel property is significantly more than the amount of the prior liens.

(3) Obtain the advice of the State Director on attending sales described in paragraphs (a) (1), (2), and (3) of this section.

(c) *Appraising chattel property.* The County Supervisor will determine the present market value of chattel property. Form FmHA 440–21, "Appraisal of Chattel Property," may be used to make the appraisal.

(d) *Bidding.* The County Supervisor is authorized to bid at sales described in paragraph (a) of this section. The County Supervisor will make one bid, which will not exceed the present market value of the property or the unpaid balance of the FmHA debt, whichever is less. This bid will be made only when no other party bids or when it appears that the bidding will stop and result in the property being sold for less than its present market value or the unpaid balance of the FmHA debt, whichever is less.

(1) The County Supervisor will not bid on any chattel property under prior lien(s) when the present market value of the property is not significantly more than the amount of the prior lien(s).

(2) In complicated cases such as those in which FmHA holds a junior lien on several items of chattel property, or a lien on fixtures, etc., the County Supervisor may obtain advice from the State Director about the procedure to follow in bidding.

(3) The County Supervisor will not bid after sufficient chattel property has been sold and/or acquired to repay the FmHA debt, prior lien(s), and costs of sale.

(4) Under no circumstances will any FmHA employee bid on or acquire property at sales except in behalf of FmHA.

(5) The County Supervisor will not bid at:

(i) Sales held by junior lienholders.

(ii) Private sales.

(iii) Sales conducted under the provisions of Form FmHA 455–3, "Agreement for Public Sale by Borrower".

(e) *Reporting acquisition of chattel property.* Parts I and II of Form FmHA 455–13, "Report of Sale of Chattel Security" will be completed in accordance with the Forms Manual Insert.

CERTIFIED MAIL RETURN RECEIPT REQUESTED

SUBJECT: NOTICE OF ACCELERATION OF YOUR DEBT TO THE FARMERS HOME ADMINISTRATION, DEMAND FOR PAYMENT OF THAT DEBT, AND NOTICE OF YOUR OPPORTUNITY TO HAVE A MEETING CONCERNING THIS ACTION

DEAR _____: Please take note that the entire indebtedness due on the following Promissory Note(s) dated _____ which you signed and gave to the United States of America in exchange for loan funds received by you from the United States of America, acting through the Farmers Home Administration, United States Department of Agriculutre, and which is (are) secured by your Real Estate _____ dated _____, recorded in Book _____, Page _____, is now declared immediately due and payable.

The reason(s) for this acceleration of your indebtedness is (are) as follows:

This acceleration of your indebtedness is made in accordance with the authority granted in the above-described real estate instrument.

The indebtedness due amount to $_____ unpaid principal, and _____ unpaid interest, as of _____ 19—, plus additional interest accruing at the rate of $_____ per day thereafter, plus any advances to be made by the United States for the protection of its security, plus interest accruing on any such advances.

Unless full payment of your indebtedness is received on or before _____, the United States will take action to foreclosure the above-described real estate instrument and to pursue any other available remedies.

Payment should be made by cashier's check, certified check, or postal money orders, to the County Supervisor of the Farmers Home Administration.

If you submit to the United States any payment insufficient to pay the entire indebtedness or insufficient to comply with any arrangements agreed to between the Farmers Home Administration and yourself,

V 41 152 AUG 5 76 UMI

such payments will not cancel the effect of this notice. If such insufficient payments are received and credited to your account, no waiver or prejudice to any rights which the United States may have for breach of any promissory note or covenant in the real estate instrument will result and the Farmers Home Administration may proceed as though no such payment had been made.

[The above-described real estate instrument provides that the United States may foreclose without Court action by selling the real estate at public sale after

The Government intends to sell the property in this manner. No further notice is required to be given you concerning this foreclosure.]

However, you have the opportunity to have a meeting before this foreclosure takes place. If you wish to make use of this opportunity to meet because you believe that the United States is in error in accelerating your account(s) and proceeding with the foreclosure, you should immediately contact the District Director of the Farmers Home Administration in writing at the following address:

You should set out all the information you believe should be considered by the Farmers Home Administration. You may also request to appear in person to present your information. The District Director will arrange a mutually convenient time for such a meeting. The District Director will also inform you of the location of the meeting. It will either be in the County Office or the District Office.

Please remember that if you wish to take advantage of this opportunity to be heard, you may immediately contact the District Director because the United States plans to proceed with the foreclosure proceedings shortly after

Subpart B—Management of Property

§ 1955.51 Purpose.

This subpart delegates authority and prescribes policies and procedures for management of acquired real estate, related rights, and chattels and management of real estate after approval of foreclosure but before it is acquired.

§ 1955.52 Policy.

The Farmers Home Administration (FmHA) will manage acquired property and abandoned property pending completion of foreclosure to preserve its value and protect FmHA's financial interest. Acquired property will be sold in accordance with Subpart C of this Part 1955. Contracts for services may be made as needed in the management of property not to exceed the limitations under this subpart, when the services cannot be performed by FmHA personnel.

§ 1955.53 Definitions.

(a) *Definitions found in § 1955.3.* The definitions for "acquired real estate," "loans to individuals," and "loans to organizations" also apply to this subpart.

(b) *Contracting officer.* The FmHA employee who signs the contract.

§ 1955.54 Authorities and responsibilities.

(a) *Line authority.* This authority is from the Administrator to State Director, District Director, and County Supervisor. Assistance, guidance, and counsel are available from the Property Management Specialist and Program Staff in the State Office and from appropriate program divisions and Property Management Staff in the National Office. Full use will be made of these resources.

(b) *Redelegation of authority.* FmHA will redelegate authorities to the maximum extent possible consistent with program requirements and available resources.

(1) The State Director is authorized to redelegate, in writing, any authority delegated to the State Director in this subpart except where specifically excluded to the Chief, Property Management; Chief, Rural Housing; Chief, Farmer Programs; Chief, Community Programs; Chief, Business and Industry; Rural Housing Specialist; Farmer Programs Specialist; Property Management Specialist; Community Programs Specialist; and Business and Industry Specialist.

(2) The County Supervisor is authorized to redelegate, in writing, any authority delegated to the County Supervisor in this subpart to any employee in the County Office determined by him or her to be qualified.

§ 1955.55 Management of real estate after approval of foreclosure.

After foreclosure has been approved and if the borrower has abandoned or is not maintaining the security property, the County Supervisor will report the facts to the State Director immediately.

(a) *No prior lienholders.* If there are no prior liens and the State Director determines that foreclosure proceedings will be lengthy, the State Director may authorize the County Supervisor to take possession of the property, make necessary repairs, and enter into a lease, management agreement, or caretaker's agreement for the account of the borrower when necessary to protect the interest of the Government. The State Director will obtain prior authorization from the Office of the General Counsel (OGC) if the case has been submitted to them for foreclosure, or if there is a question as to whether or not the property has, in fact, been abandoned, or if the borrower is on the property but not maintaining it.

(b) *Prior lienholders.* If there are prior liens, the County Supervisor will contact the prior lienholder to determine what the lienholder plans to do to protect the security. If the prior lienholder does not respond or will not protect the property, the State Director may authorize the County Supervisor to take appropriate steps as set forth in paragraph (a) of this section, and in accordance with the security instrument.

(c) *Costs and income.* Any cost for protective advance (e.g., emergency repairs or other expenses made to protect the Government's interest as provided in the security instrument) FmHA has undertaken not paid by a prior lienholder will be paid by Standard Form 1034, "Public Voucher for Purchases and Services Other Than Personal," or other approved voucher, and charged as an expense to the borrower's account. Income to the extent of protective advances or income not claimed by a prior lienholder will be applied to the borrower's account as an extra payment.

§§ 1955.56–1955.59 [Reserved]

§ 1955.60 Acquired real estate subject to redemption.

If acquired real estate is subject to redemption rights, the State Director, with the advice of OGC, will instruct County Supervisors in the care and management of such property during the redemption period. These instructions may be given in a State Supplement or in individual cases, and will provide guidance concerning the former borrower's rights to possess the property or to obtain any lease proceeds during the redemption period. They will also cover action such as payment of taxes, maintenance, and repairs. If the former borrower under redemption rights possesses the property or has a right to lease proceeds, the Government will not enter into any lease until the redemption period has expired unless the State Director obtains prior authorization from OGC.

§ 1955.61 Property in flood or mudslide hazard area.

Acquired property located in areas identified by the Federal Insurance Administration of the Department of Housing and Urban Development as special flood or mudslide hazard areas will not be leased or operated under a management agreement without prior written notice of such hazard to the prospective lessees. The written notice will be completed and signed by the County Supervisor and the prospective lessee or the manager and any prospective lessee if the property is operated under a management agreement in accordance with § 1955.63(a)(2) at least 1 day before the

lease is signed. The written notice will be attached to the lease.

§ 1955.62 Removal and disposition of nonsecurity personal property not acquired by FmHA.

If the Government has acquired title to the real estate and the former borrower has vacated the property but left items that did not pass with the real estate such as furniture, personal effects, or chattels not included in the FmHA or any other mortgage, the County Supervisor will, except as amplified by an applicable State Supplement, handle the case as follows:

(a) If the former borrower is available in the area, the County Supervisor will notify the former borrower informally (in person or by telephone) that the personal property should be removed from the premises within a specified time, usually 10 days. The County Supervisor will keep a written record including date of notification, and the former borrower's response.

(b) If the former borrower or someone authorized to act for him does not remove the personal property within the specified period, the County Supervisor will check the appropriate public records to determine if a creditor has a lien on any of the personal property. The County Supervisor will notify any lienholder by certified letter, return receipt requested, that the property will be impounded and disposed of by FmHA if it is not removed from the premises in 5 days from receipt of letter. The notice should contain a request that the lienholder notify the County Supervisor whether the lienholder will take possession of the property.

(c) In all cases, either following informal notice to the former borrower or formal notice to the lienholder, or both, the County Supervisor will notify the former borrower by certified letter, return receipt requested, that the property, unless it is removed within 5 days from receipt or refusal of letter, will be disposed of by FmHA.

(d) If no response is received from the former borrower or the lienholder after notification by certified mail in accordance with paragraphs (b) and (c) of this section, the County Supervisor will prepare a list of items showing their complete description, estimated value, and any lienholder of record and submit it to the State Director recommending removal and disposal of the property. Based on advice from OGC, the State Director will provide instructions for the removal and disposal of the property. If approved by OGC, the property may be disposed of by the County Supervisor as follows:

(1) If a reasonable amount can likely be realized from the sale of the property, the property may be sold at public sale and the net proceeds up to the amount of the prior lien, after deducting all expenses incurred by the Government, will be paid to the lienholder with a statement listing items sold and their sale price. If there is no lienholder, the amount will be applied to the deficiency. Also, any excess after payment to the lienholder will be applied to the deficiency on the borrower's account. If there is no deficiency, the amount will be paid to the former borrower. A statement listing the items sold, the sale price, and the distribution or proceeds will be mailed to the borrower at his or her last known address.

(2) If the property is not worth selling, a mover may be authorized to take the property in exchange for his removing cost, or, if necessary, payment by voucher can be made for removing the property.

(e) The County Supervisor will allow the former borrower or lienholder to reclaim the personal property before its disposal by paying all expenses incurred by the Government in caring for the property.

§ 1955.63 Management of acquired real estate.

Acquired real estate includes real estate and any growing crops, improvements, appurtenances, and rights that customarily pass with the land; inventory acquired as part of a business; and other property that is necessary to the efficient operation of the real estate or business and that is usually sold with the real estate.

(a) *Methods of managing property.* Acquired real estate will be sold promptly pursuant to Subpart C of this Part 1955. If the property cannot be sold promptly, it may be leased or operated under a management agreement or protected under a caretaker's agreement, as appropriate, to best protect the interests of the Government. In certain cases such as when there are no buildings on the property or they have been adequately secured, the County Supervisor may require no outside services. The State Director will select the best method of managing property previously securing organization or multiple housing loans; the County Supervisor will select the best method for managing property that formerly secured single-family housing and all other loans to individuals.

(1) *Lease.* Criteria to consider in selecting a lessee will be: potential as an eligible applicant, ability to preserve the property, affect on future sales value of property, and rental income.

(i) *Lease form.* Form FmHA 465–2, "Lease of Security Property," or other form approved by OGC will be used to approve the leasing of inventory property. If the property is subject to redemption rights, the lessee must be so advised and must so acknowledge in writing prior to signing the lease. The County Supervisor will assign a contract number to the lease. For an individual, it will consist of the FmHA State and County Codes, the last digit of the fiscal year, and a sequential number beginning with 001, e.g. 48–71–6–001. Each fiscal year the sequential number will begin with 001. For an organization or business it will be the FmHA State and County Codes, the last digit for the fiscal year, and the Internal Revenue Service employer number of the lessee. The lease form will be completed and distributed in accordance with the Forms Manual Insert (FMI).

(A) *Single family and multiple housing property.* The County Supervisor may approve the leasing of single family dwellings. In leasing living units of multiple housing facilities, the County Supervisor will submit Form FmHA 465–2 and recommendations for leasing the property to the State Director for approval. The terms of the lease will provide for cancellation by the lessee or the Government on 30-day notice in writing. The State Director must approve the leasing of multiple housing property. After approval, the County Supervisor may sign individual leases for living units.

(B) *Farm property.* The County Supervisor may approve the leasing of farm property on Form FmHA 465–2. The terms of the lease will provide that the Government may terminate for purposes of sale of property, but in that event the lessee will retain the right to harvest existing crops. Rental payment will be prorated between the Government and the purchaser of the property. The County Supervisor will report all leased land to the local Agricultural Stabilization and Conservation Service (ASCS) County Office. The report will be in sufficient detail to permit ASCS to identify the property and to preserve its allotments. Any change in ownership or in the lease will be reported to ASCS during the month in which it occurs.

(C) *Organization property (property previously securing Organization loans).* The State Director will approve the lease of organization property. The County Supervisor will forward a complete report and recommendation to the State Director along with Form FmHA 465–2 or other lease form approved by OGC. The lease will provide for cancellation by the lessee or the Government by written notice. The lease period will be up to 1 year and can contain provisions for not more than two renewal periods of like length. Leases of utility property may require concurrence or approval by State regulatory agencies. Consult OGC for advice.

(ii) *Costs.* (A) Costs such as real estate taxes if appropriate and repairs will be paid by the Government and not the lessee. Such costs will be considered in establishing the rents payable under the lease.

(B) The Government will not pay operating costs for leased property. If it is customary in the area for the landlord to pay a portion of the operating costs of the property, rents payable to the Government under the lease may be reduced to compensate for the additional costs paid by the lessee.

(iii) *Lease Income.* All lease income will be credited to the lease account.

(2) *Management agreement.* A management agreement is a contract and must be approved by the State Director. Such an Agreement may be used for managing property such as rental housing units, groups of single family housing units, manufacturing facilities, recrea-

V 41 1152
AUG 5 76
UMI

tion complexes, and water and waste disposal systems: *Provided*, The property is in usable condition.

(i) *Advertising for managerial services.* The County Supervisor will submit a list of all known sources of management services within a reasonable radius of the site of the work to the State Director. The State Director will solicit management services in accordance with Subpart D of this Part 1955.

(ii) *Specifications of services.* The agreement may provide that it may be terminated at any time on 30 days' written notice by either party. The agreement also will provide that the services of the contractor will be terminated immediately upon the sale or lease of the property or if the contractor fails to perform satisfactorily, as determined in accordance with the terms of Form FmHA 120–10, the responsibilities set forth in the agreement. The agreement will provide for the contractor to:

(A) Manage and maintain the property in a professional and businesslike manner, including day-to-day operation of the facility; rent individual rental units; authorize, make or pay for minor repairs and take care of normal maintenance as limited by paragraph (a) (2) (ii) (C) of this section.

(B) Prepare and deliver a written notice to prospective lessees for property located in a flood or mudslide area in accordance with § 1955.61.

(C) Pay all operating costs of the project. In addition, the contractor may be permitted to authorize, make, or pay for minor repairs and take care of normal maintenance not to exceed $100 for each repair or a total of $300 each month without prior approval of the contracting officer. Such costs may be paid from income received from operation of the property. If income is not sufficient, costs will be reimbursed monthly on receipt of contractor's invoice.

(D) Collect and remit to the contracting officer any fees, rents, or other income from the operation of the property after deducting authorized costs.

(E) Prepare and forward an itemized report to the contracting officer not later than the 10th of each month showing all income received and costs for the past month. The statement also will show the costs that remain unpaid.

(F) Obtain a performance bond in an amount equal to the highest estimated gross monthly income from operation of the property, rounded to the next highest $1,000. Bonds may be waived when the monthly income is expected to total less than $2,000.

(G) Not discriminate against any person in connection with the contract or property because of race, religion, color, sex, age, national origin, or marital status.

(iii) *Additional provisions of management agreement for multiple housing property.* In addition to the requirements in paragraph (a) (2) (ii) of this section, the management agreement will provide that:

(A) The contracting officer will establish the amount of rent for all units. (The monthly rent usually will remain unchanged for families occupying housing when the management agreement is executed.)

(B) Each tenant will be asked to provide a copy of the existing lease with the borrower. If there is no existing written lease, a new lease will be entered into using Form FmHA 465–2 or other form approved by OGC.

(C) All units will be offered first for lease to occupants eligible under the applicable loan program. Units may be offered for lease to ineligible occupants if eligible occupants cannot be located and the written approval of the contracting officer is given.

(D) The contractor, with the prior concurrence of the contracting officer, will have persons peaceably removed from the units for nonpayment of rent or for other violations of the lease. The contracting officer will request advice from OGC through the State Director before beginning eviction action. OGC will be requested to take any legal action necessary.

(iv) *Additional agreements.* Management agreements for acquired community facilities and business and industrial properties will be written on a case-by-case basis with the prior approval of the Administrator.

(v) *Fees.* The fee paid for management services will not exceed the usual fee for similar services in the area. The management agreement will contain the fee schedule.

(3) *Caretaker's agreement.* A caretaker is a contractor who, under contract with FmHA, agrees to protect and preserve acquired property. Specific services will be set forth in the agreement.

(i) A caretaker's agreement will cover the shortest feasible period, usually one month, and will provide for termination by the caretaker or FmHA with 7 days' written notice. FmHA will terminate the agreement when the services of the caretaker are no longer needed, or the property is sold, leased, or to be operated under a management agreement. Caretaker services will be paid in accordance with the terms of the contract. See Subpart D of this Part 1955.

(ii) Caretaker service fees must not exceed the usual charge for similar services in the area.

(iii) For Rural Housing (RH) property, the caretaker's agreement will be used only for vacant property.

(iv) The County Supervisor may approve the use of caretaker's agreements for farm and single family housing property. State Directors will approve the use of caretakers' agreements for multiple housing and organization property.

(b) *Posting.* The County Supervisor will display, as appropriate, "Warning," "No Trespassing," "For Sale," and other suitable signs on the real estate.

(c) *Reporting vandalism or theft.* The County Supervisor will report vandalism or theft in accordance with FmHA Instruction 110.1, available in FmHA Offices.

(d) *Eviction of persons.* Advice in evicting persons from acquired property will be requested from OGC through the State Director.

(e) *Payment of liens.* (1) If real estate is acquired subject to a lien, the State Director will authorize the County Supervisor to pay installments that may include advances made by the prior lienholder for taxes, if the property is taxable (see § 1955.63(f)), and insurance premiums.

(2) If the State Director determines that paying the lien in full would be in the best interest of the Government, he will obtain the advice of OGC with respect to the procedures for paying the lien in full and getting the mortgage released or assigned to the Government. The County Supervisor will obtain a receipt for payment of such items from the lienholder and send it to the Finance Office with the voucher.

(f) *Taxes.* (1) Property acquired pursuant to the Consolidated Farm and Rural Development Act (see § 1955.116 for those properties) is subject to taxation by State, territory, district, and local public subdivisions in the same manner and to the same extent as other property, unless State law specifically exempts taxation of real estate owned by the Federal Government. The County Supervisor will notify the appropriate taxing authority in writing when title to real estate has been acquired by the Government, and that claims for taxes during the Government's ownership will be billed to FmHA at the County Office address. If taxes become due and payable while the Government owns the property, and are not paid by a prior lienholder, the County Supervisor will pay taxes by using Standard Form 1034.

(2) Property acquired pursuant to the Housing Act of 1949 (all housing properties not included under paragraph (f) (1) of this section) is not subject to State or local taxes. Inform the tax collector of Government ownership upon acquisition. Do not pay any taxes on such property. Payment for assessments for property improvements is permitted.

(3) If both paragraphs (f) (1) and (f) (2) of this section apply (e.g., if the acquired property had secured both FO and RH loans), pay taxes as indicated in paragraph (f) (1) of this section.

(g) *Insurance.* Any insurance in force when property is acquired by the Government will not be canceled. However, no additional premiums will be paid for fire and extended coverage insurance. Continue to carry workmen's compensation and other types of insurance required by Part 1806 of this chapter (FmHA Instruction 426.1, and FmHA Instruction 426.2) if ongoing activities continue on the property. On receipt of notification of cancellation from the insurance company, the original policy should be returned to the borrower unless there is an outstanding claim which FmHA may collect. Any outstanding claim will be handled in accordance with Part 1806 of this chapter (FmHA Instruction 426.1– and, as appropriate, FmHA Instruction 426.2). If title to real estate is acquired subject to a prior lien, the County Supervisor will advise the lienholder that the Government will not carry insurance on the property, and will not pay premiums for any insurance carried by the lienholder, unless required by the prior lienholder's security instrument.

(h) *Securing, maintaining, and repairing acquired property.*—(1) *General.* When property is acquired, the County Supervisor will inspect the property to be sure it is secured and protected.

(i) In no case should expenditures be made, except when needed to secure and protect the property, until the final title opinion showing Government ownership of the property has been received.

(ii) Prior authorization from the State Director is required for any repairs or renovations if redemption rights are involved.

(iii) If the property has been determined to be suitable for retention in FmHA programs, the County Supervisor will determine the nature, extent, and estimated cost of any needed repairs or renovation, and maintenance needed to sell or rent the property immediately, and will take steps to obtain the services as described in paragraphs (h) (2), (3), (4), and (5) of this section.

(iv) Ordinarily, unsuitable property will be sold in the condition in which it is acquired. However, if the property cannot be sold as is, improvements needed to sell the property may be made. Such improvements must increase the value of the property by an amount at least equal to their cost, unless prior approval of the State Director is obtained.

(v) The County Supervisor is authorized to pay all costs authorized under this paragraph (h) in accordance with Subpart D of this Part 1955. All costs will be charged as expenses to the inventory account.

(2) *Securing and protecting property.* The County Supervisor is authorized to approve and execute agreements for expenditures not to exceed $500 for work such as installing locks, doors, windows, and gates; repairing a leaky roof; winterizing; and removing fire and safety hazards when necessary to secure and protect the property. Services will be obtained in accordance with Subpart D of this Part 1955. Costs exceeding $500 must be authorized by the State Director.

(3) *Maintenance.* The County Supervisor is authorized to approve and execute agreements for expenditures not to exceed $500 for total maintenance of single family dwellings or farm property and $1,000 for other property. Prior authorization from the State Director, without redelegation, will be obtained for larger amounts. Maintenance may include mowing lawns and golf course fairways and greens, trimming shrubs and hedges, removing trash and debris, cleaning windows, walls, ceilings, and floors, etc. Procurement of services will be done in accordance with Subpart D of this Part 1955.

(4) *Repairs and renovation.* The County Supervisor is authorized to approve and execute agreements for repairs and renovation if the cost for each acquired property does not exceed $2,000. If the cost exceeds $2,000, the County Supervisor will submit complete information to the State Director for consideration. If the State Director authorizes repairs costing more than $2,000, he will forward a request for contract action to the Administrator. Procurement of services will be obtained in accordance with Subpart D of this Part 1955.

(5) *Inspection of property.* The County Supervisor will inspect property at a frequency he determines necessary. Inspections should be made in connection with usual travel plans and noted in the case file.

(i) *Operating expenses.* The County Supervisor is authorized to approve and pay up to $500 of monthly operating expenses for any acquired property operated by FmHA. The State Director is authorized to approve monthly operating expenses up to $5,000 for any acquired property. A plan of operation must be submitted to the Administrator, for approval, when monthly operating expenses are expected to exceed $5,000. Procurement shall be in accordance with Subpart D of this Part 1955.

§ 1955.64 Utilization of property by Federal Disaster Assistance Administration (FDAA).

By a memorandum of understanding between FmHA and FDAA, acquired real estate not under lease or agreement to sell may be utilized to shelter victims in an area that has been designated a major disaster area by the President (see Exhibit A). The authority of the Administrator to implement the Memorandum of Understanding is delegated to the State Director who may redelegate this authority.

§§ 1955.65–1955.66 [Reserved]

§ 1955.67 Management of acquired chattel property.

Immediately after chattel property is acquired, the County Supervisor will arrange for its care.

(a) *Care of acquired chattel property.* In all cases, a new custody agreement will be executed by the County Supervisor and caretaker on Form FmHA 455–6, "Agreement for Temporary Custody of Property." Acquired chattel property will be sold in accordance with Subpart C of this Part 1955 as quickly as possible. The State Director must approve the holding of acquired chattel property for more than 120 days.

(b) *Payment of costs.* The County Supervisor will pay charges for the care, custody, and transportation of acquired chattel property using Standard Form 1034 or certified invoice.

(c) *Reports of inventory transactions.*—(1) *Reporting losses.* The County Supervisor will report all losses of inventory immediately to the Finance Office on Form FmHA 455–16, "Statement of Loss of Acquired Security Property."

(2) *Reporting increases.* The County Supervisor will report to the Finance Office increases resulting from the birth of livestock as "natural increase" on Form FmHA 455–14, "Invoice," at the time of their sale or in the annual inventory report on Form FmHA 455–15, "Report of Inventory Transactions (Acquired FmHA and Corporation Security Property)" on June 30, whichever occurs first following their birth.

(3) *Annual inventory report.* The County Supervisor will prepare Form FmHA 455–15 by County Office unit as of June 30 of each year for acquired chattel property. The report will be sent to the Finance Office by July 10 of each year.

(4) *Reporting change of custody.* Whenever acquired chattel property will become the responsibility of a new FmHA official, the outgoing official will prepare Form FmHA 455–15. The new official will verify the accuracy of the report by signing Form FmHA 455–15 and distributing it in accordance with the FMI.

(5) *Reporting inventory differences.* In July of each year the Finance Office will send the State Office a schedule of inventory differences, if any, between the inventory records of the Finance Office and each County Office unit as reported on Form FmHA 455–15. On receiving copies of Form FmHA 455–15 from County Offices and the schedules of inventory differences from the Finance Office, the State Office will analyze the inventories and take action to correct differences.

§§ 1955.68–1955.100 [Reserved]

EXHIBIT A

MEMORANDUM OF UNDERSTANDING BETWEEN FEDERAL DISASTER ASSISTANCE ADMINISTRATION AND FARMERS HOME ADMINISTRATION

Purpose.—This Memorandum of Understanding and attachment establishes authorities and procedures whereby the Federal Disaster Administration, an Agency of the Department of Housing and Urban Development, hereinafter referred to as FDAA, may utilize both single family and multiple housing units which are habitable and to which the Farmers Housing Administration, an Agency of the Department of Agriculture, hereinafter referred to as FmHA, has title and possession. The housing units assigned to FDAA by FmHA are to provide temporary housing to victims of major disaster or emergencies declared by the President, in accordance with sections 302(a) and 404(a) of Pub. L. 93–288, the Disaster Relief Act of 1974.

Effective date of this memorandum.—This memorandum shall be effective on the date of the last signature hereto.

Duration of agreement.—This memorandum shall continue to be in effect for a period coinciding with the authority under which it is entered.

Modifications.—This Memorandum of Understanding and Attachment No. 1, a guide letter for "FDAA–FmHA Letter of Assignment," may be modified in writing by mutual consent of the parties.

Responsibilities.—FmHA shall make available to FDAA on request all habitable single family and multiple housing units in its inventory that are located in designated disaster areas and that are not under leases or under agreement of sale. FDAA will reimburse FmHA for authorized expenses

V 41 152 AUG 5 76 UMI

resulting from utilization of assigned housing units.

Implementation.—This memorandum shall be implemented in accordance with the following general procedures. FDAA and/or FmHA may prepare other detailed operating procedures as necessary for internal use of the agencies. These procedures will be in compliance with the provisions of this Memorandum of Understanding.

(a) *Delegation of authority.* FDAA and FmHA will delegate authority to their respective employees, in writing, and identify contractors (agents) and/or employees authorized to implement the appropriate provisions of this Memorandum of Understanding and other, if any, FDAA and/or FmHA detailed operating procedures. FDAA and FmHA will exchange a list containing names, addresses, and telephone numbers of contractors (agents) and/or employees designated to assist in providing temporary housing assistance to victims of a designated major disaster area. Other references to FDAA and FmHA in the following paragraphs will be interpreted to include contractors (agents) and employees designated to implement the provisions of this Memorandum of Understanding.

(b) *Assignment of FmHA housing units by FDAA.* (1) In the event of a major disaster or emergency described by authorizing legislation, FDAA shall request from the appropriate FmHA State Director a list of all habitable housing units available in designated disaster areas indicating the county or counties where housing is needed.

(2) FmHA shall furnish to FDAA a list of FmHA borrowers who have become displaced because of the emergency. These borrowers will be given first priority to buy or lease properties owned by FmHA. This list may be updated during the course of the emergency.

(3) At the time of ocupancy or during the occupancy of a housing unit by an FmHA borrower or other disaster victim, FDAA, if it determines that the occupant will require permanent new housing, will inform the occupant that FmHA lending assistance may be available for purchase of the housing unit. FDAA also shall notify FmHA of the permanent housing need of the applicant.

(4) Before occupancy by a disaster victim, the housing unit will be inspected jointly by FDAA and FmHA. These agencies will then execute a Letter of Assignment (Attachment No. 1—Guide Letter) for each habitable housing unit assigned to FDAA. An inspection report shall be attached to a Letter of Assignment for each unit assigned to FDAA and contain the following minimum information:

(A) FmHA advice number.

(B) Complete address. Attach map or narrative description if rural route.

(C) General description of the housing unit and appliances, etc., included with the property.

(D) General condition of the property.

(E) Date and names of FDAA and FmHA authorized agents and/or employees conducting the inspection.

(5) FmHA will remove all FmHA signs, such as "no trespassing," "for sale," etc. for housing units assigned to FDAA.

Management of housing units.—(a) FDAA is responsible for the management, maintenance, and repairs of housing units assigned to them by FmHA.

(b) FDAA shall furnish to FmHA the names, mailing addresses of FmHA occupants, and FmHA property designation, also including beginning occupancy date and changes in occupancy.

(c) During business hours, FmHA authorized employees may inspect housing units. Housing units also may be shown to prospective purchasers. Advance notice of forty eight (48) hours will be given FDAA, who will, in turn, advise the occupant.

(d) FDAA shall not permit a disaster victim to occupy a housing unit beyond the time required to reestablish the occupant in his or her own housing.

(e) There shall be no rental charge to FDAA by FmHA for assigned housing units for twelve (12) months from the date of the letter of assignment. If an occupant is in a housing unit for more than one (1) year, FDAA shall pay to FmHA the fair rental value as determined by FmHA for each month of occupancy after one (1) year.

(f) If an occupant fails to vacate a housing unit, it is the responsibility of FDAA to evict the occupant and his or her possessions.

(g) If during occupancy and the first year of assignment to FDAA, FmHA enters into an agreement of sale for a housing unit to other than the occupant, FDAA shall relocate the occupant to other suitable temporary housing at FmHA expense. If the occupant has been in the housing for more than one (1) year, FDAA shall bear the relocation expense.

Return of housing units to FmHA.—(a) When a housing unit is vacated and FDAA determines that it is no longer required, FDAA shall notify FmHA.

(b) FDAA and FmHA authorized employees or contractors (agents) will jointly inspect the housing unit to determine maintenance, cleanup, and repairs required to return the housing unit to a physical condition comparable to that when first utilized by FDAA. Necessary repairs shall be performed by FDAA at their expense in accordance with the latest edition of the Minimum Property Standards (MPS) as published by the Department of Housing and Urban Development.

(c) FDAA shall return the keys, custody, and responsibility to FmHA when needed repairs are completed. FmHA shall prepare a receipt with copies for FDAA and FmHA.

Approvals.—This agreement is executed by the Administrator of the Farmers Home Administration and the Administrator of the Federal Disaster Assistance Administration by virtue of their general authorities to do so.

Dated: February 5,1976.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

ATTACHMENT NO. 1 TO EXHIBIT A—GUIDE LETTER

FEDERAL DISASTER ASSISTANCE ADMINISTRATION AND FARMERS HOME ADMINISTRATION, FDAA-FMHA LETTER OF ASSISTANT

State: _____
County: _____

Under the Memorandum of Understanding between the Federal Disaster Assistance Administration (FDAA) and the Farmers Home Administration (FmHA) dated this February 5, 1976, the habitable housing unit identified on the attached inspection report is made available for use as temporary housing for victim(s) located within the following described designated disaster area and who are eligible for such assistance under the provisions of the Disaster Relief Act of 1974:

This Letter of Assignment shall become effective on the date signed by the authorized employees or contractors (agents). This assignment is for the housing unit identified by the attached inspection report and having the following FmHA advice number: _____

FDAA	FmHA
Name: _____	_____
Title: _____	_____
Date: _____	_____

Sec. for Rural Development, 7 CFR 2.70, delegation of authority by Dir., OEO, 29 FR 14764, 33 FR 9850.

Subpart C—Disposal of Acquired Property

§ 1955.101 Purpose.

This subpart delegates authority and prescribes policies and procedures for the sale of acquired real estate and related rights and acquired chattels. It also covers the granting of easements and rights-of-way on acquired property and the disposal of surplus property to or through other agencies.

§ 1955.102 Policy.

(a) Acquired property will be sold for its present market value as soon as practicable. Form FmHA 465–10 is used to document offers to purchase acquired property.

(b) Priority will usually be given an applicant who proposes to use the property for the same purpose for which the loan was made. However, sales may be authorized for different program purposes if it is in the best interest of the Government. For example, association or farm real estate may be subidivided into Rural Housing (RH) nonfarm tracts; detached Labor Housing (LH) or Rural Rental Housing (RRH) units may be sold as individual dwellings; LH projects may be sold as RRH projects.

§ 1955.103 Definitions.

In addition to the following definitions, those in §§ 1955.3 and 1955.53 apply to this subpart.

(a) *Credit sale.* A sale in which financial assistance is given to an applicant for the purchase of inventory property.

(b) *Eligible applicant.* One who meets the legal and administrative requirements for obtaining the particular FmHA program loan applied for. For Section 502 RH loans, an eligible applicant includes one who otherwise meets loan criteria but whose income may exceed the moderate income limit.

(c) *Ineligible applicant.* One who does not meet the legal and administrative requirements for obtaining the particular FmHA program loan applied for, but who may be given financial assistance under more stringent terms and conditions.

(d) *Market value.* The amount for which property in its existing condition would sell if put on the open market and sold in the way property is ordinarily sold in the community in which it is located.

(e) *Suitable property.* Property that could be used by a borrower to carry out the objectives of a Farmers Home Administration (FmHA) loan program.

(f) *Surplus property.* Real estate acquired pursuant to the Consolidated Farm and Rural Development Act (CON ACT) that is not suitable for sale to eligible applicants. It also includes suitable property acquired pursuant to the CON ACT which is not sold within three years.

(g) *Unsuitable property.* Property acquired pursuant to the Housing Act that is unfit for a borrower to carry out the objectives of an FmHA loan program; e.g., a dilapidated house requiring extensive repairs to make it safe and sanitary or a house that is no longer in a rural area.

§ 1955.104 Authorities and responsibilities.

(a) *Line authority.* This authority is from the Administrator to State Director, District Director, and County Supervisor. Assistance, guidance, and counsel are available from the Property Management Specialist and Program Staff in the State Office and from appropriate program divisions and Property Management Staff in the National Office. Full use shall be made of these resources.

(b) *Redelegation of authority.* FmHA will redelegate authorities to the maximum extent possible consistent with program requirements and available resources.

(1) The State Director is authorized to redelegate, in writing, any authority delegated to the State Director in this subpart, except when specifically excluded, to the Chief, Property Management; Chief, Rural Housing; Chief, Farmer Programs; Chief, Community Programs; Chief, Business and Industry; Rural Housing Specialist; Farmer Programs Specialist; Property Management Specialist; Community Programs Specialist; and Business and Industry Specialist. The State Director will redelegate authorities to his immediate staff in order to assist, in particular, the County Supervisor to a greater degree.

(2) The County Supervisor is authorized to redelegate, in writing, any authority delegated to the County Supervisor in this subpart to any qualified employee in the County Office determined by him or her to be qualified.

§ 1955.105 Nondiscrimination.

If the property to be sold secured a loan that was subject to Title VI of the Civil Rights Act of 1964, and the property will be used for its original or similar purpose, or if Government financial assistance is provided and the property then becomes subject to Title VI, the buyer will sign form FmHA 400–4, "Nondiscrimination Agreement." The instrument of conveyance will contain the following statement: "The property described herein was obtained or improved through Federal financial assistance. This property is subject to the provisions of Title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the property continues to be used for the same or similar purposes for which the Federal financial assistance was extended."

§ 1955.106 Loss or damage to acquired property.

If a sales contract has been signed by the Government and the purchaser and loss or damage occurs before closing the transaction, the State Director may either have the loss replaced or damage repaired or adjust the sale price in accordance with terms specified in Form FmHA 465–10, "Invitation, Bid and Acceptance—Sale of Real Property by the United States." However, if the loss or damage is the result of negligence by a prospective buyer, the sale price will not be adjusted. The Government does not provide any warranty on property that it sells.

§ 1955.107 Taxes.

For property that is taxable while owned by FmHA (see § 1955.63(f)), the County Supervisor will process a 1034 voucher to pay taxes as they become due and payable. Taxes will be prorated between the Government and the purchaser as of the date the title is conveyed in accordance with the general conditions of Form FmHA 465–10, "Invitation, Bid and Acceptance; Sale of Real Property by the United States." The purchaser will be responsible for paying all taxes due and payable after the title is conveyed. The County Supervisor will advise the taxing authority of the sale and the purchaser's name, and describe the property sold. Taxes will not be paid on property that is not taxable while owned by FmHA. Only assessments for property improvements due and payable as of the date property is sold will be paid for all types of inventory property.

§ 1955.108 Real property located in flood or mudslide hazard area.

(a) *Notice of hazards.* Acquired real property located in an identified special flood or mudslide hazard area as defined in Subpart B of Part 1806 of this chapter, (FmHA Instruction 426.2) will not be sold without prior written notice of such hazard to prospective buyers. The notice will be prepared in accordance with the following:

(1) *Property offered for sale by FmHA.* The County Supervisor will inform prospective buyers at the time of the first inquiry and in any notice of public sale that the property is located in a special flood or mudslide hazard area. The County Supervisor will also prepare and deliver a written notice to the prospective buyer at the time the option to purchase and Form FmHA 465–10 or other agreement for purchase is signed. The prospective buyer will acknowledge in writing the receipt of the notice. Exhibit A of this subpart may be used as a guide for preparing the notice and the acknowledgment. The acknowledgement will be placed in the County Office case file.

(2) *Property offered for sale through real estate brokers.* If real estate brokers are engaged to sell acquired property, the broker must notify prospective buyers in writing that the property is located in a special flood or mudslide hazard area.

(i) When sending Form FmHA 1955 C–3, "Notice of Property for Sale," to the brokers listing such property for sale, the County Supervisor will attach a written notice and acknowledgment for use by the broker as a guide in meeting this requirement (see Exhibit A).

(ii) After the prospective buyer signs the acknowledgment, the agent will forward it to the County Supervisor.

(b) *Limitations placed on financial assistance.* Financial assistance (credit sale) is limited to property located in areas where flood insurance is available (and the insurance must be obtained and maintained as a condition of sale) unless the flood hazard area was identified less than 1 year before the date of the sale and the approval official determines that the property would not be excessively damaged in the event of flooding. In such cases, the applicant must agree to purchase flood insurance on the property when it becomes available. Appraisals of property in these areas will reflect this condition and restrictions upon use.

§ 1955.109 National Historic Preservation Act.

Any acquired real estate property that is listed or is likely to be listed in the National Register of Historic Places under the National Historic Preservation Act of 1966 (Pub. L. 89–665) will be sold in accordance with directions from the Administrator.

§ 1955.110 Property subject to redemption rights.

(a) If under applicable law the Government's interest may be sold during a redemption period, the State Director is authorized to sell the Government's interest in accordance with the following:

(1) The sale price of the property is at least equal to the amount bid by FmHA at the foreclosure sale.

V 41 152 AUG 5 76 UMI

(2) The sale would not result in a financial loss to the Government if redemption was made.

(3) There is no apparent likelihood of the property being redeemed during the redemption period.

(4) No subsequent loan may be approved during the redemption period except those needed to protect the security interest of the Government.

(b) Each purchaser will sign a statement acknowledging that:

(1) The property is subject to redemption rights (the terms will be set forth in the statement), and

(2) If the property is redeemed, ownership and possession of the property would revert to the previous owner and likely result in loss of any additional investment in the property not recoverable under provisions of redemption.

(c) The signed original statement will be filed in the purchaser's County Office case folder.

(d) If real estate brokers are engaged to sell the property, the County Supervisor will inform such brokers about the redemption rights of the borrower and the conditions under which the property may be sold.

§ 1955.111 Disposition of perishable items and crops, and property rights.

(a) *Perishable items and crops.* The State Director may authorize the sale of any perishable items and crops, except timber, for the best cash price, either by public sale or negotiations in accordance with applicable law. Request advice from the Office of the General Counsel (OGC). (A State Supplement will be issued.) Copy of the sale instrument will be kept in the County Office case file. Sales proceeds will be handled in accordance with Part 1862 of this chapter (FmHA Instruction 451.2).

(b) *Easements or rights-of-way.* The State Director is authorized to convey easements or rights-of-way as follows:

(1) Easements or rights-of-way may be conveyed to public bodies if such conveyance is in the public interest and will not adversely affect the value of the real estate. Compensation (even nominal) must be received.

(2) Easements or rights-of-way may be sold for adequate cash consideration through negotiation to any purchaser without giving public notice if such conveyance would not make otherwise suitable property unsuitable. Sales proceeds will be handled in accordance with Part 1862 of this chapter (FmHA Instruction 451.2).

(3) A copy of the conveyance instrument will be kept in the County Office case file.

(c) *Mineral and water rights, and mineral, agricultural, or other leases.* (1) Mineral and water rights, mineral lease interests, mineral royalty interests, and agricultural and other lease interests will be sold with the surface land and will not be sold separately. If the land is to be sold in separate parcels, any rights or interests that apply to each parcel will be included with the sale.

(2) When property is sold, lease or royalty interests not passing by deed will be assigned to the purchaser. The County Supervisor will notify the lessee or payor of the assignment. A copy of this notice will be furnished to the purchaser.

§ 1955.112 Sale in parcels.

Property may be offered for sale as a whole or in parcels as determined by the State Director. The State Director may permit subdivision of the land or separate sales of portions of the property, such as timber, growing crops, inventory for small business enterprises, buildings, facilities, and similar items if a better price for the property can be obtained in this manner: *And provided,* The subdivision does not change the character of the property from suitable to unsuitable or surplus. Environmental effect should also be considered pursuant to Part 1824 of this chapter.

§ 1955.113 Selling price.

The selling price of the property will be established on the basis of the appraisal information at the time the appraisal is made. When it is determined that the property requires no repairs or maintenance before being offered for sale, the selling price will be the established present market value. When property requires repairs or maintenance before it can be sold comparable to property in good condition, then the selling price will reflect the value after the repairs and maintenance are finished.

§§ 1955.114–1955.115 [Reserved]

§ 1955.116 Sale of real estate that was acquired pursuant to the Consolidated Farm and Rural Development Act (CONACT).

This is property which secured any of the following loans: Farm Ownership; Recreation; Soil and Water; Operating; Emergency; Economic Opportunity; Community Facility; Water and Waste Disposal; Resource Conservation and Development; Watershed; Association Recreation; Economic Opportunity Cooperative; Rural Renewal; Water Facility; Business and Industrial; Irrigation and Drainage; Shift-in-Land Use (Grazing Association); Timber Development; and loans to Indian Tribes and Tribal Corporations. It also includes property which secured RRH Rural Cooperative Housing (RCH), LH, and Rural Housing Site (RHS) loans acquired by voluntary conveyance when the present market value at time of conveyahce was less than the debt and the borrower was released from personal liability.

(a) *Sale of suitable property.* Real estate that was acquired pursuant to the CONACT and that has been declared suitable for sale to eligible applicants will be offered for sale in accordance with the subparts that apply to the type of loan being made under the credit sale.

(1) The State Director may use real estate brokers to sell such property to eligible applicants after determining that the use of these brokers will be in the best interest of the Government. Selection of these brokers will be in accordance with § 1955.118.

(2) The credit sale to eligible applicants will be processed as follows:

(i) The current interest rate for the type of loan being made will apply.

(ii) The credit sale will be identified as an initial loan on the docket forms. However, if the applicant is presently indebted for the same type of loan, the credit sale will be identified as a subsequent loan. If the applicant obtains another similar loan simultaneously with the credit sale, the loan also will be identified as a subsequent loan. The docket forms also will show the inventory advice number. The appropriate promissory note for the type of loan being closed will be used. These forms will be made a part of the docket.

(iii) The County Supervisor will handle any downpayment collected on or before the date the sale is closed with all other payments for the day. The collection will be identified by the inventory advice number.

(iv) The loan and debt limits for the type of loan being made apply to a credit sale to an eligible applicant.

(v) Loan closing and title clearance for the credit sale and any subsequent loan to be closed at the same time with the credit sale will be the same as for an initial loan except that:

(A) A Quitclaim Deed, as developed or approved by OGC, will be used instead of a warranty deed. The State Director will execute the deed, and his signature will be acknowledged. This authority may not be redelegated.

(B) The buyer will pay attorney's fees and title insurance costs, recording fees, and other customary fees unless they are included in a subsequent loan made for other than loan closing purposes.

(b) *Sale of surplus property.* Acquired real estate will be declared surplus immediately if it is determined not suitable for sale to eligible applicants. Property that has been declared suitable and is not sold within 3 years from the date of acquisition must be declared surplus. Property should be offered for public sale in accordance with paragraph (b)(2) of this section within 10 days after it has been declared surplus and made available for sale. However, if property is offered for sale as surplus and an eligible applicant is the successful purchaser, the County Supervisor for property which secured a loan to an individual and the State Director for organization property may reclassify it from surplus to suitable property, if it is in fact suitable. This determination must be documented in the case file. Suitable property may be reclassified to surplus if there is physical damage or a change in economic conditions which makes it unfeasible to maintain the property for program purposes.

(1) *Rates and terms for surplus property*—(i) *Property which secured a loan to an individual.* Such property will be offered for cash or terms of not less than a 10 percent downpayment with the remaining balance amortized over a period not to exceed 10 years. In no case, however, will the terms be longer than the period for which this property will serve as adequate security. The interest rate will be the current rate charged for operating loans plus ½ percent. When it has been determined that the property cannot be sold on terms of 10 years or less because of economic or other conditions in the area, the State Director will stop any negotiations (under paragraph (b)(3)(iii) of this section) and readvertise the property for public sale on a longer term not to exceed 15 years.

(ii) *Organization property.* If OGC advises that it is legally permissable under State statutes, organization property will be offered for cash or terms of not less than 10 percent downpayment with the remaining balance payable over not more than 15 years. The amount of each of the first 14 annual installments will not be less than the amount that would be required to be repaid annually if the outstanding balance was amortized over the maximum repayment period for the type of loan that the property originally secured. The remaining balance will be due and payable at the end of the 15th year. The interest rate will be the current rate charged for operating loans plus ½ percent. If the State Director determines that more liberal rates and terms are needed, justification for such rates and terms will be submitted to the Administrator for his decision. However, the repayment period will not exceed the maximum repayment period for the type of loan that the property originally secured or the period for which the property will serve as adequate security whichever is the shorter period.

(2) *Sale by public notice.* Surplus property other than perishable items or growing crops, not including timber, must first be offered for sale by public notice.

(i) *Form of public notice.* Public notice includes posters, and advertising in newspapers, periodicals, or other media. The State Director, with the advice and approval of OGC, will develop a standard form of notice to be used in the State. The notice will include the following:

(A) A description of the property including its location and conveniences.

(B) Terms of sale, deposit required, and time when the property may be inspected by prospective bidders.

(C) A statement, if sealed bids are to be obtained, that the opening of the bids is to be public; also the place, date, and time that the bids will be opened.

(D) If sale is by public auction, the place, date, and time of sale.

(E) A statement that the Government reserves the right to reject any or all bids.

(F) A statement that the property will be sold without regard to race, color, religion, sex, age, national origin or marital status.

(G) If property is located in a flood plain, a statement indicating such.

(ii) *Determining kind of notice*—(A) *Property valued in excess of $5,000.* Notices to adequately inform interested parties of the sale will be placed in newspapers or periodicals, or both. Posted notices will be used when they will assist in the sale.

(B) *Property valued at $5,000 or less.* Notices will be posted to adequately inform interested parties of the sale. If the State Director determines that more advertising is needed, periodicals and newspapers also may be used.

(iii) *Advertising costs.* These costs will be paid in accordance with FmHA Instruction 121.6, available in any FmHA Office.

(3) *Method of sale.* The State Director will decide whether the sale will be by sealed bids or public auction. If no acceptable bid is received by sealed bids or public auction, the State Director may negotiate the sale of the property or, if he determines that FmHA does not have adequate resources to sell the property, authorize it to be offered for sale by real estate brokers.

(i) *Sealed bids.* Sealed bids will be made on Form FmHA 465–10. Each bidder will execute a form and attach to it a deposit of not less than 5 percent of the bid in the form of cash, cashier's check, certified check, postal money order, bank draft, or purchaser's check made payable to FmHA. Third party checks are not acceptable.

(A) *Opening bids.* Sealed bids will be held in a secured file before opening them at the place and time specified in the notice. The bid opening will be public and held at an FmHA office. The State Director or his designee will open the bids with at least one other FmHA employee present. When opened, each bid will be tabulated showing the name and address of the bidder, the amount of the bid, the amount and form of the deposit, and any conditions of the bid. The tabulation will be signed by the State Director or his designee and kept in the County Office files.

(B) *Successful bids.* If the State Director or his designee determines that the highest qualified bid represents the best price obtainable, the bid will be accepted by signing Form FmHA 465–10. The State Director will give this executed form to the successful bidder or his representative. If the bidder or his representative is not present at the bid opening, the form will be sent by certified mail, return receipt requested, to the bidder. The State Director will send the deposit of the successful bidder to the Finance Office along with the name and case number of the former borrower and the inventory advice number so the deposit can be processed.

(C) *Unsuccessful bids.* The deposit of each unsuccessful bidder will be returned promptly by certified mail with a letter of explanation. If there were no acceptable bids, the letter will advise each bidder about any anticipated negotiations for the sale of the property.

(D) *Disqualified bids.* Any bid that does not comply with the terms of the offer will be disqualified. Minor deviations and defects in bid submission may be waived by the State Director. However, a disqualified bid may indicate the probability of obtaining a higher price than offered in qualified bids and may justify rejection of other bids.

(ii) *Auction sale.* Before the auction, the State Director will determine the minimum sale price, and the auctioneer will be so advised. Ordinarily an FmHA employee will conduct the auction sale. The State Director may utilize a professional auctioneer if the value of the property and the complexity of the sale will require such action, and no qualified FmHA employee will be available.

(A) The professional auctioneer's fee cannot exceed the fee that is customary for the area and for the type of property to be sold. It will be a fixed fee, or a percentage of sale price, negotiated prior to the sale. Services will be procured in accordance with Subpart D of this Part 1955.

(B) Successful bidders will be required to make a deposit of not less than 5 percent of their bid in the form of cash, a cashier's or certified check, or postal or bank money order, bank draft or purchaser's check payable to FmHA. The bid will be put in writing on Form FmHA 465–10, and will be accepted as provided in paragraph (b)(3)(i)(B) of this section.

(iii) *Negotiated sale.* If no acceptable bid is received either from sealed bids or at a public auction, the State Director may sell the property at the best price obtainable without further public notice by negotiating with interested parties including all previous bidders. In addition to price, the amount of downpayment and term of repayment, but not interest rate, may be negotiated. A satisfactory offer received under such negotiations will be put in writing on Form FmHA 465–10, and will be accepted as provided in paragraph (b)(3)(i)(B) of this section.

(A) In negotiating a sale, offers may be solicited orally and in writing. Such sales may be advertised in local newspapers. In some instances it may be possible to assemble the persons interested in purchasing the property for open competitive bidding. If offers are solicited, the invitation to negotiate will include the minimum price at which the Government will negotiate and the place, date, and time when offers will be considered.

(B) If a satisfactory offer is received at that time, the State Director will accept it immediately. If an acceptable offer is not made on that date, a new date may be set for further negotiations. Other acceptable methods of negotiation may be followed, but each prospective purchaser must be given equal opportunity to make an offer. The amount offered by one interested party should not be disclosed to any other interested party except when negotiation is by open competitive bidding. No offer on the basis of a specified sum above the best offer made will be considered.

(C) In connection with such negotiations, reasonable administrative expenses including the cost of advertising, postage, and similar items to complete the sale are authorized. Advertising costs will be paid using Standard Form

V 41 152 AUG 5 76 UMI

1143 "Advertising Order." Standard Form 1034 will be used to pay for other purchases and services.

(iv) *Real estate brokers.* The State Director may authorize the use of real estate brokers to sell surplus farm and organization property to ineligible applicants in accordance with § 1955.118 only after the following conditions have been met:

(A) The property has been declared surplus.

(B) The State Director has determined that the property cannot be sold by FmHA employees.

(C) The property has been advertised for sale by public notice, and no acceptable bids or offers have been received through public notice or subsequent negotiation.

(D) Negotiations have been discontinued.

(4) *Processing*—(i) *Determining repayment ability.* If a credit sale is involved, the applicant must furnish necessary information to assist in determining repayment ability. Forms FmHA 431–2, "Farm and Home Plan," or FmHA 431–3, "Family Budget," if housing is included should be used unless the applicant has furnished all required information in another format.

(ii) *Form of payment.* Payments for the property will be made in the form of cash, cashier's check, certified check, postal or bank money order, bank draft, or purchaser's check made payable to FmHA. Third party checks are not acceptable.

(iii) *Farm property.* On accepting a bid or offer, the County Supervisor will provide the escrow agent, designated attorney or title insurance company the necessary information and instructions for closing the sale. The County Supervisor will complete the quitclaim deed and forward it to the State Director for execution and acknowledgment. Deed execution may not be redelegated. The County Supervisor will send the original of Form FmHA 465–10 or other appropriate form, and a copy of Form FmHA 440–16 if the sale is a credit sale to the Finance Office. The County Supervisor will advise the State Director by memorandum when the transaction is closed.

(iv) *Organization property.* On accepting a bid or offer, the State Director will forward the original Form FmHA 465–10, the names and legal description to be placed in the deed, the amount and terms of note and mortgage, and other pertinent material to OGC requesting that they provide appropriate legal instruments and instructions for closing the transaction. When the transaction is closed, the State Director will send the originals of Form FmHA 465–10, and, if the sale is a credit sale, a copy of Form FmHA 440–22 to the Finance Office. The State Director will sign the quitclaim deed. This authority to sign the deed may not be redelegated.

§ 1955.117 Sale of real estate that secured Rural Housing RH loans.

This includes property that secured sections 502 and 504 loans. It also includes RRH, RCH, LH, and RHS loans except those acquired by voluntary conveyance when the present market value was less than the debt, at time of conveyance, and the borrower was released from personal liability.

(a) *Method of sale.* The State Director will determine whether acquired RH property will be offered for sale by FmHA employees or by licensed real estate brokers.

(1) *Sale by FmHA employees.* If a prospective purchaser eligible to buy the property is not available, the County Supervisor will post notices and signs to adequately inform interested parties of the property for sale. The property also may be advertised in newspapers having general circulation in the area when the State Director determines that such advertisment will assist in the sale. See FmHA Instruction 121.6 available in any FmHA Office.

(i) The advertisement or notice will be in display type but not legal notice style, can include pictures of property and will contain sufficient information to readily identify the property including:

(A) A brief description of each property, its location, and conveniences,

(B) Terms of the sale,

(C) Time the property may be inspected by prospective buyers,

(D) Place where additional information can be obtained,

(E) A statement that the Government reserves the right to reject any or all offers,

(F) Nondiscrimination statement, and

(G) Flood Plain statement.

(ii) The State Director, with the advice and approval of OGC, will develop a standard form of advertisement and notice to be used in the State.

(iii) The County Supervisor, if unable to sell acquired property, may submit a detailed report to the State Director documenting his efforts to sell the property and requesting authority to offer the property for sale by real estate brokers.

(2) *Sale by real estate brokers.* (i) If the State Director determines that the County Supervisor is unable to sell either certain acquired RH property or all acquired RH property to best protect the financial interest of the Government, the State Director may authorize the listing of RH property for sale with real estate brokers. The State Director will document this determination and send a copy to the general operational "465 Real Property" file in the County Office.

(ii) In such cases, FmHA employees will not attempt to sell the property unless a prospective buyer has indicated an interest in buying a specific property before it is listed, but will list the property immediately after it is readied for sale with brokers that have signed a listing agreement. Real estate brokers will be selected in accordance with § 1955.118.

(b) *Sale of suitable property.* Suitable property will be offered for sale to eligible and ineligible applicants as follows:

(1) All housing properties of two units or less will be offered only to eligible applicants for the first 15 days after they are offered for sale.

(2) Multiple housing property of more than two units and housing site property will be offered only to eligible applicants for the first 30 days after it is offered for sale.

(3) Property not sold to eligible applicants in the periods authorized by paragraphs (b) (1) and (2) of this section may then be offered to the general public. A sale to a person or organization ineligible for an FmHA loan, however, must be for cash or at rates and terms in accordance with paragraph (c) of this section.

(4) Sale to persons or organizations eligible for FmHA financing will be made in accordance with the subparts pertaining to the type of loan being made.

(c) *Sale of unsuitable property.* (1) Unsuitable property will be offered for sale for cash or not less than a 10 percent cash downpayment and usually not more than 10 amortized annual payments or 120 amortized monthly payments for the balance of the purchase price. If terms of more than 10 years are necessary because of the location of the property or conditions in the area, the State Director may authorize individual RH dwellings to be sold on longer terms, but not to exceed 15 years, and multiple housing properties on terms not to exceed 20 years. In no case, however, may the be longer than the period for which the property will serve as adequate security.

(2) The interest rate will be the rate set for above-moderate Section 502 RH loans.

(d) *Processing sale to eligible applicants.* The following provisions will apply to all credit sales to eligible applicants:

(1) The FmHA subpart pertaining to the type of loan being made will be followed in making credit sales to eligible applicants. RRH credit sales may be made for up to 100 percent of the current market value of the security less any prior lien, except that 90 percent financing is the maximum for limited profit organizations.

(2) The docket form will show the inventory advice number and identify the credit sale as an initial loan unless the applicant is already indebted for the same type of loan. A loan of the same type made simultaneously with the credit sale will be a subsequent loan.

(3) A cash downpayment collected at the time the credit sale is closed will be identified by the inventory advice number and handled in accordance with Part 1862 of this chapter (FmHA Instruction 451.2).

(4) The current interest rate for the type of loan being made will apply.

(5) The appropriate promissory note for the type of loan being closed will be used.

(6) Loan closing and title clearance for the credit sale and any additional loan closed simultaneously with the credit sale will be the same as for an initial loan except that:

(i) The property will be conveyed by a Quitclaim Deed. The State Director, with the assistance of OGC, will develop a Quitclaim Deed for use in the State. The State Director will execute the deed, and his signature will be acknowledged. Authority to sign the deed may not be redelegated.

(ii) The buyer will pay any loan closing costs from personal funds unless they are included in a subsequent loan made for other than loan closing purposes.

(e) *Processing sale to ineligible applicants.* The following provisions will apply:

(1) The Section 502 RH above-moderate interest rate will be charged in all credit sales of housing property to ineligible applicants. The approval official must determine that the applicant has repayment ability for the requested credit.

(2) The repayment period for credit sales will be in accordance with paragraph (c) of this section.

(3) The property will be conveyed by Quitclaim Deed and the buyer will pay closing costs.

(4) For loans to individuals, the County Supervisor will advise the escrow agent, designated attorney, or title company representative to give a final title opinion or, if an insurance company, a title insurance policy; to prepare and record the mortgage and deed; and to prepare the note. Closing instructions for organization loans will be requested from OGC.

(5) Payments will be made by cash, cashier's check, certified check, postal or bank money order, bank draft, or purchaser's check. Such payments will be handled in accordance with Part 1862 of this chapter (FmHA Instruction 451.2).

(6) After the transaction is closed, the County Supervisor will distribute Forms FmHA 465–10 and a copy of the promissory note when appropriate, in accordance with the Forms Manual Insert.

(7) Form FmHA 444–3 will be used for all loans to individuals, and Form FmHA 440–22 will be used for loans to organizations. In addition, Form FmHA 440–9 will be signed when the borrower receives income throughout the year.

§ 1955.118 Selection and use of real estate brokers.

If property is to be offered for sale by licensed real estate brokers, the State Director will determine whether their solicitation will be by public notice or by direct mailing to licensed real estate brokers.

(a) *Public notice.* Real estate brokers may be invited to participate in selling property on a County Office term listing or individual case basis.

(1) *County Office term listing.* A public notice will be published at least once every 12 months inviting licensed real estate brokers to participate in selling properties. The notice will be published in newspapers having general circulation in the area in which the properties are located and will read substantially as follows:

PUBLIC NOTICE

The Farmers Home Administration has for sale, from time to time, farm, residential, business, recreation and/or other properties. Any licensed real estate broker interested in listing these properties should contact the Farmers Home Administration at _____

_____

Telephone _____.

The notice will be paid for by using Standard Form 1143 and charged as a nonrecoverable cost to the Salaries and Expenses account.

(2) *Individual case basis.* For a specific property, the notice will be published in newspapers having general circulation in the area in which the property is located. The State Director may authorize the notice to be placed in trade journals, magazines, and other publications having wider circulation and may contact real estate brokers that specialize in selling particular kinds of property (e.g. golf courses, business enterprises, multiple housing facilities) if he determines that such action is necessary to protect the interest of the Government. The notice describing the property offered for sale will be similar to the following:

PUBLIC NOTICE

The Farmers Home Administration has for sale the following properties:

1. 18-hole golf course with clubhouse and other facilities located at the north edge of Anytown, Virginia.
2. 80-acre farm located 3 miles west of Anytown, Virginia.
3. Dwelling 3 miles east of Anytown, Virginia.

Licensed real estate brokers who are interested in listing these properties should contact the farmers home administration office at _____

_____

Telephone _____.

(b) *Direct mailing to licensed real estate brokers.* If the State Director selects this method of solicitation, he will obtain a listing showing the names and addresses of all licensed real estate brokers in the State. The list should be obtained from the office of State Government which issues real estate licenses. The State Director may issue a State Supplement listing the real estate brokers in the State by County Office jurisdictional areas. Real estate brokers will be solicited from this list. However, all brokers within the County Office jurisdiction must be contacted if any one is contacted. They will be solicited by notices similar to those shown in paragraphs (a) (1) and (2) of this section. Newly licensed real estate brokers or those who previously declined to participate may be added to the list during the calendar year.

(c) *Listing agreements.* Any real estate broker who agrees to list acquired property for sale will execute Form FmHA 1955C–2, "Nonexclusive Real Property Master Listing Agreement." The County Supervisor or the State Director within their contracting authority are authorized to executive listing agreements on behalf of the Government.

(1) Brokers solicited on a term basis may execute a listing agreement at any time during the year. Such listing agreement will be reviewed prior to December 31 of the year of its effective date, and, if appropriate, may be renewed for a period not to exceed 1 year. Renewals will be made if there is the necessity for continued use of real estate brokers.

(2) A listing agreement on an individual case basis will be executed at the time a property is offered for sale.

(3) A uniform fee or fees will be established by FmHA within a sales area, and will not exceed those for similar services provided to other sellers of real property. No fee will be due or payable if the broker or salesperson purchases the property for his or her own, a relative's, or an affiliate's account.

(d) *Advising real estate brokers of property for sale.* As acquired property becomes available for sale, Form FmHA 1955C–3 (a), "Notice of Real Property for Sale (Single Family Residence)," and Form FmHA 1955C–3 (b), "Notice of Real Property for Sale (Farm Commercial or Special Property)," will be used to advise the brokers who have signed listing agreements. When the property is sold, or other change in the listed property occurs, all brokers will be notified using Form FmHA 1955C–4, "Notice to Brokers—Status Change of Listed Property."

(e) *Conditions for sale by real estate brokers.* (1) The property will be placed on an open listing.

(2) The real estate broker's fee will be that established pursuant to § 1955.118 (c) (3) and will be paid from proceeds of the sale if sufficient funds are available. Otherwise, Standard Form 1034 or other approved voucher will be processed to pay such fees. The cost will be charged to the appropriate insurance fund as a nonrecoverable cost. The broker's fee will not be paid until the transaction is closed. No fee will be paid if the broker or salesperson purchases the property for his or her own, a relative's or an affiliate's account.

(3) No offer from any prospective buyer for less than the listed price will be accepted.

(4) The County Supervisor will not accept any downpayment collected from a prospective buyer by a real estate broker before closing the transaction. Such money must be returned to the prospective buyer by the broker if the offer submitted is not accepted or if the prospective buyer applies as an eligible applicant but is determined ineligible for the requested loan. If, however, an offer is accepted and the prospective buyer refuses to close the transaction, the broker and the prospective buyer will agree on the amount of the fee to be paid by the prospective buyer.

(f) *Processing offers obtained by real estate brokers.* Such offers will be accepted or rejected in the order received in the County Office. Offers will be reviewed for compliance with price, repayment ability of buyer, and terms of sale if credit is involved. The first acceptable offer received will be accepted regardless of whether a higher offer is received later.

§§ 1955.119–1955.120 [Reserved]

§ 1955.121 Sale of acquired chattels.

(a) *Authority.* County Supervisors are authorized to sell acquired chattels for

V 41 I 152 AUG 5 76 UMI

the best cash price obtainable. Sale will be by one of the following methods:

(1) *Established public auction.* When practical, acquired chattels will be sold at a public auction held on a regularly scheduled basis.

(2) *Other public auction.* The contractual services of a professional auctioneer may be obtained to sell acquired chattels if it is not practical to sell such chattels at an established public auction. Services will be contracted in accordance with Subpart D of this Part 1955.

(3) *Private negotiated sale.* The County Supervisor may negotiate the sale of acquired chattels if it is not practical to sell the chattels by auction sale.

(4) *Sealed bid.* Items such as golf carts, recreation equipment and other specialty chattels may be sold through sealed bids if the County Supervisor determines that such method of sale will be in the best financial interest of the Government.

(5) *Sale with acquired real estate.* Chattels may be sold with acquired real estate if a higher price can be obtained. Proceeds from a joint sale will be applied to the respective loan accounts based on the value of the property sold. Form FmHA 440–21, "Appraisal of Chattel Property," will be used for appraising the chattels.

(b) *Public notice.* If sale is to be by any method other than established public auction, the County Supervisor will post notice of the sale in at least 5 public places not less than 5 days before the sale date, so that the public will be adequately informed of the planned sale. Form FmHA 455–8, "Notice of Sale," will be used. Newspaper advertising may be used if necessary to provide notice to potential buyers.

(c) *Transferring title.* The County Supervisor will complete Form FmHA 455–10, "Bill of Sale 'A' (Sale of Government Property)," and deliver it to the purchaser when payment for the chattels is received. Payment will be by cash, a cashier's or certified check, or postal or bank money order, or purchaser's check made payable to FmHA. Third party checks are not acceptable.

(d) *Reporting sale.* The County Supervisor will complete Form FmHA 455–14, "Invoice," covering all the property sold to each purchaser at the time of the sale. The original and one copy will be sent to the Finance Office, and one copy will be kept in the County Office operational files. Sales proceeds will be handled with other collections for the day.

§ 1955.122 Report on property not sold.

Any property not disposed of in accordance with this subpart should be readvertised in newspapers and publications not previously used to get larger coverage. If such advertising does not result in disposal of the property, the State Director will send the inventory file, advertisements, and a summary of the facts covering the efforts to sell the property to the Administrator, Attention: Property Management Staff, for further instructions.

§ 1955.123 Disposal of surplus property to or through other agencies.

If surplus real or chattel property cannot be sold, the State Director will forward all essential facts to the Administrator for consideration in disposing of such property to or through other Federal agencies such as the General Services Administration.

§§ 1955.124–1955.150 [Reserved]

EXHIBIT A—NOTICE OF FLOOD OR MUDSLIDE HAZARD AREA

To: Date: _____

This is to notify you that the property located at _____

_____

is in an area identified by the Federal Insurance Administration of the Department of Housing and Urban Development as having special (flood) (mudslide)[1] hazards. This identification means that the area has at least a one-percent chance of being (flooded) (affected by mudslide)[1] in any given year.

_____
(County Supervisor or Real Estate Broker)

Acknowledgment Date: _____

I hereby acknowledge receipt of the notice that the property located at _____

_____

is in a special (flood) (mudslide)[1] hazard area as identified by the Federal Insurance Administration of the Department of Housing and Urban Development. (Also if I purchase the property through a credit sale, I agree to insure the property against loss from (floods) (mudslides)[1] in accordance with requirements of the Farmers Home Administration.)

[1] Delete the hazard that does not apply.

Subpart D—Purchasing of Services for Program Property

§ 1955.151 Purpose.

This subpart describes procedures for purchasing goods and services for appraisal, inspection, maintenance, management, repair, and disposal of property. The monetary limit of a contract signed by a County Supervisor is $2,000. The monetary limit of a contract signed by the State Director or Property Management Specialist is $5,000. The monetary limit of a contract signed by the Director, Property Management Staff is $10,000. A contract entered into through this subpart for alteration or repair of property may not exceed $2,000. Requirements aggregating more than the foregoing limitations shall not be broken down into several purchases which are less than the limiting amount merely for the purpose of utilizing this method of purchase. This information pertains only to the systems of purchasing. Program approval must be first determined in accordance with the delegation of program authority.

§ 1955.152 [Reserved]

§ 1955.153 Publicizing the requirements.

(a) *Policy.* It is the policy of the Farmers Home Administration (FmHA) to seek maximum competition for all purchases consistent with local conditions and prudent business practices. The sources of potential suppliers will normally not extend beyond a 25-mile radius of the site of work; *Provided,* That there are suppliers within the area. Placing orders with small business concerns and minority business enterprises is specifically encouraged. Solicitations will not be limited to only well known suppliers. The area of competition must never be designed to exclude a particular potential supplier. Although adequate competition is sought, excess competition is not particularly desired for small dollar volume work. There is no prescribed number of potential suppliers to be solicited. If only two plumbing contractors are in the area of work, and both do bid work, solicit both.

(b) *Oral vs. written solicitations.* (1) Oral solicitations may be used for any contract when the estimated value of work does not exceed $2,000. A contract awarded from an oral solicitation will be reduced to writing.

(2) Written solicitations may be used for contracts of any value and must be used for all work when extensive specifications are required. Written solicitations normally will require written quotations. However, lump sum quotations given orally are sufficient in many instances. When oral quotations are acceptable, the solicitation must clearly state this information.

(c) *Solicitation announcement.*—(1) *Places of public notices.* When using written solicitations, in addition to sending them to prospective suppliers, copies of the solicitation will be posted on bulletin boards in public or semipublic places such as post offices, county courthouses, municipal buildings, libraries, and community buildings. Before posting, secure permission of the person in charge of the bulletin board.

(2) *Oral solicitations.* Oral solicitations are announced either by telephone or in person. The specifications, terms and conditions, and other pertinent information are announced by reading the information previously written in items 1 through 7 of Form FmHA 120–10, "Solicitation, Quotation, Purchase Order, Inspection and Invoice." (Available in FmHA County Offices.)

(3) *Length of publicizing period.* Solicitations should be publicized for sufficient time to permit prospective suppliers to examine the site, compute the price quotation, and deliver the response. The following is a guide to length of publicizing: Emergency work—no minimum period, Oral solicitations—3 workdays minimum, 7 workdays maximum, Written solicitations—1 week minimum, 3 weeks maximum.

§ 1955.154 Preparation of solicitation.

(a) *Oral solicitations.* Prepare an original and three written copies of Form FmHA 120–10 (Items 1 through 7 specifications—See Exhibit A for typical specifications for repair services. See Exhibits B, C, D, and H for examples of services. Exhibit E shows a request for contract action to be used when the estimated cost exceeds $2,000).

(b) *Written solicitations.* Prepare original and sufficient copies of Form FmHA 120–10 for the following: 2 copies for each prospective supplier, 3 copies for execution of purchase order, and additional copies for posting in public places.

§ 1955.155 Receiving, opening, and evaluation of quotations.

(a) *Receiving quotations.*—(1) *Oral quotations.* As oral quotations are received, either by telephone or in person, the FmHA employee receiving the response will record the supplier's name, address, telephone number, and the amount of the quotation including any unit prices that may be required. Care must be taken to preserve secrecy of the quotation until the deadline for submission arrives. Do not receive quotations in the presence of clients or potential suppliers.

(2) *Written quotations.* As written quotations are received, place them in a container which can be locked until opening time. If a supplier brings the quotation in person and does not have it in an envolope, furnish the supplier a blank envelope in which to place the quotation. Advise the supplier to be sure to include his name and address and to date the quotation before delivering it.

(b) *Opening of quotation.* At the precise time and date set for opening, open the quotations and if suppliers are present, read aloud the names and addresses of the suppliers and the amounts of the quotations.

(c) *Recording.* An employee other than the one announcing the quotations will record the tabulation information on Form FmHA 120–11, "Solicitation, Quotation, Purchase Order Continuation Sheet No. _____." Oral responses are recorded at the time they are received, but are announced at opening time if there are any prospective contractors present. (See Exhibit F for typical tabulation.)

(d) *Evaluation of quotations after opening.*—(1) *Do not make any pen or pencil marks or notations on written quotations.* Verify that the supplier's name, address, and quotation date have been listed. Then verify the mathematics of the computations, particularly when there are several units of work and unit prices. If there is an error, the corrected total should be entered on the recording sheet.

(2) *Do not correct figures on the written quotation.* If there is a discrepancy between the prices as extended and the unit price (which was multiplied by the number of units), the unit price is considered to be correct. On the recording sheet, correct the extensions and the total price.

(3) *Compare the supplier's prices with your own estimate of the work.* If the low price is within 15 percent of your estimate and also within the limit approved for expenditure, the purchase order may be executed on block 9 of Form FmHA 120–10 without further review. If the low quotation is an amount lower than your estimate by more than 15 percent, have this supplier verify the amount before signing the purchase order to be sure that an error was not made.

§§ 1955.156–1955.160 [Reserved]

§ 1955.161 Issuance of purchase order, acceptance, and notice to proceed.

(a) *Issuance of purchase order.* The purchase order is normally issued to the low responsive and responsible supplier by executing block 9 of Form FmHA 120–10, in an original and two copies. The word "responsive" means that the supplier has caapcity to do the work and has entered a realistic price. The word "responsible" means that the supplier has demonstrated the ability to perform an acceptable standard of work. A quotation that contains changes in the specifications made by the supplier is nonresponsive unless such change provides for an equal or better product or service. Nonresponsive quotations will be rejected.

(b) *Notification.* (1) The successful supplier may be initially notified by telephone that a purchase order is being issued to him. If there is no urgency, mail the original and two copies of Form FmHA 120–10 with block 9 completed.

(2) After the successful supplier has accepted the purchase order (see paragraph (c) of this section), notify unsuccessful suppliers of the name of the contractor and the amount of the contract. This notification is not mandatory, but is good business practice in order to retain the interest of suppliers.

(c) *Acceptance of purchase order.* Have the successful supplier (contractor) indicate acceptance of the purchase order by completing block 10 (date and signature) of the original and one copy of Form FmHA 120–10, and returning these forms to the issuing office.

(d) *Notice to proceed.* Notify the contractor at the time of receipt of the fully executed purchase order if he is to proceed with the work immediately, or if deferred the date to begin wlon the service or work.

§ 1955.162 Control of material and work.

(a) *Inspections.* Depending on the volume and complexity of the work and the authorized length of time of performance, from one to three or more inspections will be required. These inspections may be performed by the Contracting Officer or other FmHA employee. If the inspection involves many details, Form FmHA 424–12, "Inspection Report," may be used to record information and inform the contractor of deficiencies.

(1) *Category of inspections*—(i) *Final.* Always required after completion of all contract work.

(ii) *Prefinal.* An inspection made as completion nears, the purpose of which is to make a list of missing or defective work which must be accomplished or corrected before acceptance. This inspection is usually performed when extensive or complex work in involved.

(iii) *Interim.* One or more inspections made during the progress of work to ascertain compliance with material and workmanship requirements. These inspections are normally reserved for contracts containing complex specifications.

(b) *Contract modifications.* During the course of the contract it may be necessary to amend the contract as onsite conditions are uncovered or changed. Some modifications will involve changes in cost, or time of performance, or both. It is recommended that the Contracting Officer and the contractor agree to all terms of the modification before it is started. (See Exhibit G for examples of contract modifications.)

(c) *Government furnished property.* To repair or service Government owned property, the contractor may be required to reinstall or repair certain existing components and, at the same time, may also have to furnish or supply items. The contractor is responsible for the Government property under his control and this responsibility continues until work is completed and accepted by the Government. Obtain a receipt from the contractor at the time Government furnished property is turned over to him.

§ 1955.163 Acceptance of work.

This is the acknowledgment by the Contracting Officer that the contract work has been completed in accordance with the terms and conditions of the contract. Acceptance relieves the contractor of responsibility for Government prop-

V 41 N 152 AUG 5 76 UMI

erty, and it permits FmHA to proceed with program actions.

§ 1955.164 [Reserved]

§ 1955.165 Payment.

Payment to the contractor follows acceptance. (Exhibit B–2 shows partial payment.)

(a) *Partial payment.* A partial payment is made for a completed separable unit of contract work; e.g. maintenance is to be performed each month and the first month's work is finished.

(b) *Progress payment.* A progress payment is made when a percentage of the total contract work is attained. Only one progress payment is made each month. A progress payment must not exceed 90 percent of the value of accumulated work.

(c) *Final payment.* If there have been previous partial payments or progress payments, final payment is only for the last and unpaid separate unit of work or the unpaid percentage of the total work.

§§ 1955.166–1955.169 [Reserved]

§ 1955.170 Term contracts.

A term contract is written for service during a specific period, generally a fiscal or calendar year. The distinguishing characteristic of this contract from others is that while the specification is definite, the quantity of services and location of performance may be unknown at the time the procurement is started.

(a) *Single award term contract.* This type of procurement is typified by management or maintenance services. It is used when it is expected that there will be several security properties during the 1-year period of performance. Examples of use would be "Provide property management services in accordance with specifications at all assigned properties in Smith County during fiscal year 1976," or "Provide trash removal in accordance with specifications at assigned properties in magisterial districts A and B in calendar year 1975." Follow the solicitation and award procedures set forth in prior sections of this Subpart. The total amount paid for services under a single award term contract cannot exceed the specific contract limitations of § 1955.151.

(b) *Multiple award term agreements.* A multiple award term agreement is one where several suppliers agree to participate in a needed service activity; but for any specific instance of service, the function is performed by only one of the suppliers. The best example of this type of agreement is that where open listing agreements are entered into with all interested real estate brokers in a given geographical area. Each is given the same opportunity to find purchasers of inventory property in accordance with the terms and conditions set forth in the listing agreement. The service is performed and a payment made in each individual completed service to that contractor who provided the service. The amount paid for each individual completed service (the sale of one property) cannot exceed the specific limitations of § 1955.151.

§§ 1955.171–1955.200 [Reserved]

EXHIBIT A—TYPICAL SPECIFICATIONS FOR REPAIR TYPE CONTRACTS

Introduction—This is an example set of specifications for the repair of a hypothetical dwelling. The format and divisions follow the order of the 1973 HUD-MPS and contains only typical divisions. Each case must have its own specifications. The MPS is used as a basis for determining acceptable materials and construction methods in Chapters 5 and 6 and Site Conditions in Divisions 310 and 311 of Chapter 3.

EXAMPLE DWELLING SPECIFICATIONS REPAIR TYPE

DIVISION I—GENERAL REQUIREMENTS

101 *Scope of work under this contract.* All material, equipment, and construction must comply with all National, State, and Local codes and regulations and must be equal or better in quality and standards to the requirements contained in DHUD Minimum Property Stadards. The work shall consist of removing existing flooring, cabinets, sink, and hot water heater, and kitchen back door and rebuilding to the enclosed Drawings and Specifications.

102 *Government occupancy.* Where the dwelling is occupied by a tenant, work must be coordinated and scheduled so it does not leave the family without electrical, water, or heating service for a period in excess of 4 hours. Utility service shall not be interrupted during cold weather when it would cause temperature within the building to drop below 55 F. The occupant shall remove all personal items, etc., from the work areas prior to contractor beginning work. Water heater shall be reinstalled and placed in service within one working day.

103 *Removal of existing fixtures and cabinets.* All electrical, plumbing, cabinets, and flooring scheduled to be removed shall become property of the contractor and shall be removed from the site. Any fixtures scheduled to be removed and reinstalled shall be handled in such a manner as to prevent damage.

104 *Repair and refinishing.* Contractor shall repair or replace existing structural members or finishes damaged while performing the work required in this contract.

105 *Samples and shop drawings.* Before painting begins, the contractors shall furnish samples of the paint for approval of quality and color. Furnish samples before ordering for approval of color and quality of any finish materials. Shop Drawings are required of custom-built cabinets. All manufactured factory finished cabinets shall comply with ANSI A161.1 as required by the MPS.

105.1 Contractor shall furnish samples and materials for equipment brochures for approval before or during any color and quality of any finish materials or equipment.

105.1.1 Before painting begins, the contractor shall furnish samples of the paint, including the label indicating lead content, if any.

105.2 Shop drawings are required of all custom-built cabinets. All manufactured factor finished cabinets shall comply with ANSI A161.1 standards as required by the MPS.

106 *Incidental work.* Incidental work which is inherent in remodeling work, auch as repairing cracks in wall board, patching holes left from removal of items, etc., shall be considered a subsidiary item for which no additional payment will be made.

107 *Method of measurement and basis for payment.* The unit of measurement shall be lump sum for all work required in the contract. Upon completion and acceptance the contractor shall be paid at the contract lump sum price.

DIVISION II—SITE WORK

201 *Main entrance walk repair.*

201.1 Carefully remove to reduce uncontrolled cracking about 12 linear feet of concrete walk in front of dwelling at 1234 Main Street, Yourton; being those three 4-foot sections that have become raised from original level by tree roots and the freeze-thaw cycle.

201.1.1 Cut all roots which are above base grade back at least 1 foot on both sides of walk and remove.

201.2 Provide sand to form a new base for concrete walk. Compact sand by hand tamping. Level to original base grade.

201.3 Reinstall and mortar in place the three 4-foot concrete sections removed to provide a true and continuous level walkway as if original walk.

DIVISION III—CONCRETE

301 *Carport concrete slab floor replacement.*

301.1 Remove existing broken concrete slab in carport and remove from site.

302 Place new carport concrete slab of nominal dimensions of 20 feet by 12 feet by 4 inch thickness. Provide ¾-inch by 4-inch expansion joint between dwelling and carport. Concrete shall be designed to acquire 7-day strength of 2,000 psi and a 28-day strength of 3,000 psi. The slab shall have a light broom finish. Concrete shall be properly moisture cured for first 7 days. Slab shall slope away from dwelling at rate between 1 inch and 2 inches in 12 feet.

303 Clean up concrete spillage and remove forms from premises returning surrounding grade to near original shape providing slope away from carport to match dwelling slope at about 6 inches in 10 feet to a drainage swale.

DIVISION IV—MASONARY

401 Remove cracked mortar in the masonary material to a depth of not less than 1 inch in existing exterior walls as follows:

a. The zig-zag crack in the west wall at the North wall from top to bottom, approximately 16 feet total length.

b. The zig-zag crack in the west wall at the North end under the window, approximately 8 feet total length.

c. The two zig-zag cracks in the South wall from top to bottom, approximately 16 feet total length.

d. The horizontal crack at floor level in the carport on the East wall.

402 Repoint all cracks in the masonry mortar. Existing cracked mortar dust shall be cleaned out of cracks by air pressure and dampened to provide slower setting time of mortar.

403 New mortar of a mix or one part portland cement, type I, II or III, one part hydrated lime, five parts clean washed sand and sufficient water for plasticity shall be used. Place mortar in cracks and thoroughly compact. Finish shall be concave matching existing undamaged mortar.

DIVISION V—METALS

501 The two existing damaged wooden columns shall be removed from the front of the storage area. Provide temporary adequate support for the beam above during construction.

502 Install two 4-inch ID steel structural columns having a 3/16-inch integral steel base plate and top plate of not less than 64 square inch surface.

503 Concrete floor shall be cut to a depth of 2 inches below the surface in dimensions to fit the base plates. Base plate shall be embedded in mortar struck flush with floor surface. After 28-day moisture curing, seal the shrinkage crack around steel column with coal-tar pitch carefully applied so as to prevent water entrance and neat appearance with no spillage on concrete surface. Top plates shall be drilled and secured to beam with four ¼-inch by 3-inch lag screws.

DIVISION VI—CARPENTRY

601 Install ⅜-inch minimum thickness exterior grade plywood exterior covers over all first floor windows and basement windows. Installation shall be accomplished by bolting covers to 2 x 4 cross bars on the inside of the building. Windows shall be lowered or raised as required. At least two ¼-inch carriage bolts per cross bar shall be used. See detail drawing.

DIVISION VII—THERMAL AND MOISTURE PROTECTION

701 Provide positive exterior foundation drainage. Finish grade slope from 8 inches below bottom wooden members to a drainage swale at a rate of about 6 inches in 10 feet to carry ground water away from building and the site.

702 Provide additional blown-in glass fiber insulation in the attic. The total R value of the ceiling and insulation shall be brought up to a minimum of R20. Provide Certification of type. Provide protection against edge blowing of loose insulation by use of a baffle which allows a 2-inch positive air flow between insulation and underside of roof sheathing in the rafter spaces. Method must have prior approval of the FmHA Contractor Officer.

DIVISION VIII—DOORS, WINDOWS AND GLAZING

801 Replace existing front entrance door frame with equal or better quality wooden material.

802 Furnish and install new solid core Type I hardwood slab exterior front entrance door with new approved lock. Use existing 3 butt hinges from damaged door.

803 Provide and apply exterior and interior finish for entrance door matching colors as approved by FMHA. Provide new weather stripping for exterior front entrance door. Prime seal top and bottom of door before installation of new weather stripping.

804 Replace 12 broken window panes including picture window. Provide SSB in sizes smaller than 36 by 24 inches and DSB for larger sizes up to 36 by 36 inches. Picture window approximate size 48 inches by 48 inches shall be crystal plate or approved equal.

DIVISION IX—FINISH MATERIALS

901 Exterior Finishes.

901.1 Repair built-up roof matching undamaged areas.

901.2 Clean exterior wood siding for preparation of new paint. Remove loose scales and feather sand paper edges of paint.

901.2.1 Provide and apply one coat of exterior vinyl acrylic paint when temperature will not reach below 50 degrees Fahrenheit for 24 hours.

DIVISION X—EQUIPMENT

1001 Provide and install new kitchen base cabinet with new counter top as approved by FmHA.

DIVISION XII—FURNISHINGS

1101 Provide and install new inlaid sheet linoleum in kitchen. Color and pattern as approved by FmHA.

1102 Relay loose vinyl asbestos tiles in bathrooms.

DIVISION XV—MECHANICAL

1501 Remove damaged electric water heater.

1502 Replace water heater with electric water heater and install according to N.E.C. Capacity shall be 40-gallon glass lined tank with 18 gallons per hour recovery and a minimum 5-year warranty.

1503 Water heater connection pipes shall be of electrically inert materials.

1504 Replace missing water closet and stool in bathroom with approved fixture.

1505 Replace missing submersible pump in water well with deep well 4-inch submersible pump unit, 110V AC, capacity of 20 GPM at 60-foot lift.

DIVISION XVI—ELECTRICAL

1601 Check Electrical Service Entrance panel. Replace or repair circuit breakers as necessary.

1602 Repair as necessary and Reset Dining Room Ceiling light fixtures.

1603 Replace cover plates on (number) convenience outlets and switches.

1604 Provide and install approved smoke detector on separate electrical circuit. Locate detector in Bedroom Hall ceiling near opening to Dining Room.

SPECIFICATIONS

1. Use diligent efforts to place tenants without descrimination in all unoccupied properties on a month-to-month basis at monthly rates set forth in the assignment of properties notices. Obtain rental agreement from each tenant.

2. Collect all rents and remit to FmHA monthly.

3. Cause the peaceable eviction without court action of persons for nonpayment of rent or other significant violations of rental agreements.

4. Prepare and submit a monthly business report.

5. Cut grass monthly and remove any accumulated trash monthly on all unoccupied properties.

6. Inspect all properties monthly for security and condition.

7. Make minor repairs (not to exceed $25.00 per building). Include invoice for repairs with monthly statement for reimbursement.

8. Advise County Supervisor immediately of any needed repairs estimated in excess of $25.00. Proceed with repair work for that authorized. Submit invoices for reimbursement.

TERMS

For properties assigned between the 1st and 15th of any month, the full monthly fee will be paid for that month. For properties assigned after the 15th, 1/2 fee will be paid. For properties removed from assignment between the 1st and 15th of a month, no fee will be paid for that month. For properties removed after the 15th, a 1/2 fee will be paid.

[FR Doc.76-22571 Filed 8-4-76;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 76-GL-8; Amdt. 39-2685]

PART 39—AIRWORTHINESS DIRECTIVES

Airborne Vacuum Pump Models 113A, 200CC, 200CW, 220CC, 220CW, 221CC, 222CW

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring that all Airborne engine driven vacuum pump models 113A, 200CC, 200CW, 220CC, 220CW, 221CC, and 222CW (certain early serial numbers only), manufactured prior to January 1966, be removed and another serviceable approved air pump installed, was published in 41 FR 14894 and 14895.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

§ 39.13 [Amended]

AIRBORNE MANUFACTURING COMPANY. Applies to Models 113A, 200CC, 200CW, 220CC, 220CW, 221CC, 222CW engine driven pumps.

Compliance is required within the next 25 hours time in service, or by next annual inspection, whichever occurs first, after the effective date of this AD, unless already accomplished.

To prevent loss of vacuum pressure with the accompanying loss of directional or attitude gyro function accomplish the following:

Remove from service and replace with another serviceable approved vacuum pump all Airborne engine driven vacuum pumps manufactured prior to 1966 for which the model and serial numbers are listed below:

Model	Year	Serial Nos.
113A	1960	1D1 through 12D1199 inclusive.
	1961	1E1 through 12E2288 inclusive.
	1962	1F1 through 12F3411 inclusive.
	1963	1G1 through 12G4230 inclusive.
	1964	1H1 through 12H1683 inclusive.
	1965	1J1 through 12J210 inclusive.
200CC, 200CW	1963	5G43 through 12G903 inclusive.
	1964	1H1 through 12H5623 inclusive.
	1965	1J1 through 12J9397 inclusive.
220CC, 220CW	1964	2I11 through 12I1680 inclusive.
	1965	1J1 through 4J303 inclusive.
221CC, 222CW	1965	3J1 through 12J371 inclusive.

Airborne Manufacturing Company Service Letter No. 16, dated January 29, 1976, also pertains to this subject.

This amendment becomes effective August 11, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).)

Issued in Des Plaines, Illinois on July 28, 1976.

LEON C. DAUGHERTY,
Acting Director,
Great Lakes Region.

[FR Doc.76-22681 Filed 8-4-76;8:45 am]

[Airworthiness Docket No. 74-WE-52-AD; Amdt. 39-2683]

PART 39—AIRWORTHINESS DIRECTIVES

Certain AiResearch Model TPE331 -1, -2, -3, -5, and -6 Series Engines

Amendment 39-2054 (39 F.R. 44439), AD 74-26-11, as amended by Amendments 39-2092 (40 F.R. 6771), 39-2214 (40 F.R. 22126), 39-2254 (40 F.R. 28605), 39-2367 (40 F.R. 42740), and 39-2383 (40 F.R. 48499) requires inspection and modification to the oil supply system for the high speed pinion gear bearing assembly. This action was required due to numerous reported instances of loose carrier bolts and oil transfer tube failures on certain TPE331 -1, -2, -3, -5, and -6 series engines. Field experience indicated that bolts part number MS21279-07 securing the bearing carrier part number 896734 loosened allowing the bearing carrier to also become loose. In addition, the attaching bracket on oil transfer tube part number 3101187-1 breaks which contributes to tube failure and subsequent loss of engine oil pressure. The corrective actions in this AD were effective in reducing bearing carrier loosening and lubricating tube failures.

However, recent field experience reflects journal bearing failures which have been attributed to a broken lubricating adapter part number 3101210-1. For this reason, the agency has now determined that the terminating action required by Amendment 39-2383 of AD 74-26-11 was not a completely effective means of eliminating the unsafe condition.

Therefore, AD 74-26-11, as amended, is being superseded by a new AD that requires replacement of the original aluminum lubricating adapter, part number 3101210 -1 or -2, with a new steel lubricating adapter. This new adapter is secured by the addition of a key washer and a new bolt. This modification is required on all Model TPE331 -1, -2, -3, -5, and -6 engines which have the high speed pinion journal bearing configuration and should be accomplished in accordance with the AiResearch Service Bulletin TPE331-72-0092 Revision 5, dated June 8, 1976, or later approved revisions, notwithstanding prior compliance with AD 74-26-11.

The borescope inspection for cracks in the oil transfer tube part number 3101187-1, required at 100-hour intervals by AD 74-26-11, will continue to be required.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

AIRESEARCH MANUFACTURING COMPANY OF ARIZONA. Applies to the following groups of Model TPE331 series engines:

Group A: TPE331-1-101B, S/N 93058 through 93061; TPE331-1-151A, S/N 92249 and 92336 through 92354; TPE331-1-151K, S/N 26001 through 26014; TPE331-1-151G, S/N 91193 through 91198; TPE331-2-201A, S/N 90218 through 90278, TPE331-3U-303G or TPE331-3UW-303G, S/N 03108, 03109, and 03112 through 03180 and 05031 through 05042; TPE331-3U-307G, S/N 03001 and 03009; TPE331-5-251C, S/N 22006 through 22057; TPE331-5-251K, S/N 06113, 06190 through 06442 and 06444 through 06454; TPE331-6-251M or TPE331-6-252M, S/N 20144 and 20182 through 20467 and 20469 through 20533; TPE331-6-252B, S/N 27001 and 27002, and any Model TPE331-1, -2, -3, -5, or -6 engines which have been modified in accordance with AiResearch Service Bulletin TPE331-72-0064 dated February 1, 1974 or subsequent revisions.

Group B: TPE331-1-101B, S/N 93062, 93063; TPE331-1-151A, S/N 92355 through 92357; TPE331-1-151K, S/N 26015 through 26023; TPE331-2-201A, S/N 90279 through 90296; TPE331-3U-303G or TPE331-3UW-303G, S/N 03181 through 03197, 05043 through 05052; TPE-5-251C, S/N 22058 through 22119; TPE-331-5-251K, S/N 06443, 06455 through 06556; TPE 331-6-251M or TPE331-6-252M, S/N 20534 through 20577.

Group C: TPE331-1-101F, S/N 98017 through 98019; TPE331-1-151K, S/N 91194 and 91195; TPE331-2-201A, S/N 90297 through 90303; TPE331-3U-303G or TPE331-3UW-303G, S/N 05053 through 05058, S/N 95016, S/N 03001, S/N 03010, S/N 03011, and S/N 03198 through 03205; TPE331-5-251K, S/N 06557 through 06576; TPE331-5-251C, S/N 22120 through 22139, TPE331-5-251M, S/N 28001 through 28005; TPE331-6-251M, S/N 20488, S/N 20017, and S/N 20018; TPE-331-6-252B, S/N 27003 and S/N 27004, and any Model TPE331 -1, -2, -3, -5, or -6 engines which have been modified in accordance with AiResearch Service Bulletin TPE-331-72-0064, dated February 1, 1974, or subsequent revisions.

NOTE.—Operators of airplanes incorporating the engines affected by this airworthiness directive are advised to examine the applicability section, Configuration Identification, Table 1, of AiResearch Service Bulletin TPE331-72-0092, Revision 5, dated June 8, 1976, or later FAA-approved revision, to identify the extent of work required by this airworthiness directive which may have been previously performed.

Compliance required as indicated.

To detect and prevent fatigue failures of the high speed pinion (HSP) bearing oil transfer tube, supply tube, and lubricating adapter, and to detect, correct, and prevent loosening of the HSP bearing carrier bolts, accomplish the following:

(a) For engines in Group A, above, within the next 100 hours time in service after December 30, 1974 (the effective date of Amendment 39-2054, AD 74-26-11), unless already accomplished, accomplish the following in accordance with AiResearch Service Bulletin TPE331-72-0092, dated December 9, 1974, or later FAA-approved revision:

(1) Replace the two high speed pinion bearing carrier bolts, P/N MS21279-07, with two bolts, P/N MS9489-07, and lockplate, P/N 3101483-1.

V 41 152 AUG 5 76 UMI

(2) Inspect to insure proper torque on bolt, P/N MS21279–10, securing lube nozzle, P/N 3101209, and

(3) If aluminum lube adapter, P/N 3101210, is not replaced as described in paragraph (d) of this directive, inspect to insure proper torque on bolt, P/N MS21297–07, securing this lube adapter.

(b) For engines in Group A and Group B, above, which incorporate the oil transfer tube, P/N 3101187–1, within the next 100 hours time in service after December 30, 1974, unless already accomplished within the last 100 hours time in service prior to December 30, 1974, and thereafter at intervals not to exceed 200 hours time in service from last inspection, until the modifications of paragraph (c) are accomplished, accomplish the following in accordance with AiResearch Service Bulletin TPE331–72–0092, dated December 9, 1974, or later FAA-approved revision:

(1) Inspect the integral support bracket on oil transfer tube, P/N 3101187–1, for cracks or separation, and

(2) If the oil transfer tube bracket is cracked or separated, before further flight, replace both the oil transfer tube and oil supply tube with new tubes, oil transfer tube, P/N 3101475–1, and oil supply tube, P/N's 3101473–1 or 3101473–2, and associated hardware.

(c) For engines in Group A and Group B, above, which incorporate the oil transfer tube, P/N 3101187–1, before accumulating a total of 1800 hours time in service after December 30, 1974, unless already accomplished, replace the oil transfer tube, P/N 3101187–1, with one of the following serviceable oil transfer tubes in accordance with AiResearch Service Bulletin TPE331–72–0092, Revision 1, dated, January 1, 1975, or later FAA-approved revision:

(1) P/N 3101187–2 which has been heat-treated and reidentified as P/N 3101187–3,

(2) P/N 3101187–3, or

(3) P/N 3101475–1.

(d) For engines in Group A, Group B, and Group C, above, within the next 200 hours time in service after the effective date of this AD, unless already accomplished, accomplish the following in accordance with AiResearch Service Bulletin TPE331–72–0092, Revision 5, dated June 8, 1976, or later FAA-approved revision:

(1) Replace the aluminum main journal bearing lubricating adapter, P/N's 3101210–1 or 3101210–2, with a new steel lubricating adapter, P/N's 3101474–1 or 3101474–2, and

(2) If two carrier bolts, P/N MS9489–07, and lockplate, P/N3101483–1, are not replaced, inspect these carrier bolts manually for any indication of looseness. If loose bolts are found, before further flight install a new lockplate, P/N 3101483–1, and retorque the two carrier bolts, P/N MS9489–07.

(e) Equivalent procedures, inspections, modifications, or parts may be used when approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(f) Aircraft may be flown to a base for accomplishment of inspections and modifications required by this AD per FAR's 21.197 and 21.199.

This supersedes Amendment 39–2054 (39 F.R. 4439), AD 74–26–11, as amended by Amendments 39–2092 (40 F.R. 6771), 39–2214 (40 F.R. 22126), 39–2254 (40 F.R. 32605), 39–2367 (40 F.R. 42740), and 39–2382 (40 F.R. 48499).

This amendment becomes effective August 6, 1976.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California, on July 23, 1976.

ROBERT H. STANTON,
Director, FAA Western Region.

[FR Doc.76–22378 Filed 8–4–76;8:45 am]

[Docket No. 15970; Amdt. 39–2689]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation Limited Model DH–114 "Heron" Airplanes

There have been reports of cracks found in the center lug of the left and right hand side of the upper carry through boom, P/N 14FS345, which affect the structural integrity of the wing to fuselage attachment and could result in separation of the wing in flight on Hawker Siddeley Aviation Ltd. Model DH–114 "Heron" airplanes. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require repetitive inspection of the upper carry through boom and replacement, if necessary, on Model DH–114 airplanes.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION LIMITED. Applies to DH–114 "Heron" airplanes, all series and approved variants, certificated in all categories.

Compliance required as indicated.

To prevent possible failure of the wing to fuselage attachment and loss of the wing in flight, accomplish the following:

(a) Within the next 10 hours time in service after the effective date of this AD, unless already accomplished, inspect the upperlugs of the left and right hand side of the upper carry through boom, P/N 14FS 345, for cracks using an ultrasonic method of inspection, in accordance with Appendix 1 of Hawker Siddeley Aviation Ltd., Technical News Sheet TNS F.19, Issue 1, dated July 26, 1976, or an FAA approved equivalent.

NOTE.—This inspection can be conducted with the wing installed.

(b) If no cracks are found during the inspection specified in paragraph (a) of this AD, repeat the inspection at intervals not to exceed 1200 flight hours or two calendar years, whichever occurs sooner, until the wings are overhauled in accordance with Hawker Siddeley Aviation Ltd., Technical News Sheet TNS W.9, Issue 5, dated July 12, 1971, and thereafter inspect the area in accordance with paragraph (a) of this AD at intervals not to exceed 3 calendar years.

(c) If cracks are found during any of the inspections specified in paragraphs (a) or (b) of this AD, remove the wing and further inspect by ultrasonic and dye penetrant method in accordance with Appendix 2 of Hawker Siddeley Aviation Ltd., Technical News Sheet TNS F.19, Issue 1, dated July 26, 1976, or an FAA-approved equivalent.

(d) If during any inspection required by this AD, cracking is found in only one of the three lugs per side of the aircraft and exists on only one side of the bolt hole in a horizontal direction outboard of the bolt hole, remove the wing and inspect the lug for crack propagation or further cracking in either of the two remaining lugs by ultrasonic and dye penetrant method, in accordance with Appendix 2 of Hawker Siddeley Aviation Ltd., Technical News Sheet TNS F.19, Issue 1, dated July 26, 1976, or an FAA-approved equivalent at intervals not to exceed 300 flight hours or 3 months, whichever occurs sooner.

(e) If, during any inspection specified in this AD, cracking is found in more than one lug per side or the cracking of any one lug extends to both sides of the bolt holes, before further flight, replace the carry-through boom with a serviceable part of the same part number and continue to inspect in accordance with paragraphs (b), (c), and (d) of this AD.

(f) Report the findings of the inspection specified in paragraph (a) of this AD to Chief, Aircraft Certification Staff, FAA, c/o American Embassy, APO New York, N.Y. 09667.

(Reporting approved by OMB No. 04–R–0174).

This amendment becomes effective August 16, 1976.

Issued in Washington, D.C., on July 30, 1976.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.76–22701 Filed 8–4–76;8:45 am]

[Airspace Docket No. 76–AL–10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone at Anchorage, Alaska

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the description of the Anchorage, Alaska, control zone by eliminating the control zone extension southwest of the Campbell Lake nondirectional radio beacon (NDB).

On July 15, 1976, the Campbell Lake NDB was relocated to latitude 61°10'18" N., longitude 150°02'44" W., and the NDB–A instrument approach procedure to Anchorage International Airport was canceled. The Anchorage control zone extension to the southwest of Campbell NDB which was designated for the protection of this approach procedure is no longer needed. This amendment deletes the Anchorage control zone southwest extension.

Since this alteration deletes a portion of the Anchorage control zone not needed for the protection of instrument flight procedures, and therefore imposes less

of a burden upon the public than previously existed, notice and public procedure hereon is unnecessary. In order to provide sufficient time for the change to be made an aeronautical charts, this amendment will be effective on September 9, 1976.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., September 9, 1976, as hereinafter set forth.

§ 71.171 [Amended]

In § 71.171 (41 FR 355) the Anchorage, Alaska, (Anchorage International Airport) control zone is amended by deleting "within 2.5 miles each side of the Campbell Lake RBN 209° bearing extending from the 5-mile radius zone to 8.5 miles southwest of the RBN;"

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1328(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Anchorage, Alaska, on July 26, 1976.

LYLE K. BROWN,
Director, Alaskan Region.

[FR Doc.76–22555 Filed 8–4–76;8:45 am]

[Airspace Docket No. 76–SO–71]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Selma, Ala., control zone.

The Selma control zone is described in § 71.171 (41 FR 355). It is necessary to amend the description by correcting the coordinates of Craig Air Force Base, by deleting two existing extensions, and by increasing the size of the control zone from 5 to 6 miles to provide adequate controlled airspace for Category E type aircraft. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 4, 1976, as hereinafter set forth.

§ 71.171 [Amended]

In § 71.171 (41 FR 355), the Selma, Ala., control zone is amended to read:

Within a 6-mile radius of Craig AFB (Lat. 32°20'32" N., Long. 86°59'15" W.). This control zone is effective from 0600 to 1800 hours, local time, Monday through Thursday; 0600 to 2000 hours, local time, Friday; 0900 to 1600 hours, local time, Saturday; 1000 to 1600 hours, local time, Sunday; and closed on holidays.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 26, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.76–22554 Filed 8–4–76;8:45 am]

[Airspace Docket No. 76–SO–70]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Monroe, N.C., transition area.

The transition area is described in § 71.181 (41 FR 440). The description includes an extension 14 miles wide and 18.5 miles long which was designated for protection of aircraft executing an NDB instrument approach to Monroe Airport. The RBN upon which the extension was predicated has been relocated and it is necessary to revoke the existing extension and replace it with a new extension which will be approximately 2.5 miles in length and 6 miles in width. It is also necessary to correct the geographical coordinates of the RBN and the airport. Since this amendment is less restrictive in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 4, 1976, as hereinafter set forth.

§ 71.181 [Amended]

In § 71.181 (41 FR 440), the Monroe, N.C., transition area is amended to read:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Monroe Airport (Lat. 35°01'13" N., Long. 80°37'08" W.); within 3 miles each side of the 057° bearing from the Wesley RBN (Lat. 35°01'25" N., Long. 80°37'01" W.), extending from the 6.5-mile radius to 8.5 miles northeast of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in East Point, Ga., on July 26, 1976.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.76–22553 Filed 8–4–76;8:45 am]

[Docket No. 15967; Amdt. No. 1032]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 F.R. 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS–230, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, effective September 23, 1976.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-12659]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Delegation of Authority to Directors of the Division of Market Regulation and Office of Reports and Information Services

Under Section 17A(c)(3)(C) of the Securities Exchange Act of 1934 (the "Act"[1]), a transfer agent registered with the Commission may, upon such terms and conditions as the Commission deems necessary or appropriate in the public interest, for the protection of investors, or in furtherance of the purposes of Section 17A, withdraw from registration by filing a written notice of withdrawal with the Commission. Furthermore, under that Section, if the Commission finds that any transfer agent, which is registered with it or which has an application for registration pending with it, is no longer in existence or has ceased to do business as a transfer agent, the Commission, by order, shall cancel the registration or deny the application.

The regulations of the Commission relating to general organization are being amended to delegate authority to the Directors of the Division of Market Regulation and the Office of Reports and Information Services: (1) To set terms and conditions upon which transfer agents registered with the Commission may withdraw from registration as a transfer agent by filing a written notice of withdrawal and (2) to issue orders cancelling registrations of transfer agents registered with the Commission or denying applications for registration as a transfer agent with the Commission, if such transfer agents are no longer in existence or have ceased to do business as transfer agents.

[1] 15 U.S.C. 78a *et seq.*, as amended by Pub. L. No. 94-29 (June 4, 1975).

The text of the amendments pertaining to the Commission's regulations with respect to delegated authority follows:

Section 200.30-3 is amended by adding two new paragraphs (a)(22) and (a)(23) thereto and 17 CFR 200.30-11 is amended by adding two new paragraphs (a)(4) and (a)(5), respectively as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

• • • • • •

(a) • • •

(22) Pursuant to Section 17A(c)(3)(C) of the Act (15 U.S.C. 78q-1(c)(3)(C)), to set terms and conditions upon which transfer agents registered with the Commission may withdraw from registration as a transfer agent by filing a written notice of withdrawal.

(23) Pursuant to Section 17A(c)(3)(C) of the Act (15 U.S.C. 78q-1(c)(3)(C)), to authorize the issuance of orders cancelling registrations of transfer agents registered with the Commission or denying applications for registration as a transfer agent with the Commission, if such transfer agents are no longer in existence or have ceased to do business as transfer agents.

§ 200.30-11 Delegation of authority to Director, Office of Reports and Information Services.

• • • • • •

(a) • • •

(4) Pursuant to Section 17A(c)(3)(C) of the Act (15 U.S.C. 78q-1(c)(3)(C)), to set terms and conditions upon which transfer agents registered with the Commission may withdraw from registration as a transfer agent by filing a written notice of withdrawal.

(5) Pursuant to Section 17A(c)(3)(C) of the Act (15 U.S.C. 78q-1(c)(3)(C)), to authorize the issuance of orders cancelling registrations of transfer agents registered with the Commission or denying applications for registration as a transfer agent with the Commission, if such transfer agents are no longer in existence or have ceased to do business as transfer agents.

The Commission finds, in accordance with Sections 5 U.S.C. 553(b)(3)(B) and 553(d)(3) of the Administrative Procedure Act, that the foregoing action is related solely to agency organization, procedure or practice and should be effective immediately in order to provide an orderly procedure for the handling of withdrawals, cancellations and certain denials. Accordingly, notice and public procedure are not necessary with respect to the foregoing action.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JULY 26, 1976.

[Release Nos. 33-5730, 34-12663, 35-19630, AS-194]

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935, AND INVESTMENT COMPANY ACT OF 1940

Reporting Disagreements With Former Accountants; Adoption of Amendments of Requirements

In Securities Act Release No. 5701 issued on April 29, 1976 [41 FR 19132] the Commission proposed an amendment of Regulation S-X [17 CFR Part 210] which modifies previously existing requirements for disclosure in a note to the financial statements of certain disagreements with former accountants regarding accounting and financial disclosure matters. Nine letters of comment, all favorable, were received in response to the proposal. The Commission has determined to adopt the amendments substantially as proposed.

BACKGROUND

In Accounting Series Release (ASR) No. 165, December 20, 1974 [40 FR 1010] the Commission announced adoption of certain amendments of Form 8-K [17 CFR 249.308] Regulation S-X [17 CFR Part 210] and Schedule 14A [17 CFR 240.14A-101] of the proxy rules. The amendments then adopted were originally proposed on October 11, 1974, in Securities Act Release No. 5534 [39 FR 37999].

Among other matters, Rule 3-16(s) of Regulation S-X [17 CFR 210.3-16(s)] was adopted by that release. That rule called for disclosure in a note to financial statements of two distinct matters, as follows:

1. The *fact* of a reported disagreement. The first sentence of the rule stated:

> If, within the twenty-four months prior to the date of the most recent financial statements, a Form 8-K has been filed reporting a change of accountants and included in such filing there is a reported disagreement on any matter of accounting principles or practices or financial statement disclosure, and if such disagreement, if differently resolved, would have caused the financial statements to differ materially from those filed, state the existence and nature of the disagreement.

In connection with this portion of the rule, the text of ASR 165 states:

> This disclosure is believed necessary to put readers of the financial statements on notice that such a disagreement existed which could have significantly affected the statements.

2. The *effect on financial statements* of changing accountants as regards a reported disagreement. The second sentence of the rule stated:

> In addition, if during the fiscal year in which the change in accountants took place or during the subsequent fiscal year there have been any transactions or events similar to those which involved a reported disagreement and if such transactions are material and were accounted for or disclosed in a manner different from that which the former accountants apparently concluded was required, state the effect on the financial statements if the method which the former accountant apparently concluded was required had been followed.

In connection with this portion of the rule, the text of ASR 165 states, in part:

> This disclosure will make investors aware of situations where alternative accounting approaches may be followed and are favored by at least one professional accountant, and the effect of such alternative approaches. In addition, it is believed that such disclosure requirements may have the effect of discouraging shifts in accountants simply to obtain approval of an alternative accounting approach.

It should be noted that the *fact* of a disagreement with a former accountant is required to be reported in connection with rules of the Commission other than Rule 3-16(s) of Regulation S-X [17 CFR 210.3-16(s)]—Specifically in Form 8-K following the resignation or dismissal of the former accountant or the engagement of a new accountant, and under Item 8 of Schedule 14A of the proxy rules. On the other hand, disclosure of the *effect on financial statements* of changing accountants as regards a disagreement reported in Form 8-K is required only by Rule 3-16(s) of Regulation S-X [17 CFR 210.3-16(s)].

OBJECTIONS TO EXISTING RULE

Several objections had been raised to continuing the requirement for disclosure in financial statements of the fact of disagreement in circumstances where disclosure regarding the effect on financial statements is not required.

1. In the vast majority of cases, disagreements regarding matters of accounting principles or practices or financial statement disclosure are resolved to the satisfaction of the former accountant and the same kind of transactions or events continue to be accounted for or disclosed consistent with what the former accountant apparently concluded was required. In such circumstances, the financial statements have not been affected by a treatment different from that which the former accountant apparently concluded was required. Thus, while a different resolution of the matter of disagreement could have affected the financial statements, the statements have not been so affected.

2. Many believe the requirements of Form 8-K and the proxy rules provide adequate notification to those users of financial statements who may deem the disclosure material to their considerations.

3. Disclosure of only the fact of a disagreement in a note to financial statements was intended only to inform readers that the financial statements might have been prepared differently if the matters of disagreement had been resolved differently and not to raise questions about the adequacy or fairness of the statements presented. This may be misunderstood.

4. Auditor changes that precipitate the reporting of disagreements on Form 8-K are not numerous and only a small portion of those cases is expected to involve circumstances where the successor accountant deems accounting principles or practices or financial statement disclosures acceptable which the former accountant found unacceptable. Thus, if the vast majority of notes to financial statements regarding "disagreements on accounting and financial disclosure matters" do not require any disclosure of the effect on the financial statements, there may be a tendency for readers to give less attention than warranted to those which do contain disclosures about the effects.

AMENDMENT OF RULE 3-16(s) [17 CFR 210.3-16(s)]

The Commission has concluded that these objections have substantial validity. Accordingly, it is adopting the amendment to Rule 3-16(s) of Regulation S-X [17 CFR 210.3-16(s)] to require disclosure in a note to the financial statements of the existence and nature of a previously reported disagreement only when disclosure is also required of the effect on financial statements if the method which the former accountant apparently concluded was required had been followed, i.e., only in those cases when the successor accountant found acceptable what the former accountant found unacceptable.

Pursuant to section 23(a)(2) of the Exchange Act the Commission has carefully considered the impact which the foregoing rule amendment would have upon competition and has concluded that, to the extent the amendment imposes burdens on competition, such burdens are necessary and appropriate in furtherance of the purposes of the securities laws.

1. Section 210.3-16 is amended by adding a new paragraph (s).

§ 210.3-16 General notes to financial statements. (See Release No. AS-1.)

• • • • • •

(s) *Disagreements on accounting and financial disclosure matters.* If, (1) within the twenty-four months prior to the date of the most recent financial statements, a Form 8-K has been filed reporting a change of accountants, (2) included in the Form 8-K there was a reported disagreement on any matter of accounting principles or practices or financial statement disclosure, (3) during the fiscal year in which the change of accountants took place or during the subsequent fiscal year there have been any transactions or events similar to those which involved the reported disagreement, and (4) such transactions or events were material and were accounted for or disclosed in a manner different from that which the former accountants apparently would have concluded was required, state the existence and nature of the disagreement and also state the effect on the financial statements if the method had been followed which the former accountants apparently would have concluded was required. These disclosures need not be made if the method asserted by the former accountants ceases to be

V 41 152 AUG 5 76 UMI

generally accepted because of authoritative standards or interpretations subsequently issued.

* * * * * *

(Secs. 5, 7, 8, 10 and 19(a) [15 U.S.C. 77f, 77g, 77h, 77j, 77s] of the Securities Act of 1933; Sections 12, 13, 15(d) and 23(a) [15 U.S.C. 78l, 78m, 78o(d), 78w] of the Securities Exchange Act of 1934; and Sections 5(b), 14 and 20(a) [15 U.S.C. 79e, 79n, 79t] of the Public Utility Holding Company Act of 1935)

This amendment shall be effective with respect to financial statements filed after August 31, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[Docket No. 76N-0204]

PART 2—ADMINISTRATIVE PRACTICES AND PROCEDURES

Advice on Public Participation in Formal Evidentiary Hearings; Designation of Agency Contact

The Food and Drug Administration (FDA) is establishing a procedure for notifying the public concerning the manner of obtaining information about formal evidentiary hearings and designating an agency contact to advise on public participation; effective August 5, 1976.
